14 SWAPS

SWAPS DE TAUX D'INTÉRÊT

Le Fonds a conclu des contrats de « swaps de taux d'intérêt » par lesquels les contreparties échangent des engagements respectifs concernant le paiement ou la réception d'intérêts sur un montant nominal de référence spécifique. Ledit montant est calculé et enregistré lors de chaque calcul de VNI. Les intérêts à recevoir sont inclus à la rubrique « Intérêts à recevoir » de l'État des actifs nets, et les intérêts à payer sont inclus à la rubrique « Autres dettes » de l'État des actifs nets.

■ Euro Aggregate Bond

CREDIT DEFAULT SWAPS

Le Fonds a conclu des contrats de « Credit Default Swaps », conçus pour transférer entre des parties une exposition de crédit sur des instruments à revenus fixes. Le montant des revenus fixes échangés contre un revenu lié à l'évolution d'événements de crédit d'un indice ou d'une obligation, est calculé et comptabilisé lors de chaque calcul de la VNI.

La contrepartie de ce Credit Default Swap est BANK OF AMERICA.

SWAPS DE PERFORMANCE

Le Fonds a conclu des contrats de « swaps de performance » en vertu desquels deux parties passent un contrat pour échanger des flux de trésorerie en fonction de la performance d'un indice ou d'une action de référence pour la durée spécifique du contrat. Le montant des intérêts payés ou reçus est calculé et comptabilisé lors de chaque calcul de VNI.

■ New Silk Road

Total :					-785,749.79

La contrepartie de ce swap de performance est JP MORGAN.

SWAPS D'INFLATION

Le Fonds a souscrit des « swaps sur l'inflation ». Il s'agit de contrats qui offrent à la partie gagnante la différence entre un niveau d'inflation, appliqué à un montant nominal donné convenu à la conclusion du contrat, et un taux d'intérêt fixe appliqué à ce même montant nominal. Ledit montant est calculé et enregistré lors de chaque calcul de VNI.

■ Euro Inflation Bond

18 ÉTAT DES VARIATIONS DU PORTEFEUILLE

Le détail de la variation des titres composant le portefeuille pour l'exercice se terminant le 30 juin 2024 peut être obtenu gratuitement sur simple demande auprès du siège social du Fonds ou auprès du bureau du représentant de Hong-Kong.

La liste des variations du portefeuille peut également être obtenue gratuitement auprès du bureau de l'agent payeur et d'information en Allemagne, et auprès du bureau du représentant en Suisse.

19 STRUCTURE MAÎTRE-NOURRICIER

Amundi Funds Global Total Return Bond

Le Compartiment Amundi Funds Global Total Return Bond a pour objectif la croissance combinée du capital et des revenus (rendement total). En particulier, le Compartiment investit en tant que fonds nourricier dans Amundi Oblig Internationales (fonds maître) afin de surperformer (après commissions applicables) l'ensemble de l'indice JP Morgan Global Government Bond sur une période donnée de 3 ans.

Le fonds maître investit principalement dans des titres obligataires ou des obligations convertibles de l'OCDE. Les investissements peuvent inclure des titres adossés à des créances hypothécaires (MBS) et des titres adossés à des actifs (ABS).

En particulier, le Compartiment investit au moins 85% de ses actifs nets dans des parts du fonds maître (classe OR-D).

Amundi Oblig Internationales est une SICAV de droit français éligible en qualité de fonds maître au titre de la Directive 2009/65/CE.

Le fonds maître investit jusqu'à 100% dans :

- des titres obligataires émis ou garantis par des États membres de l'OCDE,
- des titres obligataires et des obligations convertibles notés « investment grade » émis par des sociétés domiciliées ou exerçant une partie considérable de leurs activités au sein de l'OCDE,
- des titres MBS et ABS notés AAA (S&P) ou Aaa (Moody's) au moment de l'achat et dont la notation a été abaissée à AA ou Aa2 une fois détenus.

Les créances hypothécaires sous-jacentes des MBS peuvent être commerciales ou résidentielles, et les MBS peuvent être adossés, ou non, à tout type de garantie gouvernementale.

L'exposition du fonds maître à des obligations convertibles contingentes est limitée à 10% des actifs nets.

Le fonds maître offre gère activement son exposition sur les marchés des taux d'intérêt et des changes.

Conformément aux politiques précitées, le fonds maître pourra aussi investir dans des instruments du marché monétaire, des dépôts, et jusqu'à 10% de ses actifs nets dans des OPC/OPCVM.

Le fonds maître a largement recours à des produits dérivés pour réduire différents risques, à des fins de gestion efficace du portefeuille et pour obtenir une exposition (longue ou courte) à divers actifs, marchés ou autres opportunités d'investissement (notamment les produits dérivés ciblant le crédit et le change).

Le fonds maître pourra souscrire des opérations d'achat et de vente de titres de nature temporaire (contrats de pension livrée et de pension inversée sur titres).

Les revenus nets du fonds maître sont automatiquement distribués et ses plus-values nettes réalisées sont automatiquement réinvesties ou distribuées chaque année, dans la mesure établie par la société de gestion du fonds maître.

L'équipe d'investissement du fonds maître utilise un large éventail de positions stratégiques et tactiques, y compris l'arbitrage sur les marchés des changes, des taux d'intérêt et du crédit, en réunissant un portefeuille très diversifié.

Le gestionnaire des investissements des deux Compartiments est Amundi (UK) Limited.

Les frais directement imputés à Amundi Funds Global Total Return Bond s'élèvent à EUR 542,520.44, ce qui est résumé dans le tableau ci-dessous et exprimé en pourcentage de la VNI moyenne des classes de parts du Compartiment Amundi Funds Global Total Return Bond :

			Charges courantes	Commissions de performance
Global Total Return Bond	EUR	Classe A EUR (C)	0.97%	0.57%
	EUR	Classe A EUR AD (D)	0.97%	0.58%
	EUR	Classe A EUR QTD (D)	0.61%	1.14%

	EUR	Classe F2 EUR QTD (D)	1.60%	0.00%
	EUR	Classe G EUR (C)	1.15%	0.62%
	EUR	Classe G EUR QTD (D)	1.15%	0.62%
	EUR	Classe I EUR (C)	0.46%	0.64%
	EUR	Classe I EUR AD (D)	0.48%	1.18%
	EUR	Classe M2 EUR (C)	0.54%	0.00%

Les frais imputés indirectement par l'intermédiaire des frais cumulés dans le fonds maître (classe OR-D) s'élèvent à EUR 46,516.24, soit 0.15% de la VNI moyenne du fonds maître (classe OR-D) Amundi Oblig Internationales.

Le rapport annuel et le rapport semestriel du fonds maître sont disponibles sur demande auprès du siège social du Fonds.

Par ailleurs, Amundi Funds Global Total Return Bond supporte indirectement les frais des fonds sous-jacents détenus dans le fonds maître.

L'opinion d'audit du rapport annuel du Fonds maître émis le 28 juin 2024, sans modification, inclut un paragraphe d'observations concernant l'évaluation des titres russes suite à l'invasion de l'Ukraine par la Russie le 24 février 2022.

Amundi Funds Target Coupon

Le Compartiment Amundi Funds Target Coupon a pour objectif la croissance combinée du capital et des revenus (rendement total). En particulier, le Compartiment investit à titre de fonds nourricier dans Amundi Revenus (fonds maître). Le fonds maître, et par conséquent le Compartiment, sont des produits financiers qui promeuvent les caractéristiques ESG conformément à l'Article 8 du Règlement sur la publication d'informations.

Le fonds maître investit principalement dans tout type de titres de créance (instruments du marché monétaire et obligataire) émis par des gouvernements et des sociétés du monde entier et libellés dans l'une des devises de l'OCDE, en diversifiant les devises et marchés des actions.

En particulier, le Compartiment investit au moins 85% de ses actifs nets dans des parts du fonds maître (classe OR). Le Compartiment peut investir jusqu'à 15% dans des dépôts et produits dérivés utilisés uniquement à des fins de couverture.

Amundi Revenus est un FCP de droit français éligible en qualité de fonds maître au titre de la Directive 2009/65/CE.

Le fonds maître investit au moins 70% de ses actifs nets dans des titres de créance. Le fonds maître peut investir dans :

- des titres obligataires dont la note est inférieure à l'« investment-grade » (obligations à haut rendement),
- des titres obligataires de sociétés subordonnés (y compris des obligations convertibles contingentes à hauteur de 50% des actifs nets) et
- jusqu'à 20% de ses actifs nets dans des titres adossés à des créances hypothécaires (MBS) et des titres adossés à des actifs (ABS).

Le fonds maître pourra également investir dans des actions de sociétés du monde entier, quels que soient leurs secteurs et capitalisations boursières. L'exposition du fonds maître au marché des actions pourra varier dans une fourchette comprise entre 0% et 20% des actifs nets, et son exposition au marché des changes entre 0% et 100% des actifs nets.

Le fonds maître pourra investir jusqu'à 10 % de ses actifs nets dans des OPC/OPCVM.

Le fonds maître a largement recours à des produits dérivés pour réduire différents risques, à des fins de gestion efficace du portefeuille et pour obtenir une exposition (longue ou courte) à divers actifs, marchés ou autres opportunités d'investissement (notamment les produits dérivés ciblant le crédit).

Le fonds maître pourra souscrire des opérations d'achat et de vente de titres de nature temporaire (contrats de pension livrée et de pension inversée sur titres).

Le montant des revenus distribués sera fixé chaque année par la société de gestion du fonds maître, en fonction des rendements prévus des actifs du portefeuille.

La performance du fonds maître n'est comparée à aucun indice particulier.

L'équipe d'investissement du fonds maître vise à exploiter des primes de rendement d'un large univers de placement (principalement des obligations), en utilisant une approche de gestion flexible et basée sur des choix de forte conviction. Elle étudie le taux d'intérêt et les tendances économiques (méthode descendante) pour identifier les stratégies et catégories d'actifs les plus à même d'offrir le meilleur rapport entre le risque et le rendement. L'équipe d'investissement s'appuie ensuite sur son

analyse technique et en profondeur, y compris du crédit et de la prime de risque, pour sélectionner des titres en fonction de leur potentiel de génération de revenus (méthode ascendante) et pour constituer un portefeuille très diversifié au rendement régulier.

Par ailleurs, le fonds maître cherche à obtenir pour son portefeuille une note ESG qui soit supérieure à celle de son univers d'investissement.

Le gestionnaire des investissements des deux Compartiments est Amundi Asset Management.

Les frais directement imputés à Amundi Funds Target Coupon s'élèvent à EUR 666,533.12, ce qui est résumé dans le tableau ci-dessous et exprimé en pourcentage de la VNI moyenne des classes de parts du Compartiment Amundi Funds Target Coupon :

			Charges courantes	Commissions de performance
Target Coupon	EUR	Classe A2 EUR AD (D)	1.04%	-
	EUR	Classe F2 EUR AD (D)	1.65%	-
	EUR	Classe G2 EUR AD (D)	1.25%	-
	EUR	Classe I2 EUR AD (D)	0.56%	-
	EUR	Classe M2 EUR AD (D)	0.66%	-
	EUR	Classe Q-A4 EUR AD (D)	1.01%	-

Les frais imputés indirectement par l'intermédiaire des frais cumulés dans le fonds maître (classe OR) s'élèvent à 17,282.56 soit 0.04% de la VNI moyenne du fonds maître (classe OR) Amundi Revenus.

Par ailleurs, Amundi Funds Target Coupon supporte indirectement les frais des fonds sous-jacents détenus dans le fonds maître.

Le rapport annuel et le rapport semestriel du fonds maître sont disponibles sur demande auprès du siège social du Fonds.

Amundi Funds Montpensier Great European Models SRI

Le Compartiment Amundi Funds Montpensier Great European Models SRI a pour objectif la croissance du capital sur la période de détention recommandée, à travers des Investissements durables, conformément à l'Article 9 du Règlement sur la publication d'informations. En particulier, le Compartiment investit en tant que fonds nourricier dans le fonds Montpensier GREAT EUROPEAN MODELS SRI (fonds maître), qui vise la surperformance de son indice de référence, l'indice Stoxx Europe 600 (SXXR).

Le fonds maître investit principalement dans des actions européennes et des instruments liés à des actions.

En particulier, le Compartiment investit au moins 85% de ses actifs nets dans des parts du fonds maître (classe Y).

Le fonds maître est une SICAV de droit français éligible en qualité de fonds maître au titre de la Directive 2009/65/CE.

Le fonds maître intègre des facteurs de durabilité à son processus d'investissement, comme exposé plus en détail dans le Code de transparence disponible sur la page dédiée au fonds sur le site Internet de la société de gestion, www.montpensier.com.

Le portefeuille du fonds maître comporte une exposition minimale de 60% aux actions des pays de l'Union européenne. Les placements en titres éligibles au Plan d'Épargne Action représenteront un minimum de 75% des actifs.

Dans l'exécution des politiques susmentionnées, le Compartiment pourra également avoir

- une exposition maximale de 30% de ses actifs aux actions de pays européens non membres de l'Espace économique européen ;
- une exposition maximale de 10% de ses actifs aux actions de marchés émergents, telle que définie par le fonds maître ;
- une exposition maximale de 10% de ses actifs aux actions de marchés extérieurs à l'Europe ;
- une exposition maximale au risque de taux d'intérêt de 40% des actifs nets, avec un maximum de 20% des actifs en obligations et 10% en instruments du marché monétaire ;
- une exposition maximale de 10% des actifs nets à des dépôts ;
- une exposition maximale de 10% des actifs nets à des OPCVM/OPC.

Les investissements en actions de petites capitalisations seront limités à 20% des actifs.

Il n'existe pas de contraintes en termes d'allocation sectorielle, d'allocation géographique en Europe, de devise ou de notation pour ces investissements.

Le fonds maître pourra comporter un risque de change limité à 30% de ses actifs nets, en excluant l'euro ou d'autres devises de l'Espace économique européen.

Le fonds maître pourra avoir recours à des produits dérivés pour réduire différents risques et pour obtenir une exposition (longue ou courte) à divers actifs, marchés ou autres opportunités d'investissement (notamment les produits dérivés ciblant les actions).

L'indice Stoxx Europe 600 (SXXR) sert d'indicateur a posteriori pour évaluer la performance du Compartiment.

Le fonds maître est géré de façon active et il n'existe aucune contrainte liée à l'indice Stoxx Europe 600 (SXXR) en matière de construction du portefeuille.

L'approche extra-financière mise en œuvre est décrite dans le Code de transparence de la SICAV disponible sur le site Internet du gestionnaire des investissements du fonds maître. Elle repose sur l'intégration de critères extra-financiers dès la définition de l'univers d'investissement, via un processus d'exclusion visant à réduire cet univers d'investissement initial d'au moins 20 %, conformément aux dispositions du label ISR. De plus, toutes les actions du portefeuille sont analysées conformément à une double approche ESG et fondamentale, le label ISR exigeant au minimum que 90% de ces titres soient analysés selon l'approche ESG.

L'approche extra-financière s'applique en accord avec un objectif de réduction des risques en termes de durabilité.

Les Gestionnaires des investissements des Compartiments sont Amundi Asset Management (fonds nourricier) et Montpensier Finance (fonds maître).

Les frais directement imputés à Amundi Funds Montpensier Great European Models SRI s'élèvent à EUR 6,788.87, ce qui est résumé dans le tableau ci-dessous et exprimé en pourcentage de la VNI moyenne des classes de parts du Compartiment Amundi Funds Montpensier Great European Models SRI :

			Charges courantes	Commissions de performance
Montpensier Great European Models SRI	EUR	Classe A2 EUR (C)	2.74%	-
	EUR	Classe A5 EUR (C)	1.82%	-
	EUR	Classe E2 EUR (C)	2.56%	-
	EUR	Classe F EUR (C)	3.23%	-
	EUR	Classe G EUR (C)	2.88%	-
	EUR	Classe I2 EUR (C)	1.81%	-
	EUR	Classe R2 EUR (C)	1.85%	-

Les frais imputés indirectement par l'intermédiaire des frais cumulés dans le fonds maître s'élèvent à EUR 1,530.63 soit 0.60% de la VNI moyenne du fonds maître Montpensier GREAT EUROPEAN MODELS SRI.

Par ailleurs, Amundi Funds Montpensier Great European Models SRI supporte indirectement les frais des fonds sous-jacents détenus dans le fonds maître.

Le rapport annuel et le rapport semestriel du fonds maître sont disponibles sur demande auprès du siège social du Fonds.

Amundi Funds Montpensier M Climate Solutions

Le Compartiment Amundi Funds Montpensier M Climate Solutions a pour objectif la croissance du capital sur la période de détention recommandée, à travers des Investissements durables, conformément à l'Article 9 du Règlement sur la publication d'informations.

En particulier, le Compartiment investit en tant que fonds nourricier dans le fonds Montpensier M Climate Solutions, dont l'objectif est de profiter du développement des marchés d'actions mondiaux en investissant principalement dans les actions de sociétés dont les initiatives ou les solutions contribuent directement ou indirectement à réduire les conséquences du changement climatique, ou dans les actions de sociétés dont une partie de l'activité concerne des tendances et des évolutions liées au thème de la transition énergétique et climatique.

Le fonds maître investit principalement dans des actions du monde entier.

En particulier, le Compartiment investit au moins 85% de ses actifs nets dans des parts du fonds maître (classe Y).

Le fonds maître est un FCP de droit français éligible en qualité de fonds maître au titre de la Directive 2009/65/CE.

Le fonds maître investit au minimum 75% de ses actifs nets dans des actions et instruments similaires (tels que les certificats d'investissement et les obligations convertibles) de sociétés du monde entier, dans tous les secteurs et toutes les zones géographiques, notamment un maximum de 40% des actifs sur les marchés émergents.

Les instruments équivalant à des actions pourront représenter jusqu'à 25% des actifs nets. Il n'existe pas de contraintes en termes de capitalisation boursière pour ces investissements.

Dans l'exécution des politiques susmentionnées, le Compartiment pourra également :

- inclure une exposition maximale au risque de taux d'intérêt de 40% des actifs nets, avec un maximum de 25% des actifs en obligations et 10% en instruments du marché monétaire ;
- investir un maximum de 10% des actifs nets dans des OPCVM/OPC ; et
- disposer de dépôts allant jusqu'à 10% de ses actifs nets.

Il n'existe pas de contraintes en termes de notation ou de devise pour ces investissements.

Le fonds maître a recours à des produits dérivés pour réduire différents risques et pour obtenir une exposition (longue ou courte) à divers actifs, marchés ou autres opportunités d'investissement (notamment les produits dérivés ciblant le crédit et les actions).

Le fonds maître est géré de manière active.

La référence à un indice sert uniquement à des fins de comparaison ultérieure.

L'indice Stoxx Global 1800 (SXW1R) sert d'indicateur a posteriori pour évaluer la performance du Compartiment.

La stratégie de gestion du fonds maître suit une approche double afin d'identifier les titres de la manière suivante :

- sélection de titres selon des critères non financiers dans le but d'identifier l'implication des sociétés dans la transition énergétique et écologique pour le climat. Certaines activités, telles que l'énergie nucléaire et les combustibles fossiles, seront exclues ;
- complétée par une analyse fondamentale, elle-même soutenue par une étude quantitative basée sur des ratios financiers.

Les Gestionnaires des investissements des Compartiments sont Amundi Asset Management (fonds nourricier) et Montpensier Finance (fonds maître).

Les frais directement imputés à Amundi Funds Montpensier M Climate Solutions s'élèvent à EUR 666,749.56, ce qui est résumé dans le tableau ci-dessous et exprimé en pourcentage de la VNI moyenne du Compartiment Amundi Funds Montpensier M Climate Solutions :

			Charges courantes	Commissions de performance
Montpensier M Climate Solutions	EUR	Classe A2 EUR (C)	1.56%	-
	EUR	Classe A5 EUR (C)	0.82%	-
	EUR	Classe E2 EUR (C)	1.38%	-
	EUR	Classe F EUR (C)	2.23%	-
	EUR	Classe G EUR (C)	1.55%	-
	EUR	Classe I2 EUR (C)	0.64%	-
	EUR	Classe R2 EUR (C)	0.68%	-

Les frais imputés indirectement par l'intermédiaire des frais cumulés dans le fonds maître s'élèvent à EUR 301,139.29, soit 0.45% de la VNI moyenne du fonds maître Montpensier M Climate Solutions.

Par ailleurs, Amundi Funds Montpensier M Climate Solutions supporte indirectement les frais des fonds sous-jacents détenus dans le fonds maître.

Le rapport annuel et le rapport semestriel du fonds maître sont disponibles sur demande auprès du siège social du Fonds.

Amundi Funds Impact Green Bonds

Le Compartiment Amundi Funds Impact Green Bonds a pour objectif la croissance combinée du capital et des revenus (rendement total) sur la période de détention recommandée, à travers des Investissements durables, conformément à l'Article 9 du Règlement sur la publication d'informations.

En particulier, le Compartiment investit en tant que fonds nourricier dans le fonds Amundi Responsible Investing - Impact Green Bonds (fonds maître), dont l'objectif est d'atteindre une performance liée à des Investissements durables, conformément à l'Article 9 du Règlement sur la publication d'informations, en investissant dans des obligations vertes dont l'impact sur l'environnement est positif, évalué à partir de l'estimation des émissions de gaz à effet de serre évitées, en utilisant comme indicateur les tonnes équivalent CO2 (tCO2e) évitées.

Le fonds maître investit principalement dans des obligations vertes de l'OCDE notées « Investment grade », émises par tout émetteur dans le monde entier et libellées dans toute devise.

L'exposition aux devises autres que l'euro est limitée à 10% des actifs nets.

En particulier, le Compartiment investit au moins 85% de ses actifs nets dans des parts du fonds maître (classe OR-D).

Le fonds maître Impact Green Bonds est un Compartiment de la SICAV Amundi Responsible Investing de droit français et est éligible en qualité de fonds maître au titre de la Directive 2009/65/CE.

Le fonds maître pourra investir un maximum de 100% de ses actifs nets dans tous les types d'obligations vertes suivantes, négociées sur un marché réglementé et émises par des gouvernements, des organisations supranationales ainsi que des sociétés privées ou publiques du monde entier, y compris un maximum de 15% des actifs sur les marchés émergents :

- obligations à taux fixe ou variable ;
- obligations indexées : inflation, TEC (Taux à l'échéance constante) ;
- titres subordonnés émis par tout type de banque, société ou compagnie d'assurance ;
- titres adossés à des actifs (ABS) et titres adossés à des créances hypothécaires (MBS) jusqu'à un maximum de 10% des actifs nets.

Le fonds maître investira un minimum de 50% des actifs nets dans des obligations vertes provenant d'émetteurs qui présentent une notation ESG comprise entre A et D.

Au minimum 90% des titres détenus dans le portefeuille sont soumis à une analyse non financière.

Le fonds maître pourra investir un maximum de 15% de ses actifs nets dans des titres non notés ou ayant une notation inférieure à « Investment grade ».

Le risque de change sera couvert à hauteur d'une exposition totale aux devises autres que l'euro de 10% des actifs nets.

Dans l'exécution des politiques susmentionnées, le fonds maître pourra également investir :

- au maximum 30% de ses actifs nets dans des instruments du marché monétaire ;
- au maximum 10% des actifs nets dans des OPCVM/OPC ;
- dans des dépôts.

Le fonds maître a recours à des produits dérivés pour réduire différents risques, à des fins de gestion efficace du portefeuille et pour obtenir une exposition (longue ou courte) à divers actifs, marchés ou autres opportunités d'investissement (notamment les produits dérivés ciblant les taux d'intérêt, le crédit et le taux de change).

Le fonds maître est géré de manière active. L'indice Barclays MSCI Global Green Bond (coupons réinvestis), couvert en euros (l'« Indice ») sert d'indicateur a posteriori pour évaluer la performance du fonds maître.

Il n'existe aucune contrainte liée à l'Indice en matière de construction du portefeuille.

L'investissement durable du fonds maître est principalement axé sur des objectifs environnementaux, en investissant dans les « obligations vertes » qui financent les projets éligibles (i) répondant aux critères et aux lignes directrices des Principes pour les obligations vertes (tels que publiés par l'ICMA) et (ii) pour lesquels l'impact positif sur la transition énergétique et l'environnement des projets financés peut être évalué.

Le Gestionnaire des investissements des deux Compartiments est Amundi Asset Management.

Les frais directement imputés à Amundi Funds Impact Green Bonds s'élèvent à EUR 106,312.21, ce qui est résumé dans le tableau ci-dessous et exprimé en pourcentage de la VNI moyenne du Compartiment Amundi Funds Impact Green Bonds :

			Charges courantes	Commissions de performance
Impact Green Bonds	EUR	Classe A2 EUR (C)	1.08%	-
	EUR	Classe E2 EUR (C)	0.88%	-
	EUR	Classe F2 EUR (C)	1.52%	-
	EUR	Classe G2 EUR (C)	1.20%	-
	EUR	Classe I2 EUR (C)	0.34%	-

22 FRAIS DE RÉCEPTION ET TRANSMISSION DES ORDRES

Les frais de réception et transmission des ordres sont :

- versés à Amundi Intermediation ou à Amundi (UK) Ltd, pour leurs services rendus aux Compartiments gérés par Amundi, services comprenant la centralisation et la meilleure exécution possible des ordres ;
- comptabilisés chaque jour et versés trimestriellement sur la base des opérations traitées par les parties liées à Amundi.

Par rapport à un gestionnaire des investissements négociant des opérations seul, la centralisation des ordres permet notamment de négocier de meilleurs prix auprès des courtiers grâce à l'effet de volume, d'avoir accès à un plus grand nombre de courtiers et à une meilleure information sur les marchés, de bénéficier de l'expertise d'experts en trading et de contrôleurs du trading dédiés.

Ces frais sont comptabilisés à la rubrique « Frais de réception et transmission des ordres » dans l'État des opérations et des variations des actifs nets.

23 OPÉRATIONS AVEC DES PARTIES LIÉES

Les parties liées, en leur qualité de courtiers, peuvent aussi effectuer des opérations ou investir dans des devises ou autres produits financiers pour le compte de chaque Compartiment pour lequel les parties liées agissent en tant que courtier, pour leur propre compte ou en tant que contrepartie pour leurs clients, y compris dans le cas où les parties liées ou leurs clients ont la possibilité d'effectuer des opérations pour leur compte propre en même temps que pour le compte de chaque Compartiment. Les opérations telles que figurent dans le tableau ont été souscrites dans le cadre ordinaire des affaires et dans des conditions normales de concurrence.

Le Fonds considère que les commissions, majorations et réductions appliquées par les parties liées seront compétitives, bien que les parties liées aient un intérêt à obtenir des taux de commission favorables, ainsi que des majorations et réductions pour chaque Compartiment.

Au cours de l'exercice, des transactions pour un montant total de EUR 21,717,646,048.80, soit 8.59% de l'ensemble des transactions réalisées sur l'année, ont été effectuées par ces parties liées.

Pendant l'exercice se terminant le 30 juin 2024, Amundi Funds a effectué des opérations avec des parties liées pour un montant de :

24 SOFT DOLLARS COMMISSIONS

Les Gestionnaires des investissements des Compartiments concernés ont conclu des « soft commissions arrangements » avec des courtiers, par lesquels certains biens et services utilisés pour prendre des décisions en matière d'investissement, offrant des avantages substantiels auxdits Compartiments, sont distribués aux Gestionnaires des investissements. Les biens et services sont payés par les courtiers en déduction de la commission qu'ils reçoivent et les gestionnaires des investissements ne réalisent aucun paiement pour lesdits services. Les biens et services que le Fonds utilise incluent l'analyse de marché ; des services d'information et de cotation, l'évaluation des performances, l'analyse du matériel et des logiciels connexes aux biens et services ; des services de compensation et de dépôt et des publications liées aux investissements.

Les compartiments suivants ont conclu des « soft commission arrangements » :

Climate Transition Global Equity
Equity Japan Target
Japan Equity Value
Global Equity
US Equity Dividend Growth
US Equity ESG Improvers
US Equity Fundamental Growth
Pioneer US Equity Mid Cap
US Equity Research
US Equity Research Value
US Pioneer Fund

26 SWING PRICING

Si, lors d'un Jour d'évaluation, la négociation des actions d'un Compartiment semble devoir nécessiter des achats ou ventes importants d'investissements en portefeuille, le Conseil d'administration peut ajuster la VNI du Compartiment de manière à mieux refléter les prix réels des transactions sous-jacentes, sur la base d'estimations des écarts et des frais des opérations ainsi que d'autres considérations relatives aux marchés et à la négociation. D'une manière générale, il révisé la VNI à la hausse quand la demande d'actions du Compartiment est élevée, et à la baisse quand les demandes de rachat sont nombreuses. Cet ajustement s'applique à toutes les transactions d'un Compartiment un jour donné, lorsque les demandes nettes dépassent un certain seuil défini par le Conseil d'administration. Ces ajustements ont pour objectif de protéger les Actionnaires à long terme de la SICAV des coûts liés aux opérations de souscription et de rachat et non de répondre à la situation particulière de chaque investisseur individuel. D'une manière générale, pour un Jour d'évaluation quelconque, l'ajustement ne dépasse pas les 2% de la VNI, mais le Conseil d'administration peut aller au-delà si la protection des intérêts des actionnaires l'exige.

Les montants d'ajustement enregistrés pour la période se terminant au 30 juin 2024 sont comptabilisés dans la rubrique « État des opérations et des variations de l'actif net » au poste « souscriptions/rachats nets ».

Entre juillet 2023 et juin 2024, les Compartiments suivants étaient concernés par le mécanisme de Swing Pricing :

Aucun ajustement du Swing Pricing n'a été enregistré dans les valeurs nettes d'inventaire par action au 30 juin 2024.

27 TITRES RUSSES

Suite à l'invasion de l'Ukraine par la Russie du 24 février 2022 et de son impact sur les marchés et titres russes, le Conseil d'administration et la Société de gestion ont décidé dès la fin du mois de février de réviser continuellement la situation des actions (y compris les certificats ADR/GDR) et obligations russes et de les évaluer à leur juste valeur.

L'évaluation à la juste valeur prend en compte les régimes de sanctions en vigueur et leur impact sur la négociabilité et le processus de règlement des titres concernés. À l'heure de la rédaction du présent rapport, le processus d'évaluation des titres à leur juste valeur est toujours en place.

Une liste des titres évalués à leur juste valeur au 30 juin 2024 est donnée ci-dessous :

Un nombre limité de transactions ont été effectuées sur de tels titres juste avant l'invasion et n'ont pas encore été réglées.

La valeur cumulée de ces titres au 30 juin 2024 est indiquée ci-dessous :

Nom du compartiment	Montant des opérations non réglées exprimé en USD
Emerging Europe Middle East and Africa	625,042.82
Emerging Markets Equity Focus	252,148.38
Emerging World Equity	2,793,595.42
Russian Equity	1,022,731.17
Emerging Markets Blended Bond	3,398,094.42
Net Zero Ambition Multi-Asset	354,321.86
Pioneer Flexible Opportunities	636,367.38

Les montants correspondants de ces transactions sont reportés dans l'État de l'actif net sous la rubrique « Avoirs en banque et liquidités ».

Au terme d'accords obtenus avec certaines contreparties après la fin de l'exercice financier, plusieurs opérations non réglées ont été déduites des montants crédités aux compartiments.

Les positions à l'origine vendues ont été réintégrées au portefeuille et évaluées à 0. Les soldes des opérations non réglées ont été ajustés et voici les valeurs cumulées au 15 octobre 2024, exprimées à l'aide des mêmes taux de change que ceux utilisés dans le tableau précédent, par souci de cohérence :

Nom du compartiment	Montant des opérations non réglées exprimé en USD
Emerging Europe Middle East and Africa	461,116.40
Emerging Markets Equity Focus	252,148.38
Emerging World Equity	1,641,188.11
Russian Equity	780,776.16
Emerging Markets Blended Bond	642,724.21
Net Zero Ambition Multi-Asset	256,913.30
Pioneer Flexible Opportunities	636,367.38

Le Conseil d'administration et la Société de gestion appliquent actuellement des mesures visant à résoudre ces difficultés dans l'intérêt du fonds et de ses actionnaires, compte tenu du caractère sans précédent de la situation.

Le Conseil d'administration et la Société de gestion continuent de suivre l'évolution de la situation et tiennent rigoureusement compte des options qui leur sont offertes eu égard au Compartiment suspendu, et également à la lumière de la FAQ de la CSSF publiée le 31 mars 2022.

28 TITRES DÉCOTÉS

En fin d'exercice, aucun des Compartiments n'avait investi plus de 10% de sa VNI dans des titres décotés.

29 ÉVÉNEMENTS ULTÉRIEURS

Le Compartiment Global Macro Bonds & Currencies Low Vol sera liquidé le 22 juillet 2024.

Les compartiments suivants seront renommés en date du 12 septembre 2024 :

- Amundi Funds Absolute Return Credit sera renommé Amundi Funds Multi Sector Credit
- Amundi Funds Euro Government Bond sera renommé Amundi Funds Euro Government Responsible Bond
- Amundi Funds Euro Corporate Short Term Impact Green Bond sera renommé Amundi Funds Impact Euro Corporate Short Term Green Bond

30 RÈGLEMENT SUR LA PUBLICATION D'INFORMATIONS EN MATIÈRE DE DURABILITÉ DANS LE SECTEUR DES SERVICES FINANCIERS (« SFDR »)

Des informations relatives aux caractéristiques environnementales et/ou sociales et/ou aux investissements durables sont disponibles à la section (non auditée)

« Règlement sur la publication d'informations en matière de durabilité dans le secteur des services financiers »

et dans les annexes correspondantes, le cas échéant.

Rapport du réviseur d'entreprises agréé

À l'intention des actionnaires de
Amundi Funds

Opinion

À notre avis, les présents états financiers donnent une image juste et fidèle de la situation financière d'Amundi Funds (le « Fonds ») et de chacun de ses compartiments au 30 juin 2024, et des résultats des opérations et des variations de l'actif net pour l'exercice clôturé à cette même date, conformément aux prescriptions légales et réglementaires relatives à l'établissement et à la présentation des états financiers au Luxembourg.

Éléments couverts par l'audit

Les états financiers du Fonds comprennent les éléments suivants :

- le portefeuille de titres au 30 juin 2024 ;
- l'état de l'actif net au dimanche 30 juin 2024 ;
- l'état des opérations et des variations de l'actif net pour l'exercice clôturé à la même date ; et
- les notes aux états financiers, qui incluent un résumé des principales conventions comptables.

Base de l'opinion

Nous avons réalisé notre audit conformément à la Loi du 23 juillet 2016 relative à la profession de l'audit (Loi du 23 juillet 2016) et aux normes internationales d'audit (ISA) telles qu'adoptées pour le Luxembourg par la Commission de Surveillance du Secteur Financier (CSSF). Nos responsabilités en vertu de la Loi du 23 juillet 2016 et des ISA telles qu'adoptées pour le Luxembourg par la CSSF sont décrites plus en détail dans la section « Responsabilités du réviseur d'entreprises agréé pour l'audit des états financiers » de notre rapport.

Nous estimons que les éléments probants recueillis sont suffisants et appropriés pour fonder notre opinion.

Nous sommes indépendants du Fonds, conformément au code de déontologie international de l'International Ethics Standards Board for Accountants pour les comptables professionnels incluant les normes internationales en matière d'indépendance (Code de l'IESBA), tel qu'adopté par la CSSF pour le Luxembourg avec les exigences opportunes en matière de déontologie dans le cadre de notre audit des états financiers. Nous avons assumé nos responsabilités en termes de déontologie en vertu de telles exigences.

Paragraphe d'observation

Nous attirons l'attention sur la note 1 des présents états financiers, qui indique que le Conseil d'administration du Fonds a décidé de suspendre le calcul de la valeur nette d'inventaire, ainsi que l'émission, le rachat et la conversion des actions du compartiment Russian Equity à compter du 28 février 2022, en conséquence des tensions géopolitiques actuelles et des sanctions imposées à la Russie, qui ont rendu impossible la négociation ou l'évaluation de la majorité des actifs de ce compartiment. Notre opinion n'a pas varié à ce sujet.

Autres informations

Le Conseil d'administration du Fonds a la responsabilité des autres informations. Les autres informations comprennent celles qui sont précisées dans le rapport annuel, mais ne couvrent pas les états financiers ni notre rapport du réviseur d'entreprises agréé concernant ceux-ci.

Notre opinion sur les états financiers ne couvre pas les autres informations et nous n'exprimons aucun type de conclusion assortie d'une assurance à leur sujet.

Dans le cadre de notre contrôle des états financiers, notre responsabilité consiste à lire les autres informations identifiées ci-dessus et, ce faisant, à évaluer si de telles informations sont substantiellement incohérentes avec les états financiers ou les connaissances que nous avons acquises au cours de l'audit, ou si elles semblent de toute autre manière substantiellement erronées. Si, d'après nos travaux, nous arrivons à la conclusion que ces informations ont fait l'objet d'une inexactitude significative, nous avons l'obligation de le signaler. Nous n'avons rien à signaler à ce sujet.

Responsabilités du Conseil d'administration du Fonds en ce qui concerne les états financiers

Le Conseil d'administration du Fonds est responsable de l'établissement et de la présentation fidèle des états financiers, conformément aux prescriptions légales et réglementaires relatives à l'établissement et à la présentation des états financiers au Luxembourg. Cette responsabilité couvre également tout contrôle interne que le Conseil d'administration du Fonds jugerait nécessaire pour permettre la préparation d'états financiers exempts d'inexactitude significative, qu'elle résulte d'une fraude ou d'une erreur.

Lors de l'établissement des états financiers, le Conseil d'administration du Fonds est responsable de l'évaluation de la capacité du Fonds et de chacun de ses compartiments à poursuivre leur exploitation, en communiquant, le cas échéant, les points relatifs à la continuité de l'exploitation et en partant du postulat comptable de la continuité de l'exploitation, excepté si le Conseil d'administration du Fonds a l'intention ou n'a pas d'autre solution réaliste que de liquider le Fonds ou tout compartiment de celui-ci ou de cesser leurs activités.

Responsabilités du réviseur d'entreprises agréé pour l'audit des états financiers

Notre audit a pour objectif d'obtenir l'assurance raisonnable que les états financiers dans leur ensemble sont exempts de toute inexactitude significative, qu'elle soit conséquence d'une fraude ou d'une erreur, et d'émettre un rapport d'audit qui présente notre opinion. L'assurance raisonnable correspond à un niveau d'assurance élevé, mais ne saurait garantir qu'un audit mené conformément à la Loi du 23 juillet 2016 et aux ISA telles qu'adoptées pour le Luxembourg par la CSSF permettra toujours de détecter une inexactitude significative, si elle existe. Les inexactitudes peuvent découler de fraudes ou d'erreurs et sont considérées comme significatives si, à titre individuel ou collectif, elles peuvent raisonnablement être jugées susceptibles d'influencer les décisions économiques des utilisateurs prises sur la base de ces états financiers.

Dans le cadre d'un audit réalisé conformément à la Loi du 23 juillet 2016 et aux ISA telles qu'adoptées pour le Luxembourg par la CSSF, nous exerçons notre appréciation professionnelle et faisons preuve de scepticisme professionnel tout au long de l'audit. Notre mission couvre également les tâches suivantes :

- identifier et évaluer les risques d'inexactitude significative des états financiers, qu'elle soit conséquence d'une fraude ou d'une erreur, concevoir et suivre des procédures d'audit répondant à ces risques, et recueillir des éléments probants constituant une base suffisante et adéquate pour former notre opinion d'audit. Le risque de ne pas détecter une inexactitude significative découlant d'une fraude est plus élevé que dans le cas d'une inexactitude résultant d'une erreur, dans la mesure où la fraude implique la collusion, la falsification, des omissions intentionnelles, des assertions inexacts ou le contournement des contrôles internes ;
- obtenir une bonne compréhension des contrôles internes pertinents pour l'audit afin de définir des procédures d'audit adaptées à la situation, mais non dans le but d'exprimer une opinion sur l'efficacité des contrôles internes mis en place par le Fonds ;
- évaluer le caractère approprié des règles comptables utilisées et le caractère raisonnable des estimations comptables et autres communications effectuées par le Conseil d'administration du Fonds ;
- conclure sur la pertinence de l'utilisation par le Conseil d'administration du Fonds du postulat comptable de continuité de l'exploitation et, à partir des éléments probants recueillis, établir s'il existe des incertitudes importantes concernant des événements ou situations pouvant éveiller des doutes sur la capacité du Fonds ou de tout compartiment de celui-ci à poursuivre son exploitation. Si nous arrivons à la conclusion qu'il existe des incertitudes importantes, nous avons l'obligation d'attirer l'attention dans notre rapport d'audit sur les informations connexes dans les états financiers ou, si de telles informations ne sont pas adéquates, de modifier notre opinion. Nos conclusions reposent sur les éléments probants recueillis jusqu'à la date de notre rapport d'audit. Toutefois, des circonstances ou événements futurs peuvent entraîner la cessation de la continuité de l'exploitation du Fonds ou de tout compartiment de celui-ci à l'exception de Global Macro Bonds & currencies Low Vol, pour lequel il existe une décision de liquidation ;
- évaluer la présentation générale, la structure et le contenu des états financiers, y compris les informations, et établir si les états financiers représentent les opérations et événements sous-jacents de manière à donner une image fidèle.

Nous communiquons avec les personnes chargées de la gouvernance concernant, entre autres, la portée et le calendrier prévus pour l'audit ainsi que les conclusions significatives de l'audit, notamment toute anomalie importante dans les contrôles internes que nous pourrions identifier au cours de l'audit.

Nous fournissons également aux personnes chargées de la gouvernance une déclaration selon laquelle nous avons respecté les exigences déontologiques applicables relatives à l'indépendance, et nous leur communiquons les relations et autres questions raisonnablement jugées comme susceptibles de peser sur notre indépendance, et le cas échéant, les mesures prises pour éliminer les menaces ou les sauvegardes appliquées.

PricewaterhouseCoopers, Société coopérative
Représentée par

Christophe Pittie

Luxembourg, le 30 octobre 2024

À l'intention des actionnaires d'Amundi Funds

Par les présentes, nous confirmons qu'à notre avis, la Société de gestion du Fonds a, dans tous les aspects significatifs, géré Amundi Funds conformément aux dispositions de la documentation légale du Fonds, dans sa version modifiée, pour l'exercice clôturé au 30 juin 2024.

Pour le compte et au nom de
CACEIS Bank Luxembourg S.A.

Si la législation l'exige, les avis aux actionnaires seront publiés au Mémorial luxembourgeois, dans le Luxemburger Wort et dans tout autre journal que les administrateurs détermineront.

RÈGLEMENT SUR LES OPÉRATIONS DE FINANCEMENT SUR TITRES

Suite au Règlement 2015/2365 du Parlement européen et du Conseil du 25 novembre 2015 relatif à la transparence des opérations de financement sur titres, seules les transactions concernant les contrats de prise en pension, mise en pension, prêt de titres et swaps de performance étaient soumises à ce Règlement au 30 juin 2024.

Toutes les transactions sont bilatérales.

Les compartiments respectent à tout moment la contrainte selon laquelle « le montant des espèces reçues à titre de garantie de contrats de gré à gré et de contrats de mise en pension doit être supérieur à la somme des dépôts auprès d'établissements de crédit, des investissements dans des obligations d'État de qualité, des opérations de prise en pension auprès d'établissements de crédit et des investissements dans des fonds monétaires à court terme ». Les espèces sont gérées dans leur ensemble. Le processus de gestion des investissements ne distingue pas spécifiquement les espèces reçues à titre de garantie des autres espèces. Les garanties fournies par les Compartiments dans le cadre des contrats de mise en pension sont détenues sur des comptes séparés.

Les intérêts reçus et payés en vertu de contrats de prise en pension et de mise en pension sont indiqués dans l'État des opérations et des variations de l'actif net pour chaque compartiment, aux rubriques « Intérêts reçus sur contrats de mise en pension/prise en pension » et « Intérêts payés sur contrats de mise en pension/prise en pension ».

* Le total n'inclut pas les espèces servant de garantie.

Toutes les transactions sont bilatérales.

Pour chaque contrepartie et chaque compartiment, les positions en garantie sont suivies globalement pour tous les types d'instruments de gré à gré.

Les espèces sont gérées dans leur ensemble. Le processus de gestion des investissements ne distingue pas spécifiquement les espèces reçues à titre de garantie des autres espèces.

Les rendements et coûts découlant des opérations de swaps de performance au cours de l'exercice clôturé au 30 juin 2024 sont inclus dans l'évaluation des swaps.

POLITIQUE ET PRATIQUES EN MATIÈRE DE RÉMUNÉRATION

La politique en matière de rémunération d'Amundi Luxembourg S.A. est conforme aux exigences détaillées dans la Directive européenne 2014/91/UE entrée en vigueur le 18 mars 2016 et transposée dans la Loi luxembourgeoise du 10 mai 2016. La politique en matière de rémunération repose sur le cadre régissant la rémunération du Groupe Amundi, et est revue chaque année et approuvée par le Conseil d'Amundi Luxembourg. La politique fait l'objet d'une révision indépendante par la fonction interne chargée de la Conformité. Dans le cadre des principales évolutions de la politique en matière de rémunération de 2023, un lien a été établi entre ladite politique, « Amundi Ambition 2025 » et le risque en matière de critères ESG et de durabilité. Des critères qualitatifs et quantitatifs ont été rajoutés concernant la rémunération du personnel des fonctions gestion d'investissement, ventes et marketing. Aucun changement important supplémentaire n'a été apporté à la politique en matière de rémunération adoptée pour les années précédentes.

La politique applicable pour 2023 a été approuvée par le Conseil d'administration d'Amundi Luxembourg le 5 octobre 2023. Le Comité de rémunération du Groupe Amundi revoit chaque année la politique en matière de rémunération du groupe. La revue de 2023 a eu lieu le 2 février de cette même année. Les objectifs de la politique et des pratiques en matière de rémunération sont conformes et favorables à une gestion des risques efficace et saine, en alignant la rémunération sur la performance et les risques à long terme afin d'éviter les conflits d'intérêts. Les composantes de rémunération fixe sont liées aux postes couverts, aux services professionnels réalisés et à l'étendue des responsabilités, reflétant le niveau de qualification, les niveaux de salaire du marché, l'expérience et les compétences requises pour chaque poste ainsi que le niveau d'excellence démontré. La rémunération variable est définie pour promouvoir un développement durable à long terme de la Société de gestion ainsi qu'un système de gestion des risques solide et efficace. Les indemnités de la rémunération variable tiennent compte de la performance de l'employé, de sa division opérationnelle et du Groupe Amundi dans son ensemble, et reposent sur des critères tant financiers que non financiers. Amundi Luxembourg S.A. et le Groupe Amundi ont défini tout le personnel identifié disposant d'une autorité ou d'une influence sur les fonds gérés par Amundi, et qui sont par conséquent susceptibles d'avoir un impact sur la performance ou sur le profil de risque des fonds.

MONTANTS ACCORDÉS À TITRE DE RÉMUNÉRATION

Amundi Luxembourg S.A., la Société de gestion, intervient au 31 décembre 2023 en tant que Société de gestion ou gestionnaire de FIA pour plusieurs OPCVM à compartiments multiples et distincts et divers FIA.

La rémunération totale exprimée en euros versée par Amundi Luxembourg S.A. à son personnel pour l'année civile 2023 est la suivante :

	Nbre de bénéficiaires	Rémunération fixe	Rémunération variable	Total
Employés	110	8,737,726.50	1,545,780.42	10,283,506.92
Dont				
- Personnel identifié	9	1,419,514.99	516,082.67	1,935,597.66
- Autres employés	101	7,318,211.51	1,029,697.75	8,347,909.26

Au 31/12/2023 et au 30/06/2024, la SICAV Amundi Funds représentait respectivement environ 35% et 26% du total des actifs nets sous gestion d'Amundi Luxembourg S.A.

Les chiffres de la rémunération totale susmentionnés font référence à des activités concernant tous les fonds gérés.

Les employés d'Amundi Luxembourg S.A. et du Groupe Amundi qui sont nommés au Conseil d'administration de la Société de gestion et/ou du Fonds renoncent au droit de percevoir une quelconque rémunération liée à l'ensemble des fonds gérés.

Aucun employé de la Société de gestion ne peut recevoir de montants lui étant versés directement par les OPCVM ou les FIA gérés, y compris s'il s'agit d'intéressement aux plus-values et de commissions de performance.

RÉMUNÉRATION DES DÉLÉGUÉS

Lorsqu'elles sont mises à disposition de la Société de gestion, les données en matière de rémunération de 2023 relatives aux Gestionnaires des investissements sont détaillées ci-dessous (données relatives aux actifs sous gestion des Compartiments au 30/06/2024).

- Amundi Asset Management gérât 1,090.28 milliards d'euros d'actifs sous gestion, dont 18.79 milliards étaient représentés par des compartiments du fonds (respectivement 1.72% du total des actifs gérés par le Gestionnaire des investissements et 24.75% des actifs sous gestion de l'ensemble des compartiments multiples du fonds). La proportion de la rémunération totale du personnel identifié imputable à la gestion des compartiments s'élevait à EUR 628,756, dont EUR 303,868 à titre de rémunération fixe et EUR 324,888 à titre de rémunération variable. La proportion de la rémunération totale du personnel imputable à la gestion des compartiments s'élevait à EUR 3,566,635, dont EUR 2,499,961 à titre de rémunération fixe et EUR 1,066,674 à titre de rémunération variable. Le personnel identifié d'Amundi Asset Management incluait 100 personnes, sur un total de 1 923 membres du personnel en 2023.

- Amundi Asset Management US Inc. gérât EUR 89.02 milliards d'actifs sous gestion, dont EUR 17.75 milliards représentés par des compartiments du fonds (respectivement 19.94% du total des actifs gérés par le Gestionnaire des investissements et 23.38% des actifs sous gestion de l'ensemble des compartiments multiples du fonds). La proportion de la rémunération totale du personnel identifié imputable à la gestion des compartiments s'élevait à EUR 3,573,236, dont EUR 1,625,015 à titre de rémunération fixe et EUR 1,948,221 à titre de rémunération variable. La proportion de la rémunération totale du personnel imputable à la gestion des compartiments s'élevait à EUR 11,600,610, dont EUR 5,958,804 à titre de rémunération fixe et EUR 5,641,806 à titre de rémunération variable. Le personnel identifié d'Amundi Asset Management US Inc. incluait 50 personnes, sur un total de 183 membres du personnel en 2023.

- Amundi UK Ltd gérât EUR 44.42 milliards d'actifs sous gestion, dont EUR 15.72 milliards représentés par des compartiments du fonds (respectivement 35.39% du total des actifs gérés par le Gestionnaire des investissements et 20.7% des actifs sous gestion de l'ensemble des compartiments multiples du fonds). La proportion de la rémunération totale du personnel identifié imputable à la gestion des compartiments s'élevait à EUR 5,143,928, dont EUR 3,054,244 à titre de rémunération fixe et EUR 2,089,684 à titre de rémunération variable. La proportion de la rémunération totale du personnel imputable à la gestion des compartiments s'élevait à EUR 15,317,002, dont EUR 10,071,487 à titre de rémunération fixe et EUR 5,245,515 à titre de rémunération variable. Le personnel identifié d'Amundi UK Ltd incluait 34 personnes, sur un total de 188 membres du personnel en 2023.

- Amundi Ireland Ltd gérât EUR 37.08 milliards d'actifs sous gestion, dont EUR 15.51 milliards représentés par des compartiments du fonds (respectivement 41.83% du total des actifs gérés par le Gestionnaire des investissements et 20.43% des actifs sous gestion de l'ensemble des compartiments multiples du fonds). La proportion de la rémunération totale du personnel identifié imputable à la gestion des compartiments s'élevait à EUR 1,765,095, dont EUR 890,723 à titre de rémunération fixe et EUR 874,372 à titre de rémunération variable. La proportion de la rémunération totale du personnel imputable à la gestion des compartiments s'élevait à EUR 17,391,370, dont EUR 12,808,102 à titre de rémunération fixe et EUR 4,583,268 à titre de rémunération variable. Le personnel identifié d'Amundi Ireland Ltd. incluait 10 personnes, sur un total de 377 membres du personnel en 2023.

- Amundi SGR S.p.A. gérât EUR 104 milliards d'actifs sous gestion, dont EUR 4.61 milliards étaient représentés par des compartiments du fonds (respectivement 4.43% du total des actifs gérés par le Gestionnaire des investissements et 6,07% des actifs sous gestion de l'ensemble des compartiments multiples du fonds). La proportion de la rémunération totale du personnel identifié imputable à la gestion des compartiments s'élevait à EUR 680,095, dont EUR 349,990 à titre de rémunération

fixe et EUR 330,105 à titre de rémunération variable. La proportion de la rémunération totale du personnel imputable à la gestion des compartiments s'élevait à EUR 2,011,013, dont EUR 1,351,851 à titre de rémunération fixe et EUR 659,162 à titre de rémunération variable. Le personnel identifié d'Amundi SGR S.p.A. incluait 48 personnes, sur un total de 370 membres du personnel en 2023.

- Amundi Austria GmbH gérât EUR 19.7 milliards d'actifs sous gestion, dont EUR 943 millions représentés par le compartiment du fonds (respectivement 4.79% du total des actifs gérés par le Gestionnaire des investissements et 1.24% des actifs sous gestion de l'ensemble des compartiments multiples du fonds). La proportion de la rémunération totale du personnel identifié imputable à la gestion de ce compartiment s'élevait à EUR 322,636, dont EUR 226,466 à titre de rémunération fixe et EUR 96,170 à titre de rémunération variable. La proportion de la rémunération totale du personnel imputable à la gestion des compartiments s'élevait à EUR 736,819, dont EUR 598,261 à titre de rémunération fixe et EUR 138,558 à titre de rémunération variable. Le personnel identifié d'Amundi Austria GmbH incluait 44 personnes, sur un total de 151 membres du personnel en 2023.

- Amundi Hong Kong Ltd. gérât EUR 6.09 milliards d'actifs sous gestion, dont EUR 766 millions représentés par des compartiments du fonds (respectivement 12.58% du total des actifs gérés par le Gestionnaire des investissements et 1.01% des actifs sous gestion de l'ensemble des compartiments multiples du fonds). La proportion de la rémunération totale du personnel identifié imputable à la gestion des compartiments s'élevait à EUR 708,204, dont EUR 457,843 à titre de rémunération fixe et EUR 250,361 à titre de rémunération variable. La proportion de la rémunération totale du personnel imputable à la gestion des compartiments s'élevait à EUR 1,613,262, dont EUR 1,136,319 à titre de rémunération fixe et EUR 476,943 à titre de rémunération variable. Le personnel identifié d'Amundi Hong Kong Ltd incluait 11 personnes, sur un total de 50 membres du personnel en 2023.

- Amundi Deutschland GmbH gérât EUR 19.86 milliards d'actifs sous gestion, dont EUR 747 millions représentés par des compartiments du fonds (respectivement 3.76% du total des actifs gérés par le Gestionnaire des investissements et 0.98% des actifs sous gestion de l'ensemble des compartiments multiples du fonds). La proportion de la rémunération totale du personnel identifié imputable à la gestion des compartiments s'élevait à EUR 104,713, dont EUR 68,206 à titre de rémunération fixe et EUR 36,507 à titre de rémunération variable. La proportion de la rémunération totale du personnel imputable à la gestion des compartiments s'élevait à EUR 887,469, dont EUR 578,159 à titre de rémunération fixe et EUR 309,310 à titre de rémunération variable. Le personnel identifié d'Amundi Deutschland GmbH incluait 10 personnes, sur un total de 139 membres du personnel en 2023.

- Polen Capital Management LLC gérât EUR 66.35 milliards d'actifs sous gestion, dont EUR 682 millions représentés par le compartiment du fonds (respectivement 1.03% du total des actifs gérés par le Gestionnaire des investissements et 0.9% des actifs sous gestion de l'ensemble des compartiments multiples du fonds). La proportion de la rémunération totale du personnel identifié imputable à la gestion de ce compartiment s'élevait à EUR 160,764, dont EUR 23,233 à titre de rémunération fixe et EUR 137,531 à titre de rémunération variable. La proportion de la rémunération totale du personnel imputable à la gestion des compartiments s'élevait à EUR 1,038,458, dont EUR 533,328 à titre de rémunération fixe et EUR 505,130 à titre de rémunération variable. Le personnel identifié de Polen Capital Management LLC incluait 9 personnes, sur un total de 245 membres du personnel en 2023.

- Amundi Japan gérât EUR 33.37 milliards d'actifs sous gestion, dont EUR 232 millions représentés par des compartiments du fonds (respectivement 0.7% du total des actifs gérés par le Gestionnaire des investissements et 0.31% des actifs sous gestion de l'ensemble des compartiments multiples du fonds). La proportion de la rémunération totale du personnel identifié imputable à la gestion des compartiments s'élevait à EUR 25,998, dont EUR 16,054 à titre de rémunération fixe et EUR 9,944 à titre de rémunération variable. La proportion de la rémunération totale du personnel imputable à la gestion des compartiments s'élevait à EUR 118,235, dont EUR 90,740 à titre de rémunération fixe et EUR 27,495 à titre de rémunération variable. Le personnel identifié d'Amundi Japan incluait 15 personnes, sur un total de 191 membres du personnel en 2023.

- Resona Asset Management Co. Ltd. gérât EUR 0.85 milliard d'actifs sous gestion, dont EUR 80 millions représentés par le compartiment du fonds (respectivement 9.41% du total des actifs gérés par le Gestionnaire des investissements et 0.11% des actifs sous gestion de l'ensemble des compartiments multiples du fonds). La proportion de la rémunération totale du personnel identifié imputable à la gestion des compartiments s'élevait à EUR 28,688, dont EUR 18,747 à titre de rémunération fixe et EUR 9,941 à titre de rémunération variable. La proportion de la rémunération totale du personnel imputable à la gestion des compartiments s'élevait à EUR 46,517, dont EUR 30,618 à titre de rémunération fixe et EUR 15,899 à titre de rémunération variable. Le personnel identifié de Resona Asset Management Co. Ltd incluait 4 personnes, sur un total de 7 membres du personnel en 2023.

- Amundi Singapore Ltd gérât EUR 1.50 milliard d'actifs sous gestion, dont EUR 48 millions représentés par les compartiments du fonds (respectivement 3.20% du total des actifs gérés par le Gestionnaire des investissements et 0.06% des actifs sous gestion de l'ensemble des compartiments multiples du fonds). La proportion de la rémunération totale du personnel imputable à la gestion des compartiments s'élevait à EUR 257,728, dont EUR 185,150 à titre de rémunération fixe et EUR 72,578 à titre de rémunération variable. Le personnel identifié d'Amundi Singapore Ltd. incluait 0 personne, sur un total de 49 membres du personnel en 2023.

- Montpensier Finance gérât un compartiment avec EUR 42 millions d'actifs sous gestion, représentant environ 0.06% du total des actifs sous gestion du Fonds. La proportion de la rémunération totale du personnel identifié imputable à la gestion de ce compartiment s'élevait à EUR 101,000, dont EUR 46,000 à titre de rémunération fixe et EUR 55,000 à titre de rémunération variable. La proportion de la rémunération totale du personnel identifié imputable à la gestion de ce compartiment s'élevait à EUR 160,000, dont EUR 76,000 à titre de rémunération fixe et EUR 84,000 à titre de rémunération variable. Le personnel identifié de Montpensier Finance incluait 10 personnes, sur un total de 41 membres du personnel en 2023.

¹ Ce compartiment a été lancé au cours de la période sous revue, voir note 1 pour plus de détails.

² Ce compartiment a changé de nom au cours de la période sous revue, voir note 1 pour plus de détails.

³ Ce compartiment a fait l'objet d'une fusion au cours de la période sous revue, voir la note 1 pour plus de détails.

⁴ Ce compartiment a été liquidé au cours de la période sous revue, voir la note 1 pour plus de détails.

* Dans certains cas (lorsqu'un compartiment a été repris, liquidé ou lancé dans les 12 derniers mois, lorsqu'une classe d'actions a été lancée ou liquidée dans les 12 derniers mois, lorsque les actifs sous gestion pour une classe d'actions ont augmenté ou baissé dans une large mesure au cours des 12 derniers mois, ou lorsqu'il n'existe que peu d'actifs sous gestion pour une classe particulière), le ratio du coût total calculé annuellement (période de référence de 12 mois) peut ne pas être représentatif de la valeur réelle.

RÉGLEMENTATION SUR LES COMMISSIONS DE PERFORMANCE

Suite aux Orientations de l'Autorité européenne des marchés financiers sur les commissions de performance (ESMA34-39-992), l'impact des données de commissions de performance au 30 juin 2024 était comme suit :

Classe d'actions	ISIN	Montant des commissions de performance réalisées à la fin de la période d'observation dans la devise du compartiment	% reposant sur la VNI à la fin de la période d'observation ⁽¹⁾	Montant des commissions de performance cristallisées au quotidien au cours de l'exercice comptable en raison de rachats (dans la devise du compartiment)	% reposant sur la VNI moyenne sur la période comptable ⁽²⁾	Montant des commissions de performance cumulées à la fin de l'exercice (fin de la période comptable dans la devise du compartiment)	% reposant sur la VNI à la fin de la période comptable ⁽³⁾

(1) Montant des commissions de performance réalisées à la fin de la période d'observation dans la devise du compartiment divisé par la VNI à la fin de la période d'observation

(2) Montant des commissions de performance cristallisées au quotidien au cours de l'exercice comptable en raison de rachats dans la devise du compartiment divisé par la VNI moyenne sur la période comptable

(3) Montant des commissions de performance cumulées à la fin de la période d'observation (fin de la période comptable) dans la devise du compartiment divisé par la VNI à la fin de la période comptable

Les classes d'actions actives sans commissions de performance cristallisées au cours de l'exercice ou sans commissions de performance en fin d'exercice ne sont pas reportées dans le tableau.

RÈGLEMENT DISCLOSURE

Le 18 décembre 2019, le Conseil européen et le Parlement européen ont annoncé être parvenus à un accord politique concernant le Règlement Disclosure, cherchant ainsi à établir un cadre paneuropéen pour encourager l'investissement durable. Le Règlement Disclosure prévoit une approche harmonisée dans le respect de la publication d'informations en matière de durabilité à destination des investisseurs dans le secteur des services financiers de l'Espace économique européen.

Aux fins du Règlement Disclosure, la Société de gestion remplit les critères de « participant au marché financier », et chaque Compartiment est éligible en tant que « produit financier ». Pour plus de détails sur la façon dont un Compartiment répond aux exigences du Règlement Disclosure, reportez-vous au supplément du Compartiment concerné. Reportez-vous également à la section sur l'« Investissement durable » dans le Prospectus du Fonds et à la Politique d'Investissement responsable disponible à la page www.amundi.com.

Comme exigé par l'Art. 11 du Règlement Disclosure, le Fonds fait les déclarations suivantes : En vertu de sa politique d'Investissement responsable, Amundi a développé sa propre approche en matière de critères ESG. La notation ESG d'Amundi vise à mesurer les performances ESG d'un émetteur, c'est-à-dire sa capacité à anticiper et à gérer les Risques en matière de durabilité et les opportunités inhérentes à son secteur et à sa situation individuelle. En utilisant les notes ESG, les gestionnaires de portefeuille tiennent compte des Risques en matière de durabilité dans leurs décisions d'investissement. Amundi applique des politiques d'exclusion ciblées à toutes ses stratégies d'investissement actives en excluant les entreprises en contradiction avec la Politique d'investissement responsable, notamment celles qui ne respectent pas les conventions internationales, les cadres communs reconnus sur le plan international ou encore les réglementations nationales.

■ Compartiments relevant de l'Article 9

Ces Compartiments ont un objectif durable et sont pas conséquent classés comme relevant de l'Article 9 en vertu du Règlement SFDR (Règlement (UE) 2019/2088 du Parlement européen et du Conseil du 27 novembre 2019 sur la publication d'informations en matière de durabilité dans le secteur des services financiers). Par conséquent, comme requis par l'Article 58 du RÈGLEMENT DÉLÉGUÉ (UE) 2022/1288 DE LA COMMISSION, des informations détaillées sur les caractéristiques environnementales ou sociales promues par le produit financier sont disponibles en annexe au présent rapport.

Cette annexe contient des informations sur les aspects suivants :

- réalisation de l'objectif d'investissement durable du produit financier ;
- investissements les plus importants, allocation des actifs et proportion d'investissements dans les différents secteurs et sous-secteurs économiques ;
- détails sur les investissements durables.

Liste des Compartiments relevant de l'Article 9 au 30 juin 2024 :

Montpensier Great European Models SRI
Montpensier M Climate Solutions
Euro Corporate Short Term Impact Green Bond
Impact Green Bonds

■ Compartiments relevant de l'Article 8 (Art.11.1 requis)

Les Compartiments mentionnés ci-dessous sont classés comme relevant de l'Article 8 du Règlement Disclosure et visent à promouvoir des caractéristiques environnementales et/ou sociales. Outre le fait d'appliquer la Politique d'investissement responsable d'Amundi, ces Compartiments relevant de l'Article 8 ont pour objectif de promouvoir de telles caractéristiques à travers des investissements découlant sur une note ESG des portefeuilles supérieure à celle de l'indice de référence ou de l'univers d'investissement correspondant. La note du portefeuille ESG est la moyenne pondérée des actifs sous gestion de la note ESG des émetteurs sur le modèle de notation ESG d'Amundi.

Au cours de l'exercice financier sous revue, le Gestionnaire des investissements a continuellement fait la promotion des caractéristiques environnementales et/ou sociales à travers l'application des méthodologies susmentionnées.

■ **Compartiments relevant de l'Article 6**

Étant donné l'orientation en matière d'investissement et les classes d'actifs/secteurs dans lesquels ils investissent, les gestionnaires des investissements de tous les autres Compartiments, non classés comme relevant de l'article 8 ou 9 du Règlement Disclosure, n'ont pas intégré de facteur d'activités économiques durables sur le plan environnemental dans le processus d'investissement pour le Compartiment. Par conséquent, il convient de noter que les investissements à la base de ces Compartiments n'ont pas pris en compte les critères de l'UE concernant les activités économiques durables sur le plan environnemental.

Au cours de l'exercice financier, la Compartiment a, dans le cadre de la Politique d'exclusion et d'application de normes minimales d'Amundi, pris le PAI 14 en considération. Ce PAI concerne les armes controversées et l'exclusion des émetteurs impliqués dans la production, la vente, le stockage ou la prestation de services en lien avec les mines antipersonnel et armes à sous-munitions, interdites par les traités d'Ottawa et d'Oslo. Il couvre également l'exclusion des émetteurs impliqués dans la production, la vente et le stockage d'armes à base d'uranium appauvri, chimiques ou biologiques, tel que précisa dans la Politique mondiale d'investissement responsable d'Amundi.

Informations périodiques pour les produits financiers visés à l'Article 9, paragraphes 1 à 4a, du Règlement (UE) 2019/2088 et à l'Article 5, premier paragraphe du Règlement (UE) 2020/852

Dénomination du produit : AMUNDI FUNDS
MONTPENSIER GREAT EUROPEAN MODELS SRI

Identifiant d'entité juridique :
213800HTVMOYLK1WB84

Par investissement durable, on entend un investissement dans une activité économique qui contribue à un objectif environnemental ou social, pour autant qu'il ne cause de préjudice important à aucun de ces objectifs et que les sociétés détenues respectent les pratiques de bonne gouvernance.

La **Taxinomie de l'UE** est un système de classification institué par le Règlement (UE) 2020/852, qui dresse une liste d'**activités économiques durables sur le plan environnemental**. Ce règlement ne comprend pas de liste d'activités économiques durables sur le plan social. Les investissements durables ayant un objectif environnemental ne sont pas nécessairement alignés sur la taxinomie.

Objectif d'investissement durable

Le produit financier avait-il un objectif d'investissement durable ?

X

Oui

Non

X

Il a réalisé **des investissements durables ayant un objectif environnemental : 17.3%**

X

dans des activités économiques qui sont considérées comme durables sur le plan environnemental au titre de la Taxinomie de l'UE

X

dans des activités économiques qui ne sont pas considérées comme durables sur le plan environnemental au titre de la Taxinomie de l'UE

X

Il a réalisé **des investissements durables ayant un objectif social : _____**

Il a promu des caractéristiques **environnementales/sociales (E/S)** et, bien qu'il n'ait pas eu pour objectif l'investissement durable, il contenait une proportion d'investissements durables de _____

ayant un objectif environnemental dans des activités économiques qui sont considérées comme durables sur le plan environnemental au titre de la Taxinomie de l'UE

ayant un objectif environnemental dans des activités économiques qui ne sont pas considérées comme durables sur le plan environnemental au titre de la Taxinomie de l'UE

ayant un objectif social

Il a promu des caractéristiques E/S, mais **n'a pas réalisé d'investissements durables**

Une société est identifiée comme durable par le gestionnaire d'actifs, par le biais de la méthodologie décrite dans la Politique ESG disponible sur le site Web montpensier.com. Une entreprise peut être impliquée dans plusieurs ODD. Elle est classée par la société de gestion comme durable sur le plan environnemental ou social en fonction de son implication dans l'ODD principal auquel la société de gestion l'a rattachée.

Dans quelle mesure les caractéristiques environnementales et/ou sociales promues par ce produit financier ont-elles été réalisées ?

Le fonds intègre des facteurs de durabilité dans son processus d'investissement, comme indiqué plus en détail ci-dessous. Le Fonds prend les critères ESG en compte afin d'atteindre son objectif d'investissement durable qui consiste à marier la performance financière avec le souhait d'influencer les émetteurs de manière positive, si possible, en matière de performance ESG, en encourageant les entreprises à améliorer l'intégration de critères ESG à leurs activités et en valorisant les bonnes pratiques.

La société de gestion a appliqué la politique décrite dans le Document précontractuel pour les produits financiers visés à l'Article 9, paragraphes 1 à 4a, du Règlement (UE) 2019/2088 et à l'Article 5, premier alinéa du Règlement (UE) 2020/852.

100% du portefeuille investi à l'exclusion de la catégorie trésorerie et équivalents de trésorerie (soit 98.82% de l'actif net du fonds) sont constitués d'investissements durables.

L'empreinte carbone et l'intensité carbone moyenne pondérée du portefeuille sont inférieures à celles de l'indice. Cette performance est attribuable à notre forte sous-exposition aux combustibles fossiles.

L'empreinte carbone et l'intensité carbone moyenne pondérée du portefeuille sont également inférieures à celles de l'indice lorsque l'on inclue les émissions de niveau 3 produites en amont.

Les indicateurs de durabilité évaluent la mesure dans laquelle les caractéristiques environnementales ou sociales promues par le produit financier sont atteintes.

● Quelle a été la performance des indicateurs de durabilité ?

1.1. Performance environnementale

Scopes 1 et 2	28/06/24	30/06/23
Intensité carbone moyenne pondérée en tonnes		
Great European Models SRI	71	72
Stoxx 600	83	101
Empreinte carbone		
Great European Models SRI	12	16
Stoxx 600	65	112
Couverture (% investi)		
Great European Models SRI	96.51%	100.00%
Stoxx 600	99.91%	99.91%

Intensité carbone moyenne pondérée en tonnes d'émissions/Mio USD de chiffre d'affaires
Empreinte carbone en tonnes d'émissions/Mio EUR investi

Émissions de niveau 3 produites en amont, cumulées aux émissions de niveaux 1 et 2	28/06/24	30/06/23
Intensité carbone moyenne pondérée en tonnes		
Great European Models SRI	143	138
Stoxx 600	148	170
Empreinte carbone		
Great European Models SRI	20	25
Stoxx 600	95	162
Couverture (% investi)		
Great European Models SRI	94.90%	99.56%
Stoxx 600	98.11%	98.40%

Source Montpensier Finance à partir des données MSCI

N.B. : en vertu du Règlement délégué (UE) 2022/1288, depuis décembre 2023, l'empreinte carbone se mesure par rapport à l'EVIC (Valeur de l'entreprise incluant les liquidités). Précédemment, elle se mesurait par rapport à la capitalisation boursière.
En outre, depuis le 28 juin 2024, nous avons communiqué toutes les émissions de niveau 3 produites en amont, relevées ou estimées, à la place des émissions de niveau 3 et Tier 1 estimées.

1.2. Performance sociale

	28/06/24	30/06/23
Licenciements importants		
Great European Models SRI	8.7%	13.7%
Stoxx 600	18.8%	20.4%
Couverture (% investi)		
Great European Models SRI	93.15%	100.0%
Stoxx 600	91.36%	90.6%

Great European Models SRI	96.47%	98.43%
Stoxx 600	99.95%	99.37%

Source Montpensier Finance /MSCI

Indépendance du conseil d'administration : pourcentage de sociétés en portefeuille identifiées dont la majorité des administrateurs sont indépendants des employés, des actionnaires majoritaires et des gouvernements.
Rémunération liée aux objectifs ESG : pourcentage de sociétés en portefeuille identifiées comme ayant intégré les critères ESG dans la rémunération de leurs cadres dirigeants. Cette mesure est basée sur les rapports publiés par les sociétés. Elle vise strictement à relever si ces éléments sont ou non inclus dans le calcul de la rémunération variable et ne permet pas de vérifier leur efficacité.

1.4. Performance en matière de droits de l'homme

	28/06/24	30/06/23
Conformité au Pacte mondial - Succès

Source Montpensier Finance /MSCI

Conformité au Pacte mondial : pourcentage de sociétés en portefeuille identifiées comme respectant les principes du Pacte mondial des Nations Unies.

● ... et par rapport aux périodes antérieures ?

Voir plus haut.

● Dans quelle mesure les investissements durables que le produit financier a partiellement réalisés n'ont-ils pas causé de préjudice important à un objectif d'investissement durable sur le plan environnemental ou social ?

Comment les indicateurs concernant les incidences négatives sur les facteurs de durabilité ont-ils été pris en considération ?

L'évaluation du principe consistant à « ne pas causer de préjudice important » (Do Not Significantly Harm, « DNSH ») repose sur des exclusions, les Principales incidences négatives (PAI) et la surveillance des controverses. De plus, les entreprises présentant une analyse d'impact environnemental ou social MIA (Montpensier Impact Assessment) négative, ou qui sont des piliers environnementaux (E) ou sociaux (S), sont considérées comme dérogeant au principe DNSH.

Pour plus d'informations, veuillez consulter le Prospectus ainsi que le document pré-contractuel SFDR annexés au prospectus de l'OPC, disponibles sur le site Web de la société de gestion.

Les principales incidences négatives
correspondent aux incidences négatives les plus significatives des décisions d'investissement sur les facteurs de durabilité liés aux questions environnementales, sociales et de personnel, au respect des droits humains et à la lutte contre la corruption et les actes de corruption.

Les investissements durables étaient-ils conformes aux Principes directeurs de l'OCDE à l'intention des entreprises multinationales et aux Principes directeurs des Nations unies relatifs aux entreprises et aux droits humains ? Description détaillée :

Nous excluons de notre univers d'investissement les entreprises qui ne sont pas alignées sur certaines normes et conventions internationales, notamment le Pacte mondial des Nations unies (PMNU), les règles de l'Organisation internationale du travail (OIT) et les Principes directeurs des Nations unies relatifs aux entreprises et aux droits de l'homme (UNGPBHR). Les entreprises qui font l'objet d'une controverse de niveau « Rouge » sont exclues de l'univers d'investissement. Parmi ces controverses de niveau « Rouge » figurent des entreprises qui ne respectent pas le Pacte mondial des Nations unies (droits de l'homme, normes du travail, environnement et lutte contre la corruption).

Dans quelle mesure ce produit financier a-t-il pris en considération les principales incidences négatives sur les facteurs de durabilité ?

Nous tenons compte des principaux indicateurs relatifs aux incidences négatives dans la politique d'exclusions sectorielles et normatives, l'analyse des pratiques de bonne gouvernance (en nous appuyant sur l'analyse exclusive « Montpensier Governance Flag » ou MGF), l'analyse qualitative exclusive de la contribution des entreprises à la transition environnementale et à la transition solidaire (analyse d'impact « Montpensier Impact Assessment » ou MIA et analyse de la contribution des entreprises par secteur « Montpensier Industry Contributor » ou MIC), et/ou dans l'analyse des éco-activités qui détermine la contribution à un ou plusieurs Objectifs de développement durable (ODD) de l'ONU.

La pertinence et la couverture de ces indicateurs varient selon le secteur et la région dans lesquels exercent les entreprises.

Les informations concernant les objectifs environnementaux, sociaux et de gouvernance (ESG) sont consultables sur le site Web de la société de gestion :

<https://www.montpensier.com/sites/default/files/public/documents/politique-esg.pdf>

Quels ont été les principaux investissements de ce produit financier ?

La liste inclut les investissements qui constituent la proportion la plus importante d'investissements du produit financier au cours de la période de référence, à savoir :

Principaux investissements	Secteur	% des actifs	Pays
Novo Nordisk B	Santé	7.78%	Danemark
ASML Holding	Technologie	7.74%	Pays-Bas
Linde Plc	Chimie	4.66%	Irlande
Essilor Luxottica	Santé	4.05%	France
Lonza	Santé	3.68%	Suisse
Beiersdorf	Soins personnels, pharmacies et épiceries	3.47%	Allemagne
Schneider Electric	Biens et services industriels	3.40%	France
Hermes International	Produits de consommation et services	3.31%	France
ASM International	Technologie	3.28%	Pays-Bas
Atlas Copco A	Biens et services industriels	3.15%	Suède
Dassault Systemes	Technologie	3.10%	France
Coloplast B	Santé	3.09%	Danemark
Novonesis (Novozymes) B	Santé	3.03%	Danemark
Icon Plc	Santé	2.88%	Irlande
L'Oréal	Produits de consommation et services	2.86%	France
Pourcentage total des 15 premières lignes par rapport à l'actif net du fonds au 28/06/2024		59.5%	

Quelle était la proportion d'investissements liés à la durabilité ?

● Quelle était l'allocation d'actifs ?

● Dans quels secteurs économiques ont été réalisés les investissements ?

	% des actifs sous gestion
Santé	26.9%
Consommation discrétionnaire	20.3%
Technologie	19.4%
Industrie	15.4%
Biens de consommation de base	7.4%
Matériaux de base	4.7%
Obligations financières	2.1%
Services aux collectivités	1.7%
Énergie	1.0%
Total	98.8%

de l'actif net du fonds au 28/06/2024

Classification « Industry Classification Benchmark » (ICB) - 11 secteurs d'activité

Aux fins d'observer la taxinomie de l'UE, les critères relatifs au **gaz fossile** incluent des limites aux émissions et le passage à une énergie entièrement renouvelable ou à des combustibles à faible teneur en carbone d'ici fin 2035.

Pour l'**énergie nucléaire**, les critères incluent des règles exhaustives de sécurité et de gestion des déchets.

Les activités alignées sur la taxinomie sont exprimées en pourcentage :

- **du chiffre d'affaires**, pour refléter le caractère écologique actuel des sociétés bénéficiaires des investissements ;
- **des dépenses d'investissement (CapEx)** pour montrer les investissements verts réalisés par les sociétés bénéficiaires des investissements, ce qui est pertinent pour une transition vers une économie verte ; et
- **des dépenses d'exploitation (OpEx)** pour refléter les activités opérationnelles vertes des sociétés bénéficiaires des investissements.

Dans quelle mesure les investissements durables ayant un objectif environnemental étaient-ils alignés sur la Taxinomie de l'UE ?

- **Le produit financier a-t-il investi dans des activités liées au gaz fossile et/ou à l'énergie nucléaire qui sont conformes à la Taxinomie de l'UE¹ ?**

☐ Oui :

Dans le gaz fossile

Dans l'énergie nucléaire

☒ Non

Les données relatives à l'implication dans des activités liées au gaz fossile et/ou à l'énergie nucléaire conformes à la taxinomie sont déterminées en tenant compte uniquement des données publiées par les entreprises.

Les données concernant l'implication des entreprises dans des activités liées au gaz fossile et/ou à l'énergie nucléaire conformes à la taxinomie ne sont pas encore disponibles.

À titre d'information, les actions d'entreprises identifiées comme impliquées dans des activités liées à l'énergie fossile et/ou nucléaire représentent 3.40% du portefeuille, soit 3.40% du portefeuille pour les actions d'entreprises tirant une partie de leur chiffre d'affaires de l'énergie nucléaire et 0.00% pour les actions d'entreprises impliquées dans l'énergie fossile.

¹Les activités liées au gaz fossile et/ou à l'énergie nucléaire ne seront conformes à la Taxinomie de l'UE que si elles contribuent à limiter le changement climatique (« atténuation du changement climatique ») et ne causent pas de préjudice important à tout objectif de la Taxinomie de l'UE. L'intégralité des critères relatifs aux activités économiques liées au gaz fossile et à l'énergie nucléaire conformes à la Taxinomie de l'UE sont définis dans le Règlement délégué (UE) 2022/1214 de la Commission.

Les graphiques ci-dessous font apparaître en vert le pourcentage d'investissements alignés sur la Taxinomie de l'UE. Étant donné qu'il n'existe pas de méthodologie appropriée pour déterminer l'alignement des obligations souveraines* sur la taxinomie, le premier graphique montre l'alignement sur la Taxinomie par rapport à tous les investissements du produit financier, y compris les obligations souveraines, tandis que le deuxième graphique représente l'alignement sur la Taxinomie uniquement par rapport aux investissements du produit financier autres que les obligations souveraines.

* Aux fins de ces graphiques, les « obligations souveraines » comprennent toutes les expositions souveraines. Le chiffre d'affaires est estimé par MSCI ESG Research conformément à la méthodologie décrite ci-dessous. Les données de CapEx et OpEx ne prennent en compte que les données publiées par les entreprises.

Alignement sur la taxinomie européenne

L'alignement sur la taxinomie européenne est estimé par MSCI ESG Research, à partir du pourcentage maximal des ventes d'une entreprise découlant de produits et services répondant à des objectifs environnementaux, sur la base du cadre MSCI Sustainable Impact Metrics.

Le pourcentage des ventes généré par les produits et services qui répondent aux objectifs environnementaux est réduit à 0 pour les entreprises qui ne respectent pas les critères de la taxinomie européenne consistant à « ne pas causer de préjudice important » et à adopter des « garanties sociales minimales ».

Le même principe s'applique aux entreprises dont le chiffre d'affaires découle à hauteur de 5% ou plus de la fourniture, distribution ou vente au détail de produits issus du tabac, et aux entreprises impliquées dans les armes controversées.

Les activités habilitantes permettent directement à d'autres activités de contribuer de manière substantielle à la réalisation d'un objectif environnemental.

Les activités transitoires sont des activités pour lesquelles il n'existe pas encore de solution de remplacement sobre en carbone et, entre autres, dont les niveaux d'émission de gaz à effet de serre correspondent aux meilleures performances réalisables.

 sont des investissements durables ayant un objectif environnemental qui **ne tiennent pas compte des critères** en matière d'activités économiques durables sur le plan environnemental visés par le Règlement (UE) 2020/852.

● **Quelle était la part d'investissements dans les activités transitoires et habilitantes ?**

Le fonds ne dispose pas d'une proportion minimale d'investissements dans des activités transitoires ou habilitantes.

● **Comment se situe le pourcentage d'investissements alignés sur la Taxinomie de l'UE par rapport aux périodes de référence antérieures ?**

	28/06/24	30/06/23
Alignement sur la taxinomie européenne	% des actifs sous gestion	% des actifs sous gestion
Amundi Funds Montpensier Global Conve	4.8%	7.5%

Le pourcentage indiqué ci-dessus représente la contribution du portefeuille à l'alignement sur la taxinomie européenne (sur la base du chiffre d'affaires) de tous les investissements durables, que leur objectif soit environnemental ou social.

Quelle était la part des investissements durables ayant un objectif environnemental qui n'étaient pas alignés sur la Taxinomie de l'UE ?

À la date du présent rapport, 17.3% de l'actif net étaient investis dans des investissements durables ayant un objectif environnemental, tandis que 13.0% n'étaient pas alignés sur la taxinomie de l'UE.

Quelle était la part d'investissements durables sur le plan social ?

À la date du présent rapport, 81.5% de l'actif net étaient investis dans des investissements durables ayant un objectif social.

Quels investissements étaient inclus dans la catégorie « Autres », quelle était leur finalité et existait-il des garanties environnementales ou sociales minimales ?

La trésorerie, les équivalents de trésorerie et les dérivés de couverture représentent 1.2% de l'actif net du fonds et n'offrent pas de garanties environnementales ou sociales minimales.

Quelles mesures ont-elles été prises pour réaliser les caractéristiques environnementales et/ou sociales au cours de la période de référence ?

La société de gestion a appliqué la politique décrite dans les informations précontractuelles pour les produits financiers visés à l'Article 8, paragraphes 1, 2 et 2a, du Règlement (UE) 2019/2088 et à l'Article 6, premier alinéa du Règlement (UE) 2020/852.

La politique en matière d'engagement des actionnaires de Montpensier Finance se compose d'une politique de vote et d'une politique d'engagement.

L'exercice de droits de vote est un élément important du dialogue avec les émetteurs. Il encourage les bonnes pratiques de gouvernance et promeut l'éthique professionnelle.

Montpensier Finance considère que l'exercice des droits de vote fait partie intégrante du processus de gestion des investissements et qu'il doit être effectué dans l'intérêt de ses clients. La politique en matière de droits de vote de Montpensier Finance vise la promotion de la valorisation à long terme de ses investissements dans le fonds.

Pour exercer les droits de vote attachés aux titres détenus par le fonds, les gestionnaires du fonds se réfèrent aux principes concernant les recommandations de gouvernance d'entreprise publiées par ISS Governance dans sa Politique de durabilité. ISS couvre toutes les entreprises détenues dans les portefeuilles des fonds gérés par Montpensier Finance.

Les réglementations en matière de gouvernance exigent aux gestionnaires de portefeuille d'exercer leurs fonctions de manière indépendante, en particulier concernant les émetteurs, et dans le strict intérêt des porteurs de parts ou actionnaires. Les gestionnaires de portefeuille sont particulièrement attentifs aux décisions susceptibles de nuire aux intérêts des porteurs de parts ou actionnaires. La politique complète en matière de vote ainsi que le dernier rapport sur l'exercice des droits de vote sont disponibles sur notre site Web.

Montpensier Finance complète sa politique de vote par une politique d'engagement.

Les équipes de gestion du fonds sont encouragées à soulever toute question qui se pose auprès des entreprises au cours des réunions, en particulier lorsque les problèmes en matière d'ESG ne sont pas suffisamment pris en compte, afin d'encourager ces entreprises à améliorer leurs pratiques concernant les questions environnementales, sociales et de gouvernance, qui constituent toutes des facteurs de croissance durable.

Les gestionnaires du fonds, assistés par les analystes ISR, établiront une entente positive et constructive à moyen et long termes avec les entreprises détenues dans le portefeuille.

Cette entente comporte de multiples facettes :

- ✓ Contacts avec l'entreprise
- ✓ Communication des intentions de vote des gestionnaires du fonds à la société avant l'assemblée générale

Outre les initiatives d'engagement directes que nous menons généralement avec les petites et moyennes entreprises, Montpensier Finance participe également à des actions d'engagement par groupe mises en œuvre par ISS dans le cadre de son programme ISS ESG spécialement pour les grandes entreprises.

Ce dialogue est mis en place avec plusieurs objectifs :

- ✓ Encourager les entreprises à mettre en place un engagement ESG
- ✓ Encourager les entreprises à communiquer sur leurs pratiques ESG

La politique complète en matière d'engagement ainsi que le dernier rapport sur l'engagement sont disponibles sur notre site Web.

Quelles ont été les performances de ce produit financier par rapport à l'indice de référence ?

Un indice de référence est un indice qui sert à mesurer si le produit financier atteint l'objectif de durabilité.

Le fonds n'utilise pas d'indice de référence durable. Sa performance en matière de durabilité est comparée à celle de son indice de référence : Stoxx 600

- ***En quoi l'indice de référence diffère-t-il de l'indice de marché large ?***

N/A

- ***Quelles ont été les performances de ce produit financier par rapport aux indicateurs de durabilité pour déterminer l'alignement de l'indice de référence sur les caractéristiques environnementales ou sociales promues ?***

N/A

- ***Quelle a été la performance de ce produit financier par rapport à l'indice de référence ?***

N/A

- ***Quelle a été la performance de ce produit financier par rapport à l'indice de marché large ?***

Voir plus haut la comparaison entre les indicateurs de performance du fonds et de son indice de référence et les indicateurs de durabilité.

X

dans des activités économiques qui sont considérées comme durables sur le plan environnemental au titre de la Taxinomie de l'UE

X

dans des activités économiques qui ne sont pas considérées comme durables sur le plan environnemental au titre de la Taxinomie de l'UE

Il a réalisé **des investissements durables ayant un objectif social : _____**

Il a promu des caractéristiques environnementales/sociales (E/S) et, bien qu'il n'ait pas eu pour objectif l'investissement durable, il contenait une proportion d'investissements durables de _____

ayant un objectif environnemental dans des activités économiques qui sont considérées comme durables sur le plan environnemental au titre de la Taxinomie de l'UE

ayant un objectif environnemental dans des activités économiques qui ne sont pas considérées comme durables sur le plan environnemental au titre de la Taxinomie de l'UE

ayant un objectif social

Il a promu des caractéristiques E/S, mais **n'a pas réalisé d'investissements durables**

Fonds thématique en actions mondiales, de toutes capitalisations, ciblant des entreprises effectivement impliquées dans la transition énergétique et écologique pour le climat et pouvant avoir un impact réel en la matière.

Dans quelles mesure l'objectif d'investissement durable de ce produit financier a-t-il été atteint ?

Le fonds intègre des facteurs de durabilité dans son processus d'investissement, comme indiqué plus en détail ci-dessous.

L'objectif d'investissement durable du fonds consiste à identifier les sociétés impliquées dans la transition énergétique et écologique pour le climat afin d'acquérir principalement des actions de celles qui prennent des initiatives ou offrent des solutions contribuant directement ou indirectement à réduire l'impact du changement climatique ou de celles dont une partie de l'activité porte sur des changements et développements liés à la transition énergétique pour le climat.

Les critères ESG sont pris en compte par le fonds afin d'unifier la performance financière et le souhait d'influencer l'émetteur de manière positive, si possible, en matière de performance ESG, en encourageant les entreprises à améliorer l'intégration de critères ESG à leurs activités et en valorisant les bonnes pratiques.

La société de gestion a appliqué la politique décrite dans le Document précontractuel pour les produits financiers visés à l'Article 9, paragraphes 1 à 4a, du Règlement (UE) 2019/2088 et à l'Article 5, premier alinéa du Règlement (UE) 2020/852.

100% du portefeuille investi à l'exclusion de la catégorie trésorerie et équivalents de trésorerie (soit 98.11% de l'actif net du fonds) sont constitués d'investissements durables.

L'empreinte carbone et l'intensité carbone moyenne pondérée du portefeuille sont inférieures à celles de l'indice. Cette performance est attribuable à notre forte sous-exposition aux combustibles fossiles.

L'empreinte carbone et l'intensité carbone moyennes pondérées sont alignées sur celles de l'indice, et l'empreinte carbone est inférieure à celle de l'indice lorsque l'on inclue les émissions de niveau 3 produites en amont.

Les indicateurs de durabilité évaluent la mesure dans laquelle les caractéristiques environnementales ou sociales promues par le produit financier sont atteintes.

● **Quelle a été la performance des indicateurs de durabilité ?**

1.1. Performance environnementale

Scopes 1 et 2	28/06/24	30/06/23
Intensité carbone moyenne pondérée en tonnes

Conformité au Pacte mondial : pourcentage de sociétés en portefeuille identifiées comme respectant les principes du Pacte mondial des Nations Unies.

● ... et par rapport aux périodes antérieures ?

Voir plus haut.

Les principales incidences négatives correspondent aux incidences négatives les plus significatives des décisions d'investissement sur les facteurs de durabilité liés aux questions environnementales, sociales et de personnel, au respect des droits humains et à la lutte contre la corruption et les actes de corruption.

● Dans quelle mesure les investissements durables n'ont-ils pas causé de préjudice important à un objectif d'investissement durable ?

Comment les indicateurs concernant les incidences négatives sur les facteurs de durabilité ont-ils été pris en considération ?

L'évaluation du principe consistant à « ne pas causer de préjudice important » (Do Not Significantly Harm, « DNSH ») repose sur des exclusions, les Principales incidences négatives (PAI) et la surveillance des controverses. De plus, les entreprises présentant une analyse d'impact environnemental ou social MIA (Montpensier Impact Assessment) négative, ou qui sont des piliers environnementaux (E) ou sociaux (S), sont considérées comme dérogeant au principe DNSH.

Pour plus d'informations, veuillez consulter le Prospectus ainsi que le document pré-contractuel SFDR annexés au prospectus de l'OPC, disponibles sur le site Web de la société de gestion.

Les investissements durables étaient-ils conformes aux Principes directeurs de l'OCDE à l'intention des entreprises multinationales et aux Principes directeurs des Nations unies relatifs aux entreprises et aux droits humains ? Description détaillée :

Nous excluons de notre univers d'investissement les entreprises qui ne sont pas alignées sur certaines normes et conventions internationales, notamment le Pacte mondial des Nations unies (PMNU), les règles de l'Organisation internationale du travail (OIT) et les Principes directeurs des Nations unies relatifs aux entreprises et aux droits de l'homme (UNGPBHR). Les entreprises qui font l'objet d'une controverse de niveau « Rouge » sont exclues de l'univers d'investissement. Parmi ces controverses de niveau « Rouge » figurent des entreprises qui ne respectent pas le Pacte mondial des Nations unies (droits de l'homme, normes du travail, environnement et lutte contre la corruption).

Dans quelle mesure ce produit financier a-t-il pris en considération les principales incidences négatives sur les facteurs de durabilité ?

Nous tenons compte des principaux indicateurs relatifs aux incidences négatives dans la politique d'exclusions sectorielles et normatives, l'analyse des pratiques de bonne gouvernance (en nous appuyant sur l'analyse exclusive « Montpensier Governance Flag » ou MGF), l'analyse qualitative exclusive de la contribution des entreprises à la transition environnementale et à la transition solidaire (analyse d'impact « Montpensier Impact Assessment » ou MIA et analyse de la contribution des entreprises par secteur « Montpensier Industry Contributor » ou MIC), et/ou dans l'analyse des éco-activités qui détermine la contribution à un ou plusieurs Objectifs de développement durable (ODD) de l'ONU.

La pertinence et la couverture de ces indicateurs varient selon le secteur et la région dans lesquels exercent les entreprises.

Les informations concernant les objectifs environnementaux, sociaux et de gouvernance (ESG) sont consultables sur le site Web de la société de gestion :

<https://www.montpensier.com/sites/default/files/public/documents/politique-esg.pdf>

Quels ont été les principaux investissements de ce produit financier ?

La liste inclut les investissements qui constituent la proportion la plus importante d'investissements du produit financier au cours de la période de référence, à savoir :

Principaux investissements	Secteur	% des actifs	Pays
Neoen SA	Services aux collectivités	6.10%	France
Xylem Inc	Biens et services industriels	5.89%	États-Unis
Nvidia Corp	Technologie	5.68%	États-Unis
Nextracker Inc.	Énergie	5.19%	États-Unis
First Solar Inc	Énergie	4.64%	États-Unis
Solaria Energia Y Medio Ambi	Services aux collectivités	4.44%	Espagne
EDP Renovaveis SA	Services aux collectivités	4.05%	Espagne
Vestas Wind Systems	Énergie	4.04%	Danemark
Encavis AG - Tender	Services aux collectivités	3.42%	Allemagne
Schneider Electric	Biens et services industriels	3.40%	France
Nordex SE	Énergie	3.17%	Allemagne
Nel Asa	Énergie	3.11%	Norvège
Scatec Solar Asa	Services aux collectivités	3.02%	Norvège
Sunrun Inc	Services aux collectivités	2.90%	États-Unis
Dassault Systemes	Technologie	2.90%	France
Pourcentage total des 15 premières lignes par rapport à l'actif net du fonds au 28/06/2024		62.0%	

Quelle était la proportion d'investissements liés à la durabilité ?

L'allocation d'actifs décrit la part des investissements dans des actifs spécifiques.

● Quelle était l'allocation d'actifs ?

● Dans quels secteurs économiques ont été réalisés les investissements ?

	% des actifs sous gestion	
Énergie	30.4%	
Services aux collectivités	26.3%	
Industrie	19.7%	
Technologie	13.6%	
Consommation discrétionnaire	3.3%	
Santé	2.6%	
Biens de consommation de base	2.1%	
Total	98.1%	de l'actif net du fonds au 28/06/2024

Classification « Industry Classification Benchmark » (ICB) - 11 secteurs d'activité

Aux fins d'observer la taxinomie de l'UE, les critères relatifs au **gaz fossile** incluent des limites aux émissions et le passage à une énergie entièrement renouvelable ou à des combustibles à faible teneur en carbone d'ici fin 2035.

Pour l'**énergie nucléaire**, les critères incluent des règles exhaustives de sécurité et de gestion des déchets.

Les activités alignées sur la taxinomie sont exprimées en pourcentage :

- **du chiffre d'affaires**, pour refléter le caractère écologique actuel des sociétés bénéficiaires des investissements ;
- **des dépenses d'investissement (CapEx)** pour montrer les investissements verts réalisés par les sociétés bénéficiaires des investissements, ce qui est pertinent pour une transition vers une économie verte ; et
- **des dépenses d'exploitation (OpEx)** pour refléter les activités opérationnelles vertes des sociétés bénéficiaires des investissements.

Dans quelle mesure les investissements durables ayant un objectif environnemental étaient-ils alignés sur la Taxinomie de l'UE ?

- **Le produit financier a-t-il investi dans des activités liées au gaz fossile et/ou à l'énergie nucléaire qui sont conformes à la Taxinomie de l'UE¹ ?**

☐ Oui :

Dans le gaz fossile

Dans l'énergie nucléaire

☒ Non

Les données relatives à l'implication dans des activités liées au gaz fossile et/ou à l'énergie nucléaire conformes à la taxinomie sont déterminées en tenant compte uniquement des données publiées par les entreprises.

Les données concernant l'implication des entreprises dans des activités liées au gaz fossile et/ou à l'énergie nucléaire conformes à la taxinomie ne sont pas encore disponibles.

À titre d'information, les actions d'entreprises identifiées comme impliquées dans des activités liées à l'énergie fossile et/ou nucléaire représentent 3.40% du portefeuille, soit 3.40% du portefeuille pour les actions d'entreprises tirant une partie de leur chiffre d'affaires de l'énergie nucléaire et 0.00% pour les actions d'entreprises impliquées dans l'énergie fossile.

¹ Les activités liées au gaz fossile et/ou à l'énergie nucléaire ne seront conformes à la Taxinomie de l'UE que si elles contribuent à limiter le changement climatique (« atténuation du changement climatique ») et ne causent pas de préjudice important à tout objectif de la Taxinomie de l'UE. L'intégralité des critères relatifs aux activités économiques liées au gaz fossile et à l'énergie nucléaire conformes à la Taxinomie de l'UE sont définis dans le Règlement délégué (UE) 2022/1214 de la Commission.

Les graphiques ci-dessous font apparaître en vert le pourcentage d'investissements alignés sur la Taxinomie de l'UE. Étant donné qu'il n'existe pas de méthodologie appropriée pour déterminer l'alignement des obligations souveraines* sur la taxinomie, le premier graphique montre l'alignement sur la Taxinomie par rapport à tous les investissements du produit financier, y compris les obligations souveraines, tandis que le deuxième graphique représente l'alignement sur la Taxinomie uniquement par rapport aux investissements du produit financier autres que les obligations souveraines.

* Aux fins de ces graphiques, les « obligations souveraines » comprennent toutes les expositions souveraines. Le chiffre d'affaires est estimé par MSCI ESG Research conformément à la méthodologie décrite ci-dessous. Les données de CapEx et OpEx ne prennent en compte que les données publiées par les entreprises.

Alignement sur la taxinomie européenne

L'alignement sur la taxinomie européenne est estimé par MSCI ESG Research, à partir du pourcentage maximal des ventes d'une entreprise découlant de produits et services répondant à des objectifs environnementaux, sur la base du cadre MSCI Sustainable Impact Metrics.

Le pourcentage des ventes généré par les produits et services qui répondent aux objectifs environnementaux est réduit à 0 pour les entreprises qui ne respectent pas les critères de la taxinomie européenne consistant à « ne pas causer de préjudice important » et à adopter des « garanties sociales minimales ».

Le même principe s'applique aux entreprises dont le chiffre d'affaires découle à hauteur de 5% ou plus de la fourniture, distribution ou vente au détail de produits issus du tabac, et aux entreprises impliquées dans les armes controversées.

Les activités habilitantes permettent directement à d'autres activités de contribuer de manière substantielle à la réalisation d'un objectif environnemental.

Les activités transitoires sont des activités pour lesquelles il n'existe pas encore de solution de remplacement sobre en carbone et, entre autres, dont les niveaux d'émission de gaz à effet de serre correspondent aux meilleures performances réalisables.

 sont des investissements durables ayant un objectif environnemental qui **ne tiennent pas compte des critères** en matière d'activités économiques durables sur le plan environnemental visés par le Règlement (UE) 2020/852.

● **Quelle était la part d'investissements dans les activités transitoires et habilitantes ?**

Le fonds ne dispose pas d'une proportion minimale d'investissements dans des activités transitoires ou habilitantes.

● **Comment se situe le pourcentage d'investissements alignés sur la Taxinomie de l'UE par rapport aux périodes de référence antérieures ?**

	28/06/24	30/06/23
Alignement sur la taxinomie européenne	% des actifs sous gestion	% des actifs sous gestion
Amundi Funds Montpensier Global Conve	65.8%	65.7%

Le pourcentage indiqué ci-dessus représente la contribution du portefeuille à l'alignement sur la taxinomie européenne (sur la base du chiffre d'affaires) de tous les investissements durables, que leur objectif soit environnemental ou social.

Quelle était la part des investissements durables ayant un objectif environnemental qui n'étaient pas alignés sur la Taxinomie de l'UE ?

À la date du présent rapport, 96.6% de l'actif net étaient investis dans des investissements durables ayant un objectif environnemental, tandis que 3.6% n'étaient pas alignés sur la taxinomie de l'UE.

Quelle était la part d'investissements durables sur le plan social ?

À la date du présent rapport, 0.0% de l'actif net était investi dans des investissements durables ayant un objectif social, sachant qu'il s'agit d'un fonds thématique en actions mondiales, de toutes capitalisations, ciblant des entreprises effectivement impliquées dans la transition énergétique et environnementale pour le climat et pouvant avoir un impact réel en la matière.

Quels investissements étaient inclus dans la catégorie « Non durables », quelle était leur finalité et existait-il des garanties environnementales ou sociales minimales ?

La trésorerie, les équivalents de trésorerie et les dérivés de couverture représentent 1.9% de l'actif net du fonds et n'offrent pas de garanties environnementales ou sociales minimales.

Quelles mesures ont-elles été prises pour atteindre l'objectif durable au cours de la période de référence ?

La société de gestion a appliqué la politique décrite dans les informations précontractuelles pour les produits financiers visés à l'Article 8, paragraphes 1, 2 et 2a, du Règlement (UE) 2019/2088 et à l'Article 6, premier alinéa du Règlement (UE) 2020/852.

La politique en matière d'engagement des actionnaires de Montpensier Finance se compose d'une politique de vote et d'une politique d'engagement.

L'exercice de droits de vote est un élément important du dialogue avec les émetteurs. Il encourage les bonnes pratiques de gouvernance et promeut l'éthique professionnelle.

Montpensier Finance considère que l'exercice des droits de vote fait partie intégrante du processus de gestion des investissements et qu'il doit être effectué dans l'intérêt de ses clients. La politique en matière de droits de vote de Montpensier Finance vise la promotion de la valorisation à long terme de ses investissements dans le fonds.

Pour exercer les droits de vote attachés aux titres détenus par le fonds, les gestionnaires du fonds se réfèrent aux principes concernant les recommandations de gouvernance d'entreprise publiées par

ISS Governance dans sa Politique de durabilité. ISS couvre toutes les entreprises détenues dans les portefeuilles des fonds gérés par Montpensier Finance.

Les réglementations en matière de gouvernance exigent aux gestionnaires de portefeuille d'exercer leurs fonctions de manière indépendante, en particulier concernant les émetteurs, et dans le strict intérêt des porteurs de parts ou actionnaires. Les gestionnaires de portefeuille sont particulièrement attentifs aux décisions susceptibles de nuire aux intérêts des porteurs de parts ou actionnaires.

La politique complète en matière de vote ainsi que le dernier rapport sur l'exercice des droits de vote sont disponibles sur notre site Web.

Montpensier Finance complète sa politique de vote par une politique d'engagement.

Les équipes de gestion du fonds sont encouragées à soulever toute question qui se pose auprès des entreprises au cours des réunions, en particulier lorsque les problèmes en matière d'ESG ne sont pas suffisamment pris en compte, afin d'encourager ces entreprises à améliorer leurs pratiques concernant les questions environnementales, sociales et de gouvernance, qui constituent toutes des facteurs de croissance durable.

Les gestionnaires du fonds, assistés par les analystes ISR, établiront une entente positive et constructive à moyen et long termes avec les entreprises détenues dans le portefeuille.

Cette entente comporte de multiples facettes :

- ✓ Contacts avec l'entreprise
- ✓ Communication des intentions de vote des gestionnaires du fonds à la société avant l'assemblée générale

Outre les initiatives d'engagement directes que nous menons généralement avec les petites et moyennes entreprises, Montpensier Finance participe également à des actions d'engagement par groupe mises en œuvre par ISS dans le cadre de son programme ISS ESG spécialement pour les grandes entreprises.

Ce dialogue est mis en place avec plusieurs objectifs :

- ✓ Encourager les entreprises à mettre en place un engagement ESG
- ✓ Encourager les entreprises à communiquer sur leurs pratiques ESG

La politique complète en matière d'engagement ainsi que le dernier rapport sur l'engagement sont disponibles sur notre site Web.

Quelles ont été les performances de ce produit financier par rapport à l'indice de référence ?

Un indice de référence est un indice qui sert à mesurer si le produit financier atteint l'objectif de durabilité.

Le fonds n'utilise pas d'indice de référence durable. Sa performance en matière de durabilité est comparée à celle de son indice de référence : Stoxx Global 1800

- **En quoi l'indice de référence diffère-t-il de l'indice de marché large ?**

N/A

- **Quelles ont été les performances de ce produit financier par rapport aux indicateurs de durabilité pour déterminer l'alignement de l'indice de référence sur les caractéristiques environnementales ou sociales promues ?**

N/A

- **Quelle a été la performance de ce produit financier par rapport à l'indice de référence ?**

N/A

- **Quelle a été la performance de ce produit financier par rapport à l'indice de marché large ?**

Voir plus haut la comparaison entre les indicateurs de performance du fonds et de son indice de référence et les indicateurs de durabilité.

Informations périodiques pour les produits financiers visés à l'Article 8, paragraphes 1, 2 et 2a, du Règlement (UE) 2019/2088 et à l'Article 6, premier paragraphe du Règlement (UE) 2020/852

Dénomination du produit : AMUNDI FUNDS IMPACT
EURO CORPORATE SHORT TERM GREEN BOND

Identifiant d'entité juridique :
549300U5T6UEW3OI8O37

Par investissement durable, on entend un investissement dans une activité économique qui contribue à un objectif environnemental ou social, pour autant qu'il ne cause de préjudice important à aucun de ces objectifs et que les sociétés détenues respectent les pratiques de bonne gouvernance.

La Taxinomie de l'UE est un système de classification institué par le Règlement (UE) 2020/852, qui dresse une liste d'**activités économiques durables sur le plan environnemental**. Ce règlement ne comprend pas de liste d'activités économiques durables sur le plan social. Les investissements durables ayant un objectif environnemental ne sont pas nécessairement alignés sur la taxinomie.

Objectif d'investissement durable

Le produit financier avait-il un objectif d'investissement durable ?

X

Oui

Non

X

Il a réalisé des investissements durables ayant un objectif environnemental : 89.86%

dans des activités économiques qui sont considérées comme durables sur le plan environnemental au titre de la Taxinomie de l'UE

dans des activités économiques qui ne sont pas considérées comme durables sur le plan environnemental au titre de la Taxinomie de l'UE

Il a réalisé des investissements durables ayant un objectif social : _____

Il a promu des caractéristiques environnementales/sociales (E/S) et, bien qu'il n'ait pas eu pour objectif l'investissement durable, il contenait une proportion d'investissements durables de _____

ayant un objectif environnemental dans des activités économiques qui sont considérées comme durables sur le plan environnemental au titre de la Taxinomie de l'UE

ayant un objectif environnemental dans des activités économiques qui ne sont pas considérées comme durables sur le plan environnemental au titre de la Taxinomie de l'UE

ayant un objectif social

Il a promu des caractéristiques E/S, mais n'a pas réalisé d'investissements durables

Dans quelles mesure l'objectif d'investissement durable de ce produit financier a-t-il été atteint ?

Au cours de l'exercice financier, le produit n'a cessé de promouvoir les caractéristiques environnementales et/ou sociales en cherchant à atteindre une note ESG supérieure à celle de son univers d'investissement **BLOOMBERG EURO GREEN BOND INDEX : CORPORATE**. Pour déterminer la note ESG du Produit et de l'univers d'investissement ESG, la performance ESG a été évaluée de manière continue en comparant la performance moyenne d'un titre par rapport au secteur de l'émetteur du titre, pour chacune des trois caractéristiques, à savoir environnementale, sociale et de gouvernance.

L'univers d'investissement est un univers de marché large qui n'évalue ni n'inclut pas de composantes en fonction de caractéristiques environnementales et/ou sociales, et qui n'a par conséquent pas pour vocation d'être conforme aux caractéristiques promues par le fonds. Aucun indice de référence ESG n'a été désigné.

Le compartiment a maintenu la part prévue de son allocation investie dans l'utilisation d'obligations vertes.

L'objectif des obligations vertes consiste à financer les projets qui génèrent un impact sur l'environnement positif et quantifiable. L'indicateur clé mesurant l'impact des obligations vertes est le nombre de « Tonnes d'émissions de CO2 évitées par million d'euros investis en un an ». Au-delà de l'analyse financière quantitative et qualitative des obligations susceptibles de composer le portefeuille, le processus de sélection inclut une évaluation de la stratégie ESG au niveau de l'émetteur et une évaluation des obligations vertes suivant plusieurs points d'analyse :

1. Amundi a mis au point un système de notation ESG exclusif reposant sur une échelle de 7 lettres allant de A à G, où A correspond à la meilleure notation et G à la moins bonne notation. Tout émetteur assorti de la note G est exclu de tous les portefeuilles d'Amundi faisant l'objet d'une gestion active. Nous vérifions la notation ESG de l'émetteur et surveillons la conformité de la notation aux critères associés du fonds. Comme indiqué ci-dessus, les émetteurs ayant reçu la note G selon l'échelle de notation ESG d'Amundi ne sont pas éligibles à l'investissement. S'il existe des points faibles, l'équipe ESG Research effectuera une recherche de controverse plus détaillée concernant le pilier associé (E, S ou G).

2. L'évaluation des obligations vertes selon les critères suivants : (i) analyse du projet, via l'analyse de l'emplacement géographique des actifs, action sur les actifs, évaluation de tout impact supplémentaire du projet vert sur l'environnement, la biodiversité, les communautés locales ou autres aspects sociaux (principe consistant à « ne pas causer de préjudice important »), alignement sur les normes du secteur (par ex. alignement sur les principes des obligations vertes de l'International Capital Markets Association, l'initiative pour les obligations climat Climate Bond Initiative, la taxinomie de l'UE) ; (ii) analyse de l'émetteur aux niveaux de la stratégie ESG globale et de la controverse ; (iii) logique du financement vert (type de projets financés, allocation d'actifs verts, type d'instruments finançant les projets verts) ; et (iv) transparence (rapport sur les obligations vertes, existence d'évaluation par seconde partie)

3. La surveillance continue (investissement ex post), qui inclut la révision régulière de l'allocation, un rapport d'impact des obligations vertes, les controverses dans lesquelles l'émetteur est impliqué et la stratégie environnementale de l'émetteur.

Enfin, toutes les obligations vertes sélectionnées doivent respecter les critères et recommandations des principes des obligations vertes telles que publiées par l'International Capital Market Association. Veuillez consulter la Politique d'investissement responsable d'Amundi pour plus de renseignements sur ce qui précède.

● *Quelle performance ont affiché les indicateurs de durabilité ?*

Amundi a développé son propre processus de notation ESG interne, qui suit une approche « Best-in-class ». Les notations adaptées à chaque secteur d'activité ont pour objectif d'évaluer la dynamique dans laquelle interviennent les entreprises.

L'indicateur de durabilité employé est la note ESG du Produit mesurée en comparaison avec la note ESG de l'univers d'investissement ESG du Produit.

À la fin de la période :

- La note ESG moyenne pondérée du portefeuille est **1.118 (C)**.
- La note ESG moyenne pondérée de l'univers d'investissement ESG est **0.799 (C)**.

La notation ESG Amundi utilisée pour déterminer la note ESG est une note ESG quantitative qui se décline en sept niveaux allant de A (les meilleures notes de l'univers) à G (les pires notes). Sur l'échelle de notation ESG d'Amundi, les titres figurant sur la liste d'exclusion correspondent à G. Pour les entreprises émettrices, la performance ESG est évaluée de manière globale et au niveau des critères pertinents par comparaison avec la performance moyenne du secteur, en combinant les trois dimensions ESG :

- Dimension environnementale : cette dimension examine la capacité des émetteurs à contrôler leur impact environnemental direct et indirect, en limitant leur consommation d'énergie, en réduisant leurs émissions de gaz à effet de serre, en luttant contre l'appauvrissement des ressources et en protégeant la biodiversité.
- Dimension sociale : cette dimension évalue le fonctionnement d'un émetteur dans deux domaines différents, à savoir sa stratégie de développement du capital humain et le respect des droits humains en général.
- Dimension de gouvernance : cette dimension évalue la capacité de l'émetteur à garantir les fondements d'un cadre de gouvernance d'entreprise efficace et à générer de la valeur sur le long terme.

Les indicateurs de durabilité évaluent la mesure dans laquelle les caractéristiques environnementales ou sociales promues par le produit financier sont atteintes.

La méthodologie appliquée par la notation ESG d'Amundi utilise 38 critères qui sont soit génériques (communs à toutes les entreprises, indépendamment de leur activité) soit spécifiques au secteur, et qui sont pondérés en fonction du secteur et considérés en termes d'impact sur la réputation, l'efficacité opérationnelle et les réglementations concernant un émetteur. Les notations ESG d'Amundi sont susceptibles d'être exprimées de manière globale pour les trois dimensions E, S et G, ou individuellement pour tout facteur environnemental ou social.

À la fin de la période, le portefeuille détient **89.79%** d'obligations vertes.

● **... et par rapport aux périodes antérieures ?**

À la fin de la période précédente, la note ESG moyenne pondérée du portefeuille était de 0.99 (C) et la note ESG moyenne pondérée de l'univers d'investissement ESG était de 0.83 (C).

À la fin de la période précédente, le portefeuille détenait 95.01% d'obligations vertes.

● **Dans quelle mesure les investissements durables que le produit financier a partiellement réalisés n'ont-ils pas causé de préjudice important à un objectif d'investissement durable sur le plan environnemental ou social ?**

Pour s'assurer que les investissements durables ne causent pas de préjudice important (principe « Do no significant harm » ou « DNSH » en anglais), Amundi utilise deux filtres :

Le premier filtre de DNSH repose sur le contrôle des indicateurs obligatoires des Principales incidences négatives de l'Annexe 1, Tableau 1 des normes techniques réglementaires (RTS) lorsqu'il existe des données fiables (par ex. Intensité des GES des sociétés bénéficiaires des investissements) via une combinaison d'indicateurs (par ex. intensité carbone) et des seuils ou règles spécifiques (par ex. que l'intensité carbone de la société bénéficiaire des investissements n'appartient pas au dernier décile du secteur).

Dans sa politique d'exclusion qui fait partie intégrante de sa Politique d'investissement responsable, Amundi tient d'ores et déjà compte de Principales incidences négatives spécifiques. Ces exclusions, qui s'appliquent en sus des tests détaillés ci-dessus, couvrent les sujets suivants : exclusions sur les armes controversées, les violations des principes du Pacte mondial des Nations Unies, le charbon et le tabac.

Au-delà des facteurs de durabilité spécifiques couverts par le premier filtre, Amundi a défini un second filtre, qui ne tient pas compte des indicateurs obligatoires des Principales incidences négatives ci-dessus, afin de vérifier que la société n'affiche pas de mauvaises performances d'un point de vue environnemental ou social global par rapport aux autres entreprises de son secteur, ce qui correspond à un score environnemental ou social supérieur ou égal à E selon la notation ESG d'Amundi.

- **Comment les indicateurs concernant les incidences négatives sur les facteurs de durabilité ont-ils été pris en considération ?**

Les indicateurs d'incidences négatives ont été pris en compte comme détaillé dans le premier filtre DNSH ci-dessus.

Le premier filtre DNSH repose sur le contrôle des indicateurs obligatoires des Principales incidences négatives de l'Annexe 1, Tableau 1 du Règlement délégué (UE) 2022/1288 lorsqu'il existe des données fiables via la combinaison des indicateurs suivants et de seuils ou règles spécifiques :

- une intensité en CO2 qui n'appartient pas au dernier décile par rapport aux autres entreprises du secteur (ne s'applique qu'aux secteurs à forte intensité) ;
- un Conseil d'administration dont le niveau de diversité n'appartient pas au dernier décile par rapport aux autres sociétés du secteur ;
- ne pas faire l'objet de controverse relative aux conditions de travail et aux droits humains ; et
- ne pas faire l'objet de controverse relative à la biodiversité et à la pollution.

Dans sa politique d'exclusion qui fait partie intégrante de sa Politique d'investissement responsable, Amundi tient d'ores et déjà compte de Principales incidences négatives spécifiques. Ces exclusions, qui s'appliquent en sus des tests détaillés ci-dessus, couvrent les sujets suivants : exclusions sur les armes controversées, les violations des principes du Pacte mondial des Nations Unies, le charbon et le tabac.

- **Les investissements durables étaient-ils conformes aux Principes directeurs de l'OCDE à l'intention des entreprises multinationales et aux Principes directeurs des Nations unies relatifs aux entreprises et aux droits humains ? Description détaillée :**

Les principales incidences négatives

correspondent aux incidences négatives les plus significatives des décisions d'investissement sur les facteurs de durabilité liés aux questions environnementales, sociales et de personnel, au respect des droits humains et à la lutte contre la corruption et les actes de corruption.

Oui, les Principes directeurs de l'OCDE à l'intention des entreprises multinationales et les Principes directeurs des Nations unies relatifs aux entreprises et aux droits humains sont intégrés à notre méthode de notation ESG. Notre outil de notation ESG exclusif évalue les émetteurs à l'aide des données disponibles auprès de nos fournisseurs de données. Par exemple, le modèle dispose d'un critère dédié appelé « Implication dans la communauté et droits humains » qui s'applique à tous les secteurs en plus d'autres critères liés aux droits humains, y compris les chaînes d'approvisionnement socialement responsables, les conditions de travail et les relations de travail. En outre, nous effectuons un contrôle des controverses au moins une fois par trimestre, y compris sur les entreprises identifiées pour des violations des droits humains. En cas de controverse, les analystes évaluent la situation, lui donnent une note (à l'aide de notre méthode de notation exclusive) et déterminent la marche à suivre. Les notes de controverse sont mises à jour chaque trimestre pour suivre les tendances et les efforts de correction.

Dans quelle mesure ce produit financier a-t-il pris en considération les principales incidences négatives sur les facteurs de durabilité ?

Le produit tient compte de toutes les Principales incidences négatives obligatoires en vertu de l'Annexe 1, Tableau 1 du Règlement délégué (UE) 2022/1288 applicables à la stratégie du produit et s'appuie sur une combinaison de politiques d'exclusion (normatives et sectorielles) et d'approches d'engagement et de vote :

- **Exclusion** : Amundi a défini des règles d'exclusion normatives, basées sur l'activité et les secteurs, qui couvrent certains des principaux indicateurs négatifs de durabilité énumérés par le Règlement Disclosure (sur la publication d'informations).
- **Engagement** : L'engagement est un processus continu et ciblé qui vise à influencer les activités ou le comportement des sociétés bénéficiaires des investissements. L'objectif des activités d'engagement peut se diviser en deux catégories : impliquer un émetteur pour améliorer la manière dont il intègre la dimension environnementale et sociale ou impliquer un émetteur pour améliorer son impact sur les questions environnementales, sociales et liées aux droits humains ou d'autres questions de durabilité qui sont importantes pour la société au sens large et l'économie mondiale.
- **Vote** : La politique de vote d'Amundi répond à une analyse globale de toutes les questions à long terme qui peuvent influencer la création de valeur, y compris les questions ESG importantes. pour plus d'informations, veuillez consulter la Politique de vote d'Amundi.
- **Surveillance des controverses** : Amundi a développé un système de suivi des controverses qui s'appuie sur trois fournisseurs de données externes pour suivre systématiquement l'évolution des controverses et leur niveau de gravité. Cette approche quantitative est ensuite enrichie d'une évaluation approfondie de chaque controverse grave, menée par des analystes ESG, puis d'un examen périodique de son évolution. Cette approche s'applique à tous les fonds d'Amundi.

Pour de plus amples détails sur le mode de prise en compte des indicateurs relatifs aux Principales incidences négatives obligatoires, veuillez consulter la Déclaration sur la publication d'informations en matière de finance durable d'Amundi disponible sur www.amundi.com.

Quels étaient les principaux investissements de ce produit financier ?

La liste inclut les investissements qui constituent la proportion la plus importante d'investissements

Principaux investissements	Secteur	Sous-secteur	Pays	% des actifs
LBPSFH 1.625% 05/30 EMTN	Créances titrisées	Créances hypothécaires	France	1.99%
SOCSEFH 0.125% 07/29	Créances titrisées	Créances hypothécaires	France	1.97%

du produit financier au cours de la période de référence, à savoir : **du 01/07/2023 au 30/06/2024**

<i>Valeurs du Trésor</i>	<i>Valeurs du Trésor</i>	<i>0.00%</i>

Liquidités	Liquidités	10.12%
------------	------------	--------

Dans quelle mesure les investissements durables ayant un objectif environnemental étaient-ils alignés sur la Taxinomie de l'UE ?

Le fonds promeut des caractéristiques tant environnementales que sociales. Si le fonds ne s'est pas engagé à réaliser des investissements alignés sur la Taxinomie de l'UE, au cours de la période sous revue, il a cependant investi 0.50% dans des investissements durables alignés sur la Taxinomie de l'UE. De tels investissements ont contribué à l'obligation relative au changement climatique ou aux objectifs de réduction du changement climatique de la Taxinomie de l'UE.

L'alignement des sociétés bénéficiaires des investissements sur les objectifs de la taxinomie de l'UE susmentionnés est évalué à l'aide du chiffre d'affaires (ou des revenus) et/ou des données d'utilisation des produits des obligations vertes.

Le pourcentage communiqué d'alignement des investissements du fonds sur la Taxinomie de l'UE n'a pas été audité par le réviseur d'entreprises agréé du fonds ni par aucun tiers.

- **Le produit financier a-t-il investi dans des activités liées au gaz fossile et/ou à l'énergie nucléaire qui sont conformes à la Taxinomie de l'UE¹ ?**

☐ Oui :

Dans le gaz fossile

Dans l'énergie nucléaire

Non

Aucune donnée fiable concernant l'alignement sur les activités de gaz fossile et d'énergie nucléaire conformes à la Taxinomie de l'UE n'était disponible sur la période.

¹ Les activités liées au gaz fossile et/ou à l'énergie nucléaire ne seront conformes à la Taxinomie de l'UE que si elles contribuent à limiter le changement climatique (« réduction du changement climatique ») et ne causent pas de préjudice important à tout objectif de la Taxinomie de l'UE. L'intégralité des critères relatifs aux activités économiques liées au gaz fossile et à l'énergie nucléaire conformes à la Taxinomie de l'UE sont définis dans le Règlement délégué (UE) 2022/1214 de la Commission.

Les graphiques ci-dessous font apparaître en vert le pourcentage d'investissements alignés sur la Taxinomie de l'UE. Étant donné qu'il n'existe pas de méthodologie appropriée pour déterminer l'alignement des obligations souveraines* sur la taxinomie, le premier graphique montre l'alignement sur la Taxinomie par rapport à tous les investissements du produit financier, y compris les obligations souveraines, tandis que le deuxième graphique représente l'alignement sur la Taxinomie uniquement par rapport aux investissements du produit financier autres que les obligations souveraines.

1. Alignement sur la Taxinomie des investissements y compris obligations souveraines*

2. Alignement sur la Taxinomie des investissements hors obligations souveraines*

* Aux fins de ces graphiques, les « obligations souveraines » comprennent toutes les expositions souveraines

● **Quelle était la part d'investissements dans les activités transitoires et habilitantes ?**

Au 30/06/2024, en utilisant le chiffre d'affaires et/ou les données d'utilisation des produits des obligations vertes comme indicateur, la part d'investissements du fonds dans les activités transitoires était de 0.00% et la part d'investissements dans les activités habilitantes était de 0.00%. Le pourcentage communiqué d'alignement des investissements du fonds sur la Taxinomie de l'UE n'a pas été audité par le réviseur d'entreprises agréé du fonds ni par aucun tiers.

● **Comment se situe le pourcentage d'investissements alignés sur la Taxinomie de l'UE par rapport aux périodes de référence antérieures ?**

À la fin de la période précédente, le pourcentage d'investissements alignés sur la taxinomie était de 0.00%.

sont des investissements durables ayant un objectif environnemental qui **ne tiennent pas compte des critères** en matière d'activités économiques durables sur le plan environnemental visés par le Règlement (UE) 2020/852.

● **Quelle était la part des investissements durables ayant un objectif environnemental qui n'étaient pas alignés sur la Taxinomie de l'UE ?**

La part des investissements durables ayant un objectif environnemental et non alignés sur la taxinomie était de **89.36%** à la fin de la période.

Cela tient du fait que certains émetteurs sont considérés comme investissements durables en vertu du Règlement SFDR mais qu'une portion de leurs activités n'est pas alignée sur les standards de la taxinomie de l'UE, ou que les données correspondantes ne sont pas encore disponibles en vue d'une évaluation relative à la taxinomie de l'UE.

● **Quelle était la part d'investissements durables sur le plan social ?**

La proportion des investissements durables sur le plan social était de 0.00% à la fin de la période.

● **Quels investissements étaient inclus dans la catégorie « Autres », quelle était leur finalité et existait-il des garanties environnementales ou sociales minimales ?**

Sont inclus dans la catégorie « N° 2 Autres » les liquidités et autres instruments détenus aux fins de gestion de la liquidité et des risques du portefeuille. Il n'existe pas de garanties environnementales ou sociales minimales pour ces actifs.

● **Quelles mesures ont-elles été prises pour réaliser les caractéristiques environnementales et/ou sociales au cours de la période de référence ?**

Des indicateurs de durabilité sont mis à disposition de manière continue dans le système de gestion du portefeuille pour permettre aux gestionnaires du portefeuille d'évaluer l'impact de leurs décisions d'investissement.

Ces indicateurs sont intégrés au cadre de contrôle d'AMUNDI, en répartissant les responsabilités entre le premier niveau de contrôles réalisés par les équipes Investissement elles-mêmes, et le second niveau de contrôles réalisé par les équipes Risque, qui surveillent la conformité aux caractéristiques environnementales ou sociales promues en permanence par le fonds.

En outre, la Politique d'investissement responsable d'AMUNDI définit une approche active en matière d'engagement qui promeut le dialogue avec les sociétés bénéficiaires des investissements, y compris celles qui sont incluses dans le portefeuille de ce produit. Notre Rapport annuel en matière d'engagement, disponible à la page <https://about.amundi.com/esg-documentation>, fournit des informations détaillées sur cet engagement et ses résultats.

Quelles ont été les performances de ce produit financier par rapport à l'indice de référence ?

Un indice de référence est un indice qui sert à mesurer si le produit financier réalise les caractéristiques environnementales et/ou sociales qu'il promet.

Ce produit ne dispose pas d'un Indice de référence ESG.

- ***En quoi l'indice de référence diffère-t-il de l'indice de marché large ?***

Ce produit ne dispose pas d'un Indice de référence ESG.

- ***Quelles ont été les performances de ce produit financier par rapport aux indicateurs de durabilité pour déterminer l'alignement de l'indice de référence sur l'objectif d'investissement durable ?***

Ce produit ne dispose pas d'un Indice de référence ESG.

- ***Quelle a été la performance de ce produit financier par rapport à l'indice de référence ?***

Ce produit ne dispose pas d'un Indice de référence ESG.

- ***Quelle a été la performance de ce produit financier par rapport à l'indice de marché large ?***

Ce produit ne dispose pas d'un Indice de référence ESG.

Informations périodiques pour les produits financiers visés à l'Article 8, paragraphes 1, 2 et 2a, du Règlement (UE) 2019/2088 et à l'Article 6, premier paragraphe du Règlement (UE) 2020/852

Dénomination du produit : AMUNDI FUNDS IMPACT GREEN BONDS

Identifiant d'entité juridique : 213800XAP1H8TNKVRE27

Par investissement durable, on entend un investissement dans une activité économique qui contribue à un objectif environnemental ou social, pour autant qu'il ne cause de préjudice important à aucun de ces objectifs et que les sociétés détenues respectent les pratiques de bonne gouvernance.

La Taxinomie de l'UE est un système de classification institué par le Règlement (UE) 2020/852, qui dresse une liste d'activités économiques durables sur le plan environnemental. Ce règlement ne comprend pas de liste d'activités économiques durables sur le plan social. Les investissements durables ayant un objectif environnemental ne sont pas nécessairement alignés sur la taxinomie.

Objectif d'investissement durable

Le produit financier avait-il un objectif d'investissement durable ?

X

Oui

Non

X

Il a réalisé des investissements durables ayant un objectif environnemental : 95.98%

dans des activités économiques qui sont considérées comme durables sur le plan environnemental au titre de la Taxinomie de l'UE

dans des activités économiques qui ne sont pas considérées comme durables sur le plan environnemental au titre de la Taxinomie de l'UE

Il a réalisé des investissements durables ayant un objectif social : _____

Il a promu des caractéristiques environnementales/sociales (E/S) et, bien qu'il n'ait pas eu pour objectif l'investissement durable, il contenait une proportion d'investissements durables de _____

ayant un objectif environnemental dans des activités économiques qui sont considérées comme durables sur le plan environnemental au titre de la Taxinomie de l'UE

ayant un objectif environnemental dans des activités économiques qui ne sont pas considérées comme durables sur le plan environnemental au titre de la Taxinomie de l'UE

ayant un objectif social

Il a promu des caractéristiques E/S, mais n'a pas réalisé d'investissements durables

Dans quelles mesure l'objectif d'investissement durable de ce produit financier a-t-il été atteint ?

Au cours de l'exercice financier, le produit n'a cessé de promouvoir les caractéristiques environnementales et/ou sociales en cherchant à atteindre une note ESG supérieure à celle de son univers d'investissement **BLOOMBERG MSCI GLOBAL GREEN BOND HEDGED INDEX**. Pour déterminer la note ESG du Produit et de l'univers d'investissement ESG, la performance ESG a été évaluée de manière continue en comparant la performance moyenne d'un titre par rapport au secteur de l'émetteur du titre, pour chacune des trois caractéristiques, à savoir environnementale, sociale et de gouvernance.

L'univers d'investissement est un univers de marché large qui n'évalue ni n'inclut pas de composantes en fonction de caractéristiques environnementales et/ou sociales, et qui n'a par conséquent pas pour vocation d'être conforme aux caractéristiques promues par le fonds. Aucun indice de référence ESG n'a été désigné.

Le compartiment a maintenu la part prévue de son allocation investie dans l'utilisation d'obligations vertes.

L'objectif des obligations vertes consiste à financer les projets qui génèrent un impact sur l'environnement positif et quantifiable. L'indicateur clé mesurant l'impact des obligations vertes est le nombre de « Tonnes d'émissions de CO2 évitées par million d'euros investis en un an ». Au-delà de l'analyse financière quantitative et qualitative des obligations susceptibles de composer le portefeuille, le processus de sélection inclut une évaluation de la stratégie ESG au niveau de l'émetteur et une évaluation des obligations vertes suivant plusieurs points d'analyse :

1. Amundi a mis au point un système de notation ESG exclusif reposant sur une échelle de 7 lettres allant de A à G, où A correspond à la meilleure notation et G à la moins bonne notation. Tout émetteur assorti de la note G est exclu de tous les portefeuilles d'Amundi faisant l'objet d'une gestion active. Nous vérifions la notation ESG de l'émetteur et surveillons la conformité de la notation aux critères associés du fonds. Comme indiqué ci-dessus, les émetteurs ayant reçu la note G selon l'échelle de notation ESG d'Amundi ne sont pas éligibles à l'investissement. S'il existe des points faibles, l'équipe ESG Research effectuera une recherche de controverse plus détaillée concernant le pilier associé (E, S ou G).
2. L'évaluation des obligations vertes selon les critères suivants : (i) analyse du projet, via l'analyse de l'emplacement géographique des actifs, action sur les actifs, évaluation de tout impact supplémentaire du projet vert sur l'environnement, la biodiversité, les communautés locales ou autres aspects sociaux (principe consistant à « ne pas causer de préjudice important »), alignement sur les normes du secteur (par ex. alignement sur les principes des obligations vertes de l'International Capital Markets Association, l'initiative pour les obligations climat Climate Bond Initiative, la taxinomie de l'UE) ; (ii) analyse de l'émetteur aux niveaux de la stratégie ESG globale et de la controverse ; (iii) logique du financement vert (type de projets financés, allocation d'actifs verts, type d'instruments finançant les projets verts) ; et (iv) transparence (rapport sur les obligations vertes, existence d'évaluation par seconde partie)
3. La surveillance continue (investissement ex post), qui inclut la révision régulière de l'allocation, un rapport d'impact des obligations vertes, les controverses dans lesquelles l'émetteur est impliqué et la stratégie environnementale de l'émetteur.

Enfin, toutes les obligations vertes sélectionnées doivent respecter les critères et recommandations des principes des obligations vertes telles que publiées par l'International Capital Market Association. Veuillez consulter la Politique d'investissement responsable d'Amundi pour plus de renseignements sur ce qui précède.

● *Quelle performance ont affiché les indicateurs de durabilité ?*

Amundi a développé son propre processus de notation ESG interne, qui suit une approche « Best-in-class ». Les notations adaptées à chaque secteur d'activité ont pour objectif d'évaluer la dynamique dans laquelle interviennent les entreprises.

L'indicateur de durabilité employé est la note ESG du Produit mesurée en comparaison avec la note ESG de l'univers d'investissement ESG du Produit.

À la fin de la période :

- La note ESG moyenne pondérée du portefeuille est **1.212 (C)**.
- La note ESG moyenne pondérée de l'univers d'investissement ESG est **0.935 (C)**.

La notation ESG Amundi utilisée pour déterminer la note ESG est une note ESG quantitative qui se décline en sept niveaux allant de A (les meilleures notes de l'univers) à G (les pires notes). Sur l'échelle de notation ESG d'Amundi, les titres figurant sur la liste d'exclusion correspondent à G. Pour les entreprises émettrices, la performance ESG est évaluée de manière globale et au niveau des critères pertinents par comparaison avec la performance moyenne du secteur, en combinant les trois dimensions ESG :

- Dimension environnementale : cette dimension examine la capacité des émetteurs à contrôler leur impact environnemental direct et indirect, en limitant leur consommation d'énergie, en réduisant leurs émissions de gaz à effet de serre, en luttant contre l'appauvrissement des ressources et en protégeant la biodiversité.
- Dimension sociale : cette dimension évalue le fonctionnement d'un émetteur dans deux domaines différents, à savoir sa stratégie de développement du capital humain et le respect des droits humains en général.

Les indicateurs de durabilité évaluent la mesure dans laquelle les caractéristiques environnementales ou sociales promues par le produit financier sont atteintes.

- Dimension de gouvernance : cette dimension évalue la capacité de l'émetteur à garantir les fondements d'un cadre de gouvernance d'entreprise efficace et à générer de la valeur sur le long terme.

La méthodologie appliquée par la notation ESG d'Amundi utilise 38 critères qui sont soit génériques (communs à toutes les entreprises, indépendamment de leur activité) soit spécifiques au secteur, et qui sont pondérés en fonction du secteur et considérés en termes d'impact sur la réputation, l'efficacité opérationnelle et les réglementations concernant un émetteur. Les notations ESG d'Amundi sont susceptibles d'être exprimées de manière globale pour les trois dimensions E, S et G, ou individuellement pour tout facteur environnemental ou social.

À la fin de la période, le portefeuille détient **96.23%** d'obligations vertes.

● **... et par rapport aux périodes antérieures ?**

À la fin de la période précédente, la note ESG moyenne pondérée du portefeuille était de 1.14 (C) et la note ESG moyenne pondérée de l'univers d'investissement ESG était de 0.97 (C). À la fin de la période précédente, le portefeuille détenait 99.95% d'obligations vertes.

● ***Dans quelle mesure les investissements durables que le produit financier a partiellement réalisés n'ont-ils pas causé de préjudice important à un objectif d'investissement durable sur le plan environnemental ou social ?***

Pour s'assurer que les investissements durables ne causent pas de préjudice important (principe « Do no significant harm » ou « DNSH » en anglais), Amundi utilise deux filtres :

Le premier filtre de DNSH repose sur le contrôle des indicateurs obligatoires des Principales incidences négatives de l'Annexe 1, Tableau 1 des normes techniques réglementaires (RTS) lorsqu'il existe des données fiables (par ex. Intensité des GES des sociétés bénéficiaires des investissements) via une combinaison d'indicateurs (par ex. intensité carbone) et des seuils ou règles spécifiques (par ex. que l'intensité carbone de la société bénéficiaire des investissements n'appartient pas au dernier décile du secteur).

Dans sa politique d'exclusion qui fait partie intégrante de sa Politique d'investissement responsable, Amundi tient d'ores et déjà compte de Principales incidences négatives spécifiques. Ces exclusions, qui s'appliquent en sus des tests détaillés ci-dessus, couvrent les sujets suivants : exclusions sur les armes controversées, les violations des principes du Pacte mondial des Nations Unies, le charbon et le tabac.

Au-delà des facteurs de durabilité spécifiques couverts par le premier filtre, Amundi a défini un second filtre, qui ne tient pas compte des indicateurs obligatoires des Principales incidences négatives ci-dessus, afin de vérifier que la société n'affiche pas de mauvaises performances d'un point de vue environnemental ou social global par rapport aux autres entreprises de son secteur, ce qui correspond à un score environnemental ou social supérieur ou égal à E selon la notation ESG d'Amundi.

- ***Comment les indicateurs concernant les incidences négatives sur les facteurs de durabilité ont-ils été pris en considération ?***

Les indicateurs d'incidences négatives ont été pris en compte comme détaillé dans le premier filtre DNSH ci-dessus.

Le premier filtre DNSH repose sur le contrôle des indicateurs obligatoires des Principales incidences négatives de l'Annexe 1, Tableau 1 du Règlement délégué (UE) 2022/1288 lorsqu'il existe des données fiables via la combinaison des indicateurs suivants et de seuils ou règles spécifiques :

- une intensité en CO2 qui n'appartient pas au dernier décile par rapport aux autres entreprises du secteur (ne s'applique qu'aux secteurs à forte intensité) ;
- un Conseil d'administration dont le niveau de diversité n'appartient pas au dernier décile par rapport aux autres sociétés du secteur ;
- ne pas faire l'objet de controverse relative aux conditions de travail et aux droits humains ; et
- ne pas faire l'objet de controverse relative à la biodiversité et à la pollution.

Dans sa politique d'exclusion qui fait partie intégrante de sa Politique d'investissement responsable, Amundi tient d'ores et déjà compte de Principales incidences négatives spécifiques. Ces exclusions, qui s'appliquent en sus des tests détaillés ci-dessus, couvrent les sujets suivants : exclusions sur les armes controversées, les violations des principes du Pacte mondial des Nations Unies, le charbon et le tabac.

Les principales incidences négatives correspondent aux incidences négatives les plus significatives des décisions d'investissement sur les facteurs de durabilité liés aux questions environnementales, sociales et de personnel, au respect des droits humains et à la lutte contre la corruption et les actes de corruption.

- **Les investissements durables étaient-ils conformes aux Principes directeurs de l'OCDE à l'intention des entreprises multinationales et aux Principes directeurs des Nations unies relatifs aux entreprises et aux droits humains ? Description détaillée :**

Oui, les Principes directeurs de l'OCDE à l'intention des entreprises multinationales et les Principes directeurs des Nations unies relatifs aux entreprises et aux droits humains sont intégrés à notre méthode de notation ESG. Notre outil de notation ESG exclusif évalue les émetteurs à l'aide des données disponibles auprès de nos fournisseurs de données. Par exemple, le modèle dispose d'un critère dédié appelé « Implication dans la communauté et droits humains » qui s'applique à tous les secteurs en plus d'autres critères liés aux droits humains, y compris les chaînes d'approvisionnement socialement responsables, les conditions de travail et les relations de travail. En outre, nous effectuons un contrôle des controverses au moins une fois par trimestre, y compris sur les entreprises identifiées pour des violations des droits humains. En cas de controverse, les analystes évaluent la situation, lui donnent une note (à l'aide de notre méthode de notation exclusive) et déterminent la marche à suivre. Les notes de controverse sont mises à jour chaque trimestre pour suivre les tendances et les efforts de correction.

Dans quelle mesure ce produit financier a-t-il pris en considération les principales incidences négatives sur les facteurs de durabilité ?

Le produit tient compte de toutes les Principales incidences négatives obligatoires en vertu de l'Annexe 1, Tableau 1 du Règlement délégué (UE) 2022/1288 applicables à la stratégie du produit et s'appuie sur une combinaison de politiques d'exclusion (normatives et sectorielles) et d'approches d'engagement et de vote :

- Exclusion : Amundi a défini des règles d'exclusion normatives, basées sur l'activité et les secteurs, qui couvrent certains des principaux indicateurs négatifs de durabilité énumérés par le Règlement Disclosure (sur la publication d'informations).
- Intégration des facteurs ESG : Amundi a adopté des normes d'intégration ESG minimales appliquées par défaut à ses fonds de type ouvert activement gérés (exclusion des émetteurs ayant la note G et meilleure note ESG moyenne pondérée supérieure à celle de l'indice de référence applicable). Les 38 critères employés dans la stratégie de notation ESG d'Amundi ont également été conçus pour tenir compte des principaux impacts sur les facteurs de durabilité, ainsi que de la qualité de la réduction entreprise en la matière.
- Engagement : L'engagement est un processus continu et ciblé qui vise à influencer les activités ou le comportement des sociétés bénéficiaires des investissements. L'objectif des activités d'engagement peut se diviser en deux catégories : impliquer un émetteur pour améliorer la manière dont il intègre la dimension environnementale et sociale ou impliquer un émetteur pour améliorer son impact sur les questions environnementales, sociales et liées aux droits humains ou d'autres questions de durabilité qui sont importantes pour la société au sens large et l'économie mondiale.
- Vote : La politique de vote d'Amundi répond à une analyse globale de toutes les questions à long terme qui peuvent influencer la création de valeur, y compris les questions ESG importantes. pour plus d'informations, veuillez consulter la Politique de vote d'Amundi.
- Surveillance des controverses : Amundi a développé un système de suivi des controverses qui s'appuie sur trois fournisseurs de données externes pour suivre systématiquement l'évolution des controverses et leur niveau de gravité. Cette approche quantitative est ensuite enrichie d'une évaluation approfondie de chaque controverse grave, menée par des analystes ESG, puis d'un examen périodique de son évolution. Cette approche s'applique à tous les fonds d'Amundi.

Pour de plus amples détails sur le mode de prise en compte des indicateurs relatifs aux Principales incidences négatives obligatoires, veuillez consulter la Déclaration sur la publication d'informations en matière de finance durable d'Amundi disponible sur www.amundi.com.

Quels étaient les principaux investissements de ce produit financier ?

La liste inclut les investissements qui constituent la proportion la plus importante d'investissements du produit financier au cours de la période de référence, à savoir : du 01/07/2023 au 30/06/2024

Principaux investissements	Secteur	Sous-secteur	Pays	% des actifs
AMUNDI RESP INV - IMPACT GREEN BD-OR(D)	Obligations financières	Fonds communs de placement	France	101.28%

Quelle était la proportion d'investissements liés à la durabilité ?

● Quelle était l'allocation d'actifs ?

L'allocation d'actifs décrit la part des investissements dans des actifs spécifiques.

La catégorie **N° 1 Durables** couvre les investissements durables ayant des objectifs environnementaux ou sociaux.
La catégorie **N° 2 Non durables** inclut les investissements qui ne sont pas considérés comme des investissements durables.

● **Dans quels secteurs économiques ont été réalisés les investissements ?**

Secteur	Sous-secteur	% des actifs
Obligations financières	Fonds communs de placement	101.28%
Forex	Forex	-1.26%
Liquidités	Liquidités	-0.02%

Aux fins d'observer la taxinomie de l'UE, les critères relatifs au **gaz fossile** incluent des limites aux émissions et le passage à une énergie entièrement renouvelable ou à des combustibles à faible teneur en carbone d'ici fin 2035. Pour **l'énergie nucléaire**, les critères incluent des règles exhaustives de sécurité et de gestion des déchets.

Les activités habilitantes permettent directement à d'autres activités de contribuer de manière substantielle à la réalisation d'un objectif environnemental.

Les activités transitoires sont des activités pour lesquelles il n'existe pas encore de solution de remplacement sobre en carbone et, entre autres, dont les niveaux d'émission de gaz à effet de serre correspondent aux meilleures performances réalisables.

Dans quelle mesure les investissements durables ayant un objectif environnemental étaient-ils alignés sur la Taxinomie de l'UE ?

Le fonds promeut des caractéristiques tant environnementales que sociales. Si le fonds ne s'est pas engagé à réaliser des investissements alignés sur la Taxinomie de l'UE, au cours de la période sous revue, il a cependant investi 0.93% dans des investissements durables alignés sur la Taxinomie de l'UE. De tels investissements ont contribué aux objectifs d'atténuation du changement climatique de la taxinomie de l'UE.

L'alignement des sociétés bénéficiaires des investissements sur les objectifs de la taxinomie de l'UE susmentionnés est évalué à l'aide du chiffre d'affaires (ou des revenus) et/ou des données d'utilisation des produits des obligations vertes.

Le pourcentage communiqué d'alignement des investissements du fonds sur la Taxinomie de l'UE n'a pas été audité par le réviseur d'entreprises agréé du fonds ni par aucun tiers.

● **Le produit financier a-t-il investi dans des activités liées au gaz fossile et/ou à l'énergie nucléaire qui sont conformes à la Taxinomie de l'UE¹ ?**

☐

Oui :

☐

Dans le gaz fossile

☐

Dans l'énergie nucléaire

☒

Non

Aucune donnée fiable concernant l'alignement sur les activités de gaz fossile et d'énergie nucléaire conformes à la Taxinomie de l'UE n'était disponible sur la période.

¹ Les activités liées au gaz fossile et/ou à l'énergie nucléaire ne seront conformes à la Taxinomie de l'UE que si elles contribuent à limiter le changement climatique (« réduction du changement climatique ») et ne causent pas de préjudice important à tout objectif de la Taxinomie de l'UE. L'intégralité des critères relatifs aux activités économiques liées au gaz fossile et à l'énergie nucléaire conformes à la Taxinomie de l'UE sont définis dans le Règlement délégué (UE) 2022/1214 de la Commission.

Les activités alignées sur la taxinomie sont exprimées en pourcentage :

- **du chiffre d'affaires** pour refléter la part des revenus provenant des activités vertes des sociétés bénéficiaires d'investissements ;
- **des dépenses d'investissement (CapEx)** pour montrer les investissements verts réalisés par les sociétés bénéficiaires d'investissements, pour une transition vers une économie verte, par exemple ; et
- **des dépenses d'exploitation (OpEx)** pour refléter les activités opérationnelles vertes des sociétés bénéficiaires d'investissements.

Les graphiques ci-dessous font apparaître en vert le pourcentage d'investissements alignés sur la Taxinomie de l'UE. Étant donné qu'il n'existe pas de méthodologie appropriée pour déterminer l'alignement des obligations souveraines sur la taxinomie, le premier graphique montre l'alignement sur la Taxinomie par rapport à tous les investissements du produit financier, y compris les obligations souveraines, tandis que le deuxième graphique représente l'alignement sur la Taxinomie uniquement par rapport aux investissements du produit financier autres que les obligations souveraines.*

* Aux fins de ces graphiques, les « obligations souveraines » comprennent toutes les expositions souveraines

● Quelle était la part d'investissements dans les activités transitoires et habilitantes ?

Au 30/06/2024, en utilisant le chiffre d'affaires et/ou les données d'utilisation des produits des obligations vertes comme indicateur, la part d'investissements du fonds dans les activités transitoires était de 0.00% et la part d'investissements dans les activités habilitantes était de 0.40%. Le pourcentage communiqué d'alignement des investissements du fonds sur la Taxinomie de l'UE n'a pas été audité par le réviseur d'entreprises agréé du fonds ni par aucun tiers.

● Comment se situe le pourcentage d'investissements alignés sur la Taxinomie de l'UE par rapport aux périodes de référence antérieures ?

À la fin de la période précédente, le pourcentage d'investissements alignés sur la taxinomie était de 0.00%.

 sont des investissements durables ayant un objectif environnemental qui **ne tiennent pas compte des critères** en matière d'activités économiques durables sur le plan environnemental visés par le Règlement (UE) 2020/852.

Quelle était la part des investissements durables ayant un objectif environnemental qui n'étaient pas alignés sur la Taxinomie de l'UE ?

La part des investissements durables ayant un objectif environnemental et non alignés sur la taxinomie était de **95.05%** à la fin de la période.

Cela tient du fait que certains émetteurs sont considérés comme investissements durables en vertu du Règlement SFDR mais qu'une portion de leurs activités n'est pas alignée sur les standards de la taxinomie de l'UE, ou que les données correspondantes ne sont pas encore disponibles en vue d'une évaluation relative à la taxinomie de l'UE.

Quelle était la part d'investissements durables sur le plan social ?

La proportion des investissements durables sur le plan social était de 0.00% à la fin de la période.

Quels investissements étaient inclus dans la catégorie « Autres », quelle était leur finalité et existait-il des garanties environnementales ou sociales minimales ?

Sont inclus dans la catégorie « N° 2 Autres » les liquidités et autres instruments détenus aux fins de gestion de la liquidité et des risques du portefeuille. Pour les obligations et actions non notées, des garanties environnementales et sociales minimales ont été mises en place par le biais d'un filtrage des émetteurs en rapport aux activités controversées définies dans les principes du Pacte mondial des Nations unies.

Quelles mesures ont-elles été prises pour réaliser les caractéristiques environnementales et/ou sociales au cours de la période de référence ?

Des indicateurs de durabilité sont mis à disposition de manière continue dans le système de gestion du portefeuille pour permettre aux gestionnaires du portefeuille d'évaluer l'impact de leurs décisions d'investissement.

Ces indicateurs sont intégrés au cadre de contrôle d'AMUNDI, en répartissant les responsabilités entre le premier niveau de contrôles réalisés par les équipes Investissement elles-mêmes, et le second niveau de contrôles réalisé par les équipes Risque, qui surveillent la conformité aux caractéristiques environnementales ou sociales promues en permanence par le fonds.

En outre, la Politique d'investissement responsable d'AMUNDI définit une approche active en matière d'engagement qui promeut le dialogue avec les sociétés bénéficiaires des investissements, y compris celles qui sont incluses dans le portefeuille de ce produit. Notre Rapport annuel en matière d'engagement, disponible à la page <https://about.amundi.com/esg-documentation>, fournit des informations détaillées sur cet engagement et ses résultats.

Quelles ont été les performances de ce produit financier par rapport à l'indice de référence ?

Un indice de référence est un indice qui sert à mesurer si le produit financier réalise les caractéristiques environnementales et/ou sociales qu'il promeut.

Ce produit ne dispose pas d'un Indice de référence ESG.

● ***En quoi l'indice de référence diffère-t-il de l'indice de marché large ?***

Ce produit ne dispose pas d'un Indice de référence ESG.

● ***Quelles ont été les performances de ce produit financier par rapport aux indicateurs de durabilité pour déterminer l'alignement de l'indice de référence sur l'objectif d'investissement durable ?***

Ce produit ne dispose pas d'un Indice de référence ESG.

● ***Quelle a été la performance de ce produit financier par rapport à l'indice de référence ?***

Ce produit ne dispose pas d'un Indice de référence ESG.

● ***Quelle a été la performance de ce produit financier par rapport à l'indice de marché large ?***

Ce produit ne dispose pas d'un Indice de référence ESG.

Informations périodiques pour les produits financiers visés à l'Article 8, paragraphes 1, 2 et 2a, du Règlement (UE) 2019/2088 et à l'Article 6, premier paragraphe du Règlement (UE) 2020/852

Dénomination du produit : AMUNDI FUNDS
CLIMATE TRANSITION GLOBAL EQUITY

Identifiant d'entité juridique :
213800AAWV9V2PNKC495

Par investissement durable, on entend un investissement dans une activité économique qui contribue à un objectif environnemental ou social, pour autant qu'il ne cause de préjudice important à aucun de ces objectifs et que les sociétés détenues respectent les pratiques de bonne gouvernance.

La **Taxinomie de l'UE** est un système de classification institué par le Règlement (UE) 2020/852, qui dresse une liste d'**activités économiques durables sur le plan environnemental**. Ce règlement ne comprend pas de liste d'activités économiques durables sur le plan social. Les investissements durables ayant un objectif environnemental ne sont pas nécessairement alignés sur la taxinomie.

Caractéristiques environnementales et/ou sociales

Le produit financier avait-il un objectif d'investissement durable ?

Oui

X

Non

Il a réalisé **des investissements durables ayant un objectif environnemental** : _____

dans des activités économiques qui sont considérées comme durables sur le plan environnemental au titre de la Taxinomie de l'UE

dans des activités économiques qui ne sont pas considérées comme durables sur le plan environnemental au titre de la Taxinomie de l'UE

Il a réalisé **des investissements durables ayant un objectif social** : _____

Il a promu des caractéristiques **environnementales/sociales (E/S)** et, bien qu'il n'ait pas eu pour objectif l'investissement durable, il contenait une proportion d'investissements durables de **45.60%**

ayant un objectif environnemental dans des activités économiques qui sont considérées comme durables sur le plan environnemental au titre de la Taxinomie de l'UE

ayant un objectif environnemental dans des activités économiques qui ne sont pas considérées comme durables sur le plan environnemental au titre de la Taxinomie de l'UE

ayant un objectif social

Il a promu des caractéristiques E/S, mais **n'a pas réalisé d'investissements durables**

Dans quelle mesure les caractéristiques environnementales et/ou sociales promues par ce produit financier ont-elles été réalisées ?

Au cours de l'exercice financier, le produit n'a cessé de promouvoir les caractéristiques environnementales et/ou sociales en cherchant à atteindre une note ESG supérieure à celle de son univers d'investissement **MSCI ACWI**. Pour déterminer la note ESG du Produit et de l'univers d'investissement ESG, la performance ESG a été évaluée de manière continue en comparant la performance moyenne d'un titre par rapport au secteur de l'émetteur du titre, pour chacune des trois caractéristiques, à savoir environnementale, sociale et de gouvernance.

L'univers d'investissement est un univers de marché large qui n'évalue ni n'inclut pas de composantes en fonction de caractéristiques environnementales et/ou sociales, et qui n'a par conséquent pas pour vocation d'être conforme aux caractéristiques promues par le fonds. Aucun indice de référence ESG n'a été désigné.

Les indicateurs de durabilité évaluent la mesure dans laquelle les caractéristiques environnementales ou sociales promues par le produit financier sont atteintes.

● **Quelle performance ont affiché les indicateurs de durabilité ?**

Amundi a développé son propre processus de notation ESG interne, qui suit une approche « Best-in-class ». Les notations adaptées à chaque secteur d'activité ont pour objectif d'évaluer la dynamique dans laquelle interviennent les entreprises.

L'indicateur de durabilité employé est la note ESG du Produit mesurée en comparaison avec la note ESG de l'univers d'investissement ESG du Produit.

À la fin de la période :

- La note ESG moyenne pondérée du portefeuille est **0.243 (D)**.
- La note ESG moyenne pondérée de l'univers d'investissement ESG est **-0.171 (D)**.

La notation ESG Amundi utilisée pour déterminer la note ESG est une note ESG quantitative qui se décline en sept niveaux allant de A (les meilleures notes de l'univers) à G (les pires notes). Sur l'échelle de notation ESG d'Amundi, les titres figurant sur la liste d'exclusion correspondent à G. Pour les entreprises émettrices, la performance ESG est évaluée de manière globale et au niveau des critères pertinents par comparaison avec la performance moyenne du secteur, en combinant les trois dimensions ESG :

- Dimension environnementale : cette dimension examine la capacité des émetteurs à contrôler leur impact environnemental direct et indirect, en limitant leur consommation d'énergie, en réduisant leurs émissions de gaz à effet de serre, en luttant contre l'appauvrissement des ressources et en protégeant la biodiversité.
- Dimension sociale : cette dimension évalue le fonctionnement d'un émetteur dans deux domaines différents, à savoir sa stratégie de développement du capital humain et le respect des droits humains en général.
- Dimension de gouvernance : cette dimension évalue la capacité de l'émetteur à garantir les fondements d'un cadre de gouvernance d'entreprise efficace et à générer de la valeur sur le long terme.

La méthodologie appliquée par la notation ESG d'Amundi utilise 38 critères qui sont soit génériques (communs à toutes les entreprises, indépendamment de leur activité) soit spécifiques au secteur, et qui sont pondérés en fonction du secteur et considérés en termes d'impact sur la réputation, l'efficacité opérationnelle et les réglementations concernant un émetteur. Les notations ESG d'Amundi sont susceptibles d'être exprimées de manière globale pour les trois dimensions E, S et G, ou individuellement pour tout facteur environnemental ou social.

● **... et par rapport aux périodes antérieures ?**

C'est le premier rapport périodique SFDR produit pour ce compartiment.

● **Quels étaient les objectifs des investissements durables que le produit financier entendait partiellement réaliser, et comment l'investissement durable a-t-il contribué à ces objectifs ?**

Les objectifs des investissements durables sont d'investir dans des sociétés détenues qui cherchent à respecter deux critères :

1. suivre les bonnes pratiques environnementales et sociales ; et
2. éviter de fabriquer des produits ou de fournir des services qui nuisent à l'environnement et à la société.

Pour que la société bénéficiaire d'investissements soit réputée contribuer à l'objectif susmentionné, elle doit figurer parmi les « meilleures performances » de son secteur d'activité pour au moins l'un de ses facteurs environnementaux ou sociaux importants.

La définition de « meilleures performances » repose sur la méthode ESG exclusive d'Amundi, dont l'objectif est de mesurer la performance ESG d'une société bénéficiaire d'investissements. Pour être considérée comme l'une des « meilleures performances », une société bénéficiaire d'investissements doit afficher l'une des trois premières notes (A, B ou C, sur une échelle de notation allant de A à G) dans son secteur pour au moins un facteur environnemental ou social important. Les facteurs environnementaux et sociaux sont identifiés à l'échelle des secteurs. L'identification des facteurs importants est basée sur le cadre d'analyse ESG d'Amundi qui combine des données extra-financières et une analyse qualitative du secteur associé et des questions de durabilité. Les facteurs identifiés comme importants représentent plus de 10 % de la note ESG globale. Par exemple pour le secteur de

l'énergie, les facteurs importants sont les suivants : émissions et énergie, biodiversité et pollution, santé et sécurité, communautés locales et droits humains. Pour un aperçu plus complet des secteurs et des facteurs, veuillez consulter la Déclaration réglementaire ESG d'Amundi disponible sur www.amundi.lu

Pour contribuer aux objectifs ci-dessus, la société bénéficiaire d'investissements ne doit pas avoir d'exposition significative aux activités (par ex. tabac, armes, jeux de hasard, charbon, aviation, production de viande, fabrication d'engrais et de pesticides, production de plastique à usage unique) incompatibles avec ces critères.

Le caractère durable d'un investissement est évalué au niveau de la société bénéficiaire d'investissements.

Les principales incidences négatives

correspondent aux incidences négatives les plus significatives des décisions d'investissement sur les facteurs de durabilité liés aux questions environnementales, sociales et de personnel, au respect des droits humains et à la lutte contre la corruption et les actes de corruption.

● ***Dans quelle mesure les investissements durables que le produit financier a partiellement réalisés n'ont-ils pas causé de préjudice important à un objectif d'investissement durable sur le plan environnemental ou social ?***

Pour s'assurer que les investissements durables ne causent pas de préjudice important (principe « Do no significant harm » ou « DNSH » en anglais), Amundi utilise deux filtres :

Le premier filtre de DNSH repose sur le contrôle des indicateurs obligatoires des Principales incidences négatives de l'Annexe 1, Tableau 1 des normes techniques réglementaires (RTS) lorsqu'il existe des données fiables (par ex. Intensité des GES des sociétés bénéficiaires d'investissements) via une combinaison d'indicateurs (par ex. intensité carbone) et des seuils ou règles spécifiques (par ex. que l'intensité carbone de la société bénéficiaire d'investissements n'appartient pas au dernier décile du secteur).

Dans sa politique d'exclusion qui fait partie intégrante de sa Politique d'investissement responsable, Amundi tient d'ores et déjà compte de Principales incidences négatives spécifiques. Ces exclusions, qui s'appliquent en sus des tests détaillés ci-dessus, couvrent les sujets suivants : exclusions sur les armes controversées, les violations des principes du Pacte mondial des Nations Unies, le charbon et le tabac.

Au-delà des facteurs de durabilité spécifiques couverts par le premier filtre, Amundi a défini un second filtre, qui ne tient pas compte des indicateurs obligatoires des Principales incidences négatives ci-dessus, afin de vérifier que la société n'affiche pas de mauvaises performances d'un point de vue environnemental ou social global par rapport aux autres entreprises de son secteur, ce qui correspond à un score environnemental ou social supérieur ou égal à E selon la notation ESG d'Amundi.

- ***Comment les indicateurs concernant les incidences négatives sur les facteurs de durabilité ont-ils été pris en considération ?***

Les indicateurs d'incidences négatives ont été pris en compte comme détaillé dans le premier filtre DNSH ci-dessus.

Le premier filtre DNSH repose sur le contrôle des indicateurs obligatoires des Principales incidences négatives de l'Annexe 1, Tableau 1 du Règlement délégué (UE) 2022/1288 lorsqu'il existe des données fiables via la combinaison des indicateurs suivants et de seuils ou règles spécifiques :

- une intensité en CO2 qui n'appartient pas au dernier décile par rapport aux autres entreprises du secteur (ne s'applique qu'aux secteurs à forte intensité) ;
- un Conseil d'administration dont le niveau de diversité n'appartient pas au dernier décile par rapport aux autres sociétés du secteur ;
- ne pas faire l'objet de controverse relative aux conditions de travail et aux droits humains ; et
- ne pas faire l'objet de controverse relative à la biodiversité et à la pollution.

Dans sa politique d'exclusion qui fait partie intégrante de sa Politique d'investissement responsable, Amundi tient d'ores et déjà compte de Principales incidences négatives spécifiques. Ces exclusions, qui s'appliquent en sus des tests détaillés ci-dessus, couvrent les sujets suivants : exclusions sur les armes controversées, les violations des principes du Pacte mondial des Nations Unies, le charbon et le tabac.

- ***Les investissements durables étaient-ils conformes aux Principes directeurs de l'OCDE à l'intention des entreprises multinationales et aux Principes directeurs des Nations unies relatifs aux entreprises et aux droits humains ? Description détaillée :***

Oui, les Principes directeurs de l'OCDE à l'intention des entreprises multinationales et les Principes directeurs des Nations unies relatifs aux entreprises et aux droits humains sont

intégrés à notre méthode de notation ESG. Notre outil de notation ESG exclusif évalue les émetteurs à l'aide des données disponibles auprès de nos fournisseurs de données. Par exemple, le modèle dispose d'un critère dédié appelé « Implication dans la communauté et droits humains » qui s'applique à tous les secteurs en plus d'autres critères liés aux droits humains, y compris les chaînes d'approvisionnement socialement responsables, les conditions de travail et les relations de travail. En outre, nous effectuons un contrôle des controverses au moins une fois par trimestre, y compris sur les entreprises identifiées pour des violations des droits humains. En cas de controverse, les analystes évaluent la situation, lui donnent une note (à l'aide de notre méthode de notation exclusive) et déterminent la marche à suivre. Les notes de controverse sont mises à jour chaque trimestre pour suivre les tendances et les efforts de correction.

La Taxinomie de l'UE définit un principe consistant à « ne pas causer de préjudice important » (« Do not significant harm » ou DNSH) en vertu duquel les investissements alignés sur la Taxinomie ne doivent pas causer de préjudice important aux objectifs de la Taxinomie de l'UE et s'accompagnent de critères de l'UE spécifiques.

Le principe consistant à « ne pas causer de préjudice important » ne s'applique qu'aux investissements sous-jacents du produit financier qui tiennent compte des critères de l'UE pour les activités économiques durables sur le plan environnemental. Les investissements sous-jacents de la portion restante de ce produit financier ne tiennent pas compte des critères de l'UE en matière d'activités économiques durables sur le plan environnemental.

Tout autre investissement durable doit également se conformer au principe consistant à ne pas causer de préjudice important aux objectifs environnementaux ou sociaux.

Dans quelle mesure ce produit financier a-t-il pris en considération les principales incidences négatives sur les facteurs de durabilité ?

Le produit tient compte de toutes les Principales incidences négatives obligatoires en vertu de l'Annexe 1, Tableau 1 du Règlement délégué (UE) 2022/1288 applicables à la stratégie du produit et s'appuie sur une combinaison de politiques d'exclusion (normatives et sectorielles) et d'approches d'engagement et de vote :

- Exclusion : Amundi a défini des règles d'exclusion normatives, basées sur l'activité et les secteurs, qui couvrent certains des principaux indicateurs négatifs de durabilité énumérés par le Règlement Disclosure (sur la publication d'informations).
- Intégration des facteurs ESG : Amundi a adopté des normes d'intégration ESG minimales appliquées par défaut à ses fonds de type ouvert activement gérés (exclusion des émetteurs ayant la note G et meilleure note ESG moyenne pondérée supérieure à celle de l'indice de référence applicable). Les 38 critères employés dans la stratégie de notation ESG d'Amundi ont également été conçus pour tenir compte des principaux impacts sur les facteurs de durabilité, ainsi que de la qualité de la réduction entreprise en la matière.
- Engagement : L'engagement est un processus continu et ciblé qui vise à influencer les activités ou le comportement des sociétés bénéficiaires des investissements. L'objectif des activités d'engagement peut se diviser en deux catégories : impliquer un émetteur pour améliorer la manière dont il intègre la dimension environnementale et sociale ou impliquer un émetteur pour améliorer son impact sur les questions environnementales, sociales et liées aux droits humains ou d'autres questions de durabilité qui sont importantes pour la société au sens large et l'économie mondiale.
- Vote : La politique de vote d'Amundi répond à une analyse globale de toutes les questions à long terme qui peuvent influencer la création de valeur, y compris les questions ESG importantes. pour plus d'informations, veuillez consulter la Politique de vote d'Amundi.
- Surveillance des controverses : Amundi a développé un système de suivi des controverses qui s'appuie sur trois fournisseurs de données externes pour suivre systématiquement l'évolution des controverses et leur niveau de gravité. Cette approche quantitative est ensuite enrichie d'une évaluation approfondie de chaque controverse grave, menée par des analystes ESG, puis d'un examen périodique de son évolution. Cette approche s'applique à tous les fonds d'Amundi.

Pour de plus amples détails sur le mode de prise en compte des indicateurs relatifs aux Principales incidences négatives obligatoires, veuillez consulter la Déclaration sur la publication d'informations en matière de finance durable d'Amundi disponible sur www.amundi.com.

Quels étaient les principaux investissements de ce produit financier ?

La liste inclut les investissements qui constituent la proportion la plus importante d'investissements du produit financier au cours de la période de référence, à savoir : du 01/07/2023 au 30/06/2024

Principaux investissements	Secteur	Sous-secteur	Pays	% des actifs
ALPHABET INC CL A	Services de communication	Médias et loisirs	États-Unis	5.03%
INTL BUSINESS MACHINES CORP	Technologies de l'information	Logiciels et services	États-Unis	3.26%
CARDINAL HEALTH INC	Santé	Matériel et services de santé	États-Unis	3.20%
KB FINANCIAL GROUP INC	Obligations financières	Banques	Corée	3.03%
ADVANCED MICRO DEVICES	Technologies de l'information	Semi-conducteurs et équipement pour semi-conducteurs	États-Unis	2.86%
CRH PLC UK	Matériaux	Matériaux de construction	Irlande	2.76%
SAMSUNG ELECTRONICS	Technologies de l'information	Matériel et équipement technologique	Corée	2.69%
ALIBABA GROUP HOLDING LTD	Consommation discrétionnaire	Distribution et vente au détail de biens de consommation discrétionnaires	Îles Caïmans	2.55%
ABN AMRO BANK NV-CVA	Obligations financières	Banques	Pays-Bas	2.51%

PURE STORAGE INC CL A	Technologies de l'information	Matériel et équipement technologique	États-Unis	2.17%
EBAY INC	Consommation discrétionnaire	Distribution et vente au détail de biens de consommation discrétionnaires	États-Unis	2.14%
PERSIMMON PLC	Consommation discrétionnaire	Biens de consommation durables et habillement	Royaume-Uni	2.09%

Quelle était la proportion d'investissements liés à la durabilité ?

Quelle était l'allocation d'actifs ?

L'allocation d'actifs décrit la part des investissements dans des actifs spécifiques.

La catégorie **N° 1 Alignés sur les caractéristiques E/S** inclut les investissements du produit financier utilisés pour atteindre les caractéristiques environnementales ou sociales promues par le produit financier.

La catégorie **N° 2 Autres** inclut les investissements restants du produit financier qui ne sont ni alignés sur les caractéristiques environnementales ou sociales ni considérés comme investissements durables.

La catégorie **N° 1 Alignés sur les caractéristiques E/S** comprend :

- la sous-catégorie **N° 1A Durables** couvrant les investissements durables sur le plan environnemental et social ;
- la sous-catégorie **N° 1B Autres caractéristiques E/S** couvrant les investissements alignés sur les caractéristiques environnementales ou sociales qui ne sont pas considérés comme des investissements durables.

● Dans quels secteurs économiques ont été réalisés les investissements ?

Secteur	Sous-secteur	% des actifs
Obligations financières	Banques	13.95%
Industrie	Biens d'équipement	9.86%
Obligations financières	Services financiers	6.70%
Consommation discrétionnaire	Distribution et vente au détail de biens de consommation discrétionnaires	6.31%
Services de communication	Médias et loisirs	6.10%

Consommation discrétionnaire	Services aux consommateurs	0.72%
Liquidités	Liquidités	3.27%

Aux fins d'observer la taxinomie de l'UE, les critères relatifs au **gaz fossile** incluent des limites aux émissions et le passage à une énergie entièrement renouvelable ou à des combustibles à faible teneur en carbone d'ici fin 2035. Pour **l'énergie nucléaire**, les critères incluent des règles exhaustives de sécurité et de gestion des déchets.

Les activités habilitantes permettent directement à d'autres activités de contribuer de manière substantielle à la réalisation d'un objectif environnemental.

Les activités transitoires sont des activités pour lesquelles il n'existe pas encore de solution de remplacement sobre en carbone et, entre autres, dont les niveaux d'émission de gaz à effet de serre correspondent aux meilleures

Dans quelle mesure les investissements durables ayant un objectif environnemental étaient-ils alignés sur la Taxinomie de l'UE ?

Le fonds promeut des caractéristiques tant environnementales que sociales. Si le fonds ne s'est pas engagé à réaliser des investissements alignés sur la Taxinomie de l'UE, au cours de la période sous revue, il a cependant investi 0.04% dans des investissements durables alignés sur la Taxinomie de l'UE. De tels investissements ont contribué à l'obligation relative au changement climatique ou aux objectifs de réduction du changement climatique de la Taxinomie de l'UE.

L'alignement des sociétés bénéficiaires des investissements sur les objectifs de la taxinomie de l'UE susmentionnés est évalué à l'aide du chiffre d'affaires (ou des revenus) et/ou des données d'utilisation des produits des obligations vertes.

Le pourcentage communiqué d'alignement des investissements du fonds sur la Taxinomie de l'UE n'a pas été audité par le réviseur d'entreprises agréé du fonds ni par aucun tiers.

● Le produit financier a-t-il investi dans des activités liées au gaz fossile et/ou à l'énergie nucléaire qui sont conformes à la Taxinomie de l'UE¹ ?

☐

Oui :

☐

Dans le gaz fossile

☐

Dans l'énergie nucléaire

☒

Non

Aucune donnée fiable concernant l'alignement sur les activités de gaz fossile et d'énergie nucléaire conformes à la Taxinomie de l'UE n'était disponible sur la période.

¹ Les activités liées au gaz fossile et/ou à l'énergie nucléaire ne seront conformes à la Taxinomie de l'UE que si elles contribuent à limiter le changement climatique (« réduction du changement climatique ») et ne causent pas de préjudice important à tout objectif de la Taxinomie de l'UE. L'intégralité des critères relatifs aux activités économiques liées au gaz fossile et à l'énergie nucléaire conformes à la Taxinomie de l'UE sont définis dans le Règlement délégué (UE) 2022/1214 de la Commission.

performances réalisables.

Les activités alignées sur la taxinomie sont exprimées en pourcentage :

- du chiffre d'affaires pour refléter la part des revenus provenant des activités vertes des sociétés bénéficiaires d'investissements ;
- des dépenses d'investissement (CapEx) pour montrer les investissements verts réalisés par les sociétés bénéficiaires d'investissements, pour une transition vers une économie verte, par exemple ; et
- des dépenses d'exploitation (OpEx) pour refléter les activités opérationnelles vertes des sociétés bénéficiaires d'investissements.

Les graphiques ci-dessous font apparaître en vert le pourcentage d'investissements alignés sur la Taxinomie de l'UE. Étant donné qu'il n'existe pas de méthodologie appropriée pour déterminer l'alignement des obligations souveraines* sur la taxinomie, le premier graphique montre l'alignement sur la Taxinomie par rapport à tous les investissements du produit financier, y compris les obligations souveraines, tandis que le deuxième graphique représente l'alignement sur la Taxinomie uniquement par rapport aux investissements du produit financier autres que les obligations souveraines.

* Aux fins de ces graphiques, les « obligations souveraines » comprennent toutes les expositions souveraines

● Quelle était la part d'investissements dans les activités transitoires et habilitantes ?

Au 30/06/2024, en utilisant le chiffre d'affaires et/ou les données d'utilisation des produits des obligations vertes comme indicateur, la part d'investissements du fonds dans les activités transitoires était de 0.03% et la part d'investissements dans les activités habilitantes était de 0.03%. Le pourcentage communiqué d'alignement des investissements du fonds sur la Taxinomie de l'UE n'a pas été audité par le réviseur d'entreprises agréé du fonds ni par aucun tiers.

● Comment se situe le pourcentage d'investissements alignés sur la Taxinomie de l'UE par rapport aux périodes de référence antérieures ?

C'est le premier rapport périodique SFDR produit pour ce compartiment.

ont des investissements durables ayant un objectif environnemental qui ne tiennent pas compte des critères en matière d'activités économiques durables sur le plan environnemental visés par le Règlement (UE) 2020/852.

● Quelle était la part des investissements durables ayant un objectif environnemental qui n'étaient pas alignés sur la Taxinomie de l'UE ?

La part des investissements durables ayant un objectif environnemental et non alignés sur la taxinomie était de 37.87% à la fin de la période.

Cela tient du fait que certains émetteurs sont considérés comme investissements durables en vertu du Règlement SFDR mais qu'une portion de leurs activités n'est pas alignée sur les standards de la taxinomie de l'UE, ou que les données correspondantes ne sont pas encore disponibles en vue d'une évaluation relative à la taxinomie de l'UE.

● Quelle était la part d'investissements durables sur le plan social ?

La proportion des investissements durables sur le plan social était de 7.69% à la fin de la période.

Quels investissements étaient inclus dans la catégorie « Autres », quelle était leur finalité et existait-il des garanties environnementales ou sociales minimales ?

Sont inclus dans la catégorie « N° 2 Autres » les liquidités et autres instruments détenus aux fins de gestion de la liquidité et des risques du portefeuille. Pour les obligations et actions non notées, des garanties environnementales et sociales minimales ont été mises en place par le biais d'un filtrage des émetteurs en rapport aux activités controversées définies dans les principes du Pacte mondial des Nations unies. Elle peut également inclure des titres sans notation ESG pour lesquels les données nécessaires à la mesure de la réalisation des caractéristiques environnementales ou sociales ne sont pas disponibles.

Quelles mesures ont-elles été prises pour réaliser les caractéristiques environnementales et/ou sociales au cours de la période de référence ?

Des indicateurs de durabilité sont mis à disposition de manière continue dans le système de gestion du portefeuille pour permettre aux gestionnaires du portefeuille d'évaluer l'impact de leurs décisions d'investissement.

Ces indicateurs sont intégrés au cadre de contrôle d'AMUNDI, en répartissant les responsabilités entre le premier niveau de contrôles réalisés par les équipes Investissement elles-mêmes, et le second niveau de contrôles réalisé par les équipes Risque, qui surveillent la conformité aux caractéristiques environnementales ou sociales promues en permanence par le fonds.

En outre, la Politique d'investissement responsable d'AMUNDI définit une approche active en matière d'engagement qui promeut le dialogue avec les sociétés bénéficiaires des investissements, y compris celles qui sont incluses dans le portefeuille de ce produit. Notre Rapport annuel en matière d'engagement, disponible à la page <https://about.amundi.com/esg-documentation>, fournit des informations détaillées sur cet engagement et ses résultats.

Quelles ont été les performances de ce produit financier par rapport à l'indice de référence ?

Ce produit ne dispose pas d'un Indice de référence ESG.

● En quoi l'indice de référence diffère-t-il de l'indice de marché large ?

Ce produit ne dispose pas d'un Indice de référence ESG.

● Quelles ont été les performances de ce produit financier par rapport aux indicateurs de durabilité pour déterminer l'alignement de l'indice de référence sur les caractéristiques environnementales ou sociales promues ?

Ce produit ne dispose pas d'un Indice de référence ESG.

● Quelle a été la performance de ce produit financier par rapport à l'indice de référence ?

Ce produit ne dispose pas d'un Indice de référence ESG.

● Quelle a été la performance de ce produit financier par rapport à l'indice de marché large ?

Ce produit ne dispose pas d'un Indice de référence ESG.

Un indice de référence est un indice qui sert à mesurer si le produit financier réalise les caractéristiques environnementales et/ou sociales qu'il promeut.

Modèle d'informations périodiques pour les produits financiers visés à l'Article 8, paragraphes 1, 2 et 2a, du Règlement (UE) 2019/2088 et à l'Article 6, premier paragraphe du Règlement (UE) 2020/852

Dénomination du produit : AMUNDI FUNDS
EUROLAND EQUITY

Identifiant d'entité juridique :
549300I7SRMTTD1P6F20

Par investissement durable, on entend un investissement dans une activité économique qui contribue à un objectif environnemental ou social, pour autant qu'il ne cause de préjudice important à aucun de ces objectifs et que les sociétés détenues respectent les pratiques de bonne gouvernance.

La Taxinomie de l'UE est un système de classification institué par le Règlement (UE) 2020/852, qui dresse une liste d'**activités économiques durables sur le plan environnemental**. Ce règlement ne comprend pas de liste d'activités économiques durables sur le plan social. Les investissements durables ayant un objectif environnemental ne sont pas nécessairement alignés sur la taxinomie.

Caractéristiques environnementales et/ou sociales

Le produit financier avait-il un objectif d'investissement durable ?	
☒ ☐ ☐ Oui	☒ ☐ ☐ X Non
☐ Il a réalisé des investissements durables ayant un objectif environnemental : _____ ☐ dans des activités économiques qui sont considérées comme durables sur le plan environnemental au titre de la Taxinomie de l'UE ☐ dans des activités économiques qui ne sont pas considérées comme durables sur le plan environnemental au titre de la Taxinomie de l'UE	☒ Il a promu des caractéristiques environnementales/sociales (E/S) et, bien qu'il n'ait pas eu pour objectif l'investissement durable, il contenait une proportion d'investissements durables de 77.26% ☐ ayant un objectif environnemental dans des activités économiques qui sont considérées comme durables sur le plan environnemental au titre de la Taxinomie de l'UE ☒ ayant un objectif environnemental dans des activités économiques qui ne sont pas considérées comme durables sur le plan environnemental au titre de la Taxinomie de l'UE ☐ ayant un objectif social
☐ Il a réalisé des investissements durables ayant un objectif social : _____	☐ Il a promu des caractéristiques E/S, mais n'a pas réalisé d'investissements durables

Dans quelle mesure les caractéristiques environnementales et/ou sociales promues par ce produit financier ont-elles été réalisées ?

Au cours de l'exercice financier, le produit n'a cessé de promouvoir les caractéristiques environnementales et/ou sociales en cherchant à atteindre une note ESG supérieure à celle de son univers d'investissement **MSCI EMU**. Pour déterminer la note ESG du Produit et de l'univers d'investissement ESG, la performance ESG a été évaluée de manière continue en comparant la performance moyenne d'un titre par rapport au secteur de l'émetteur du titre, pour chacune des trois caractéristiques, à savoir environnementale, sociale et de gouvernance.

L'univers d'investissement est un univers de marché large qui n'évalue ni n'inclut pas de composantes en fonction de caractéristiques environnementales et/ou sociales, et qui n'a par conséquent pas pour vocation d'être conforme aux caractéristiques promues par le fonds. Aucun indice de référence ESG n'a été désigné.

Les indicateurs de durabilité

évaluent la mesure dans laquelle les caractéristiques environnementales ou sociales promues par le produit financier sont atteintes.

● **Quelle performance ont affiché les indicateurs de durabilité ?**

Amundi a développé son propre processus de notation ESG interne, qui suit une approche « Best-in-class ». Les notations adaptées à chaque secteur d'activité ont pour objectif d'évaluer la dynamique dans laquelle interviennent les entreprises.

L'indicateur de durabilité employé est la note ESG du Produit mesurée en comparaison avec la note ESG de l'univers d'investissement ESG du Produit.

À la fin de la période :

- La note ESG moyenne pondérée du portefeuille est **1.174 (C)**.
- La note ESG moyenne pondérée de l'univers d'investissement ESG est **1.030 (C)**.

La notation ESG Amundi utilisée pour déterminer la note ESG est une note ESG quantitative qui se décline en sept niveaux allant de A (les meilleures notes de l'univers) à G (les pires notes). Sur l'échelle de notation ESG d'Amundi, les titres figurant sur la liste d'exclusion correspondent à G. Pour les entreprises émettrices, la performance ESG est évaluée de manière globale et au niveau des critères pertinents par comparaison avec la performance moyenne du secteur, en combinant les trois dimensions ESG :

- Dimension environnementale : cette dimension examine la capacité des émetteurs à contrôler leur impact environnemental direct et indirect, en limitant leur consommation d'énergie, en réduisant leurs émissions de gaz à effet de serre, en luttant contre l'appauvrissement des ressources et en protégeant la biodiversité.
- Dimension sociale : cette dimension évalue le fonctionnement d'un émetteur dans deux domaines différents, à savoir sa stratégie de développement du capital humain et le respect des droits humains en général.
- Dimension de gouvernance : cette dimension évalue la capacité de l'émetteur à garantir les fondements d'un cadre de gouvernance d'entreprise efficace et à générer de la valeur sur le long terme.

La méthodologie appliquée par la notation ESG d'Amundi utilise 38 critères qui sont soit génériques (communs à toutes les entreprises, indépendamment de leur activité) soit spécifiques au secteur, et qui sont pondérés en fonction du secteur et considérés en termes d'impact sur la réputation, l'efficacité opérationnelle et les réglementations concernant un émetteur. Les notations ESG d'Amundi sont susceptibles d'être exprimées de manière globale pour les trois dimensions E, S et G, ou individuellement pour tout facteur environnemental ou social.

● **... et par rapport aux périodes antérieures ?**

À la fin de la période précédente, la note ESG moyenne pondérée du portefeuille était de 1.11 (C) et la note ESG moyenne pondérée de l'univers d'investissement ESG était de 1.03 (C).

● **Quels étaient les objectifs des investissements durables que le produit financier entendait partiellement réaliser, et comment l'investissement durable a-t-il contribué à ces objectifs ?**

Les objectifs des investissements durables sont d'investir dans des sociétés détenues qui cherchent à respecter deux critères :

1. suivre les bonnes pratiques environnementales et sociales ; et
2. éviter de fabriquer des produits ou de fournir des services qui nuisent à l'environnement et à la société.

Pour que la société bénéficiaire des investissements soit réputée contribuer à l'objectif susmentionné, elle doit figurer parmi les « meilleures performances » de son secteur d'activité pour au moins l'un de ses facteurs environnementaux ou sociaux importants.

La définition de « meilleures performances » repose sur la méthode ESG exclusive d'Amundi, dont l'objectif est de mesurer la performance ESG d'une société bénéficiaire des investissements. Pour être considérée comme l'une des « meilleures performances », une société bénéficiaire des investissements doit afficher l'une des trois premières notes (A, B ou C, sur une échelle de notation allant de A à G) dans son secteur pour au moins un facteur environnemental ou social important. Les facteurs environnementaux et sociaux sont identifiés à l'échelle des secteurs. L'identification des facteurs importants est basée sur le cadre d'analyse ESG d'Amundi qui combine des données extra-financières et une analyse qualitative du secteur associé et des questions de durabilité. Les facteurs identifiés comme importants représentent plus de 10 % de la note ESG globale. Par exemple pour le secteur de l'énergie, les facteurs importants

sont les suivants : émissions et énergie, biodiversité et pollution, santé et sécurité, communautés locales et droits humains. Pour un aperçu plus complet des secteurs et des facteurs, veuillez consulter la Déclaration réglementaire ESG d'Amundi disponible sur www.amundi.lu

Pour contribuer aux objectifs ci-dessus, la société bénéficiaire des investissements ne doit pas avoir d'exposition significative aux activités (par ex. tabac, armes, jeux de hasard, charbon, aviation, production de viande, fabrication d'engrais et de pesticides, production de plastique à usage unique) incompatibles avec ces critères.

Le caractère durable d'un investissement est évalué au niveau de la société bénéficiaire des investissements.

● ***Dans quelle mesure les investissements durables que le produit financier a partiellement réalisés n'ont-ils pas causé de préjudice important à un objectif d'investissement durable sur le plan environnemental ou social ?***

Pour s'assurer que les investissements durables ne causent pas de préjudice important (principe « Do no significant harm » ou « DNSH » en anglais), Amundi utilise deux filtres :

Le premier filtre de DNSH repose sur le contrôle des indicateurs obligatoires des Principales incidences négatives de l'Annexe 1, Tableau 1 des normes techniques réglementaires (RTS) lorsqu'il existe des données fiables (par ex. Intensité des GES des sociétés bénéficiaires des investissements) via une combinaison d'indicateurs (par ex. intensité carbone) et des seuils ou règles spécifiques (par ex. que l'intensité carbone de la société bénéficiaire des investissements n'appartient pas au dernier décile du secteur).

Dans sa politique d'exclusion qui fait partie intégrante de sa Politique d'investissement responsable, Amundi tient d'ores et déjà compte de Principales incidences négatives spécifiques. Ces exclusions, qui s'appliquent en sus des tests détaillés ci-dessus, couvrent les sujets suivants : exclusions sur les armes controversées, les violations des principes du Pacte mondial des Nations Unies, le charbon et le tabac.

Au-delà des facteurs de durabilité spécifiques couverts par le premier filtre, Amundi a défini un second filtre, qui ne tient pas compte des indicateurs obligatoires des Principales incidences négatives ci-dessus, afin de vérifier que la société n'affiche pas de mauvaises performances d'un point de vue environnemental ou social global par rapport aux autres entreprises de son secteur, ce qui correspond à un score environnemental ou social supérieur ou égal à E selon la notation ESG d'Amundi.

- ***Comment les indicateurs concernant les incidences négatives sur les facteurs de durabilité ont-ils été pris en considération ?***

Les indicateurs d'incidences négatives ont été pris en compte comme détaillé dans le premier filtre DNSH ci-dessus.

Le premier filtre DNSH repose sur le contrôle des indicateurs obligatoires des Principales incidences négatives de l'Annexe 1, Tableau 1 du Règlement délégué (UE) 2022/1288 lorsqu'il existe des données fiables via la combinaison des indicateurs suivants et de seuils ou règles spécifiques :

- une intensité en CO2 qui n'appartient pas au dernier décile par rapport aux autres entreprises du secteur (ne s'applique qu'aux secteurs à forte intensité) ;
- un Conseil d'administration dont le niveau de diversité n'appartient pas au dernier décile par rapport aux autres sociétés du secteur ;
- ne pas faire l'objet de controverse relative aux conditions de travail et aux droits humains ; et
- ne pas faire l'objet de controverse relative à la biodiversité et à la pollution.

Dans sa politique d'exclusion qui fait partie intégrante de sa Politique d'investissement responsable, Amundi tient d'ores et déjà compte de Principales incidences négatives spécifiques. Ces exclusions, qui s'appliquent en sus des tests détaillés ci-dessus, couvrent les sujets suivants : exclusions sur les armes controversées, les violations des principes du Pacte mondial des Nations Unies, le charbon et le tabac.

- ***Les investissements durables étaient-ils conformes aux Principes directeurs de l'OCDE à l'intention des entreprises multinationales et aux Principes directeurs des Nations unies relatifs aux entreprises et aux droits humains ? Description détaillée :***

Oui, les Principes directeurs de l'OCDE à l'intention des entreprises multinationales et les Principes directeurs des Nations unies relatifs aux entreprises et aux droits humains sont

Les principales incidences négatives

correspondent aux incidences négatives les plus significatives des décisions d'investissement sur les facteurs de durabilité liés aux questions environnementales, sociales et de personnel, au respect des droits humains et à la lutte contre la corruption et les actes de corruption.

intégrés à notre méthode de notation ESG. Notre outil de notation ESG exclusif évalue les émetteurs à l'aide des données disponibles auprès de nos fournisseurs de données. Par exemple, le modèle dispose d'un critère dédié appelé « Implication dans la communauté et droits humains » qui s'applique à tous les secteurs en plus d'autres critères liés aux droits humains, y compris les chaînes d'approvisionnement socialement responsables, les conditions de travail et les relations de travail. En outre, nous effectuons un contrôle des controverses au moins une fois par trimestre, y compris sur les entreprises identifiées pour des violations des droits humains. En cas de controverse, les analystes évaluent la situation, lui donnent une note (à l'aide de notre méthode de notation exclusive) et déterminent la marche à suivre. Les notes de controverse sont mises à jour chaque trimestre pour suivre les tendances et les efforts de correction.

La Taxinomie de l'UE définit un principe consistant à « ne pas causer de préjudice important » (« Do not significant harm » ou DNSH) en vertu duquel les investissements alignés sur la Taxinomie ne doivent pas causer de préjudice important aux objectifs de la Taxinomie de l'UE et s'accompagnent de critères de l'UE spécifiques.

Le principe consistant à « ne pas causer de préjudice important » ne s'applique qu'aux investissements sous-jacents du produit financier qui tiennent compte des critères de l'UE pour les activités économiques durables sur le plan environnemental. Les investissements sous-jacents de la portion restante de ce produit financier ne tiennent pas compte des critères de l'UE en matière d'activités économiques durables sur le plan environnemental.

Tout autre investissement durable doit également se conformer au principe consistant à ne pas causer de préjudice important aux objectifs environnementaux ou sociaux.

Dans quelle mesure ce produit financier a-t-il pris en considération les principales incidences négatives sur les facteurs de durabilité ?

Le produit tient compte de toutes les Principales incidences négatives obligatoires en vertu de l'Annexe 1, Tableau 1 du Règlement délégué (UE) 2022/1288 applicables à la stratégie du produit et s'appuie sur une combinaison de politiques d'exclusion (normatives et sectorielles) et d'approches d'engagement et de vote :

- Exclusion : Amundi a défini des règles d'exclusion normatives, basées sur l'activité et les secteurs, qui couvrent certains des principaux indicateurs négatifs de durabilité énumérés par le Règlement Disclosure (sur la publication d'informations).
- Intégration des facteurs ESG : Amundi a adopté des normes d'intégration ESG minimales appliquées par défaut à ses fonds de type ouvert activement gérés (exclusion des émetteurs ayant la note G et meilleure note ESG moyenne pondérée supérieure à celle de l'indice de référence applicable). Les 38 critères employés dans la stratégie de notation ESG d'Amundi ont également été conçus pour tenir compte des principaux impacts sur les facteurs de durabilité, ainsi que de la qualité de la réduction entreprise en la matière.
- Engagement : L'engagement est un processus continu et ciblé qui vise à influencer les activités ou le comportement des sociétés bénéficiaires des investissements. L'objectif des activités d'engagement peut se diviser en deux catégories : impliquer un émetteur pour améliorer la manière dont il intègre la dimension environnementale et sociale ou impliquer un émetteur pour améliorer son impact sur les questions environnementales, sociales et liées aux droits humains ou d'autres questions de durabilité qui sont importantes pour la société au sens large et l'économie mondiale.
- Vote : La politique de vote d'Amundi répond à une analyse globale de toutes les questions à long terme qui peuvent influencer la création de valeur, y compris les questions ESG importantes. pour plus d'informations, veuillez consulter la Politique de vote d'Amundi.
- Surveillance des controverses : Amundi a développé un système de suivi des controverses qui s'appuie sur trois fournisseurs de données externes pour suivre systématiquement l'évolution des controverses et leur niveau de gravité. Cette approche quantitative est ensuite enrichie d'une évaluation approfondie de chaque controverse grave, menée par des analystes ESG, puis d'un examen périodique de son évolution. Cette approche s'applique à tous les fonds d'Amundi.

Pour de plus amples détails sur le mode de prise en compte des indicateurs relatifs aux Principales incidences négatives obligatoires, veuillez consulter la Déclaration sur la publication d'informations en matière de finance durable d'Amundi disponible sur www.amundi.com.

Quels étaient les principaux investissements de ce produit financier ?

La liste inclut les investissements qui constituent la proportion la plus importante d'investissements du produit financier au cours de la période de référence, à savoir : du 01/07/2023 au 30/06/2024

Principaux investissements	Secteur	Sous-secteur	Pays	% des actifs
ASML HOLDING NV	Informations Technologie	Semi-conducteurs et équipement pour informatiques	Pays-Bas	5.65%
SCHNEIDER ELECT SE	Industrie	Biens d'équipement	France	4.96%
SANOFI	Santé	Pharmacie, biotechnologie et sciences de la vie	France	4.38%
LVMH MOET HENNESSY LOUIS VUI	Consommation discrétionnaire	Consommation durables et habillement	France	4.32%
SIEMENS AG-REG	Industrie	Biens d'équipement	Allemagne	4.12%
DEUTSCHE TELEKOM NAM (XETRA)	Services de communication	Télécommunications	Allemagne	3.97%
IBERDROLA SA	Services aux collectivités	Services aux collectivités – électricité	Espagne	3.96%
ALLIANZ SE-REG	Obligations financières	Assurance	Allemagne	3.49%
VINCI SA (PARIS)	Industrie	Biens d'équipement	France	3.39%
BNP PARIBAS	Obligations financières	Banques	France	3.21%
DEUTSCHE BOERSE AG	Obligations financières	Services financiers	Allemagne	3.20%
ENI SPA MILAN	Énergie	Pétrole, gaz et combustibles	Italie	3.17%
KBC GROUP NV	Obligations financières	Banques	Belgique	3.00%
INFINEON TECHNOLOGIES AG	Informations Technologie	Semi-conducteurs et équipement pour informatiques	Allemagne	2.96%
VEOLIA ENVIRONNEMENT	Services aux collectivités	Services multiples aux collectivités	France	2.82%

Quelle était la proportion d'investissements liés à la durabilité ?

● Quelle était l'allocation d'actifs ?

L'allocation d'actifs décrit la part des investissements dans des actifs spécifiques.

La catégorie **N° 1 Alignés sur les caractéristiques E/S** inclut les investissements du produit financier utilisés pour atteindre les caractéristiques environnementales ou sociales promues par le produit financier.

La catégorie **N° 2 Autres** inclut les investissements restants du produit financier qui ne sont ni alignés sur les caractéristiques environnementales ou sociales ni considérés comme investissements durables.

La catégorie **N° 1 Alignés sur les caractéristiques E/S** comprend :

- la sous-catégorie **N° 1A Durables** couvrant les investissements durables sur le plan environnemental et social ;
- la sous-catégorie **N° 1B Autres caractéristiques E/S** couvrant les investissements alignés sur les caractéristiques environnementales ou sociales qui ne sont pas considérés comme des investissements durables.

● **Dans quels secteurs économiques ont été réalisés les investissements ?**

Secteur	Sous-secteur	% des actifs
Industrie	Biens d'équipement	16.9%
Obligations financières	Banques	8.78%
Technologies de l'information	Semi-conducteurs et équipement pour semi-conducteurs	8.61%
Consommation discrétionnaire	Biens de consommation durables et habillement	7.04%
Santé	Pharmacie, biotechnologie et sciences de la vie	6.91%
Biens de consommation de base	Alimentation, boissons et tabac	6.12%

<i>Énergie</i>	<i>Pétrole, gaz et combustibles</i>	<i>5.70%</i>

Aux fins d'observer la taxinomie de l'UE, les critères relatifs au **gaz fossile** incluent des limites aux émissions et le passage à une énergie entièrement renouvelable ou à des combustibles à faible teneur en carbone d'ici fin 2035. Pour **l'énergie nucléaire**, les critères incluent des règles exhaustives de sécurité et de gestion des déchets.

Les activités habilitantes permettent directement à d'autres activités de contribuer de manière substantielle à la réalisation d'un objectif environnemental.

Les activités transitoires sont des activités pour lesquelles il n'existe pas encore de solution de remplacement sobre en carbone et, entre autres, dont les niveaux d'émission de gaz à effet de serre correspondent aux meilleures performances réalisables.

Dans quelle mesure les investissements durables ayant un objectif environnemental étaient-ils alignés sur la Taxinomie de l'UE ?

Le fonds promeut des caractéristiques tant environnementales que sociales. Si le fonds ne s'est pas engagé à réaliser des investissements alignés sur la Taxinomie de l'UE, au cours de la période sous revue, il a cependant investi 3.18% dans des investissements durables alignés sur la Taxinomie de l'UE. De tels investissements ont contribué aux objectifs d'atténuation du changement climatique de la taxinomie de l'UE.

L'alignement des sociétés bénéficiaires des investissements sur les objectifs de la taxinomie de l'UE susmentionnés est évalué à l'aide du chiffre d'affaires (ou des revenus) et/ou des données d'utilisation des produits des obligations vertes.

Le pourcentage communiqué d'alignement des investissements du fonds sur la Taxinomie de l'UE n'a pas été audité par le réviseur d'entreprises agréé du fonds ni par aucun tiers.

● Le produit financier a-t-il investi dans des activités liées au gaz fossile et/ou à l'énergie nucléaire qui sont conformes à la Taxinomie de l'UE¹ ?

☐

Oui :

☐

Dans le gaz fossile

☐

Dans l'énergie nucléaire

☒

Non

Aucune donnée fiable concernant l'alignement sur les activités de gaz fossile et d'énergie nucléaire conformes à la Taxinomie de l'UE n'était disponible sur la période.

¹Les activités liées au gaz fossile et/ou à l'énergie nucléaire ne seront conformes à la Taxinomie de l'UE que si elles contribuent à limiter le changement climatique (« atténuation du changement climatique ») et ne causent pas de préjudice important à tout objectif de la Taxinomie de l'UE. L'intégralité des critères relatifs aux activités économiques liées au gaz fossile et à l'énergie nucléaire conformes à la Taxinomie de l'UE sont définis dans le Règlement délégué (UE) 2022/1214 de la Commission.

Les activités alignées sur la taxinomie sont exprimées en pourcentage :

- **du chiffre d'affaires** pour refléter la part des revenus provenant des activités vertes des sociétés bénéficiaires d'investissements ;
- **des dépenses d'investissement (CapEx)** pour montrer les investissements verts réalisés par les sociétés bénéficiaires d'investissements, pour une transition vers une économie verte, par exemple ; et
- **des dépenses d'exploitation (OpEx)** pour refléter les activités opérationnelles vertes des sociétés bénéficiaires d'investissements.

Les graphiques ci-dessous font apparaître en vert le pourcentage d'investissements alignés sur la Taxinomie de l'UE. Étant donné qu'il n'existe pas de méthodologie appropriée pour déterminer l'alignement des obligations souveraines* sur la taxinomie, le premier graphique montre l'alignement sur la Taxinomie par rapport à tous les investissements du produit financier, y compris les obligations souveraines, tandis que le deuxième graphique représente l'alignement sur la Taxinomie uniquement par rapport aux investissements du produit financier autres que les obligations souveraines.

* Aux fins de ces graphiques, les « obligations souveraines » comprennent toutes les expositions souveraines

● Quelle était la part d'investissements dans les activités transitoires et habilitantes ?

Au 30/06/2024, en utilisant le chiffre d'affaires et/ou les données d'utilisation des produits des obligations vertes comme indicateur, la part d'investissements du fonds dans les activités transitoires était de 0.02% et la part d'investissements dans les activités habilitantes était de 3.36%. Le pourcentage communiqué d'alignement des investissements du fonds sur la Taxinomie de l'UE n'a pas été audité par le réviseur d'entreprises agréé du fonds ni par aucun tiers.

● Comment se situe le pourcentage d'investissements alignés sur la Taxinomie de l'UE par rapport aux périodes de référence antérieures ?

À la fin de la période précédente, le pourcentage d'investissements alignés sur la taxinomie était de 2.91%.

Quelle était la part des investissements durables ayant un objectif environnemental qui n'étaient pas alignés sur la Taxinomie de l'UE ?

La part des investissements durables ayant un objectif environnemental et non alignés sur la taxinomie était de **64.90%** à la fin de la période. Cela tient du fait que certains émetteurs sont considérés comme investissements durables en vertu du Règlement SFDR mais qu'une portion de leurs activités n'est pas alignée sur les standards de la taxinomie de l'UE, ou que les données correspondantes ne sont pas encore disponibles en vue d'une évaluation relative à la taxinomie de l'UE.

Quelle était la part d'investissements durables sur le plan social ?

La proportion des investissements durables sur le plan social était de 9.18% à la fin de la période.

Quels investissements étaient inclus dans la catégorie « Autres », quelle était leur finalité et existait-il des garanties environnementales ou sociales minimales ?

Sont inclus dans la catégorie « N° 2 Autres » les liquidités et autres instruments détenus aux fins de gestion de la liquidité et des risques du portefeuille. Pour les obligations et actions non notées, des garanties environnementales et sociales minimales ont été mises en place par le biais d'un filtrage des émetteurs en rapport aux activités controversées définies dans les principes du Pacte mondial des Nations unies. Elle peut également inclure des titres sans notation ESG pour lesquels les données nécessaires à la mesure de la réalisation des caractéristiques environnementales ou sociales ne sont pas disponibles.

Quelles mesures ont-elles été prises pour réaliser les caractéristiques environnementales et/ou sociales au cours de la période de référence ?

Des indicateurs de durabilité sont mis à disposition de manière continue dans le système de gestion du portefeuille pour permettre aux gestionnaires du portefeuille d'évaluer l'impact de leurs décisions d'investissement.

Ces indicateurs sont intégrés au cadre de contrôle d'AMUNDI, en répartissant les responsabilités entre le premier niveau de contrôles réalisés par les équipes Investissement elles-mêmes, et le second niveau de contrôles réalisé par les équipes Risque, qui surveillent la conformité aux caractéristiques environnementales ou sociales promues en permanence par le fonds.

En outre, la Politique d'investissement responsable d'AMUNDI définit une approche active en matière d'engagement qui promeut le dialogue avec les sociétés bénéficiaires des investissements, y compris celles qui sont incluses dans le portefeuille de ce produit. Notre Rapport annuel en matière d'engagement, disponible à la page <https://about.amundi.com/esg-documentation>, fournit des informations détaillées sur cet engagement et ses résultats.

Quelles ont été les performances de ce produit financier par rapport à l'indice de référence ?

Un indice de référence est un indice qui sert à mesurer si le produit financier réalise les caractéristiques environnementales et/ou sociales qu'il promeut.

Ce produit ne dispose pas d'un Indice de référence ESG.

● *En quoi l'indice de référence diffère-t-il de l'indice de marché large ?*

Ce produit ne dispose pas d'un Indice de référence ESG.

● *Quelles ont été les performances de ce produit financier par rapport aux indicateurs de durabilité pour déterminer l'alignement de l'indice de référence sur les caractéristiques environnementales ou sociales promues ?*

Ce produit ne dispose pas d'un Indice de référence ESG.

● *Quelle a été la performance de ce produit financier par rapport à l'indice de référence ?*

Ce produit ne dispose pas d'un Indice de référence ESG.

● *Quelle a été la performance de ce produit financier par rapport à l'indice de marché large ?*

Ce produit ne dispose pas d'un Indice de référence ESG.

Modèle d'informations périodiques pour les produits financiers visés à l'Article 8, paragraphes 1, 2 et 2a, du Règlement (UE) 2019/2088 et à l'Article 6, premier paragraphe du Règlement (UE) 2020/852

Dénomination du produit : AMUNDI FUNDS
EUROPEAN EQUITY ESG IMPROVERS

Identifiant d'entité juridique :
213800RDI8BXDLA6QV22

Par investissement durable, on entend un investissement dans une activité économique qui contribue à un objectif environnemental ou social, pour autant qu'il ne cause de préjudice important à aucun de ces objectifs et que les sociétés détenues respectent les pratiques de bonne gouvernance.

La **Taxinomie de l'UE** est un système de classification institué par le Règlement (UE) 2020/852, qui dresse une liste d'**activités économiques durables sur le plan environnemental**. Ce règlement ne comprend pas de liste d'activités économiques durables sur le plan social. Les investissements durables ayant un objectif environnemental ne sont pas nécessairement alignés sur la taxinomie.

Caractéristiques environnementales et/ou sociales

Le produit financier avait-il un objectif d'investissement durable ?

☒ ☐ **Oui** ☒ ☐ **X Non**

☐ Il a réalisé des investissements durables ayant un objectif environnemental : _____ ☐ dans des activités économiques qui sont considérées comme durables sur le plan environnemental au titre de la Taxinomie de l'UE ☐ dans des activités économiques qui ne sont pas considérées comme durables sur le plan environnemental au titre de la Taxinomie de l'UE ☐ Il a réalisé des investissements durables ayant un objectif social : _____	☒ Il a promu des caractéristiques environnementales/sociales (E/S) et, bien qu'il n'ait pas eu pour objectif l'investissement durable, il contenait une proportion d'investissements durables de 56.77% ☐ ayant un objectif environnemental dans des activités économiques qui sont considérées comme durables sur le plan environnemental au titre de la Taxinomie de l'UE ☒ ayant un objectif environnemental dans des activités économiques qui ne sont pas considérées comme durables sur le plan environnemental au titre de la Taxinomie de l'UE ☐ ayant un objectif social ☐ Il a promu des caractéristiques E/S, mais n'a pas réalisé d'investissements durables
---	---

Dans quelle mesure les caractéristiques environnementales et/ou sociales promues par ce produit financier ont-elles été réalisées ?

Au cours de l'exercice financier, le produit n'a cessé de promouvoir les caractéristiques environnementales et/ou sociales en cherchant à atteindre une note ESG supérieure à celle de son univers d'investissement **MSCI EUROPE (15)**. Pour déterminer la note ESG du Produit et de l'univers d'investissement ESG, la performance ESG a été évaluée de manière continue en comparant la performance moyenne d'un titre par rapport au secteur de l'émetteur du titre, pour chacune des trois caractéristiques, à savoir environnementale, sociale et de gouvernance.

L'univers d'investissement est un univers de marché large qui n'évalue ni n'inclut pas de composantes en fonction de caractéristiques environnementales et/ou sociales, et qui n'a par conséquent pas pour vocation d'être conforme aux caractéristiques promues par le fonds. Aucun indice de référence ESG n'a été désigné.

Le gestionnaire des investissements a concentré le processus de placement sur les entreprises/secteurs/pays ayant suivi une trajectoire positive en termes de critères ESG au sein de

leur activité, ou prévoyant de suivre une telle trajectoire. Le gestionnaire des investissements a identifié des opportunités de placement alignées sur l'objectif de génération d'alpha en se concentrant en particulier sur l'inclusion des entreprises/secteurs/pays qui seront de solides gagnants en termes de critères ESG à l'avenir, qui présentent (ou présenteront) une amélioration favorable du profil ESG, tout en investissant également dans des entreprises/secteurs/pays qui sont actuellement des références en matière d'ESG.

Par ailleurs, le Compartiment a obtenu pour son portefeuille une note ESG qui est supérieure à celle de l'Indice de référence. Le Compartiment a été comparé à la note ESG de son Indice de référence après avoir exclu dudit Indice de référence 20% des titres présentant les notes ESG les plus faibles.

Les indicateurs de durabilité évaluent la mesure dans laquelle les caractéristiques environnementales ou sociales promues par le produit financier sont atteintes.

● *Quelle performance ont affiché les indicateurs de durabilité ?*

Amundi a développé son propre processus de notation ESG interne, qui suit une approche « Best-in-class ». Les notations adaptées à chaque secteur d'activité ont pour objectif d'évaluer la dynamique dans laquelle interviennent les entreprises.

L'indicateur de durabilité employé est la note ESG du Produit mesurée en comparaison avec la note ESG de l'univers d'investissement ESG du Produit.

À la fin de la période :

- La note ESG moyenne pondérée du portefeuille est **1.145 (C)**.
- La note ESG moyenne pondérée de l'univers d'investissement ESG est **0.798 (C)**.

La notation ESG Amundi utilisée pour déterminer la note ESG est une note ESG quantitative qui se décline en sept niveaux allant de A (les meilleures notes de l'univers) à G (les pires notes). Sur l'échelle de notation ESG d'Amundi, les titres figurant sur la liste d'exclusion correspondent à G. Pour les entreprises émettrices, la performance ESG est évaluée de manière globale et au niveau des critères pertinents par comparaison avec la performance moyenne du secteur, en combinant les trois dimensions ESG :

- Dimension environnementale : cette dimension examine la capacité des émetteurs à contrôler leur impact environnemental direct et indirect, en limitant leur consommation d'énergie, en réduisant leurs émissions de gaz à effet de serre, en luttant contre l'appauvrissement des ressources et en protégeant la biodiversité.
- Dimension sociale : cette dimension évalue le fonctionnement d'un émetteur dans deux domaines différents, à savoir sa stratégie de développement du capital humain et le respect des droits humains en général.
- Dimension de gouvernance : cette dimension évalue la capacité de l'émetteur à garantir les fondements d'un cadre de gouvernance d'entreprise efficace et à générer de la valeur sur le long terme.

La méthodologie appliquée par la notation ESG d'Amundi utilise 38 critères qui sont soit génériques (communs à toutes les entreprises, indépendamment de leur activité) soit spécifiques au secteur, et qui sont pondérés en fonction du secteur et considérés en termes d'impact sur la réputation, l'efficacité opérationnelle et les réglementations concernant un émetteur. Les notations ESG d'Amundi sont susceptibles d'être exprimées de manière globale pour les trois dimensions E, S et G, ou individuellement pour tout facteur environnemental ou social.

● *... et par rapport aux périodes antérieures ?*

À la fin de la période précédente, la note ESG moyenne pondérée du portefeuille était de 1.19 (C) et la note ESG moyenne pondérée de l'univers d'investissement ESG était de 0.80 (C).

● *Quels étaient les objectifs des investissements durables que le produit financier entendait partiellement réaliser, et comment l'investissement durable a-t-il contribué à ces objectifs ?*

Les objectifs des investissements durables sont d'investir dans des sociétés détenues qui cherchent à respecter deux critères :

1. suivre les bonnes pratiques environnementales et sociales ; et
2. éviter de fabriquer des produits ou de fournir des services qui nuisent à l'environnement et à la société.

Pour que la société bénéficiaire des investissements soit réputée contribuer à l'objectif susmentionné, elle doit figurer parmi les « meilleures performances » de son secteur d'activité pour au moins l'un de ses facteurs environnementaux ou sociaux importants.

La définition de « meilleures performances » repose sur la méthode ESG exclusive d'Amundi, dont l'objectif est de mesurer la performance ESG d'une société bénéficiaire des investissements. Pour être considérée comme l'une des « meilleures performances », une société bénéficiaire des investissements doit afficher l'une des trois premières notes (A, B ou C, sur une échelle de notation allant de A à G) dans son secteur pour au moins un facteur environnemental ou social important. Les facteurs environnementaux et sociaux sont identifiés à l'échelle des secteurs. L'identification des facteurs importants est basée sur le cadre d'analyse ESG d'Amundi qui combine des données extra-financières et une analyse qualitative du secteur associé et des questions de durabilité. Les facteurs identifiés comme importants représentent plus de 10 % de la note ESG globale. Par exemple pour le secteur de l'énergie, les facteurs importants sont les suivants : émissions et énergie, biodiversité et pollution, santé et sécurité, communautés locales et droits humains. Pour un aperçu plus complet des secteurs et des facteurs, veuillez consulter la Déclaration réglementaire ESG d'Amundi disponible sur www.amundi.lu

Pour contribuer aux objectifs ci-dessus, la société bénéficiaire des investissements ne doit pas avoir d'exposition significative aux activités (par ex. tabac, armes, jeux de hasard, charbon, aviation, production de viande, fabrication d'engrais et de pesticides, production de plastique à usage unique) incompatibles avec ces critères.

Le caractère durable d'un investissement est évalué au niveau de la société bénéficiaire des investissements.

● ***Dans quelle mesure les investissements durables que le produit financier a partiellement réalisés n'ont-ils pas causé de préjudice important à un objectif d'investissement durable sur le plan environnemental ou social ?***

Pour s'assurer que les investissements durables ne causent pas de préjudice important (principe « Do no significant harm » ou « DNSH » en anglais), Amundi utilise deux filtres :

Le premier filtre de DNSH repose sur le contrôle des indicateurs obligatoires des Principales incidences négatives de l'Annexe 1, Tableau 1 des normes techniques réglementaires (RTS) lorsqu'il existe des données fiables (par ex. Intensité des GES des sociétés bénéficiaires des investissements) via une combinaison d'indicateurs (par ex. intensité carbone) et des seuils ou règles spécifiques (par ex. que l'intensité carbone de la société bénéficiaire des investissements n'appartient pas au dernier décile du secteur).

Dans sa politique d'exclusion qui fait partie intégrante de sa Politique d'investissement responsable, Amundi tient d'ores et déjà compte de Principales incidences négatives spécifiques. Ces exclusions, qui s'appliquent en sus des tests détaillés ci-dessus, couvrent les sujets suivants : exclusions sur les armes controversées, les violations des principes du Pacte mondial des Nations Unies, le charbon et le tabac.

Au-delà des facteurs de durabilité spécifiques couverts par le premier filtre, Amundi a défini un second filtre, qui ne tient pas compte des indicateurs obligatoires des Principales incidences négatives ci-dessus, afin de vérifier que la société n'affiche pas de mauvaises performances d'un point de vue environnemental ou social global par rapport aux autres entreprises de son secteur, ce qui correspond à un score environnemental ou social supérieur ou égal à E selon la notation ESG d'Amundi.

- ***Comment les indicateurs concernant les incidences négatives sur les facteurs de durabilité ont-ils été pris en considération ?***

Les indicateurs d'incidences négatives ont été pris en compte comme détaillé dans le premier filtre DNSH ci-dessus.

Le premier filtre DNSH repose sur le contrôle des indicateurs obligatoires des Principales incidences négatives de l'Annexe 1, Tableau 1 du Règlement délégué (UE) 2022/1288 lorsqu'il existe des données fiables via la combinaison des indicateurs suivants et de seuils ou règles spécifiques :

- une intensité en CO2 qui n'appartient pas au dernier décile par rapport aux autres entreprises du secteur (ne s'applique qu'aux secteurs à forte intensité) ;
- un Conseil d'administration dont le niveau de diversité n'appartient pas au dernier décile par rapport aux autres sociétés du secteur ;
- ne pas faire l'objet de controverse relative aux conditions de travail et aux droits humains ; et
- ne pas faire l'objet de controverse relative à la biodiversité et à la pollution.

Les principales incidences négatives correspondent aux incidences négatives les plus significatives des décisions d'investissement sur les facteurs de durabilité liés aux questions environnementales, sociales et de personnel, au respect des droits humains et à la lutte contre la corruption et les actes de corruption.

Dans sa politique d'exclusion qui fait partie intégrante de sa Politique d'investissement responsable, Amundi tient d'ores et déjà compte de Principales incidences négatives spécifiques. Ces exclusions, qui s'appliquent en sus des tests détaillés ci-dessus, couvrent les sujets suivants : exclusions sur les armes controversées, les violations des principes du Pacte mondial des Nations Unies, le charbon et le tabac.

- ***Les investissements durables étaient-ils conformes aux Principes directeurs de l'OCDE à l'intention des entreprises multinationales et aux Principes directeurs des Nations unies relatifs aux entreprises et aux droits humains ? Description détaillée :***

Oui, les Principes directeurs de l'OCDE à l'intention des entreprises multinationales et les Principes directeurs des Nations unies relatifs aux entreprises et aux droits humains sont intégrés à notre méthode de notation ESG. Notre outil de notation ESG exclusif évalue les émetteurs à l'aide des données disponibles auprès de nos fournisseurs de données. Par exemple, le modèle dispose d'un critère dédié appelé « Implication dans la communauté et droits humains » qui s'applique à tous les secteurs en plus d'autres critères liés aux droits humains, y compris les chaînes d'approvisionnement socialement responsables, les conditions de travail et les relations de travail. En outre, nous effectuons un contrôle des controverses au moins une fois par trimestre, y compris sur les entreprises identifiées pour des violations des droits humains. En cas de controverse, les analystes évaluent la situation, lui donnent une note (à l'aide de notre méthode de notation exclusive) et déterminent la marche à suivre. Les notes de controverse sont mises à jour chaque trimestre pour suivre les tendances et les efforts de correction.

La Taxinomie de l'UE définit un principe consistant à « ne pas causer de préjudice important » (« Do not significant harm » ou DNSH) en vertu duquel les investissements alignés sur la Taxinomie ne doivent pas causer de préjudice important aux objectifs de la Taxinomie de l'UE et s'accompagnent de critères de l'UE spécifiques.

Le principe consistant à « ne pas causer de préjudice important » ne s'applique qu'aux investissements sous-jacents du produit financier qui tiennent compte des critères de l'UE pour les activités économiques durables sur le plan environnemental. Les investissements sous-jacents de la portion restante de ce produit financier ne tiennent pas compte des critères de l'UE en matière d'activités économiques durables sur le plan environnemental.

Tout autre investissement durable doit également se conformer au principe consistant à ne pas causer de préjudice important aux objectifs environnementaux ou sociaux.

Dans quelle mesure ce produit financier a-t-il pris en considération les principales incidences négatives sur les facteurs de durabilité ?

Le produit tient compte de toutes les Principales incidences négatives obligatoires en vertu de l'Annexe 1, Tableau 1 du Règlement délégué (UE) 2022/1288 applicables à la stratégie du produit et s'appuie sur une combinaison de politiques d'exclusion (normatives et sectorielles) et d'approches d'engagement et de vote :

- Exclusion : Amundi a défini des règles d'exclusion normatives, basées sur l'activité et les secteurs, qui couvrent certains des principaux indicateurs négatifs de durabilité énumérés par le Règlement Disclosure (sur la publication d'informations).
- Intégration des facteurs ESG : Amundi a adopté des normes d'intégration ESG minimales appliquées par défaut à ses fonds de type ouvert activement gérés (exclusion des émetteurs ayant la note G et meilleure note ESG moyenne pondérée supérieure à celle de l'indice de référence applicable). Les 38 critères employés dans la stratégie de notation ESG d'Amundi ont également été conçus pour tenir compte des principaux impacts sur les facteurs de durabilité, ainsi que de la qualité de la réduction entreprise en la matière.
- Engagement : L'engagement est un processus continu et ciblé qui vise à influencer les activités ou le comportement des sociétés bénéficiaires des investissements. L'objectif des activités d'engagement peut se diviser en deux catégories : impliquer un émetteur pour améliorer la manière dont il intègre la dimension environnementale et sociale ou impliquer un émetteur pour améliorer son impact sur les questions environnementales, sociales et

liées aux droits humains ou d'autres questions de durabilité qui sont importantes pour la société au sens large et l'économie mondiale.

- Vote : La politique de vote d'Amundi répond à une analyse globale de toutes les questions à long terme qui peuvent influencer la création de valeur, y compris les questions ESG importantes. pour plus d'informations, veuillez consulter la Politique de vote d'Amundi.
- Surveillance des controverses : Amundi a développé un système de suivi des controverses qui s'appuie sur trois fournisseurs de données externes pour suivre systématiquement l'évolution des controverses et leur niveau de gravité. Cette approche quantitative est ensuite enrichie d'une évaluation approfondie de chaque controverse grave, menée par des analystes ESG, puis d'un examen périodique de son évolution. Cette approche s'applique à tous les fonds d'Amundi.

Pour de plus amples détails sur le mode de prise en compte des indicateurs relatifs aux Principales incidences négatives obligatoires, veuillez consulter la Déclaration sur la publication d'informations en matière de finance durable d'Amundi disponible sur www.amundi.com.

Quels étaient les principaux investissements de ce produit financier ?

La liste inclut les investissements qui constituent la proportion la plus importante d'investissements du produit financier au cours de la période de référence, à savoir : du 01/07/2023 au 30/06/2024

Principaux investissements	Secteur	Sous-secteur	Pays	% des actifs
NESTLE SA-REG	Biens de consommation de base	Alimentation, boissons et tabac	Suisse	5.48%
SHELL PLC	Énergie	Pétrole, gaz et combustibles	Royaume-Uni	4.39%
ROCHE HLDG AG-GENUSS	Santé	Pharmacie, biotechnologie et sciences de la vie	Suisse	3.65%
MICHELIN (CGDE)	Consommation discrétionnaire	Automobiles et composants	France	3.13%
SAP SE / XETRA	Technologies de l'information	Logiciels et services	Allemagne	2.94%
SEGRO PLC	Immobilier	Sociétés d'investissement immobilier	Royaume-Uni	2.93%
LVMH MOET HENNESSY LOUIS VUI	Consommation discrétionnaire	Biens de consommation durables et habillement	France	2.84%
NATIONAL GRID PLC	Services aux collectivités	Services multiples aux collectivités	Royaume-Uni	2.82%
STELLANTIS MILAN	Consommation discrétionnaire	Automobiles et composants	Pays-Bas	2.73%
ALLIANZ SE-REG	Obligations financières	Assurance	Allemagne	2.71%
UNILEVER PLC (GBP)	Biens de consommation de base	Produits ménagers et personnels	Royaume-Uni	2.69%
MERCK KGAA	Santé	Pharmacie, biotechnologie et sciences de la vie	Allemagne	2.63%
SANDOZ GROUP AG	Santé	Pharmacie, biotechnologie et sciences de la vie	Suisse	2.54%
ORSTED A/S	Services aux collectivités	Services aux collectivités – électricité	Danemark	2.53%
VEOLIA ENVIRONNEMENT	Services aux collectivités	Services multiples aux collectivités	France	2.45%

Quelle était la proportion d'investissements liés à la durabilité ?

● Quelle était l'allocation d'actifs ?

L'allocation d'actifs décrit la part des investissements dans des actifs spécifiques.

La catégorie **N° 1 Alignés sur les caractéristiques E/S** inclut les investissements du produit financier utilisés pour atteindre les caractéristiques environnementales ou sociales promues par le produit financier.

La catégorie **N° 2 Autres** inclut les investissements restants du produit financier qui ne sont ni alignés sur les caractéristiques environnementales ou sociales ni considérés comme investissements durables.

La catégorie **N° 1 Alignés sur les caractéristiques E/S** comprend :

- la sous-catégorie **N° 1A Durables** couvrant les investissements durables sur le plan environnemental et social ;
- la sous-catégorie **N° 1B Autres caractéristiques E/S** couvrant les investissements alignés sur les caractéristiques environnementales ou sociales qui ne sont pas considérés comme des investissements durables.

● Dans quels secteurs économiques ont été réalisés les investissements ?

Secteur	Sous-secteur	% des actifs
Santé	Pharmacie, biotechnologie et sciences de la vie	10.90%
Énergie	Pétrole, gaz et combustibles	9.17%
Biens de consommation de base	Alimentation, boissons et tabac	7.46%
Industrie	Biens d'équipement	6.63%
Obligations financières	Assurance	6.50%

<i>Consommation discrétionnaire</i>	<i>Automobiles et composants</i>	5.86%
<i>Services aux collectivités</i>	<i>Services multiples aux collectivités</i>	5.27%
<i>Matériaux</i>	<i>Chimie</i>	5.19%
<i>Obligations financières</i>	<i>Banques</i>	4.32%
<i>Biens de consommation de base</i>	<i>Distribution et vente au détail de biens de consommation de base</i>	3.44%
<i>Santé</i>	<i>Matériel et services de santé</i>	3.13%
<i>Services de communication</i>	<i>Médias et loisirs</i>	3.08%
<i>Technologies de l'information</i>	<i>Logiciels et services</i>	2.94%
<i>Immobilier</i>	<i>Sociétés d'investissement immobilier</i>	2.93%
<i>Consommation discrétionnaire</i>	<i>Biens de consommation durables et habillement</i>	2.84%
<i>Biens de consommation de base</i>	<i>Produits ménagers et personnels</i>	2.69%
<i>Technologies de l'information</i>	<i>Semi-conducteurs et équipement pour semi-conducteurs</i>	2.66%
<i>Services aux collectivités</i>	<i>Services aux collectivités – électricité</i>	2.53%
<i>Obligations financières</i>	<i>Services financiers</i>	2.41%
<i>Industrie</i>	<i>Services commerciaux et professionnels</i>	2.25%
<i>Matériaux</i>	<i>Matériaux de construction</i>	2.07%

<i>Services de communication</i>	<i>Télécommunications</i>	1.62%
<i>Consommation discrétionnaire</i>	<i>Distribution et vente au détail de biens de consommation discrétionnaires</i>	1.46%
<i>Services aux collectivités</i>	<i>Services aux collectivités – gaz</i>	1.08%
<i>Forex</i>	<i>Forex</i>	-0.00%
<i>Liquidités</i>	<i>Liquidités</i>	1.56%

Aux fins d'observer la taxinomie de l'UE, les critères relatifs au **gaz fossile** incluent des limites aux émissions et le passage à une énergie entièrement renouvelable ou à des combustibles à faible teneur en carbone d'ici fin 2035. Pour **l'énergie nucléaire**, les critères incluent des règles exhaustives de sécurité et de gestion des déchets.

Les activités habilitantes permettent directement à d'autres activités de contribuer de manière substantielle à la réalisation d'un objectif environnemental.

Les activités transitoires sont des activités pour lesquelles il n'existe pas encore de solution de remplacement sobre en carbone et, entre autres, dont les niveaux d'émission de gaz à effet de serre correspondent

Dans quelle mesure les investissements durables ayant un objectif environnemental étaient-ils alignés sur la Taxinomie de l'UE ?

Le fonds promeut des caractéristiques tant environnementales que sociales. Si le fonds ne s'est pas engagé à réaliser des investissements alignés sur la Taxinomie de l'UE, au cours de la période sous revue, il a cependant investi 1.57% dans des investissements durables alignés sur la Taxinomie de l'UE. De tels investissements ont contribué aux objectifs d'atténuation du changement climatique de la taxinomie de l'UE.

L'alignement des sociétés bénéficiaires d'investissements sur les objectifs de la Taxinomie de l'UE susmentionnés est évalué à l'aide du chiffre d'affaires (ou des revenus) et/ou des données d'utilisation des produits des obligations vertes.

Le pourcentage communiqué d'alignement des investissements du fonds sur la Taxinomie de l'UE n'a pas été audité par le réviseur d'entreprises agréé du fonds ni par aucun tiers.

● Le produit financier a-t-il investi dans des activités liées au gaz fossile et/ou à l'énergie nucléaire qui sont conformes à la Taxinomie de l'UE¹ ?

☐ Oui :

☐ Dans le gaz fossile ☐ Dans l'énergie nucléaire

☒ Non

Aucune donnée fiable concernant l'alignement sur les activités de gaz fossile et d'énergie nucléaire conformes à la Taxinomie de l'UE n'était disponible sur la période.

¹Les activités liées au gaz fossile et/ou à l'énergie nucléaire ne seront conformes à la Taxinomie de l'UE que si elles contribuent à limiter le changement climatique (« atténuation du changement climatique ») et ne causent pas de préjudice important à tout objectif de la Taxinomie de l'UE. L'intégralité des critères relatifs aux activités économiques liées au gaz fossile et à l'énergie nucléaire conformes à la Taxinomie de l'UE sont définis dans le Règlement délégué (UE) 2022/1214 de la Commission.

aux meilleures performances réalisables.

Les activités alignées sur la taxinomie sont exprimées en pourcentage :

- du chiffre d'affaires pour refléter la part des revenus provenant des activités vertes des sociétés bénéficiaires d'investissements ;
- des dépenses d'investissement (CapEx) pour montrer les investissements verts réalisés par les sociétés bénéficiaires d'investissements, pour une transition vers une économie verte, par exemple ; et
- des dépenses d'exploitation (OpEx) pour refléter les activités opérationnelles vertes des sociétés bénéficiaires d'investissements.

Les graphiques ci-dessous font apparaître en vert le pourcentage d'investissements alignés sur la Taxinomie de l'UE. Étant donné qu'il n'existe pas de méthodologie appropriée pour déterminer l'alignement des obligations souveraines* sur la taxinomie, le premier graphique montre l'alignement sur la Taxinomie par rapport à tous les investissements du produit financier, y compris les obligations souveraines, tandis que le deuxième graphique représente l'alignement sur la Taxinomie uniquement par rapport aux investissements du produit financier autres que les obligations souveraines.

* Aux fins de ces graphiques, les « obligations souveraines » comprennent toutes les expositions souveraines

● Quelle était la part d'investissements dans les activités transitoires et habilitantes ?

Au 30/06/2024, en utilisant le chiffre d'affaires et/ou les données d'utilisation des produits des obligations vertes comme indicateur, la part d'investissements du fonds dans les activités transitoires était de 0.03% et la part d'investissements dans les activités habilitantes était de 0.95%. Le pourcentage communiqué d'alignement des investissements du fonds sur la Taxinomie de l'UE n'a pas été audité par le réviseur d'entreprises agréé du fonds ni par aucun tiers.

● Comment se situe le pourcentage d'investissements alignés sur la Taxinomie de l'UE par rapport aux périodes de référence antérieures ?

À la fin de la période précédente, le pourcentage d'investissements alignés sur la taxinomie était de 9.93%.

Quelle était la part des investissements durables ayant un objectif environnemental qui n'étaient pas alignés sur la Taxinomie de l'UE ?

La part des investissements durables ayant un objectif environnemental et non alignés sur la taxinomie était de 47.80% à la fin de la période.

Cela tient du fait que certains émetteurs sont considérés comme investissements durables en vertu du Règlement SFDR mais qu'une portion de leurs activités n'est pas alignée sur les standards de la taxinomie de l'UE, ou que les données correspondantes ne sont pas encore disponibles en vue d'une évaluation relative à la taxinomie de l'UE.

Quelle était la part d'investissements durables sur le plan social ?

La proportion des investissements durables sur le plan social était de 7.40% à la fin de la période.

Quels investissements étaient inclus dans la catégorie « Autres », quelle était leur finalité et existait-il des garanties environnementales ou sociales minimales ?

Sont inclus dans la catégorie « N° 2 Autres » les liquidités et autres instruments détenus aux fins de gestion de la liquidité et des risques du portefeuille. Pour les obligations et actions non notées, des garanties environnementales et sociales minimales ont été mises en place par le biais d'un filtrage des émetteurs en rapport aux activités controversées définies dans les principes du Pacte mondial des Nations unies. Elle peut également inclure des titres sans notation ESG pour lesquels les données nécessaires à la mesure de la réalisation des caractéristiques environnementales ou sociales ne sont pas disponibles.

Quelles mesures ont-elles été prises pour réaliser les caractéristiques environnementales et/ou sociales au cours de la période de référence ?

Des indicateurs de durabilité sont mis à disposition de manière continue dans le système de gestion du portefeuille pour permettre aux gestionnaires du portefeuille d'évaluer l'impact de leurs décisions d'investissement.

Ces indicateurs sont intégrés au cadre de contrôle d'AMUNDI, en répartissant les responsabilités entre le premier niveau de contrôles réalisés par les équipes Investissement elles-mêmes, et le second niveau de contrôles réalisé par les équipes Risque, qui surveillent la conformité aux caractéristiques environnementales ou sociales promues en permanence par le fonds.

En outre, la Politique d'investissement responsable d'AMUNDI définit une approche active en matière d'engagement qui promeut le dialogue avec les sociétés bénéficiaires des investissements, y compris celles qui sont incluses dans le portefeuille de ce produit. Notre Rapport annuel en matière d'engagement, disponible à la page <https://about.amundi.com/esg-documentation>, fournit des informations détaillées sur cet engagement et ses résultats.

Quelles ont été les performances de ce produit financier par rapport à l'indice de référence ?

Un indice de référence est un indice qui sert à mesurer si le produit financier réalise les caractéristiques environnementales et/ou sociales qu'il promeut.

Ce produit ne dispose pas d'un Indice de référence ESG.

● *En quoi l'indice de référence diffère-t-il de l'indice de marché large ?*

Ce produit ne dispose pas d'un Indice de référence ESG.

● *Quelles ont été les performances de ce produit financier par rapport aux indicateurs de durabilité pour déterminer l'alignement de l'indice de référence sur les caractéristiques environnementales ou sociales promues ?*

Ce produit ne dispose pas d'un Indice de référence ESG.

● *Quelle a été la performance de ce produit financier par rapport à l'indice de référence ?*

Ce produit ne dispose pas d'un Indice de référence ESG.

● *Quelle a été la performance de ce produit financier par rapport à l'indice de marché large ?*

Ce produit ne dispose pas d'un Indice de référence ESG.

Informations périodiques pour les produits financiers visés à l'Article 8, paragraphes 1, 2 et 2a, du Règlement (UE) 2019/2088 et à l'Article 6, premier paragraphe du Règlement (UE) 2020/852

Dénomination du produit : AMUNDI FUNDS
EUROLAND EQUITY SMALL CAP

Identifiant d'entité juridique :
529900IUDK1P871TPU43

Par investissement durable, on entend un investissement dans une activité économique qui contribue à un objectif environnemental ou social, pour autant qu'il ne cause de préjudice important à aucun de ces objectifs et que les sociétés détenues respectent les pratiques de bonne gouvernance.

La Taxinomie de l'UE est un système de classification institué par le Règlement (UE) 2020/852, qui dresse une liste d'activités économiques durables sur le plan environnemental. Ce règlement ne comprend pas de liste d'activités économiques durables sur le plan social. Les investissements durables ayant un objectif environnemental ne sont pas nécessairement alignés sur la taxinomie.

Caractéristiques environnementales et/ou sociales

Le produit financier avait-il un objectif d'investissement durable ?

☒ ☐ ☐ **Oui** ☒ ☐ ☐ **X** **Non**

☐ Il a réalisé des investissements durables ayant un objectif environnemental : _____ ☐ dans des activités économiques qui sont considérées comme durables sur le plan environnemental au titre de la Taxinomie de l'UE ☐ dans des activités économiques qui ne sont pas considérées comme durables sur le plan environnemental au titre de la Taxinomie de l'UE ☐ Il a réalisé des investissements durables ayant un objectif social : _____	☒ X Il a promu des caractéristiques environnementales/sociales (E/S) et, bien qu'il n'ait pas eu pour objectif l'investissement durable, il contenait une proportion d'investissements durables de 75.10% ☐ ayant un objectif environnemental dans des activités économiques qui sont considérées comme durables sur le plan environnemental au titre de la Taxinomie de l'UE ☒ X ayant un objectif environnemental dans des activités économiques qui ne sont pas considérées comme durables sur le plan environnemental au titre de la Taxinomie de l'UE ☐ ayant un objectif social ☐ Il a promu des caractéristiques E/S, mais n'a pas réalisé d'investissements durables
---	--

Dans quelle mesure les caractéristiques environnementales et/ou sociales promues par ce produit financier ont-elles été réalisées ?

Au cours de l'exercice financier, le produit n'a cessé de promouvoir les caractéristiques environnementales et/ou sociales en cherchant à atteindre une note ESG supérieure à celle de son univers d'investissement **MSCI EMU SMALL CAP**. Pour déterminer la note ESG du Produit et de l'univers d'investissement ESG, la performance ESG a été évaluée de manière continue en comparant la performance moyenne d'un titre par rapport au secteur de l'émetteur du titre, pour chacune des trois caractéristiques, à savoir environnementale, sociale et de gouvernance.

L'univers d'investissement est un univers de marché large qui n'évalue ni n'inclut pas de composantes en fonction de caractéristiques environnementales et/ou sociales, et qui n'a par conséquent pas pour vocation d'être conforme aux caractéristiques promues par le fonds. Aucun indice de référence ESG n'a été désigné.

Ce produit est qualifié de produit ISR (investissement socialement responsable). Au cours de l'exercice, il a cherché à promouvoir les 3 dimensions (environnementale, sociale et de gouvernance) en tenant compte de la notation ESG des émetteurs dans la construction du portefeuille.

L'objectif de la notation ESG des émetteurs est d'évaluer leur capacité à gérer l'incidence négative potentielle de leurs activités sur les facteurs de durabilité. Cette analyse a ainsi pour but d'évaluer leur comportement Environnemental et Social en termes de Gouvernance, en leur attribuant une note ESG comprise entre A (meilleure note) et G (moins bonne note), de manière à obtenir une évaluation plus globale des risques.

1. Le portefeuille a systématiquement appliqué la politique d'exclusion d'Amundi suivante :
 - Exclusions légales sur les armes controversées
 - entreprises qui contreviennent de façon grave et répétée à un ou plusieurs des 10 principes du Pacte mondial de l'ONU sans appliquer de mesures correctives crédibles ; et
 - exclusions sectorielles du groupe Amundi sur le charbon et le tabac (les détails de cette politique étant disponibles dans la Politique d'investissement responsable d'Amundi consultable sur le site Web www.amundi.fr).
2. Aucun investissement n'a été réalisé auprès d'émetteurs ayant la note F ou G. Pour tout émetteur dont la notation a été revue à la baisse et ayant reçu la note F ou G, les titres déjà présents en portefeuille ont été vendus dans les délais convenus dans le prospectus et en tenant compte de l'intérêt financier des détenteurs.
3. La note ESG moyenne pondérée du portefeuille est en permanence supérieure à la note ESG moyenne pondérée de l'univers d'investissement du fonds après suppression de 20% des émetteurs les moins bien notés.
4. Le fonds a privilégié les émetteurs occupant une position de leader dans leur secteur d'activité d'après les critères ESG identifiés par l'équipe d'analystes extra-financiers de la société de gestion (approche « Best-in-class »). À l'exception des exclusions ci-dessus, tous les secteurs économiques sont représentés dans cette approche et l'OPC est par conséquent susceptible d'être exposé à certains secteurs controversés.

Les indicateurs de durabilité évaluent la mesure dans laquelle les caractéristiques environnementales ou sociales promues par le produit financier sont atteintes.

● *Quelle performance ont affiché les indicateurs de durabilité ?*

Amundi a développé son propre processus de notation ESG interne, qui suit une approche « Best-in-class ». Les notations adaptées à chaque secteur d'activité ont pour objectif d'évaluer la dynamique dans laquelle interviennent les entreprises.

L'indicateur de durabilité employé est la note ESG du Produit mesurée en comparaison avec la note ESG de l'univers d'investissement ESG du Produit.

À la fin de la période :

- La note ESG moyenne pondérée du portefeuille est **0.962 (C)**.
- La note ESG moyenne pondérée de l'univers d'investissement ESG est **0.673 (C)**.

La notation ESG Amundi utilisée pour déterminer la note ESG est une note ESG quantitative qui se décline en sept niveaux allant de A (les meilleures notes de l'univers) à G (les pires notes). Sur l'échelle de notation ESG d'Amundi, les titres figurant sur la liste d'exclusion correspondent à G. Pour les entreprises émettrices, la performance ESG est évaluée de manière globale et au niveau des critères pertinents par comparaison avec la performance moyenne du secteur, en combinant les trois dimensions ESG :

- Dimension environnementale : cette dimension examine la capacité des émetteurs à contrôler leur impact environnemental direct et indirect, en limitant leur consommation d'énergie, en réduisant leurs émissions de gaz à effet de serre, en luttant contre l'appauvrissement des ressources et en protégeant la biodiversité.
- Dimension sociale : cette dimension évalue le fonctionnement d'un émetteur dans deux domaines différents, à savoir sa stratégie de développement du capital humain et le respect des droits humains en général.
- Dimension de gouvernance : cette dimension évalue la capacité de l'émetteur à garantir les fondements d'un cadre de gouvernance d'entreprise efficace et à générer de la valeur sur le long terme.

La méthodologie appliquée par la notation ESG d'Amundi utilise 38 critères qui sont soit génériques (communs à toutes les entreprises, indépendamment de leur activité) soit spécifiques au secteur, et qui sont pondérés en fonction du secteur et considérés en termes d'impact sur la réputation, l'efficacité opérationnelle et les réglementations concernant un émetteur. Les notations ESG d'Amundi sont susceptibles d'être exprimées de manière globale pour les trois dimensions E, S et G, ou individuellement pour tout facteur environnemental ou social.

● **... et par rapport aux périodes antérieures ?**

À la fin de la période précédente, la note ESG moyenne pondérée du portefeuille était de 0.91 (C) et la note ESG moyenne pondérée de l'univers d'investissement ESG était de 0.60 (C).

● **Quels étaient les objectifs des investissements durables que le produit financier entendait partiellement réaliser, et comment l'investissement durable a-t-il contribué à ces objectifs ?**

Les objectifs des investissements durables sont d'investir dans des sociétés détenues qui cherchent à respecter deux critères :

1. suivre les bonnes pratiques environnementales et sociales ; et
2. éviter de fabriquer des produits ou de fournir des services qui nuisent à l'environnement et à la société.

Pour que la société bénéficiaire des investissements soit réputée contribuer à l'objectif susmentionné, elle doit figurer parmi les « meilleures performances » de son secteur d'activité pour au moins l'un de ses facteurs environnementaux ou sociaux importants.

La définition de « meilleures performances » repose sur la méthode ESG exclusive d'Amundi, dont l'objectif est de mesurer la performance ESG d'une société bénéficiaire des investissements. Pour être considérée comme l'une des « meilleures performances », une société bénéficiaire des investissements doit afficher l'une des trois premières notes (A, B ou C, sur une échelle de notation allant de A à G) dans son secteur pour au moins un facteur environnemental ou social important. Les facteurs environnementaux et sociaux sont identifiés à l'échelle des secteurs. L'identification des facteurs importants est basée sur le cadre d'analyse ESG d'Amundi qui combine des données extra-financières et une analyse qualitative du secteur associé et des questions de durabilité. Les facteurs identifiés comme importants représentent plus de 10 % de la note ESG globale. Par exemple pour le secteur de l'énergie, les facteurs importants sont les suivants : émissions et énergie, biodiversité et pollution, santé et sécurité, communautés locales et droits humains. Pour un aperçu plus complet des secteurs et des facteurs, veuillez consulter la Déclaration réglementaire ESG d'Amundi disponible sur www.amundi.lu

Pour contribuer aux objectifs ci-dessus, la société bénéficiaire des investissements ne doit pas avoir d'exposition significative aux activités (par ex. tabac, armes, jeux de hasard, charbon, aviation, production de viande, fabrication d'engrais et de pesticides, production de plastique à usage unique) incompatibles avec ces critères.

Le caractère durable d'un investissement est évalué au niveau de la société bénéficiaire des investissements.

● **Dans quelle mesure les investissements durables que le produit financier a partiellement réalisés n'ont-ils pas causé de préjudice important à un objectif d'investissement durable sur le plan environnemental ou social ?**

Pour s'assurer que les investissements durables ne causent pas de préjudice important (principe « Do no significant harm » ou « DNSH » en anglais), Amundi utilise deux filtres :

Le premier filtre de DNSH repose sur le contrôle des indicateurs obligatoires des Principales incidences négatives de l'Annexe 1, Tableau 1 des normes techniques réglementaires (RTS) lorsqu'il existe des données fiables (par ex. Intensité des GES des sociétés bénéficiaires des investissements) via une combinaison d'indicateurs (par ex. intensité carbone) et des seuils ou règles spécifiques (par ex. que l'intensité carbone de la société bénéficiaire des investissements n'appartient pas au dernier décile du secteur).

Dans sa politique d'exclusion qui fait partie intégrante de sa Politique d'investissement responsable, Amundi tient d'ores et déjà compte de Principales incidences négatives spécifiques. Ces exclusions, qui s'appliquent en sus des tests détaillés ci-dessus, couvrent les sujets suivants : exclusions sur les armes controversées, les violations des principes du Pacte mondial des Nations Unies, le charbon et le tabac.

Les principales incidences négatives correspondent aux incidences négatives les plus significatives des décisions d'investissement sur les facteurs de durabilité liés aux questions environnementales, sociales et de personnel, au respect des droits humains et à la lutte contre la corruption et les actes de corruption.

Au-delà des facteurs de durabilité spécifiques couverts par le premier filtre, Amundi a défini un second filtre, qui ne tient pas compte des indicateurs obligatoires des Principales incidences négatives ci-dessus, afin de vérifier que la société n'affiche pas de mauvaises performances d'un point de vue environnemental ou social global par rapport aux autres entreprises de son secteur, ce qui correspond à un score environnemental ou social supérieur ou égal à E selon la notation ESG d'Amundi.

- ***Comment les indicateurs concernant les incidences négatives sur les facteurs de durabilité ont-ils été pris en considération ?***

Les indicateurs d'incidences négatives ont été pris en compte comme détaillé dans le premier filtre DNSH ci-dessus.

Le premier filtre DNSH repose sur le contrôle des indicateurs obligatoires des Principales incidences négatives de l'Annexe 1, Tableau 1 du Règlement délégué (UE) 2022/1288 lorsqu'il existe des données fiables via la combinaison des indicateurs suivants et de seuils ou règles spécifiques :

- une intensité en CO2 qui n'appartient pas au dernier décile par rapport aux autres entreprises du secteur (ne s'applique qu'aux secteurs à forte intensité) ;
- un Conseil d'administration dont le niveau de diversité n'appartient pas au dernier décile par rapport aux autres sociétés du secteur ;
- ne pas faire l'objet de controverse relative aux conditions de travail et aux droits humains ; et
- ne pas faire l'objet de controverse relative à la biodiversité et à la pollution.

Dans sa politique d'exclusion qui fait partie intégrante de sa Politique d'investissement responsable, Amundi tient d'ores et déjà compte de Principales incidences négatives spécifiques. Ces exclusions, qui s'appliquent en sus des tests détaillés ci-dessus, couvrent les sujets suivants : exclusions sur les armes controversées, les violations des principes du Pacte mondial des Nations Unies, le charbon et le tabac.

- ***Les investissements durables étaient-ils conformes aux Principes directeurs de l'OCDE à l'intention des entreprises multinationales et aux Principes directeurs des Nations unies relatifs aux entreprises et aux droits humains ? Description détaillée :***

Oui, les Principes directeurs de l'OCDE à l'intention des entreprises multinationales et les Principes directeurs des Nations unies relatifs aux entreprises et aux droits humains sont intégrés à notre méthode de notation ESG. Notre outil de notation ESG exclusif évalue les émetteurs à l'aide des données disponibles auprès de nos fournisseurs de données. Par exemple, le modèle dispose d'un critère dédié appelé « Implication dans la communauté et droits humains » qui s'applique à tous les secteurs en plus d'autres critères liés aux droits humains, y compris les chaînes d'approvisionnement socialement responsables, les conditions de travail et les relations de travail. En outre, nous effectuons un contrôle des controverses au moins une fois par trimestre, y compris sur les entreprises identifiées pour des violations des droits humains. En cas de controverse, les analystes évaluent la situation, lui donnent une note (à l'aide de notre méthode de notation exclusive) et déterminent la marche à suivre. Les notes de controverse sont mises à jour chaque trimestre pour suivre les tendances et les efforts de correction.

La Taxinomie de l'UE définit un principe consistant à « ne pas causer de préjudice important » (« Do not significant harm » ou DNSH) en vertu duquel les investissements alignés sur la Taxinomie ne doivent pas causer de préjudice important aux objectifs de la Taxinomie de l'UE et s'accompagnent de critères de l'UE spécifiques.

Le principe consistant à « ne pas causer de préjudice important » ne s'applique qu'aux investissements sous-jacents du produit financier qui tiennent compte des critères de l'UE pour les activités économiques durables sur le plan environnemental. Les investissements sous-jacents de la portion restante de ce produit financier ne tiennent pas compte des critères de l'UE en matière d'activités économiques durables sur le plan environnemental.

Tout autre investissement durable doit également se conformer au principe consistant à ne pas causer de préjudice important aux objectifs environnementaux ou sociaux.

Dans quelle mesure ce produit financier a-t-il pris en considération les principales incidences négatives sur les facteurs de durabilité ?

Le produit tient compte de toutes les Principales incidences négatives obligatoires en vertu de l'Annexe 1, Tableau 1 du Règlement délégué (UE) 2022/1288 applicables à la stratégie du produit et s'appuie sur une combinaison de politiques d'exclusion (normatives et sectorielles) et d'approches d'engagement et de vote :

- Exclusion : Amundi a défini des règles d'exclusion normatives, basées sur l'activité et les secteurs, qui couvrent certains des principaux indicateurs négatifs de durabilité énumérés par le Règlement Disclosure (sur la publication d'informations).
- Intégration des facteurs ESG : Amundi a adopté des normes d'intégration ESG minimales appliquées par défaut à ses fonds de type ouvert activement gérés (exclusion des émetteurs ayant la note G et meilleure note ESG moyenne pondérée supérieure à celle de l'indice de référence applicable). Les 38 critères employés dans la stratégie de notation ESG d'Amundi ont également été conçus pour tenir compte des principaux impacts sur les facteurs de durabilité, ainsi que de la qualité de la réduction entreprise en la matière.
- Engagement : L'engagement est un processus continu et ciblé qui vise à influencer les activités ou le comportement des sociétés bénéficiaires des investissements. L'objectif des activités d'engagement peut se diviser en deux catégories : impliquer un émetteur pour améliorer la manière dont il intègre la dimension environnementale et sociale ou impliquer un émetteur pour améliorer son impact sur les questions environnementales, sociales et liées aux droits humains ou d'autres questions de durabilité qui sont importantes pour la société au sens large et l'économie mondiale.
- Vote : La politique de vote d'Amundi répond à une analyse globale de toutes les questions à long terme qui peuvent influencer la création de valeur, y compris les questions ESG importantes. pour plus d'informations, veuillez consulter la Politique de vote d'Amundi.
- Surveillance des controverses : Amundi a développé un système de suivi des controverses qui s'appuie sur trois fournisseurs de données externes pour suivre systématiquement l'évolution des controverses et leur niveau de gravité. Cette approche quantitative est ensuite enrichie d'une évaluation approfondie de chaque controverse grave, menée par des analystes ESG, puis d'un examen périodique de son évolution. Cette approche s'applique à tous les fonds d'Amundi.

Pour de plus amples détails sur le mode de prise en compte des indicateurs relatifs aux Principales incidences négatives obligatoires, veuillez consulter la Déclaration sur la publication d'informations en matière de finance durable d'Amundi disponible sur www.amundi.com.

Quels étaient les principaux investissements de ce produit financier ?

La liste inclut les investissements qui constituent la proportion la plus importante d'investissements du produit financier au cours de la période de référence, à savoir : **du 01/07/2023 au 30/06/2024**

Principaux investissements	Secteur	Sous-secteur	Pays	% des actifs
SPIE SA	Industrie	Services commerciaux et professionnels	France	3.44%
ARCADIS NV	Industrie	Services commerciaux et professionnels	Pays-Bas	3.36%
ELIS SA	Industrie	Services commerciaux et professionnels	France	3.07%
GAZTRANSPORT ET TECHNIGAZ SA	Énergie	Pétrole, gaz et combustibles	France	3.02%
VERALLIA	Matériaux	Conteneurs et emballage	France	2.86%

ANDRITZ AG	Industrie	Biens d'équipement	Autriche	2.75%
AALBERTS NV	Industrie	Biens d'équipement	Pays-Bas	2.70%
HUHTAMAKI OYJ	Matériaux	Conteneurs et emballage	Finlande	2.61%
BANKINTER SA	Obligations financières	Banques	Espagne	2.61%
BANCA MEDIOLANUM SPA	Obligations financières	Services financiers	Italie	2.44%
ASR NEDERLAND NV	Obligations financières	Assurance	Pays-Bas	2.40%
BAWAG GROUP AG	Obligations financières	Banques	Autriche	2.38%
BRUNELLO CUCINELLI SPA	Consommation discrétionnaire	Biens de consommation durables et habillement	Italie	2.32%
ALTEN SA	Technologies de l'information	Logiciels et services	France	2.26%
PIRELLI & C SPA	Consommation discrétionnaire	Automobiles et composants	Italie	2.25%

Quelle était la proportion d'investissements liés à la durabilité ?

● Quelle était l'allocation d'actifs ?

L'allocation d'actifs décrit la part des investissements dans des actifs spécifiques.

● **Dans quels secteurs économiques ont été réalisés les investissements ?**

Secteur	Sous-secteur	% des actifs
<i>Industrie</i>	<i>Biens d'équipement</i>	15.73%
<i>Industrie</i>	<i>Services commerciaux et professionnels</i>	9.87%
<i>Obligations financières</i>	<i>Banques</i>	6.87%
<i>Consommation discrétionnaire</i>	<i>Biens de consommation durables et habillement</i>	6.21%
<i>Obligations financières</i>	<i>Services financiers</i>	5.90%
<i>Matériaux</i>	<i>Conteneurs et emballage</i>	5.47%
<i>Technologies de l'information</i>	<i>Logiciels et services</i>	5.02%
<i>Immobilier</i>	<i>Sociétés d'investissement immobilier</i>	4.51%
<i>Obligations financières</i>	<i>Assurance</i>	4.23%
<i>Services de communication</i>	<i>Médias et loisirs</i>	4.05%
<i>Biens de consommation de base</i>	<i>Alimentation, boissons et tabac</i>	3.61%
<i>Consommation discrétionnaire</i>	<i>Automobiles et composants</i>	3.55%
<i>Matériaux</i>	<i>Matériaux de construction</i>	3.21%
<i>Santé</i>	<i>Matériel et services de santé</i>	3.16%
<i>Énergie</i>	<i>Pétrole, gaz et combustibles</i>	3.02%

Technologies de l'information	Semi-conducteurs et équipement pour semi-conducteurs	2.74%
Technologies de l'information	Matériel et équipement technologiques	2.24%
Immobilier	Gestion et promotion immobilière	2.12%
Services aux collectivités	Producteurs d'électricité indépendants et producteurs d'électricité renouvelable	1.64%
Biens de consommation de base	Produits ménagers et personnels	1.29%
Consommation discrétionnaire	Services aux consommateurs	1.21%
Services aux collectivités	Services multiples aux collectivités	1.17%
Industrie	Transport	1.12%
Matériaux	Chimie	0.97%
Services de communication	Télécommunications	0.69%
Obligations financières	Fonds communs de placement	0.67%
Liquidités	Liquidités	-0.29%

Aux fins d'observer la taxinomie de l'UE, les critères relatifs au **gaz fossile** incluent des limites aux émissions et le passage à une énergie entièrement renouvelable ou à des combustibles à faible teneur en carbone d'ici fin 2035. Pour l'**énergie nucléaire**, les critères incluent des règles exhaustives de sécurité et de gestion des déchets.

Dans quelle mesure les investissements durables ayant un objectif environnemental étaient-ils alignés sur la Taxinomie de l'UE ?

Le fonds promeut des caractéristiques tant environnementales que sociales. Si le fonds ne s'est pas engagé à réaliser des investissements alignés sur la Taxinomie de l'UE, au cours de la période sous revue, il a cependant investi 5.83% dans des investissements durables alignés sur la Taxinomie de l'UE. De tels investissements ont contribué à l'obligation relative au changement climatique ou aux objectifs de réduction du changement climatique de la Taxinomie de l'UE.

L'alignement des sociétés bénéficiaires des investissements sur les objectifs de la taxinomie de l'UE susmentionnés est évalué à l'aide du chiffre d'affaires (ou des revenus) et/ou des données d'utilisation des produits des obligations vertes.

Le pourcentage communiqué d'alignement des investissements du fonds sur la Taxinomie de l'UE n'a pas été audité par le réviseur d'entreprises agréé du fonds ni par aucun tiers.

Les activités habilitantes permettent directement à d'autres activités de contribuer de manière substantielle à la réalisation d'un objectif environnemental.

Les activités transitoires sont des activités pour lesquelles il n'existe pas encore de solution de remplacement sobre en carbone et, entre autres, dont les niveaux d'émission de gaz à effet de serre correspondent aux meilleures performances réalisables.

Les activités alignées sur la taxinomie sont exprimées en pourcentage :

- **du chiffre d'affaires** pour refléter la part des revenus provenant des activités vertes des sociétés bénéficiaires d'investissements ;
- **des dépenses d'investissement (CapEx)** pour montrer les investissements verts réalisés par les sociétés bénéficiaires d'investissements, pour une transition vers une économie verte, par exemple ;
- **des dépenses d'exploitation (OpEx)** pour refléter les activités opérationnelles vertes des sociétés bénéficiaires d'investissements.

● **Le produit financier a-t-il investi dans des activités liées au gaz fossile et/ou à l'énergie nucléaire qui sont conformes à la Taxinomie de l'UE¹ ?**

☐ Oui :

☐

Dans le gaz fossile

☐

Dans l'énergie nucléaire

☒ Non

Aucune donnée fiable concernant l'alignement sur les activités de gaz fossile et d'énergie nucléaire conformes à la Taxinomie de l'UE n'était disponible sur la période.

¹ Les activités liées au gaz fossile et/ou à l'énergie nucléaire ne seront conformes à la Taxinomie de l'UE que si elles contribuent à limiter le changement climatique (« réduction du changement climatique ») et ne causent pas de préjudice important à tout objectif de la Taxinomie de l'UE. L'intégralité des critères relatifs aux activités économiques liées au gaz fossile et à l'énergie nucléaire conformes à la Taxinomie de l'UE sont définis dans le Règlement délégué (UE) 2022/1214 de la Commission.

Les graphiques ci-dessous font apparaître en vert le pourcentage d'investissements alignés sur la Taxinomie de l'UE. Étant donné qu'il n'existe pas de méthodologie appropriée pour déterminer l'alignement des obligations souveraines* sur la taxinomie, le premier graphique montre l'alignement sur la Taxinomie par rapport à tous les investissements du produit financier, y compris les obligations souveraines, tandis que le deuxième graphique représente l'alignement sur la Taxinomie uniquement par rapport aux investissements du produit financier autres que les obligations souveraines.

* Aux fins de ces graphiques, les « obligations souveraines » comprennent toutes les expositions souveraines

● **Quelle était la part d'investissements dans les activités transitoires et habilitantes ?**

Au 30/06/2024, en utilisant le chiffre d'affaires et/ou les données d'utilisation des produits des obligations vertes comme indicateur, la part d'investissements du fonds dans les activités transitoires était de 0.21% et la part d'investissements dans les activités habilitantes était de 3.90%. Le pourcentage communiqué d'alignement des investissements du fonds sur la Taxinomie de l'UE n'a pas été audité par le réviseur d'entreprises agréé du fonds ni par aucun tiers.

● **Comment se situe le pourcentage d'investissements alignés sur la Taxinomie de l'UE par rapport aux périodes de référence antérieures ?**

À la fin de la période précédente, le pourcentage d'investissements alignés sur la taxinomie était de 8.67%.

 sont des investissements durables ayant un objectif environnemental qui **ne tiennent pas compte des critères** en matière d'activités économiques durables sur le plan environnemental visés par le Règlement (UE) 2020/852.

Quelle était la part des investissements durables ayant un objectif environnemental qui n'étaient pas alignés sur la Taxinomie de l'UE ?

La part des investissements durables ayant un objectif environnemental et non alignés sur la taxinomie était de **50.42%** à la fin de la période.

Cela tient du fait que certains émetteurs sont considérés comme investissements durables en vertu du Règlement SFDR mais qu'une portion de leurs activités n'est pas alignée sur les standards de la taxinomie de l'UE, ou que les données correspondantes ne sont pas encore disponibles en vue d'une évaluation relative à la taxinomie de l'UE.

Quelle était la part d'investissements durables sur le plan social ?

La proportion des investissements durables sur le plan social était de 18.85% à la fin de la période.

Quels investissements étaient inclus dans la catégorie « Autres », quelle était leur finalité et existait-il des garanties environnementales ou sociales minimales ?

Sont inclus dans la catégorie « N° 2 Autres » les liquidités et les instruments aux fins de gestion de la liquidité et des risques du portefeuille. Cette catégorie peut également inclure les titres sans notation ESG pour lesquels les données nécessaires à l'évaluation de la réalisation des caractéristiques environnementales ou sociales ne sont pas disponibles.

Quelles mesures ont-elles été prises pour réaliser les caractéristiques environnementales et/ou sociales au cours de la période de référence ?

Des indicateurs de durabilité sont mis à disposition de manière continue dans le système de gestion du portefeuille pour permettre aux gestionnaires du portefeuille d'évaluer l'impact de leurs décisions d'investissement.

Ces indicateurs sont intégrés au cadre de contrôle d'AMUNDI, en répartissant les responsabilités entre le premier niveau de contrôles réalisés par les équipes Investissement elles-mêmes, et le second niveau de contrôles réalisé par les équipes Risque, qui surveillent la conformité aux caractéristiques environnementales ou sociales promues en permanence par le fonds.

En outre, la Politique d'investissement responsable d'AMUNDI définit une approche active en matière d'engagement qui promeut le dialogue avec les sociétés bénéficiaires des investissements, y compris celles qui sont incluses dans le portefeuille de ce produit. Notre Rapport annuel en matière d'engagement, disponible à la page <https://about.amundi.com/esg-documentation>, fournit des informations détaillées sur cet engagement et ses résultats.

Quelles ont été les performances de ce produit financier par rapport à l'indice de référence ?

Ce produit ne dispose pas d'un Indice de référence ESG.

● **En quoi l'indice de référence diffère-t-il de l'indice de marché large ?**

Ce produit ne dispose pas d'un Indice de référence ESG.

Un indice de référence est un indice qui sert à mesurer si le produit financier réalise les

caractéristiques
environnementales
et/ou sociales qu'il
promeut.

- ***Quelles ont été les performances de ce produit financier par rapport aux indicateurs de durabilité pour déterminer l'alignement de l'indice de référence sur les caractéristiques environnementales ou sociales promues ?***

Ce produit ne dispose pas d'un Indice de référence ESG.

- ***Quelle a été la performance de ce produit financier par rapport à l'indice de référence ?***

Ce produit ne dispose pas d'un Indice de référence ESG.

- ***Quelle a été la performance de ce produit financier par rapport à l'indice de marché large ?***

Ce produit ne dispose pas d'un Indice de référence ESG.

Informations périodiques pour les produits financiers visés à l'Article 8, paragraphes 1, 2 et 2a, du Règlement (UE) 2019/2088 et à l'Article 6, premier paragraphe du Règlement (UE) 2020/852

Dénomination du produit : AMUNDI FUNDS
EUROPEAN EQUITY

Identifiant d'entité juridique :
213800CFWZ9RHAKLOD58

Par investissement durable, on entend un investissement dans une activité économique qui contribue à un objectif environnemental ou social, pour autant qu'il ne cause de préjudice important à aucun de ces objectifs et que les sociétés détenues respectent les pratiques de bonne gouvernance.

La **Taxinomie de l'UE** est un système de classification institué par le Règlement (UE) 2020/852, qui dresse une liste d'**activités économiques durables sur le plan environnemental**. Ce règlement ne comprend pas de liste d'activités économiques durables sur le plan social. Les investissements durables ayant un objectif environnemental ne sont pas nécessairement alignés sur la taxinomie.

Caractéristiques environnementales et/ou sociales

Le produit financier avait-il un objectif d'investissement durable ?

☒ ☐ **Oui** ☒ ☐ **X Non**

☐ Il a réalisé des investissements durables ayant un objectif environnemental : _____ ☐ dans des activités économiques qui sont considérées comme durables sur le plan environnemental au titre de la Taxinomie de l'UE ☐ dans des activités économiques qui ne sont pas considérées comme durables sur le plan environnemental au titre de la Taxinomie de l'UE ☐ Il a réalisé des investissements durables ayant un objectif social : _____	☒ Il a promu des caractéristiques environnementales/sociales (E/S) et, bien qu'il n'ait pas eu pour objectif l'investissement durable, il contenait une proportion d'investissements durables de <u>68.94%</u> ☐ ayant un objectif environnemental dans des activités économiques qui sont considérées comme durables sur le plan environnemental au titre de la Taxinomie de l'UE ☒ ayant un objectif environnemental dans des activités économiques qui ne sont pas considérées comme durables sur le plan environnemental au titre de la Taxinomie de l'UE ☐ ayant un objectif social ☐ Il a promu des caractéristiques E/S, mais n'a pas réalisé d'investissements durables
---	---

Dans quelle mesure les caractéristiques environnementales et/ou sociales promues par ce produit financier ont-elles été réalisées ?

Au cours de l'exercice financier, le produit n'a cessé de promouvoir les caractéristiques environnementales et/ou sociales en cherchant à atteindre une note ESG supérieure à celle de son univers d'investissement **MSCI EUROPE (15)**. Pour déterminer la note ESG du Produit et de l'univers d'investissement ESG, la performance ESG a été évaluée de manière continue en comparant la performance moyenne d'un titre par rapport au secteur de l'émetteur du titre, pour chacune des trois caractéristiques, à savoir environnementale, sociale et de gouvernance.

L'univers d'investissement est un univers de marché large qui n'évalue ni n'inclut pas de composantes en fonction de caractéristiques environnementales et/ou sociales, et qui n'a par conséquent pas pour vocation d'être conforme aux caractéristiques promues par le fonds. Aucun indice de référence ESG n'a été désigné.

Les indicateurs de durabilité évaluent la mesure dans laquelle les caractéristiques environnementales ou sociales promues par le produit financier sont atteintes.

● **Quelle performance ont affiché les indicateurs de durabilité ?**

Amundi a développé son propre processus de notation ESG interne, qui suit une approche « Best-in-class ». Les notations adaptées à chaque secteur d'activité ont pour objectif d'évaluer la dynamique dans laquelle interviennent les entreprises.

L'indicateur de durabilité employé est la note ESG du Produit mesurée en comparaison avec la note ESG de l'univers d'investissement ESG du Produit.

À la fin de la période :

- La note ESG moyenne pondérée du portefeuille est **0.914 (C)**.
- La note ESG moyenne pondérée de l'univers d'investissement ESG est **0.798 (D)**.

La notation ESG Amundi utilisée pour déterminer la note ESG est une note ESG quantitative qui se décline en sept niveaux allant de A (les meilleures notes de l'univers) à G (les pires notes). Sur l'échelle de notation ESG d'Amundi, les titres figurant sur la liste d'exclusion correspondent à G. Pour les entreprises émettrices, la performance ESG est évaluée de manière globale et au niveau des critères pertinents par comparaison avec la performance moyenne du secteur, en combinant les trois dimensions ESG :

- Dimension environnementale : cette dimension examine la capacité des émetteurs à contrôler leur impact environnemental direct et indirect, en limitant leur consommation d'énergie, en réduisant leurs émissions de gaz à effet de serre, en luttant contre l'appauvrissement des ressources et en protégeant la biodiversité.
- Dimension sociale : cette dimension évalue le fonctionnement d'un émetteur dans deux domaines différents, à savoir sa stratégie de développement du capital humain et le respect des droits humains en général.
- Dimension de gouvernance : cette dimension évalue la capacité de l'émetteur à garantir les fondements d'un cadre de gouvernance d'entreprise efficace et à générer de la valeur sur le long terme.

La méthodologie appliquée par la notation ESG d'Amundi utilise 38 critères qui sont soit génériques (communs à toutes les entreprises, indépendamment de leur activité) soit spécifiques au secteur, et qui sont pondérés en fonction du secteur et considérés en termes d'impact sur la réputation, l'efficacité opérationnelle et les réglementations concernant un émetteur. Les notations ESG d'Amundi sont susceptibles d'être exprimées de manière globale pour les trois dimensions E, S et G, ou individuellement pour tout facteur environnemental ou social.

● **... et par rapport aux périodes antérieures ?**

C'est le premier rapport périodique SFDR produit pour ce compartiment.

● **Quels étaient les objectifs des investissements durables que le produit financier entendait partiellement réaliser, et comment l'investissement durable a-t-il contribué à ces objectifs ?**

Les objectifs des investissements durables sont d'investir dans des sociétés détenues qui cherchent à respecter deux critères :

1. suivre les bonnes pratiques environnementales et sociales ; et
2. éviter de fabriquer des produits ou de fournir des services qui nuisent à l'environnement et à la société.

Pour que la société bénéficiaire des investissements soit réputée contribuer à l'objectif susmentionné, elle doit figurer parmi les « meilleures performances » de son secteur d'activité pour au moins l'un de ses facteurs environnementaux ou sociaux importants.

La définition de « meilleures performances » repose sur la méthode ESG exclusive d'Amundi, dont l'objectif est de mesurer la performance ESG d'une société bénéficiaire des investissements. Pour être considérée comme l'une des « meilleures performances », une société bénéficiaire des investissements doit afficher l'une des trois premières notes (A, B ou C, sur une échelle de notation allant de A à G) dans son secteur pour au moins un facteur environnemental ou social important. Les facteurs environnementaux et sociaux sont identifiés à l'échelle des secteurs. L'identification des facteurs importants est basée sur le cadre d'analyse ESG d'Amundi qui combine des données extra-financières et une analyse qualitative du secteur associé et des questions de durabilité. Les facteurs identifiés comme importants représentent plus de 10 % de la note ESG globale. Par exemple pour le secteur de

l'énergie, les facteurs importants sont les suivants : émissions et énergie, biodiversité et pollution, santé et sécurité, communautés locales et droits humains. Pour un aperçu plus complet des secteurs et des facteurs, veuillez consulter la Déclaration réglementaire ESG d'Amundi disponible sur www.amundi.lu

Pour contribuer aux objectifs ci-dessus, la société bénéficiaire des investissements ne doit pas avoir d'exposition significative aux activités (par ex. tabac, armes, jeux de hasard, charbon, aviation, production de viande, fabrication d'engrais et de pesticides, production de plastique à usage unique) incompatibles avec ces critères.

Le caractère durable d'un investissement est évalué au niveau de la société bénéficiaire des investissements.

● ***Dans quelle mesure les investissements durables que le produit financier a partiellement réalisés n'ont-ils pas causé de préjudice important à un objectif d'investissement durable sur le plan environnemental ou social ?***

Pour s'assurer que les investissements durables ne causent pas de préjudice important (principe « Do no significant harm » ou « DNSH » en anglais), Amundi utilise deux filtres :

Le premier filtre de DNSH repose sur le contrôle des indicateurs obligatoires des Principales incidences négatives de l'Annexe 1, Tableau 1 des normes techniques réglementaires (RTS) lorsqu'il existe des données fiables (par ex. Intensité des GES des sociétés bénéficiaires des investissements) via une combinaison d'indicateurs (par ex. intensité carbone) et des seuils ou règles spécifiques (par ex. que l'intensité carbone de la société bénéficiaire des investissements n'appartient pas au dernier décile du secteur).

Dans sa politique d'exclusion qui fait partie intégrante de sa Politique d'investissement responsable, Amundi tient d'ores et déjà compte de Principales incidences négatives spécifiques. Ces exclusions, qui s'appliquent en sus des tests détaillés ci-dessus, couvrent les sujets suivants : exclusions sur les armes controversées, les violations des principes du Pacte mondial des Nations Unies, le charbon et le tabac.

Au-delà des facteurs de durabilité spécifiques couverts par le premier filtre, Amundi a défini un second filtre, qui ne tient pas compte des indicateurs obligatoires des Principales incidences négatives ci-dessus, afin de vérifier que la société n'affiche pas de mauvaises performances d'un point de vue environnemental ou social global par rapport aux autres entreprises de son secteur, ce qui correspond à un score environnemental ou social supérieur ou égal à E selon la notation ESG d'Amundi.

- ***Comment les indicateurs concernant les incidences négatives sur les facteurs de durabilité ont-ils été pris en considération ?***

Les indicateurs d'incidences négatives ont été pris en compte comme détaillé dans le premier filtre DNSH ci-dessus.

Le premier filtre DNSH repose sur le contrôle des indicateurs obligatoires des Principales incidences négatives de l'Annexe 1, Tableau 1 du Règlement délégué (UE) 2022/1288 lorsqu'il existe des données fiables via la combinaison des indicateurs suivants et de seuils ou règles spécifiques :

- une intensité en CO2 qui n'appartient pas au dernier décile par rapport aux autres entreprises du secteur (ne s'applique qu'aux secteurs à forte intensité) ;
- un Conseil d'administration dont le niveau de diversité n'appartient pas au dernier décile par rapport aux autres sociétés du secteur ;
- ne pas faire l'objet de controverse relative aux conditions de travail et aux droits humains ; et
- ne pas faire l'objet de controverse relative à la biodiversité et à la pollution.

Dans sa politique d'exclusion qui fait partie intégrante de sa Politique d'investissement responsable, Amundi tient d'ores et déjà compte de Principales incidences négatives spécifiques. Ces exclusions, qui s'appliquent en sus des tests détaillés ci-dessus, couvrent les sujets suivants : exclusions sur les armes controversées, les violations des principes du Pacte mondial des Nations Unies, le charbon et le tabac.

- ***Les investissements durables étaient-ils conformes aux Principes directeurs de l'OCDE à l'intention des entreprises multinationales et aux Principes directeurs des Nations unies relatifs aux entreprises et aux droits humains ? Description détaillée :***

Oui, les Principes directeurs de l'OCDE à l'intention des entreprises multinationales et les Principes directeurs des Nations unies relatifs aux entreprises et aux droits humains sont intégrés à notre méthode de notation ESG. Notre outil de notation ESG exclusif évalue les

Les principales incidences négatives correspondent aux incidences négatives les plus significatives des décisions d'investissement sur les facteurs de durabilité liés aux questions environnementales, sociales et de personnel, au respect des droits humains et à la lutte contre la corruption et les actes de corruption.

émetteurs à l'aide des données disponibles auprès de nos fournisseurs de données. Par exemple, le modèle dispose d'un critère dédié appelé « Implication dans la communauté et droits humains » qui s'applique à tous les secteurs en plus d'autres critères liés aux droits humains, y compris les chaînes d'approvisionnement socialement responsables, les conditions de travail et les relations de travail. En outre, nous effectuons un contrôle des controverses au moins une fois par trimestre, y compris sur les entreprises identifiées pour des violations des droits humains. En cas de controverse, les analystes évaluent la situation, lui donnent une note (à l'aide de notre méthode de notation exclusive) et déterminent la marche à suivre. Les notes de controverse sont mises à jour chaque trimestre pour suivre les tendances et les efforts de correction.

La Taxinomie de l'UE définit un principe consistant à « ne pas causer de préjudice important » (« Do not significant harm » ou DNSH) en vertu duquel les investissements alignés sur la Taxinomie ne doivent pas causer de préjudice important aux objectifs de la Taxinomie de l'UE et s'accompagnent de critères de l'UE spécifiques.

Le principe consistant à « ne pas causer de préjudice important » ne s'applique qu'aux investissements sous-jacents du produit financier qui tiennent compte des critères de l'UE pour les activités économiques durables sur le plan environnemental. Les investissements sous-jacents de la portion restante de ce produit financier ne tiennent pas compte des critères de l'UE en matière d'activités économiques durables sur le plan environnemental.

Tout autre investissement durable doit également se conformer au principe consistant à ne pas causer de préjudice important aux objectifs environnementaux ou sociaux.

Dans quelle mesure ce produit financier a-t-il pris en considération les principales incidences négatives sur les facteurs de durabilité ?

Le produit tient compte de toutes les Principales incidences négatives obligatoires en vertu de l'Annexe 1, Tableau 1 du Règlement délégué (UE) 2022/1288 applicables à la stratégie du produit et s'appuie sur une combinaison de politiques d'exclusion (normatives et sectorielles) et d'approches d'engagement et de vote :

- Exclusion : Amundi a défini des règles d'exclusion normatives, basées sur l'activité et les secteurs, qui couvrent certains des principaux indicateurs négatifs de durabilité énumérés par le Règlement Disclosure (sur la publication d'informations).
- Intégration des facteurs ESG : Amundi a adopté des normes d'intégration ESG minimales appliquées par défaut à ses fonds de type ouvert activement gérés (exclusion des émetteurs ayant la note G et meilleure note ESG moyenne pondérée supérieure à celle de l'indice de référence applicable). Les 38 critères employés dans la stratégie de notation ESG d'Amundi ont également été conçus pour tenir compte des principaux impacts sur les facteurs de durabilité, ainsi que de la qualité de la réduction entreprise en la matière.
- Engagement : L'engagement est un processus continu et ciblé qui vise à influencer les activités ou le comportement des sociétés bénéficiaires des investissements. L'objectif des activités d'engagement peut se diviser en deux catégories : impliquer un émetteur pour améliorer la manière dont il intègre la dimension environnementale et sociale ou impliquer un émetteur pour améliorer son impact sur les questions environnementales, sociales et liées aux droits humains ou d'autres questions de durabilité qui sont importantes pour la société au sens large et l'économie mondiale.
- Vote : La politique de vote d'Amundi répond à une analyse globale de toutes les questions à long terme qui peuvent influencer la création de valeur, y compris les questions ESG importantes. Pour plus d'informations, veuillez consulter la Politique de vote d'Amundi.
- Surveillance des controverses : Amundi a développé un système de suivi des controverses qui s'appuie sur trois fournisseurs de données externes pour suivre systématiquement l'évolution des controverses et leur niveau de gravité. Cette approche quantitative est ensuite enrichie d'une évaluation approfondie de chaque controverse grave, menée par des analystes ESG, puis d'un examen périodique de son évolution. Cette approche s'applique à tous les fonds d'Amundi.

Pour de plus amples détails sur le mode de prise en compte des indicateurs relatifs aux Principales incidences négatives obligatoires, veuillez consulter la Déclaration sur la publication d'informations en matière de finance durable d'Amundi disponible sur www.amundi.com.

Quels étaient les principaux investissements de ce produit financier ?

La liste inclut les investissements qui constituent **la proportion la plus importante d'investissements** du produit financier au cours de la période de référence, à savoir : **du 01/07/2023 au 30/06/2024**

Principaux investissements	Secteur	Sous-secteur	Pays	% des actifs
NOVO NORDISK A/S-B	Santé	Pharmacie, biotechnologie et sciences de la vie	Danemark	6.25%
ASTRAZENECA GBP	Santé	Pharmacie, biotechnologie et sciences de la vie	Royaume-Uni	5.20%
SHELL PLC	Énergie	Pétrole, gaz et combustibles	Royaume-Uni	4.68%
SIEMENS AG-REG	Industrie	Biens d'équipement	Allemagne	4.02%
SANOFI	Santé	Pharmacie, biotechnologie et sciences de la vie	France	3.67%
VINCI SA (PARIS)	Industrie	Biens d'équipement	France	2.93%
KONINKLIJKE AHOLD DELHAIZE	Biens de consommation de base	Distribution et vente au détail de biens de consommation de base	Pays-Bas	2.84%

INFINEON TECHNOLOGIES AG	Technologies de l'information	Semi-conducteurs et équipement pour semi-conducteurs	Allemagne	2.75%
KBC GROUP NV	Obligations financières	Banques	Belgique	2.75%
EURONEXT NV PARIS	Obligations financières	Services financiers	Pays-Bas	2.64%
TEMENOS AG -REG	Technologies de l'information	Logiciels et services	Suisse	2.60%
CIE FINANCIERE RICHEMO-A REG	Consommation discrétionnaire	Biens de consommation durables et habillement	Suisse	2.55%

Quelle était la proportion d'investissements liés à la durabilité ?

Quelle était l'allocation d'actifs ?

L'allocation d'actifs décrit la part des investissements dans des actifs spécifiques.

La catégorie **N° 1 Alignés sur les caractéristiques E/S** inclut les investissements du produit financier utilisés pour atteindre les caractéristiques environnementales ou sociales promues par le produit financier.

La catégorie **N° 2 Autres** inclut les investissements restants du produit financier qui ne sont ni alignés sur les caractéristiques environnementales ou sociales ni considérés comme investissements durables.

La catégorie **N° 1 Alignés sur les caractéristiques E/S** comprend :

- la sous-catégorie **N° 1A Durables** couvrant les investissements durables sur le plan environnemental et social ;
- la sous-catégorie **N° 1B Autres caractéristiques E/S** couvrant les investissements alignés sur les caractéristiques environnementales ou sociales qui ne sont pas considérés comme des investissements durables.

● **Dans quels secteurs économiques ont été réalisés les investissements ?**

Secteur	Sous-secteur	% des actifs
Santé	Pharmacie, biotechnologie et sciences de la vie	17.12%
Industrie	Biens d'équipement	12.02%
Obligations financières	Banques	9.25%
Énergie	Pétrole, gaz et combustibles	7.44%
Consommation discrétionnaire	Biens de consommation durables et habillement	7.06%
Biens de consommation de base	Alimentation, boissons et tabac	7.00%

Aux fins d'observer la taxinomie de l'UE, les critères relatifs au **gaz fossile** incluent des limites aux émissions et le passage à une énergie entièrement renouvelable ou à des combustibles à faible teneur en carbone d'ici fin 2035. Pour **l'énergie nucléaire**, les critères incluent des règles exhaustives de sécurité et de gestion des déchets.

Les activités habilitantes permettent directement à d'autres activités de contribuer de manière substantielle à la réalisation d'un objectif environnemental.

Les activités transitoires sont des activités pour lesquelles il n'existe pas encore de solution de remplacement sobre en carbone et, entre autres, dont les niveaux d'émission de gaz à effet de serre correspondent aux meilleures

Dans quelle mesure les investissements durables ayant un objectif environnemental étaient-ils alignés sur la Taxinomie de l'UE ?

Le fonds promeut des caractéristiques tant environnementales que sociales. Si le fonds ne s'est pas engagé à réaliser des investissements alignés sur la Taxinomie de l'UE, au cours de la période sous revue, il a cependant investi 0.65% dans des investissements durables alignés sur la Taxinomie de l'UE. De tels investissements ont contribué à l'obligation relative au changement climatique ou aux objectifs de réduction du changement climatique de la Taxinomie de l'UE.

L'alignement des sociétés bénéficiaires des investissements sur les objectifs de la taxinomie de l'UE susmentionnés est évalué à l'aide du chiffre d'affaires (ou des revenus) et/ou des données d'utilisation des produits des obligations vertes.

Le pourcentage communiqué d'alignement des investissements du fonds sur la Taxinomie de l'UE n'a pas été audité par le réviseur d'entreprises agréé du fonds ni par aucun tiers.

● Le produit financier a-t-il investi dans des activités liées au gaz fossile et/ou à l'énergie nucléaire qui sont conformes à la Taxinomie de l'UE¹ ?

☐

Oui :

☐

Dans le gaz fossile

☐

Dans l'énergie nucléaire

☒

Non

Aucune donnée fiable concernant l'alignement sur les activités de gaz fossile et d'énergie nucléaire conformes à la Taxinomie de l'UE n'était disponible sur la période.

¹ Les activités liées au gaz fossile et/ou à l'énergie nucléaire ne seront conformes à la Taxinomie de l'UE que si elles contribuent à limiter le changement climatique (« réduction du changement climatique ») et ne causent pas de préjudice important à tout objectif de la Taxinomie de l'UE. L'intégralité des critères relatifs aux activités économiques liées au gaz fossile et à l'énergie nucléaire conformes à la Taxinomie de l'UE sont définis dans le Règlement délégué (UE) 2022/1214 de la Commission.

performances réalisables.

Les activités alignées sur la taxinomie sont exprimées en pourcentage :

- **du chiffre d'affaires** pour refléter la part des revenus provenant des activités vertes des sociétés bénéficiaires d'investissements ;
- **des dépenses d'investissement (CapEx)** pour montrer les investissements verts réalisés par les sociétés bénéficiaires d'investissements, pour une transition vers une économie verte, par exemple ;
- **des dépenses d'exploitation (OpEx)** pour refléter les activités opérationnelles vertes des sociétés bénéficiaires d'investissements.

Les graphiques ci-dessous font apparaître en vert le pourcentage d'investissements alignés sur la Taxinomie de l'UE. Étant donné qu'il n'existe pas de méthodologie appropriée pour déterminer l'alignement des obligations souveraines sur la taxinomie, le premier graphique montre l'alignement sur la Taxinomie par rapport à tous les investissements du produit financier, y compris les obligations souveraines, tandis que le deuxième graphique représente l'alignement sur la Taxinomie uniquement par rapport aux investissements du produit financier autres que les obligations souveraines.*

* Aux fins de ces graphiques, les « obligations souveraines » comprennent toutes les expositions souveraines

● Quelle était la part d'investissements dans les activités transitoires et habilitantes ?

Au 30/06/2024, en utilisant le chiffre d'affaires et/ou les données d'utilisation des produits des obligations vertes comme indicateur, la part d'investissements du fonds dans les activités transitoires était de 0.02% et la part d'investissements dans les activités habilitantes était de 0.63%. Le pourcentage communiqué d'alignement des investissements du fonds sur la Taxinomie de l'UE n'a pas été audité par le réviseur d'entreprises agréé du fonds ni par aucun tiers.

● Comment se situe le pourcentage d'investissements alignés sur la Taxinomie de l'UE par rapport aux périodes de référence antérieures ?

C'est le premier rapport périodique SFDR produit pour ce compartiment.

 sont des investissements durables ayant un objectif environnemental qui **ne tiennent pas compte des critères** en matière d'activités économiques durables sur le plan environnemental visés par le Règlement (UE) 2020/852.

Quelle était la part des investissements durables ayant un objectif environnemental qui n'étaient pas alignés sur la Taxinomie de l'UE ?

La part des investissements durables ayant un objectif environnemental et non alignés sur la taxinomie était de **45.22%** à la fin de la période. Cela tient du fait que certains émetteurs sont considérés comme investissements durables en vertu du Règlement SFDR mais qu'une portion de leurs activités n'est pas alignée sur les standards de la taxinomie de l'UE, ou que les données correspondantes ne sont pas encore disponibles en vue d'une évaluation relative à la taxinomie de l'UE.

Quelle était la part d'investissements durables sur le plan social ?

La proportion des investissements durables sur le plan social était de 23.07% à la fin de la période.

Quels investissements étaient inclus dans la catégorie « Autres », quelle était leur finalité et existait-il des garanties environnementales ou sociales minimales ?

Sont inclus dans la catégorie « N° 2 Autres » les liquidités et les instruments aux fins de gestion de la liquidité et des risques du portefeuille. Cette catégorie peut également inclure les titres sans notation ESG pour lesquels les données nécessaires à l'évaluation de la réalisation des caractéristiques environnementales ou sociales ne sont pas disponibles.

Quelles mesures ont-elles été prises pour réaliser les caractéristiques environnementales et/ou sociales au cours de la période de référence ?

Des indicateurs de durabilité sont mis à disposition de manière continue dans le système de gestion du portefeuille pour permettre aux gestionnaires du portefeuille d'évaluer l'impact de leurs décisions d'investissement.

Ces indicateurs sont intégrés au cadre de contrôle d'AMUNDI, en répartissant les responsabilités entre le premier niveau de contrôles réalisés par les équipes Investissement elles-mêmes, et le second niveau de contrôles réalisé par les équipes Risque, qui surveillent la conformité aux caractéristiques environnementales ou sociales promues en permanence par le fonds.

En outre, la Politique d'investissement responsable d'AMUNDI définit une approche active en matière d'engagement qui promeut le dialogue avec les sociétés bénéficiaires des investissements, y compris celles qui sont incluses dans le portefeuille de ce produit. Notre Rapport annuel en matière d'engagement, disponible à la page <https://about.amundi.com/esg-documentation>, fournit des informations détaillées sur cet engagement et ses résultats.

Quelles ont été les performances de ce produit financier par rapport à l'indice de référence ?

Un indice de référence est un indice qui sert à mesurer si le produit financier réalise les caractéristiques environnementales et/ou sociales qu'il promeut.

Ce produit ne dispose pas d'un Indice de référence ESG.

● *En quoi l'indice de référence diffère-t-il de l'indice de marché large ?*

Ce produit ne dispose pas d'un Indice de référence ESG.

● *Quelles ont été les performances de ce produit financier par rapport aux indicateurs de durabilité pour déterminer l'alignement de l'indice de référence sur les caractéristiques environnementales ou sociales promues ?*

Ce produit ne dispose pas d'un Indice de référence ESG.

● *Quelle a été la performance de ce produit financier par rapport à l'indice de référence ?*

Ce produit ne dispose pas d'un Indice de référence ESG.

● *Quelle a été la performance de ce produit financier par rapport à l'indice de marché large ?*

Ce produit ne dispose pas d'un Indice de référence ESG.

Informations périodiques pour les produits financiers visés à l'Article 8, paragraphes 1, 2 et 2a, du Règlement (UE) 2019/2088 et à l'Article 6, premier paragraphe du Règlement (UE) 2020/852

Dénomination du produit : AMUNDI FUNDS
EUROPE EX UK EQUITY

Identifiant d'entité juridique :
213800GUNJ834MSUJJ48

Par investissement durable, on entend un investissement dans une activité économique qui contribue à un objectif environnemental ou social, pour autant qu'il ne cause de préjudice important à aucun de ces objectifs et que les sociétés détenues respectent les pratiques de bonne gouvernance.

La Taxinomie de l'UE est un système de classification institué par le Règlement (UE) 2020/852, qui dresse une liste d'activités économiques durables sur le plan environnemental. Ce règlement ne comprend pas de liste d'activités économiques durables sur le plan social. Les investissements durables ayant un objectif environnemental ne sont pas nécessairement alignés sur la taxinomie.

Caractéristiques environnementales et/ou sociales

Le produit financier avait-il un objectif d'investissement durable ?

Oui

X

Non

Il a réalisé des investissements durables ayant un objectif environnemental : _____

dans des activités économiques qui sont considérées comme durables sur le plan environnemental au titre de la Taxinomie de l'UE

dans des activités économiques qui ne sont pas considérées comme durables sur le plan environnemental au titre de la Taxinomie de l'UE

Il a réalisé des investissements durables ayant un objectif social : _____

Il a promu des caractéristiques environnementales/sociales (E/S) et, bien qu'il n'ait pas eu pour objectif l'investissement durable, il contenait une proportion d'investissements durables de **70.16%**

ayant un objectif environnemental dans des activités économiques qui sont considérées comme durables sur le plan environnemental au titre de la Taxinomie de l'UE

ayant un objectif environnemental dans des activités économiques qui ne sont pas considérées comme durables sur le plan environnemental au titre de la Taxinomie de l'UE

ayant un objectif social

Il a promu des caractéristiques E/S, mais n'a pas réalisé d'investissements durables

Dans quelle mesure les caractéristiques environnementales et/ou sociales promues par ce produit financier ont-elles été réalisées ?

Au cours de l'exercice financier, le produit n'a cessé de promouvoir les caractéristiques environnementales et/ou sociales en cherchant à atteindre une note ESG supérieure à celle de son univers d'investissement **MSCI EUROPE EX UK**. Pour déterminer la note ESG du Produit et de l'univers d'investissement ESG, la performance ESG a été évaluée de manière continue en comparant la performance moyenne d'un titre par rapport au secteur de l'émetteur du titre, pour chacune des trois caractéristiques, à savoir environnementale, sociale et de gouvernance.

L'univers d'investissement est un univers de marché large qui n'évalue ni n'inclut pas de composantes en fonction de caractéristiques environnementales et/ou sociales, et qui n'a par conséquent pas pour vocation d'être conforme aux caractéristiques promues par le fonds. Aucun indice de référence ESG n'a été désigné.

Les indicateurs de durabilité évaluent la mesure dans laquelle les caractéristiques environnementales ou sociales promues par le produit financier sont atteintes.

● **Quelle performance ont affiché les indicateurs de durabilité ?**

Amundi a développé son propre processus de notation ESG interne, qui suit une approche « Best-in-class ». Les notations adaptées à chaque secteur d'activité ont pour objectif d'évaluer la dynamique dans laquelle interviennent les entreprises.

L'indicateur de durabilité employé est la note ESG du Produit mesurée en comparaison avec la note ESG de l'univers d'investissement ESG du Produit.

À la fin de la période :

- La note ESG moyenne pondérée du portefeuille est **1.185 (C)**.
- La note ESG moyenne pondérée de l'univers d'investissement ESG est **0.906 (C)**.

La notation ESG Amundi utilisée pour déterminer la note ESG est une note ESG quantitative qui se décline en sept niveaux allant de A (les meilleures notes de l'univers) à G (les pires notes). Sur l'échelle de notation ESG d'Amundi, les titres figurant sur la liste d'exclusion correspondent à G. Pour les entreprises émettrices, la performance ESG est évaluée de manière globale et au niveau des critères pertinents par comparaison avec la performance moyenne du secteur, en combinant les trois dimensions ESG :

- Dimension environnementale : cette dimension examine la capacité des émetteurs à contrôler leur impact environnemental direct et indirect, en limitant leur consommation d'énergie, en réduisant leurs émissions de gaz à effet de serre, en luttant contre l'appauvrissement des ressources et en protégeant la biodiversité.
- Dimension sociale : cette dimension évalue le fonctionnement d'un émetteur dans deux domaines différents, à savoir sa stratégie de développement du capital humain et le respect des droits humains en général.
- Dimension de gouvernance : cette dimension évalue la capacité de l'émetteur à garantir les fondements d'un cadre de gouvernance d'entreprise efficace et à générer de la valeur sur le long terme.

La méthodologie appliquée par la notation ESG d'Amundi utilise 38 critères qui sont soit génériques (communs à toutes les entreprises, indépendamment de leur activité) soit spécifiques au secteur, et qui sont pondérés en fonction du secteur et considérés en termes d'impact sur la réputation, l'efficacité opérationnelle et les réglementations concernant un émetteur. Les notations ESG d'Amundi sont susceptibles d'être exprimées de manière globale pour les trois dimensions E, S et G, ou individuellement pour tout facteur environnemental ou social.

● **... et par rapport aux périodes antérieures ?**

C'est le premier rapport périodique SFDR produit pour ce compartiment.

● **Quels étaient les objectifs des investissements durables que le produit financier entendait partiellement réaliser, et comment l'investissement durable a-t-il contribué à ces objectifs ?**

Les objectifs des investissements durables sont d'investir dans des sociétés détenues qui cherchent à respecter deux critères :

1. suivre les bonnes pratiques environnementales et sociales ; et
2. éviter de fabriquer des produits ou de fournir des services qui nuisent à l'environnement et à la société.

Pour que la société bénéficiaire des investissements soit réputée contribuer à l'objectif susmentionné, elle doit figurer parmi les « meilleures performances » de son secteur d'activité pour au moins l'un de ses facteurs environnementaux ou sociaux importants.

La définition de « meilleures performances » repose sur la méthode ESG exclusive d'Amundi, dont l'objectif est de mesurer la performance ESG d'une société bénéficiaire des investissements. Pour être considérée comme l'une des « meilleures performances », une société bénéficiaire des investissements doit afficher l'une des trois premières notes (A, B ou C, sur une échelle de notation allant de A à G) dans son secteur pour au moins un facteur environnemental ou social important. Les facteurs environnementaux et sociaux sont identifiés à l'échelle des secteurs. L'identification des facteurs importants est basée sur le cadre d'analyse ESG d'Amundi qui combine des données extra-financières et une analyse qualitative du secteur associé et des questions de durabilité. Les facteurs identifiés comme importants représentent plus de 10 % de la note ESG globale. Par exemple pour le secteur de

l'énergie, les facteurs importants sont les suivants : émissions et énergie, biodiversité et pollution, santé et sécurité, communautés locales et droits humains. Pour un aperçu plus complet des secteurs et des facteurs, veuillez consulter la Déclaration réglementaire ESG d'Amundi disponible sur www.amundi.lu

Pour contribuer aux objectifs ci-dessus, la société bénéficiaire des investissements ne doit pas avoir d'exposition significative aux activités (par ex. tabac, armes, jeux de hasard, charbon, aviation, production de viande, fabrication d'engrais et de pesticides, production de plastique à usage unique) incompatibles avec ces critères.

Le caractère durable d'un investissement est évalué au niveau de la société bénéficiaire des investissements.

● ***Dans quelle mesure les investissements durables que le produit financier a partiellement réalisés n'ont-ils pas causé de préjudice important à un objectif d'investissement durable sur le plan environnemental ou social ?***

Pour s'assurer que les investissements durables ne causent pas de préjudice important (principe « Do no significant harm » ou « DNSH » en anglais), Amundi utilise deux filtres :

Le premier filtre de DNSH repose sur le contrôle des indicateurs obligatoires des Principales incidences négatives de l'Annexe 1, Tableau 1 des normes techniques réglementaires (RTS) lorsqu'il existe des données fiables (par ex. Intensité des GES des sociétés bénéficiaires des investissements) via une combinaison d'indicateurs (par ex. intensité carbone) et des seuils ou règles spécifiques (par ex. que l'intensité carbone de la société bénéficiaire des investissements n'appartient pas au dernier décile du secteur).

Dans sa politique d'exclusion qui fait partie intégrante de sa Politique d'investissement responsable, Amundi tient d'ores et déjà compte de Principales incidences négatives spécifiques. Ces exclusions, qui s'appliquent en sus des tests détaillés ci-dessus, couvrent les sujets suivants : exclusions sur les armes controversées, les violations des principes du Pacte mondial des Nations Unies, le charbon et le tabac.

Au-delà des facteurs de durabilité spécifiques couverts par le premier filtre, Amundi a défini un second filtre, qui ne tient pas compte des indicateurs obligatoires des Principales incidences négatives ci-dessus, afin de vérifier que la société n'affiche pas de mauvaises performances d'un point de vue environnemental ou social global par rapport aux autres entreprises de son secteur, ce qui correspond à un score environnemental ou social supérieur ou égal à E selon la notation ESG d'Amundi.

- ***Comment les indicateurs concernant les incidences négatives sur les facteurs de durabilité ont-ils été pris en considération ?***

Les indicateurs d'incidences négatives ont été pris en compte comme détaillé dans le premier filtre DNSH ci-dessus.

Le premier filtre DNSH repose sur le contrôle des indicateurs obligatoires des Principales incidences négatives de l'Annexe 1, Tableau 1 du Règlement délégué (UE) 2022/1288 lorsqu'il existe des données fiables via la combinaison des indicateurs suivants et de seuils ou règles spécifiques :

- une intensité en CO2 qui n'appartient pas au dernier décile par rapport aux autres entreprises du secteur (ne s'applique qu'aux secteurs à forte intensité) ;
- un Conseil d'administration dont le niveau de diversité n'appartient pas au dernier décile par rapport aux autres sociétés du secteur ;
- ne pas faire l'objet de controverse relative aux conditions de travail et aux droits humains ; et
- ne pas faire l'objet de controverse relative à la biodiversité et à la pollution.

Dans sa politique d'exclusion qui fait partie intégrante de sa Politique d'investissement responsable, Amundi tient d'ores et déjà compte de Principales incidences négatives spécifiques. Ces exclusions, qui s'appliquent en sus des tests détaillés ci-dessus, couvrent les sujets suivants : exclusions sur les armes controversées, les violations des principes du Pacte mondial des Nations Unies, le charbon et le tabac.

- ***Les investissements durables étaient-ils conformes aux Principes directeurs de l'OCDE à l'intention des entreprises multinationales et aux Principes directeurs des Nations unies relatifs aux entreprises et aux droits humains ? Description détaillée :***

Oui, les Principes directeurs de l'OCDE à l'intention des entreprises multinationales et les Principes directeurs des Nations unies relatifs aux entreprises et aux droits humains sont

Les principales incidences négatives correspondent aux incidences négatives les plus significatives des décisions d'investissement sur les facteurs de durabilité liés aux questions environnementales, sociales et de personnel, au respect des droits humains et à la lutte contre la corruption et les actes de corruption.

intégrés à notre méthode de notation ESG. Notre outil de notation ESG exclusif évalue les émetteurs à l'aide des données disponibles auprès de nos fournisseurs de données. Par exemple, le modèle dispose d'un critère dédié appelé « Implication dans la communauté et droits humains » qui s'applique à tous les secteurs en plus d'autres critères liés aux droits humains, y compris les chaînes d'approvisionnement socialement responsables, les conditions de travail et les relations de travail. En outre, nous effectuons un contrôle des controverses au moins une fois par trimestre, y compris sur les entreprises identifiées pour des violations des droits humains. En cas de controverse, les analystes évaluent la situation, lui donnent une note (à l'aide de notre méthode de notation exclusive) et déterminent la marche à suivre. Les notes de controverse sont mises à jour chaque trimestre pour suivre les tendances et les efforts de correction.

La Taxinomie de l'UE définit un principe consistant à « ne pas causer de préjudice important » (« Do not significant harm » ou DNSH) en vertu duquel les investissements alignés sur la Taxinomie ne doivent pas causer de préjudice important aux objectifs de la Taxinomie de l'UE et s'accompagnent de critères de l'UE spécifiques.

Le principe consistant à « ne pas causer de préjudice important » ne s'applique qu'aux investissements sous-jacents du produit financier qui tiennent compte des critères de l'UE pour les activités économiques durables sur le plan environnemental. Les investissements sous-jacents de la portion restante de ce produit financier ne tiennent pas compte des critères de l'UE en matière d'activités économiques durables sur le plan environnemental.

Tout autre investissement durable doit également se conformer au principe consistant à ne pas causer de préjudice important aux objectifs environnementaux ou sociaux.

Dans quelle mesure ce produit financier a-t-il pris en considération les principales incidences négatives sur les facteurs de durabilité ?

Le produit tient compte de toutes les Principales incidences négatives obligatoires en vertu de l'Annexe 1, Tableau 1 du Règlement délégué (UE) 2022/1288 applicables à la stratégie du produit et s'appuie sur une combinaison de politiques d'exclusion (normatives et sectorielles) et d'approches d'engagement et de vote :

- Exclusion : Amundi a défini des règles d'exclusion normatives, basées sur l'activité et les secteurs, qui couvrent certains des principaux indicateurs négatifs de durabilité énumérés par le Règlement Disclosure (sur la publication d'informations).
- Intégration des facteurs ESG : Amundi a adopté des normes d'intégration ESG minimales appliquées par défaut à ses fonds de type ouvert activement gérés (exclusion des émetteurs ayant la note G et meilleure note ESG moyenne pondérée supérieure à celle de l'indice de référence applicable). Les 38 critères employés dans la stratégie de notation ESG d'Amundi ont également été conçus pour tenir compte des principaux impacts sur les facteurs de durabilité, ainsi que de la qualité de la réduction entreprise en la matière.
- Engagement : L'engagement est un processus continu et ciblé qui vise à influencer les activités ou le comportement des sociétés bénéficiaires des investissements. L'objectif des activités d'engagement peut se diviser en deux catégories : impliquer un émetteur pour améliorer la manière dont il intègre la dimension environnementale et sociale ou impliquer un émetteur pour améliorer son impact sur les questions environnementales, sociales et liées aux droits humains ou d'autres questions de durabilité qui sont importantes pour la société au sens large et l'économie mondiale.
- Vote : La politique de vote d'Amundi répond à une analyse globale de toutes les questions à long terme qui peuvent influencer la création de valeur, y compris les questions ESG importantes. pour plus d'informations, veuillez consulter la Politique de vote d'Amundi.
- Surveillance des controverses : Amundi a développé un système de suivi des controverses qui s'appuie sur trois fournisseurs de données externes pour suivre systématiquement l'évolution des controverses et leur niveau de gravité. Cette approche quantitative est ensuite enrichie d'une évaluation approfondie de chaque controverse grave, menée par des analystes ESG, puis d'un examen périodique de son évolution. Cette approche s'applique à tous les fonds d'Amundi.

Pour de plus amples détails sur le mode de prise en compte des indicateurs relatifs aux Principales incidences négatives obligatoires, veuillez consulter la Déclaration sur la publication d'informations en matière de finance durable d'Amundi disponible sur www.amundi.com.

Quels étaient les principaux investissements de ce produit financier ?

La liste inclut les investissements qui constituent **la proportion la plus importante d'investissements** du produit financier au cours de la période de référence, à savoir : **du 01/07/2023 au 30/06/2024**

Principaux investissements	Secteur	Sous-secteur	Pays	% des actifs
NOVO NORDISK A/S-B	Santé	Pharmacie, biotechnologie et sciences de la vie	Danemark	7.11%
ALLIANZ SE-REG	Obligations financières	Assurance	Allemagne	3.79%
SANOFI	Santé	Pharmacie, biotechnologie et sciences de la vie	France	3.74%
SCHNEIDER ELECT SE	Industrie	Biens d'équipement	France	3.57%
IBERDROLA SA	Services aux collectivités	Services aux collectivités – électricité	Espagne	3.56%
DEUTSCHE TELEKOM NAM (XETRA)	Services de communication	Télécommunications	Allemagne	3.48%
SIEMENS AG-REG	Industrie	Biens d'équipement	Allemagne	3.25%
VINCI SA (PARIS)	Industrie	Biens d'équipement	France	3.10%
DEUTSCHE BOERSE AG	Obligations financières	Services financiers	Allemagne	3.08%
ASML HOLDING NV	Technologies de l'information	Semi-conducteurs et équipement pour semi-conducteurs	Pays-Bas	3.05%
KBC GROUP NV	Obligations financières	Banques	Belgique	2.88%
KONINKLIJKE AHOLD DELHAIZE	Biens de consommation de base	Distribution et vente au détail de biens de consommation de base	Pays-Bas	2.83%
BNP PARIBAS	Obligations financières	Banques	France	2.81%
INFINEON TECHNOLOGIES AG	Technologies de l'information	Semi-conducteurs et équipement pour semi-conducteurs	Allemagne	2.66%
CIE FINANCIERE RICHEMO-A REG	Consommation discrétionnaire	Biens de consommation durables et habillement	Suisse	2.57%

Quelle était la proportion d'investissements liés à la durabilité ?

Quelle était l'allocation d'actifs ?

L'allocation d'actifs
décrit la part des investissements dans des actifs spécifiques.

La catégorie **N° 1 Alignés sur les caractéristiques E/S** inclut les investissements du produit financier utilisés pour atteindre les caractéristiques environnementales ou sociales promues par le produit financier.

La catégorie **N° 2 Autres** inclut les investissements restants du produit financier qui ne sont ni alignés sur les caractéristiques environnementales ou sociales ni considérés comme investissements durables.

La catégorie **N° 1 Alignés sur les caractéristiques E/S** comprend :

- la sous-catégorie **N° 1A Durables** couvrant les investissements durables sur le plan environnemental et social ;
- la sous-catégorie **N° 1B Autres caractéristiques E/S** couvrant les investissements alignés sur les caractéristiques environnementales ou sociales qui ne sont pas considérés comme des investissements durables.

● **Dans quels secteurs économiques ont été réalisés les investissements ?**

Secteur	Sous-secteur	% des actifs
Santé	Pharmacie, biotechnologie et sciences de la vie	17.36%
Industrie	Biens d'équipement	13.40%
Consommation discrétionnaire	Biens de consommation durables et habillement	8.38%
Obligations financières	Banques	7.89%
Biens de consommation de base	Alimentation, boissons et tabac	6.29%
Technologies de l'information	Semi-conducteurs et équipement pour semi-conducteurs	5.71%

<i>Énergie</i>	<i>Pétrole, gaz et combustibles</i>	4.64%
<i>Obligations financières</i>	<i>Services financiers</i>	4.05%
<i>Technologies de l'information</i>	<i>Logiciels et services</i>	3.85%
<i>Obligations financières</i>	<i>Assurance</i>	3.79%
<i>Services aux collectivités</i>	<i>Services aux collectivités – électricité</i>	3.56%
<i>Services de communication</i>	<i>Télécommunications</i>	3.48%
<i>Biens de consommation de base</i>	<i>Distribution et vente au détail de biens de consommation de base</i>	2.83%
<i>Consommation discrétionnaire</i>	<i>Automobiles et composants</i>	2.65%
<i>Matériaux</i>	<i>Chimie</i>	2.58%
<i>Biens de consommation de base</i>	<i>Produits ménagers et personnels</i>	2.18%
<i>Services aux collectivités</i>	<i>Services multiples aux collectivités</i>	1.74%
<i>Consommation discrétionnaire</i>	<i>Distribution et vente au détail de biens de consommation discrétionnaires</i>	1.65%
<i>Matériaux</i>	<i>Matériaux de construction</i>	1.46%
<i>Industrie</i>	<i>Transport</i>	0.96%
<i>Liquidités</i>	<i>Liquidités</i>	1.56%

Aux fins d'observer la taxinomie de l'UE, les critères relatifs au **gaz fossile** incluent des limites aux émissions et

Dans quelle mesure les investissements durables ayant un objectif environnemental étaient-ils alignés sur la Taxinomie de l'UE ?

Le fonds promeut des caractéristiques tant environnementales que sociales. Si le fonds ne s'est pas engagé à réaliser des investissements alignés sur la Taxinomie de l'UE, au cours de la

le passage à une énergie entièrement renouvelable ou à des combustibles à faible teneur en carbone d'ici fin 2035. Pour **l'énergie nucléaire**, les critères incluent des règles exhaustives de sécurité et de gestion des déchets.

Les activités habilitantes permettent directement à d'autres activités de contribuer de manière substantielle à la réalisation d'un objectif environnemental.

Les activités transitoires sont des activités pour lesquelles il n'existe pas encore de solution de remplacement sobre en carbone et, entre autres, dont les niveaux d'émission de gaz à effet de serre correspondent aux meilleures performances réalisables.

Les activités alignées sur la taxinomie sont exprimées en pourcentage :

- **du chiffre d'affaires** pour refléter la part des revenus provenant des activités vertes des sociétés bénéficiaires d'investissements ;
- **des dépenses d'investissement (CapEx)** pour montrer les investissements verts réalisés par les sociétés bénéficiaires d'investissements, pour une transition vers une économie verte, par exemple ; et
- **des dépenses d'exploitation (OpEx)** pour refléter les activités opérationnelles vertes des sociétés bénéficiaires d'investissements.

période sous revue, il a cependant investi 2.67% dans des investissements durables alignés sur la Taxinomie de l'UE. De tels investissements ont contribué à l'obligation relative au changement climatique ou aux objectifs de réduction du changement climatique de la Taxinomie de l'UE.

L'alignement des sociétés bénéficiaires des investissements sur les objectifs de la taxinomie de l'UE susmentionnés est évalué à l'aide du chiffre d'affaires (ou des revenus) et/ou des données d'utilisation des produits des obligations vertes.

Le pourcentage communiqué d'alignement des investissements du fonds sur la Taxinomie de l'UE n'a pas été audité par le réviseur d'entreprises agréé du fonds ni par aucun tiers.

● **Le produit financier a-t-il investi dans des activités liées au gaz fossile et/ou à l'énergie nucléaire qui sont conformes à la Taxinomie de l'UE¹ ?**

☐ Oui :

☐

Dans le gaz fossile

☐

Dans l'énergie nucléaire

☒ Non

Aucune donnée fiable concernant l'alignement sur les activités de gaz fossile et d'énergie nucléaire conformes à la Taxinomie de l'UE n'était disponible sur la période.

¹ Les activités liées au gaz fossile et/ou à l'énergie nucléaire ne seront conformes à la Taxinomie de l'UE que si elles contribuent à limiter le changement climatique (« réduction du changement climatique ») et ne causent pas de préjudice important à tout objectif de la Taxinomie de l'UE. L'intégralité des critères relatifs aux activités économiques liées au gaz fossile et à l'énergie nucléaire conformes à la Taxinomie de l'UE sont définis dans le Règlement délégué (UE) 2022/1214 de la Commission.

Les graphiques ci-dessous font apparaître en vert le pourcentage d'investissements alignés sur la Taxinomie de l'UE. Étant donné qu'il n'existe pas de méthodologie appropriée pour déterminer l'alignement des obligations souveraines* sur la taxinomie, le premier graphique montre l'alignement sur la Taxinomie par rapport à tous les investissements du produit financier, y compris les obligations souveraines, tandis que le deuxième graphique représente l'alignement sur la Taxinomie uniquement par rapport aux investissements du produit financier autres que les obligations souveraines.

* Aux fins de ces graphiques, les « obligations souveraines » comprennent toutes les expositions souveraines

● **Quelle était la part d'investissements dans les activités transitoires et habilitantes ?**

Au 30/06/2024, en utilisant le chiffre d'affaires et/ou les données d'utilisation des produits des obligations vertes comme indicateur, la part d'investissements du fonds dans les activités transitoires était de 0.02% et la part d'investissements dans les activités habilitantes était de 2.78%. Le pourcentage communiqué d'alignement des investissements du fonds sur la Taxinomie de l'UE n'a pas été audité par le réviseur d'entreprises agréé du fonds ni par aucun tiers.

● **Comment se situe le pourcentage d'investissements alignés sur la Taxinomie de l'UE par rapport aux périodes de référence antérieures ?**

C'est le premier rapport périodique SFDR produit pour ce compartiment.

Quelle était la part des investissements durables ayant un objectif environnemental qui n'étaient pas alignés sur la Taxinomie de l'UE ?

La part des investissements durables ayant un objectif environnemental et non alignés sur la taxinomie était de **54.21%** à la fin de la période.

Cela tient du fait que certains émetteurs sont considérés comme investissements durables en vertu du Règlement SFDR mais qu'une portion de leurs activités n'est pas alignée sur les standards de la taxinomie de l'UE, ou que les données correspondantes ne sont pas encore disponibles en vue d'une évaluation relative à la taxinomie de l'UE.

Quelle était la part d'investissements durables sur le plan social ?

La proportion des investissements durables sur le plan social était de 13.28% à la fin de la période.

Quels investissements étaient inclus dans la catégorie « Autres », quelle était leur finalité et existait-il des garanties environnementales ou sociales minimales ?

Sont inclus dans la catégorie « N° 2 Autres » les liquidités et les instruments aux fins de gestion de la liquidité et des risques du portefeuille. Cette catégorie peut également inclure les titres sans notation ESG pour lesquels les données nécessaires à l'évaluation de la réalisation des caractéristiques environnementales ou sociales ne sont pas disponibles.

Quelles mesures ont-elles été prises pour réaliser les caractéristiques environnementales et/ou sociales au cours de la période de référence ?

Des indicateurs de durabilité sont mis à disposition de manière continue dans le système de gestion du portefeuille pour permettre aux gestionnaires du portefeuille d'évaluer l'impact de leurs décisions d'investissement.

Ces indicateurs sont intégrés au cadre de contrôle d'AMUNDI, en répartissant les responsabilités entre le premier niveau de contrôles réalisés par les équipes Investissement elles-mêmes, et le second niveau de contrôles réalisé par les équipes Risque, qui surveillent la conformité aux caractéristiques environnementales ou sociales promues en permanence par le fonds.

En outre, la Politique d'investissement responsable d'AMUNDI définit une approche active en matière d'engagement qui promeut le dialogue avec les sociétés bénéficiaires des investissements, y compris celles qui sont incluses dans le portefeuille de ce produit. Notre Rapport annuel en matière d'engagement, disponible à la page <https://about.amundi.com/esg-documentation>, fournit des informations détaillées sur cet engagement et ses résultats.

Quelles ont été les performances de ce produit financier par rapport à l'indice de référence ?

Un indice de référence est un indice qui sert à mesurer si le produit financier réalise les caractéristiques environnementales et/ou sociales qu'il promeut.

Ce produit ne dispose pas d'un Indice de référence ESG.

- ***En quoi l'indice de référence diffère-t-il de l'indice de marché large ?***

Ce produit ne dispose pas d'un Indice de référence ESG.

- ***Quelles ont été les performances de ce produit financier par rapport aux indicateurs de durabilité pour déterminer l'alignement de l'indice de référence sur les caractéristiques environnementales ou sociales promues ?***

Ce produit ne dispose pas d'un Indice de référence ESG.

- ***Quelle a été la performance de ce produit financier par rapport à l'indice de référence ?***

Ce produit ne dispose pas d'un Indice de référence ESG.

- ***Quelle a été la performance de ce produit financier par rapport à l'indice de marché large ?***

Ce produit ne dispose pas d'un Indice de référence ESG.

Informations périodiques pour les produits financiers visés à l'Article 8, paragraphes 1, 2 et 2a, du Règlement (UE) 2019/2088 et à l'Article 6, premier paragraphe du Règlement (UE) 2020/852

Dénomination du produit : AMUNDI FUNDS
EUROPEAN EQUITY GREEN TECHNOLOGY

Identifiant d'entité juridique :
222100XI0NWGMJQ5D49

Par investissement durable, on entend un investissement dans une activité économique qui contribue à un objectif environnemental ou social, pour autant qu'il ne cause de préjudice important à aucun de ces objectifs et que les sociétés détenues respectent les pratiques de bonne gouvernance.

La **Taxinomie de l'UE** est un système de classification institué par le Règlement (UE) 2020/852, qui dresse une liste d'**activités économiques durables sur le plan environnemental**. Ce règlement ne comprend pas de liste d'activités économiques durables sur le plan social. Les investissements durables ayant un objectif environnemental ne sont pas nécessairement alignés sur la taxinomie.

Caractéristiques environnementales et/ou sociales

Le produit financier avait-il un objectif d'investissement durable ?

☒ ☐ **Oui** ☒ ☐ **X Non**

☐ Il a réalisé des investissements durables ayant un objectif environnemental : _____ ☐ dans des activités économiques qui sont considérées comme durables sur le plan environnemental au titre de la Taxinomie de l'UE ☐ dans des activités économiques qui ne sont pas considérées comme durables sur le plan environnemental au titre de la Taxinomie de l'UE ☐ Il a réalisé des investissements durables ayant un objectif social : _____	☒ Il a promu des caractéristiques environnementales/sociales (E/S) et, bien qu'il n'ait pas eu pour objectif l'investissement durable, il contenait une proportion d'investissements durables de 83.85% ☐ ayant un objectif environnemental dans des activités économiques qui sont considérées comme durables sur le plan environnemental au titre de la Taxinomie de l'UE ☒ ayant un objectif environnemental dans des activités économiques qui ne sont pas considérées comme durables sur le plan environnemental au titre de la Taxinomie de l'UE ☐ ayant un objectif social ☐ Il a promu des caractéristiques E/S, mais n'a pas réalisé d'investissements durables
---	---

Dans quelle mesure les caractéristiques environnementales et/ou sociales promues par ce produit financier ont-elles été réalisées ?

Au cours de l'exercice financier, le produit n'a cessé de promouvoir les caractéristiques environnementales et/ou sociales en cherchant à atteindre une note ESG supérieure à celle de son univers d'investissement **MSCI Europe (dividends reinvested) Index**. Pour déterminer la note ESG du Produit et de l'univers d'investissement ESG, la performance ESG a été évaluée de manière continue en comparant la performance moyenne d'un titre par rapport au secteur de l'émetteur du titre, pour chacune des trois caractéristiques, à savoir environnementale, sociale et de gouvernance.

L'univers d'investissement est un univers de marché large qui n'évalue ni n'inclut pas de composantes en fonction de caractéristiques environnementales et/ou sociales, et qui n'a par conséquent pas pour vocation d'être conforme aux caractéristiques promues par le fonds. Aucun indice de référence ESG n'a été désigné.

Les indicateurs de durabilité évaluent la mesure dans laquelle les caractéristiques environnementales ou sociales promues par le produit financier sont atteintes.

● **Quelle performance ont affiché les indicateurs de durabilité ?**

Amundi a développé son propre processus de notation ESG interne, qui suit une approche « Best-in-class ». Les notations adaptées à chaque secteur d'activité ont pour objectif d'évaluer la dynamique dans laquelle interviennent les entreprises.

L'indicateur de durabilité employé est la note ESG du Produit mesurée en comparaison avec la note ESG de l'univers d'investissement ESG du Produit.

À la fin de la période :

- La note ESG moyenne pondérée du portefeuille est **1.188 (C)**.
- La note ESG moyenne pondérée de l'univers d'investissement ESG est **0.77 (C)**.

La notation ESG Amundi utilisée pour déterminer la note ESG est une note ESG quantitative qui se décline en sept niveaux allant de A (les meilleures notes de l'univers) à G (les pires notes). Sur l'échelle de notation ESG d'Amundi, les titres figurant sur la liste d'exclusion correspondent à G. Pour les entreprises émettrices, la performance ESG est évaluée de manière globale et au niveau des critères pertinents par comparaison avec la performance moyenne du secteur, en combinant les trois dimensions ESG :

- Dimension environnementale : cette dimension examine la capacité des émetteurs à contrôler leur impact environnemental direct et indirect, en limitant leur consommation d'énergie, en réduisant leurs émissions de gaz à effet de serre, en luttant contre l'appauvrissement des ressources et en protégeant la biodiversité.
- Dimension sociale : cette dimension évalue le fonctionnement d'un émetteur dans deux domaines différents, à savoir sa stratégie de développement du capital humain et le respect des droits humains en général.
- Dimension de gouvernance : cette dimension évalue la capacité de l'émetteur à garantir les fondements d'un cadre de gouvernance d'entreprise efficace et à générer de la valeur sur le long terme.

La méthodologie appliquée par la notation ESG d'Amundi utilise 38 critères qui sont soit génériques (communs à toutes les entreprises, indépendamment de leur activité) soit spécifiques au secteur, et qui sont pondérés en fonction du secteur et considérés en termes d'impact sur la réputation, l'efficacité opérationnelle et les réglementations concernant un émetteur. Les notations ESG d'Amundi sont susceptibles d'être exprimées de manière globale pour les trois dimensions E, S et G, ou individuellement pour tout facteur environnemental ou social.

● **... et par rapport aux périodes antérieures ?**

À la fin de la période précédente, la note ESG moyenne pondérée du portefeuille était de 1.13 (C) et la note ESG moyenne pondérée de l'univers d'investissement ESG était de 0.76 (C).

● **Quels étaient les objectifs des investissements durables que le produit financier entendait partiellement réaliser, et comment l'investissement durable a-t-il contribué à ces objectifs ?**

Les objectifs des investissements durables sont d'investir dans des sociétés détenues qui cherchent à respecter deux critères :

1. suivre les bonnes pratiques environnementales et sociales ; et
2. éviter de fabriquer des produits ou de fournir des services qui nuisent à l'environnement et à la société.

Pour que la société bénéficiaire des investissements soit réputée contribuer à l'objectif susmentionné, elle doit figurer parmi les « meilleures performances » de son secteur d'activité pour au moins l'un de ses facteurs environnementaux ou sociaux importants.

La définition de « meilleures performances » repose sur la méthode ESG exclusive d'Amundi, dont l'objectif est de mesurer la performance ESG d'une société bénéficiaire des investissements. Pour être considérée comme l'une des « meilleures performances », une société bénéficiaire des investissements doit afficher l'une des trois premières notes (A, B ou C, sur une échelle de notation allant de A à G) dans son secteur pour au moins un facteur environnemental ou social important. Les facteurs environnementaux et sociaux sont identifiés à l'échelle des secteurs. L'identification des facteurs importants est basée sur le cadre d'analyse ESG d'Amundi qui combine des données extra-financières et une analyse qualitative du secteur associé et des questions de durabilité. Les facteurs identifiés comme importants représentent plus de 10 % de la note ESG globale. Par exemple pour le secteur de

l'énergie, les facteurs importants sont les suivants : émissions et énergie, biodiversité et pollution, santé et sécurité, communautés locales et droits humains. Pour un aperçu plus complet des secteurs et des facteurs, veuillez consulter la Déclaration réglementaire ESG d'Amundi disponible sur www.amundi.lu

Pour contribuer aux objectifs ci-dessus, la société bénéficiaire des investissements ne doit pas avoir d'exposition significative aux activités (par ex. tabac, armes, jeux de hasard, charbon, aviation, production de viande, fabrication d'engrais et de pesticides, production de plastique à usage unique) incompatibles avec ces critères.

Le caractère durable d'un investissement est évalué au niveau de la société bénéficiaire des investissements.

● ***Dans quelle mesure les investissements durables que le produit financier a partiellement réalisés n'ont-ils pas causé de préjudice important à un objectif d'investissement durable sur le plan environnemental ou social ?***

Pour s'assurer que les investissements durables ne causent pas de préjudice important (principe « Do no significant harm » ou « DNSH » en anglais), Amundi utilise deux filtres :

Le premier filtre de DNSH repose sur le contrôle des indicateurs obligatoires des Principales incidences négatives de l'Annexe 1, Tableau 1 des normes techniques réglementaires (RTS) lorsqu'il existe des données fiables (par ex. Intensité des GES des sociétés bénéficiaires des investissements) via une combinaison d'indicateurs (par ex. intensité carbone) et des seuils ou règles spécifiques (par ex. que l'intensité carbone de la société bénéficiaire des investissements n'appartient pas au dernier décile du secteur).

Dans sa politique d'exclusion qui fait partie intégrante de sa Politique d'investissement responsable, Amundi tient d'ores et déjà compte de Principales incidences négatives spécifiques. Ces exclusions, qui s'appliquent en sus des tests détaillés ci-dessus, couvrent les sujets suivants : exclusions sur les armes controversées, les violations des principes du Pacte mondial des Nations Unies, le charbon et le tabac.

Au-delà des facteurs de durabilité spécifiques couverts par le premier filtre, Amundi a défini un second filtre, qui ne tient pas compte des indicateurs obligatoires des Principales incidences négatives ci-dessus, afin de vérifier que la société n'affiche pas de mauvaises performances d'un point de vue environnemental ou social global par rapport aux autres entreprises de son secteur, ce qui correspond à un score environnemental ou social supérieur ou égal à E selon la notation ESG d'Amundi.

- ***Comment les indicateurs concernant les incidences négatives sur les facteurs de durabilité ont-ils été pris en considération ?***

Les indicateurs d'incidences négatives ont été pris en compte comme détaillé dans le premier filtre DNSH ci-dessus.

Le premier filtre DNSH repose sur le contrôle des indicateurs obligatoires des Principales incidences négatives de l'Annexe 1, Tableau 1 du Règlement délégué (UE) 2022/1288 lorsqu'il existe des données fiables via la combinaison des indicateurs suivants et de seuils ou règles spécifiques :

- une intensité en CO2 qui n'appartient pas au dernier décile par rapport aux autres entreprises du secteur (ne s'applique qu'aux secteurs à forte intensité) ;
- un Conseil d'administration dont le niveau de diversité n'appartient pas au dernier décile par rapport aux autres sociétés du secteur ;
- ne pas faire l'objet de controverse relative aux conditions de travail et aux droits humains ; et
- ne pas faire l'objet de controverse relative à la biodiversité et à la pollution.

Dans sa politique d'exclusion qui fait partie intégrante de sa Politique d'investissement responsable, Amundi tient d'ores et déjà compte de Principales incidences négatives spécifiques. Ces exclusions, qui s'appliquent en sus des tests détaillés ci-dessus, couvrent les sujets suivants : exclusions sur les armes controversées, les violations des principes du Pacte mondial des Nations Unies, le charbon et le tabac.

- ***Les investissements durables étaient-ils conformes aux Principes directeurs de l'OCDE à l'intention des entreprises multinationales et aux Principes directeurs des Nations unies relatifs aux entreprises et aux droits humains ? Description détaillée :***

Oui, les Principes directeurs de l'OCDE à l'intention des entreprises multinationales et les Principes directeurs des Nations unies relatifs aux entreprises et aux droits humains sont intégrés à notre méthode de notation ESG. Notre outil de notation ESG exclusif évalue les

Les principales incidences négatives correspondent aux incidences négatives les plus significatives des décisions d'investissement sur les facteurs de durabilité liés aux questions environnementales, sociales et de personnel, au respect des droits humains et à la lutte contre la corruption et les actes de corruption.

émetteurs à l'aide des données disponibles auprès de nos fournisseurs de données. Par exemple, le modèle dispose d'un critère dédié appelé « Implication dans la communauté et droits humains » qui s'applique à tous les secteurs en plus d'autres critères liés aux droits humains, y compris les chaînes d'approvisionnement socialement responsables, les conditions de travail et les relations de travail. En outre, nous effectuons un contrôle des controverses au moins une fois par trimestre, y compris sur les entreprises identifiées pour des violations des droits humains. En cas de controverse, les analystes évaluent la situation, lui donnent une note (à l'aide de notre méthode de notation exclusive) et déterminent la marche à suivre. Les notes de controverse sont mises à jour chaque trimestre pour suivre les tendances et les efforts de correction.

La Taxinomie de l'UE définit un principe consistant à « ne pas causer de préjudice important » (« Do not significant harm » ou DNSH) en vertu duquel les investissements alignés sur la Taxinomie ne doivent pas causer de préjudice important aux objectifs de la Taxinomie de l'UE et s'accompagnent de critères de l'UE spécifiques.

Le principe consistant à « ne pas causer de préjudice important » ne s'applique qu'aux investissements sous-jacents du produit financier qui tiennent compte des critères de l'UE pour les activités économiques durables sur le plan environnemental. Les investissements sous-jacents de la portion restante de ce produit financier ne tiennent pas compte des critères de l'UE en matière d'activités économiques durables sur le plan environnemental.

Tout autre investissement durable doit également se conformer au principe consistant à ne pas causer de préjudice important aux objectifs environnementaux ou sociaux.

Dans quelle mesure ce produit financier a-t-il pris en considération les principales incidences négatives sur les facteurs de durabilité ?

Le produit tient compte de toutes les Principales incidences négatives obligatoires en vertu de l'Annexe 1, Tableau 1 du Règlement délégué (UE) 2022/1288 applicables à la stratégie du produit et s'appuie sur une combinaison de politiques d'exclusion (normatives et sectorielles) et d'approches d'engagement et de vote :

- Exclusion : Amundi a défini des règles d'exclusion normatives, basées sur l'activité et les secteurs, qui couvrent certains des principaux indicateurs négatifs de durabilité énumérés par le Règlement Disclosure (sur la publication d'informations).
- Engagement : L'engagement est un processus continu et ciblé qui vise à influencer les activités ou le comportement des sociétés bénéficiaires des investissements. L'objectif des activités d'engagement peut se diviser en deux catégories : impliquer un émetteur pour améliorer la manière dont il intègre la dimension environnementale et sociale ou impliquer un émetteur pour améliorer son impact sur les questions environnementales, sociales et liées aux droits humains ou d'autres questions de durabilité qui sont importantes pour la société au sens large et l'économie mondiale.
- Vote : La politique de vote d'Amundi répond à une analyse globale de toutes les questions à long terme qui peuvent influencer la création de valeur, y compris les questions ESG importantes. pour plus d'informations, veuillez consulter la Politique de vote d'Amundi.
- Surveillance des controverses : Amundi a développé un système de suivi des controverses qui s'appuie sur trois fournisseurs de données externes pour suivre systématiquement l'évolution des controverses et leur niveau de gravité. Cette approche quantitative est ensuite enrichie d'une évaluation approfondie de chaque controverse grave, menée par des analystes ESG, puis d'un examen périodique de son évolution. Cette approche s'applique à tous les fonds d'Amundi.

Quels étaient les principaux investissements de ce produit financier ?

La liste inclut les investissements qui constituent la proportion la plus importante d'investissements du produit financier au cours de la période de référence, à savoir : du 01/07/2023 au 30/06/2024

Principaux investissements	Secteur	Sous-secteur	Pays	% des actifs
SAP SE / XETRA	Technologies de l'information	Logiciels et services	Allemagne	3.95%
FERROVIAL SE	Industrie	Biens d'équipement	Pays-Bas	3.65%

Aux fins d'observer la taxinomie de l'UE, les critères relatifs au **gaz fossile** incluent des limites aux émissions et le passage à une énergie entièrement renouvelable ou à des combustibles à faible teneur en carbone d'ici fin 2035. Pour **l'énergie nucléaire**, les critères incluent des règles exhaustives de sécurité et de gestion des déchets.

Les activités habilitantes permettent directement à d'autres activités de contribuer de manière substantielle à la réalisation d'un objectif environnemental.

Les activités transitoires sont des activités pour

Dans quelle mesure les investissements durables ayant un objectif environnemental étaient-ils alignés sur la Taxinomie de l'UE ?

Le fonds promeut des caractéristiques tant environnementales que sociales. Si le fonds ne s'est pas engagé à réaliser des investissements alignés sur la Taxinomie de l'UE, au cours de la période sous revue, il a cependant investi 13.85% dans des investissements durables alignés sur la Taxinomie de l'UE. De tels investissements ont contribué à l'obligation relative au changement climatique ou aux objectifs de réduction du changement climatique de la Taxinomie de l'UE.

L'alignement des sociétés bénéficiaires des investissements sur les objectifs de la taxinomie de l'UE susmentionnés est évalué à l'aide du chiffre d'affaires (ou des revenus) et/ou des données d'utilisation des produits des obligations vertes.

Le pourcentage communiqué d'alignement des investissements du fonds sur la Taxinomie de l'UE n'a pas été audité par le réviseur d'entreprises agréé du fonds ni par aucun tiers.

● Le produit financier a-t-il investi dans des activités liées au gaz fossile et/ou à l'énergie nucléaire qui sont conformes à la Taxinomie de l'UE¹ ?

☐

Oui :

☐

Dans le gaz fossile

☐

Dans l'énergie nucléaire

☒

Non

lesquelles il n'existe pas encore de solution de remplacement sobre en carbone et, entre autres, dont les niveaux d'émission de gaz à effet de serre correspondent aux meilleures performances réalisables.

Les activités alignées sur la taxinomie sont exprimées en pourcentage :

- **du chiffre d'affaires** pour refléter la part des revenus provenant des activités vertes des sociétés bénéficiaires d'investissements ;
- **des dépenses d'investissement (CapEx)** pour montrer les investissements verts réalisés par les sociétés bénéficiaires d'investissements, pour une transition vers une économie verte, par exemple ; et
- **des dépenses d'exploitation (OpEx)** pour refléter les activités opérationnelles vertes des sociétés bénéficiaires d'investissements.

Aucune donnée fiable concernant l'alignement sur les activités de gaz fossile et d'énergie nucléaire conformes à la Taxinomie de l'UE n'était disponible sur la période.

¹ Les activités liées au gaz fossile et/ou à l'énergie nucléaire ne seront conformes à la Taxinomie de l'UE que si elles contribuent à limiter le changement climatique (« réduction du changement climatique ») et ne causent pas de préjudice important à tout objectif de la Taxinomie de l'UE. L'intégralité des critères relatifs aux activités économiques liées au gaz fossile et à l'énergie nucléaire conformes à la Taxinomie de l'UE sont définis dans le Règlement délégué (UE) 2022/1214 de la Commission.

Les graphiques ci-dessous font apparaître en vert le pourcentage d'investissements alignés sur la Taxinomie de l'UE. Étant donné qu'il n'existe pas de méthodologie appropriée pour déterminer l'alignement des obligations souveraines* sur la taxinomie, le premier graphique montre l'alignement sur la Taxinomie par rapport à tous les investissements du produit financier, y compris les obligations souveraines, tandis que le deuxième graphique représente l'alignement sur la Taxinomie uniquement par rapport aux investissements du produit financier autres que les obligations souveraines.

* Aux fins de ces graphiques, les « obligations souveraines » comprennent toutes les expositions souveraines

● Quelle était la part d'investissements dans les activités transitoires et habilitantes ?

Au 30/06/2024, en utilisant le chiffre d'affaires et/ou les données d'utilisation des produits des obligations vertes comme indicateur, la part d'investissements du fonds dans les activités transitoires était de 0.12% et la part d'investissements dans les activités habilitantes était de 9.43%. Le pourcentage communiqué d'alignement des investissements du fonds sur la Taxinomie de l'UE n'a pas été audité par le réviseur d'entreprises agréé du fonds ni par aucun tiers.

● Comment se situe le pourcentage d'investissements alignés sur la Taxinomie de l'UE par rapport aux périodes de référence antérieures ?

À la fin de la période précédente, le pourcentage d'investissements alignés sur la taxinomie était de 16.33%.

Quelle était la part des investissements durables ayant un objectif environnemental qui n'étaient pas alignés sur la Taxinomie de l'UE ?

La part des investissements durables ayant un objectif environnemental et non alignés sur la taxinomie était de **50.21%** à la fin de la période. Cela tient du fait que certains émetteurs sont considérés comme investissements durables en vertu du Règlement SFDR mais qu'une portion de leurs activités n'est pas alignée sur les standards de la taxinomie de l'UE, ou que les données correspondantes ne sont pas encore disponibles en vue d'une évaluation relative à la taxinomie de l'UE.

matière d'activités économiques durables sur le plan environnemental visés par le Règlement (UE) 2020/852.

Quelle était la part d'investissements durables sur le plan social ?

La proportion des investissements durables sur le plan social était de 19.79% à la fin de la période.

Quels investissements étaient inclus dans la catégorie « Autres », quelle était leur finalité et existait-il des garanties environnementales ou sociales minimales ?

Sont inclus dans la catégorie « N° 2 Autres » les liquidités et autres instruments détenus aux fins de gestion de la liquidité et des risques du portefeuille. Pour les obligations et actions non notées, des garanties environnementales et sociales minimales ont été mises en place par le biais d'un filtrage des émetteurs en rapport aux activités controversées définies dans les principes du Pacte mondial des Nations unies.

Quelles mesures ont-elles été prises pour réaliser les caractéristiques environnementales et/ou sociales au cours de la période de référence ?

Des indicateurs de durabilité sont mis à disposition de manière continue dans le système de gestion du portefeuille pour permettre aux gestionnaires du portefeuille d'évaluer l'impact de leurs décisions d'investissement.

Ces indicateurs sont intégrés au cadre de contrôle d'AMUNDI, en répartissant les responsabilités entre le premier niveau de contrôles réalisés par les équipes Investissement elles-mêmes, et le second niveau de contrôles réalisé par les équipes Risque, qui surveillent la conformité aux caractéristiques environnementales ou sociales promues en permanence par le fonds.

En outre, la Politique d'investissement responsable d'AMUNDI définit une approche active en matière d'engagement qui promeut le dialogue avec les sociétés bénéficiaires des investissements, y compris celles qui sont incluses dans le portefeuille de ce produit. Notre Rapport annuel en matière d'engagement, disponible à la page <https://about.amundi.com/esg-documentation>, fournit des informations détaillées sur cet engagement et ses résultats.

Quelles ont été les performances de ce produit financier par rapport à l'indice de référence ?

Un indice de référence est un indice qui sert à mesurer si le produit financier réalise les caractéristiques environnementales et/ou sociales qu'il promeut.

Ce produit ne dispose pas d'un Indice de référence ESG.

● En quoi l'indice de référence diffère-t-il de l'indice de marché large ?

Ce produit ne dispose pas d'un Indice de référence ESG.

● Quelles ont été les performances de ce produit financier par rapport aux indicateurs de durabilité pour déterminer l'alignement de l'indice de référence sur les caractéristiques environnementales ou sociales promues ?

Ce produit ne dispose pas d'un Indice de référence ESG.

● Quelle a été la performance de ce produit financier par rapport à l'indice de référence ?

Ce produit ne dispose pas d'un Indice de référence ESG.

● Quelle a été la performance de ce produit financier par rapport à l'indice de marché large ?

Ce produit ne dispose pas d'un Indice de référence ESG.

Informations périodiques pour les produits financiers visés à l'Article 8, paragraphes 1, 2 et 2a, du Règlement (UE) 2019/2088 et à l'Article 6, premier paragraphe du Règlement (UE) 2020/852

Dénomination du produit : AMUNDI FUNDS
EUROPEAN EQUITY VALUE

Identifiant d'entité juridique :
549300240RQEGYGAX021

Par investissement durable, on entend un investissement dans une activité économique qui contribue à un objectif environnemental ou social, pour autant qu'il ne cause de préjudice important à aucun de ces objectifs et que les sociétés détenues respectent les pratiques de bonne gouvernance.

La Taxinomie de l'UE est un système de classification institué par le Règlement (UE) 2020/852, qui dresse une liste d'**activités économiques durables sur le plan environnemental**. Ce règlement ne comprend pas de liste d'activités économiques durables sur le plan social. Les investissements durables ayant un objectif environnemental ne sont pas nécessairement alignés sur la taxinomie.

Caractéristiques environnementales et/ou sociales

Le produit financier avait-il un objectif d'investissement durable ?	
☒ ☐ Oui	☒ ☐ Non
☐ Il a réalisé des investissements durables ayant un objectif environnemental : _____ ☐ dans des activités économiques qui sont considérées comme durables sur le plan environnemental au titre de la Taxinomie de l'UE ☐ dans des activités économiques qui ne sont pas considérées comme durables sur le plan environnemental au titre de la Taxinomie de l'UE	☒ Il a promu des caractéristiques environnementales/sociales (E/S) et, bien qu'il n'ait pas eu pour objectif l'investissement durable, il contenait une proportion d'investissements durables de 60.71% ☐ ayant un objectif environnemental dans des activités économiques qui sont considérées comme durables sur le plan environnemental au titre de la Taxinomie de l'UE ☒ ayant un objectif environnemental dans des activités économiques qui ne sont pas considérées comme durables sur le plan environnemental au titre de la Taxinomie de l'UE ☐ ayant un objectif social
☐ Il a réalisé des investissements durables ayant un objectif social : _____	☐ Il a promu des caractéristiques E/S, mais n'a pas réalisé d'investissements durables

Dans quelle mesure les caractéristiques environnementales et/ou sociales promues par ce produit financier ont-elles été réalisées ?

Au cours de l'exercice financier, le produit n'a cessé de promouvoir les caractéristiques environnementales et/ou sociales en cherchant à atteindre une note ESG supérieure à celle de son univers d'investissement **MSCI EUROPE VALUE**. Pour déterminer la note ESG du Produit et de l'univers d'investissement ESG, la performance ESG a été évaluée de manière continue en comparant la performance moyenne d'un titre par rapport au secteur de l'émetteur du titre, pour chacune des trois caractéristiques, à savoir environnementale, sociale et de gouvernance.

L'univers d'investissement est un univers de marché large qui n'évalue ni n'inclut pas de composantes en fonction de caractéristiques environnementales et/ou sociales, et qui n'a par conséquent pas pour vocation d'être conforme aux caractéristiques promues par le fonds. Aucun indice de référence ESG n'a été désigné.

Les indicateurs de durabilité

évaluent la mesure dans laquelle les caractéristiques environnementales ou sociales promues par le produit financier sont atteintes.

● *Quelle performance ont affiché les indicateurs de durabilité ?*

Amundi a développé son propre processus de notation ESG interne, qui suit une approche « Best-in-class ». Les notations adaptées à chaque secteur d'activité ont pour objectif d'évaluer la dynamique dans laquelle interviennent les entreprises.

L'indicateur de durabilité employé est la note ESG du Produit mesurée en comparaison avec la note ESG de l'univers d'investissement ESG du Produit.

À la fin de la période :

- La note ESG moyenne pondérée du portefeuille est **0.998 (C)**.
- La note ESG moyenne pondérée de l'univers d'investissement ESG est **0.712 (C)**.

La notation ESG Amundi utilisée pour déterminer la note ESG est une note ESG quantitative qui se décline en sept niveaux allant de A (les meilleures notes de l'univers) à G (les pires notes). Sur l'échelle de notation ESG d'Amundi, les titres figurant sur la liste d'exclusion correspondent à G. Pour les entreprises émettrices, la performance ESG est évaluée de manière globale et au niveau des critères pertinents par comparaison avec la performance moyenne du secteur, en combinant les trois dimensions ESG :

- Dimension environnementale : cette dimension examine la capacité des émetteurs à contrôler leur impact environnemental direct et indirect, en limitant leur consommation d'énergie, en réduisant leurs émissions de gaz à effet de serre, en luttant contre l'appauvrissement des ressources et en protégeant la biodiversité.
- Dimension sociale : cette dimension évalue le fonctionnement d'un émetteur dans deux domaines différents, à savoir sa stratégie de développement du capital humain et le respect des droits humains en général.
- Dimension de gouvernance : cette dimension évalue la capacité de l'émetteur à garantir les fondements d'un cadre de gouvernance d'entreprise efficace et à générer de la valeur sur le long terme.

La méthodologie appliquée par la notation ESG d'Amundi utilise 38 critères qui sont soit génériques (communs à toutes les entreprises, indépendamment de leur activité) soit spécifiques au secteur, et qui sont pondérés en fonction du secteur et considérés en termes d'impact sur la réputation, l'efficacité opérationnelle et les réglementations concernant un émetteur. Les notations ESG d'Amundi sont susceptibles d'être exprimées de manière globale pour les trois dimensions E, S et G, ou individuellement pour tout facteur environnemental ou social.

● *... et par rapport aux périodes antérieures ?*

À la fin de la période précédente, la note ESG moyenne pondérée du portefeuille était de 1.03 (C) et la note ESG moyenne pondérée de l'univers d'investissement ESG était de 0.70 (C).

● *Quels étaient les objectifs des investissements durables que le produit financier entendait partiellement réaliser, et comment l'investissement durable a-t-il contribué à ces objectifs ?*

Les objectifs des investissements durables sont d'investir dans des sociétés détenues qui cherchent à respecter deux critères :

1. suivre les bonnes pratiques environnementales et sociales ; et
2. éviter de fabriquer des produits ou de fournir des services qui nuisent à l'environnement et à la société.

Pour que la société bénéficiaire d'investissements soit réputée contribuer à l'objectif susmentionné, elle doit figurer parmi les « meilleures performances » de son secteur d'activité pour au moins l'un de ses facteurs environnementaux ou sociaux importants.

La définition de « meilleures performances » repose sur la méthode ESG exclusive d'Amundi, dont l'objectif est de mesurer la performance ESG d'une société bénéficiaire d'investissements. Pour être considérée comme l'une des « meilleures performances », une société bénéficiaire d'investissements doit afficher l'une des trois premières notes (A, B ou C, sur une échelle de notation allant de A à G) dans son secteur pour au moins un facteur environnemental ou social important. Les facteurs environnementaux et sociaux sont identifiés à l'échelle des secteurs. L'identification des facteurs importants est basée sur le cadre d'analyse ESG d'Amundi qui combine des données extra-financières et une analyse qualitative du secteur associé et des questions de durabilité. Les facteurs identifiés comme importants représentent plus de 10 % de la note ESG globale. Par exemple pour le secteur de

l'énergie, les facteurs importants sont les suivants : émissions et énergie, biodiversité et pollution, santé et sécurité, communautés locales et droits humains. Pour un aperçu plus complet des secteurs et des facteurs, veuillez consulter la Déclaration réglementaire ESG d'Amundi disponible sur www.amundi.lu

Pour contribuer aux objectifs ci-dessus, la société bénéficiaire d'investissements ne doit pas avoir d'exposition significative aux activités (par ex. tabac, armes, jeux de hasard, charbon, aviation, production de viande, fabrication d'engrais et de pesticides, production de plastique à usage unique) incompatibles avec ces critères.

Le caractère durable d'un investissement est évalué au niveau de la société bénéficiaire d'investissements.

Les principales incidences négatives correspondent aux incidences négatives les plus significatives des décisions d'investissement sur les facteurs de durabilité liés aux questions environnementales, sociales et de personnel, au respect des droits humains et à la lutte contre la corruption et les actes de corruption.

● ***Dans quelle mesure les investissements durables que le produit financier a partiellement réalisés n'ont-ils pas causé de préjudice important à un objectif d'investissement durable sur le plan environnemental ou social ?***

Pour s'assurer que les investissements durables ne causent pas de préjudice important (principe « Do no significant harm » ou « DNSH » en anglais), Amundi utilise deux filtres :

Le premier filtre de DNSH repose sur le contrôle des indicateurs obligatoires des Principales incidences négatives de l'Annexe 1, Tableau 1 des normes techniques réglementaires (RTS) lorsqu'il existe des données fiables (par ex. Intensité des GES des sociétés bénéficiaire des investissements) via une combinaison d'indicateurs (par ex. intensité carbone) et des seuils ou règles spécifiques (par ex. que l'intensité carbone de la société bénéficiaire des investissements n'appartient pas au dernier décile du secteur).

Dans sa politique d'exclusion qui fait partie intégrante de sa Politique d'investissement responsable, Amundi tient d'ores et déjà compte de Principales incidences négatives spécifiques. Ces exclusions, qui s'appliquent en sus des tests détaillés ci-dessus, couvrent les sujets suivants : exclusions sur les armes controversées, les violations des principes du Pacte mondial des Nations Unies, le charbon et le tabac.

Au-delà des facteurs de durabilité spécifiques couverts par le premier filtre, Amundi a défini un second filtre, qui ne tient pas compte des indicateurs obligatoires des Principales incidences négatives ci-dessus, afin de vérifier que la société n'affiche pas de mauvaises performances d'un point de vue environnemental ou social global par rapport aux autres entreprises de son secteur, ce qui correspond à un score environnemental ou social supérieur ou égal à E selon la notation ESG d'Amundi.

- ***Comment les indicateurs concernant les incidences négatives sur les facteurs de durabilité ont-ils été pris en considération ?***

Les indicateurs d'incidences négatives ont été pris en compte comme détaillé dans le premier filtre DNSH ci-dessus.

Le premier filtre DNSH repose sur le contrôle des indicateurs obligatoires des Principales incidences négatives de l'Annexe 1, Tableau 1 du Règlement délégué (UE) 2022/1288 lorsqu'il existe des données fiables via la combinaison des indicateurs suivants et de seuils ou règles spécifiques :

- une intensité en CO2 qui n'appartient pas au dernier décile par rapport aux autres entreprises du secteur (ne s'applique qu'aux secteurs à forte intensité) ;
- un Conseil d'administration dont le niveau de diversité n'appartient pas au dernier décile par rapport aux autres sociétés du secteur ;
- ne pas faire l'objet de controverse relative aux conditions de travail et aux droits humains ; et
- ne pas faire l'objet de controverse relative à la biodiversité et à la pollution.

Dans sa politique d'exclusion qui fait partie intégrante de sa Politique d'investissement responsable, Amundi tient d'ores et déjà compte de Principales incidences négatives spécifiques. Ces exclusions, qui s'appliquent en sus des tests détaillés ci-dessus, couvrent les sujets suivants : exclusions sur les armes controversées, les violations des principes du Pacte mondial des Nations Unies, le charbon et le tabac.

- ***Les investissements durables étaient-ils conformes aux Principes directeurs de l'OCDE à l'intention des entreprises multinationales et aux Principes directeurs des Nations unies relatifs aux entreprises et aux droits humains ? Description détaillée :***

Oui, les Principes directeurs de l'OCDE à l'intention des entreprises multinationales et les Principes directeurs des Nations unies relatifs aux entreprises et aux droits humains sont intégrés à notre méthode de notation ESG. Notre outil de notation ESG exclusif évalue les

émetteurs à l'aide des données disponibles auprès de nos fournisseurs de données. Par exemple, le modèle dispose d'un critère dédié appelé « Implication dans la communauté et droits humains » qui s'applique à tous les secteurs en plus d'autres critères liés aux droits humains, y compris les chaînes d'approvisionnement socialement responsables, les conditions de travail et les relations de travail. En outre, nous effectuons un contrôle des controverses au moins une fois par trimestre, y compris sur les entreprises identifiées pour des violations des droits humains. En cas de controverse, les analystes évaluent la situation, lui donnent une note (à l'aide de notre méthode de notation exclusive) et déterminent la marche à suivre. Les notes de controverse sont mises à jour chaque trimestre pour suivre les tendances et les efforts de correction.

La Taxinomie de l'UE définit un principe consistant à « ne pas causer de préjudice important » (« Do not significant harm » ou DNSH) en vertu duquel les investissements alignés sur la Taxinomie ne doivent pas causer de préjudice important aux objectifs de la Taxinomie de l'UE et s'accompagnent de critères de l'UE spécifiques.

Le principe consistant à « ne pas causer de préjudice important » ne s'applique qu'aux investissements sous-jacents du produit financier qui tiennent compte des critères de l'UE pour les activités économiques durables sur le plan environnemental. Les investissements sous-jacents de la portion restante de ce produit financier ne tiennent pas compte des critères de l'UE en matière d'activités économiques durables sur le plan environnemental.

Tout autre investissement durable doit également se conformer au principe consistant à ne pas causer de préjudice important aux objectifs environnementaux ou sociaux.

Dans quelle mesure ce produit financier a-t-il pris en considération les principales incidences négatives sur les facteurs de durabilité ?

Le produit tient compte de toutes les Principales incidences négatives obligatoires en vertu de l'Annexe 1, Tableau 1 du Règlement délégué (UE) 2022/1288 applicables à la stratégie du produit et s'appuie sur une combinaison de politiques d'exclusion (normatives et sectorielles) et d'approches d'engagement et de vote :

- Exclusion : Amundi a défini des règles d'exclusion normatives, basées sur l'activité et les secteurs, qui couvrent certains des principaux indicateurs négatifs de durabilité énumérés par le Règlement Disclosure (sur la publication d'informations).
- Intégration des facteurs ESG : Amundi a adopté des normes d'intégration ESG minimales appliquées par défaut à ses fonds de type ouvert activement gérés (exclusion des émetteurs ayant la note G et meilleure note ESG moyenne pondérée supérieure à celle de l'indice de référence applicable). Les 38 critères employés dans la stratégie de notation ESG d'Amundi ont également été conçus pour tenir compte des principaux impacts sur les facteurs de durabilité, ainsi que de la qualité de la réduction entreprise en la matière.
- Engagement : L'engagement est un processus continu et ciblé qui vise à influencer les activités ou le comportement des sociétés bénéficiaires des investissements. L'objectif des activités d'engagement peut se diviser en deux catégories : impliquer un émetteur pour améliorer la manière dont il intègre la dimension environnementale et sociale ou impliquer un émetteur pour améliorer son impact sur les questions environnementales, sociales et liées aux droits humains ou d'autres questions de durabilité qui sont importantes pour la société au sens large et l'économie mondiale.
- Vote : La politique de vote d'Amundi répond à une analyse globale de toutes les questions à long terme qui peuvent influencer la création de valeur, y compris les questions ESG importantes. pour plus d'informations, veuillez consulter la Politique de vote d'Amundi.
- Surveillance des controverses : Amundi a développé un système de suivi des controverses qui s'appuie sur trois fournisseurs de données externes pour suivre systématiquement l'évolution des controverses et leur niveau de gravité. Cette approche quantitative est ensuite enrichie d'une évaluation approfondie de chaque controverse grave, menée par des analystes ESG, puis d'un examen périodique de son évolution. Cette approche s'applique à tous les fonds d'Amundi.

Pour de plus amples détails sur le mode de prise en compte des indicateurs relatifs aux Principales incidences négatives obligatoires, veuillez consulter la Déclaration sur la publication d'informations en matière de finance durable d'Amundi disponible sur www.amundi.com.

Quels étaient les principaux investissements de ce produit financier ?

La liste inclut les investissements qui constituent **la proportion la plus importante d'investissements** du produit financier au cours de la période de référence, à savoir : **du 01/07/2023 au 30/06/2024**

Principaux investissements	Secteur	Sous-secteur	Pays	% des actifs
ROCHE HLDG AG-GENUSS	Santé	Pharmacie, biotechnologie et sciences de la vie	Suisse	2.67%
SHELL PLC	Énergie	Pétrole, gaz et combustibles	Royaume-Uni	2.58%
HSBC HOLDING PLC GBP	Obligations financières	Banques	Royaume-Uni	2.58%
NOVARTIS AG- REG	Santé	Pharmacie, biotechnologie et sciences de la vie	Suisse	2.55%
DEUTSCHE TELEKOM NAM (XETRA)	Services de communication	Télécommunications	Allemagne	2.52%
MUENCHENER RUECKVER AG- REG	Obligations financières	Assurance	Allemagne	2.48%
ALLIANZ SE-REG	Obligations financières	Assurance	Allemagne	2.47%
SANDOZ GROUP AG	Santé	Pharmacie, biotechnologie et sciences de la vie	Suisse	2.46%

Quelle était la proportion d'investissements liés à la durabilité ?

Quelle était l'allocation d'actifs ?

L'allocation d'actifs décrit la part des investissements dans des actifs spécifiques.

La catégorie **N° 1 Alignés sur les caractéristiques E/S** inclut les investissements du produit financier utilisés pour atteindre les caractéristiques environnementales ou sociales promues par le produit financier.

La catégorie **N° 2 Autres** inclut les investissements restants du produit financier qui ne sont ni alignés sur les caractéristiques environnementales ou sociales ni considérés comme investissements durables.

La catégorie **N° 1 Alignés sur les caractéristiques E/S** comprend :

- la sous-catégorie **N° 1A Durables** couvrant les investissements durables sur le plan environnemental et social ;
- la sous-catégorie **N° 1B Autres caractéristiques E/S** couvrant les investissements alignés sur les caractéristiques environnementales ou sociales qui ne sont pas considérés comme des investissements durables.

● **Dans quels secteurs économiques ont été réalisés les investissements ?**

Secteur	Sous-secteur	% des actifs
Obligations financières	Banques	16.25%
Industrie	Biens d'équipement	11.77%
Santé	Pharmacie, biotechnologie et sciences de la vie	10.06%

Aux fins d'observer la taxinomie de l'UE, les critères relatifs au **gaz fossile** incluent des limites aux émissions et le passage à une énergie entièrement renouvelable ou à des combustibles à faible teneur en carbone d'ici fin 2035. Pour l'**énergie nucléaire**, les critères incluent des règles

Dans quelle mesure les investissements durables ayant un objectif environnemental étaient-ils alignés sur la Taxinomie de l'UE ?

Le fonds promeut des caractéristiques tant environnementales que sociales. Si le fonds ne s'est pas engagé à réaliser des investissements alignés sur la Taxinomie de l'UE, au cours de la période sous revue, il a cependant investi 0.25% dans des investissements durables alignés sur la Taxinomie de l'UE. De tels investissements ont contribué aux objectifs d'atténuation du changement climatique de la taxinomie de l'UE.

L'alignement des sociétés bénéficiaires des investissements sur les objectifs de la Taxinomie de l'UE susmentionnés est évalué à l'aide du chiffre d'affaires (ou des revenus) et/ou des données d'utilisation des produits des obligations vertes.

exhaustives de sécurité et de gestion des déchets.

Les activités habilitantes permettent directement à d'autres activités de contribuer de manière substantielle à la réalisation d'un objectif environnemental.

Les activités transitoires sont des activités pour lesquelles il n'existe pas encore de solution de remplacement sobre en carbone et, entre autres, dont les niveaux d'émission de gaz à effet de serre correspondent aux meilleures performances réalisables.

Les activités alignées sur la taxinomie sont exprimées en pourcentage :

- **du chiffre d'affaires** pour refléter la part des revenus provenant des activités vertes des sociétés bénéficiaires d'investissements ;
- **des dépenses d'investissement (CapEx)** pour montrer les investissements verts réalisés par les sociétés bénéficiaires d'investissements, pour une transition vers une économie verte, par exemple ;
- **des dépenses d'exploitation (OpEx)** pour refléter les activités opérationnelles vertes des sociétés bénéficiaires d'investissements.

Le pourcentage communiqué d'alignement des investissements du fonds sur la Taxinomie de l'UE n'a pas été audité par le réviseur d'entreprises agréé du fonds ni par aucun tiers.

- **Le produit financier a-t-il investi dans des activités liées au gaz fossile et/ou à l'énergie nucléaire qui sont conformes à la Taxinomie de l'UE¹ ?**

☐ Oui :

☐ Dans le gaz fossile

☐ Dans l'énergie nucléaire

☒ Non

Aucune donnée fiable concernant l'alignement sur les activités de gaz fossile et d'énergie nucléaire conformes à la Taxinomie de l'UE n'était disponible sur la période.

¹Les activités liées au gaz fossile et/ou à l'énergie nucléaire ne seront conformes à la Taxinomie de l'UE que si elles contribuent à limiter le changement climatique (« atténuation du changement climatique ») et ne causent pas de préjudice important à tout objectif de la Taxinomie de l'UE. L'intégralité des critères relatifs aux activités économiques liées au gaz fossile et à l'énergie nucléaire conformes à la Taxinomie de l'UE sont définis dans le Règlement délégué (UE) 2022/1214 de la Commission.

Les graphiques ci-dessous font apparaître en vert le pourcentage d'investissements alignés sur la Taxinomie de l'UE. Étant donné qu'il n'existe pas de méthodologie appropriée pour déterminer l'alignement des obligations souveraines* sur la taxinomie, le premier graphique montre l'alignement sur la Taxinomie par rapport à tous les investissements du produit financier, y compris les obligations souveraines, tandis que le deuxième graphique représente l'alignement sur la Taxinomie uniquement par rapport aux investissements du produit financier autres que les obligations souveraines.

* Aux fins de ces graphiques, les « obligations souveraines » comprennent toutes les expositions souveraines

- **Quelle était la part d'investissements dans les activités transitoires et habilitantes ?**

Au 30/06/2024, en utilisant le chiffre d'affaires et/ou les données d'utilisation des produits des obligations vertes comme indicateur, la part d'investissements du fonds dans les activités transitoires était de 0.10% et la part d'investissements dans les activités habilitantes était de 1.02%. Le pourcentage communiqué d'alignement des investissements du fonds sur la Taxinomie de l'UE n'a pas été audité par le réviseur d'entreprises agréé du fonds ni par aucun tiers.

● **Comment se situe le pourcentage d'investissements alignés sur la Taxinomie de l'UE par rapport aux périodes de référence antérieures ?**

À la fin de la période précédente, le pourcentage d'investissements alignés sur la taxinomie était de 5.74%.

sont des investissements durables ayant un objectif environnemental **qui ne tiennent pas compte des critères** en matière d'activités économiques durables sur le plan environnemental visés par le Règlement (UE) 2020/852.

Quelle était la part des investissements durables ayant un objectif environnemental qui n'étaient pas alignés sur la Taxinomie de l'UE ?

La part des investissements durables ayant un objectif environnemental et non alignés sur la taxinomie était de **58.02%** à la fin de la période.

Cela tient du fait que certains émetteurs sont considérés comme investissements durables en vertu du Règlement SFDR mais qu'une portion de leurs activités n'est pas alignée sur les standards de la taxinomie de l'UE, ou que les données correspondantes ne sont pas encore disponibles en vue d'une évaluation relative à la taxinomie de l'UE.

Quelle était la part d'investissements durables sur le plan social ?

La proportion des investissements durables sur le plan social était de 2.44% à la fin de la période.

Quels investissements étaient inclus dans la catégorie « Autres », quelle était leur finalité et existait-il des garanties environnementales ou sociales minimales ?

Sont inclus dans la catégorie « N° 2 Autres » les liquidités et autres instruments détenus aux fins de gestion de la liquidité et des risques du portefeuille. Pour les obligations et actions non notées, des garanties environnementales et sociales minimales ont été mises en place par le biais d'un filtrage des émetteurs en rapport aux activités controversées définies dans les principes du Pacte mondial des Nations unies. Elle peut également inclure des titres sans notation ESG pour lesquels les données nécessaires à la mesure de la réalisation des caractéristiques environnementales ou sociales ne sont pas disponibles.

Quelles mesures ont-elles été prises pour réaliser les caractéristiques environnementales et/ou sociales au cours de la période de référence ?

Des indicateurs de durabilité sont mis à disposition de manière continue dans le système de gestion du portefeuille pour permettre aux gestionnaires du portefeuille d'évaluer l'impact de leurs décisions d'investissement.

Ces indicateurs sont intégrés au cadre de contrôle d'AMUNDI, en répartissant les responsabilités entre le premier niveau de contrôles réalisés par les équipes Investissement elles-mêmes, et le second niveau de contrôles réalisé par les équipes Risque, qui surveillent la conformité aux caractéristiques environnementales ou sociales promues en permanence par le fonds.

En outre, la Politique d'investissement responsable d'AMUNDI définit une approche active en matière d'engagement qui promeut le dialogue avec les sociétés bénéficiaires des investissements, y compris celles qui sont incluses dans le portefeuille de ce produit. Notre Rapport annuel en matière d'engagement, disponible à la page <https://about.amundi.com/esg-documentation>, fournit des informations détaillées sur cet engagement et les résultats atteints.

Quelles ont été les performances de ce produit financier par rapport à l'indice de référence ?

Un indice de référence est un indice qui sert à mesurer si le produit financier réalise les caractéristiques environnementales et/ou sociales qu'il promeut.

Ce produit ne dispose pas d'un Indice de référence ESG.

- ***En quoi l'indice de référence diffère-t-il de l'indice de marché large ?***

Ce produit ne dispose pas d'un Indice de référence ESG.

- ***Quelles ont été les performances de ce produit financier par rapport aux indicateurs de durabilité pour déterminer l'alignement de l'indice de référence sur les caractéristiques environnementales ou sociales promues ?***

Ce produit ne dispose pas d'un Indice de référence ESG.

- ***Quelle a été la performance de ce produit financier par rapport à l'indice de référence ?***

Ce produit ne dispose pas d'un Indice de référence ESG.

- ***Quelle a été la performance de ce produit financier par rapport à l'indice de marché large ?***

Ce produit ne dispose pas d'un Indice de référence ESG.

Modèle d'informations périodiques pour les produits financiers visés à l'Article 8, paragraphes 1, 2 et 2a, du Règlement (UE) 2019/2088 et à l'Article 6, premier paragraphe du Règlement (UE) 2020/852

Dénomination du produit : AMUNDI FUNDS
EUROPEAN EQUITY INCOME ESG

Identifiant d'entité juridique :
549300L23KUMFUPDKS14

Par investissement durable, on entend un investissement dans une activité économique qui contribue à un objectif environnemental ou social, pour autant qu'il ne cause de préjudice important à aucun de ces objectifs et que les sociétés détenues respectent les pratiques de bonne gouvernance.

La **Taxinomie de l'UE** est un système de classification institué par le Règlement (UE) 2020/852, qui dresse une liste d'**activités économiques durables sur le plan environnemental**. Ce règlement ne comprend pas de liste d'activités économiques durables sur le plan social. Les investissements durables ayant un objectif environnemental ne sont pas nécessairement alignés sur la taxinomie.

Caractéristiques environnementales et/ou sociales

Le produit financier avait-il un objectif d'investissement durable ?

Oui

X

Non

Il a réalisé **des investissements durables ayant un objectif environnemental** : _____

dans des activités économiques qui sont considérées comme durables sur le plan environnemental au titre de la Taxinomie de l'UE

dans des activités économiques qui ne sont pas considérées comme durables sur le plan environnemental au titre de la Taxinomie de l'UE

Il a réalisé **des investissements durables ayant un objectif social** : _____

Il a promu des caractéristiques **environnementales/sociales (E/S)** et, bien qu'il n'ait pas eu pour objectif l'investissement durable, il contenait une proportion d'investissements durables de **77.50%**

ayant un objectif environnemental dans des activités économiques qui sont considérées comme durables sur le plan environnemental au titre de la Taxinomie de l'UE

ayant un objectif environnemental dans des activités économiques qui ne sont pas considérées comme durables sur le plan environnemental au titre de la Taxinomie de l'UE

ayant un objectif social

Il a promu des caractéristiques E/S, mais **n'a pas réalisé d'investissements durables**

Dans quelle mesure les caractéristiques environnementales et/ou sociales promues par ce produit financier ont-elles été réalisées ?

Au cours de l'exercice financier, le produit n'a cessé de promouvoir les caractéristiques environnementales et/ou sociales en cherchant à atteindre une note ESG supérieure à celle de son univers d'investissement **MSCI EUROPE (15)**. Pour déterminer la note ESG du Produit et de l'univers d'investissement ESG, la performance ESG a été évaluée de manière continue en comparant la performance moyenne d'un titre par rapport au secteur de l'émetteur du titre, pour chacune des trois caractéristiques, à savoir environnementale, sociale et de gouvernance.

L'univers d'investissement est un univers de marché large qui n'évalue ni n'inclut pas de composantes en fonction de caractéristiques environnementales et/ou sociales, et qui n'a par conséquent pas pour vocation d'être conforme aux caractéristiques promues par le fonds. Aucun indice de référence ESG n'a été désigné.

Les indicateurs de durabilité

évaluent la mesure dans laquelle les caractéristiques environnementales ou sociales promues par le produit financier sont atteintes.

● ***Quelle performance ont affiché les indicateurs de durabilité ?***

Amundi a développé son propre processus de notation ESG interne, qui suit une approche « Best-in-class ». Les notations adaptées à chaque secteur d'activité ont pour objectif d'évaluer la dynamique dans laquelle interviennent les entreprises.

L'indicateur de durabilité employé est la note ESG du Produit mesurée en comparaison avec la note ESG de l'univers d'investissement ESG du Produit.

À la fin de la période :

- La note ESG moyenne pondérée du portefeuille est **1.199 (C)**.
- La note ESG moyenne pondérée de l'univers d'investissement ESG est **0.798 (C)**.

La notation ESG Amundi utilisée pour déterminer la note ESG est une note ESG quantitative qui se décline en sept niveaux allant de A (les meilleures notes de l'univers) à G (les pires notes). Sur l'échelle de notation ESG d'Amundi, les titres figurant sur la liste d'exclusion correspondent à G. Pour les entreprises émettrices, la performance ESG est évaluée de manière globale et au niveau des critères pertinents par comparaison avec la performance moyenne du secteur, en combinant les trois dimensions ESG :

- Dimension environnementale : cette dimension examine la capacité des émetteurs à contrôler leur impact environnemental direct et indirect, en limitant leur consommation d'énergie, en réduisant leurs émissions de gaz à effet de serre, en luttant contre l'appauvrissement des ressources et en protégeant la biodiversité.
- Dimension sociale : cette dimension évalue le fonctionnement d'un émetteur dans deux domaines différents, à savoir sa stratégie de développement du capital humain et le respect des droits humains en général.
- Dimension de gouvernance : cette dimension évalue la capacité de l'émetteur à garantir les fondements d'un cadre de gouvernance d'entreprise efficace et à générer de la valeur sur le long terme.

La méthodologie appliquée par la notation ESG d'Amundi utilise 38 critères qui sont soit génériques (communs à toutes les entreprises, indépendamment de leur activité) soit spécifiques au secteur, et qui sont pondérés en fonction du secteur et considérés en termes d'impact sur la réputation, l'efficacité opérationnelle et les réglementations concernant un émetteur. Les notations ESG d'Amundi sont susceptibles d'être exprimées de manière globale pour les trois dimensions E, S et G, ou individuellement pour tout facteur environnemental ou social.

● ***... et par rapport aux périodes antérieures ?***

À la fin de la période précédente, la note ESG moyenne pondérée du portefeuille était de 1.13 (C) et la note ESG moyenne pondérée de l'univers d'investissement ESG était de 0.80 (C).

● ***Quels étaient les objectifs des investissements durables que le produit financier entendait partiellement réaliser, et comment l'investissement durable a-t-il contribué à ces objectifs ?***

Les objectifs des investissements durables sont d'investir dans des sociétés détenues qui cherchent à respecter deux critères :

1. suivre les bonnes pratiques environnementales et sociales ; et
2. éviter de fabriquer des produits ou de fournir des services qui nuisent à l'environnement et à la société.

Pour que la société bénéficiaire des investissements soit réputée contribuer à l'objectif susmentionné, elle doit figurer parmi les « meilleures performances » de son secteur d'activité pour au moins l'un de ses facteurs environnementaux ou sociaux importants.

La définition de « meilleures performances » repose sur la méthode ESG exclusive d'Amundi, dont l'objectif est de mesurer la performance ESG d'une société bénéficiaire des investissements. Pour être considérée comme l'une des « meilleures performances », une société bénéficiaire des investissements doit afficher l'une des trois premières notes (A, B ou C, sur une échelle de notation allant de A à G) dans son secteur pour au moins un facteur environnemental ou social important. Les facteurs environnementaux et sociaux sont identifiés à l'échelle des secteurs. L'identification des facteurs importants est basée sur le cadre d'analyse ESG d'Amundi qui combine des données extra-financières

et une analyse qualitative du secteur associé et des questions de durabilité. Les facteurs identifiés comme importants représentent plus de 10 % de la note ESG globale. Par exemple pour le secteur de l'énergie, les facteurs importants sont les suivants : émissions et énergie, biodiversité et pollution, santé et sécurité, communautés locales et droits humains. Pour un aperçu plus complet des secteurs et des facteurs, veuillez consulter la Déclaration réglementaire ESG d'Amundi disponible sur www.amundi.lu

Pour contribuer aux objectifs ci-dessus, la société bénéficiaire des investissements ne doit pas avoir d'exposition significative aux activités (par ex. tabac, armes, jeux de hasard, charbon, aviation, production de viande, fabrication d'engrais et de pesticides, production de plastique à usage unique) incompatibles avec ces critères.

Le caractère durable d'un investissement est évalué au niveau de la société bénéficiaire des investissements.

● ***Dans quelle mesure les investissements durables que le produit financier a partiellement réalisés n'ont-ils pas causé de préjudice important à un objectif d'investissement durable sur le plan environnemental ou social ?***

Pour s'assurer que les investissements durables ne causent pas de préjudice important (principe « Do no significant harm » ou « DNSH » en anglais), Amundi utilise deux filtres :

Le premier filtre de DNSH repose sur le contrôle des indicateurs obligatoires des Principales incidences négatives de l'Annexe 1, Tableau 1 des normes techniques réglementaires (RTS) lorsqu'il existe des données fiables (par ex. Intensité des GES des sociétés bénéficiaires des investissements) via une combinaison d'indicateurs (par ex. intensité carbone) et des seuils ou règles spécifiques (par ex. que l'intensité carbone de la société bénéficiaire des investissements n'appartient pas au dernier décile du secteur).

Dans sa politique d'exclusion qui fait partie intégrante de sa Politique d'investissement responsable, Amundi tient d'ores et déjà compte de Principales incidences négatives spécifiques. Ces exclusions, qui s'appliquent en sus des tests détaillés ci-dessus, couvrent les sujets suivants : exclusions sur les armes controversées, les violations des principes du Pacte mondial des Nations Unies, le charbon et le tabac.

Au-delà des facteurs de durabilité spécifiques couverts par le premier filtre, Amundi a défini un second filtre, qui ne tient pas compte des indicateurs obligatoires des Principales incidences négatives ci-dessus, afin de vérifier que la société n'affiche pas de mauvaises performances d'un point de vue environnemental ou social global par rapport aux autres entreprises de son secteur, ce qui correspond à un score environnemental ou social supérieur ou égal à E selon la notation ESG d'Amundi.

- ***Comment les indicateurs concernant les incidences négatives sur les facteurs de durabilité ont-ils été pris en considération ?***

Les indicateurs d'incidences négatives ont été pris en compte comme détaillé dans le premier filtre DNSH ci-dessus.

Le premier filtre DNSH repose sur le contrôle des indicateurs obligatoires des Principales incidences négatives de l'Annexe 1, Tableau 1 du Règlement délégué (UE) 2022/1288 lorsqu'il existe des données fiables via la combinaison des indicateurs suivants et de seuils ou règles spécifiques :

- une intensité en CO2 qui n'appartient pas au dernier décile par rapport aux autres entreprises du secteur (ne s'applique qu'aux secteurs à forte intensité) ;
- un Conseil d'administration dont le niveau de diversité n'appartient pas au dernier décile par rapport aux autres sociétés du secteur ;
- ne pas faire l'objet de controverse relative aux conditions de travail et aux droits humains ; et
- ne pas faire l'objet de controverse relative à la biodiversité et à la pollution.

Dans sa politique d'exclusion qui fait partie intégrante de sa Politique d'investissement responsable, Amundi tient d'ores et déjà compte de Principales incidences négatives spécifiques. Ces exclusions, qui s'appliquent en sus des tests détaillés ci-dessus, couvrent les sujets suivants : exclusions sur les armes controversées, les violations des principes du Pacte mondial des Nations Unies, le charbon et le tabac.

- ***Les investissements durables étaient-ils conformes aux Principes directeurs de l'OCDE à l'intention des entreprises multinationales et aux Principes directeurs des Nations unies relatifs aux entreprises et aux droits humains ? Description détaillée :***

Oui, les Principes directeurs de l'OCDE à l'intention des entreprises multinationales et les Principes directeurs des Nations unies relatifs aux entreprises et aux droits humains sont

Les principales incidences négatives

correspondent aux incidences négatives les plus significatives des décisions d'investissement sur les facteurs de durabilité liés aux questions environnementales, sociales et de personnel, au respect des droits humains et à la lutte contre la corruption et les actes de corruption.

intégrés à notre méthode de notation ESG. Notre outil de notation ESG exclusif évalue les émetteurs à l'aide des données disponibles auprès de nos fournisseurs de données. Par exemple, le modèle dispose d'un critère dédié appelé « Implication dans la communauté et droits humains » qui s'applique à tous les secteurs en plus d'autres critères liés aux droits humains, y compris les chaînes d'approvisionnement socialement responsables, les conditions de travail et les relations de travail. En outre, nous effectuons un contrôle des controverses au moins une fois par trimestre, y compris sur les entreprises identifiées pour des violations des droits humains. En cas de controverse, les analystes évaluent la situation, lui donnent une note (à l'aide de notre méthode de notation exclusive) et déterminent la marche à suivre. Les notes de controverse sont mises à jour chaque trimestre pour suivre les tendances et les efforts de correction.

La Taxinomie de l'UE définit un principe consistant à « ne pas causer de préjudice important » (« Do not significant harm » ou DNSH) en vertu duquel les investissements alignés sur la Taxinomie ne doivent pas causer de préjudice important aux objectifs de la Taxinomie de l'UE et s'accompagnent de critères de l'UE spécifiques.

Le principe consistant à « ne pas causer de préjudice important » ne s'applique qu'aux investissements sous-jacents du produit financier qui tiennent compte des critères de l'UE pour les activités économiques durables sur le plan environnemental. Les investissements sous-jacents de la portion restante de ce produit financier ne tiennent pas compte des critères de l'UE en matière d'activités économiques durables sur le plan environnemental.

Tout autre investissement durable doit également se conformer au principe consistant à ne pas causer de préjudice important aux objectifs environnementaux ou sociaux.

Dans quelle mesure ce produit financier a-t-il pris en considération les principales incidences négatives sur les facteurs de durabilité ?

Le produit tient compte de toutes les Principales incidences négatives obligatoires en vertu de l'Annexe 1, Tableau 1 du Règlement délégué (UE) 2022/1288 applicables à la stratégie du produit et s'appuie sur une combinaison de politiques d'exclusion (normatives et sectorielles) et d'approches d'engagement et de vote :

- Exclusion : Amundi a défini des règles d'exclusion normatives, basées sur l'activité et les secteurs, qui couvrent certains des principaux indicateurs négatifs de durabilité énumérés par le Règlement Disclosure (sur la publication d'informations).
- Intégration des facteurs ESG : Amundi a adopté des normes d'intégration ESG minimales appliquées par défaut à ses fonds de type ouvert activement gérés (exclusion des émetteurs ayant la note G et meilleure note ESG moyenne pondérée supérieure à celle de l'indice de référence applicable). Les 38 critères employés dans la stratégie de notation ESG d'Amundi ont également été conçus pour tenir compte des principaux impacts sur les facteurs de durabilité, ainsi que de la qualité de la réduction entreprise en la matière.
- Engagement : L'engagement est un processus continu et ciblé qui vise à influencer les activités ou le comportement des sociétés bénéficiaires des investissements. L'objectif des activités d'engagement peut se diviser en deux catégories : impliquer un émetteur pour améliorer la manière dont il intègre la dimension environnementale et sociale ou impliquer un émetteur pour améliorer son impact sur les questions environnementales, sociales et liées aux droits humains ou d'autres questions de durabilité qui sont importantes pour la société au sens large et l'économie mondiale.
- Vote : La politique de vote d'Amundi répond à une analyse globale de toutes les questions à long terme qui peuvent influencer la création de valeur, y compris les questions ESG importantes. pour plus d'informations, veuillez consulter la Politique de vote d'Amundi.
- Surveillance des controverses : Amundi a développé un système de suivi des controverses qui s'appuie sur trois fournisseurs de données externes pour suivre systématiquement l'évolution des controverses et leur niveau de gravité. Cette approche quantitative est ensuite enrichie d'une évaluation approfondie de chaque controverse grave, menée par des analystes ESG, puis d'un examen périodique de son évolution. Cette approche s'applique à tous les fonds d'Amundi.

Pour de plus amples détails sur le mode de prise en compte des indicateurs relatifs aux Principales incidences négatives obligatoires, veuillez consulter la Déclaration sur la publication d'informations en matière de finance durable d'Amundi disponible sur www.amundi.com.

Quels étaient les principaux investissements de ce produit financier ?

La liste inclut les investissements qui constituent la proportion la plus importante d'investissements du produit financier au cours de la période de référence, à savoir : du 01/07/2023 au 30/06/2024

Principaux investissements	Secteur	Sous-secteur	Pays	% des actifs
NOVO NORDISK A/S-B	Santé	Pharmacie, biotechnologie et sciences de la vie	Danemark	6.88%
NOVARTIS AGREG	Santé	Pharmacie, biotechnologie et sciences de la vie	Suisse	5.31%
HSBC HOLDING PLC GBP	Obligations financières	Banques	Royaume-Uni	4.12%
ENEL SPA	Services aux collectivités	Services aux collectivités – électricité	Italie	3.47%
CRH PLC UK	Matériaux	Matériaux de construction	Irlande	3.46%
COMPAGNIE DE SAINT GOBAIN	Industrie	Biens d'équipement	France	3.46%
RELX PLC	Industrie	Services commerciaux et professionnels	Royaume-Uni	3.45%

HANNOVER RUECK SE	Obligations financières	Assurance	Luxembourg	3.00%
MICHELIN (CGDE)	Consommation discrétionnaire	Automobiles et composants	France	2.80%
BE SEMICONDUCTOR INDUSTRIES	Technologies de l'information	Semi-conducteurs et équipement pour semi-conducteurs	Pays-Bas	2.79%
VINCI SA (PARIS)	Industrie	Biens d'équipement	France	2.78%
DANONE	Biens de consommation de base	Alimentation, boissons et tabac	France	2.73%

Quelle était la proportion d'investissements liés à la durabilité ?

● Quelle était l'allocation d'actifs ?

L'allocation d'actifs décrit la part des investissements dans des actifs spécifiques.

La catégorie **N° 1 Alignés sur les caractéristiques E/S** inclut les investissements du produit financier utilisés pour atteindre les caractéristiques environnementales ou sociales promues par le produit financier.

La catégorie **N° 2 Autres** inclut les investissements restants du produit financier qui ne sont ni alignés sur les caractéristiques environnementales ou sociales ni considérés comme investissements durables.

La catégorie **N° 1 Alignés sur les caractéristiques E/S** comprend :

- la sous-catégorie **N° 1A Durables** couvrant les investissements durables sur le plan environnemental et social ;
- la sous-catégorie **N° 1B Autres caractéristiques E/S** couvrant les investissements alignés sur les caractéristiques environnementales ou sociales qui ne sont pas considérés comme des investissements durables.

● Dans quels secteurs économiques ont été réalisés les investissements ?

Secteur	Sous-secteur	% des actifs
Santé	Pharmacie, biotechnologie et sciences de la vie	15.78%
Industrie	Biens d'équipement	14.05%
Obligations financières	Banques	11.23%
Obligations financières	Assurance	7.32%
Services aux collectivités	Services aux collectivités – électricité	6.86%
Consommation discrétionnaire	Automobiles et composants	6.19%

<i>Biens de consommation de base</i>	<i>Alimentation, boissons et tabac</i>	5.42%
<i>Énergie</i>	<i>Pétrole, gaz et combustibles</i>	5.42%

<i>Services de communication</i>	<i>Télécommunications</i>	4.45%
<i>Matériaux</i>	<i>Matériaux de construction</i>	3.46%
<i>Industrie</i>	<i>Services commerciaux et professionnels</i>	3.45%
<i>Biens de consommation de base</i>	<i>Distribution et vente au détail de biens de consommation de base</i>	2.62%
<i>Technologies de l'information</i>	<i>Logiciels et services</i>	2.28%
<i>Obligations financières</i>	<i>Services financiers</i>	1.90%
<i>Matériaux</i>	<i>Conteneurs et emballage</i>	1.61%
<i>Immobilier</i>	<i>Gestion et promotion immobilière</i>	0.84%
<i>Santé</i>	<i>Matériel et services de santé</i>	0.63%
<i>Forex</i>	<i>Forex</i>	-0.11%
<i>Liquidités</i>	<i>Liquidités</i>	1.34%

Aux fins d'observer la taxinomie de l'UE, les critères relatifs au **gaz fossile** incluent des limites aux émissions et le passage à une énergie entièrement renouvelable ou à des combustibles

Dans quelle mesure les investissements durables ayant un objectif environnemental étaient-ils alignés sur la Taxinomie de l'UE ?

Le fonds promeut des caractéristiques tant environnementales que sociales. Si le fonds ne s'est pas engagé à réaliser des investissements alignés sur la Taxinomie de l'UE, au cours de la période sous revue, il a cependant investi 1.21% dans des investissements durables alignés sur la Taxinomie de l'UE. De tels investissements ont contribué aux objectifs d'atténuation du changement climatique de la taxinomie de l'UE.

à faible teneur en carbone d'ici fin 2035. Pour l'énergie nucléaire, les critères incluent des règles exhaustives de sécurité et de gestion des déchets.

Les activités habilitantes permettent directement à d'autres activités de contribuer de manière substantielle à la réalisation d'un objectif environnemental.

Les activités transitoires sont des activités pour lesquelles il n'existe pas encore de solution de remplacement sobre en carbone et, entre autres, dont les niveaux d'émission de gaz à effet de serre correspondent aux meilleures performances réalisables.

Les activités alignées sur la taxinomie sont exprimées en pourcentage :

- du chiffre d'affaires pour refléter la part des revenus provenant des activités vertes des sociétés bénéficiaires d'investissements ;
- des dépenses d'investissement (CapEx) pour montrer les investissements verts réalisés par les sociétés bénéficiaires d'investissements, pour une transition vers une économie verte, par exemple ; et
- des dépenses d'exploitation (OpEx) pour refléter les activités opérationnelles vertes des sociétés bénéficiaires d'investissements.

L'alignement des sociétés bénéficiaires des investissements sur les objectifs de la taxinomie de l'UE susmentionnés est évalué à l'aide du chiffre d'affaires (ou des revenus) et/ou des données d'utilisation des produits des obligations vertes.

Le pourcentage communiqué d'alignement des investissements du fonds sur la Taxinomie de l'UE n'a pas été audité par le réviseur d'entreprises agréé du fonds ni par aucun tiers.

● **Le produit financier a-t-il investi dans des activités liées au gaz fossile et/ou à l'énergie nucléaire qui sont conformes à la Taxinomie de l'UE¹ ?**

☐ Oui :

☐ Dans le gaz fossile

☐ Dans l'énergie nucléaire

☒ Non

Aucune donnée fiable concernant l'alignement sur les activités de gaz fossile et d'énergie nucléaire conformes à la Taxinomie de l'UE n'était disponible sur la période.

¹ Les activités liées au gaz fossile et/ou à l'énergie nucléaire ne seront conformes à la Taxinomie de l'UE que si elles contribuent à limiter le changement climatique (« réduction du changement climatique ») et ne causent pas de préjudice important à tout objectif de la Taxinomie de l'UE. L'intégralité des critères relatifs aux activités économiques liées au gaz fossile et à l'énergie nucléaire conformes à la Taxinomie de l'UE sont définis dans le Règlement délégué (UE) 2022/1214 de la Commission.

Les graphiques ci-dessous font apparaître en vert le pourcentage d'investissements alignés sur la Taxinomie de l'UE. Étant donné qu'il n'existe pas de méthodologie appropriée pour déterminer l'alignement des obligations souveraines* sur la taxinomie, le premier graphique montre l'alignement sur la Taxinomie par rapport à tous les investissements du produit financier, y compris les obligations souveraines, tandis que le deuxième graphique représente l'alignement sur la Taxinomie uniquement par rapport aux investissements du produit financier autres que les obligations souveraines.

* Aux fins de ces graphiques, les « obligations souveraines » comprennent toutes les expositions souveraines

● **Quelle était la part d'investissements dans les activités transitoires et habilitantes ?**

Au 30/06/2024, en utilisant le chiffre d'affaires et/ou les données d'utilisation des produits des obligations vertes comme indicateur, la part d'investissements du fonds dans les activités transitoires était de 0.03% et la part d'investissements dans les activités habilitantes était de 1.79%.

Le pourcentage communiqué d'alignement des investissements du fonds sur la Taxinomie de l'UE n'a pas été audité par le réviseur d'entreprises agréé du fonds ni par aucun tiers.

● **Comment se situe le pourcentage d'investissements alignés sur la Taxinomie de l'UE par rapport aux périodes de référence antérieures ?**

À la fin de la période précédente, le pourcentage d'investissements alignés sur la taxinomie était de 4.11%.

sont des investissements durables ayant un objectif environnemental qui **ne tiennent pas compte des critères** en matière d'activités économiques durables sur le plan environnemental, visés par le Règlement (UE) 2020/852.

Quelle était la part des investissements durables ayant un objectif environnemental qui n'étaient pas alignés sur la Taxinomie de l'UE ?

La part des investissements durables ayant un objectif environnemental et non alignés sur la taxinomie était de **60.20%** à la fin de la période.

Cela tient du fait que certains émetteurs sont considérés comme investissements durables en vertu du Règlement SFDR mais qu'une portion de leurs activités n'est pas alignée sur les standards de la taxinomie de l'UE, ou que les données correspondantes ne sont pas encore disponibles en vue d'une évaluation relative à la taxinomie de l'UE.

Quelle était la part d'investissements durables sur le plan social ?

La proportion des investissements durables sur le plan social était de 16.09% à la fin de la période.

Quels investissements étaient inclus dans la catégorie « Autres », quelle était leur finalité et existait-il des garanties environnementales ou sociales minimales ?

Sont inclus dans la catégorie « N° 2 Autres » les liquidités et autres instruments détenus aux fins de gestion de la liquidité et des risques du portefeuille. Pour les obligations et actions non notées, des garanties environnementales et sociales minimales ont été mises en place par le biais d'un filtrage des émetteurs en rapport aux activités controversées définies dans les principes du Pacte mondial des Nations unies. Elle peut également inclure des titres sans notation ESG pour lesquels les données nécessaires à la mesure de la réalisation des caractéristiques environnementales ou sociales ne sont pas disponibles.

Quelles mesures ont-elles été prises pour réaliser les caractéristiques environnementales et/ou sociales au cours de la période de référence ?

Des indicateurs de durabilité sont mis à disposition de manière continue dans le système de gestion du portefeuille pour permettre aux gestionnaires du portefeuille d'évaluer l'impact de leurs décisions d'investissement.

Ces indicateurs sont intégrés au cadre de contrôle d'AMUNDI, en répartissant les responsabilités entre le premier niveau de contrôles réalisés par les équipes Investissement elles-mêmes, et le second niveau de contrôles réalisé par les équipes Risque, qui surveillent la conformité aux caractéristiques environnementales ou sociales promues en permanence par le fonds.

En outre, la Politique d'investissement responsable d'AMUNDI définit une approche active en matière d'engagement qui promeut le dialogue avec les sociétés bénéficiaires des investissements, y compris celles qui sont incluses dans le portefeuille de ce produit. Notre Rapport annuel en matière d'engagement, disponible à la page <https://about.amundi.com/esg-documentation>, fournit des informations détaillées sur cet engagement et ses résultats.

Quelles ont été les performances de ce produit financier par rapport à l'indice de référence ?

Un indice de référence est un indice qui sert à mesurer si le produit financier réalise les caractéristiques environnementales et/ou sociales qu'il promeut.

Ce produit ne dispose pas d'un Indice de référence ESG.

- ***En quoi l'indice de référence diffère-t-il de l'indice de marché large ?***

Ce produit ne dispose pas d'un Indice de référence ESG.

- ***Quelles ont été les performances de ce produit financier par rapport aux indicateurs de durabilité pour déterminer l'alignement de l'indice de référence sur les caractéristiques environnementales ou sociales promues ?***

Ce produit ne dispose pas d'un Indice de référence ESG.

- ***Quelle a été la performance de ce produit financier par rapport à l'indice de référence ?***

Ce produit ne dispose pas d'un Indice de référence ESG.

- ***Quelle a été la performance de ce produit financier par rapport à l'indice de marché large ?***

Ce produit ne dispose pas d'un Indice de référence ESG.

Modèle d'informations périodiques pour les produits financiers visés à l'Article 8, paragraphes 1, 2 et 2a, du Règlement (UE) 2019/2088 et à l'Article 6, premier paragraphe du Règlement (UE) 2020/852

Dénomination du produit : AMUNDI FUNDS
EUROPEAN EQUITY SMALL CAP

Identifiant d'entité juridique :
549300YCBHBPBCKFY81

Par investissement durable, on entend un investissement dans une activité économique qui contribue à un objectif environnemental ou social, pour autant qu'il ne cause de préjudice important à aucun de ces objectifs et que les sociétés détenues respectent les pratiques de bonne gouvernance.

La **Taxinomie de l'UE** est un système de classification institué par le Règlement (UE) 2020/852, qui dresse une liste d'**activités économiques durables sur le plan environnemental**. Ce règlement ne comprend pas de liste d'activités économiques durables sur le plan social. Les investissements durables ayant un objectif environnemental ne sont pas nécessairement alignés sur la taxinomie.

Caractéristiques environnementales et/ou sociales

Le produit financier avait-il un objectif d'investissement durable ?

Oui

X

Non

Il a réalisé **des investissements durables ayant un objectif environnemental** : _____

dans des activités économiques qui sont considérées comme durables sur le plan environnemental au titre de la Taxinomie de l'UE

dans des activités économiques qui ne sont pas considérées comme durables sur le plan environnemental au titre de la Taxinomie de l'UE

Il a réalisé **des investissements durables ayant un objectif social** : _____

Il a promu des caractéristiques **environnementales/sociales (E/S)** et, bien qu'il n'ait pas eu pour objectif l'investissement durable, il contenait une proportion d'investissements durables de **63.96%**

ayant un objectif environnemental dans des activités économiques qui sont considérées comme durables sur le plan environnemental au titre de la Taxinomie de l'UE

ayant un objectif environnemental dans des activités économiques qui ne sont pas considérées comme durables sur le plan environnemental au titre de la Taxinomie de l'UE

ayant un objectif social

Il a promu des caractéristiques E/S, mais **n'a pas réalisé d'investissements durables**

Dans quelle mesure les caractéristiques environnementales et/ou sociales promues par ce produit financier ont-elles été réalisées ?

Au cours de l'exercice financier, le produit n'a cessé de promouvoir les caractéristiques environnementales et/ou sociales en cherchant à atteindre une note ESG supérieure à celle de son univers d'investissement **MSCI EUROPE (16) SMALL CAP**. Pour déterminer la note ESG du Produit et de l'univers d'investissement ESG, la performance ESG a été évaluée de manière continue en comparant la performance moyenne d'un titre par rapport au secteur de l'émetteur du titre, pour chacune des trois caractéristiques, à savoir environnementale, sociale et de gouvernance.

L'univers d'investissement est un univers de marché large qui n'évalue ni n'inclut pas de composantes en fonction de caractéristiques environnementales et/ou sociales, et qui n'a par conséquent pas pour vocation d'être conforme aux caractéristiques promues par le fonds. Aucun indice de référence ESG n'a été désigné.

Les indicateurs de durabilité évaluent la mesure dans laquelle les caractéristiques environnementales ou sociales promues par le produit financier sont atteintes.

● **Quelle performance ont affiché les indicateurs de durabilité ?**

Amundi a développé son propre processus de notation ESG interne, qui suit une approche « Best-in-class ». Les notations adaptées à chaque secteur d'activité ont pour objectif d'évaluer la dynamique dans laquelle interviennent les entreprises.

L'indicateur de durabilité employé est la note ESG du Produit mesurée en comparaison avec la note ESG de l'univers d'investissement ESG du Produit.

À la fin de la période :

- La note ESG moyenne pondérée du portefeuille est **0.756 (C)**.
- La note ESG moyenne pondérée de l'univers d'investissement ESG est **0.528 (C)**.

La notation ESG Amundi utilisée pour déterminer la note ESG est une note ESG quantitative qui se décline en sept niveaux allant de A (les meilleures notes de l'univers) à G (les pires notes). Sur l'échelle de notation ESG d'Amundi, les titres figurant sur la liste d'exclusion correspondent à G. Pour les entreprises émettrices, la performance ESG est évaluée de manière globale et au niveau des critères pertinents par comparaison avec la performance moyenne du secteur, en combinant les trois dimensions ESG :

- Dimension environnementale : cette dimension examine la capacité des émetteurs à contrôler leur impact environnemental direct et indirect, en limitant leur consommation d'énergie, en réduisant leurs émissions de gaz à effet de serre, en luttant contre l'appauvrissement des ressources et en protégeant la biodiversité.
- Dimension sociale : cette dimension évalue le fonctionnement d'un émetteur dans deux domaines différents, à savoir sa stratégie de développement du capital humain et le respect des droits humains en général.
- Dimension de gouvernance : cette dimension évalue la capacité de l'émetteur à garantir les fondements d'un cadre de gouvernance d'entreprise efficace et à générer de la valeur sur le long terme.

La méthodologie appliquée par la notation ESG d'Amundi utilise 38 critères qui sont soit génériques (communs à toutes les entreprises, indépendamment de leur activité) soit spécifiques au secteur, et qui sont pondérés en fonction du secteur et considérés en termes d'impact sur la réputation, l'efficacité opérationnelle et les réglementations concernant un émetteur. Les notations ESG d'Amundi sont susceptibles d'être exprimées de manière globale pour les trois dimensions E, S et G, ou individuellement pour tout facteur environnemental ou social.

● **... et par rapport aux périodes antérieures ?**

À la fin de la période précédente, la note ESG moyenne pondérée du portefeuille était de 0.77 (C) et la note ESG moyenne pondérée de l'univers d'investissement ESG était de 0.49 (D).

● **Quels étaient les objectifs des investissements durables que le produit financier entendait partiellement réaliser, et comment l'investissement durable a-t-il contribué à ces objectifs ?**

Les objectifs des investissements durables sont d'investir dans des sociétés détenues qui cherchent à respecter deux critères :

1. suivre les bonnes pratiques environnementales et sociales ; et
2. éviter de fabriquer des produits ou de fournir des services qui nuisent à l'environnement et à la société.

Pour que la société bénéficiaire des investissements soit réputée contribuer à l'objectif susmentionné, elle doit figurer parmi les « meilleures performances » de son secteur d'activité pour au moins l'un de ses facteurs environnementaux ou sociaux importants.

La définition de « meilleures performances » repose sur la méthode ESG exclusive d'Amundi, dont l'objectif est de mesurer la performance ESG d'une société bénéficiaire des investissements. Pour être considérée comme l'une des « meilleures performances », une société bénéficiaire des investissements doit afficher l'une des trois premières notes (A, B ou C, sur une échelle de notation allant de A à G) dans son secteur pour au moins un facteur environnemental ou social important. Les facteurs environnementaux et sociaux sont identifiés à l'échelle des secteurs. L'identification des facteurs importants est basée sur le cadre d'analyse ESG d'Amundi qui combine des données extra-financières et une analyse qualitative du secteur associé et des questions de durabilité. Les facteurs identifiés comme importants représentent plus de 10 % de la note ESG globale. Par exemple pour le secteur de l'énergie, les facteurs importants

sont les suivants : émissions et énergie, biodiversité et pollution, santé et sécurité, communautés locales et droits humains. Pour un aperçu plus complet des secteurs et des facteurs, veuillez consulter la Déclaration réglementaire ESG d'Amundi disponible sur www.amundi.lu

Pour contribuer aux objectifs ci-dessus, la société bénéficiaire des investissements ne doit pas avoir d'exposition significative aux activités (par ex. tabac, armes, jeux de hasard, charbon, aviation, production de viande, fabrication d'engrais et de pesticides, production de plastique à usage unique) incompatibles avec ces critères.

Le caractère durable d'un investissement est évalué au niveau de la société bénéficiaire des investissements.

Les principales incidences négatives correspondent aux incidences négatives les plus significatives des décisions d'investissement sur les facteurs de durabilité liés aux questions environnementales, sociales et de personnel, au respect des droits humains et à la lutte contre la corruption et les actes de corruption.

● ***Dans quelle mesure les investissements durables que le produit financier a partiellement réalisés n'ont-ils pas causé de préjudice important à un objectif d'investissement durable sur le plan environnemental ou social ?***

Pour s'assurer que les investissements durables ne causent pas de préjudice important (principe « Do no significant harm » ou « DNSH » en anglais), Amundi utilise deux filtres :

Le premier filtre de DNSH repose sur le contrôle des indicateurs obligatoires des Principales incidences négatives de l'Annexe 1, Tableau 1 des normes techniques réglementaires (RTS) lorsqu'il existe des données fiables (par ex. Intensité des GES des sociétés bénéficiaires des investissements) via une combinaison d'indicateurs (par ex. intensité carbone) et des seuils ou règles spécifiques (par ex. que l'intensité carbone de la société bénéficiaire des investissements n'appartient pas au dernier décile du secteur).

Dans sa politique d'exclusion qui fait partie intégrante de sa Politique d'investissement responsable, Amundi tient d'ores et déjà compte de Principales incidences négatives spécifiques. Ces exclusions, qui s'appliquent en sus des tests détaillés ci-dessus, couvrent les sujets suivants : exclusions sur les armes controversées, les violations des principes du Pacte mondial des Nations Unies, le charbon et le tabac.

Au-delà des facteurs de durabilité spécifiques couverts par le premier filtre, Amundi a défini un second filtre, qui ne tient pas compte des indicateurs obligatoires des Principales incidences négatives ci-dessus, afin de vérifier que la société n'affiche pas de mauvaises performances d'un point de vue environnemental ou social global par rapport aux autres entreprises de son secteur, ce qui correspond à un score environnemental ou social supérieur ou égal à E selon la notation ESG d'Amundi.

- ***Comment les indicateurs concernant les incidences négatives sur les facteurs de durabilité ont-ils été pris en considération ?***

Les indicateurs d'incidences négatives ont été pris en compte comme détaillé dans le premier filtre DNSH ci-dessus.

Le premier filtre DNSH repose sur le contrôle des indicateurs obligatoires des Principales incidences négatives de l'Annexe 1, Tableau 1 du Règlement délégué (UE) 2022/1288 lorsqu'il existe des données fiables via la combinaison des indicateurs suivants et de seuils ou règles spécifiques :

- une intensité en CO2 qui n'appartient pas au dernier décile par rapport aux autres entreprises du secteur (ne s'applique qu'aux secteurs à forte intensité) ;
- un Conseil d'administration dont le niveau de diversité n'appartient pas au dernier décile par rapport aux autres sociétés du secteur ;
- ne pas faire l'objet de controverse relative aux conditions de travail et aux droits humains ; et
- ne pas faire l'objet de controverse relative à la biodiversité et à la pollution.

Dans sa politique d'exclusion qui fait partie intégrante de sa Politique d'investissement responsable, Amundi tient d'ores et déjà compte de Principales incidences négatives spécifiques. Ces exclusions, qui s'appliquent en sus des tests détaillés ci-dessus, couvrent les sujets suivants : exclusions sur les armes controversées, les violations des principes du Pacte mondial des Nations Unies, le charbon et le tabac.

- ***Les investissements durables étaient-ils conformes aux Principes directeurs de l'OCDE à l'intention des entreprises multinationales et aux Principes directeurs des Nations unies relatifs aux entreprises et aux droits humains ? Description détaillée :***

Oui, les Principes directeurs de l'OCDE à l'intention des entreprises multinationales et les Principes directeurs des Nations unies relatifs aux entreprises et aux droits humains sont

intégrés à notre méthode de notation ESG. Notre outil de notation ESG exclusif évalue les émetteurs à l'aide des données disponibles auprès de nos fournisseurs de données. Par exemple, le modèle dispose d'un critère dédié appelé « Implication dans la communauté et droits humains » qui s'applique à tous les secteurs en plus d'autres critères liés aux droits humains, y compris les chaînes d'approvisionnement socialement responsables, les conditions de travail et les relations de travail. En outre, nous effectuons un contrôle des controverses au moins une fois par trimestre, y compris sur les entreprises identifiées pour des violations des droits humains. En cas de controverse, les analystes évaluent la situation, lui donnent une note (à l'aide de notre méthode de notation exclusive) et déterminent la marche à suivre. Les notes de controverse sont mises à jour chaque trimestre pour suivre les tendances et les efforts de correction.

La Taxinomie de l'UE définit un principe consistant à « ne pas causer de préjudice important » (« Do not significant harm » ou DNSH) en vertu duquel les investissements alignés sur la Taxinomie ne doivent pas causer de préjudice important aux objectifs de la Taxinomie de l'UE et s'accompagnent de critères de l'UE spécifiques.

Le principe consistant à « ne pas causer de préjudice important » ne s'applique qu'aux investissements sous-jacents du produit financier qui tiennent compte des critères de l'UE pour les activités économiques durables sur le plan environnemental. Les investissements sous-jacents de la portion restante de ce produit financier ne tiennent pas compte des critères de l'UE en matière d'activités économiques durables sur le plan environnemental.

Tout autre investissement durable doit également se conformer au principe consistant à ne pas causer de préjudice important aux objectifs environnementaux ou sociaux.

Dans quelle mesure ce produit financier a-t-il pris en considération les principales incidences négatives sur les facteurs de durabilité ?

Le produit tient compte de toutes les Principales incidences négatives obligatoires en vertu de l'Annexe 1, Tableau 1 du Règlement délégué (UE) 2022/1288 applicables à la stratégie du produit et s'appuie sur une combinaison de politiques d'exclusion (normatives et sectorielles) et d'approches d'engagement et de vote :

- Exclusion : Amundi a défini des règles d'exclusion normatives, basées sur l'activité et les secteurs, qui couvrent certains des principaux indicateurs négatifs de durabilité énumérés par le Règlement Disclosure (sur la publication d'informations).
- Intégration des facteurs ESG : Amundi a adopté des normes d'intégration ESG minimales appliquées par défaut à ses fonds de type ouvert activement gérés (exclusion des émetteurs ayant la note G et meilleure note ESG moyenne pondérée supérieure à celle de l'indice de référence applicable). Les 38 critères employés dans la stratégie de notation ESG d'Amundi ont également été conçus pour tenir compte des principaux impacts sur les facteurs de durabilité, ainsi que de la qualité de la réduction entreprise en la matière.
- Engagement : L'engagement est un processus continu et ciblé qui vise à influencer les activités ou le comportement des sociétés bénéficiaires des investissements. L'objectif des activités d'engagement peut se diviser en deux catégories : impliquer un émetteur pour améliorer la manière dont il intègre la dimension environnementale et sociale ou impliquer un émetteur pour améliorer son impact sur les questions environnementales, sociales et liées aux droits humains ou d'autres questions de durabilité qui sont importantes pour la société au sens large et l'économie mondiale.
- Vote : La politique de vote d'Amundi répond à une analyse globale de toutes les questions à long terme qui peuvent influencer la création de valeur, y compris les questions ESG importantes. pour plus d'informations, veuillez consulter la Politique de vote d'Amundi.
- Surveillance des controverses : Amundi a développé un système de suivi des controverses qui s'appuie sur trois fournisseurs de données externes pour suivre systématiquement l'évolution des controverses et leur niveau de gravité. Cette approche quantitative est ensuite enrichie d'une évaluation approfondie de chaque controverse grave, menée par des analystes ESG, puis d'un examen périodique de son évolution. Cette approche s'applique à tous les fonds d'Amundi.

Pour de plus amples détails sur le mode de prise en compte des indicateurs relatifs aux Principales incidences négatives obligatoires, veuillez consulter la Déclaration sur la publication d'informations en matière de finance durable d'Amundi disponible sur www.amundi.com.

Quels étaient les principaux investissements de ce produit financier ?

La liste inclut les investissements qui constituent **la proportion la plus importante d'investissements** du produit financier au cours de la période de référence, à savoir : **du 01/07/2023 au 30/06/2024**

Principaux investissements	Secteur	Sous-secteur	Pays	% des actifs
SPIE SA	Industrie	Services commerciaux communication	France	3.02%
BRITVIC PLC	Consommation de base	Alimentation, boisson et tabac	Royaume-Uni	2.81%
BABCOCK INTL GRP	Industrie	Biens d'équipement	Royaume-Uni	2.79%
INTERMEDIATE CAPITAL GROUP	Obligations financières	Services financiers	Royaume-Uni	2.66%
CTS EVENTIM	Services de communication	Médias et loisirs	Allemagne	2.44%
ASR NEDERLAND NV	Obligations financières	Assurance	Pays-Bas	2.12%
BANKINTER SA	Obligations financières	Banques	Espagne	2.11%
VISTRY GROUP PLC	Consommation discrétionnaire	Consommation durables et habillement	Royaume-Uni	2.07%
GRAFTON GROUP LDN (GBP)	Industrie	Biens d'équipement	Irlande	2.05%
ELIS SA	Industrie	Services commerciaux communication	France	2.04%
RS GROUP PLC	Industrie	Biens d'équipement	Royaume-Uni	2.02%
DERWENT LONDON PLC	Immobilier	Sociétés d'investissement immobilier	Royaume-Uni	2.02%
ALK-ABELLO A/S	Santé	Pharmacie, biotechnologie et sciences de la vie	Danemark	2.01%
GREGGS PLC	Consommation discrétionnaire	Consommation communication	Royaume-Uni	2.00%
GAZTRANSPORT ET TECHNIGAZ SA	Énergie	Pétrole, gaz et combustibles	France	1.97%

Quelle était la proportion d'investissements liés à la durabilité ?

● Quelle était l'allocation d'actifs ?

L'allocation d'actifs décrit la part des investissements dans des actifs spécifiques.

La catégorie **N° 1 Alignés sur les caractéristiques E/S** inclut les investissements du produit financier utilisés pour atteindre les caractéristiques environnementales ou sociales promues par le produit financier.

La catégorie **N° 2 Autres** inclut les investissements restants du produit financier qui ne sont ni alignés sur les caractéristiques environnementales ou sociales ni considérés comme investissements durables.

La catégorie **N° 1 Alignés sur les caractéristiques E/S** comprend :

- la sous-catégorie **N° 1A Durables** couvrant les investissements durables sur le plan environnemental et social ;
- la sous-catégorie **N° 1B Autres caractéristiques E/S** couvrant les investissements alignés sur les caractéristiques environnementales ou sociales qui ne sont pas considérés comme des investissements durables.

● **Dans quels secteurs économiques ont été réalisés les investissements ?**

<i>Secteur</i>	<i>Sous-secteur</i>	<i>% des actifs</i>
<i>Industrie</i>	<i>Biens d'équipement</i>	<i>19.43%</i>
<i>Industrie</i>	<i>Services commerciaux et professionnels communication</i>	<i>8.58%</i>

<i>Obligations financières</i>	<i>Fonds communs de placement</i>	0.01%
<i>Liquidités</i>	<i>Liquidités</i>	1.27%

Aux fins d'observer la taxinomie de l'UE, les critères relatifs au **gaz fossile** incluent des limites aux émissions et le passage à une énergie entièrement renouvelable ou à des combustibles à faible teneur en carbone d'ici fin 2035. Pour **l'énergie nucléaire**, les critères incluent des règles exhaustives de sécurité et de gestion des déchets.

Les activités habilitantes permettent directement à d'autres activités de contribuer de manière substantielle à la réalisation d'un objectif environnemental.

Les activités transitoires sont des activités pour lesquelles il n'existe pas encore de solution de remplacement sobre en carbone et, entre autres, dont les niveaux d'émission de gaz à effet de serre correspondent aux meilleures performances réalisables.

Dans quelle mesure les investissements durables ayant un objectif environnemental étaient-ils alignés sur la Taxinomie de l'UE ?

Le fonds promeut des caractéristiques tant environnementales que sociales. Si le fonds ne s'est pas engagé à réaliser des investissements alignés sur la Taxinomie de l'UE, au cours de la période sous revue, il a cependant investi 3.02% dans des investissements durables alignés sur la Taxinomie de l'UE. De tels investissements ont contribué aux objectifs d'atténuation du changement climatique de la taxinomie de l'UE.

L'alignement des sociétés bénéficiaires des investissements sur les objectifs de la taxinomie de l'UE susmentionnés est évalué à l'aide du chiffre d'affaires (ou des revenus) et/ou des données d'utilisation des produits des obligations vertes.

Le pourcentage communiqué d'alignement des investissements du fonds sur la Taxinomie de l'UE n'a pas été audité par le réviseur d'entreprises agréé du fonds ni par aucun tiers.

● Le produit financier a-t-il investi dans des activités liées au gaz fossile et/ou à l'énergie nucléaire qui sont conformes à la Taxinomie de l'UE¹ ?

☐ Oui :

☐ Dans le gaz fossile ☐ Dans l'énergie nucléaire

☒ Non

Aucune donnée fiable concernant l'alignement sur les activités de gaz fossile et d'énergie nucléaire conformes à la Taxinomie de l'UE n'était disponible sur la période.

¹Les activités liées au gaz fossile et/ou à l'énergie nucléaire ne seront conformes à la Taxinomie de l'UE que si elles contribuent à limiter le changement climatique (« atténuation du changement climatique ») et ne causent pas de préjudice important à tout objectif de la Taxinomie de l'UE. L'intégralité des critères relatifs aux activités économiques liées au gaz fossile et à l'énergie nucléaire conformes à la Taxinomie de l'UE sont définis dans le Règlement délégué (UE) 2022/1214 de la Commission.

Les activités alignées sur la taxinomie sont exprimées en pourcentage :

- du chiffre d'affaires pour refléter la part des revenus provenant des activités vertes des sociétés bénéficiaires d'investissements ;
- des dépenses d'investissement (CapEx) pour montrer les investissements verts réalisés par les sociétés bénéficiaires d'investissements, pour une transition vers une économie verte, par exemple ; et
- des dépenses d'exploitation (OpEx) pour refléter les activités opérationnelles vertes des sociétés bénéficiaires d'investissements.

Les graphiques ci-dessous font apparaître en vert le pourcentage d'investissements alignés sur la Taxinomie de l'UE. Étant donné qu'il n'existe pas de méthodologie appropriée pour déterminer l'alignement des obligations souveraines* sur la taxinomie, le premier graphique montre l'alignement sur la Taxinomie par rapport à tous les investissements du produit financier, y compris les obligations souveraines, tandis que le deuxième graphique représente l'alignement sur la Taxinomie uniquement par rapport aux investissements du produit financier autres que les obligations souveraines.

* Aux fins de ces graphiques, les « obligations souveraines » comprennent toutes les expositions souveraines

● Quelle était la part d'investissements dans les activités transitoires et habilitantes ?

Au 30/06/2024, en utilisant le chiffre d'affaires et/ou les données d'utilisation des produits des obligations vertes comme indicateur, la part d'investissements du fonds dans les activités transitoires était de 0.08% et la part d'investissements dans les activités habilitantes était de 1.33%. Le pourcentage communiqué d'alignement des investissements du fonds sur la Taxinomie de l'UE n'a pas été audité par le réviseur d'entreprises agréé du fonds ni par aucun tiers.

● Comment se situe le pourcentage d'investissements alignés sur la Taxinomie de l'UE par rapport aux périodes de référence antérieures ?

À la fin de la période précédente, le pourcentage d'investissements alignés sur la taxinomie était de 5.60%.

Les investissements durables ayant un objectif environnemental qui ne tiennent pas compte des critères en matière d'activités économiques durables sur le plan environnemental, visés par le Règlement (UE) 2020/852.

● Quelle était la part des investissements durables ayant un objectif environnemental qui n'étaient pas alignés sur la Taxinomie de l'UE ?

La part des investissements durables ayant un objectif environnemental et non alignés sur la taxinomie était de **44.48%** à la fin de la période. Cela tient du fait que certains émetteurs sont considérés comme investissements durables en vertu du Règlement SFDR mais qu'une portion de leurs activités n'est pas alignée sur les standards de la taxinomie de l'UE, ou que les données correspondantes ne sont pas encore disponibles en vue d'une évaluation relative à la taxinomie de l'UE.

● Quelle était la part d'investissements durables sur le plan social ?

La proportion des investissements durables sur le plan social était de 16.45% à la fin de la période.

Quels investissements étaient inclus dans la catégorie « Autres », quelle était leur finalité et existait-il des garanties environnementales ou sociales minimales ?

Sont inclus dans la catégorie « N° 2 Autres » les liquidités et autres instruments détenus aux fins de gestion de la liquidité et des risques du portefeuille. Pour les obligations et actions non notées, des garanties environnementales et sociales minimales ont été mises en place par le biais d'un filtrage des émetteurs en rapport aux activités controversées définies dans les principes du Pacte mondial des Nations unies. Elle peut également inclure des titres sans notation ESG pour lesquels les données nécessaires à la mesure de la réalisation des caractéristiques environnementales ou sociales ne sont pas disponibles.

Quelles mesures ont-elles été prises pour réaliser les caractéristiques environnementales et/ou sociales au cours de la période de référence ?

Des indicateurs de durabilité sont mis à disposition de manière continue dans le système de gestion du portefeuille pour permettre aux gestionnaires du portefeuille d'évaluer l'impact de leurs décisions d'investissement.

Ces indicateurs sont intégrés au cadre de contrôle d'AMUNDI, en répartissant les responsabilités entre le premier niveau de contrôles réalisés par les équipes Investissement elles-mêmes, et le second niveau de contrôles réalisé par les équipes Risque, qui surveillent la conformité aux caractéristiques environnementales ou sociales promues en permanence par le fonds.

En outre, la Politique d'investissement responsable d'AMUNDI définit une approche active en matière d'engagement qui promeut le dialogue avec les sociétés bénéficiaires des investissements, y compris celles qui sont incluses dans le portefeuille de ce produit. Notre Rapport annuel en matière d'engagement, disponible à la page <https://about.amundi.com/esg-documentation>, fournit des informations détaillées sur cet engagement et ses résultats.

Quelles ont été les performances de ce produit financier par rapport à l'indice de référence ?

Ce produit ne dispose pas d'un Indice de référence ESG.

● *En quoi l'indice de référence diffère-t-il de l'indice de marché large ?*

Ce produit ne dispose pas d'un Indice de référence ESG.

● *Quelles ont été les performances de ce produit financier par rapport aux indicateurs de durabilité pour déterminer l'alignement de l'indice de référence sur les caractéristiques environnementales ou sociales promues ?*

Ce produit ne dispose pas d'un Indice de référence ESG.

● *Quelle a été la performance de ce produit financier par rapport à l'indice de référence ?*

Ce produit ne dispose pas d'un Indice de référence ESG.

● *Quelle a été la performance de ce produit financier par rapport à l'indice de marché large ?*

Ce produit ne dispose pas d'un Indice de référence ESG.

Un indice de référence est un indice qui sert à mesurer si le produit financier réalise les caractéristiques environnementales et/ou sociales qu'il promeut.

Modèle d'informations périodiques pour les produits financiers visés à l'Article 8, paragraphes 1, 2 et 2a, du Règlement (UE) 2019/2088 et à l'Article 6, premier paragraphe du Règlement (UE) 2020/852

Dénomination du produit : AMUNDI FUNDS
EQUITY JAPAN TARGET

Identifiant d'entité juridique :
529900LFY58YVU1ISY58

Par investissement durable, on entend un investissement dans une activité économique qui contribue à un objectif environnemental ou social, pour autant qu'il ne cause de préjudice important à aucun de ces objectifs et que les sociétés détenues respectent les pratiques de bonne gouvernance.

La **Taxinomie de l'UE** est un système de classification institué par le Règlement (UE) 2020/852, qui dresse une liste d'**activités économiques durables sur le plan environnemental**. Ce règlement ne comprend pas de liste d'activités économiques durables sur le plan social. Les investissements durables ayant un objectif environnemental ne sont pas nécessairement alignés sur la taxinomie.

Caractéristiques environnementales et/ou sociales

Le produit financier avait-il un objectif d'investissement durable ?

Oui

X

Non

Il a réalisé **des investissements durables ayant un objectif environnemental** : _____

dans des activités économiques qui sont considérées comme durables sur le plan environnemental au titre de la Taxinomie de l'UE

dans des activités économiques qui ne sont pas considérées comme durables sur le plan environnemental au titre de la Taxinomie de l'UE

Il a réalisé **des investissements durables ayant un objectif social** : _____

Il a promu des **caractéristiques environnementales/sociales (E/S)** et, bien qu'il n'ait pas eu pour objectif l'investissement durable, il contenait une proportion d'investissements durables de **32.46%**

ayant un objectif environnemental dans des activités économiques qui sont considérées comme durables sur le plan environnemental au titre de la Taxinomie de l'UE

ayant un objectif environnemental dans des activités économiques qui ne sont pas considérées comme durables sur le plan environnemental au titre de la Taxinomie de l'UE

ayant un objectif social

Il a promu des caractéristiques E/S, mais **n'a pas réalisé d'investissements durables**

Dans quelle mesure les caractéristiques environnementales et/ou sociales promues par ce produit financier ont-elles été réalisées ?

Au cours de l'exercice financier, le produit n'a cessé de promouvoir les caractéristiques environnementales et/ou sociales en cherchant à atteindre une note ESG supérieure à celle de son univers d'investissement **TOPIX**. Pour déterminer la note ESG du Produit et de l'univers d'investissement ESG, la performance ESG a été évaluée de manière continue en comparant la performance moyenne d'un titre par rapport au secteur de l'émetteur du titre, pour chacune des trois caractéristiques, à savoir environnementale, sociale et de gouvernance.

L'univers d'investissement est un univers de marché large qui n'évalue ni n'inclut pas de composantes en fonction de caractéristiques environnementales et/ou sociales, et qui n'a par conséquent pas pour vocation d'être conforme aux caractéristiques promues par le fonds. Aucun indice de référence ESG n'a été désigné.

Les indicateurs de durabilité évaluent la mesure dans laquelle les caractéristiques environnementales ou sociales promues par le produit financier sont atteintes.

● ***Quelle performance ont affiché les indicateurs de durabilité ?***

Amundi a développé son propre processus de notation ESG interne, qui suit une approche « Best-in-class ». Les notations adaptées à chaque secteur d'activité ont pour objectif d'évaluer la dynamique dans laquelle interviennent les entreprises.

L'indicateur de durabilité employé est la note ESG du Produit mesurée en comparaison avec la note ESG de l'univers d'investissement ESG du Produit.

À la fin de la période :

- La note ESG moyenne pondérée du portefeuille est **-0.223 (D)**.
- La note ESG moyenne pondérée de l'univers d'investissement ESG est **-0.280 (D)**.

La notation ESG Amundi utilisée pour déterminer la note ESG est une note ESG quantitative qui se décline en sept niveaux allant de A (les meilleures notes de l'univers) à G (les pires notes). Sur l'échelle de notation ESG d'Amundi, les titres figurant sur la liste d'exclusion correspondent à G. Pour les entreprises émettrices, la performance ESG est évaluée de manière globale et au niveau des critères pertinents par comparaison avec la performance moyenne du secteur, en combinant les trois dimensions ESG :

- Dimension environnementale : cette dimension examine la capacité des émetteurs à contrôler leur impact environnemental direct et indirect, en limitant leur consommation d'énergie, en réduisant leurs émissions de gaz à effet de serre, en luttant contre l'appauvrissement des ressources et en protégeant la biodiversité.
- Dimension sociale : cette dimension évalue le fonctionnement d'un émetteur dans deux domaines différents, à savoir sa stratégie de développement du capital humain et le respect des droits humains en général.
- Dimension de gouvernance : cette dimension évalue la capacité de l'émetteur à garantir les fondements d'un cadre de gouvernance d'entreprise efficace et à générer de la valeur sur le long terme.

La méthodologie appliquée par la notation ESG d'Amundi utilise 38 critères qui sont soit génériques (communs à toutes les entreprises, indépendamment de leur activité) soit spécifiques au secteur, et qui sont pondérés en fonction du secteur et considérés en termes d'impact sur la réputation, l'efficacité opérationnelle et les réglementations concernant un émetteur. Les notations ESG d'Amundi sont susceptibles d'être exprimées de manière globale pour les trois dimensions E, S et G, ou individuellement pour tout facteur environnemental ou social.

● ***... et par rapport aux périodes antérieures ?***

À la fin de la période précédente, la note ESG moyenne pondérée du portefeuille était de -0.27 (D) et la note ESG moyenne pondérée de l'univers d'investissement ESG était de -0.28 (D).

● ***Quels étaient les objectifs des investissements durables que le produit financier entendait partiellement réaliser, et comment l'investissement durable a-t-il contribué à ces objectifs ?***

Les objectifs des investissements durables sont d'investir dans des sociétés détenues qui cherchent à respecter deux critères :

1. suivre les bonnes pratiques environnementales et sociales ; et
2. éviter de fabriquer des produits ou de fournir des services qui nuisent à l'environnement et à la société.

Pour que la société bénéficiaire des investissements soit réputée contribuer à l'objectif susmentionné, elle doit figurer parmi les « meilleures performances » de son secteur d'activité pour au moins l'un de ses facteurs environnementaux ou sociaux importants.

La définition de « meilleures performances » repose sur la méthode ESG exclusive d'Amundi, dont l'objectif est de mesurer la performance ESG d'une société bénéficiaire des investissements. Pour être considérée comme l'une des « meilleures performances », une société bénéficiaire des investissements doit afficher l'une des trois premières notes (A, B ou C, sur une échelle de notation allant de A à G) dans son secteur pour au moins un facteur environnemental ou social important. Les facteurs environnementaux et sociaux sont identifiés à l'échelle des secteurs. L'identification des facteurs importants est basée sur le cadre d'analyse ESG d'Amundi qui combine des données extra-financières et une analyse qualitative du secteur associé et des questions de durabilité. Les facteurs identifiés comme importants représentent plus de 10 % de la note ESG globale. Par exemple pour le secteur de l'énergie, les facteurs importants

sont les suivants : émissions et énergie, biodiversité et pollution, santé et sécurité, communautés locales et droits humains. Pour un aperçu plus complet des secteurs et des facteurs, veuillez consulter la Déclaration réglementaire ESG d'Amundi disponible sur www.amundi.lu

Pour contribuer aux objectifs ci-dessus, la société bénéficiaire des investissements ne doit pas avoir d'exposition significative aux activités (par ex. tabac, armes, jeux de hasard, charbon, aviation, production de viande, fabrication d'engrais et de pesticides, production de plastique à usage unique) incompatibles avec ces critères.

Le caractère durable d'un investissement est évalué au niveau de la société bénéficiaire des investissements.

● ***Dans quelle mesure les investissements durables que le produit financier a partiellement réalisés n'ont-ils pas causé de préjudice important à un objectif d'investissement durable sur le plan environnemental ou social ?***

Pour s'assurer que les investissements durables ne causent pas de préjudice important (principe « Do no significant harm » ou « DNSH » en anglais), Amundi utilise deux filtres :

Le premier filtre de DNSH repose sur le contrôle des indicateurs obligatoires des Principales incidences négatives de l'Annexe 1, Tableau 1 des normes techniques réglementaires (RTS) lorsqu'il existe des données fiables (par ex. Intensité des GES des sociétés bénéficiaires des investissements) via une combinaison d'indicateurs (par ex. intensité carbone) et des seuils ou règles spécifiques (par ex. que l'intensité carbone de la société bénéficiaire des investissements n'appartient pas au dernier décile du secteur).

Dans sa politique d'exclusion qui fait partie intégrante de sa Politique d'investissement responsable, Amundi tient d'ores et déjà compte de Principales incidences négatives spécifiques. Ces exclusions, qui s'appliquent en sus des tests détaillés ci-dessus, couvrent les sujets suivants : exclusions sur les armes controversées, les violations des principes du Pacte mondial des Nations Unies, le charbon et le tabac.

Au-delà des facteurs de durabilité spécifiques couverts par le premier filtre, Amundi a défini un second filtre, qui ne tient pas compte des indicateurs obligatoires des Principales incidences négatives ci-dessus, afin de vérifier que la société n'affiche pas de mauvaises performances d'un point de vue environnemental ou social global par rapport aux autres entreprises de son secteur, ce qui correspond à un score environnemental ou social supérieur ou égal à E selon la notation ESG d'Amundi.

- ***Comment les indicateurs concernant les incidences négatives sur les facteurs de durabilité ont-ils été pris en considération ?***

Les indicateurs d'incidences négatives ont été pris en compte comme détaillé dans le premier filtre DNSH ci-dessus.

Le premier filtre DNSH repose sur le contrôle des indicateurs obligatoires des Principales incidences négatives de l'Annexe 1, Tableau 1 du Règlement délégué (UE) 2022/1288 lorsqu'il existe des données fiables via la combinaison des indicateurs suivants et de seuils ou règles spécifiques :

- une intensité en CO2 qui n'appartient pas au dernier décile par rapport aux autres entreprises du secteur (ne s'applique qu'aux secteurs à forte intensité) ;
- un Conseil d'administration dont le niveau de diversité n'appartient pas au dernier décile par rapport aux autres sociétés du secteur ;
- ne pas faire l'objet de controverse relative aux conditions de travail et aux droits humains ; et
- ne pas faire l'objet de controverse relative à la biodiversité et à la pollution.

Dans sa politique d'exclusion qui fait partie intégrante de sa Politique d'investissement responsable, Amundi tient d'ores et déjà compte de Principales incidences négatives spécifiques. Ces exclusions, qui s'appliquent en sus des tests détaillés ci-dessus, couvrent les sujets suivants : exclusions sur les armes controversées, les violations des principes du Pacte mondial des Nations Unies, le charbon et le tabac.

- ***Les investissements durables étaient-ils conformes aux Principes directeurs de l'OCDE à l'intention des entreprises multinationales et aux Principes directeurs des Nations unies relatifs aux entreprises et aux droits humains ? Description détaillée :***

Oui, les Principes directeurs de l'OCDE à l'intention des entreprises multinationales et les Principes directeurs des Nations unies relatifs aux entreprises et aux droits humains sont

Les principales incidences négatives correspondent aux incidences négatives les plus significatives des décisions d'investissement sur les facteurs de durabilité liés aux questions environnementales, sociales et de personnel, au respect des droits humains et à la lutte contre la corruption et les actes de corruption.

intégrés à notre méthode de notation ESG. Notre outil de notation ESG exclusif évalue les émetteurs à l'aide des données disponibles auprès de nos fournisseurs de données. Par exemple, le modèle dispose d'un critère dédié appelé « Implication dans la communauté et droits humains » qui s'applique à tous les secteurs en plus d'autres critères liés aux droits humains, y compris les chaînes d'approvisionnement socialement responsables, les conditions de travail et les relations de travail. En outre, nous effectuons un contrôle des controverses au moins une fois par trimestre, y compris sur les entreprises identifiées pour des violations des droits humains. En cas de controverse, les analystes évaluent la situation, lui donnent une note (à l'aide de notre méthode de notation exclusive) et déterminent la marche à suivre. Les notes de controverse sont mises à jour chaque trimestre pour suivre les tendances et les efforts de correction.

La Taxinomie de l'UE définit un principe consistant à « ne pas causer de préjudice important » (« Do not significant harm » ou DNSH) en vertu duquel les investissements alignés sur la Taxinomie ne doivent pas causer de préjudice important aux objectifs de la Taxinomie de l'UE et s'accompagnent de critères de l'UE spécifiques.

Le principe consistant à « ne pas causer de préjudice important » ne s'applique qu'aux investissements sous-jacents du produit financier qui tiennent compte des critères de l'UE pour les activités économiques durables sur le plan environnemental. Les investissements sous-jacents de la portion restante de ce produit financier ne tiennent pas compte des critères de l'UE en matière d'activités économiques durables sur le plan environnemental.

Tout autre investissement durable doit également se conformer au principe consistant à ne pas causer de préjudice important aux objectifs environnementaux ou sociaux.

Dans quelle mesure ce produit financier a-t-il pris en considération les principales incidences négatives sur les facteurs de durabilité ?

Le produit tient compte de toutes les Principales incidences négatives obligatoires en vertu de l'Annexe 1, Tableau 1 du Règlement délégué (UE) 2022/1288 applicables à la stratégie du produit et s'appuie sur une combinaison de politiques d'exclusion (normatives et sectorielles) et d'approches d'engagement et de vote :

- Exclusion : Amundi a défini des règles d'exclusion normatives, basées sur l'activité et les secteurs, qui couvrent certains des principaux indicateurs négatifs de durabilité énumérés par le Règlement Disclosure (sur la publication d'informations).
- Intégration des facteurs ESG : Amundi a adopté des normes d'intégration ESG minimales appliquées par défaut à ses fonds de type ouvert activement gérés (exclusion des émetteurs ayant la note G et meilleure note ESG moyenne pondérée supérieure à celle de l'indice de référence applicable). Les 38 critères employés dans la stratégie de notation ESG d'Amundi ont également été conçus pour tenir compte des principaux impacts sur les facteurs de durabilité, ainsi que de la qualité de la réduction entreprise en la matière.
- Engagement : L'engagement est un processus continu et ciblé qui vise à influencer les activités ou le comportement des sociétés bénéficiaires des investissements. L'objectif des activités d'engagement peut se diviser en deux catégories : impliquer un émetteur pour améliorer la manière dont il intègre la dimension environnementale et sociale ou impliquer un émetteur pour améliorer son impact sur les questions environnementales, sociales et liées aux droits humains ou d'autres questions de durabilité qui sont importantes pour la société au sens large et l'économie mondiale.
- Vote : La politique de vote d'Amundi répond à une analyse globale de toutes les questions à long terme qui peuvent influencer la création de valeur, y compris les questions ESG importantes. pour plus d'informations, veuillez consulter la Politique de vote d'Amundi.
- Surveillance des controverses : Amundi a développé un système de suivi des controverses qui s'appuie sur trois fournisseurs de données externes pour suivre systématiquement l'évolution des controverses et leur niveau de gravité. Cette approche quantitative est ensuite enrichie d'une évaluation approfondie de chaque controverse grave, menée par des analystes ESG, puis d'un examen périodique de son évolution. Cette approche s'applique à tous les fonds d'Amundi.

Pour de plus amples détails sur le mode de prise en compte des indicateurs relatifs aux Principales incidences négatives obligatoires, veuillez consulter la Déclaration sur la publication d'informations en matière de finance durable d'Amundi disponible sur www.amundi.com.

Quels étaient les principaux investissements de ce produit financier ?

La liste inclut les investissements qui constituent **la proportion la plus importante d'investissements** du produit financier au cours de la période de référence, à savoir : **du 01/07/2023 au 30/06/2024**

Principaux investissements	Secteur	Sous-secteur	Pays	% des actifs
KYOCERA CORP	Technologies de l'information	Matériel et équipement technologiques	Japon	3.97%
SHIZUOKA FINANCIAL GROUP INC	Obligations financières	Banques	Japon	3.94%
RICOH CO LTD	Technologies de l'information	Matériel et équipement technologiques	Japon	3.12%
KYOTO FINANCIAL GROUP INC	Obligations financières	Banques	Japon	2.89%
NIPPON KAYAKU CO LTD	Matériaux	Chimie	Japon	2.76%
TOPPAN HOLDINGS INC	Industrie	Services commerciaux et professionnels	Japon	2.75%
NIKON CORP	Consommation discrétionnaire	Biens de consommation durables et habillement	Japon	2.65%
TS TECH CO LTD	Consommation discrétionnaire	Automobiles et composants	Japon	2.57%
TBS HOLDINGS INC	Services de communication	Médias et loisirs	Japon	2.51%
NOK CORP	Consommation discrétionnaire	Automobiles et composants	Japon	2.46%
MAKINO MILLING MACHINE CO	Industrie	Biens d'équipement	Japon	2.36%
TODA CORP	Industrie	Biens d'équipement	Japon	2.26%
KYORIN PHARMACEUTICAL CO LTD	Santé	Pharmacie, biotechnologie et sciences de la vie	Japon	2.14%
SEINO HOLDINGS CO LTD	Industrie	Transport	Japon	1.99%
GUNZE LTD	Consommation discrétionnaire	Biens de consommation durables et habillement	Japon	1.91%

Quelle était la proportion d'investissements liés à la durabilité ?

Quelle était l'allocation d'actifs ?

L'allocation d'actifs décrit la part des investissements dans des actifs spécifiques.

La catégorie **N° 1 Alignés sur les caractéristiques E/S** inclut les investissements du produit financier utilisés pour atteindre les caractéristiques environnementales ou sociales promues par le produit financier.

La catégorie **N° 2 Autres** inclut les investissements restants du produit financier qui ne sont ni alignés sur les caractéristiques environnementales ou sociales ni considérés comme investissements durables.

La catégorie **N° 1 Alignés sur les caractéristiques E/S** comprend :

- la sous-catégorie **N° 1A Durables** couvrant les investissements durables sur le plan environnemental et social ;
- la sous-catégorie **N° 1B Autres caractéristiques E/S** couvrant les investissements alignés sur les caractéristiques environnementales ou sociales qui ne sont pas considérés comme des investissements durables.

● Dans quels secteurs économiques ont été réalisés les investissements ?

Secteur	Sous-secteur	% des actifs
Industrie	Biens d'équipement	23.89%
Technologies de l'information	Matériel et équipement technologiques	14.02%
Matériaux	Chimie	10.79%
Consommation discrétionnaire	Automobiles et composants	10.15%
Consommation discrétionnaire	Biens de consommation durables et habillement	7.16%
Obligations financières	Banques	6.83%

<i>Santé</i>	<i>Pharmacie, biotechnologie et sciences de la vie</i>	<i>4.44%</i>
<i>Biens de consommation de base</i>	<i>Alimentation, boissons et tabac</i>	<i>3.68%</i>
<i>Industrie</i>	<i>Transport</i>	<i>3.49%</i>
<i>Industrie</i>	<i>Services commerciaux et professionnels</i>	<i>3.49%</i>
<i>Services de communication</i>	<i>Médias et loisirs</i>	<i>2.51%</i>
<i>Matériaux</i>	<i>Métaux et exploitation minière</i>	<i>2.01%</i>
<i>Technologies de l'information</i>	<i>Semi-conducteurs et équipement pour semi-conducteurs</i>	<i>1.83%</i>
<i>Biens de consommation de base</i>	<i>Produits ménagers et personnels</i>	<i>0.97%</i>
<i>Forex</i>	<i>Forex</i>	<i>0.93%</i>
<i>Biens de consommation de base</i>	<i>Distribution et vente au détail de biens de consommation de base</i>	<i>0.61%</i>
<i>Consommation discrétionnaire</i>	<i>Distribution et vente au détail de biens de consommation discrétionnaires</i>	<i>0.38%</i>
<i>Liquidités</i>	<i>Liquidités</i>	<i>2.92%</i>

Aux fins d'observer la taxinomie de l'UE, les critères relatifs au **gaz fossile** incluent des limites aux émissions et le passage à une énergie entièrement renouvelable ou à des combustibles à faible teneur en carbone d'ici fin 2035. Pour **l'énergie nucléaire**, les critères incluent des règles exhaustives de sécurité et de gestion des déchets.

Dans quelle mesure les investissements durables ayant un objectif environnemental étaient-ils alignés sur la Taxinomie de l'UE ?

Le fonds promeut des caractéristiques tant environnementales que sociales. Si le fonds ne s'est pas engagé à réaliser des investissements alignés sur la Taxinomie de l'UE, au cours de la période sous revue, il a cependant investi 0.00% dans des investissements durables alignés sur la Taxinomie de l'UE.

Le produit financier a-t-il investi dans des activités liées au gaz fossile et/ou à l'énergie nucléaire qui sont conformes à la Taxinomie de l'UE¹ ?

Les activités habilitantes permettent directement à d'autres activités de contribuer de manière substantielle à la réalisation d'un objectif environnemental.

Les activités transitoires sont des activités pour lesquelles il n'existe pas encore de solution de remplacement sobre en carbone et, entre autres, dont les niveaux d'émission de gaz à effet de serre correspondent aux meilleures performances réalisables.

Les activités alignées sur la taxinomie sont exprimées en pourcentage :

- **du chiffre d'affaires** pour refléter la part des revenus provenant des activités vertes des sociétés bénéficiaires d'investissements ;
- **des dépenses d'investissement (CapEx)** pour montrer les investissements verts réalisés par les sociétés bénéficiaires d'investissements, pour une transition vers une économie verte, par exemple ; et
- **des dépenses d'exploitation (OpEx)** pour refléter les activités opérationnelles vertes des sociétés bénéficiaires d'investissements.

☐ Oui :

☐

Dans le gaz fossile

☐

Dans l'énergie nucléaire

☒ Non

Aucune donnée fiable concernant l'alignement sur les activités de gaz fossile et d'énergie nucléaire conformes à la Taxinomie de l'UE n'était disponible sur la période.

¹Les activités liées au gaz fossile et/ou à l'énergie nucléaire ne seront conformes à la Taxinomie de l'UE que si elles contribuent à limiter le changement climatique (« atténuation du changement climatique ») et ne causent pas de préjudice important à tout objectif de la Taxinomie de l'UE. L'intégralité des critères relatifs aux activités économiques liées au gaz fossile et à l'énergie nucléaire conformes à la Taxinomie de l'UE sont définis dans le Règlement délégué (UE) 2022/1214 de la Commission.

Les graphiques ci-dessous font apparaître en vert le pourcentage d'investissements alignés sur la Taxinomie de l'UE. Étant donné qu'il n'existe pas de méthodologie appropriée pour déterminer l'alignement des obligations souveraines* sur la taxinomie, le premier graphique montre l'alignement sur la Taxinomie par rapport à tous les investissements du produit financier, y compris les obligations souveraines, tandis que le deuxième graphique représente l'alignement sur la Taxinomie uniquement par rapport aux investissements du produit financier autres que les obligations souveraines.

* Aux fins de ces graphiques, les « obligations souveraines » comprennent toutes les expositions souveraines

● Quelle était la part d'investissements dans les activités transitoires et habilitantes ?

Au 30/06/2024, en utilisant le chiffre d'affaires et/ou les données d'utilisation des produits des obligations vertes comme indicateur, la part d'investissements du fonds dans les activités transitoires était de 0.00% et la part d'investissements dans les activités habilitantes était de 0.00%. Le pourcentage communiqué d'alignement des investissements du fonds sur la Taxinomie de l'UE n'a pas été audité par le réviseur d'entreprises agréé du fonds ni par aucun tiers.

● **Comment se situe le pourcentage d'investissements alignés sur la Taxinomie de l'UE par rapport aux périodes de référence antérieures ?**

À la fin de la période précédente, le pourcentage d'investissements alignés sur la taxinomie était de 0.00%.

Quelle était la part des investissements durables ayant un objectif environnemental qui n'étaient pas alignés sur la Taxinomie de l'UE ?

La part des investissements durables ayant un objectif environnemental et non alignés sur la taxinomie était de **21.89%** à la fin de la période.

Cela tient du fait que certains émetteurs sont considérés comme investissements durables en vertu du Règlement SFDR mais qu'une portion de leurs activités n'est pas alignée sur les standards de la taxinomie de l'UE, ou que les données correspondantes ne sont pas encore disponibles en vue d'une évaluation relative à la taxinomie de l'UE.

Quelle était la part d'investissements durables sur le plan social ?

La proportion des investissements durables sur le plan social était de 10.58% à la fin de la période.

Quels investissements étaient inclus dans la catégorie « Autres », quelle était leur finalité et existait-il des garanties environnementales ou sociales minimales ?

Sont inclus dans la catégorie « N° 2 Autres » les liquidités et autres instruments détenus aux fins de gestion de la liquidité et des risques du portefeuille. Pour les obligations et actions non notées, des garanties environnementales et sociales minimales ont été mises en place par le biais d'un filtrage des émetteurs en rapport aux activités controversées définies dans les principes du Pacte mondial des Nations unies. Elle peut également inclure des titres sans notation ESG pour lesquels les données nécessaires à la mesure de la réalisation des caractéristiques environnementales ou sociales ne sont pas disponibles.

Quelles mesures ont-elles été prises pour réaliser les caractéristiques environnementales et/ou sociales au cours de la période de référence ?

Des indicateurs de durabilité sont mis à disposition de manière continue dans le système de gestion du portefeuille pour permettre aux gestionnaires du portefeuille d'évaluer l'impact de leurs décisions d'investissement.

Ces indicateurs sont intégrés au cadre de contrôle d'AMUNDI, en répartissant les responsabilités entre le premier niveau de contrôles réalisés par les équipes Investissement elles-mêmes, et le second niveau de contrôles réalisé par les équipes Risque, qui surveillent la conformité aux caractéristiques environnementales ou sociales promues en permanence par le fonds.

En outre, la Politique d'investissement responsable d'AMUNDI définit une approche active en matière d'engagement qui promeut le dialogue avec les sociétés bénéficiaires des investissements, y compris celles qui sont incluses dans le portefeuille de ce produit. Notre Rapport annuel en matière d'engagement, disponible à la page <https://about.amundi.com/esg-documentation>, fournit des informations détaillées sur cet engagement et ses résultats.

Quelles ont été les performances de ce produit financier par rapport à l'indice de référence ?

Un indice de référence est un indice qui sert à mesurer si le produit financier réalise les caractéristiques environnementales et/ou sociales qu'il promeut.

Ce produit ne dispose pas d'un Indice de référence ESG.

- ***En quoi l'indice de référence diffère-t-il de l'indice de marché large ?***

Ce produit ne dispose pas d'un Indice de référence ESG.

- ***Quelles ont été les performances de ce produit financier par rapport aux indicateurs de durabilité pour déterminer l'alignement de l'indice de référence sur les caractéristiques environnementales ou sociales promues ?***

Ce produit ne dispose pas d'un Indice de référence ESG.

- ***Quelle a été la performance de ce produit financier par rapport à l'indice de référence ?***

Ce produit ne dispose pas d'un Indice de référence ESG.

- ***Quelle a été la performance de ce produit financier par rapport à l'indice de marché large ?***

Ce produit ne dispose pas d'un Indice de référence ESG.

Modèle d'informations périodiques pour les produits financiers visés à l'Article 8, paragraphes 1, 2 et 2a, du Règlement (UE) 2019/2088 et à l'Article 6, premier paragraphe du Règlement (UE) 2020/852

Dénomination du produit : AMUNDI FUNDS
GLOBAL ECOLOGY ESG

Identifiant d'entité juridique :
549300PF1HPU3EW4TO97

Par investissement durable, on entend un investissement dans une activité économique qui contribue à un objectif environnemental ou social, pour autant qu'il ne cause de préjudice important à aucun de ces objectifs et que les sociétés détenues respectent les pratiques de bonne gouvernance.

La **Taxinomie de l'UE** est un système de classification institué par le Règlement (UE) 2020/852, qui dresse une liste d'**activités économiques durables sur le plan environnemental**. Ce règlement ne comprend pas de liste d'activités économiques durables sur le plan social. Les investissements durables ayant un objectif environnemental ne sont pas nécessairement alignés sur la taxinomie.

Caractéristiques environnementales et/ou sociales

Le produit financier avait-il un objectif d'investissement durable ?	
☒ ☐ Oui	☒ ☐ Non
☐ Il a réalisé des investissements durables ayant un objectif environnemental : _____ ☐ dans des activités économiques qui sont considérées comme durables sur le plan environnemental au titre de la Taxinomie de l'UE ☐ dans des activités économiques qui ne sont pas considérées comme durables sur le plan environnemental au titre de la Taxinomie de l'UE	☒ Il a promu des caractéristiques environnementales/sociales (E/S) et, bien qu'il n'ait pas eu pour objectif l'investissement durable, il contenait une proportion d'investissements durables de 63.42% ☐ ayant un objectif environnemental dans des activités économiques qui sont considérées comme durables sur le plan environnemental au titre de la Taxinomie de l'UE ☒ ayant un objectif environnemental dans des activités économiques qui ne sont pas considérées comme durables sur le plan environnemental au titre de la Taxinomie de l'UE ☐ ayant un objectif social
☐ Il a réalisé des investissements durables ayant un objectif social : _____	☐ Il a promu des caractéristiques E/S, mais n'a pas réalisé d'investissements durables

Dans quelle mesure les caractéristiques environnementales et/ou sociales promues par ce produit financier ont-elles été réalisées ?

Au cours de l'exercice financier, le produit n'a cessé de promouvoir les caractéristiques environnementales et/ou sociales en cherchant à atteindre une note ESG supérieure à celle de son univers d'investissement **MSCI WORLD**. Pour déterminer la note ESG du Produit et de l'univers d'investissement ESG, la performance ESG a été évaluée de manière continue en comparant la performance moyenne d'un titre par rapport au secteur de l'émetteur du titre, pour chacune des trois caractéristiques, à savoir environnementale, sociale et de gouvernance.

L'univers d'investissement est un univers de marché large qui n'évalue ni n'inclut pas de composantes en fonction de caractéristiques environnementales et/ou sociales, et qui n'a par conséquent pas pour vocation d'être conforme aux caractéristiques promues par le fonds. Aucun indice de référence ESG n'a été désigné.

Ce produit est qualifié de produit ISR (investissement socialement responsable). Au cours de l'exercice, il a cherché à promouvoir les 3 dimensions (environnementale, sociale et de gouvernance) en tenant compte de la notation ESG des émetteurs dans la construction du portefeuille.

L'objectif de la notation ESG des émetteurs est d'évaluer leur capacité à gérer l'incidence négative potentielle de leurs activités sur les facteurs de durabilité. Cette analyse a ainsi pour but d'évaluer leur comportement Environnemental et Social en termes de Gouvernance, en leur attribuant une note ESG comprise entre A (meilleure note) et G (moins bonne note), de manière à obtenir une évaluation plus globale des risques.

1. Le portefeuille a systématiquement appliqué la politique d'exclusion d'Amundi suivante :
 - exclusions légales sur les armes controversées ;
 - entreprises qui contreviennent de façon grave et répétée à un ou plusieurs des 10 principes du Pacte mondial de l'ONU sans appliquer de mesures correctives crédibles ; et
 - exclusions sectorielles du groupe Amundi sur le charbon et le tabac (les détails de cette politique étant disponibles dans la Politique d'investissement responsable d'Amundi consultable sur le site Web www.amundi.fr).
2. Aucun investissement n'a été réalisé auprès d'émetteurs ayant la note F ou G. Pour tout émetteur dont la notation a été revue à la baisse et ayant reçu la note F ou G, les titres déjà présents en portefeuille ont été vendus dans les délais convenus dans le prospectus et en tenant compte de l'intérêt financier des détenteurs.
3. La note ESG moyenne pondérée du portefeuille est en permanence supérieure à la note ESG moyenne pondérée de l'univers d'investissement du fonds après suppression de 20% des émetteurs les moins bien notés.
4. Le fonds a privilégié les émetteurs occupant une position de leader dans leur secteur d'activité d'après les critères ESG identifiés par l'équipe d'analystes extra-financiers de la société de gestion (approche « Best-in-class »). À l'exception des exclusions ci-dessus, tous les secteurs économiques sont représentés dans cette approche et l'OPC est par conséquent susceptible d'être exposé à certains secteurs controversés.

Les indicateurs de durabilité

évaluent la mesure dans laquelle les caractéristiques environnementales ou sociales promues par le produit financier sont atteintes.

● Quelle performance ont affiché les indicateurs de durabilité ?

Amundi a développé son propre processus de notation ESG interne, qui suit une approche « Best-in-class ». Les notations adaptées à chaque secteur d'activité ont pour objectif d'évaluer la dynamique dans laquelle interviennent les entreprises.

L'indicateur de durabilité employé est la note ESG du Produit mesurée en comparaison avec la note ESG de l'univers d'investissement ESG du Produit.

À la fin de la période :

- La note ESG moyenne pondérée du portefeuille est **0.622 (C)**.
- La note ESG moyenne pondérée de l'univers d'investissement ESG est **-0.179 (D)**.

La notation ESG Amundi utilisée pour déterminer la note ESG est une note ESG quantitative qui se décline en sept niveaux allant de A (les meilleures notes de l'univers) à G (les pires notes). Sur l'échelle de notation ESG d'Amundi, les titres figurant sur la liste d'exclusion correspondent à G. Pour les entreprises émettrices, la performance ESG est évaluée de manière globale et au niveau des critères pertinents par comparaison avec la performance moyenne du secteur, en combinant les trois dimensions ESG :

- Dimension environnementale : cette dimension examine la capacité des émetteurs à contrôler leur impact environnemental direct et indirect, en limitant leur consommation d'énergie, en réduisant leurs émissions de gaz à effet de serre, en luttant contre l'appauvrissement des ressources et en protégeant la biodiversité.
- Dimension sociale : cette dimension évalue le fonctionnement d'un émetteur dans deux domaines différents, à savoir sa stratégie de développement du capital humain et le respect des droits humains en général.
- Dimension de gouvernance : cette dimension évalue la capacité de l'émetteur à garantir les fondements d'un cadre de gouvernance d'entreprise efficace et à générer de la valeur sur le long terme.

La méthodologie appliquée par la notation ESG d'Amundi utilise 38 critères qui sont soit génériques (communs à toutes les entreprises, indépendamment de leur activité) soit spécifiques au secteur, et qui sont pondérés en fonction du secteur et considérés en termes d'impact sur la réputation, l'efficacité opérationnelle et les réglementations concernant un émetteur. Les notations ESG d'Amundi sont susceptibles d'être exprimées de manière globale pour les trois dimensions E, S et G, ou individuellement pour tout facteur environnemental ou social.

● **... et par rapport aux périodes antérieures ?**

À la fin de la période précédente, la note ESG moyenne pondérée du portefeuille était de 0.69 (C) et la note ESG moyenne pondérée de l'univers d'investissement ESG était de -0.12 (D).

● **Quels étaient les objectifs des investissements durables que le produit financier entendait partiellement réaliser, et comment l'investissement durable a-t-il contribué à ces objectifs ?**

Les objectifs des investissements durables sont d'investir dans des sociétés détenues qui cherchent à respecter deux critères :

1. suivre les bonnes pratiques environnementales et sociales ; et
2. éviter de fabriquer des produits ou de fournir des services qui nuisent à l'environnement et à la société.

Pour que la société bénéficiaire des investissements soit réputée contribuer à l'objectif susmentionné, elle doit figurer parmi les « meilleures performances » de son secteur d'activité pour au moins l'un de ses facteurs environnementaux ou sociaux importants.

La définition de « meilleures performances » repose sur la méthode ESG exclusive d'Amundi, dont l'objectif est de mesurer la performance ESG d'une société bénéficiaire des investissements. Pour être considérée comme l'une des « meilleures performances », une société bénéficiaire des investissements doit afficher l'une des trois premières notes (A, B ou C, sur une échelle de notation allant de A à G) dans son secteur pour au moins un facteur environnemental ou social important. Les facteurs environnementaux et sociaux sont identifiés à l'échelle des secteurs. L'identification des facteurs importants est basée sur le cadre d'analyse ESG d'Amundi qui combine des données extra-financières et une analyse qualitative du secteur associé et des questions de durabilité. Les facteurs identifiés comme importants représentent plus de 10 % de la note ESG globale. Par exemple pour le secteur de l'énergie, les facteurs importants sont les suivants : émissions et énergie, biodiversité et pollution, santé et sécurité, communautés locales et droits humains. Pour un aperçu plus complet des secteurs et des facteurs, veuillez consulter la Déclaration réglementaire ESG d'Amundi disponible sur www.amundi.lu

Pour contribuer aux objectifs ci-dessus, la société bénéficiaire des investissements ne doit pas avoir d'exposition significative aux activités (par ex. tabac, armes, jeux de hasard, charbon, aviation, production de viande, fabrication d'engrais et de pesticides, production de plastique à usage unique) incompatibles avec ces critères.

Le caractère durable d'un investissement est évalué au niveau de la société bénéficiaire des investissements.

● **Dans quelle mesure les investissements durables que le produit financier a partiellement réalisés n'ont-ils pas causé de préjudice important à un objectif d'investissement durable sur le plan environnemental ou social ?**

Pour s'assurer que les investissements durables ne causent pas de préjudice important (principe « Do no significant harm » ou « DNSH » en anglais), Amundi utilise deux filtres :

Le premier filtre de DNSH repose sur le contrôle des indicateurs obligatoires des Principales incidences négatives de l'Annexe 1, Tableau 1 des normes techniques réglementaires (RTS) lorsqu'il existe des données fiables (par ex. Intensité des GES des sociétés bénéficiaires des investissements) via une combinaison d'indicateurs (par ex. intensité carbone) et des seuils ou règles spécifiques (par ex. que l'intensité carbone de la société bénéficiaire des investissements n'appartient pas au dernier décile du secteur).

Dans sa politique d'exclusion qui fait partie intégrante de sa Politique d'investissement responsable, Amundi tient d'ores et déjà compte de Principales incidences négatives spécifiques. Ces exclusions, qui s'appliquent en sus des tests détaillés ci-dessus, couvrent les sujets suivants : exclusions sur les armes controversées, les violations des principes du Pacte mondial des Nations Unies, le charbon et le tabac.

Les principales incidences négatives correspondent aux incidences négatives les plus significatives des décisions d'investissement sur les facteurs de durabilité liés aux questions environnementales, sociales et de personnel, au respect des droits humains et à la lutte contre la corruption et les actes de corruption.

Au-delà des facteurs de durabilité spécifiques couverts par le premier filtre, Amundi a défini un second filtre, qui ne tient pas compte des indicateurs obligatoires des Principales incidences négatives ci-dessus, afin de vérifier que la société n'affiche pas de mauvaises performances d'un point de vue environnemental ou social global par rapport aux autres entreprises de son secteur, ce qui correspond à un score environnemental ou social supérieur ou égal à E selon la notation ESG d'Amundi.

- ***Comment les indicateurs concernant les incidences négatives sur les facteurs de durabilité ont-ils été pris en considération ?***

Les indicateurs d'incidences négatives ont été pris en compte comme détaillé dans le premier filtre DNSH ci-dessus.

Le premier filtre DNSH repose sur le contrôle des indicateurs obligatoires des Principales incidences négatives de l'Annexe 1, Tableau 1 du Règlement délégué (UE) 2022/1288 lorsqu'il existe des données fiables via la combinaison des indicateurs suivants et de seuils ou règles spécifiques :

- une intensité en CO2 qui n'appartient pas au dernier décile par rapport aux autres entreprises du secteur (ne s'applique qu'aux secteurs à forte intensité) ;
- un Conseil d'administration dont le niveau de diversité n'appartient pas au dernier décile par rapport aux autres sociétés du secteur ;
- ne pas faire l'objet de controverse relative aux conditions de travail et aux droits humains ; et
- ne pas faire l'objet de controverse relative à la biodiversité et à la pollution.

Dans sa politique d'exclusion qui fait partie intégrante de sa Politique d'investissement responsable, Amundi tient d'ores et déjà compte de Principales incidences négatives spécifiques. Ces exclusions, qui s'appliquent en sus des tests détaillés ci-dessus, couvrent les sujets suivants : exclusions sur les armes controversées, les violations des principes du Pacte mondial des Nations Unies, le charbon et le tabac.

- ***Les investissements durables étaient-ils conformes aux Principes directeurs de l'OCDE à l'intention des entreprises multinationales et aux Principes directeurs des Nations unies relatifs aux entreprises et aux droits humains ? Description détaillée :***

Oui, les Principes directeurs de l'OCDE à l'intention des entreprises multinationales et les Principes directeurs des Nations unies relatifs aux entreprises et aux droits humains sont intégrés à notre méthode de notation ESG. Notre outil de notation ESG exclusif évalue les émetteurs à l'aide des données disponibles auprès de nos fournisseurs de données. Par exemple, le modèle dispose d'un critère dédié appelé « Implication dans la communauté et droits humains » qui s'applique à tous les secteurs en plus d'autres critères liés aux droits humains, y compris les chaînes d'approvisionnement socialement responsables, les conditions de travail et les relations de travail. En outre, nous effectuons un contrôle des controverses au moins une fois par trimestre, y compris sur les entreprises identifiées pour des violations des droits humains. En cas de controverse, les analystes évaluent la situation, lui donnent une note (à l'aide de notre méthode de notation exclusive) et déterminent la marche à suivre. Les notes de controverse sont mises à jour chaque trimestre pour suivre les tendances et les efforts de correction.

La Taxinomie de l'UE définit un principe consistant à « ne pas causer de préjudice important » (« Do not significant harm » ou DNSH) en vertu duquel les investissements alignés sur la Taxinomie ne doivent pas causer de préjudice important aux objectifs de la Taxinomie de l'UE et s'accompagnent de critères de l'UE spécifiques.

Le principe consistant à « ne pas causer de préjudice important » ne s'applique qu'aux investissements sous-jacents du produit financier qui tiennent compte des critères de l'UE pour les activités économiques durables sur le plan environnemental. Les investissements sous-jacents de la portion restante de ce produit financier ne tiennent pas compte des critères de l'UE en matière d'activités économiques durables sur le plan environnemental.

Tout autre investissement durable doit également se conformer au principe consistant à ne pas causer de préjudice important aux objectifs environnementaux ou sociaux.

Dans quelle mesure ce produit financier a-t-il pris en considération les principales incidences négatives sur les facteurs de durabilité ?

Le produit tient compte de toutes les Principales incidences négatives obligatoires en vertu de l'Annexe 1, Tableau 1 du Règlement délégué (UE) 2022/1288 applicables à la stratégie du produit et s'appuie sur une combinaison de politiques d'exclusion (normatives et sectorielles) et d'approches d'engagement et de vote :

- **Exclusion** : Amundi a défini des règles d'exclusion normatives, basées sur l'activité et les secteurs, qui couvrent certains des principaux indicateurs négatifs de durabilité énumérés par le Règlement Disclosure (sur la publication d'informations).
- **Intégration des facteurs ESG** : Amundi a adopté des normes d'intégration ESG minimales appliquées par défaut à ses fonds de type ouvert activement gérés (exclusion des émetteurs ayant la note G et meilleure note ESG moyenne pondérée supérieure à celle de l'indice de référence applicable). Les 38 critères employés dans la stratégie de notation ESG d'Amundi ont également été conçus pour tenir compte des principaux impacts sur les facteurs de durabilité, ainsi que de la qualité de la réduction entreprise en la matière.
- **Engagement** : L'engagement est un processus continu et ciblé qui vise à influencer les activités ou le comportement des sociétés bénéficiaires des investissements. L'objectif des activités d'engagement peut se diviser en deux catégories : impliquer un émetteur pour améliorer la manière dont il intègre la dimension environnementale et sociale ou impliquer un émetteur pour améliorer son impact sur les questions environnementales, sociales et liées aux droits humains ou d'autres questions de durabilité qui sont importantes pour la société au sens large et l'économie mondiale.
- **Vote** : La politique de vote d'Amundi répond à une analyse globale de toutes les questions à long terme qui peuvent influencer la création de valeur, y compris les questions ESG importantes. pour plus d'informations, veuillez consulter la Politique de vote d'Amundi.
- **Surveillance des controverses** : Amundi a développé un système de suivi des controverses qui s'appuie sur trois fournisseurs de données externes pour suivre systématiquement l'évolution des controverses et leur niveau de gravité. Cette approche quantitative est ensuite enrichie d'une évaluation approfondie de chaque controverse grave, menée par des analystes ESG, puis d'un examen périodique de son évolution. Cette approche s'applique à tous les fonds d'Amundi.

Pour de plus amples détails sur le mode de prise en compte des indicateurs relatifs aux Principales incidences négatives obligatoires, veuillez consulter la Déclaration sur la publication d'informations en matière de finance durable d'Amundi disponible sur www.amundi.com.

Quels étaient les principaux investissements de ce produit financier ?

La liste inclut les investissements qui constituent **la proportion la plus importante d'investissements** du produit financier au cours de la période de référence, à savoir : **du 01/07/2023 au 30/06/2024**

Principaux investissements	Secteur	Sous-secteur	Pays	% des actifs
TOKIO MARINE HOLDINGS INC	Obligations financières	Assurance	Japon	3.25%
MICROSOFT CORP	Informations Technologie	Logiciels et communication	États-Unis	3.20%
SAP SE / XETRA	Informations Technologie	Logiciels et communication	Allemagne	3.08%
MUENCHENER RUECKVER AGREG	Obligations financières	Assurance	Allemagne	3.05%
WASTE MANAGEMENT INC	Industrie	Services commerciaux communication	États-Unis	3.03%
TRANE TECHNOLOGIES PLC	Industrie	Biens d'équipement	Irlande	2.92%

SWISS RE AG	Obligations financières	Assurance	Suisse	2.27%
GSK PLC	Santé	Pharmacie, biotechnologie et sciences de la vie	Royaume-Uni	2.22%
CENCORA INC	Santé	Santé Équipements et communication	États-Unis	2.14%
ECOLAB INC	Matériaux	Chimie	États-Unis	2.13%
INTL BUSINESS MACHINES CORP	Informations Technologie	Logiciels et communication	États-Unis	2.10%
CANADIAN PACIFIC KANSAS CITY CAD	Industrie	Transport	Canada	2.04%
SIEMENS AG-REG	Industrie	Biens d'équipement	Allemagne	2.03%

Quelle était la proportion d'investissements liés à la durabilité ?

● Quelle était l'allocation d'actifs ?

L'allocation d'actifs décrit la part des investissements dans des actifs spécifiques.

La catégorie **N° 1 Alignés sur les caractéristiques E/S** inclut les investissements du produit financier utilisés pour atteindre les caractéristiques environnementales ou sociales promues par le produit financier.

La catégorie **N° 2 Autres** inclut les investissements restants du produit financier qui ne sont ni alignés sur les caractéristiques environnementales ou sociales ni considérés comme investissements durables.

La catégorie **N° 1 Alignés sur les caractéristiques E/S** comprend :

- la sous-catégorie **N° 1A Durables** couvrant les investissements durables sur le plan environnemental et social ;

- la sous-catégorie **N° 1B Autres caractéristiques E/S** couvrant les investissements alignés sur les caractéristiques environnementales ou sociales qui ne sont pas considérés comme des investissements durables.

● Dans quels secteurs économiques ont été réalisés les investissements ?

<i>Secteur</i>	<i>Sous-secteur</i>	<i>% des actifs</i>
<i>Industrie</i>	<i>Biens d'équipement</i>	<i>20.28%</i>
<i>Obligations financières</i>	<i>Assurance</i>	<i>14.03%</i>
<i>Technologies de l'information</i>	<i>Logiciels et services</i>	<i>10.79%</i>
<i>Technologies de l'information</i>	<i>Semi-conducteurs et équipement pour semi-conducteurs</i>	<i>8.53%</i>
<i>Santé</i>	<i>Pharmacie, biotechnologie et sciences de la vie</i>	<i>7.44%</i>
<i>Industrie</i>	<i>Services commerciaux et professionnels communication</i>	<i>5.50%</i>
<i>Matériaux</i>	<i>Chimie</i>	<i>4.96%</i>
<i>Industrie</i>	<i>Transport</i>	<i>4.70%</i>
<i>Santé</i>	<i>Matériel et services de santé</i>	<i>4.64%</i>
<i>Services aux collectivités</i>	<i>Services multiples aux collectivités</i>	<i>3.70%</i>
<i>Obligations financières</i>	<i>Services financiers</i>	<i>3.15%</i>
<i>Matériaux</i>	<i>Conteneurs et emballage</i>	<i>1.93%</i>
<i>Biens de consommation de base</i>	<i>Alimentation, boissons et tabac</i>	<i>1.76%</i>

Services de communication	Télécommunications	1.66%
Consommation discrétionnaire	Biens de consommation durables et habillement	1.51%
Obligations financières	Banques	1.51%
Biens de consommation de base	Produits ménagers et personnels	1.41%
Forex	Forex	0.15%
Liquidités	Liquidités	0.58%

Aux fins d'observer la taxinomie de l'UE, les critères relatifs au **gaz fossile** incluent des limites aux émissions et le passage à une énergie entièrement renouvelable ou à des combustibles à faible teneur en carbone d'ici fin 2035. Pour l'**énergie nucléaire**, les critères incluent des règles exhaustives de sécurité et de gestion des déchets.

Les activités habilitantes permettent directement à d'autres activités de contribuer de manière substantielle à la réalisation d'un objectif environnemental.

Les activités transitoires sont des activités pour lesquelles il n'existe pas encore de solution de remplacement sobre en carbone et, entre autres, dont les niveaux d'émission de gaz à effet de serre correspondent aux meilleures performances réalisables.

Dans quelle mesure les investissements durables ayant un objectif environnemental étaient-ils alignés sur la Taxinomie de l'UE ?

Le fonds promeut des caractéristiques tant environnementales que sociales. Si le fonds ne s'est pas engagé à réaliser des investissements alignés sur la Taxinomie de l'UE, au cours de la période sous revue, il a cependant investi 1.44% dans des investissements durables alignés sur la Taxinomie de l'UE. De tels investissements ont contribué aux objectifs d'atténuation du changement climatique de la taxinomie de l'UE.

L'alignement des sociétés bénéficiaires des investissements sur les objectifs de la taxinomie de l'UE susmentionnés est évalué à l'aide du chiffre d'affaires (ou des revenus) et/ou des données d'utilisation des produits des obligations vertes.

Le pourcentage communiqué d'alignement des investissements du fonds sur la Taxinomie de l'UE n'a pas été audité par le réviseur d'entreprises agréé du fonds ni par aucun tiers.

Le produit financier a-t-il investi dans des activités liées au gaz fossile et/ou à l'énergie nucléaire qui sont conformes à la Taxinomie de l'UE¹ ?

☐

Oui :

☐

Dans le gaz fossile

☐

Dans l'énergie nucléaire

☒

Non

Aucune donnée fiable concernant l'alignement sur les activités de gaz fossile et d'énergie nucléaire conformes à la Taxinomie de l'UE n'était disponible sur la période.

¹Les activités liées au gaz fossile et/ou à l'énergie nucléaire ne seront conformes à la Taxinomie de l'UE que si elles contribuent à limiter le changement climatique (« atténuation du changement climatique ») et ne causent pas de préjudice important à tout objectif de la Taxinomie de l'UE. L'intégralité des critères relatifs aux activités économiques liées au gaz fossile et à l'énergie nucléaire conformes à la Taxinomie de l'UE sont définis dans le Règlement délégué (UE) 2022/1214 de la Commission.

Les activités alignées sur la taxinomie sont exprimées en pourcentage :

- **du chiffre d'affaires** pour refléter la part des revenus provenant des activités vertes des sociétés bénéficiaires d'investissements ;
- **des dépenses d'investissement (CapEx)** pour montrer les investissements verts réalisés par les sociétés bénéficiaires d'investissements, pour une transition vers une économie verte, par exemple ; et
- **des dépenses d'exploitation (OpEx)** pour refléter les activités opérationnelles vertes des sociétés bénéficiaires d'investissements.

Les graphiques ci-dessous font apparaître en vert le pourcentage d'investissements alignés sur la Taxinomie de l'UE. Étant donné qu'il n'existe pas de méthodologie appropriée pour déterminer l'alignement des obligations souveraines sur la taxinomie, le premier graphique montre l'alignement sur la Taxinomie par rapport à tous les investissements du produit financier, y compris les obligations souveraines, tandis que le deuxième graphique représente l'alignement sur la Taxinomie uniquement par rapport aux investissements du produit financier autres que les obligations souveraines.*

* Aux fins de ces graphiques, les « obligations souveraines » comprennent toutes les expositions souveraines

● Quelle était la part d'investissements dans les activités transitoires et habilitantes ?

Au 30/06/2024, en utilisant le chiffre d'affaires et/ou les données d'utilisation des produits des obligations vertes comme indicateur, la part d'investissements du fonds dans les activités transitoires était de 0.00% et la part d'investissements dans les activités habilitantes était de 1.66%. Le pourcentage communiqué d'alignement des investissements du fonds sur la Taxinomie de l'UE n'a pas été audité par le réviseur d'entreprises agréé du fonds ni par aucun tiers.

● Comment se situe le pourcentage d'investissements alignés sur la Taxinomie de l'UE par rapport aux périodes de référence antérieures ?

À la fin de la période précédente, le pourcentage d'investissements alignés sur la taxinomie était de 1.72%.

Quelle était la part des investissements durables ayant un objectif environnemental qui n'étaient pas alignés sur la Taxinomie de l'UE ?

La part des investissements durables ayant un objectif environnemental et non alignés sur la taxinomie était de **46.80%** à la fin de la période.

Cela tient du fait que certains émetteurs sont considérés comme investissements durables en vertu du Règlement SFDR mais qu'une portion de leurs activités n'est pas alignée sur les standards de la taxinomie de l'UE, ou que les données correspondantes ne sont pas encore disponibles en vue d'une évaluation relative à la taxinomie de l'UE.

Quelle était la part d'investissements durables sur le plan social ?

La proportion des investissements durables sur le plan social était de 15.18% à la fin de la période.

Quels investissements étaient inclus dans la catégorie « Autres », quelle était leur finalité et existait-il des garanties environnementales ou sociales minimales ?

Sont inclus dans la catégorie « N° 2 Autres » les liquidités et autres instruments détenus aux fins de gestion de la liquidité et des risques du portefeuille. Pour les obligations et actions non notées, des garanties environnementales et sociales minimales ont été mises en place par le biais d'un filtrage des émetteurs en rapport aux activités controversées définies dans les principes du Pacte mondial des Nations unies. Elle peut également inclure des titres sans notation ESG pour lesquels les données nécessaires à la mesure de la réalisation des caractéristiques environnementales ou sociales ne sont pas disponibles.

Quelles mesures ont-elles été prises pour réaliser les caractéristiques environnementales et/ou sociales au cours de la période de référence ?

Des indicateurs de durabilité sont mis à disposition de manière continue dans le système de gestion du portefeuille pour permettre aux gestionnaires du portefeuille d'évaluer l'impact de leurs décisions d'investissement.

Ces indicateurs sont intégrés au cadre de contrôle d'AMUNDI, en répartissant les responsabilités entre le premier niveau de contrôles réalisés par les équipes Investissement elles-mêmes, et le second niveau de contrôles réalisé par les équipes Risque, qui surveillent la conformité aux caractéristiques environnementales ou sociales promues en permanence par le fonds.

En outre, la Politique d'investissement responsable d'AMUNDI définit une approche active en matière d'engagement qui promeut le dialogue avec les sociétés bénéficiaires des investissements, y compris celles qui sont incluses dans le portefeuille de ce produit. Notre Rapport annuel en matière d'engagement, disponible à la page <https://about.amundi.com/esg-documentation>, fournit des informations détaillées sur cet engagement et ses résultats.

Quelles ont été les performances de ce produit financier par rapport à l'indice de référence ?

Ce produit ne dispose pas d'un Indice de référence ESG.

● En quoi l'indice de référence diffère-t-il de l'indice de marché large ?

Ce produit ne dispose pas d'un Indice de référence ESG.

● Quelles ont été les performances de ce produit financier par rapport aux indicateurs de durabilité pour déterminer l'alignement de l'indice de référence sur les caractéristiques environnementales ou sociales promues ?

Ce produit ne dispose pas d'un Indice de référence ESG.

● Quelle a été la performance de ce produit financier par rapport à l'indice de référence ?

Ce produit ne dispose pas d'un Indice de référence ESG.

● Quelle a été la performance de ce produit financier par rapport à l'indice de marché large ?

Ce produit ne dispose pas d'un Indice de référence ESG.

Un indice de référence est un indice qui sert à mesurer si le produit financier réalise les caractéristiques environnementales et/ou sociales qu'il promeut.

Modèle d'informations périodiques pour les produits financiers visés à l'Article 8, paragraphes 1, 2 et 2a, du Règlement (UE) 2019/2088 et à l'Article 6, premier paragraphe du Règlement (UE) 2020/852

Dénomination du produit : AMUNDI FUNDS
GLOBAL EQUITY ESG IMPROVERS

Identifiant d'entité juridique :
213800RO5QUY7UX5U822

Par investissement durable, on entend un investissement dans une activité économique qui contribue à un objectif environnemental ou social, pour autant qu'il ne cause de préjudice important à aucun de ces objectifs et que les sociétés détenues respectent les pratiques de bonne gouvernance.

La **Taxinomie de l'UE** est un système de classification institué par le Règlement (UE) 2020/852, qui dresse une liste d'**activités économiques durables sur le plan environnemental**. Ce règlement ne comprend pas de liste d'activités économiques durables sur le plan social. Les investissements durables ayant un objectif environnemental ne sont pas nécessairement alignés sur la taxinomie.

Caractéristiques environnementales et/ou sociales

Le produit financier avait-il un objectif d'investissement durable ?	
☒ ☒ ☐ Oui	☒ ☐ ☒ Non
☐ Il a réalisé des investissements durables ayant un objectif environnemental : _____ ☐ dans des activités économiques qui sont considérées comme durables sur le plan environnemental au titre de la Taxinomie de l'UE ☐ dans des activités économiques qui ne sont pas considérées comme durables sur le plan environnemental au titre de la Taxinomie de l'UE	☒ Il a promu des caractéristiques environnementales/sociales (E/S) et, bien qu'il n'ait pas eu pour objectif l'investissement durable, il contenait une proportion d'investissements durables de 53.16% ☐ ayant un objectif environnemental dans des activités économiques qui sont considérées comme durables sur le plan environnemental au titre de la Taxinomie de l'UE ☒ ayant un objectif environnemental dans des activités économiques qui ne sont pas considérées comme durables sur le plan environnemental au titre de la Taxinomie de l'UE ☐ ayant un objectif social
☐ Il a réalisé des investissements durables ayant un objectif social : _____ ☐ dans des activités économiques qui sont considérées comme durables sur le plan social au titre de la Taxinomie de l'UE ☐ dans des activités économiques qui ne sont pas considérées comme durables sur le plan social au titre de la Taxinomie de l'UE	☐ Il a promu des caractéristiques E/S, mais n'a pas réalisé d'investissements durables

Dans quelle mesure les caractéristiques environnementales et/ou sociales promues par ce produit financier ont-elles été réalisées ?

Au cours de l'exercice financier, le produit n'a cessé de promouvoir les caractéristiques environnementales et/ou sociales en cherchant à atteindre une note ESG supérieure à celle de son univers d'investissement **MSCI WORLD**. Pour déterminer la note ESG du Produit et de l'univers d'investissement ESG, la performance ESG a été évaluée de manière continue en comparant la performance moyenne d'un titre par rapport au secteur de l'émetteur du titre, pour chacune des trois caractéristiques, à savoir environnementale, sociale et de gouvernance.

L'univers d'investissement est un univers de marché large qui n'évalue ni n'inclut pas de composantes en fonction de caractéristiques environnementales et/ou sociales, et qui n'a par conséquent pas pour vocation d'être conforme aux caractéristiques promues par le fonds. Aucun indice de référence ESG n'a été désigné.

Le gestionnaire des investissements a concentré le processus de placement sur les entreprises/ secteurs/pays ayant suivi une trajectoire positive en termes de critères ESG au sein de leur activité, ou prévoyant de suivre une telle trajectoire. Le gestionnaire des investissements a identifié des opportunités de placement alignées sur l'objectif de génération d'alpha en se concentrant en particulier sur l'inclusion des entreprises/secteurs/pays qui seront de solides gagnants en termes de critères ESG à l'avenir, qui présentent (ou présenteront) une amélioration favorable du profil ESG, tout en investissant également dans des entreprises/secteurs/pays qui sont actuellement des références en matière d'ESG.

Par ailleurs, le Compartiment a obtenu pour son portefeuille une note ESG qui est supérieure à celle de l'Indice de référence. Le Compartiment a été comparé à la note ESG de son Indice de référence après avoir exclu dudit Indice de référence 20% des titres présentant les notes ESG les plus faibles.

Les indicateurs de durabilité évaluent la mesure dans laquelle les caractéristiques environnementales ou sociales promues par le produit financier sont atteintes.

● **Quelle performance ont affiché les indicateurs de durabilité ?**

Amundi a développé son propre processus de notation ESG interne, qui suit une approche « Best-in-class ». Les notations adaptées à chaque secteur d'activité ont pour objectif d'évaluer la dynamique dans laquelle interviennent les entreprises.

L'indicateur de durabilité employé est la note ESG du Produit mesurée en comparaison avec la note ESG de l'univers d'investissement ESG du Produit.

À la fin de la période :

- La note ESG moyenne pondérée du portefeuille est **0.292 (D)**.
- La note ESG moyenne pondérée de l'univers d'investissement ESG est **-0.179 (D)**.

La notation ESG Amundi utilisée pour déterminer la note ESG est une note ESG quantitative qui se décline en sept niveaux allant de A (les meilleures notes de l'univers) à G (les pires notes). Sur l'échelle de notation ESG d'Amundi, les titres figurant sur la liste d'exclusion correspondent à G. Pour les entreprises émettrices, la performance ESG est évaluée de manière globale et au niveau des critères pertinents par comparaison avec la performance moyenne du secteur, en combinant les trois dimensions ESG :

- Dimension environnementale : cette dimension examine la capacité des émetteurs à contrôler leur impact environnemental direct et indirect, en limitant leur consommation d'énergie, en réduisant leurs émissions de gaz à effet de serre, en luttant contre l'appauvrissement des ressources et en protégeant la biodiversité.
- Dimension sociale : cette dimension évalue le fonctionnement d'un émetteur dans deux domaines différents, à savoir sa stratégie de développement du capital humain et le respect des droits humains en général.
- Dimension de gouvernance : cette dimension évalue la capacité de l'émetteur à garantir les fondements d'un cadre de gouvernance d'entreprise efficace et à générer de la valeur sur le long terme.

La méthodologie appliquée par la notation ESG d'Amundi utilise 38 critères qui sont soit génériques (communs à toutes les entreprises, indépendamment de leur activité) soit spécifiques au secteur, et qui sont pondérés en fonction du secteur et considérés en termes d'impact sur la réputation, l'efficacité opérationnelle et les réglementations concernant un émetteur. Les notations ESG d'Amundi sont susceptibles d'être exprimées de manière globale pour les trois dimensions E, S et G, ou individuellement pour tout facteur environnemental ou social.

● **... et par rapport aux périodes antérieures ?**

À la fin de la période précédente, la note ESG moyenne pondérée du portefeuille était de 0.27 (D) et la note ESG moyenne pondérée de l'univers d'investissement ESG était de -0.12 (D).

● **Quels étaient les objectifs des investissements durables que le produit financier entendait partiellement réaliser, et comment l'investissement durable a-t-il contribué à ces objectifs ?**

Les objectifs des investissements durables sont d'investir dans des sociétés détenues qui cherchent à respecter deux critères :

1. suivre les bonnes pratiques environnementales et sociales ; et
2. éviter de fabriquer des produits ou de fournir des services qui nuisent à l'environnement et à la société.

Pour que la société bénéficiaire des investissements soit réputée contribuer à l'objectif susmentionné, elle doit figurer parmi les « meilleures performances » de son secteur d'activité pour au moins l'un de ses facteurs environnementaux ou sociaux importants.

La définition de « meilleures performances » repose sur la méthode ESG exclusive d'Amundi, dont l'objectif est de mesurer la performance ESG d'une société bénéficiaire des investissements. Pour être considérée comme l'une des « meilleures performances », une société bénéficiaire des investissements doit afficher l'une des trois premières notes (A, B ou C, sur une échelle de notation allant de A à G) dans son secteur pour au moins un facteur environnemental ou social important. Les facteurs environnementaux et sociaux sont identifiés à l'échelle des secteurs. L'identification des facteurs importants est basée sur le cadre d'analyse ESG d'Amundi qui combine des données extra-financières et une analyse qualitative du secteur associé et des questions de durabilité. Les facteurs identifiés comme importants représentent plus de 10 % de la note ESG globale. Par exemple pour le secteur de l'énergie, les facteurs importants sont les suivants : émissions et énergie, biodiversité et pollution, santé et sécurité, communautés locales et droits humains. Pour un aperçu plus complet des secteurs et des facteurs, veuillez consulter la Déclaration réglementaire ESG d'Amundi disponible sur www.amundi.lu

Pour contribuer aux objectifs ci-dessus, la société bénéficiaire des investissements ne doit pas avoir d'exposition significative aux activités (par ex. tabac, armes, jeux de hasard, charbon, aviation, production de viande, fabrication d'engrais et de pesticides, production de plastique à usage unique) incompatibles avec ces critères.

Le caractère durable d'un investissement est évalué au niveau de la société bénéficiaire des investissements.

Les principales incidences négatives correspondent aux incidences négatives les plus significatives des décisions d'investissement sur les facteurs de durabilité liés aux questions environnementales, sociales et de personnel, au respect des droits humains et à la lutte contre la corruption et les actes de corruption.

● ***Dans quelle mesure les investissements durables que le produit financier a partiellement réalisés n'ont-ils pas causé de préjudice important à un objectif d'investissement durable sur le plan environnemental ou social ?***

Pour s'assurer que les investissements durables ne causent pas de préjudice important (principe « Do no significant harm » ou « DNSH » en anglais), Amundi utilise deux filtres :

Le premier filtre de DNSH repose sur le contrôle des indicateurs obligatoires des Principales incidences négatives de l'Annexe 1, Tableau 1 des normes techniques réglementaires (RTS) lorsqu'il existe des données fiables (par ex. Intensité des GES des sociétés bénéficiaires des investissements) via une combinaison d'indicateurs (par ex. intensité carbone) et des seuils ou règles spécifiques (par ex. que l'intensité carbone de la société bénéficiaire des investissements n'appartient pas au dernier décile du secteur).

Dans sa politique d'exclusion qui fait partie intégrante de sa Politique d'investissement responsable, Amundi tient d'ores et déjà compte de Principales incidences négatives spécifiques. Ces exclusions, qui s'appliquent en sus des tests détaillés ci-dessus, couvrent les sujets suivants : exclusions sur les armes controversées, les violations des principes du Pacte mondial des Nations Unies, le charbon et le tabac.

Au-delà des facteurs de durabilité spécifiques couverts par le premier filtre, Amundi a défini un second filtre, qui ne tient pas compte des indicateurs obligatoires des Principales incidences négatives ci-dessus, afin de vérifier que la société n'affiche pas de mauvaises performances d'un point de vue environnemental ou social global par rapport aux autres entreprises de son secteur, ce qui correspond à un score environnemental ou social supérieur ou égal à E selon la notation ESG d'Amundi.

- ***Comment les indicateurs concernant les incidences négatives sur les facteurs de durabilité ont-ils été pris en considération ?***

Les indicateurs d'incidences négatives ont été pris en compte comme détaillé dans le premier filtre DNSH ci-dessus.

Le premier filtre DNSH repose sur le contrôle des indicateurs obligatoires des Principales incidences négatives de l'Annexe 1, Tableau 1 du Règlement délégué (UE) 2022/1288 lorsqu'il existe des données fiables via la combinaison des indicateurs suivants et de seuils ou règles spécifiques :

- une intensité en CO2 qui n'appartient pas au dernier décile par rapport aux autres entreprises du secteur (ne s'applique qu'aux secteurs à forte intensité) ;
- un Conseil d'administration dont le niveau de diversité n'appartient pas au dernier décile par rapport aux autres sociétés du secteur ;
- ne pas faire l'objet de controverse relative aux conditions de travail et aux droits humains ; et
- ne pas faire l'objet de controverse relative à la biodiversité et à la pollution.

Dans sa politique d'exclusion qui fait partie intégrante de sa Politique d'investissement responsable, Amundi tient d'ores et déjà compte de Principales incidences négatives spécifiques. Ces exclusions, qui s'appliquent en sus des tests détaillés ci-dessus, couvrent les sujets suivants : exclusions sur les armes controversées, les violations des principes du Pacte mondial des Nations Unies, le charbon et le tabac.

- **Les investissements durables étaient-ils conformes aux Principes directeurs de l'OCDE à l'intention des entreprises multinationales et aux Principes directeurs des Nations unies relatifs aux entreprises et aux droits humains ? Description détaillée :**

Oui, les Principes directeurs de l'OCDE à l'intention des entreprises multinationales et les Principes directeurs des Nations unies relatifs aux entreprises et aux droits humains sont intégrés à notre méthode de notation ESG. Notre outil de notation ESG exclusif évalue les émetteurs à l'aide des données disponibles auprès de nos fournisseurs de données. Par exemple, le modèle dispose d'un critère dédié appelé « Implication dans la communauté et droits humains » qui s'applique à tous les secteurs en plus d'autres critères liés aux droits humains, y compris les chaînes d'approvisionnement socialement responsables, les conditions de travail et les relations de travail. En outre, nous effectuons un contrôle des controverses au moins une fois par trimestre, y compris sur les entreprises identifiées pour des violations des droits humains. En cas de controverse, les analystes évaluent la situation, lui donnent une note (à l'aide de notre méthode de notation exclusive) et déterminent la marche à suivre. Les notes de controverse sont mises à jour chaque trimestre pour suivre les tendances et les efforts de correction.

La Taxinomie de l'UE définit un principe consistant à « ne pas causer de préjudice important » (« Do not significant harm » ou DNSH) en vertu duquel les investissements alignés sur la Taxinomie ne doivent pas causer de préjudice important aux objectifs de la Taxinomie de l'UE et s'accompagnent de critères de l'UE spécifiques.

Le principe consistant à « ne pas causer de préjudice important » ne s'applique qu'aux investissements sous-jacents du produit financier qui tiennent compte des critères de l'UE pour les activités économiques durables sur le plan environnemental. Les investissements sous-jacents de la portion restante de ce produit financier ne tiennent pas compte des critères de l'UE en matière d'activités économiques durables sur le plan environnemental.

Tout autre investissement durable doit également se conformer au principe consistant à ne pas causer de préjudice important aux objectifs environnementaux ou sociaux.

Dans quelle mesure ce produit financier a-t-il pris en considération les principales incidences négatives sur les facteurs de durabilité ?

Le produit tient compte de toutes les Principales incidences négatives obligatoires en vertu de l'Annexe 1, Tableau 1 du Règlement délégué (UE) 2022/1288 applicables à la stratégie du produit et s'appuie sur une combinaison de politiques d'exclusion (normatives et sectorielles) et d'approches d'engagement et de vote :

- Exclusion : Amundi a défini des règles d'exclusion normatives, basées sur l'activité et les secteurs, qui couvrent certains des principaux indicateurs négatifs de durabilité énumérés par le Règlement Disclosure (sur la publication d'informations).
- Intégration des facteurs ESG : Amundi a adopté des normes d'intégration ESG minimales appliquées par défaut à ses fonds de type ouvert activement gérés (exclusion des émetteurs ayant la note G et meilleure note ESG moyenne pondérée supérieure à celle de l'indice de référence applicable). Les 38 critères employés dans la stratégie de notation ESG d'Amundi ont également été conçus pour tenir compte des principaux impacts sur les facteurs de durabilité, ainsi que de la qualité de la réduction entreprise en la matière.
- Engagement : L'engagement est un processus continu et ciblé qui vise à influencer les activités ou le comportement des sociétés bénéficiaires des investissements. L'objectif des activités d'engagement peut se diviser en deux catégories : impliquer un émetteur pour améliorer la manière dont il intègre la dimension environnementale et sociale ou impliquer un émetteur pour améliorer son impact sur les questions environnementales, sociales et

liées aux droits humains ou d'autres questions de durabilité qui sont importantes pour la société au sens large et l'économie mondiale.

- Vote : La politique de vote d'Amundi répond à une analyse globale de toutes les questions à long terme qui peuvent influencer la création de valeur, y compris les questions ESG importantes. pour plus d'informations, veuillez consulter la Politique de vote d'Amundi.
- Surveillance des controverses : Amundi a développé un système de suivi des controverses qui s'appuie sur trois fournisseurs de données externes pour suivre systématiquement l'évolution des controverses et leur niveau de gravité. Cette approche quantitative est ensuite enrichie d'une évaluation approfondie de chaque controverse grave, menée par des analystes ESG, puis d'un examen périodique de son évolution. Cette approche s'applique à tous les fonds d'Amundi.

Pour de plus amples détails sur le mode de prise en compte des indicateurs relatifs aux Principales incidences négatives obligatoires, veuillez consulter la Déclaration sur la publication d'informations en matière de finance durable d'Amundi disponible sur www.amundi.com.

Quels étaient les principaux investissements de ce produit financier ?

La liste inclut les investissements qui constituent la proportion la plus importante d'investissements du produit financier au cours de la période de référence, à savoir : du 01/07/2023 au 30/06/2024

Principaux investissements	Secteur	Sous-secteur	Pays	% des actifs
MICROSOFT CORP	Technologies de l'information	Logiciels et services	États-Unis	7.42%
NVIDIA CORP	Technologies de l'information	Semi-conducteurs et équipement pour semi-conducteurs	États-Unis	6.04%
ALPHABET INC CL A	Services de communication	Médias et loisirs	États-Unis	4.56%
APPLE INC	Technologies de l'information	Matériel et équipement technologiques	États-Unis	4.38%
SUMITOMO MITSUI FINAN	Obligations financières	Banques	Japon	3.21%
JP MORGAN CHASE & CO	Obligations financières	Banques	États-Unis	2.93%
ING GROEP NV	Obligations financières	Banques	Pays-Bas	2.84%
MASTERCARD INC-CL A	Obligations financières	Services financiers	États-Unis	2.59%
AXA SA	Obligations financières	Assurance	France	2.56%
GRAPHIC PACKAGING	Matériaux	Conteneurs et emballage	États-Unis	2.55%
SONY GROUP CORP (JT)	Consommation discrétionnaire	Biens de consommation durables et habillement	Japon	2.34%
SCHNEIDER ELECT SE	Industrie	Biens d'équipement	France	2.33%
TAIWAN SEMICONDUCTOR-SP ADR	Technologies de l'information	Semi-conducteurs et équipement pour semi-conducteurs	Taïwan	2.17%
SHELL PLC	Énergie	Pétrole, gaz et combustibles	Royaume-Uni	2.15%
ORIX CORP	Obligations financières	Services financiers	Japon	2.11%

Quelle était la proportion d'investissements liés à la durabilité ?

● Quelle était l'allocation d'actifs ?

L'allocation d'actifs décrit la part des investissements dans des actifs spécifiques.

● Dans quels secteurs économiques ont été réalisés les investissements ?

Secteur	Sous-secteur	% des actifs
Technologies de l'information	Semi-conducteurs et équipement pour semi-conducteurs	12.65%
Technologies de l'information	Logiciels et services	12.47%
Industrie	Biens d'équipement	9.48%
Obligations financières	Banques	8.98%
Santé	Pharmacie, biotechnologie et sciences de la vie	7.10%

<i>Énergie</i>	<i>Pétrole, gaz et combustibles</i>	<i>5.35%</i>
<i>Biens de consommation de base</i>	<i>Alimentation, boissons et tabac</i>	<i>4.93%</i>
<i>Obligations financières</i>	<i>Services financiers</i>	<i>4.70%</i>
<i>Consommation discrétionnaire</i>	<i>Distribution et vente au détail de biens de consommation discrétionnaires</i>	<i>4.67%</i>
<i>Services de communication</i>	<i>Médias et loisirs</i>	<i>4.56%</i>
<i>Technologies de l'information</i>	<i>Matériel et équipement technologiques</i>	<i>4.38%</i>
<i>Matériaux</i>	<i>Conteneurs et emballage</i>	<i>3.77%</i>
<i>Santé</i>	<i>Matériel et services de santé</i>	<i>2.94%</i>
<i>Obligations financières</i>	<i>Assurance</i>	<i>2.56%</i>
<i>Consommation discrétionnaire</i>	<i>Biens de consommation durables et habillement</i>	<i>2.34%</i>
<i>Industrie</i>	<i>Services commerciaux et professionnels</i>	<i>1.98%</i>
<i>Consommation discrétionnaire</i>	<i>Automobiles et composants</i>	<i>1.84%</i>
<i>Matériaux</i>	<i>Chimie</i>	<i>1.64%</i>

Liquidités	Liquidités	0.63%

Aux fins d'observer la taxinomie de l'UE, les critères relatifs au **gaz fossile** incluent des limites aux émissions et le passage à une énergie entièrement renouvelable ou à des combustibles à faible teneur en carbone d'ici fin 2035. Pour l'**énergie nucléaire**, les critères incluent des règles exhaustives de sécurité et de gestion des déchets.

Les activités habilitantes permettent directement à d'autres activités de contribuer de manière substantielle à la réalisation d'un objectif environnemental.

Les activités transitoires sont des activités pour lesquelles il n'existe pas encore de solution de remplacement sobre en carbone et, entre autres, dont les niveaux d'émission de gaz à effet de serre correspondent aux meilleures performances réalisables.

Dans quelle mesure les investissements durables ayant un objectif environnemental étaient-ils alignés sur la Taxinomie de l'UE ?

Le fonds promeut des caractéristiques tant environnementales que sociales. Si le fonds ne s'est pas engagé à réaliser des investissements alignés sur la Taxinomie de l'UE, au cours de la période sous revue, il a cependant investi 0.48% dans des investissements durables alignés sur la Taxinomie de l'UE. De tels investissements ont contribué aux objectifs d'atténuation du changement climatique de la taxinomie de l'UE.

L'alignement des sociétés bénéficiaires des investissements sur les objectifs de la taxinomie de l'UE susmentionnés est évalué à l'aide du chiffre d'affaires (ou des revenus) et/ou des données d'utilisation des produits des obligations vertes.

Le pourcentage communiqué d'alignement des investissements du fonds sur la Taxinomie de l'UE n'a pas été audité par le réviseur d'entreprises agréé du fonds ni par aucun tiers.

Le produit financier a-t-il investi dans des activités liées au gaz fossile et/ou à l'énergie nucléaire qui sont conformes à la Taxinomie de l'UE¹ ?

☐

Oui :

☐

Dans le gaz fossile

☐

Dans l'énergie nucléaire

☒

Non

Aucune donnée fiable concernant l'alignement sur les activités de gaz fossile et d'énergie nucléaire conformes à la Taxinomie de l'UE n'était disponible sur la période.

¹Les activités liées au gaz fossile et/ou à l'énergie nucléaire ne seront conformes à la Taxinomie de l'UE que si elles contribuent à limiter le changement climatique (« atténuation du changement climatique ») et ne causent pas de préjudice important à tout objectif de la Taxinomie de l'UE. L'intégralité des critères relatifs aux activités économiques liées au gaz fossile et à l'énergie nucléaire conformes à la Taxinomie de l'UE sont définis dans le Règlement délégué (UE) 2022/1214 de la Commission.

Les activités alignées sur la taxinomie sont exprimées en pourcentage :

- du chiffre d'affaires pour refléter la part des revenus provenant des activités vertes des sociétés bénéficiaires d'investissements ;
- des dépenses d'investissement (CapEx) pour montrer les investissements verts réalisés par les sociétés bénéficiaires d'investissements, pour une transition vers une économie verte, par exemple ; et
- des dépenses d'exploitation (OpEx) pour refléter les activités opérationnelles vertes des sociétés bénéficiaires d'investissements.

Les graphiques ci-dessous font apparaître en vert le pourcentage d'investissements alignés sur la Taxinomie de l'UE. Étant donné qu'il n'existe pas de méthodologie appropriée pour déterminer l'alignement des obligations souveraines* sur la taxinomie, le premier graphique montre l'alignement sur la Taxinomie par rapport à tous les investissements du produit financier, y compris les obligations souveraines, tandis que le deuxième graphique représente l'alignement sur la Taxinomie uniquement par rapport aux investissements du produit financier autres que les obligations souveraines.

* Aux fins de ces graphiques, les « obligations souveraines » comprennent toutes les expositions souveraines

● Quelle était la part d'investissements dans les activités transitoires et habilitantes ?

Au 30/06/2024, en utilisant le chiffre d'affaires et/ou les données d'utilisation des produits des obligations vertes comme indicateur, la part d'investissements du fonds dans les activités transitoires était de 0.00% et la part d'investissements dans les activités habilitantes était de 0.48%. Le pourcentage communiqué d'alignement des investissements du fonds sur la Taxinomie de l'UE n'a pas été audité par le réviseur d'entreprises agréé du fonds ni par aucun tiers.

● Comment se situe le pourcentage d'investissements alignés sur la Taxinomie de l'UE par rapport aux périodes de référence antérieures ?

À la fin de la période précédente, le pourcentage d'investissements alignés sur la taxinomie était de 0.31%.

Quelle était la part des investissements durables ayant un objectif environnemental qui n'étaient pas alignés sur la Taxinomie de l'UE ?

La part des investissements durables ayant un objectif environnemental et non alignés sur la taxinomie était de 38.96% à la fin de la période.

Cela tient du fait que certains émetteurs sont considérés comme investissements durables en vertu du Règlement SFDR mais qu'une portion de leurs activités n'est pas alignée sur les standards de la taxinomie de l'UE, ou que les données correspondantes ne sont pas encore disponibles en vue d'une évaluation relative à la taxinomie de l'UE.

Quelle était la part d'investissements durables sur le plan social ?

La proportion des investissements durables sur le plan social était de 13.72% à la fin de la période.

Quels investissements étaient inclus dans la catégorie « Autres », quelle était leur finalité et existait-il des garanties environnementales ou sociales minimales ?

Sont inclus dans la catégorie « N° 2 Autres » les liquidités et autres instruments détenus aux fins de gestion de la liquidité et des risques du portefeuille. Pour les obligations et actions non notées, des garanties environnementales et sociales minimales ont été mises en place par le biais d'un filtrage des émetteurs en rapport aux activités controversées définies dans les principes du Pacte mondial des Nations unies. Elle peut également inclure des titres sans notation ESG pour lesquels les données nécessaires à la mesure de la réalisation des caractéristiques environnementales ou sociales ne sont pas disponibles.

Quelles mesures ont-elles été prises pour réaliser les caractéristiques environnementales et/ou sociales au cours de la période de référence ?

Des indicateurs de durabilité sont mis à disposition de manière continue dans le système de gestion du portefeuille pour permettre aux gestionnaires du portefeuille d'évaluer l'impact de leurs décisions d'investissement.

Ces indicateurs sont intégrés au cadre de contrôle d'AMUNDI, en répartissant les responsabilités entre le premier niveau de contrôles réalisés par les équipes Investissement elles-mêmes, et le second niveau de contrôles réalisé par les équipes Risque, qui surveillent la conformité aux caractéristiques environnementales ou sociales promues en permanence par le fonds.

En outre, la Politique d'investissement responsable d'AMUNDI définit une approche active en matière d'engagement qui promeut le dialogue avec les sociétés bénéficiaires des investissements, y compris celles qui sont incluses dans le portefeuille de ce produit. Notre Rapport annuel en matière d'engagement, disponible à la page <https://about.amundi.com/esg-documentation>, fournit des informations détaillées sur cet engagement et ses résultats.

Quelles ont été les performances de ce produit financier par rapport à l'indice de référence ?

Un indice de référence est un indice qui sert à mesurer si le produit financier réalise les caractéristiques environnementales et/ou sociales qu'il promeut.

Ce produit ne dispose pas d'un Indice de référence ESG.

● *En quoi l'indice de référence diffère-t-il de l'indice de marché large ?*

Ce produit ne dispose pas d'un Indice de référence ESG.

● *Quelles ont été les performances de ce produit financier par rapport aux indicateurs de durabilité pour déterminer l'alignement de l'indice de référence sur les caractéristiques environnementales ou sociales promues ?*

Ce produit ne dispose pas d'un Indice de référence ESG.

● *Quelle a été la performance de ce produit financier par rapport à l'indice de référence ?*

Ce produit ne dispose pas d'un Indice de référence ESG.

● *Quelle a été la performance de ce produit financier par rapport à l'indice de marché large ?*

Ce produit ne dispose pas d'un Indice de référence ESG.

Modèle d'informations périodiques pour les produits financiers visés à l'Article 8, paragraphes 1, 2 et 2a, du Règlement (UE) 2019/2088 et à l'Article 6, premier paragraphe du Règlement (UE) 2020/852

Dénomination du produit : AMUNDI FUNDS
NET ZERO AMBITION GLOBAL EQUITY

Identifiant d'entité juridique :
213800EAAYY2IPNSZZ69

Par investissement durable, on entend un investissement dans une activité économique qui contribue à un objectif environnemental ou social, pour autant qu'il ne cause de préjudice important à aucun de ces objectifs et que les sociétés détenues respectent les pratiques de bonne gouvernance.

La Taxinomie de l'UE est un système de classification institué par le Règlement (UE) 2020/852, qui dresse une liste d'**activités économiques durables sur le plan environnemental**. Ce règlement ne comprend pas de liste d'activités économiques durables sur le plan social. Les investissements durables ayant un objectif environnemental ne sont pas nécessairement alignés sur la taxinomie.

Caractéristiques environnementales et/ou sociales

Le produit financier avait-il un objectif d'investissement durable ?	
☒ ☐ Oui	☒ ☐ Non
☐ Il a réalisé des investissements durables ayant un objectif environnemental : _____ ☐ dans des activités économiques qui sont considérées comme durables sur le plan environnemental au titre de la Taxinomie de l'UE ☐ dans des activités économiques qui ne sont pas considérées comme durables sur le plan environnemental au titre de la Taxinomie de l'UE	☒ Il a promu des caractéristiques environnementales/sociales (E/S) et, bien qu'il n'ait pas eu pour objectif l'investissement durable, il contenait une proportion d'investissements durables de 71.08% ☐ ayant un objectif environnemental dans des activités économiques qui sont considérées comme durables sur le plan environnemental au titre de la Taxinomie de l'UE ☒ ayant un objectif environnemental dans des activités économiques qui ne sont pas considérées comme durables sur le plan environnemental au titre de la Taxinomie de l'UE ☐ ayant un objectif social
☐ Il a réalisé des investissements durables ayant un objectif social : _____ ☐ ayant un objectif social	☐ Il a promu des caractéristiques E/S, mais n'a pas réalisé d'investissements durables

Dans quelle mesure les caractéristiques environnementales et/ou sociales promues par ce produit financier ont-elles été réalisées ?

Au cours de l'exercice financier, le produit n'a cessé de promouvoir les caractéristiques environnementales et/ou sociales en cherchant à atteindre une note ESG supérieure à celle de son univers d'investissement **MSCI WORLD CLIMATE PARIS ALIGNED**. Pour déterminer la note ESG du Produit et de l'univers d'investissement ESG, la performance ESG a été évaluée de manière continue en comparant la performance moyenne d'un titre par rapport au secteur de l'émetteur du titre, pour chacune des trois caractéristiques, à savoir environnementale, sociale et de gouvernance.

L'univers d'investissement est un univers de marché large qui n'évalue ni n'inclut pas de composantes en fonction de caractéristiques environnementales et/ou sociales, et qui n'a par conséquent pas pour vocation d'être conforme aux caractéristiques promues par le fonds. Aucun indice de référence ESG n'a été désigné.

Au cours de l'exercice financier, le produit n'a cessé de promouvoir les caractéristiques environnementales en cherchant à réduire son intensité carbone à travers l'alignement de l'intensité de l'empreinte carbone sur celle de son Indice de référence **MSCI WORLD CLIMATE PARIS ALIGNED**.

Les indicateurs de durabilité évaluent la mesure dans laquelle les caractéristiques environnementales ou sociales promues par le produit financier sont atteintes.

● **Quelle performance ont affiché les indicateurs de durabilité ?**

Amundi a développé son propre processus de notation ESG interne, qui suit une approche « Best-in-class ». Les notations adaptées à chaque secteur d'activité ont pour objectif d'évaluer la dynamique dans laquelle interviennent les entreprises.

L'indicateur de durabilité employé est la note ESG du Produit mesurée en comparaison avec la note ESG de l'univers d'investissement ESG du Produit.

À la fin de la période :

- La note ESG moyenne pondérée du portefeuille est **0.522 (C)**.
- La note ESG moyenne pondérée de l'univers d'investissement ESG est **0.012 (D)**.

La notation ESG Amundi utilisée pour déterminer la note ESG est une note ESG quantitative qui se décline en sept niveaux allant de A (les meilleures notes de l'univers) à G (les pires notes). Sur l'échelle de notation ESG d'Amundi, les titres figurant sur la liste d'exclusion correspondent à G. Pour les entreprises émettrices, la performance ESG est évaluée de manière globale et au niveau des critères pertinents par comparaison avec la performance moyenne du secteur, en combinant les trois dimensions ESG :

- Dimension environnementale : cette dimension examine la capacité des émetteurs à contrôler leur impact environnemental direct et indirect, en limitant leur consommation d'énergie, en réduisant leurs émissions de gaz à effet de serre, en luttant contre l'appauvrissement des ressources et en protégeant la biodiversité.
- Dimension sociale : cette dimension évalue le fonctionnement d'un émetteur dans deux domaines différents, à savoir sa stratégie de développement du capital humain et le respect des droits humains en général.
- Dimension de gouvernance : cette dimension évalue la capacité de l'émetteur à garantir les fondements d'un cadre de gouvernance d'entreprise efficace et à générer de la valeur sur le long terme.

La méthodologie appliquée par la notation ESG d'Amundi utilise 38 critères qui sont soit génériques (communs à toutes les entreprises, indépendamment de leur activité) soit spécifiques au secteur, et qui sont pondérés en fonction du secteur et considérés en termes d'impact sur la réputation, l'efficacité opérationnelle et les réglementations concernant un émetteur. Les notations ESG d'Amundi sont susceptibles d'être exprimées de manière globale pour les trois dimensions E, S et G, ou individuellement pour tout facteur environnemental ou social.

L'indicateur de durabilité utilisé est l'intensité de l'empreinte carbone du portefeuille, qui est calculée comme une moyenne pondérée des actifs du portefeuille et comparée à l'intensité de l'empreinte carbone pondérée des actifs de l'Indice de référence. Par conséquent, les titres présentant une empreinte environnementale relativement faible avaient une probabilité plus élevée d'être sélectionnés dans le portefeuille, comparés aux titres présentant une empreinte environnementale relativement élevée.

- L'intensité de l'empreinte carbone moyenne pondérée du portefeuille est **55.01**
- L'intensité de l'empreinte carbone moyenne pondérée de l'Indice de référence est **66.13**

● **... et par rapport aux périodes antérieures ?**

À la fin de la période précédente, la note ESG moyenne pondérée du portefeuille était de **0.66 (C)** et la note ESG moyenne pondérée de l'univers d'investissement ESG était de **0.04 (D)**. À la fin de la période précédente, l'intensité carbone moyenne pondérée du portefeuille était de **72.84** et l'intensité carbone moyenne pondérée de l'indice de référence était de **74.69**.

● **Quels étaient les objectifs des investissements durables que le produit financier entendait partiellement réaliser, et comment l'investissement durable a-t-il contribué à ces objectifs ?**

Les objectifs des investissements durables sont d'investir dans des sociétés détenues qui cherchent à respecter deux critères :

1. suivre les bonnes pratiques environnementales et sociales ; et
2. éviter de fabriquer des produits ou de fournir des services qui nuisent à l'environnement et à la société.

Pour que la société bénéficiaire des investissements soit réputée contribuer à l'objectif susmentionné, elle doit figurer parmi les « meilleures performances » de son secteur d'activité pour au moins l'un de ses facteurs environnementaux ou sociaux importants.

La définition de « meilleures performances » repose sur la méthode ESG exclusive d'Amundi, dont l'objectif est de mesurer la performance ESG d'une société bénéficiaire des investissements. Pour être considérée comme l'une des « meilleures performances », une société bénéficiaire des investissements doit afficher l'une des trois premières notes (A, B ou C, sur une échelle de notation allant de A à G) dans son secteur pour au moins un facteur environnemental ou social important. Les facteurs environnementaux et sociaux sont identifiés à l'échelle des secteurs. L'identification des facteurs importants est basée sur le cadre d'analyse ESG d'Amundi qui combine des données extra-financières et une analyse qualitative du secteur associé et des questions de durabilité. Les facteurs identifiés comme importants représentent plus de 10 % de la note ESG globale. Par exemple pour le secteur de l'énergie, les facteurs importants sont les suivants : émissions et énergie, biodiversité et pollution, santé et sécurité, communautés locales et droits humains. Pour un aperçu plus complet des secteurs et des facteurs, veuillez consulter la Déclaration réglementaire ESG d'Amundi disponible sur www.amundi.lu

Pour contribuer aux objectifs ci-dessus, la société bénéficiaire des investissements ne doit pas avoir d'exposition significative aux activités (par ex. tabac, armes, jeux de hasard, charbon, aviation, production de viande, fabrication d'engrais et de pesticides, production de plastique à usage unique) incompatibles avec ces critères.

Le caractère durable d'un investissement est évalué au niveau de la société bénéficiaire des investissements.

Les principales incidences négatives correspondent aux incidences négatives les plus significatives des décisions d'investissement sur les facteurs de durabilité liés aux questions environnementales, sociales et de personnel, au respect des droits humains et à la lutte contre la corruption et les actes de corruption.

● ***Dans quelle mesure les investissements durables que le produit financier a partiellement réalisés n'ont-ils pas causé de préjudice important à un objectif d'investissement durable sur le plan environnemental ou social ?***

Pour s'assurer que les investissements durables ne causent pas de préjudice important (principe « Do no significant harm » ou « DNSH » en anglais), Amundi utilise deux filtres :

Le premier filtre de DNSH repose sur le contrôle des indicateurs obligatoires des Principales incidences négatives de l'Annexe 1, Tableau 1 des normes techniques réglementaires (RTS) lorsqu'il existe des données fiables (par ex. Intensité des GES des sociétés bénéficiaires des investissements) via une combinaison d'indicateurs (par ex. intensité carbone) et des seuils ou règles spécifiques (par ex. que l'intensité carbone de la société bénéficiaire des investissements n'appartient pas au dernier décile du secteur).

Dans sa politique d'exclusion qui fait partie intégrante de sa Politique d'investissement responsable, Amundi tient d'ores et déjà compte de Principales incidences négatives spécifiques. Ces exclusions, qui s'appliquent en sus des tests détaillés ci-dessus, couvrent les sujets suivants : exclusions sur les armes controversées, les violations des principes du Pacte mondial des Nations Unies, le charbon et le tabac.

Au-delà des facteurs de durabilité spécifiques couverts par le premier filtre, Amundi a défini un second filtre, qui ne tient pas compte des indicateurs obligatoires des Principales incidences négatives ci-dessus, afin de vérifier que la société n'affiche pas de mauvaises performances d'un point de vue environnemental ou social global par rapport aux autres entreprises de son secteur, ce qui correspond à un score environnemental ou social supérieur ou égal à E selon la notation ESG d'Amundi.

- ***Comment les indicateurs concernant les incidences négatives sur les facteurs de durabilité ont-ils été pris en considération ?***

Les indicateurs d'incidences négatives ont été pris en compte comme détaillé dans le premier filtre DNSH ci-dessus.

Le premier filtre DNSH repose sur le contrôle des indicateurs obligatoires des Principales incidences négatives de l'Annexe 1, Tableau 1 du Règlement délégué (UE) 2022/1288 lorsqu'il existe des données fiables via la combinaison des indicateurs suivants et de seuils ou règles spécifiques :

- une intensité en CO2 qui n'appartient pas au dernier décile par rapport aux autres entreprises du secteur (ne s'applique qu'aux secteurs à forte intensité) ;
- un Conseil d'administration dont le niveau de diversité n'appartient pas au dernier décile par rapport aux autres sociétés du secteur ;
- ne pas faire l'objet de controverse relative aux conditions de travail et aux droits humains ; et

- ne pas faire l'objet de controverse relative à la biodiversité et à la pollution.

Dans sa politique d'exclusion qui fait partie intégrante de sa Politique d'investissement responsable, Amundi tient d'ores et déjà compte de Principales incidences négatives spécifiques. Ces exclusions, qui s'appliquent en sus des tests détaillés ci-dessus, couvrent les sujets suivants : exclusions sur les armes controversées, les violations des principes du Pacte mondial des Nations Unies, le charbon et le tabac.

- **Les investissements durables étaient-ils conformes aux Principes directeurs de l'OCDE à l'intention des entreprises multinationales et aux Principes directeurs des Nations unies relatifs aux entreprises et aux droits humains ? Description détaillée :**

Oui, les Principes directeurs de l'OCDE à l'intention des entreprises multinationales et les Principes directeurs des Nations unies relatifs aux entreprises et aux droits humains sont intégrés à notre méthode de notation ESG. Notre outil de notation ESG exclusif évalue les émetteurs à l'aide des données disponibles auprès de nos fournisseurs de données. Par exemple, le modèle dispose d'un critère dédié appelé « Implication dans la communauté et droits humains » qui s'applique à tous les secteurs en plus d'autres critères liés aux droits humains, y compris les chaînes d'approvisionnement socialement responsables, les conditions de travail et les relations de travail. En outre, nous effectuons un contrôle des controverses au moins une fois par trimestre, y compris sur les entreprises identifiées pour des violations des droits humains. En cas de controverse, les analystes évaluent la situation, lui donnent une note (à l'aide de notre méthode de notation exclusive) et déterminent la marche à suivre. Les notes de controverse sont mises à jour chaque trimestre pour suivre les tendances et les efforts de correction.

La Taxinomie de l'UE définit un principe consistant à « ne pas causer de préjudice important » (« Do not significant harm » ou DNSH) en vertu duquel les investissements alignés sur la Taxinomie ne doivent pas causer de préjudice important aux objectifs de la Taxinomie de l'UE et s'accompagnent de critères de l'UE spécifiques.

Le principe consistant à « ne pas causer de préjudice important » ne s'applique qu'aux investissements sous-jacents du produit financier qui tiennent compte des critères de l'UE pour les activités économiques durables sur le plan environnemental. Les investissements sous-jacents de la portion restante de ce produit financier ne tiennent pas compte des critères de l'UE en matière d'activités économiques durables sur le plan environnemental.

Tout autre investissement durable doit également se conformer au principe consistant à ne pas causer de préjudice important aux objectifs environnementaux ou sociaux.

Dans quelle mesure ce produit financier a-t-il pris en considération les principales incidences négatives sur les facteurs de durabilité ?

Le produit tient compte de toutes les Principales incidences négatives obligatoires en vertu de l'Annexe 1, Tableau 1 du Règlement délégué (UE) 2022/1288 applicables à la stratégie du produit et s'appuie sur une combinaison de politiques d'exclusion (normatives et sectorielles) et d'approches d'engagement et de vote :

- Exclusion : Amundi a défini des règles d'exclusion normatives, basées sur l'activité et les secteurs, qui couvrent certains des principaux indicateurs négatifs de durabilité énumérés par le Règlement Disclosure (sur la publication d'informations).
- Intégration des facteurs ESG : Amundi a adopté des normes d'intégration ESG minimales appliquées par défaut à ses fonds de type ouvert activement gérés (exclusion des émetteurs ayant la note G et meilleure note ESG moyenne pondérée supérieure à celle de l'indice de référence applicable). Les 38 critères employés dans la stratégie de notation ESG d'Amundi ont également été conçus pour tenir compte des principaux impacts sur les facteurs de durabilité, ainsi que de la qualité de la réduction entreprise en la matière.
- Engagement : L'engagement est un processus continu et ciblé qui vise à influencer les activités ou le comportement des sociétés bénéficiaires des investissements. L'objectif des

activités d'engagement peut se diviser en deux catégories : impliquer un émetteur pour améliorer la manière dont il intègre la dimension environnementale et sociale ou impliquer un émetteur pour améliorer son impact sur les questions environnementales, sociales et liées aux droits humains ou d'autres questions de durabilité qui sont importantes pour la société au sens large et l'économie mondiale.

- **Vote :** La politique de vote d'Amundi répond à une analyse globale de toutes les questions à long terme qui peuvent influencer la création de valeur, y compris les questions ESG importantes. pour plus d'informations, veuillez consulter la Politique de vote d'Amundi.
- **Surveillance des controverses :** Amundi a développé un système de suivi des controverses qui s'appuie sur trois fournisseurs de données externes pour suivre systématiquement l'évolution des controverses et leur niveau de gravité. Cette approche quantitative est ensuite enrichie d'une évaluation approfondie de chaque controverse grave, menée par des analystes ESG, puis d'un examen périodique de son évolution. Cette approche s'applique à tous les fonds d'Amundi.

Pour de plus amples détails sur le mode de prise en compte des indicateurs relatifs aux Principales incidences négatives obligatoires, veuillez consulter la Déclaration sur la publication d'informations en matière de finance durable d'Amundi disponible sur www.amundi.com.

Quels étaient les principaux investissements de ce produit financier ?

La liste inclut les investissements qui constituent **la proportion la plus importante d'investissements** du produit financier au cours de la période de référence, à savoir : du **01/07/2023** au **30/06/2024**

Principaux investissements	Secteur	Sous-secteur	Pays	% des actifs
MICROSOFT CORP	Technologies de l'information	Logiciels et services	États-Unis	7.72%
NVIDIA CORP	Technologies de l'information	Semi-conducteurs et équipement pour semi-conducteurs	États-Unis	5.61%
JPMORGAN CHASE & CO	Obligations financières	Banques	États-Unis	3.22%
MERCK & CO. INC.	Santé	Pharmacie, biotechnologie et sciences de la vie	États-Unis	2.46%

Aux fins d'observer la taxinomie de l'UE, les critères relatifs au **gaz fossile** incluent des limites aux émissions et le passage à une énergie entièrement renouvelable ou à des combustibles à faible teneur en carbone d'ici fin 2035. Pour l'**énergie nucléaire**, les critères incluent des règles exhaustives de sécurité et de gestion des déchets.

Les activités habilitantes permettent directement à d'autres activités de contribuer de manière substantielle à la réalisation d'un objectif environnemental.

Les activités transitoires sont des activités pour lesquelles il n'existe pas encore de solution de remplacement sobre en carbone et, entre autres, dont les niveaux d'émission de gaz à effet de serre correspondent

Dans quelle mesure les investissements durables ayant un objectif environnemental étaient-ils alignés sur la Taxinomie de l'UE ?

Le fonds promeut des caractéristiques tant environnementales que sociales. Si le fonds ne s'est pas engagé à réaliser des investissements alignés sur la Taxinomie de l'UE, au cours de la période sous revue, il a cependant investi 1.70% dans des investissements durables alignés sur la Taxinomie de l'UE. De tels investissements ont contribué aux objectifs d'atténuation du changement climatique de la taxinomie de l'UE.

L'alignement des sociétés bénéficiaires des investissements sur les objectifs de la taxinomie de l'UE susmentionnés est évalué à l'aide du chiffre d'affaires (ou des revenus) et/ou des données d'utilisation des produits des obligations vertes.

Le pourcentage communiqué d'alignement des investissements du fonds sur la Taxinomie de l'UE n'a pas été audité par le réviseur d'entreprises agréé du fonds ni par aucun tiers.

Le produit financier a-t-il investi dans des activités liées au gaz fossile et/ou à l'énergie nucléaire qui sont conformes à la Taxinomie de l'UE¹ ?

☐

Oui :

☐

Dans le gaz fossile

☐

Dans l'énergie nucléaire

☒

Non

Aucune donnée fiable concernant l'alignement sur les activités de gaz fossile et d'énergie nucléaire conformes à la Taxinomie de l'UE n'était disponible sur la période.

¹Les activités liées au gaz fossile et/ou à l'énergie nucléaire ne seront conformes à la Taxinomie de l'UE que si elles contribuent à limiter le changement climatique (« atténuation du changement climatique ») et ne causent pas de préjudice important à tout objectif de la Taxinomie de l'UE. L'intégralité des critères relatifs aux activités économiques liées au gaz fossile et à l'énergie nucléaire conformes à la Taxinomie de l'UE sont définis dans le Règlement délégué (UE) 2022/1214 de la Commission.

aux meilleures performances réalisables.

Les activités alignées sur la taxinomie sont exprimées en pourcentage :

- **du chiffre d'affaires** pour refléter la part des revenus provenant des activités vertes des sociétés bénéficiaires d'investissements ;
- **des dépenses d'investissement (CapEx)** pour montrer les investissements verts réalisés par les sociétés bénéficiaires d'investissements, pour une transition vers une économie verte, par exemple ; et
- **des dépenses d'exploitation (OpEx)** pour refléter les activités opérationnelles vertes des sociétés bénéficiaires d'investissements.

Les graphiques ci-dessous font apparaître en vert le pourcentage d'investissements alignés sur la Taxinomie de l'UE. Étant donné qu'il n'existe pas de méthodologie appropriée pour déterminer l'alignement des obligations souveraines* sur la taxinomie, le premier graphique montre l'alignement sur la Taxinomie par rapport à tous les investissements du produit financier, y compris les obligations souveraines, tandis que le deuxième graphique représente l'alignement sur la Taxinomie uniquement par rapport aux investissements du produit financier autres que les obligations souveraines.

* Aux fins de ces graphiques, les « obligations souveraines » comprennent toutes les expositions souveraines

● Quelle était la part d'investissements dans les activités transitoires et habilitantes ?

Au 30/06/2024, en utilisant le chiffre d'affaires et/ou les données d'utilisation des produits des obligations vertes comme indicateur, la part d'investissements du fonds dans les activités transitoires était de 0.00% et la part d'investissements dans les activités habilitantes était de 0.89%. Le pourcentage communiqué d'alignement des investissements du fonds sur la Taxinomie de l'UE n'a pas été audité par le réviseur d'entreprises agréé du fonds ni par aucun tiers.

● Comment se situe le pourcentage d'investissements alignés sur la Taxinomie de l'UE par rapport aux périodes de référence antérieures ?

À la fin de la période précédente, le pourcentage d'investissements alignés sur la taxinomie était de 1.91%.

Quelle était la part des investissements durables ayant un objectif environnemental qui n'étaient pas alignés sur la Taxinomie de l'UE ?

La part des investissements durables ayant un objectif environnemental et non alignés sur la taxinomie était de **56.14%** à la fin de la période.

Cela tient du fait que certains émetteurs sont considérés comme investissements durables en vertu du Règlement SFDR mais qu'une portion de leurs activités n'est pas alignée sur les standards de la taxinomie de l'UE, ou que les données correspondantes ne sont pas encore disponibles en vue d'une évaluation relative à la taxinomie de l'UE.

Quelle était la part d'investissements durables sur le plan social ?

La proportion des investissements durables sur le plan social était de 13.25% à la fin de la période.

sont des investissements durables ayant un objectif environnemental qui **ne tiennent pas compte des critères** en matière d'activités économiques durables sur le plan environnemental, visés par le Règlement (UE) 2020/852.

Quels investissements étaient inclus dans la catégorie « Autres », quelle était leur finalité et existait-il des garanties environnementales ou sociales minimales ?

Sont inclus dans la catégorie « N° 2 Autres » les liquidités et autres instruments détenus aux fins de gestion de la liquidité et des risques du portefeuille. Pour les obligations et actions non notées, des garanties environnementales et sociales minimales ont été mises en place par le biais d'un filtrage des émetteurs en rapport aux activités controversées définies dans les principes du Pacte mondial des Nations unies. Elle peut également inclure des titres sans notation ESG pour lesquels les données nécessaires à la mesure de la réalisation des caractéristiques environnementales ou sociales ne sont pas disponibles.

Quelles mesures ont-elles été prises pour réaliser les caractéristiques environnementales et/ou sociales au cours de la période de référence ?

Des indicateurs de durabilité sont mis à disposition de manière continue dans le système de gestion du portefeuille pour permettre aux gestionnaires du portefeuille d'évaluer l'impact de leurs décisions d'investissement.

Ces indicateurs sont intégrés au cadre de contrôle d'AMUNDI, en répartissant les responsabilités entre le premier niveau de contrôles réalisés par les équipes Investissement elles-mêmes, et le second niveau de contrôles réalisé par les équipes Risque, qui surveillent la conformité aux caractéristiques environnementales ou sociales promues en permanence par le fonds.

En outre, la Politique d'investissement responsable d'AMUNDI définit une approche active en matière d'engagement qui promeut le dialogue avec les sociétés bénéficiaires des investissements, y compris celles qui sont incluses dans le portefeuille de ce produit. Notre Rapport annuel en matière d'engagement, disponible à la page <https://about.amundi.com/esg-documentation>, fournit des informations détaillées sur cet engagement et ses résultats.

Quelles ont été les performances de ce produit financier par rapport à l'indice de référence ?

Un indice de référence est un indice qui sert à mesurer si le produit financier réalise les caractéristiques environnementales et/ou sociales qu'il promeut.

L'objectif d'investissement durable est atteint en alignant les objectifs de réduction de l'empreinte carbone du fonds sur l'indice MSCI World Climate Paris Aligned Net USD. L'intensité de l'empreinte carbone du portefeuille est calculée comme une moyenne pondérée des actifs du portefeuille et comparée à l'intensité de l'empreinte carbone pondérée des actifs de l'Indice.

Par conséquent, les titres présentant une empreinte environnementale relativement faible ont une probabilité plus élevée d'être sélectionnés dans le portefeuille, comparés aux titres présentant une empreinte environnementale relativement élevée. De plus, le fonds exclut les entreprises sur la base d'un comportement controversé et/ou de produits controversés, conformément à la Politique d'investissement responsable.

- L'intensité de l'empreinte carbone moyenne pondérée du portefeuille est **55.01**
- L'intensité de l'empreinte carbone moyenne pondérée de l'Indice de référence est **66.13**

● En quoi l'indice de référence diffère-t-il de l'indice de marché large ?

Un indice de marché large n'évalue pas ses composantes en fonction de caractéristiques environnementales et ne les inclut pas en vertu de telles caractéristiques. Par conséquent, il ne s'aligne pas sur les caractéristiques environnementales.

L'indice utilisé est un indice de référence « accord de Paris » qui comporte des objectifs spécifiques liés à la réduction des émissions et à la transition vers une économie sobre en carbone à travers la sélection et la pondération de composantes sous-jacentes.

● Quelles ont été les performances de ce produit financier par rapport aux indicateurs de durabilité pour déterminer l'alignement de l'indice de référence sur les caractéristiques environnementales ou sociales promues ?

- La note ESG moyenne pondérée du portefeuille est **0.522 (C)**.
- La note ESG moyenne pondérée de l'univers d'investissement ESG est **0.012 (D)**.

- L'intensité de l'empreinte carbone moyenne pondérée du portefeuille est **55.01**
- L'intensité de l'empreinte carbone moyenne pondérée de l'Indice de référence est **66.13**

● ***Quelle a été la performance de ce produit financier par rapport à l'indice de référence ?***

L'objectif d'investissement durable est atteint en alignant les objectifs de réduction de l'empreinte carbone du fonds sur l'indice MSCI World Climate Paris Aligned Net USD. L'intensité de l'empreinte carbone du portefeuille est calculée comme une moyenne pondérée des actifs du portefeuille et comparée à l'intensité de l'empreinte carbone pondérée des actifs de l'Indice.

Par conséquent, les titres présentant une empreinte environnementale relativement faible ont une probabilité plus élevée d'être sélectionnés dans le portefeuille, comparés aux titres présentant une empreinte environnementale relativement élevée. De plus, le fonds exclut les entreprises sur la base d'un comportement controversé et/ou de produits controversés, conformément à la Politique d'investissement responsable.

- L'intensité de l'empreinte carbone moyenne pondérée du portefeuille est **55.01**
- L'intensité de l'empreinte carbone moyenne pondérée de l'Indice de référence est **66.13**

● ***Quelle a été la performance de ce produit financier par rapport à l'indice de marché large ?***

Un indice de marché large n'évalue pas ses composantes en fonction de caractéristiques environnementales et ne les inclut pas en vertu de telles caractéristiques. Par conséquent, il ne s'aligne pas sur les caractéristiques environnementales.

L'indice utilisé est un indice de référence aligné sur Paris (« Paris Aligned ») qui comporte des objectifs spécifiques liés à la réduction des émissions et à la transition vers une économie sobre en carbone à travers la sélection et la pondération de composantes sous-jacentes.

Modèle d'informations périodiques pour les produits financiers visés à l'Article 8, paragraphes 1, 2 et 2a, du Règlement (UE) 2019/2088 et à l'Article 6, premier paragraphe du Règlement (UE) 2020/852

Dénomination du produit : AMUNDI FUNDS
GLOBAL EQUITY INCOME ESG

Identifiant d'entité juridique :
549300JVYWQ1AGFG7O16

Par investissement durable, on entend un investissement dans une activité économique qui contribue à un objectif environnemental ou social, pour autant qu'il ne cause de préjudice important à aucun de ces objectifs et que les sociétés détenues respectent les pratiques de bonne gouvernance.

La **Taxinomie de l'UE** est un système de classification institué par le Règlement (UE) 2020/852, qui dresse une liste d'**activités économiques durables sur le plan environnemental**. Ce règlement ne comprend pas de liste d'activités économiques durables sur le plan social. Les investissements durables ayant un objectif environnemental ne sont pas nécessairement alignés sur la taxinomie.

Caractéristiques environnementales et/ou sociales

Le produit financier avait-il un objectif d'investissement durable ?	
☒ ☐ ☐	☒ ☐ ☒
Oui	Non
☐ Il a réalisé des investissements durables ayant un objectif environnemental : _____ ☐ dans des activités économiques qui sont considérées comme durables sur le plan environnemental au titre de la Taxinomie de l'UE ☐ dans des activités économiques qui ne sont pas considérées comme durables sur le plan environnemental au titre de la Taxinomie de l'UE	☒ Il a promu des caractéristiques environnementales/sociales (E/S) et, bien qu'il n'ait pas eu pour objectif l'investissement durable, il contenait une proportion d'investissements durables de 60.87% ☐ ayant un objectif environnemental dans des activités économiques qui sont considérées comme durables sur le plan environnemental au titre de la Taxinomie de l'UE ☒ ayant un objectif environnemental dans des activités économiques qui ne sont pas considérées comme durables sur le plan environnemental au titre de la Taxinomie de l'UE ☐ ayant un objectif social
☐ Il a réalisé des investissements durables ayant un objectif social : _____	☐ Il a promu des caractéristiques E/S, mais n'a pas réalisé d'investissements durables

Dans quelle mesure les caractéristiques environnementales et/ou sociales promues par ce produit financier ont-elles été réalisées ?

Au cours de l'exercice financier, le produit n'a cessé de promouvoir les caractéristiques environnementales et/ou sociales en cherchant à atteindre une note ESG supérieure à celle de son univers d'investissement **MSCI WORLD**. Pour déterminer la note ESG du Produit et de l'univers d'investissement ESG, la performance ESG a été évaluée de manière continue en comparant la performance moyenne d'un titre par rapport au secteur de l'émetteur du titre, pour chacune des trois caractéristiques, à savoir environnementale, sociale et de gouvernance.

L'univers d'investissement est un univers de marché large qui n'évalue ni n'inclut pas de composantes en fonction de caractéristiques environnementales et/ou sociales, et qui n'a par conséquent pas pour vocation d'être conforme aux caractéristiques promues par le fonds. Aucun indice de référence ESG n'a été désigné.

Les indicateurs de durabilité évaluent la mesure dans laquelle les caractéristiques environnementales ou sociales promues par le produit financier sont atteintes.

● **Quelle performance ont affiché les indicateurs de durabilité ?**

Amundi a développé son propre processus de notation ESG interne, qui suit une approche « Best-in-class ». Les notations adaptées à chaque secteur d'activité ont pour objectif d'évaluer la dynamique dans laquelle interviennent les entreprises.

L'indicateur de durabilité employé est la note ESG du Produit mesurée en comparaison avec la note ESG de l'univers d'investissement ESG du Produit.

À la fin de la période :

- La note ESG moyenne pondérée du portefeuille est **0.644 (C)**.
- La note ESG moyenne pondérée de l'univers d'investissement ESG est **-0.179 (D)**.

La notation ESG Amundi utilisée pour déterminer la note ESG est une note ESG quantitative qui se décline en sept niveaux allant de A (les meilleures notes de l'univers) à G (les pires notes). Sur l'échelle de notation ESG d'Amundi, les titres figurant sur la liste d'exclusion correspondent à G. Pour les entreprises émettrices, la performance ESG est évaluée de manière globale et au niveau des critères pertinents par comparaison avec la performance moyenne du secteur, en combinant les trois dimensions ESG :

- Dimension environnementale : cette dimension examine la capacité des émetteurs à contrôler leur impact environnemental direct et indirect, en limitant leur consommation d'énergie, en réduisant leurs émissions de gaz à effet de serre, en luttant contre l'appauvrissement des ressources et en protégeant la biodiversité.
- Dimension sociale : cette dimension évalue le fonctionnement d'un émetteur dans deux domaines différents, à savoir sa stratégie de développement du capital humain et le respect des droits humains en général.
- Dimension de gouvernance : cette dimension évalue la capacité de l'émetteur à garantir les fondements d'un cadre de gouvernance d'entreprise efficace et à générer de la valeur sur le long terme.

La méthodologie appliquée par la notation ESG d'Amundi utilise 38 critères qui sont soit génériques (communs à toutes les entreprises, indépendamment de leur activité) soit spécifiques au secteur, et qui sont pondérés en fonction du secteur et considérés en termes d'impact sur la réputation, l'efficacité opérationnelle et les réglementations concernant un émetteur. Les notations ESG d'Amundi sont susceptibles d'être exprimées de manière globale pour les trois dimensions E, S et G, ou individuellement pour tout facteur environnemental ou social.

● **... et par rapport aux périodes antérieures ?**

À la fin de la période précédente, la note ESG moyenne pondérée du portefeuille était de 0.71 (C) et la note ESG moyenne pondérée de l'univers d'investissement ESG était de -0.12 (D).

● **Quels étaient les objectifs des investissements durables que le produit financier entendait partiellement réaliser, et comment l'investissement durable a-t-il contribué à ces objectifs ?**

Les objectifs des investissements durables sont d'investir dans des sociétés détenues qui cherchent à respecter deux critères :

1. suivre les bonnes pratiques environnementales et sociales ; et
2. éviter de fabriquer des produits ou de fournir des services qui nuisent à l'environnement et à la société.

Pour que la société bénéficiaire des investissements soit réputée contribuer à l'objectif susmentionné, elle doit figurer parmi les « meilleures performances » de son secteur d'activité pour au moins l'un de ses facteurs environnementaux ou sociaux importants.

La définition de « meilleures performances » repose sur la méthode ESG exclusive d'Amundi, dont l'objectif est de mesurer la performance ESG d'une société bénéficiaire des investissements. Pour être considérée comme l'une des « meilleures performances », une société bénéficiaire des investissements doit afficher l'une des trois premières notes (A, B ou C, sur une échelle de notation allant de A à G) dans son secteur pour au moins un facteur environnemental ou social important. Les facteurs environnementaux et sociaux sont identifiés à l'échelle des secteurs. L'identification des facteurs importants est basée sur le cadre d'analyse ESG d'Amundi qui combine des données extra-financières et une analyse qualitative du secteur associé et des questions de durabilité. Les facteurs identifiés comme importants représentent

plus de 10 % de la note ESG globale. Par exemple pour le secteur de l'énergie, les facteurs importants sont les suivants : émissions et énergie, biodiversité et pollution, santé et sécurité, communautés locales et droits humains. Pour un aperçu plus complet des secteurs et des facteurs, veuillez consulter la Déclaration réglementaire ESG d'Amundi disponible sur www.amundi.lu

Pour contribuer aux objectifs ci-dessus, la société bénéficiaire des investissements ne doit pas avoir d'exposition significative aux activités (par ex. tabac, armes, jeux de hasard, charbon, aviation, production de viande, fabrication d'engrais et de pesticides, production de plastique à usage unique) incompatibles avec ces critères.

Le caractère durable d'un investissement est évalué au niveau de la société bénéficiaire des investissements.

● ***Dans quelle mesure les investissements durables que le produit financier a partiellement réalisés n'ont-ils pas causé de préjudice important à un objectif d'investissement durable sur le plan environnemental ou social ?***

Pour s'assurer que les investissements durables ne causent pas de préjudice important (principe « Do no significant harm » ou « DNSH » en anglais), Amundi utilise deux filtres :

Le premier filtre de DNSH repose sur le contrôle des indicateurs obligatoires des Principales incidences négatives de l'Annexe 1, Tableau 1 des normes techniques réglementaires (RTS) lorsqu'il existe des données fiables (par ex. Intensité des GES des sociétés bénéficiaires des investissements) via une combinaison d'indicateurs (par ex. intensité carbone) et des seuils ou règles spécifiques (par ex. que l'intensité carbone de la société bénéficiaire des investissements n'appartient pas au dernier décile du secteur).

Dans sa politique d'exclusion qui fait partie intégrante de sa Politique d'investissement responsable, Amundi tient d'ores et déjà compte de Principales incidences négatives spécifiques. Ces exclusions, qui s'appliquent en sus des tests détaillés ci-dessus, couvrent les sujets suivants : exclusions sur les armes controversées, les violations des principes du Pacte mondial des Nations Unies, le charbon et le tabac.

Au-delà des facteurs de durabilité spécifiques couverts par le premier filtre, Amundi a défini un second filtre, qui ne tient pas compte des indicateurs obligatoires des Principales incidences négatives ci-dessus, afin de vérifier que la société n'affiche pas de mauvaises performances d'un point de vue environnemental ou social global par rapport aux autres entreprises de son secteur, ce qui correspond à un score environnemental ou social supérieur ou égal à E selon la notation ESG d'Amundi.

- ***Comment les indicateurs concernant les incidences négatives sur les facteurs de durabilité ont-ils été pris en considération ?***

Les indicateurs d'incidences négatives ont été pris en compte comme détaillé dans le premier filtre DNSH ci-dessus.

Le premier filtre DNSH repose sur le contrôle des indicateurs obligatoires des Principales incidences négatives de l'Annexe 1, Tableau 1 du Règlement délégué (UE) 2022/1288 lorsqu'il existe des données fiables via la combinaison des indicateurs suivants et de seuils ou règles spécifiques :

- une intensité en CO2 qui n'appartient pas au dernier décile par rapport aux autres entreprises du secteur (ne s'applique qu'aux secteurs à forte intensité) ;
- un Conseil d'administration dont le niveau de diversité n'appartient pas au dernier décile par rapport aux autres sociétés du secteur ;
- ne pas faire l'objet de controverse relative aux conditions de travail et aux droits humains ; et
- ne pas faire l'objet de controverse relative à la biodiversité et à la pollution.

Dans sa politique d'exclusion qui fait partie intégrante de sa Politique d'investissement responsable, Amundi tient d'ores et déjà compte de Principales incidences négatives spécifiques. Ces exclusions, qui s'appliquent en sus des tests détaillés ci-dessus, couvrent les sujets suivants : exclusions sur les armes controversées, les violations des principes du Pacte mondial des Nations Unies, le charbon et le tabac.

- ***Les investissements durables étaient-ils conformes aux Principes directeurs de l'OCDE à l'intention des entreprises multinationales et aux Principes directeurs des Nations unies relatifs aux entreprises et aux droits humains ? Description détaillée :***

Oui, les Principes directeurs de l'OCDE à l'intention des entreprises multinationales et les Principes directeurs des Nations unies relatifs aux entreprises et aux droits humains sont

Les principales incidences négatives

correspondent aux incidences négatives les plus significatives des décisions d'investissement sur les facteurs de durabilité liés aux questions environnementales, sociales et de personnel, au respect des droits humains et à la lutte contre la corruption et les actes de corruption.

intégrés à notre méthode de notation ESG. Notre outil de notation ESG exclusif évalue les émetteurs à l'aide des données disponibles auprès de nos fournisseurs de données. Par exemple, le modèle dispose d'un critère dédié appelé « Implication dans la communauté et droits humains » qui s'applique à tous les secteurs en plus d'autres critères liés aux droits humains, y compris les chaînes d'approvisionnement socialement responsables, les conditions de travail et les relations de travail. En outre, nous effectuons un contrôle des controverses au moins une fois par trimestre, y compris sur les entreprises identifiées pour des violations des droits humains. En cas de controverse, les analystes évaluent la situation, lui donnent une note (à l'aide de notre méthode de notation exclusive) et déterminent la marche à suivre. Les notes de controverse sont mises à jour chaque trimestre pour suivre les tendances et les efforts de correction.

La Taxinomie de l'UE définit un principe consistant à « ne pas causer de préjudice important » (« Do not significant harm » ou DNSH) en vertu duquel les investissements alignés sur la Taxinomie ne doivent pas causer de préjudice important aux objectifs de la Taxinomie de l'UE et s'accompagnent de critères de l'UE spécifiques.

Le principe consistant à « ne pas causer de préjudice important » ne s'applique qu'aux investissements sous-jacents du produit financier qui tiennent compte des critères de l'UE pour les activités économiques durables sur le plan environnemental. Les investissements sous-jacents de la portion restante de ce produit financier ne tiennent pas compte des critères de l'UE en matière d'activités économiques durables sur le plan environnemental.

Tout autre investissement durable doit également se conformer au principe consistant à ne pas causer de préjudice important aux objectifs environnementaux ou sociaux.

Dans quelle mesure ce produit financier a-t-il pris en considération les principales incidences négatives sur les facteurs de durabilité ?

Le produit tient compte de toutes les Principales incidences négatives obligatoires en vertu de l'Annexe 1, Tableau 1 du Règlement délégué (UE) 2022/1288 applicables à la stratégie du produit et s'appuie sur une combinaison de politiques d'exclusion (normatives et sectorielles) et d'approches d'engagement et de vote :

- Exclusion : Amundi a défini des règles d'exclusion normatives, basées sur l'activité et les secteurs, qui couvrent certains des principaux indicateurs négatifs de durabilité énumérés par le Règlement Disclosure (sur la publication d'informations).
- Intégration des facteurs ESG : Amundi a adopté des normes d'intégration ESG minimales appliquées par défaut à ses fonds de type ouvert activement gérés (exclusion des émetteurs ayant la note G et meilleure note ESG moyenne pondérée supérieure à celle de l'indice de référence applicable). Les 38 critères employés dans la stratégie de notation ESG d'Amundi ont également été conçus pour tenir compte des principaux impacts sur les facteurs de durabilité, ainsi que de la qualité de la réduction entreprise en la matière.
- Engagement : L'engagement est un processus continu et ciblé qui vise à influencer les activités ou le comportement des sociétés bénéficiaires des investissements. L'objectif des activités d'engagement peut se diviser en deux catégories : impliquer un émetteur pour améliorer la manière dont il intègre la dimension environnementale et sociale ou impliquer un émetteur pour améliorer son impact sur les questions environnementales, sociales et liées aux droits humains ou d'autres questions de durabilité qui sont importantes pour la société au sens large et l'économie mondiale.
- Vote : La politique de vote d'Amundi répond à une analyse globale de toutes les questions à long terme qui peuvent influencer la création de valeur, y compris les questions ESG importantes. Pour plus d'informations, veuillez consulter la Politique de vote d'Amundi.
- Surveillance des controverses : Amundi a développé un système de suivi des controverses qui s'appuie sur trois fournisseurs de données externes pour suivre systématiquement l'évolution des controverses et leur niveau de gravité. Cette approche quantitative est ensuite enrichie d'une évaluation approfondie de chaque controverse grave, menée par des analystes ESG, puis d'un examen périodique de son évolution. Cette approche s'applique à tous les fonds d'Amundi.

Pour de plus amples détails sur le mode de prise en compte des indicateurs relatifs aux Principales incidences négatives obligatoires, veuillez consulter la Déclaration sur la publication d'informations en matière de finance durable d'Amundi disponible sur www.amundi.com.

Quels étaient les principaux investissements de ce produit financier ?

La liste inclut les investissements qui constituent **la proportion la plus importante d'investissements** du produit financier au cours de la période de référence, à savoir : du **01/07/2023** au **30/06/2024**

Principaux investissements	Secteur	Sous-secteur	Pays	% des actifs
MICROSOFT CORP	Informations Technologie	Logiciels et communication	États-Unis	6.96%
JPMORGAN CHASE & CO	Obligations financières	Banques	États-Unis	2.94%
AMUNDI MMST (USD)-IV	Obligations financières	Fonds communs de placement	Luxembourg	2.50%
SUMITOMO MITSUI FINAN	Obligations financières	Banques	Japon	2.47%
BROADCOM INC	Informations Technologie	Semi-conducteurs et équipement pour informatiques	États-Unis	2.18%
TRANE TECHNOLOGIES PLC	Industrie	Biens d'équipement	Irlande	2.16%
MERCK & CO. INC.	Santé	Pharmacie, biotechnologie et sciences de la vie	États-Unis	2.15%
APPLIED MATERIALS INC	Informations Technologie	Semi-conducteurs et équipement pour informatiques	États-Unis	2.13%

TAIWAN SEMICONDUCTOR MANUFAC	Informations Technologie	Semi-conducteurs et équipement pour informatiques	Taiwan	2.06%
CISCO SYSTEMS INC	Informations Technologie	Technologie Matériel et équipements informatiques	États-Unis	2.01%
ASTRAZENECA GBP	Santé	Pharmacie, biotechnologie et sciences de la vie	Royaume-Uni	2.00%
NOVO NORDISK A/S-B	Santé	Pharmacie, biotechnologie et sciences de la vie	Danemark	1.98%
SCHNEIDER ELECT SE	Industrie	Biens d'équipement	France	1.97%
ABBVIE INC	Santé	Pharmacie, biotechnologie et sciences de la vie	États-Unis	1.92%

Quelle était la proportion d'investissements liés à la durabilité ?

● **Quelle était l'allocation d'actifs ?**

L'allocation d'actifs décrit la part des investissements dans des actifs spécifiques.

La catégorie **N° 1 Alignés sur les caractéristiques E/S** inclut les investissements du produit financier utilisés pour atteindre les caractéristiques environnementales ou sociales promues par le produit financier.

La catégorie **N° 2 Autres** inclut les investissements restants du produit financier qui ne sont ni alignés sur les caractéristiques environnementales ou sociales ni considérés comme investissements durables.

La catégorie **N° 1 Alignés sur les caractéristiques E/S** comprend :

- la sous-catégorie **N° 1A Durables** couvrant les investissements durables sur le plan environnemental et social ;
- la sous-catégorie **N° 1B Autres caractéristiques E/S** couvrant les investissements alignés sur les caractéristiques environnementales ou sociales qui ne sont pas considérés comme des investissements durables.

● **Dans quels secteurs économiques ont été réalisés les investissements ?**

Secteur	Sous-secteur	% des actifs
Industrie	Biens d'équipement	11.76%
Technologies de l'information	Logiciels et services	10.69%
Technologies de l'information	Semi-conducteurs et équipement pour semi-conducteurs	9.64%
Obligations financières	Banques	9.57%
Santé	Pharmacie, biotechnologie et sciences de la vie	9.00%

<i>Consommation discrétionnaire</i>	<i>Consommation discrétionnaire de biens de consommation de base</i>	4.90%
<i>Obligations financières</i>	<i>Assurance</i>	4.74%

Aux fins d'observer la taxinomie de l'UE, les critères relatifs au **gaz fossile** incluent des limites aux émissions et le passage à une énergie entièrement renouvelable ou à des combustibles à faible teneur en carbone d'ici fin 2035. Pour **l'énergie nucléaire**, les critères incluent des règles exhaustives de sécurité et de gestion des déchets.

Les activités habilitantes permettent directement à d'autres activités de contribuer de manière substantielle à la réalisation d'un objectif environnemental.

Les activités transitoires sont des activités pour lesquelles il n'existe pas encore de solution de remplacement sobre en carbone et, entre autres, dont les niveaux d'émission de gaz à effet de serre correspondent aux meilleures

Dans quelle mesure les investissements durables ayant un objectif environnemental étaient-ils alignés sur la Taxinomie de l'UE ?

Le fonds promeut des caractéristiques tant environnementales que sociales. Si le fonds ne s'est pas engagé à réaliser des investissements alignés sur la Taxinomie de l'UE, au cours de la période sous revue, il a cependant investi 1.51% dans des investissements durables alignés sur la Taxinomie de l'UE. De tels investissements ont contribué aux objectifs d'atténuation du changement climatique de la taxinomie de l'UE.

L'alignement des sociétés bénéficiaires des investissements sur les objectifs de la taxinomie de l'UE susmentionnés est évalué à l'aide du chiffre d'affaires (ou des revenus) et/ou des données d'utilisation des produits des obligations vertes.

Le pourcentage communiqué d'alignement des investissements du fonds sur la Taxinomie de l'UE n'a pas été audité par le réviseur d'entreprises agréé du fonds ni par aucun tiers.

● Le produit financier a-t-il investi dans des activités liées au gaz fossile et/ou à l'énergie nucléaire qui sont conformes à la Taxinomie de l'UE¹ ?

☐

Oui :

☐

Dans le gaz fossile

☐

Dans l'énergie nucléaire

☒

Non

Aucune donnée fiable concernant l'alignement sur les activités de gaz fossile et d'énergie nucléaire conformes à la Taxinomie de l'UE n'était disponible sur la période.

¹Les activités liées au gaz fossile et/ou à l'énergie nucléaire ne seront conformes à la Taxinomie de l'UE que si elles contribuent à limiter le changement climatique (« atténuation du changement climatique ») et ne causent pas de préjudice important à tout objectif de la Taxinomie de l'UE. L'intégralité des critères relatifs aux activités économiques liées au gaz fossile et à l'énergie nucléaire conformes à la Taxinomie de l'UE sont définis dans le Règlement délégué (UE) 2022/1214 de la Commission.

performances réalisables.

Les activités alignées sur la taxinomie

sont exprimées en pourcentage :

- **du chiffre d'affaires** pour refléter la part des revenus provenant des activités vertes des sociétés bénéficiaires d'investissements ;
- **des dépenses d'investissement (CapEx)** pour montrer les investissements verts réalisés par les sociétés bénéficiaires d'investissements, pour une économie verte, par exemple ; et
- **des dépenses d'exploitation (OpEx)** pour refléter les activités opérationnelles vertes des sociétés bénéficiaires d'investissements.

Les graphiques ci-dessous font apparaître en vert le pourcentage d'investissements alignés sur la Taxinomie de l'UE. Étant donné qu'il n'existe pas de méthodologie appropriée pour déterminer l'alignement des obligations souveraines* sur la taxinomie, le premier graphique montre l'alignement sur la Taxinomie par rapport à tous les investissements du produit financier, y compris les obligations souveraines, tandis que le deuxième graphique représente l'alignement sur la Taxinomie uniquement par rapport aux investissements du produit financier autres que les obligations souveraines.

* Aux fins de ces graphiques, les « obligations souveraines » comprennent toutes les expositions souveraines

● Quelle était la part d'investissements dans les activités transitoires et habilitantes ?

Au 30/06/2024, en utilisant le chiffre d'affaires et/ou les données d'utilisation des produits des obligations vertes comme indicateur, la part d'investissements du fonds dans les activités transitoires était de 0.00% et la part d'investissements dans les activités habilitantes était de 1.68%. Le pourcentage communiqué d'alignement des investissements du fonds sur la Taxinomie de l'UE n'a pas été audité par le réviseur d'entreprises agréé du fonds ni par aucun tiers.

● Comment se situe le pourcentage d'investissements alignés sur la Taxinomie de l'UE par rapport aux périodes de référence antérieures ?

À la fin de la période précédente, le pourcentage d'investissements alignés sur la taxinomie était de 3.30%.

sont des investissements durables ayant un objectif environnemental qui **ne tiennent pas compte des critères** en matière d'activités économiques durables sur le plan environnemental, visés par le Règlement (UE) 2020/852.

● Quelle était la part des investissements durables ayant un objectif environnemental qui n'étaient pas alignés sur la Taxinomie de l'UE ?

La part des investissements durables ayant un objectif environnemental et non alignés sur la taxinomie était de **48.51%** à la fin de la période. Cela tient du fait que certains émetteurs sont considérés comme investissements durables en vertu du Règlement SFDR mais qu'une portion de leurs activités n'est pas alignée sur les standards de la taxinomie de l'UE, ou que les données correspondantes ne sont pas encore disponibles en vue d'une évaluation relative à la taxinomie de l'UE.

● Quelle était la part d'investissements durables sur le plan social ?

La proportion des investissements durables sur le plan social était de 10.86% à la fin de la période.

Quels investissements étaient inclus dans la catégorie « Autres », quelle était leur finalité et existait-il des garanties environnementales ou sociales minimales ?

Sont inclus dans la catégorie « N° 2 Autres » les liquidités et autres instruments détenus aux fins de gestion de la liquidité et des risques du portefeuille. Pour les obligations et actions non notées, des garanties environnementales et sociales minimales ont été mises en place par le biais d'un filtrage des émetteurs en rapport aux activités controversées définies dans les principes du Pacte mondial des Nations unies. Elle peut également inclure des titres sans notation ESG pour lesquels les données nécessaires à la mesure de la réalisation des caractéristiques environnementales ou sociales ne sont pas disponibles.

Quelles mesures ont-elles été prises pour réaliser les caractéristiques environnementales et/ou sociales au cours de la période de référence ?

Des indicateurs de durabilité sont mis à disposition de manière continue dans le système de gestion du portefeuille pour permettre aux gestionnaires du portefeuille d'évaluer l'impact de leurs décisions d'investissement.

Ces indicateurs sont intégrés au cadre de contrôle d'AMUNDI, en répartissant les responsabilités entre le premier niveau de contrôles réalisés par les équipes Investissement elles-mêmes, et le second niveau de contrôles réalisé par les équipes Risque, qui surveillent la conformité aux caractéristiques environnementales ou sociales promues en permanence par le fonds.

En outre, la Politique d'investissement responsable d'AMUNDI définit une approche active en matière d'engagement qui promeut le dialogue avec les sociétés bénéficiaires des investissements, y compris celles qui sont incluses dans le portefeuille de ce produit. Notre Rapport annuel en matière d'engagement, disponible à la page <https://about.amundi.com/esg-documentation>, fournit des informations détaillées sur cet engagement et ses résultats.

Quelles ont été les performances de ce produit financier par rapport à l'indice de référence ?

Ce produit ne dispose pas d'un Indice de référence ESG.

● En quoi l'indice de référence diffère-t-il de l'indice de marché large ?

Ce produit ne dispose pas d'un Indice de référence ESG.

● Quelles ont été les performances de ce produit financier par rapport aux indicateurs de durabilité pour déterminer l'alignement de l'indice de référence sur les caractéristiques environnementales ou sociales promues ?

Ce produit ne dispose pas d'un Indice de référence ESG.

● Quelle a été la performance de ce produit financier par rapport à l'indice de référence ?

Ce produit ne dispose pas d'un Indice de référence ESG.

● Quelle a été la performance de ce produit financier par rapport à l'indice de marché large ?

Ce produit ne dispose pas d'un Indice de référence ESG.

Un indice de référence est un indice qui sert à mesurer si le produit financier réalise les caractéristiques environnementales et/ou sociales qu'il promeut.

Modèle d'informations périodiques pour les produits financiers visés à l'Article 8, paragraphes 1, 2 et 2a, du Règlement (UE) 2019/2088 et à l'Article 6, premier paragraphe du Règlement (UE) 2020/852

Dénomination du produit : AMUNDI FUNDS
JAPAN EQUITY ENGAGEMENT

Identifiant d'entité juridique :
549300ELY81PEE0JYT57

Par investissement durable, on entend un investissement dans une activité économique qui contribue à un objectif environnemental ou social, pour autant qu'il ne cause de préjudice important à aucun de ces objectifs et que les sociétés détenues respectent les pratiques de bonne gouvernance.

La **Taxinomie de l'UE** est un système de classification institué par le Règlement (UE) 2020/852, qui dresse une liste d'**activités économiques durables sur le plan environnemental**. Ce règlement ne comprend pas de liste d'activités économiques durables sur le plan social. Les investissements durables ayant un objectif environnemental ne sont pas nécessairement alignés sur la taxinomie.

Caractéristiques environnementales et/ou sociales

Le produit financier avait-il un objectif d'investissement durable ?	
☒ ☒ ☐	☒ ☐ ☒
Oui	Non
☐ Il a réalisé des investissements durables ayant un objectif environnemental : _____ ☐ dans des activités économiques qui sont considérées comme durables sur le plan environnemental au titre de la Taxinomie de l'UE ☐ dans des activités économiques qui ne sont pas considérées comme durables sur le plan environnemental au titre de la Taxinomie de l'UE	☒ Il a promu des caractéristiques environnementales/sociales (E/S) et, bien qu'il n'ait pas eu pour objectif l'investissement durable, il contenait une proportion d'investissements durables de 53.17% ☐ ayant un objectif environnemental dans des activités économiques qui sont considérées comme durables sur le plan environnemental au titre de la Taxinomie de l'UE ☒ ayant un objectif environnemental dans des activités économiques qui ne sont pas considérées comme durables sur le plan environnemental au titre de la Taxinomie de l'UE ☐ ayant un objectif social
☐ Il a réalisé des investissements durables ayant un objectif social : _____	☐ Il a promu des caractéristiques E/S, mais n'a pas réalisé d'investissements durables

Dans quelle mesure les caractéristiques environnementales et/ou sociales promues par ce produit financier ont-elles été réalisées ?

Au cours de l'exercice financier, le produit n'a cessé de promouvoir les caractéristiques environnementales et/ou sociales en cherchant à atteindre une note ESG supérieure à celle de son univers d'investissement **TOPIX**. Pour déterminer la note ESG du Produit et de l'univers d'investissement ESG, la performance ESG a été évaluée de manière continue en comparant la performance moyenne d'un titre par rapport au secteur de l'émetteur du titre, pour chacune des trois caractéristiques, à savoir environnementale, sociale et de gouvernance.

L'univers d'investissement est un univers de marché large qui n'évalue ni n'inclut pas de composantes en fonction de caractéristiques environnementales et/ou sociales, et qui n'a par conséquent pas pour vocation d'être conforme aux caractéristiques promues par le fonds. Aucun indice de référence ESG n'a été désigné.

Les indicateurs de durabilité évaluent la mesure dans laquelle les caractéristiques environnementales ou sociales promues par le produit financier sont atteintes.

● **Quelle performance ont affiché les indicateurs de durabilité ?**

Amundi a développé son propre processus de notation ESG interne, qui suit une approche « Best-in-class ». Les notations adaptées à chaque secteur d'activité ont pour objectif d'évaluer la dynamique dans laquelle interviennent les entreprises.

L'indicateur de durabilité employé est la note ESG du Produit mesurée en comparaison avec la note ESG de l'univers d'investissement ESG du Produit.

À la fin de la période :

- La note ESG moyenne pondérée du portefeuille est **0.131 (D)**.
- La note ESG moyenne pondérée de l'univers d'investissement ESG est **-0.280 (D)**.

La notation ESG Amundi utilisée pour déterminer la note ESG est une note ESG quantitative qui se décline en sept niveaux allant de A (les meilleures notes de l'univers) à G (les pires notes). Sur l'échelle de notation ESG d'Amundi, les titres figurant sur la liste d'exclusion correspondent à G. Pour les entreprises émettrices, la performance ESG est évaluée de manière globale et au niveau des critères pertinents par comparaison avec la performance moyenne du secteur, en combinant les trois dimensions ESG :

- Dimension environnementale : cette dimension examine la capacité des émetteurs à contrôler leur impact environnemental direct et indirect, en limitant leur consommation d'énergie, en réduisant leurs émissions de gaz à effet de serre, en luttant contre l'appauvrissement des ressources et en protégeant la biodiversité.
- Dimension sociale : cette dimension évalue le fonctionnement d'un émetteur dans deux domaines différents, à savoir sa stratégie de développement du capital humain et le respect des droits humains en général.
- Dimension de gouvernance : cette dimension évalue la capacité de l'émetteur à garantir les fondements d'un cadre de gouvernance d'entreprise efficace et à générer de la valeur sur le long terme.

La méthodologie appliquée par la notation ESG d'Amundi utilise 38 critères qui sont soit génériques (communs à toutes les entreprises, indépendamment de leur activité) soit spécifiques au secteur, et qui sont pondérés en fonction du secteur et considérés en termes d'impact sur la réputation, l'efficacité opérationnelle et les réglementations concernant un émetteur. Les notations ESG d'Amundi sont susceptibles d'être exprimées de manière globale pour les trois dimensions E, S et G, ou individuellement pour tout facteur environnemental ou social.

● **... et par rapport aux périodes antérieures ?**

À la fin de la période précédente, la note ESG moyenne pondérée du portefeuille était de 0.14 (D) et la note ESG moyenne pondérée de l'univers d'investissement ESG était de -0.28 (D).

● **Quels étaient les objectifs des investissements durables que le produit financier entendait partiellement réaliser, et comment l'investissement durable a-t-il contribué à ces objectifs ?**

Les objectifs des investissements durables sont d'investir dans des sociétés détenues qui cherchent à respecter deux critères :

1. suivre les bonnes pratiques environnementales et sociales ; et
2. éviter de fabriquer des produits ou de fournir des services qui nuisent à l'environnement et à la société.

Pour que la société bénéficiaire des investissements soit réputée contribuer à l'objectif susmentionné, elle doit figurer parmi les « meilleures performances » de son secteur d'activité pour au moins l'un de ses facteurs environnementaux ou sociaux importants.

La définition de « meilleures performances » repose sur la méthode ESG exclusive d'Amundi, dont l'objectif est de mesurer la performance ESG d'une société bénéficiaire des investissements. Pour être considérée comme l'une des « meilleures performances », une société bénéficiaire des investissements doit afficher l'une des trois premières notes (A, B ou C, sur une échelle de notation allant de A à G) dans son secteur pour au moins un facteur environnemental ou social important. Les facteurs environnementaux et sociaux sont identifiés à l'échelle des secteurs. L'identification des facteurs importants est basée sur le cadre d'analyse ESG d'Amundi qui combine des données extra-financières et une analyse qualitative du secteur associé et des questions de durabilité. Les facteurs identifiés comme importants représentent plus de 10 % de la note ESG globale. Par exemple pour le secteur de l'énergie, les facteurs importants

sont les suivants : émissions et énergie, biodiversité et pollution, santé et sécurité, communautés locales et droits humains. Pour un aperçu plus complet des secteurs et des facteurs, veuillez consulter la Déclaration réglementaire ESG d'Amundi disponible sur www.amundi.lu

Pour contribuer aux objectifs ci-dessus, la société bénéficiaire des investissements ne doit pas avoir d'exposition significative aux activités (par ex. tabac, armes, jeux de hasard, charbon, aviation, production de viande, fabrication d'engrais et de pesticides, production de plastique à usage unique) incompatibles avec ces critères.

Le caractère durable d'un investissement est évalué au niveau de la société bénéficiaire des investissements.

● ***Dans quelle mesure les investissements durables que le produit financier a partiellement réalisés n'ont-ils pas causé de préjudice important à un objectif d'investissement durable sur le plan environnemental ou social ?***

Pour s'assurer que les investissements durables ne causent pas de préjudice important (principe « Do no significant harm » ou « DNSH » en anglais), Amundi utilise deux filtres :

Le premier filtre de DNSH repose sur le contrôle des indicateurs obligatoires des Principales incidences négatives de l'Annexe 1, Tableau 1 des normes techniques réglementaires (RTS) lorsqu'il existe des données fiables (par ex. Intensité des GES des sociétés bénéficiaires des investissements) via une combinaison d'indicateurs (par ex. intensité carbone) et des seuils ou règles spécifiques (par ex. que l'intensité carbone de la société bénéficiaire des investissements n'appartient pas au dernier décile du secteur).

Dans sa politique d'exclusion qui fait partie intégrante de sa Politique d'investissement responsable, Amundi tient d'ores et déjà compte de Principales incidences négatives spécifiques. Ces exclusions, qui s'appliquent en sus des tests détaillés ci-dessus, couvrent les sujets suivants : exclusions sur les armes controversées, les violations des principes du Pacte mondial des Nations Unies, le charbon et le tabac.

Au-delà des facteurs de durabilité spécifiques couverts par le premier filtre, Amundi a défini un second filtre, qui ne tient pas compte des indicateurs obligatoires des Principales incidences négatives ci-dessus, afin de vérifier que la société n'affiche pas de mauvaises performances d'un point de vue environnemental ou social global par rapport aux autres entreprises de son secteur, ce qui correspond à un score environnemental ou social supérieur ou égal à E selon la notation ESG d'Amundi.

- ***Comment les indicateurs concernant les incidences négatives sur les facteurs de durabilité ont-ils été pris en considération ?***

Les indicateurs d'incidences négatives ont été pris en compte comme détaillé dans le premier filtre DNSH ci-dessus.

Le premier filtre DNSH repose sur le contrôle des indicateurs obligatoires des Principales incidences négatives de l'Annexe 1, Tableau 1 du Règlement délégué (UE) 2022/1288 lorsqu'il existe des données fiables via la combinaison des indicateurs suivants et de seuils ou règles spécifiques :

- une intensité en CO2 qui n'appartient pas au dernier décile par rapport aux autres entreprises du secteur (ne s'applique qu'aux secteurs à forte intensité) ;
- un Conseil d'administration dont le niveau de diversité n'appartient pas au dernier décile par rapport aux autres sociétés du secteur ;
- ne pas faire l'objet de controverse relative aux conditions de travail et aux droits humains ; et
- ne pas faire l'objet de controverse relative à la biodiversité et à la pollution.

Dans sa politique d'exclusion qui fait partie intégrante de sa Politique d'investissement responsable, Amundi tient d'ores et déjà compte de Principales incidences négatives spécifiques. Ces exclusions, qui s'appliquent en sus des tests détaillés ci-dessus, couvrent les sujets suivants : exclusions sur les armes controversées, les violations des principes du Pacte mondial des Nations Unies, le charbon et le tabac.

- ***Les investissements durables étaient-ils conformes aux Principes directeurs de l'OCDE à l'intention des entreprises multinationales et aux Principes directeurs des Nations unies relatifs aux entreprises et aux droits humains ? Description détaillée :***

Oui, les Principes directeurs de l'OCDE à l'intention des entreprises multinationales et les Principes directeurs des Nations unies relatifs aux entreprises et aux droits humains sont

Les principales incidences négatives correspondent aux incidences négatives les plus significatives des décisions d'investissement sur les facteurs de durabilité liés aux questions environnementales, sociales et de personnel, au respect des droits humains et à la lutte contre la corruption et les actes de corruption.

intégrés à notre méthode de notation ESG. Notre outil de notation ESG exclusif évalue les émetteurs à l'aide des données disponibles auprès de nos fournisseurs de données. Par exemple, le modèle dispose d'un critère dédié appelé « Implication dans la communauté et droits humains » qui s'applique à tous les secteurs en plus d'autres critères liés aux droits humains, y compris les chaînes d'approvisionnement socialement responsables, les conditions de travail et les relations de travail. En outre, nous effectuons un contrôle des controverses au moins une fois par trimestre, y compris sur les entreprises identifiées pour des violations des droits humains. En cas de controverse, les analystes évaluent la situation, lui donnent une note (à l'aide de notre méthode de notation exclusive) et déterminent la marche à suivre. Les notes de controverse sont mises à jour chaque trimestre pour suivre les tendances et les efforts de correction.

La Taxinomie de l'UE définit un principe consistant à « ne pas causer de préjudice important » (« Do not significant harm » ou DNSH) en vertu duquel les investissements alignés sur la Taxinomie ne doivent pas causer de préjudice important aux objectifs de la Taxinomie de l'UE et s'accompagnent de critères de l'UE spécifiques.

Le principe consistant à « ne pas causer de préjudice important » ne s'applique qu'aux investissements sous-jacents du produit financier qui tiennent compte des critères de l'UE pour les activités économiques durables sur le plan environnemental. Les investissements sous-jacents de la portion restante de ce produit financier ne tiennent pas compte des critères de l'UE en matière d'activités économiques durables sur le plan environnemental.

Tout autre investissement durable doit également se conformer au principe consistant à ne pas causer de préjudice important aux objectifs environnementaux ou sociaux.

Dans quelle mesure ce produit financier a-t-il pris en considération les principales incidences négatives sur les facteurs de durabilité ?

Le produit tient compte de toutes les Principales incidences négatives obligatoires en vertu de l'Annexe 1, Tableau 1 du Règlement délégué (UE) 2022/1288 applicables à la stratégie du produit et s'appuie sur une combinaison de politiques d'exclusion (normatives et sectorielles) et d'approches d'engagement et de vote :

- Exclusion : Amundi a défini des règles d'exclusion normatives, basées sur l'activité et les secteurs, qui couvrent certains des principaux indicateurs négatifs de durabilité énumérés par le Règlement Disclosure (sur la publication d'informations).
- Intégration des facteurs ESG : Amundi a adopté des normes d'intégration ESG minimales appliquées par défaut à ses fonds de type ouvert activement gérés (exclusion des émetteurs ayant la note G et meilleure note ESG moyenne pondérée supérieure à celle de l'indice de référence applicable). Les 38 critères employés dans la stratégie de notation ESG d'Amundi ont également été conçus pour tenir compte des principaux impacts sur les facteurs de durabilité, ainsi que de la qualité de la réduction entreprise en la matière.
- Engagement : L'engagement est un processus continu et ciblé qui vise à influencer les activités ou le comportement des sociétés bénéficiaires des investissements. L'objectif des activités d'engagement peut se diviser en deux catégories : impliquer un émetteur pour améliorer la manière dont il intègre la dimension environnementale et sociale ou impliquer un émetteur pour améliorer son impact sur les questions environnementales, sociales et liées aux droits humains ou d'autres questions de durabilité qui sont importantes pour la société au sens large et l'économie mondiale.
- Vote : La politique de vote d'Amundi répond à une analyse globale de toutes les questions à long terme qui peuvent influencer la création de valeur, y compris les questions ESG importantes. pour plus d'informations, veuillez consulter la Politique de vote d'Amundi.
- Surveillance des controverses : Amundi a développé un système de suivi des controverses qui s'appuie sur trois fournisseurs de données externes pour suivre systématiquement l'évolution des controverses et leur niveau de gravité. Cette approche quantitative est ensuite enrichie d'une évaluation approfondie de chaque controverse grave, menée par des analystes ESG, puis d'un examen périodique de son évolution. Cette approche s'applique à tous les fonds d'Amundi.

Pour de plus amples détails sur le mode de prise en compte des indicateurs relatifs aux Principales incidences négatives obligatoires, veuillez consulter la Déclaration sur la publication d'informations en matière de finance durable d'Amundi disponible sur www.amundi.com.

Quels étaient les principaux investissements de ce produit financier ?

La liste inclut les investissements qui constituent **la proportion la plus importante d'investissements** du produit financier au cours de la période de référence, à savoir : **du 01/07/2023 au 30/06/2024**

Principaux investissements	Secteur	Sous-secteur	Pays	% des actifs
SANWA HOLDINGS CORP	Industrie	Biens d'équipement	Japon	4.34%
MITSUBISHI UFJ FIN	Obligations financières	Banques	Japon	4.01%
TDK CORP	Informations Technologie	Technologie Matériel et équipements informatiques	Japon	3.95%
ORIX CORP	Obligations financières	Services financiers	Japon	3.88%
KURITA WATER INDUST	Industrie	Biens d'équipement	Japon	3.87%
RECRUIT HOLDINGS CO LTD	Industrie	Services commerciaux communication	Japon	3.73%
KOMATSU LTD	Industrie	Biens d'équipement	Japon	3.66%
AICA KOGYO CO	Matériaux	Chimie	Japon	3.65%
SONY GROUP CORP (JT)	Consommation discrétionnaire	Consommation durables et habillement	Japon	3.62%
TOKIO MARINE HOLDINGS INC	Obligations financières	Assurance	Japon	3.53%
NOMURA RESEARCH INST	Informations Technologie	Logiciels et communication	Japon	3.44%
TOYOTA TSUSHO CORP	Industrie	Biens d'équipement	Japon	3.37%
SUMITOMO FORESTRY	Consommation discrétionnaire	Consommation durables et habillement	Japon	3.35%
FAST RETAILING	Consommation discrétionnaire	Consommation discrétionnaire Distribution et vente au détail	Japon	3.31%
ZENKOKU HOSHO CO LTD	Obligations financières	Services financiers	Japon	3.29%

Quelle était la proportion d'investissements liés à la durabilité ?

● Quelle était l'allocation d'actifs ?

L'allocation d'actifs décrit la part des investissements dans des actifs spécifiques.

La catégorie **N° 1 Alignés sur les caractéristiques E/S** inclut les investissements du produit financier utilisés pour atteindre les caractéristiques environnementales ou sociales promues par le produit financier.

La catégorie **N° 2 Autres** inclut les investissements restants du produit financier qui ne sont ni alignés sur les caractéristiques environnementales ou sociales ni considérés comme investissements durables.

La catégorie **N° 1 Alignés sur les caractéristiques E/S** comprend :

- la sous-catégorie **N° 1A Durables** couvrant les investissements durables sur le plan environnemental et social ;
- la sous-catégorie **N° 1B Autres caractéristiques E/S** couvrant les investissements alignés sur les caractéristiques environnementales ou sociales qui ne sont pas considérés comme des investissements durables.

● **Dans quels secteurs économiques ont été réalisés les investissements ?**

Secteur	Sous-secteur	% des actifs
<i>Industrie</i>	<i>Biens d'équipement</i>	23.71%
<i>Obligations financières</i>	<i>Services financiers</i>	9.07%
<i>Technologies de l'information</i>	<i>Matériel technologique et informatiques</i>	7.01%
<i>Consommation discrétionnaire</i>	<i>Biens de consommation durables et habillement</i>	6.96%
<i>Matériaux</i>	<i>Chimie</i>	6.62%
<i>Consommation discrétionnaire</i>	<i>Automobiles et composants</i>	5.97%

<i>Santé</i>	<i>Matériel et services de santé</i>	5.35%
<i>Technologies de l'information</i>	<i>Semi-conducteurs et équipement pour semi-conducteurs</i>	4.32%
<i>Obligations financières</i>	<i>Banques</i>	4.01%
<i>Industrie</i>	<i>Services commerciaux et professionnels</i>	3.73%
<i>Technologies de l'information</i>	<i>Logiciels et services</i>	3.62%

<i>Immobilier</i>	<i>Gestion et promotion immobilière</i>	1.76%
<i>Forex</i>	<i>Forex</i>	0.23%
<i>Liquidités</i>	<i>Liquidités</i>	1.89%

Aux fins d'observer la taxinomie de l'UE, les critères relatifs au **gaz fossile** incluent des limites aux émissions et le passage à une énergie entièrement renouvelable ou à des combustibles à faible teneur en carbone d'ici fin 2035. Pour **l'énergie nucléaire**, les critères

Dans quelle mesure les investissements durables ayant un objectif environnemental étaient-ils alignés sur la Taxinomie de l'UE ?

Le fonds promeut des caractéristiques tant environnementales que sociales. Si le fonds ne s'est pas engagé à réaliser des investissements alignés sur la Taxinomie de l'UE, au cours de la période sous revue, il a cependant investi 0.00% dans des investissements durables alignés sur la Taxinomie de l'UE.

incluent des règles exhaustives de sécurité et de gestion des déchets.

Les activités habilitantes permettent directement à d'autres activités de contribuer de manière substantielle à la réalisation d'un objectif environnemental.

Les activités transitoires sont des activités pour lesquelles il n'existe pas encore de solution de remplacement sobre en carbone et, entre autres, dont les niveaux d'émission de gaz à effet de serre correspondent aux meilleures performances réalisables.

Les activités alignées sur la taxinomie sont exprimées en pourcentage :

- **du chiffre d'affaires** pour refléter la part des revenus provenant des activités vertes des sociétés bénéficiaires d'investissements ;
- **des dépenses d'investissement (CapEx)** pour montrer les investissements verts réalisés par les sociétés bénéficiaires d'investissements, pour une transition vers une économie verte, par exemple ; et
- **des dépenses d'exploitation (OpEx)** pour refléter les activités opérationnelles vertes des sociétés bénéficiaires d'investissements.

● **Le produit financier a-t-il investi dans des activités liées au gaz fossile et/ou à l'énergie nucléaire qui sont conformes à la Taxinomie de l'UE¹ ?**

☐ Oui :

Dans le gaz fossile

Dans l'énergie nucléaire

☒ Non

Aucune donnée fiable concernant l'alignement sur les activités de gaz fossile et d'énergie nucléaire conformes à la Taxinomie de l'UE n'était disponible sur la période.

¹Les activités liées au gaz fossile et/ou à l'énergie nucléaire ne seront conformes à la Taxinomie de l'UE que si elles contribuent à limiter le changement climatique (« atténuation du changement climatique ») et ne causent pas de préjudice important à tout objectif de la Taxinomie de l'UE. L'intégralité des critères relatifs aux activités économiques liées au gaz fossile et à l'énergie nucléaire conformes à la Taxinomie de l'UE sont définis dans le Règlement délégué (UE) 2022/1214 de la Commission.

Les graphiques ci-dessous font apparaître en vert le pourcentage d'investissements alignés sur la Taxinomie de l'UE. Étant donné qu'il n'existe pas de méthodologie appropriée pour déterminer l'alignement des obligations souveraines* sur la taxinomie, le premier graphique montre l'alignement sur la Taxinomie par rapport à tous les investissements du produit financier, y compris les obligations souveraines, tandis que le deuxième graphique représente l'alignement sur la Taxinomie uniquement par rapport aux investissements du produit financier autres que les obligations souveraines.

* Aux fins de ces graphiques, les « obligations souveraines » comprennent toutes les expositions souveraines

● **Quelle était la part d'investissements dans les activités transitoires et habilitantes ?**

Au 30/06/2024, en utilisant le chiffre d'affaires et/ou les données d'utilisation des produits des obligations vertes comme indicateur, la part d'investissements du fonds dans les activités transitoires était de 0.00% et la part d'investissements dans les activités habilitantes était de 0.00%. Le pourcentage communiqué d'alignement des investissements du fonds sur la Taxinomie de l'UE n'a pas été audité par le réviseur d'entreprises agréé du fonds ni par aucun tiers.

● **Comment se situe le pourcentage d'investissements alignés sur la Taxinomie de l'UE par rapport aux périodes de référence antérieures ?**

À la fin de la période précédente, le pourcentage d'investissements alignés sur la taxinomie était de 0.00%.

 sont des investissements durables ayant un objectif environnemental qui **ne tiennent pas compte des critères** en matière d'activités économiques durables sur le plan environnemental, visés par le Règlement (UE) 2020/852.

Quelle était la part des investissements durables ayant un objectif environnemental qui n'étaient pas alignés sur la Taxinomie de l'UE ?

La part des investissements durables ayant un objectif environnemental et non alignés sur la taxinomie était de **36.58%** à la fin de la période.

Cela tient du fait que certains émetteurs sont considérés comme investissements durables en vertu du Règlement SFDR mais qu'une portion de leurs activités n'est pas alignée sur les standards de la taxinomie de l'UE, ou que les données correspondantes ne sont pas encore disponibles en vue d'une évaluation relative à la taxinomie de l'UE.

Quelle était la part d'investissements durables sur le plan social ?

La proportion des investissements durables sur le plan social était de 16.58% à la fin de la période.

Quels investissements étaient inclus dans la catégorie « Autres », quelle était leur finalité et existait-il des garanties environnementales ou sociales minimales ?

Sont inclus dans la catégorie « N° 2 Autres » les liquidités et autres instruments détenus aux fins de gestion de la liquidité et des risques du portefeuille. Pour les obligations et actions non notées, des garanties environnementales et sociales minimales ont été mises en place par le biais d'un filtrage des émetteurs en rapport aux activités controversées définies dans les principes du Pacte mondial des Nations unies. Elle peut également inclure des titres sans notation ESG pour lesquels les données nécessaires à la mesure de la réalisation des caractéristiques environnementales ou sociales ne sont pas disponibles.

Quelles mesures ont-elles été prises pour réaliser les caractéristiques environnementales et/ou sociales au cours de la période de référence ?

Des indicateurs de durabilité sont mis à disposition de manière continue dans le système de gestion du portefeuille pour permettre aux gestionnaires du portefeuille d'évaluer l'impact de leurs décisions d'investissement.

Ces indicateurs sont intégrés au cadre de contrôle d'AMUNDI, en répartissant les responsabilités entre le premier niveau de contrôles réalisés par les équipes Investissement elles-mêmes, et le second niveau de contrôles réalisé par les équipes Risque, qui surveillent la conformité aux caractéristiques environnementales ou sociales promues en permanence par le fonds.

En outre, la Politique d'investissement responsable d'AMUNDI définit une approche active en matière d'engagement qui promeut le dialogue avec les sociétés bénéficiaires des investissements, y compris celles qui sont incluses dans le portefeuille de ce produit. Notre Rapport annuel en matière d'engagement, disponible à la page <https://about.amundi.com/esg-documentation>, fournit des informations détaillées sur cet engagement et ses résultats.

Quelles ont été les performances de ce produit financier par rapport à l'indice de référence ?

Un indice de référence est un indice qui sert à mesurer si le produit financier réalise les caractéristiques environnementales et/ou sociales qu'il promet.

Ce produit ne dispose pas d'un Indice de référence ESG.

- ***En quoi l'indice de référence diffère-t-il de l'indice de marché large ?***

Ce produit ne dispose pas d'un Indice de référence ESG.

- ***Quelles ont été les performances de ce produit financier par rapport aux indicateurs de durabilité pour déterminer l'alignement de l'indice de référence sur les caractéristiques environnementales ou sociales promues ?***

Ce produit ne dispose pas d'un Indice de référence ESG.

- ***Quelle a été la performance de ce produit financier par rapport à l'indice de référence ?***

Ce produit ne dispose pas d'un Indice de référence ESG.

- ***Quelle a été la performance de ce produit financier par rapport à l'indice de marché large ?***

Ce produit ne dispose pas d'un Indice de référence ESG.

Informations périodiques pour les produits financiers visés à l'Article 8, paragraphes 1, 2 et 2a, du Règlement (UE) 2019/2088 et à l'Article 6, premier paragraphe du Règlement (UE) 2020/852

Dénomination du produit : AMUNDI FUNDS
GLOBAL EQUITY

Identifiant d'entité juridique :
549300R5QSNNJBY1T17

Par investissement durable, on entend un investissement dans une activité économique qui contribue à un objectif environnemental ou social, pour autant qu'il ne cause de préjudice important à aucun de ces objectifs et que les sociétés détenues respectent les pratiques de bonne gouvernance.

La **Taxinomie de l'UE** est un système de classification institué par le Règlement (UE) 2020/852, qui dresse une liste d'**activités économiques durables sur le plan environnemental**. Ce règlement ne comprend pas de liste d'activités économiques durables sur le plan social. Les investissements durables ayant un objectif environnemental ne sont pas nécessairement alignés sur la taxinomie.

Caractéristiques environnementales et/ou sociales

Le produit financier avait-il un objectif d'investissement durable ?

☒ ☐ ☐ **Oui** ☒ ☐ ☒ **Non**

☐ Il a réalisé des investissements durables ayant un objectif environnemental : _____ ☐ dans des activités économiques qui sont considérées comme durables sur le plan environnemental au titre de la Taxinomie de l'UE ☐ dans des activités économiques qui ne sont pas considérées comme durables sur le plan environnemental au titre de la Taxinomie de l'UE ☐ Il a réalisé des investissements durables ayant un objectif social : _____	☒ Il a promu des caractéristiques environnementales/sociales (E/S) et, bien qu'il n'ait pas eu pour objectif l'investissement durable, il contenait une proportion d'investissements durables de 41.25% ☐ ayant un objectif environnemental dans des activités économiques qui sont considérées comme durables sur le plan environnemental au titre de la Taxinomie de l'UE ☒ ayant un objectif environnemental dans des activités économiques qui ne sont pas considérées comme durables sur le plan environnemental au titre de la Taxinomie de l'UE ☐ ayant un objectif social ☐ Il a promu des caractéristiques E/S, mais n'a pas réalisé d'investissements durables
---	---

Dans quelle mesure les caractéristiques environnementales et/ou sociales promues par ce produit financier ont-elles été réalisées ?

Au cours de l'exercice financier, le produit n'a cessé de promouvoir les caractéristiques environnementales et/ou sociales en cherchant à atteindre une note ESG supérieure à celle de son univers d'investissement **MSCI ACWI**. Pour déterminer la note ESG du Produit et de l'univers d'investissement ESG, la performance ESG a été évaluée de manière continue en comparant la performance moyenne d'un titre par rapport au secteur de l'émetteur du titre, pour chacune des trois caractéristiques, à savoir environnementale, sociale et de gouvernance.

L'univers d'investissement est un univers du marché général qui n'évalue ni n'inclut pas de composantes en fonction de caractéristiques environnementales et/ou sociales, et qui n'a par conséquent pas pour vocation d'être conforme aux caractéristiques promues par le fonds. Aucun indice de référence ESG n'a été désigné.

Les indicateurs de durabilité évaluent la mesure dans laquelle les caractéristiques environnementales ou sociales promues par le produit financier sont atteintes.

● **Quelle a été la performance des indicateurs de durabilité ?**

Amundi a développé son propre processus de notation ESG interne, qui suit une approche « Best-in-class ». Les notations adaptées à chaque secteur d'activité ont pour objectif d'évaluer la dynamique dans laquelle interviennent les entreprises.

L'indicateur de durabilité employé est la note ESG du Produit mesurée en comparaison avec la note ESG de l'univers d'investissement ESG du Produit.

À la fin de la période :

- La note ESG moyenne pondérée du portefeuille est **0.185 (D)**.
- La note ESG moyenne pondérée de l'univers d'investissement ESG est **-0.171 (D)**.

La notation ESG Amundi utilisée pour déterminer la note ESG est une note ESG quantitative qui se décline en sept niveaux allant de A (les meilleures notes de l'univers) à G (les pires notes). Sur l'échelle de notation ESG d'Amundi, les titres figurant sur la liste d'exclusion correspondent à G. Pour les entreprises émettrices, la performance ESG est évaluée de manière globale et au niveau des critères pertinents par comparaison avec la performance moyenne du secteur, en combinant les trois dimensions ESG :

- Dimension environnementale : cette dimension examine la capacité des émetteurs à contrôler leur impact environnemental direct et indirect, en limitant leur consommation d'énergie, en réduisant leurs émissions de gaz à effet de serre, en luttant contre l'appauvrissement des ressources et en protégeant la biodiversité.
- Dimension sociale : cette dimension évalue le fonctionnement d'un émetteur dans deux domaines différents, à savoir sa stratégie de développement du capital humain et le respect des droits humains en général.
- Dimension de gouvernance : cette dimension évalue la capacité de l'émetteur à garantir les fondements d'un cadre de gouvernance d'entreprise efficace et à générer de la valeur sur le long terme.

La méthodologie appliquée par la notation ESG d'Amundi utilise 38 critères qui sont soit génériques (communs à toutes les entreprises, indépendamment de leur activité) soit spécifiques au secteur, et qui sont pondérés en fonction du secteur et considérés en termes d'impact sur la réputation, l'efficacité opérationnelle et les réglementations concernant un émetteur. Les notations ESG d'Amundi sont susceptibles d'être exprimées de manière globale pour les trois dimensions E, S et G, ou individuellement pour tout facteur environnemental ou social.

● **... et par rapport aux périodes précédentes ?**

À la fin de la période précédente, la note ESG moyenne pondérée du portefeuille était de 0.24 (D) et la note ESG moyenne pondérée de l'univers d'investissement ESG était de -0.12 (D).

● **Quels étaient les objectifs des investissements durables que le produit financier entendait partiellement réaliser, et comment l'investissement durable a-t-il contribué à ces objectifs ?**

Les objectifs des investissements durables sont d'investir dans des sociétés détenues qui cherchent à respecter deux critères :

1. suivre les bonnes pratiques environnementales et sociales ; et
2. éviter de fabriquer des produits ou de fournir des services qui nuisent à l'environnement et à la société.

Pour que la société bénéficiaire d'investissements soit réputée contribuer à l'objectif susmentionné, elle doit figurer parmi les « meilleures performances » de son secteur d'activité pour au moins l'un de ses facteurs environnementaux ou sociaux importants.

La définition de « meilleures performances » repose sur la méthode ESG exclusive d'Amundi, dont l'objectif est de mesurer la performance ESG d'une société bénéficiaire d'investissements. Pour être considérée comme l'une des « meilleures performances », une société bénéficiaire d'investissements doit afficher l'une des trois premières notes (A, B ou C, sur une échelle de notation allant de A à G) dans son secteur pour au moins un facteur environnemental ou social important. Les facteurs environnementaux et sociaux sont identifiés à l'échelle des secteurs. L'identification des facteurs importants est basée sur le cadre d'analyse ESG d'Amundi qui combine des données extra-financières et une analyse qualitative du secteur associé et des questions de durabilité. Les facteurs identifiés

comme importants représentent plus de 10 % de la note ESG globale. Par exemple pour le secteur de l'énergie, les facteurs importants sont les suivants : émissions et énergie, biodiversité et pollution, santé et sécurité, communautés locales et droits humains. Pour un aperçu plus complet des secteurs et des facteurs, veuillez consulter la Déclaration réglementaire ESG d'Amundi disponible sur www.amundi.lu

Pour contribuer aux objectifs ci-dessus, la société bénéficiaire d'investissements ne doit pas avoir d'exposition significative aux activités (par ex. tabac, armes, jeux de hasard, charbon, aviation, production de viande, fabrication d'engrais et de pesticides, production de plastique à usage unique) incompatibles avec ces critères.

Le caractère durable d'un investissement est évalué au niveau de la société bénéficiaire d'investissements.

● ***Dans quelle mesure les investissements durables que le produit financier a partiellement réalisés n'ont-ils pas causé de préjudice important à un objectif d'investissement durable sur le plan environnemental ou social ?***

Pour s'assurer que les investissements durables ne causent pas de préjudice important (principe « Do no significant harm » ou « DNSH » en anglais), Amundi utilise deux filtres :

Le premier filtre de DNSH repose sur le contrôle des indicateurs obligatoires des Principales incidences négatives de l'Annexe 1, Tableau 1 des normes techniques réglementaires (RTS) lorsqu'il existe des données fiables (par ex. Intensité des GES des sociétés bénéficiaires d'investissements) via une combinaison d'indicateurs (par ex. intensité carbone) et des seuils ou règles spécifiques (par ex. que l'intensité carbone de la société bénéficiaire d'investissements n'appartient pas au dernier décile du secteur).

Dans sa politique d'exclusion qui fait partie intégrante de sa Politique d'investissement responsable, Amundi tient d'ores et déjà compte de Principales incidences négatives spécifiques. Ces exclusions, qui s'appliquent en sus des tests détaillés ci-dessus, couvrent les sujets suivants : exclusions sur les armes controversées, les violations des principes du Pacte mondial des Nations Unies, le charbon et le tabac.

Au-delà des facteurs de durabilité spécifiques couverts par le premier filtre, Amundi a défini un second filtre, qui ne tient pas compte des indicateurs obligatoires des Principales incidences négatives ci-dessus, afin de vérifier que la société n'affiche pas de mauvaises performances d'un point de vue environnemental ou social global par rapport aux autres entreprises de son secteur, ce qui correspond à un score environnemental ou social supérieur ou égal à E selon la notation ESG d'Amundi.

- ***Comment les indicateurs concernant les incidences négatives sur les facteurs de durabilité ont-ils été pris en considération ?***

Les indicateurs d'incidences négatives ont été pris en compte comme détaillé dans le premier filtre DNSH ci-dessus.

Le premier filtre DNSH repose sur le contrôle des indicateurs obligatoires des Principales incidences négatives de l'Annexe 1, Tableau 1 du Règlement délégué (UE) 2022/1288 lorsqu'il existe des données fiables via la combinaison des indicateurs suivants et de seuils ou règles spécifiques :

- une intensité en CO2 qui n'appartient pas au dernier décile par rapport aux autres entreprises du secteur (ne s'applique qu'aux secteurs à forte intensité) ;
- un Conseil d'administration dont le niveau de diversité n'appartient pas au dernier décile par rapport aux autres sociétés du secteur ;
- ne pas faire l'objet de controverse relative aux conditions de travail et aux droits humains ; et
- ne pas faire l'objet de controverse relative à la biodiversité et à la pollution.

Dans sa politique d'exclusion qui fait partie intégrante de sa Politique d'investissement responsable, Amundi tient d'ores et déjà compte de Principales incidences négatives spécifiques. Ces exclusions, qui s'appliquent en sus des tests détaillés ci-dessus, couvrent les sujets suivants : exclusions sur les armes controversées, les violations des principes du Pacte mondial des Nations Unies, le charbon et le tabac.

- ***Les investissements durables étaient-ils conformes aux Principes directeurs de l'OCDE à l'intention des entreprises multinationales et aux Principes directeurs des Nations unies relatifs aux entreprises et aux droits humains ? Description détaillée :***

Les principales incidences négatives correspondent aux incidences négatives les plus significatives des décisions d'investissement sur les facteurs de durabilité liés aux questions environnementales, sociales et de personnel, au respect des droits humains et à la lutte contre la corruption et les actes de corruption.

Oui, les Principes directeurs de l'OCDE à l'intention des entreprises multinationales et les Principes directeurs des Nations unies relatifs aux entreprises et aux droits humains sont intégrés à notre méthode de notation ESG. Notre outil de notation ESG exclusif évalue les émetteurs à l'aide des données disponibles auprès de nos fournisseurs de données. Par exemple, le modèle dispose d'un critère dédié appelé « Implication dans la communauté et droits humains » qui s'applique à tous les secteurs en plus d'autres critères liés aux droits humains, y compris les chaînes d'approvisionnement socialement responsables, les conditions de travail et les relations de travail. En outre, nous effectuons un contrôle des controverses au moins une fois par trimestre, y compris sur les entreprises identifiées pour des violations des droits humains. En cas de controverse, les analystes évaluent la situation, lui donnent une note (à l'aide de notre méthode de notation exclusive) et déterminent la marche à suivre. Les notes de controverse sont mises à jour chaque trimestre pour suivre les tendances et les efforts de correction.

La Taxinomie de l'UE définit un principe consistant à « ne pas causer de préjudice important » (« Do not significant harm » ou DNSH) en vertu duquel les investissements alignés sur la Taxinomie ne doivent pas causer de préjudice important aux objectifs de la Taxinomie de l'UE et s'accompagnent de critères de l'UE spécifiques.

Le principe consistant à « ne pas causer de préjudice important » ne s'applique qu'aux investissements sous-jacents du produit financier qui tiennent compte des critères de l'UE pour les activités économiques durables sur le plan environnemental. Les investissements sous-jacents de la portion restante de ce produit financier ne tiennent pas compte des critères de l'UE en matière d'activités économiques durables sur le plan environnemental.

Tout autre investissement durable doit également se conformer au principe consistant à ne pas causer de préjudice important aux objectifs environnementaux ou sociaux.

Dans quelle mesure ce produit financier a-t-il pris en considération les principales incidences négatives sur les facteurs de durabilité ?

Le produit tient compte de toutes les Principales incidences négatives obligatoires en vertu de l'Annexe 1, Tableau 1 du Règlement délégué (UE) 2022/1288 applicables à la stratégie du produit et s'appuie sur une combinaison de politiques d'exclusion (normatives et sectorielles) et d'approches d'engagement et de vote :

- Exclusion : Amundi a défini des règles d'exclusion normatives, basées sur l'activité et les secteurs, qui couvrent certains des principaux indicateurs négatifs de durabilité énumérés par le Règlement Disclosure (sur la publication d'informations).
- Intégration des facteurs ESG : Amundi a adopté des normes d'intégration ESG minimales appliquées par défaut à ses fonds de type ouvert activement gérés (exclusion des émetteurs ayant la note G et meilleure note ESG moyenne pondérée supérieure à celle de l'indice de référence applicable). Les 38 critères employés dans la stratégie de notation ESG d'Amundi ont également été conçus pour tenir compte des principaux impacts sur les facteurs de durabilité, ainsi que de la qualité de la réduction entreprise en la matière.
- Engagement : L'engagement est un processus continu et ciblé qui vise à influencer les activités ou le comportement des sociétés bénéficiaires d'investissements. L'objectif des activités d'engagement peut se diviser en deux catégories : impliquer un émetteur pour améliorer la manière dont il intègre la dimension environnementale et sociale ou impliquer un émetteur pour améliorer son impact sur les questions environnementales, sociales et liées aux droits humains ou d'autres questions de durabilité qui sont importantes pour la société au sens large et l'économie mondiale.
- Vote : La politique de vote d'Amundi répond à une analyse globale de toutes les questions à long terme qui peuvent influencer la création de valeur, y compris les questions ESG importantes. pour plus d'informations, veuillez consulter la Politique de vote d'Amundi.
- Surveillance des controverses : Amundi a développé un système de suivi des controverses qui s'appuie sur trois fournisseurs de données externes pour suivre systématiquement

l'évolution des controverses et leur niveau de gravité. Cette approche quantitative est ensuite enrichie d'une évaluation approfondie de chaque controverse grave, menée par des analystes ESG, puis d'un examen périodique de son évolution. Cette approche s'applique à tous les fonds d'Amundi.

Pour de plus amples détails sur le mode de prise en compte des indicateurs relatifs aux Principales incidences négatives obligatoires, veuillez consulter la Déclaration sur la publication d'informations en matière de finance durable d'Amundi disponible sur www.amundi.com.

Quels étaient les principaux investissements de ce produit financier ?

La liste inclut les investissements qui constituent **la proportion la plus importante d'investissements** du produit financier au cours de la période de référence, à savoir : **du 01/07/2023 au 30/06/2024**

Principaux investissements	Secteur	Sous-secteur	Pays	% des actifs
ALPHABET INC CL A	Services de communication	Médias et loisirs	États-Unis	4.92%
AMAZON.COM INC	Consommation discrétionnaire	Distribution et vente au détail de biens de consommation discrétionnaires	États-Unis	4.34%
SHELL PLC	Énergie	Pétrole, gaz et combustibles	Royaume-Uni	3.60%
INTL BUSINESS MACHINES CORP	Technologies de l'information	Logiciels et services	États-Unis	3.40%

Aux fins d'observer la taxinomie de l'UE, les critères relatifs au **gaz fossile** incluent des limites aux émissions et le passage à une énergie entièrement renouvelable ou à des combustibles à faible teneur en carbone d'ici fin 2035. Pour **l'énergie nucléaire**, les critères incluent des règles exhaustives de sécurité et de gestion des déchets.

Les activités habilitantes permettent directement à d'autres activités de contribuer de manière substantielle à la réalisation d'un objectif environnemental.

Les activités transitoires sont des activités pour lesquelles il n'existe pas encore de solution de remplacement sobre en carbone et, entre autres, dont les

Dans quelle mesure les investissements durables ayant un objectif environnemental étaient-ils alignés sur la Taxinomie de l'UE ?

Le fonds promeut des caractéristiques tant environnementales que sociales. Si le fonds ne s'est pas engagé à réaliser des investissements alignés sur la Taxinomie de l'UE, au cours de la période sous revue, il a cependant investi 0.04% dans des investissements durables alignés sur la Taxinomie de l'UE. De tels investissements ont contribué aux objectifs d'atténuation du changement climatique de la taxinomie de l'UE.

L'alignement des sociétés bénéficiaires d'investissements sur les objectifs de la Taxinomie de l'UE susmentionnés est évalué à l'aide du chiffre d'affaires (ou des revenus) et/ou des données d'utilisation des produits des obligations vertes.

Le pourcentage communiqué d'alignement des investissements du fonds sur la Taxinomie de l'UE n'a pas été audité par le réviseur d'entreprises agréé du fonds ni par aucun tiers.

● Le produit financier a-t-il investi dans des activités liées au gaz fossile et/ou à l'énergie nucléaire qui sont conformes à la taxinomie de l'UE¹ ?

☐

Oui :

☐

Dans le gaz fossile

☐

Dans l'énergie nucléaire

☒

Non

Aucune donnée fiable concernant l'alignement sur les activités de gaz fossile et d'énergie nucléaire conformes à la Taxinomie de l'UE n'était disponible sur la période.

¹Les activités liées au gaz fossile et/ou à l'énergie nucléaire ne seront conformes à la Taxinomie de l'UE que si elles contribuent à limiter le changement climatique (« atténuation du changement climatique ») et ne causent pas de préjudice important à tout objectif de la Taxinomie de l'UE. L'intégralité des critères relatifs aux activités économiques liées au gaz fossile et à l'énergie nucléaire conformes à la Taxinomie de l'UE sont définis dans le Règlement délégué (UE) 2022/1214 de la Commission.

niveaux d'émission de gaz à effet de serre correspondent aux meilleures performances réalisables.

Les activités alignées sur la taxinomie

sont exprimées en pourcentage :

- **du chiffre d'affaires** pour refléter la part des revenus provenant des activités vertes des sociétés bénéficiaires d'investissements ;
- **des dépenses d'investissement (CapEx)** pour montrer les investissements verts réalisés par les sociétés bénéficiaires d'investissements, pour une transition vers une économie verte, par exemple ; et
- **des dépenses d'exploitation (OpEx)** pour refléter les activités opérationnelles vertes des sociétés bénéficiaires d'investissements.

Les graphiques ci-dessous font apparaître en vert le pourcentage d'investissements alignés sur la Taxinomie de l'UE. Étant donné qu'il n'existe pas de méthodologie appropriée pour déterminer l'alignement des obligations souveraines* sur la taxinomie, le premier graphique montre l'alignement sur la Taxinomie par rapport à tous les investissements du produit financier, y compris les obligations souveraines, tandis que le deuxième graphique représente l'alignement sur la Taxinomie uniquement par rapport aux investissements du produit financier autres que les obligations souveraines.

* Aux fins de ces graphiques, les « obligations souveraines » comprennent toutes les expositions souveraines

● Quelle était la part d'investissements dans les activités transitoires et habilitantes ?

Au 30/06/2024, en utilisant le chiffre d'affaires et/ou les données d'utilisation des produits des obligations vertes comme indicateur, la part d'investissements du fonds dans les activités transitoires était de 0.03% et la part d'investissements dans les activités habilitantes était de 0.01%. Le pourcentage communiqué d'alignement des investissements du fonds sur la Taxinomie de l'UE n'a pas été audité par le réviseur d'entreprises agréé du fonds ni par aucun tiers.

● Comment se situe le pourcentage d'investissements alignés sur la taxinomie de l'UE par rapport aux périodes de référence précédentes ?

À la fin de la période précédente, le pourcentage d'investissements alignés sur la taxinomie était de 0.01%.

 sont des investissements durables ayant un objectif environnemental qui ne tiennent pas compte

Quelle était la part des investissements durables ayant un objectif environnemental qui n'étaient pas alignés sur la Taxinomie de l'UE ?

La part des investissements durables ayant un objectif environnemental et non alignés sur la taxinomie était de **34.13%** à la fin de la période. Cela tient du fait que certains émetteurs sont considérés comme investissements durables en vertu du Règlement SFDR mais qu'une portion de leurs activités n'est pas alignée sur les standards de la taxinomie de l'UE, ou que les données correspondantes ne sont pas encore disponibles en vue d'une évaluation relative à la taxinomie de l'UE.

des critères en matière d'activités économiques durables sur le plan environnemental visés par le Règlement (UE) 2020/852.

Quelle était la part d'investissements durables sur le plan social ?

La proportion des investissements durables sur le plan social était de 7.08% à la fin de la période.

Quels investissements étaient inclus dans la catégorie « Autres », quelle était leur finalité et existait-il des garanties environnementales ou sociales minimales ?

Sont inclus dans la catégorie « N° 2 Autres » les liquidités et autres instruments détenus aux fins de gestion de la liquidité et des risques du portefeuille. Pour les obligations et actions non notées, des garanties environnementales et sociales minimales ont été mises en place par le biais d'un filtrage des émetteurs en rapport aux activités controversées définies dans les principes du Pacte mondial des Nations unies. Elle peut également inclure des titres sans notation ESG pour lesquels les données nécessaires à la mesure de la réalisation des caractéristiques environnementales ou sociales ne sont pas disponibles.

Quelles mesures ont-elles été prises pour réaliser les caractéristiques environnementales et/ou sociales au cours de la période de référence ?

Des indicateurs de durabilité sont mis à disposition de manière continue dans le système de gestion du portefeuille pour permettre aux gestionnaires du portefeuille d'évaluer l'impact de leurs décisions d'investissement.

Ces indicateurs sont intégrés au cadre de contrôle d'AMUNDI, en répartissant les responsabilités entre le premier niveau de contrôles réalisés par les équipes Investissement elles-mêmes, et le second niveau de contrôles réalisé par les équipes Risque, qui surveillent la conformité aux caractéristiques environnementales ou sociales promues en permanence par le fonds.

En outre, la Politique d'investissement responsable d'AMUNDI définit une approche active en matière d'engagement qui promeut le dialogue avec les sociétés bénéficiaires d'investissements, y compris celles qui sont incluses dans le portefeuille de ce produit. Notre Rapport annuel en matière d'engagement, disponible à la page <https://about.amundi.com/esg-documentation>, fournit des informations détaillées sur cet engagement et ses résultats.

Quelles ont été les performances de ce produit financier par rapport à l'indice de référence ?

Un indice de référence est un indice qui sert à mesurer si le produit financier réalise les caractéristiques environnementales et/ou sociales qu'il promeut.

Ce produit ne dispose pas d'un Indice de référence ESG.

● En quoi l'indice de référence diffère-t-il de l'indice de marché large ?

Ce produit ne dispose pas d'un Indice de référence ESG.

● Quelle a été la performance de ce produit financier par rapport aux indicateurs de durabilité pour déterminer l'alignement de l'indice de référence sur les caractéristiques environnementales ou sociales promues ?

Ce produit ne dispose pas d'un Indice de référence ESG.

● Quelle a été la performance de ce produit financier par rapport à l'indice de référence ?

Ce produit ne dispose pas d'un Indice de référence ESG.

● Quelle a été la performance de ce produit financier par rapport à l'indice de marché large ?

Ce produit ne dispose pas d'un Indice de référence ESG.

Modèle d'informations périodiques pour les produits financiers visés à l'Article 8, paragraphes 1, 2 et 2a, du Règlement (UE) 2019/2088 et à l'Article 6, premier paragraphe du Règlement (UE) 2020/852

Dénomination du produit : AMUNDI FUNDS US
EQUITY DIVIDEND GROWTH

Identifiant d'entité juridique :
5493008HZKXKMO2U3E97

Par investissement durable, on entend un investissement dans une activité économique qui contribue à un objectif environnemental ou social, pour autant qu'il ne cause de préjudice important à aucun de ces objectifs et que les sociétés détenues respectent les pratiques de bonne gouvernance.

La Taxinomie de l'UE est un système de classification institué par le Règlement (UE) 2020/852, qui dresse une liste d'**activités économiques durables sur le plan environnemental**. Ce règlement ne comprend pas de liste d'activités économiques durables sur le plan social. Les investissements durables ayant un objectif environnemental ne sont pas nécessairement alignés sur la taxinomie.

Caractéristiques environnementales et/ou sociales

Le produit financier avait-il un objectif d'investissement durable ?	
☒ ☐ Oui	☒ ☐ Non
☐ Il a réalisé des investissements durables ayant un objectif environnemental : _____ ☐ dans des activités économiques qui sont considérées comme durables sur le plan environnemental au titre de la Taxinomie de l'UE ☐ dans des activités économiques qui ne sont pas considérées comme durables sur le plan environnemental au titre de la Taxinomie de l'UE	☒ Il a promu des caractéristiques environnementales/sociales (E/S) et, bien qu'il n'ait pas eu pour objectif l'investissement durable, il contenait une proportion d'investissements durables de 27.53% ☐ ayant un objectif environnemental dans des activités économiques qui sont considérées comme durables sur le plan environnemental au titre de la Taxinomie de l'UE ☒ ayant un objectif environnemental dans des activités économiques qui ne sont pas considérées comme durables sur le plan environnemental au titre de la Taxinomie de l'UE ☐ ayant un objectif social
☐ Il a réalisé des investissements durables ayant un objectif social : _____	☐ Il a promu des caractéristiques E/S, mais n'a pas réalisé d'investissements durables

Dans quelle mesure les caractéristiques environnementales et/ou sociales promues par ce produit financier ont-elles été réalisées ?

Au cours de l'exercice financier, le produit n'a cessé de promouvoir les caractéristiques environnementales et/ou sociales en cherchant à atteindre une note ESG supérieure à celle de son univers d'investissement **RUSSELL 1000 VALUE (FRC)**. Pour déterminer la note ESG du Produit et de l'univers d'investissement ESG, la performance ESG a été évaluée de manière continue en comparant la performance moyenne d'un titre par rapport au secteur de l'émetteur du titre, pour chacune des trois caractéristiques, à savoir environnementale, sociale et de gouvernance.

L'univers d'investissement est un univers de marché large qui n'évalue ni n'inclut pas de composantes en fonction de caractéristiques environnementales et/ou sociales, et qui n'a par conséquent pas pour vocation d'être conforme aux caractéristiques promues par le fonds. Aucun indice de référence ESG n'a été désigné.

Les indicateurs de durabilité évaluent la mesure dans laquelle les caractéristiques environnementales ou sociales promues par le produit financier sont atteintes.

● **Quelle performance ont affiché les indicateurs de durabilité ?**

Amundi a développé son propre processus de notation ESG interne, qui suit une approche « Best-in-class ». Les notations adaptées à chaque secteur d'activité ont pour objectif d'évaluer la dynamique dans laquelle interviennent les entreprises.

L'indicateur de durabilité employé est la note ESG du Produit mesurée en comparaison avec la note ESG de l'univers d'investissement ESG du Produit.

À la fin de la période :

- La note ESG moyenne pondérée du portefeuille est **-0.137 (D)**.
- La note ESG moyenne pondérée de l'univers d'investissement ESG est **-0.479 (D)**.

La notation ESG Amundi utilisée pour déterminer la note ESG est une note ESG quantitative qui se décline en sept niveaux allant de A (les meilleures notes de l'univers) à G (les pires notes). Sur l'échelle de notation ESG d'Amundi, les titres figurant sur la liste d'exclusion correspondent à G. Pour les entreprises émettrices, la performance ESG est évaluée de manière globale et au niveau des critères pertinents par comparaison avec la performance moyenne du secteur, en combinant les trois dimensions ESG :

- Dimension environnementale : cette dimension examine la capacité des émetteurs à contrôler leur impact environnemental direct et indirect, en limitant leur consommation d'énergie, en réduisant leurs émissions de gaz à effet de serre, en luttant contre l'appauvrissement des ressources et en protégeant la biodiversité.
- Dimension sociale : cette dimension évalue le fonctionnement d'un émetteur dans deux domaines différents, à savoir sa stratégie de développement du capital humain et le respect des droits humains en général.
- Dimension de gouvernance : cette dimension évalue la capacité de l'émetteur à garantir les fondements d'un cadre de gouvernance d'entreprise efficace et à générer de la valeur sur le long terme.

La méthodologie appliquée par la notation ESG d'Amundi utilise 38 critères qui sont soit génériques (communs à toutes les entreprises, indépendamment de leur activité) soit spécifiques au secteur, et qui sont pondérés en fonction du secteur et considérés en termes d'impact sur la réputation, l'efficacité opérationnelle et les réglementations concernant un émetteur. Les notations ESG d'Amundi sont susceptibles d'être exprimées de manière globale pour les trois dimensions E, S et G, ou individuellement pour tout facteur environnemental ou social.

● **... et par rapport aux périodes antérieures ?**

À la fin de la période précédente, la note ESG moyenne pondérée du portefeuille était de -0.13 (D) et la note ESG moyenne pondérée de l'univers d'investissement ESG était de -0.39 (D).

● **Quels étaient les objectifs des investissements durables que le produit financier entendait partiellement réaliser, et comment l'investissement durable a-t-il contribué à ces objectifs ?**

Les objectifs des investissements durables sont d'investir dans des sociétés détenues qui cherchent à respecter deux critères :

1. suivre les bonnes pratiques environnementales et sociales ; et
2. éviter de fabriquer des produits ou de fournir des services qui nuisent à l'environnement et à la société.

Pour que la société bénéficiaire des investissements soit réputée contribuer à l'objectif susmentionné, elle doit figurer parmi les « meilleures performances » de son secteur d'activité pour au moins l'un de ses facteurs environnementaux ou sociaux importants.

La définition de « meilleures performances » repose sur la méthode ESG exclusive d'Amundi, dont l'objectif est de mesurer la performance ESG d'une société bénéficiaire des investissements. Pour être considérée comme l'une des « meilleures performances », une société bénéficiaire des investissements doit afficher l'une des trois premières notes (A, B ou C, sur une échelle de notation allant de A à G) dans son secteur pour au moins un facteur environnemental ou social important. Les facteurs environnementaux et sociaux sont identifiés à l'échelle des secteurs. L'identification des facteurs importants est basée sur le cadre d'analyse ESG d'Amundi qui combine des données extra-financières et une analyse qualitative du secteur associé et des questions de durabilité. Les facteurs identifiés comme importants représentent plus de 10 % de la note ESG globale. Par exemple pour le secteur de

l'énergie, les facteurs importants sont les suivants : émissions et énergie, biodiversité et pollution, santé et sécurité, communautés locales et droits humains. Pour un aperçu plus complet des secteurs et des facteurs, veuillez consulter la Déclaration réglementaire ESG d'Amundi disponible sur www.amundi.lu

Pour contribuer aux objectifs ci-dessus, la société bénéficiaire des investissements ne doit pas avoir d'exposition significative aux activités (par ex. tabac, armes, jeux de hasard, charbon, aviation, production de viande, fabrication d'engrais et de pesticides, production de plastique à usage unique) incompatibles avec ces critères.

Le caractère durable d'un investissement est évalué au niveau de la société bénéficiaire des investissements.

Les principales incidences négatives correspondent aux incidences négatives les plus significatives des décisions d'investissement sur les facteurs de durabilité liés aux questions environnementales, sociales et de personnel, au respect des droits humains et à la lutte contre la corruption et les actes de corruption.

● ***Dans quelle mesure les investissements durables que le produit financier a partiellement réalisés n'ont-ils pas causé de préjudice important à un objectif d'investissement durable sur le plan environnemental ou social ?***

Pour s'assurer que les investissements durables ne causent pas de préjudice important (principe « Do no significant harm » ou « DNSH » en anglais), Amundi utilise deux filtres :

Le premier filtre de DNSH repose sur le contrôle des indicateurs obligatoires des Principales incidences négatives de l'Annexe 1, Tableau 1 des normes techniques réglementaires (RTS) lorsqu'il existe des données fiables (par ex. Intensité des GES des sociétés bénéficiaires des investissements) via une combinaison d'indicateurs (par ex. intensité carbone) et des seuils ou règles spécifiques (par ex. que l'intensité carbone de la société bénéficiaire des investissements n'appartient pas au dernier décile du secteur).

Dans sa politique d'exclusion qui fait partie intégrante de sa Politique d'investissement responsable, Amundi tient d'ores et déjà compte de Principales incidences négatives spécifiques. Ces exclusions, qui s'appliquent en sus des tests détaillés ci-dessus, couvrent les sujets suivants : exclusions sur les armes controversées, les violations des principes du Pacte mondial des Nations Unies, le charbon et le tabac.

Au-delà des facteurs de durabilité spécifiques couverts par le premier filtre, Amundi a défini un second filtre, qui ne tient pas compte des indicateurs obligatoires des Principales incidences négatives ci-dessus, afin de vérifier que la société n'affiche pas de mauvaises performances d'un point de vue environnemental ou social global par rapport aux autres entreprises de son secteur, ce qui correspond à un score environnemental ou social supérieur ou égal à E selon la notation ESG d'Amundi.

- ***Comment les indicateurs concernant les incidences négatives sur les facteurs de durabilité ont-ils été pris en considération ?***

Les indicateurs d'incidences négatives ont été pris en compte comme détaillé dans le premier filtre DNSH ci-dessus.

Le premier filtre DNSH repose sur le contrôle des indicateurs obligatoires des Principales incidences négatives de l'Annexe 1, Tableau 1 du Règlement délégué (UE) 2022/1288 lorsqu'il existe des données fiables via la combinaison des indicateurs suivants et de seuils ou règles spécifiques :

- une intensité en CO2 qui n'appartient pas au dernier décile par rapport aux autres entreprises du secteur (ne s'applique qu'aux secteurs à forte intensité) ;
- un Conseil d'administration dont le niveau de diversité n'appartient pas au dernier décile par rapport aux autres sociétés du secteur ;
- ne pas faire l'objet de controverse relative aux conditions de travail et aux droits humains ; et
- ne pas faire l'objet de controverse relative à la biodiversité et à la pollution.

Dans sa politique d'exclusion qui fait partie intégrante de sa Politique d'investissement responsable, Amundi tient d'ores et déjà compte de Principales incidences négatives spécifiques. Ces exclusions, qui s'appliquent en sus des tests détaillés ci-dessus, couvrent les sujets suivants : exclusions sur les armes controversées, les violations des principes du Pacte mondial des Nations Unies, le charbon et le tabac.

- ***Les investissements durables étaient-ils conformes aux Principes directeurs de l'OCDE à l'intention des entreprises multinationales et aux Principes directeurs des Nations unies relatifs aux entreprises et aux droits humains ? Description détaillée :***

Oui, les Principes directeurs de l'OCDE à l'intention des entreprises multinationales et les Principes directeurs des Nations unies relatifs aux entreprises et aux droits humains sont intégrés à notre méthode de notation ESG. Notre outil de notation ESG exclusif évalue les

émetteurs à l'aide des données disponibles auprès de nos fournisseurs de données. Par exemple, le modèle dispose d'un critère dédié appelé « Implication dans la communauté et droits humains » qui s'applique à tous les secteurs en plus d'autres critères liés aux droits humains, y compris les chaînes d'approvisionnement socialement responsables, les conditions de travail et les relations de travail. En outre, nous effectuons un contrôle des controverses au moins une fois par trimestre, y compris sur les entreprises identifiées pour des violations des droits humains. En cas de controverse, les analystes évaluent la situation, lui donnent une note (à l'aide de notre méthode de notation exclusive) et déterminent la marche à suivre. Les notes de controverse sont mises à jour chaque trimestre pour suivre les tendances et les efforts de correction.

La Taxinomie de l'UE définit un principe consistant à « ne pas causer de préjudice important » (« Do not significant harm » ou DNSH) en vertu duquel les investissements alignés sur la Taxinomie ne doivent pas causer de préjudice important aux objectifs de la Taxinomie de l'UE et s'accompagnent de critères de l'UE spécifiques.

Le principe consistant à « ne pas causer de préjudice important » ne s'applique qu'aux investissements sous-jacents du produit financier qui tiennent compte des critères de l'UE pour les activités économiques durables sur le plan environnemental. Les investissements sous-jacents de la portion restante de ce produit financier ne tiennent pas compte des critères de l'UE en matière d'activités économiques durables sur le plan environnemental.

Tout autre investissement durable doit également se conformer au principe consistant à ne pas causer de préjudice important aux objectifs environnementaux ou sociaux.

Dans quelle mesure ce produit financier a-t-il pris en considération les principales incidences négatives sur les facteurs de durabilité ?

Le produit tient compte de toutes les Principales incidences négatives obligatoires en vertu de l'Annexe 1, Tableau 1 du Règlement délégué (UE) 2022/1288 applicables à la stratégie du produit et s'appuie sur une combinaison de politiques d'exclusion (normatives et sectorielles) et d'approches d'engagement et de vote :

- Exclusion : Amundi a défini des règles d'exclusion normatives, basées sur l'activité et les secteurs, qui couvrent certains des principaux indicateurs négatifs de durabilité énumérés par le Règlement Disclosure (sur la publication d'informations).
- Intégration des facteurs ESG : Amundi a adopté des normes d'intégration ESG minimales appliquées par défaut à ses fonds de type ouvert activement gérés (exclusion des émetteurs ayant la note G et meilleure note ESG moyenne pondérée supérieure à celle de l'indice de référence applicable). Les 38 critères employés dans la stratégie de notation ESG d'Amundi ont également été conçus pour tenir compte des principaux impacts sur les facteurs de durabilité, ainsi que de la qualité de la réduction entreprise en la matière.
- Engagement : L'engagement est un processus continu et ciblé qui vise à influencer les activités ou le comportement des sociétés bénéficiaires des investissements. L'objectif des activités d'engagement peut se diviser en deux catégories : impliquer un émetteur pour améliorer la manière dont il intègre la dimension environnementale et sociale ou impliquer un émetteur pour améliorer son impact sur les questions environnementales, sociales et liées aux droits humains ou d'autres questions de durabilité qui sont importantes pour la société au sens large et l'économie mondiale.
- Vote : La politique de vote d'Amundi répond à une analyse globale de toutes les questions à long terme qui peuvent influencer la création de valeur, y compris les questions ESG importantes. pour plus d'informations, veuillez consulter la Politique de vote d'Amundi.
- Surveillance des controverses : Amundi a développé un système de suivi des controverses qui s'appuie sur trois fournisseurs de données externes pour suivre systématiquement l'évolution des controverses et leur niveau de gravité. Cette approche quantitative est ensuite enrichie d'une évaluation approfondie de chaque controverse grave, menée par des analystes ESG, puis d'un examen périodique de son évolution. Cette approche s'applique à tous les fonds d'Amundi.

Pour de plus amples détails sur le mode de prise en compte des indicateurs relatifs aux Principales incidences négatives obligatoires, veuillez consulter la Déclaration sur la publication d'informations en matière de finance durable d'Amundi disponible sur www.amundi.com.

Quels étaient les principaux investissements de ce produit financier ?

La liste inclut les investissements qui constituent **la proportion la plus importante d'investissements** du produit financier au cours de la période de référence, à savoir : **du 01/07/2023 au 30/06/2024**

Principaux investissements	Secteur	Sous-secteur	Pays	% des actifs

Aux fins d'observer la taxinomie de l'UE, les critères relatifs au **gaz fossile** incluent des limites aux émissions et le passage à une énergie entièrement renouvelable ou à des combustibles à faible teneur en carbone d'ici fin 2035. Pour l'**énergie nucléaire**, les critères incluent des règles exhaustives de sécurité et de gestion des déchets.

Les activités habilitantes permettent directement à d'autres activités de contribuer de manière substantielle à la réalisation d'un objectif environnemental.

Les activités transitoires sont des activités pour lesquelles il n'existe pas encore

Dans quelle mesure les investissements durables ayant un objectif environnemental étaient-ils alignés sur la Taxinomie de l'UE ?

Le fonds promeut des caractéristiques tant environnementales que sociales. Si le fonds ne s'est pas engagé à réaliser des investissements alignés sur la Taxinomie de l'UE, au cours de la période sous revue, il a cependant investi 0.00% dans des investissements durables alignés sur la Taxinomie de l'UE.

● Le produit financier a-t-il investi dans des activités liées au gaz fossile et/ou à l'énergie nucléaire qui sont conformes à la Taxinomie de l'UE¹ ?

☐ Oui :

☐ Dans le gaz fossile ☐ Dans l'énergie nucléaire

☒ Non

Aucune donnée fiable concernant l'alignement sur les activités de gaz fossile et d'énergie nucléaire conformes à la Taxinomie de l'UE n'était disponible sur la période.

¹Les activités liées au gaz fossile et/ou à l'énergie nucléaire ne seront conformes à la Taxinomie de l'UE que si elles contribuent à limiter le changement climatique (« atténuation du changement climatique ») et ne causent pas de préjudice important à tout objectif de la Taxinomie de l'UE. L'intégralité des critères relatifs aux activités économiques liées au gaz fossile et à l'énergie nucléaire conformes à la Taxinomie de l'UE sont définis dans le Règlement délégué (UE) 2022/1214 de la Commission.

de solution de remplacement sobre en carbone et, entre autres, dont les niveaux d'émission de gaz à effet de serre correspondent aux meilleures performances réalisables.

Les activités alignées sur la taxinomie

sont exprimées en pourcentage :

- **du chiffre d'affaires** pour refléter la part des revenus provenant des activités vertes des sociétés bénéficiaires d'investissements ;
- **des dépenses d'investissement (CapEx)** pour montrer les investissements verts réalisés par les sociétés bénéficiaires d'investissements, pour une transition vers une économie verte, par exemple ; et
- **des dépenses d'exploitation (OpEx)** pour refléter les activités opérationnelles vertes des sociétés bénéficiaires d'investissements.

Les graphiques ci-dessous font apparaître en vert le pourcentage d'investissements alignés sur la Taxinomie de l'UE. Étant donné qu'il n'existe pas de méthodologie appropriée pour déterminer l'alignement des obligations souveraines* sur la taxinomie, le premier graphique montre l'alignement sur la Taxinomie par rapport à tous les investissements du produit financier, y compris les obligations souveraines, tandis que le deuxième graphique représente l'alignement sur la Taxinomie uniquement par rapport aux investissements du produit financier autres que les obligations souveraines.

* Aux fins de ces graphiques, les « obligations souveraines » comprennent toutes les expositions souveraines

● **Quelle était la part d'investissements dans les activités transitoires et habilitantes ?**

Au 30/06/2024, en utilisant le chiffre d'affaires et/ou les données d'utilisation des produits des obligations vertes comme indicateur, la part d'investissements du fonds dans les activités transitoires était de 0.00% et la part d'investissements dans les activités habilitantes était de 0.00%. Le pourcentage communiqué d'alignement des investissements du fonds sur la Taxinomie de l'UE n'a pas été audité par le réviseur d'entreprises agréé du fonds ni par aucun tiers.

● **Comment se situe le pourcentage d'investissements alignés sur la Taxinomie de l'UE par rapport aux périodes de référence antérieures ?**

À la fin de la période précédente, le pourcentage d'investissements alignés sur la taxinomie était de 0.00%.

sont des investissements durables ayant un objectif environnemental qui **ne tiennent pas compte des critères** en

Quelle était la part des investissements durables ayant un objectif environnemental qui n'étaient pas alignés sur la Taxinomie de l'UE ?

La part des investissements durables ayant un objectif environnemental et non alignés sur la taxinomie était de **24.73%** à la fin de la période. Cela tient du fait que certains émetteurs sont considérés comme investissements durables en vertu du Règlement SFDR mais qu'une portion de leurs activités n'est pas alignée sur les standards de la taxinomie de l'UE, ou que les données correspondantes ne sont pas encore disponibles en vue d'une évaluation relative à la taxinomie de l'UE.

matière d'activités économiques durables sur le plan environnemental, visés par le Règlement (UE) 2020/852.

Quelle était la part d'investissements durables sur le plan social ?

La proportion des investissements durables sur le plan social était de 2.80% à la fin de la période.

Quels investissements étaient inclus dans la catégorie « Autres », quelle était leur finalité et existait-il des garanties environnementales ou sociales minimales ?

Sont inclus dans la catégorie « N° 2 Autres » les liquidités et autres instruments détenus aux fins de gestion de la liquidité et des risques du portefeuille. Pour les obligations et actions non notées, des garanties environnementales et sociales minimales ont été mises en place par le biais d'un filtrage des émetteurs en rapport aux activités controversées définies dans les principes du Pacte mondial des Nations unies. Elle peut également inclure des titres sans notation ESG pour lesquels les données nécessaires à la mesure de la réalisation des caractéristiques environnementales ou sociales ne sont pas disponibles.

Quelles mesures ont-elles été prises pour réaliser les caractéristiques environnementales et/ou sociales au cours de la période de référence ?

Des indicateurs de durabilité sont mis à disposition de manière continue dans le système de gestion du portefeuille pour permettre aux gestionnaires du portefeuille d'évaluer l'impact de leurs décisions d'investissement.

Ces indicateurs sont intégrés au cadre de contrôle d'AMUNDI, en répartissant les responsabilités entre le premier niveau de contrôles réalisés par les équipes Investissement elles-mêmes, et le second niveau de contrôles réalisé par les équipes Risque, qui surveillent la conformité aux caractéristiques environnementales ou sociales promues en permanence par le fonds.

En outre, la Politique d'investissement responsable d'AMUNDI définit une approche active en matière d'engagement qui promeut le dialogue avec les sociétés bénéficiaires des investissements, y compris celles qui sont incluses dans le portefeuille de ce produit. Notre Rapport annuel en matière d'engagement, disponible à la page <https://about.amundi.com/esg-documentation>, fournit des informations détaillées sur cet engagement et ses résultats.

Quelles ont été les performances de ce produit financier par rapport à l'indice de référence ?

Un indice de référence est un indice qui sert à mesurer si le produit financier réalise les caractéristiques environnementales et/ou sociales qu'il promeut.

Ce produit ne dispose pas d'un Indice de référence ESG.

● En quoi l'indice de référence diffère-t-il de l'indice de marché large ?

Ce produit ne dispose pas d'un Indice de référence ESG.

● Quelles ont été les performances de ce produit financier par rapport aux indicateurs de durabilité pour déterminer l'alignement de l'indice de référence sur les caractéristiques environnementales ou sociales promues ?

Ce produit ne dispose pas d'un Indice de référence ESG.

● Quelle a été la performance de ce produit financier par rapport à l'indice de référence ?

Ce produit ne dispose pas d'un Indice de référence ESG.

● Quelle a été la performance de ce produit financier par rapport à l'indice de marché large ?

Ce produit ne dispose pas d'un Indice de référence ESG.

Informations périodiques pour les produits financiers visés à l'Article 8, paragraphes 1, 2 et 2a, du Règlement (UE) 2019/2088 et à l'Article 6, premier paragraphe du Règlement (UE) 2020/852

Dénomination du produit : AMUNDI FUNDS
US EQUITY ESG IMPROVERS

Identifiant d'entité juridique :
213800ETDMQDXO6WX979

Par investissement durable, on entend un investissement dans une activité économique qui contribue à un objectif environnemental ou social, pour autant qu'il ne cause de préjudice important à aucun de ces objectifs et que les sociétés détenues respectent les pratiques de bonne gouvernance.

La **Taxinomie de l'UE** est un système de classification institué par le Règlement (UE) 2020/852, qui dresse une liste d'**activités économiques durables sur le plan environnemental**. Ce règlement ne comprend pas de liste d'activités économiques durables sur le plan social. Les investissements durables ayant un objectif environnemental ne sont pas nécessairement alignés sur la taxinomie.

Caractéristiques environnementales et/ou sociales

Le produit financier avait-il un objectif d'investissement durable ?

☒ ☐ **Oui** ☒ ☐ **X** **Non**

☐ Il a réalisé des investissements durables ayant un objectif environnemental : _____ ☐ dans des activités économiques qui sont considérées comme durables sur le plan environnemental au titre de la Taxinomie de l'UE ☐ dans des activités économiques qui ne sont pas considérées comme durables sur le plan environnemental au titre de la Taxinomie de l'UE ☐ Il a réalisé des investissements durables ayant un objectif social : _____	☒ X Il a promu des caractéristiques environnementales/sociales (E/S) et, bien qu'il n'ait pas eu pour objectif l'investissement durable, il contenait une proportion d'investissements durables de 39.41% ☐ ayant un objectif environnemental dans des activités économiques qui sont considérées comme durables sur le plan environnemental au titre de la Taxinomie de l'UE ☒ X ayant un objectif environnemental dans des activités économiques qui ne sont pas considérées comme durables sur le plan environnemental au titre de la Taxinomie de l'UE ☐ ayant un objectif social ☐ Il a promu des caractéristiques E/S, mais n'a pas réalisé d'investissements durables
---	---

Dans quelle mesure les caractéristiques environnementales et/ou sociales promues par ce produit financier ont-elles été réalisées ?

Au cours de l'exercice financier, le produit n'a cessé de promouvoir les caractéristiques environnementales et/ou sociales en cherchant à atteindre une note ESG supérieure à celle de son univers d'investissement **S&P 500**. Pour déterminer la note ESG du Produit et de l'univers d'investissement ESG, la performance ESG a été évaluée de manière continue en comparant la performance moyenne d'un titre par rapport au secteur de l'émetteur du titre, pour chacune des trois caractéristiques, à savoir environnementale, sociale et de gouvernance.

L'univers d'investissement est un univers de marché large qui n'évalue ni n'inclut pas de composantes en fonction de caractéristiques environnementales et/ou sociales, et qui n'a par conséquent pas pour vocation d'être conforme aux caractéristiques promues par le fonds. Aucun indice de référence ESG n'a été désigné.

Le gestionnaire des investissements a concentré le processus de placement sur les entreprises/secteurs/pays ayant suivi une trajectoire positive en termes de critères ESG au sein de leur activité,

ou prévoyant de suivre une telle trajectoire. Le gestionnaire des investissements a identifié des opportunités de placement alignées sur l'objectif de génération d'alpha en se concentrant en particulier sur l'inclusion des entreprises/secteurs/pays qui seront de solides gagnants en termes de critères ESG à l'avenir, qui présentent (ou présenteront) une amélioration favorable du profil ESG, tout en investissant également dans des entreprises/secteurs/pays qui sont actuellement des références en matière d'ESG.

Par ailleurs, le Compartiment a obtenu pour son portefeuille une note ESG qui est supérieure à celle de l'Indice de référence. Le Compartiment a été comparé à la note ESG de son Indice de référence après avoir exclu dudit Indice de référence 20% des titres présentant les notes ESG les plus faibles.

Les indicateurs de durabilité évaluent la mesure dans laquelle les caractéristiques environnementales ou sociales promues par le produit financier sont atteintes.

● *Quelle performance ont affiché les indicateurs de durabilité ?*

Amundi a développé son propre processus de notation ESG interne, qui suit une approche « Best-in-class ». Les notations adaptées à chaque secteur d'activité ont pour objectif d'évaluer la dynamique dans laquelle interviennent les entreprises.

L'indicateur de durabilité employé est la note ESG du Produit mesurée en comparaison avec la note ESG de l'univers d'investissement ESG du Produit.

À la fin de la période :

- La note ESG moyenne pondérée du portefeuille est **0.107 (D)**.
- La note ESG moyenne pondérée de l'univers d'investissement ESG est **-0.433 (D)**.

La notation ESG Amundi utilisée pour déterminer la note ESG est une note ESG quantitative qui se décline en sept niveaux allant de A (les meilleures notes de l'univers) à G (les pires notes). Sur l'échelle de notation ESG d'Amundi, les titres figurant sur la liste d'exclusion correspondent à G. Pour les entreprises émettrices, la performance ESG est évaluée de manière globale et au niveau des critères pertinents par comparaison avec la performance moyenne du secteur, en combinant les trois dimensions ESG :

- Dimension environnementale : cette dimension examine la capacité des émetteurs à contrôler leur impact environnemental direct et indirect, en limitant leur consommation d'énergie, en réduisant leurs émissions de gaz à effet de serre, en luttant contre l'appauvrissement des ressources et en protégeant la biodiversité.
- Dimension sociale : cette dimension évalue le fonctionnement d'un émetteur dans deux domaines différents, à savoir sa stratégie de développement du capital humain et le respect des droits humains en général.
- Dimension de gouvernance : cette dimension évalue la capacité de l'émetteur à garantir les fondements d'un cadre de gouvernance d'entreprise efficace et à générer de la valeur sur le long terme.

La méthodologie appliquée par la notation ESG d'Amundi utilise 38 critères qui sont soit génériques (communs à toutes les entreprises, indépendamment de leur activité) soit spécifiques au secteur, et qui sont pondérés en fonction du secteur et considérés en termes d'impact sur la réputation, l'efficacité opérationnelle et les réglementations concernant un émetteur. Les notations ESG d'Amundi sont susceptibles d'être exprimées de manière globale pour les trois dimensions E, S et G, ou individuellement pour tout facteur environnemental ou social.

● *... et par rapport aux périodes antérieures ?*

À la fin de la période précédente, la note ESG moyenne pondérée du portefeuille était de 0.14 (D) et la note ESG moyenne pondérée de l'univers d'investissement ESG était de -0.38 (D).

● *Quels étaient les objectifs des investissements durables que le produit financier entendait partiellement réaliser, et comment l'investissement durable a-t-il contribué à ces objectifs ?*

Les objectifs des investissements durables sont d'investir dans des sociétés détenues qui cherchent à respecter deux critères :

1. suivre les bonnes pratiques environnementales et sociales ; et
2. éviter de fabriquer des produits ou de fournir des services qui nuisent à l'environnement et à la société.

Pour que la société bénéficiaire d'investissements soit réputée contribuer à l'objectif susmentionné, elle doit figurer parmi les « meilleures performances » de son secteur d'activité pour au moins l'un de ses facteurs environnementaux ou sociaux importants.

La définition de « meilleures performances » repose sur la méthode ESG exclusive d'Amundi, dont l'objectif est de mesurer la performance ESG d'une société bénéficiaire d'investissements. Pour être considérée comme l'une des « meilleures performances », une société bénéficiaire d'investissements doit afficher l'une des trois premières notes (A, B ou C, sur une échelle de notation allant de A à G) dans son secteur pour au moins un facteur environnemental ou social important. Les facteurs environnementaux et sociaux sont identifiés à l'échelle des secteurs. L'identification des facteurs importants est basée sur le cadre d'analyse ESG d'Amundi qui combine des données extra-financières et une analyse qualitative du secteur associé et des questions de durabilité. Les facteurs identifiés comme importants représentent plus de 10 % de la note ESG globale. Par exemple pour le secteur de l'énergie, les facteurs importants sont les suivants : émissions et énergie, biodiversité et pollution, santé et sécurité, communautés locales et droits humains. Pour un aperçu plus complet des secteurs et des facteurs, veuillez consulter la Déclaration réglementaire ESG d'Amundi disponible sur www.amundi.lu

Pour contribuer aux objectifs ci-dessus, la société bénéficiaire d'investissements ne doit pas avoir d'exposition significative aux activités (par ex. tabac, armes, jeux de hasard, charbon, aviation, production de viande, fabrication d'engrais et de pesticides, production de plastique à usage unique) incompatibles avec ces critères.

Le caractère durable d'un investissement est évalué au niveau de la société bénéficiaire d'investissements.

● ***Dans quelle mesure les investissements durables que le produit financier a partiellement réalisés n'ont-ils pas causé de préjudice important à un objectif d'investissement durable sur le plan environnemental ou social ?***

Pour s'assurer que les investissements durables ne causent pas de préjudice important (principe « Do no significant harm » ou « DNSH » en anglais), Amundi utilise deux filtres :

Le premier filtre de DNSH repose sur le contrôle des indicateurs obligatoires des Principales incidences négatives de l'Annexe 1, Tableau 1 des normes techniques réglementaires (RTS) lorsqu'il existe des données fiables (par ex. Intensité des GES des sociétés bénéficiaire des investissements) via une combinaison d'indicateurs (par ex. intensité carbone) et des seuils ou règles spécifiques (par ex. que l'intensité carbone de la société bénéficiaire des investissements n'appartient pas au dernier décile du secteur).

Dans sa politique d'exclusion qui fait partie intégrante de sa Politique d'investissement responsable, Amundi tient d'ores et déjà compte de Principales incidences négatives spécifiques. Ces exclusions, qui s'appliquent en sus des tests détaillés ci-dessus, couvrent les sujets suivants : exclusions sur les armes controversées, les violations des principes du Pacte mondial des Nations Unies, le charbon et le tabac.

Au-delà des facteurs de durabilité spécifiques couverts par le premier filtre, Amundi a défini un second filtre, qui ne tient pas compte des indicateurs obligatoires des Principales incidences négatives ci-dessus, afin de vérifier que la société n'affiche pas de mauvaises performances d'un point de vue environnemental ou social global par rapport aux autres entreprises de son secteur, ce qui correspond à un score environnemental ou social supérieur ou égal à E selon la notation ESG d'Amundi.

- ***Comment les indicateurs concernant les incidences négatives sur les facteurs de durabilité ont-ils été pris en considération ?***

Les indicateurs d'incidences négatives ont été pris en compte comme détaillé dans le premier filtre DNSH ci-dessus.

Le premier filtre DNSH repose sur le contrôle des indicateurs obligatoires des Principales incidences négatives de l'Annexe 1, Tableau 1 du Règlement délégué (UE) 2022/1288 lorsqu'il existe des données fiables via la combinaison des indicateurs suivants et de seuils ou règles spécifiques :

- une intensité en CO2 qui n'appartient pas au dernier décile par rapport aux autres entreprises du secteur (ne s'applique qu'aux secteurs à forte intensité) ;
- un Conseil d'administration dont le niveau de diversité n'appartient pas au dernier décile par rapport aux autres sociétés du secteur ;
- ne pas faire l'objet de controverse relative aux conditions de travail et aux droits humains ; et
- ne pas faire l'objet de controverse relative à la biodiversité et à la pollution.

Les principales incidences négatives correspondent aux incidences négatives les plus significatives des décisions d'investissement sur les facteurs de durabilité liés aux questions environnementales, sociales et de personnel, au respect des droits humains et à la lutte contre la corruption et les actes de corruption.

Dans sa politique d'exclusion qui fait partie intégrante de sa Politique d'investissement responsable, Amundi tient d'ores et déjà compte de Principales incidences négatives spécifiques. Ces exclusions, qui s'appliquent en sus des tests détaillés ci-dessus, couvrent les sujets suivants : exclusions sur les armes controversées, les violations des principes du Pacte mondial des Nations Unies, le charbon et le tabac.

- **Les investissements durables étaient-ils conformes aux Principes directeurs de l'OCDE à l'intention des entreprises multinationales et aux Principes directeurs des Nations unies relatifs aux entreprises et aux droits humains ? Description détaillée :**

Oui, les Principes directeurs de l'OCDE à l'intention des entreprises multinationales et les Principes directeurs des Nations unies relatifs aux entreprises et aux droits humains sont intégrés à notre méthode de notation ESG. Notre outil de notation ESG exclusif évalue les émetteurs à l'aide des données disponibles auprès de nos fournisseurs de données. Par exemple, le modèle dispose d'un critère dédié appelé « Implication dans la communauté et droits humains » qui s'applique à tous les secteurs en plus d'autres critères liés aux droits humains, y compris les chaînes d'approvisionnement socialement responsables, les conditions de travail et les relations de travail. En outre, nous effectuons un contrôle des controverses au moins une fois par trimestre, y compris sur les entreprises identifiées pour des violations des droits humains. En cas de controverse, les analystes évaluent la situation, lui donnent une note (à l'aide de notre méthode de notation exclusive) et déterminent la marche à suivre. Les notes de controverse sont mises à jour chaque trimestre pour suivre les tendances et les efforts de correction.

La Taxinomie de l'UE définit un principe consistant à « ne pas causer de préjudice important » (« Do not significant harm » ou DNSH) en vertu duquel les investissements alignés sur la Taxinomie ne doivent pas causer de préjudice important aux objectifs de la Taxinomie de l'UE et s'accompagnent de critères de l'UE spécifiques.

Le principe consistant à « ne pas causer de préjudice important » ne s'applique qu'aux investissements sous-jacents du produit financier qui tiennent compte des critères de l'UE pour les activités économiques durables sur le plan environnemental. Les investissements sous-jacents de la portion restante de ce produit financier ne tiennent pas compte des critères de l'UE en matière d'activités économiques durables sur le plan environnemental.

Tout autre investissement durable doit également se conformer au principe consistant à ne pas causer de préjudice important aux objectifs environnementaux ou sociaux.

Dans quelle mesure ce produit financier a-t-il pris en considération les principales incidences négatives sur les facteurs de durabilité ?

Le produit tient compte de toutes les Principales incidences négatives obligatoires en vertu de l'Annexe 1, Tableau 1 du Règlement délégué (UE) 2022/1288 applicables à la stratégie du produit et s'appuie sur une combinaison de politiques d'exclusion (normatives et sectorielles) et d'approches d'engagement et de vote :

- Exclusion : Amundi a défini des règles d'exclusion normatives, basées sur l'activité et les secteurs, qui couvrent certains des principaux indicateurs négatifs de durabilité énumérés par le Règlement Disclosure (sur la publication d'informations).
- Intégration des facteurs ESG : Amundi a adopté des normes d'intégration ESG minimales appliquées par défaut à ses fonds de type ouvert activement gérés (exclusion des émetteurs ayant la note G et meilleure note ESG moyenne pondérée supérieure à celle de l'indice de référence applicable). Les 38 critères employés dans la stratégie de notation ESG d'Amundi ont également été conçus pour tenir compte des principaux impacts sur les facteurs de durabilité, ainsi que de la qualité de la réduction entreprise en la matière.
- Engagement : L'engagement est un processus continu et ciblé qui vise à influencer les activités ou le comportement des sociétés bénéficiaires des investissements. L'objectif des activités d'engagement peut se diviser en deux catégories : impliquer un émetteur pour améliorer la manière dont il intègre la dimension environnementale et sociale ou impliquer un émetteur pour améliorer son impact sur les questions environnementales, sociales et

liées aux droits humains ou d'autres questions de durabilité qui sont importantes pour la société au sens large et l'économie mondiale.

- **Vote :** La politique de vote d'Amundi répond à une analyse globale de toutes les questions à long terme qui peuvent influencer la création de valeur, y compris les questions ESG importantes. pour plus d'informations, veuillez consulter la Politique de vote d'Amundi.
- **Surveillance des controverses :** Amundi a développé un système de suivi des controverses qui s'appuie sur trois fournisseurs de données externes pour suivre systématiquement l'évolution des controverses et leur niveau de gravité. Cette approche quantitative est ensuite enrichie d'une évaluation approfondie de chaque controverse grave, menée par des analystes ESG, puis d'un examen périodique de son évolution. Cette approche s'applique à tous les fonds d'Amundi.

Pour de plus amples détails sur le mode de prise en compte des indicateurs relatifs aux Principales incidences négatives obligatoires, veuillez consulter la Déclaration sur la publication d'informations en matière de finance durable d'Amundi disponible sur www.amundi.com.

Quels étaient les principaux investissements de ce produit financier ?

La liste inclut les investissements qui constituent **la proportion la plus importante d'investissements** du produit financier au cours de la période de référence, à savoir : **du 01/07/2023 au 30/06/2024**

Principaux investissements	Secteur	Sous-secteur	Pays	% des actifs
COCA-COLA CO/THE	Biens de consommation de base	Alimentation, boissons et tabac	États-Unis	4.66%
CISCO SYSTEMS INC	Technologies de l'information	Matériel technologique et équipement	États-Unis	4.61%
AMERICAN TOWER CL A	Immobilier	Sociétés d'investissement immobilier	États-Unis	3.38%
US BANCORP	Obligations financières	Banques	États-Unis	3.35%
PFIZER INC	Santé	Pharmacie, biotechnologie et sciences de la vie	États-Unis	3.24%
DEERE & CO	Industrie	Biens d'équipement	États-Unis	2.93%
UNITEDHEALTH GROUP INC	Santé	Matériel et services de santé	États-Unis	2.62%

KIMBERLY-CLARK CORP	Biens de consommation de base	Produits ménagers et personnels	États-Unis	2.09%
VOYA FINANCIAL INC	Obligations financières	Services financiers	États-Unis	1.99%
ROCKWELL AUTOMATION INC	Industrie	Biens d'équipement	États-Unis	1.98%

Quelle était la proportion d’investissements liés à la durabilité ?

Quelle était l’allocation d’actifs ?

L’allocation d’actifs décrit la part des investissements dans des actifs spécifiques.

La catégorie **N° 1 Alignés sur les caractéristiques E/S** inclut les investissements du produit financier utilisés pour atteindre les caractéristiques environnementales ou sociales promues par le produit financier.

La catégorie **N° 2 Autres** inclut les investissements restants du produit financier qui ne sont ni alignés sur les caractéristiques environnementales ou sociales ni considérés comme investissements durables.

La catégorie **N° 1 Alignés sur les caractéristiques E/S** comprend :

- la sous-catégorie **N° 1A Durables** couvrant les investissements durables sur le plan environnemental et social ;
- la sous-catégorie **N° 1B Autres caractéristiques E/S** couvrant les investissements alignés sur les caractéristiques environnementales ou sociales qui ne sont pas considérés comme des investissements durables.

Dans quels secteurs économiques ont été réalisés les investissements ?

Secteur	Sous-secteur	% des actifs
Technologies de l’information	Logiciels et services	10.55%
Santé	Pharmacie, biotechnologie et sciences de la vie	9.01%
Obligations financières	Services financiers	8.67%
Technologies de l’information	Matériel technologique et équipement	8.23%

<i>Liquidités</i>	<i>Liquidités</i>	0.53%

Aux fins d'observer la taxinomie de l'UE, les critères relatifs au **gaz fossile** incluent des limites aux émissions et le passage à une énergie entièrement renouvelable ou à des combustibles à faible teneur en carbone d'ici fin 2035. Pour l'**énergie nucléaire**, les critères incluent des règles exhaustives de sécurité et de gestion des déchets.

Les activités habilitantes permettent directement à d'autres activités de contribuer de manière substantielle à la réalisation d'un objectif environnemental.

Les activités transitoires sont des activités pour lesquelles il

Dans quelle mesure les investissements durables ayant un objectif environnemental étaient-ils alignés sur la Taxinomie de l'UE ?

Le fonds promeut des caractéristiques tant environnementales que sociales. Si le fonds ne s'est pas engagé à réaliser des investissements alignés sur la Taxinomie de l'UE, au cours de la période sous revue, il a cependant investi 0.00% dans des investissements durables alignés sur la Taxinomie de l'UE.

● Le produit financier a-t-il investi dans des activités liées au gaz fossile et/ou à l'énergie nucléaire qui sont conformes à la taxinomie de l'UE¹ ?

☐

Oui :

☐

Dans le gaz fossile

☐

Dans l'énergie nucléaire

☒

Non

Aucune donnée fiable concernant l'alignement sur les activités de gaz fossile et d'énergie nucléaire conformes à la Taxinomie de l'UE n'était disponible sur la période.

¹Les activités liées au gaz fossile et/ou à l'énergie nucléaire ne seront conformes à la Taxinomie de l'UE que si elles contribuent à limiter le changement climatique (« atténuation du changement climatique ») et ne causent pas de préjudice important à tout objectif de la Taxinomie de l'UE. L'intégralité des critères relatifs aux activités économiques liées au gaz fossile et à l'énergie nucléaire conformes à la Taxinomie de l'UE sont définis dans le Règlement délégué (UE) 2022/1214 de la Commission.

n'existe pas encore de solution de remplacement sobre en carbone et, entre autres, dont les niveaux d'émission de gaz à effet de serre correspondent aux meilleures performances réalisables.

Les activités alignées sur la taxinomie

sont exprimées en pourcentage :

- **du chiffre d'affaires** pour refléter la part des revenus provenant des activités vertes des sociétés bénéficiaires d'investissements ;
- **des dépenses d'investissement (CapEx)** pour montrer les investissements verts réalisés par les sociétés bénéficiaires d'investissements, pour une transition vers une économie verte, par exemple ; et
- **des dépenses d'exploitation (OpEx)** pour refléter les activités opérationnelles vertes des sociétés bénéficiaires d'investissements.

Les graphiques ci-dessous font apparaître en vert le pourcentage d'investissements alignés sur la Taxinomie de l'UE. Étant donné qu'il n'existe pas de méthodologie appropriée pour déterminer l'alignement des obligations souveraines* sur la taxinomie, le premier graphique montre l'alignement sur la Taxinomie par rapport à tous les investissements du produit financier, y compris les obligations souveraines, tandis que le deuxième graphique représente l'alignement sur la Taxinomie uniquement par rapport aux investissements du produit financier autres que les obligations souveraines.

* Aux fins de ces graphiques, les « obligations souveraines » comprennent toutes les expositions souveraines

● Quelle était la part d'investissements dans les activités transitoires et habilitantes ?

Au 30/06/2024, en utilisant le chiffre d'affaires et/ou les données d'utilisation des produits des obligations vertes comme indicateur, la part d'investissements du fonds dans les activités transitoires était de 0.00% et la part d'investissements dans les activités habilitantes était de 0.00%. Le pourcentage communiqué d'alignement des investissements du fonds sur la Taxinomie de l'UE n'a pas été audité par le réviseur d'entreprises agréé du fonds ni par aucun tiers.

● Comment se situe le pourcentage d'investissements alignés sur la Taxinomie de l'UE par rapport aux périodes de référence antérieures ?

À la fin de la période précédente, le pourcentage d'investissements alignés sur la taxinomie était de 0.00%.

Quelle était la part des investissements durables ayant un objectif environnemental qui n'étaient pas alignés sur la Taxinomie de l'UE ?

La part des investissements durables ayant un objectif environnemental et non alignés sur la taxinomie était de **31.30%** à la fin de la période.

Cela tient du fait que certains émetteurs sont considérés comme investissements durables en vertu du Règlement SFDR mais qu'une portion de leurs activités n'est pas alignée sur les standards de la taxinomie de l'UE, ou que les données correspondantes ne sont pas encore disponibles en vue d'une évaluation relative à la taxinomie de l'UE.

sont des investissements durables ayant un objectif environnemental qui ne tiennent pas compte

des critères en matière d'activités économiques durables sur le plan environnemental visés par le Règlement (UE) 2020/852.

Quelle était la part d'investissements durables sur le plan social ?

La proportion des investissements durables sur le plan social était de 8.11% à la fin de la période.

Quels investissements étaient inclus dans la catégorie « Autres », quelle était leur finalité et existait-il des garanties environnementales ou sociales minimales ?

Sont inclus dans la catégorie « N° 2 Autres » les liquidités et autres instruments détenus aux fins de gestion de la liquidité et des risques du portefeuille. Pour les obligations et actions non notées, des garanties environnementales et sociales minimales ont été mises en place par le biais d'un filtrage des émetteurs en rapport aux activités controversées définies dans les principes du Pacte mondial des Nations unies. Elle peut également inclure des titres sans notation ESG pour lesquels les données nécessaires à la mesure de la réalisation des caractéristiques environnementales ou sociales ne sont pas disponibles.

Quelles mesures ont-elles été prises pour réaliser les caractéristiques environnementales et/ou sociales au cours de la période de référence ?

Des indicateurs de durabilité sont mis à disposition de manière continue dans le système de gestion du portefeuille pour permettre aux gestionnaires du portefeuille d'évaluer l'impact de leurs décisions d'investissement.

Ces indicateurs sont intégrés au cadre de contrôle d'AMUNDI, en répartissant les responsabilités entre le premier niveau de contrôles réalisés par les équipes Investissement elles-mêmes, et le second niveau de contrôles réalisé par les équipes Risque, qui surveillent la conformité aux caractéristiques environnementales ou sociales promues en permanence par le fonds.

En outre, la Politique d'investissement responsable d'AMUNDI définit une approche active en matière d'engagement qui promeut le dialogue avec les sociétés bénéficiaires des investissements, y compris celles qui sont incluses dans le portefeuille de ce produit. Notre Rapport annuel en matière d'engagement, disponible à la page <https://about.amundi.com/esg-documentation>, fournit des informations détaillées sur cet engagement et les résultats atteints.

Quelles ont été les performances de ce produit financier par rapport à l'indice de référence ?

Ce produit ne dispose pas d'un Indice de référence ESG.

● En quoi l'indice de référence diffère-t-il de l'indice de marché large ?

Ce produit ne dispose pas d'un Indice de référence ESG.

● Quelles ont été les performances de ce produit financier par rapport aux indicateurs de durabilité pour déterminer l'alignement de l'indice de référence sur les caractéristiques environnementales ou sociales promues ?

Ce produit ne dispose pas d'un Indice de référence ESG.

● Quelles ont été les performances de ce produit financier par rapport à l'indice de référence ?

Ce produit ne dispose pas d'un Indice de référence ESG.

● Quelle a été la performance de ce produit financier par rapport à l'indice de marché large ?

Ce produit ne dispose pas d'un Indice de référence ESG.

Un indice de référence est un indice qui sert à mesurer si le produit financier réalise les caractéristiques environnementales et/ou sociales qu'il promeut.

Modèle d'informations périodiques pour les produits financiers visés à l'Article 8, paragraphes 1, 2 et 2a, du Règlement (UE) 2019/2088 et à l'Article 6, premier paragraphe du Règlement (UE) 2020/852

Dénomination du produit : AMUNDI FUNDS US
EQUITY FUNDAMENTAL GROWTH

Identifiant d'entité juridique :
54930019NOJ42Y83JC39

Par investissement durable, on entend un investissement dans une activité économique qui contribue à un objectif environnemental ou social, pour autant qu'il ne cause de préjudice important à aucun de ces objectifs et que les sociétés détenues respectent les pratiques de bonne gouvernance.

La **Taxinomie de l'UE** est un système de classification institué par le Règlement (UE) 2020/852, qui dresse une liste d'**activités économiques durables sur le plan environnemental**. Ce règlement ne comprend pas de liste d'activités économiques durables sur le plan social. Les investissements durables ayant un objectif environnemental ne sont pas nécessairement alignés sur la taxinomie.

Caractéristiques environnementales et/ou sociales

Le produit financier avait-il un objectif d'investissement durable ?

☒ ☐ ☐ **Oui** ☒ ☐ ☒ **Non**

☐ Il a réalisé des investissements durables ayant un objectif environnemental : _____ ☐ dans des activités économiques qui sont considérées comme durables sur le plan environnemental au titre de la Taxinomie de l'UE ☐ dans des activités économiques qui ne sont pas considérées comme durables sur le plan environnemental au titre de la Taxinomie de l'UE ☐ Il a réalisé des investissements durables ayant un objectif social : _____	☒ Il a promu des caractéristiques environnementales/sociales (E/S) et, bien qu'il n'ait pas eu pour objectif l'investissement durable, il contenait une proportion d'investissements durables de 25.54% ☐ ayant un objectif environnemental dans des activités économiques qui sont considérées comme durables sur le plan environnemental au titre de la Taxinomie de l'UE ☒ ayant un objectif environnemental dans des activités économiques qui ne sont pas considérées comme durables sur le plan environnemental au titre de la Taxinomie de l'UE ☐ ayant un objectif social ☐ Il a promu des caractéristiques E/S, mais n'a pas réalisé d'investissements durables
---	---

Dans quelle mesure les caractéristiques environnementales et/ou sociales promues par ce produit financier ont-elles été réalisées ?

Au cours de l'exercice financier, le produit n'a cessé de promouvoir les caractéristiques environnementales et/ou sociales en cherchant à atteindre une note ESG supérieure à celle de son univers d'investissement **RUSSELL 1000 GROWTH**. Pour déterminer la note ESG du Produit et de l'univers d'investissement ESG, la performance ESG a été évaluée de manière continue en comparant la performance moyenne d'un titre par rapport au secteur de l'émetteur du titre, pour chacune des trois caractéristiques, à savoir environnementale, sociale et de gouvernance.

L'univers d'investissement est un univers de marché large qui n'évalue ni n'inclut pas de composantes en fonction de caractéristiques environnementales et/ou sociales, et qui n'a par conséquent pas pour vocation d'être conforme aux caractéristiques promues par le fonds. Aucun indice de référence ESG n'a été désigné.

Les indicateurs de durabilité

évaluent la mesure dans laquelle les caractéristiques environnementales ou sociales promues par le produit financier sont atteintes.

● **Quelle performance ont affiché les indicateurs de durabilité ?**

Amundi a développé son propre processus de notation ESG interne, qui suit une approche « Best-in-class ». Les notations adaptées à chaque secteur d'activité ont pour objectif d'évaluer la dynamique dans laquelle interviennent les entreprises.

L'indicateur de durabilité employé est la note ESG du Produit mesurée en comparaison avec la note ESG de l'univers d'investissement ESG du Produit.

À la fin de la période :

- La note ESG moyenne pondérée du portefeuille est **-0.359 (D)**.
- La note ESG moyenne pondérée de l'univers d'investissement ESG est **-0.386 (D)**.

La notation ESG Amundi utilisée pour déterminer la note ESG est une note ESG quantitative qui se décline en sept niveaux allant de A (les meilleures notes de l'univers) à G (les pires notes). Sur l'échelle de notation ESG d'Amundi, les titres figurant sur la liste d'exclusion correspondent à G. Pour les entreprises émettrices, la performance ESG est évaluée de manière globale et au niveau des critères pertinents par comparaison avec la performance moyenne du secteur, en combinant les trois dimensions ESG :

- Dimension environnementale : cette dimension examine la capacité des émetteurs à contrôler leur impact environnemental direct et indirect, en limitant leur consommation d'énergie, en réduisant leurs émissions de gaz à effet de serre, en luttant contre l'appauvrissement des ressources et en protégeant la biodiversité.
- Dimension sociale : cette dimension évalue le fonctionnement d'un émetteur dans deux domaines différents, à savoir sa stratégie de développement du capital humain et le respect des droits humains en général.
- Dimension de gouvernance : cette dimension évalue la capacité de l'émetteur à garantir les fondements d'un cadre de gouvernance d'entreprise efficace et à générer de la valeur sur le long terme.

La méthodologie appliquée par la notation ESG d'Amundi utilise 38 critères qui sont soit génériques (communs à toutes les entreprises, indépendamment de leur activité) soit spécifiques au secteur, et qui sont pondérés en fonction du secteur et considérés en termes d'impact sur la réputation, l'efficacité opérationnelle et les réglementations concernant un émetteur. Les notations ESG d'Amundi sont susceptibles d'être exprimées de manière globale pour les trois dimensions E, S et G, ou individuellement pour tout facteur environnemental ou social.

● **... et par rapport aux périodes antérieures ?**

À la fin de la période précédente, la note ESG moyenne pondérée du portefeuille était de -0.24 (D) et la note ESG moyenne pondérée de l'univers d'investissement ESG était de -0.36 (D).

● **Quels étaient les objectifs des investissements durables que le produit financier entendait partiellement réaliser, et comment l'investissement durable a-t-il contribué à ces objectifs ?**

Les objectifs des investissements durables sont d'investir dans des sociétés détenues qui cherchent à respecter deux critères :

1. suivre les bonnes pratiques environnementales et sociales ; et
2. éviter de fabriquer des produits ou de fournir des services qui nuisent à l'environnement et à la société.

Pour que la société bénéficiaire des investissements soit réputée contribuer à l'objectif susmentionné, elle doit figurer parmi les « meilleures performances » de son secteur d'activité pour au moins l'un de ses facteurs environnementaux ou sociaux importants.

La définition de « meilleures performances » repose sur la méthode ESG exclusive d'Amundi, dont l'objectif est de mesurer la performance ESG d'une société bénéficiaire des investissements. Pour être considérée comme l'une des « meilleures performances », une société bénéficiaire des investissements doit afficher l'une des trois premières notes (A, B ou C, sur une échelle de notation allant de A à G) dans son secteur pour au moins un facteur environnemental ou social important. Les facteurs environnementaux et sociaux sont identifiés à l'échelle des secteurs. L'identification des facteurs importants est basée sur le cadre d'analyse ESG d'Amundi qui combine des données extra-financières et une analyse qualitative du secteur associé et des questions de durabilité. Les facteurs identifiés comme importants représentent plus de 10 % de la note ESG globale. Par exemple pour le secteur de

l'énergie, les facteurs importants sont les suivants : émissions et énergie, biodiversité et pollution, santé et sécurité, communautés locales et droits humains. Pour un aperçu plus complet des secteurs et des facteurs, veuillez consulter la Déclaration réglementaire ESG d'Amundi disponible sur www.amundi.lu

Pour contribuer aux objectifs ci-dessus, la société bénéficiaire des investissements ne doit pas avoir d'exposition significative aux activités (par ex. tabac, armes, jeux de hasard, charbon, aviation, production de viande, fabrication d'engrais et de pesticides, production de plastique à usage unique) incompatibles avec ces critères.

Le caractère durable d'un investissement est évalué au niveau de la société bénéficiaire des investissements.

Les principales incidences négatives

correspondent aux incidences négatives les plus significatives des décisions d'investissement sur les facteurs de durabilité liés aux questions environnementales, sociales et de personnel, au respect des droits humains et à la lutte contre la corruption et les actes de corruption.

● ***Dans quelle mesure les investissements durables que le produit financier a partiellement réalisés n'ont-ils pas causé de préjudice important à un objectif d'investissement durable sur le plan environnemental ou social ?***

Pour s'assurer que les investissements durables ne causent pas de préjudice important (principe « Do no significant harm » ou « DNSH » en anglais), Amundi utilise deux filtres :

Le premier filtre de DNSH repose sur le contrôle des indicateurs obligatoires des Principales incidences négatives de l'Annexe 1, Tableau 1 des normes techniques réglementaires (RTS) lorsqu'il existe des données fiables (par ex. Intensité des GES des sociétés bénéficiaires des investissements) via une combinaison d'indicateurs (par ex. intensité carbone) et des seuils ou règles spécifiques (par ex. que l'intensité carbone de la société bénéficiaire des investissements n'appartient pas au dernier décile du secteur).

Dans sa politique d'exclusion qui fait partie intégrante de sa Politique d'investissement responsable, Amundi tient d'ores et déjà compte de Principales incidences négatives spécifiques. Ces exclusions, qui s'appliquent en sus des tests détaillés ci-dessus, couvrent les sujets suivants : exclusions sur les armes controversées, les violations des principes du Pacte mondial des Nations Unies, le charbon et le tabac.

Au-delà des facteurs de durabilité spécifiques couverts par le premier filtre, Amundi a défini un second filtre, qui ne tient pas compte des indicateurs obligatoires des Principales incidences négatives ci-dessus, afin de vérifier que la société n'affiche pas de mauvaises performances d'un point de vue environnemental ou social global par rapport aux autres entreprises de son secteur, ce qui correspond à un score environnemental ou social supérieur ou égal à E selon la notation ESG d'Amundi.

- ***Comment les indicateurs concernant les incidences négatives sur les facteurs de durabilité ont-ils été pris en considération ?***

Les indicateurs d'incidences négatives ont été pris en compte comme détaillé dans le premier filtre DNSH ci-dessus.

Le premier filtre DNSH repose sur le contrôle des indicateurs obligatoires des Principales incidences négatives de l'Annexe 1, Tableau 1 du Règlement délégué (UE) 2022/1288 lorsqu'il existe des données fiables via la combinaison des indicateurs suivants et de seuils ou règles spécifiques :

- une intensité en CO2 qui n'appartient pas au dernier décile par rapport aux autres entreprises du secteur (ne s'applique qu'aux secteurs à forte intensité) ;
- un Conseil d'administration dont le niveau de diversité n'appartient pas au dernier décile par rapport aux autres sociétés du secteur ;
- ne pas faire l'objet de controverse relative aux conditions de travail et aux droits humains ; et
- ne pas faire l'objet de controverse relative à la biodiversité et à la pollution.

Dans sa politique d'exclusion qui fait partie intégrante de sa Politique d'investissement responsable, Amundi tient d'ores et déjà compte de Principales incidences négatives spécifiques. Ces exclusions, qui s'appliquent en sus des tests détaillés ci-dessus, couvrent les sujets suivants : exclusions sur les armes controversées, les violations des principes du Pacte mondial des Nations Unies, le charbon et le tabac.

- ***Les investissements durables étaient-ils conformes aux Principes directeurs de l'OCDE à l'intention des entreprises multinationales et aux Principes directeurs des Nations unies relatifs aux entreprises et aux droits humains ? Description détaillée :***

Oui, les Principes directeurs de l'OCDE à l'intention des entreprises multinationales et les Principes directeurs des Nations unies relatifs aux entreprises et aux droits humains sont

intégrés à notre méthode de notation ESG. Notre outil de notation ESG exclusif évalue les émetteurs à l'aide des données disponibles auprès de nos fournisseurs de données. Par exemple, le modèle dispose d'un critère dédié appelé « Implication dans la communauté et droits humains » qui s'applique à tous les secteurs en plus d'autres critères liés aux droits humains, y compris les chaînes d'approvisionnement socialement responsables, les conditions de travail et les relations de travail. En outre, nous effectuons un contrôle des controverses au moins une fois par trimestre, y compris sur les entreprises identifiées pour des violations des droits humains. En cas de controverse, les analystes évaluent la situation, lui donnent une note (à l'aide de notre méthode de notation exclusive) et déterminent la marche à suivre. Les notes de controverse sont mises à jour chaque trimestre pour suivre les tendances et les efforts de correction.

La Taxinomie de l'UE définit un principe consistant à « ne pas causer de préjudice important » (« Do not significant harm » ou DNSH) en vertu duquel les investissements alignés sur la Taxinomie ne doivent pas causer de préjudice important aux objectifs de la Taxinomie de l'UE et s'accompagnent de critères de l'UE spécifiques.

Le principe consistant à « ne pas causer de préjudice important » ne s'applique qu'aux investissements sous-jacents du produit financier qui tiennent compte des critères de l'UE pour les activités économiques durables sur le plan environnemental. Les investissements sous-jacents de la portion restante de ce produit financier ne tiennent pas compte des critères de l'UE en matière d'activités économiques durables sur le plan environnemental.

Tout autre investissement durable doit également se conformer au principe consistant à ne pas causer de préjudice important aux objectifs environnementaux ou sociaux.

Dans quelle mesure ce produit financier a-t-il pris en considération les principales incidences négatives sur les facteurs de durabilité ?

Le produit tient compte de toutes les Principales incidences négatives obligatoires en vertu de l'Annexe 1, Tableau 1 du Règlement délégué (UE) 2022/1288 applicables à la stratégie du produit et s'appuie sur une combinaison de politiques d'exclusion (normatives et sectorielles) et d'approches d'engagement et de vote :

- Exclusion : Amundi a défini des règles d'exclusion normatives, basées sur l'activité et les secteurs, qui couvrent certains des principaux indicateurs négatifs de durabilité énumérés par le Règlement Disclosure (sur la publication d'informations).
- Intégration des facteurs ESG : Amundi a adopté des normes d'intégration ESG minimales appliquées par défaut à ses fonds de type ouvert activement gérés (exclusion des émetteurs ayant la note G et meilleure note ESG moyenne pondérée supérieure à celle de l'indice de référence applicable). Les 38 critères employés dans la stratégie de notation ESG d'Amundi ont également été conçus pour tenir compte des principaux impacts sur les facteurs de durabilité, ainsi que de la qualité de la réduction entreprise en la matière.
- Engagement : L'engagement est un processus continu et ciblé qui vise à influencer les activités ou le comportement des sociétés bénéficiaires des investissements. L'objectif des activités d'engagement peut se diviser en deux catégories : impliquer un émetteur pour améliorer la manière dont il intègre la dimension environnementale et sociale ou impliquer un émetteur pour améliorer son impact sur les questions environnementales, sociales et liées aux droits humains ou d'autres questions de durabilité qui sont importantes pour la société au sens large et l'économie mondiale.
- Vote : La politique de vote d'Amundi répond à une analyse globale de toutes les questions à long terme qui peuvent influencer la création de valeur, y compris les questions ESG importantes. pour plus d'informations, veuillez consulter la Politique de vote d'Amundi.
- Surveillance des controverses : Amundi a développé un système de suivi des controverses qui s'appuie sur trois fournisseurs de données externes pour suivre systématiquement l'évolution des controverses et leur niveau de gravité. Cette approche quantitative est ensuite enrichie d'une évaluation approfondie de chaque controverse grave, menée par des analystes ESG, puis d'un examen périodique de son évolution. Cette approche s'applique à tous les fonds d'Amundi.

Pour de plus amples détails sur le mode de prise en compte des indicateurs relatifs aux Principales incidences négatives obligatoires, veuillez consulter la Déclaration sur la publication d'informations en matière de finance durable d'Amundi disponible sur www.amundi.com.

Quels étaient les principaux investissements de ce produit financier ?

La liste inclut les investissements qui constituent **la proportion la plus importante d'investissements** du produit financier au cours de la période de référence, à savoir : **du 01/07/2023 au 30/06/2024**

Principaux investissements	Secteur	Sous-secteur	Pays	% des actifs
AMAZON.COM INC	Consommation discrétionnaire	Distribution et vente au détail de biens de consommation discrétionnaires	États-Unis	7.67%
MICROSOFT CORP	Technologies de l'information	Logiciels et services	États-Unis	7.52%

Quelle était la proportion d'investissements liés à la durabilité ?

● **Quelle était l'allocation d'actifs ?**

L'allocation d'actifs décrit la part des investissements dans des actifs spécifiques.

La catégorie **N° 1 Alignés sur les caractéristiques E/S** inclut les investissements du produit financier utilisés pour atteindre les caractéristiques environnementales ou sociales promues par le produit financier.

La catégorie **N° 2 Autres** inclut les investissements restants du produit financier qui ne sont ni alignés sur les caractéristiques environnementales ou sociales ni considérés comme investissements durables.

La catégorie **N° 1 Alignés sur les caractéristiques E/S** comprend :

- la sous-catégorie **N° 1A Durables** couvrant les investissements durables sur le plan environnemental et social ;
- la sous-catégorie **N° 1B Autres caractéristiques E/S** couvrant les investissements alignés sur les caractéristiques environnementales ou sociales qui ne sont pas considérés comme des investissements durables.

● **Dans quels secteurs économiques ont été réalisés les investissements ?**

Secteur	Sous-secteur	% des actifs
Technologies de l'information	Logiciels et services	16.86%
Consommation discrétionnaire	Distribution et vente au détail de biens de consommation discrétionnaires	13.88%
Technologies de l'information	Matériel et équipement technologiques	12.34%
Santé	Pharmacie, biotechnologie et sciences de la vie	10.04%
Obligations financières	Services financiers	9.01%

Aux fins d'observer la taxinomie de l'UE, les critères relatifs au **gaz fossile** incluent des limites aux émissions et le passage à une énergie entièrement renouvelable ou à des combustibles à faible teneur en carbone d'ici fin 2035. Pour l'énergie

Dans quelle mesure les investissements durables ayant un objectif environnemental étaient-ils alignés sur la Taxinomie de l'UE ?

Le fonds promeut des caractéristiques tant environnementales que sociales. Si le fonds ne s'est pas engagé à réaliser des investissements alignés sur la Taxinomie de l'UE, au cours de la période sous revue, il a cependant investi 0.00% dans des investissements durables alignés sur la Taxinomie de l'UE.

- **Le produit financier a-t-il investi dans des activités liées au gaz fossile et/ou à l'énergie nucléaire qui sont conformes à la Taxinomie de l'UE¹ ?**

nucléaire, les critères incluent des règles exhaustives de sécurité et de gestion des déchets.

Les activités habilitantes permettent directement à d'autres activités de contribuer de manière substantielle à la réalisation d'un objectif environnemental.

Les activités transitoires sont des activités pour lesquelles il n'existe pas encore de solution de remplacement sobre en carbone et, entre autres, dont les niveaux d'émission de gaz à effet de serre correspondent aux meilleures performances réalisables.

Les activités alignées sur la taxinomie sont exprimées en pourcentage :

- **du chiffre d'affaires** pour refléter la part des revenus provenant des activités vertes des sociétés bénéficiaires d'investissements ;
- **des dépenses d'investissement (CapEx)** pour montrer les investissements verts réalisés par les sociétés bénéficiaires d'investissements, pour une transition vers une économie verte, par exemple ; et
- **des dépenses d'exploitation (OpEx)** pour refléter les activités opérationnelles vertes des sociétés bénéficiaires d'investissements.

☐ Oui :

☐ Dans le gaz fossile ☐ Dans l'énergie nucléaire

☒ Non

Aucune donnée fiable concernant l'alignement sur les activités de gaz fossile et d'énergie nucléaire conformes à la Taxinomie de l'UE n'était disponible sur la période.

¹ Les activités liées au gaz fossile et/ou à l'énergie nucléaire ne seront conformes à la Taxinomie de l'UE que si elles contribuent à limiter le changement climatique (« réduction du changement climatique ») et ne causent pas de préjudice important à tout objectif de la Taxinomie de l'UE. L'intégralité des critères relatifs aux activités économiques liées au gaz fossile et à l'énergie nucléaire conformes à la Taxinomie de l'UE sont définis dans le Règlement délégué (UE) 2022/1214 de la Commission.

Les graphiques ci-dessous font apparaître en vert le pourcentage d'investissements alignés sur la Taxinomie de l'UE. Étant donné qu'il n'existe pas de méthodologie appropriée pour déterminer l'alignement des obligations souveraines* sur la taxinomie, le premier graphique montre l'alignement sur la Taxinomie par rapport à tous les investissements du produit financier, y compris les obligations souveraines, tandis que le deuxième graphique représente l'alignement sur la Taxinomie uniquement par rapport aux investissements du produit financier autres que les obligations souveraines.

* Aux fins de ces graphiques, les « obligations souveraines » comprennent toutes les expositions souveraines

● Quelle était la part d'investissements dans les activités transitoires et habilitantes ?

Au 30/06/2024, en utilisant le chiffre d'affaires et/ou les données d'utilisation des produits des obligations vertes comme indicateur, la part d'investissements du fonds dans les activités transitoires était de 0.00% et la part d'investissements dans les activités habilitantes était de 0.00%. Le pourcentage communiqué d'alignement des investissements du fonds sur la Taxinomie de l'UE n'a pas été audité par le réviseur d'entreprises agréé du fonds ni par aucun tiers.

● **Comment se situe le pourcentage d'investissements alignés sur la Taxinomie de l'UE par rapport aux périodes de référence antérieures ?**

À la fin de la période précédente, le pourcentage d'investissements alignés sur la taxinomie était de 0.00%.

sont des investissements durables ayant un objectif environnemental qui **ne tiennent pas compte des critères** en matière d'activités économiques durables sur le plan environnemental, visés par le Règlement (UE) 2020/852.

Quelle était la part des investissements durables ayant un objectif environnemental qui n'étaient pas alignés sur la Taxinomie de l'UE ?

La part des investissements durables ayant un objectif environnemental et non alignés sur la taxinomie était de **21.84%** à la fin de la période.

Cela tient du fait que certains émetteurs sont considérés comme investissements durables en vertu du Règlement SFDR mais qu'une portion de leurs activités n'est pas alignée sur les standards de la taxinomie de l'UE, ou que les données correspondantes ne sont pas encore disponibles en vue d'une évaluation relative à la taxinomie de l'UE.

Quelle était la part d'investissements durables sur le plan social ?

La proportion des investissements durables sur le plan social était de 3.70% à la fin de la période.

Quels investissements étaient inclus dans la catégorie « Autres », quelle était leur finalité et existait-il des garanties environnementales ou sociales minimales ?

Sont inclus dans la catégorie « N° 2 Autres » les liquidités et autres instruments détenus aux fins de gestion de la liquidité et des risques du portefeuille. Pour les obligations et actions non notées, des garanties environnementales et sociales minimales ont été mises en place par le biais d'un filtrage des émetteurs en rapport aux activités controversées définies dans les principes du Pacte mondial des Nations unies. Elle peut également inclure des titres sans notation ESG pour lesquels les données nécessaires à la mesure de la réalisation des caractéristiques environnementales ou sociales ne sont pas disponibles.

Quelles mesures ont-elles été prises pour réaliser les caractéristiques environnementales et/ou sociales au cours de la période de référence ?

Des indicateurs de durabilité sont mis à disposition de manière continue dans le système de gestion du portefeuille pour permettre aux gestionnaires du portefeuille d'évaluer l'impact de leurs décisions d'investissement.

Ces indicateurs sont intégrés au cadre de contrôle d'AMUNDI, en répartissant les responsabilités entre le premier niveau de contrôles réalisés par les équipes Investissement elles-mêmes, et le second niveau de contrôles réalisé par les équipes Risque, qui surveillent la conformité aux caractéristiques environnementales ou sociales promues en permanence par le fonds.

En outre, la Politique d'investissement responsable d'AMUNDI définit une approche active en matière d'engagement qui promeut le dialogue avec les sociétés bénéficiaires des investissements, y compris celles qui sont incluses dans le portefeuille de ce produit. Notre Rapport annuel en matière d'engagement, disponible à la page <https://about.amundi.com/esg-documentation>, fournit des informations détaillées sur cet engagement et ses résultats.

Quelles ont été les performances de ce produit financier par rapport à l'indice de référence ?

Un indice de référence est un indice qui sert à mesurer si le produit financier réalise les caractéristiques environnementales et/ou sociales qu'il promeut.

Ce produit ne dispose pas d'un Indice de référence ESG.

● ***En quoi l'indice de référence diffère-t-il de l'indice de marché large ?***

Ce produit ne dispose pas d'un Indice de référence ESG.

● ***Quelles ont été les performances de ce produit financier par rapport aux indicateurs de durabilité pour déterminer l'alignement de l'indice de référence sur les caractéristiques environnementales ou sociales promues ?***

Ce produit ne dispose pas d'un Indice de référence ESG.

● ***Quelle a été la performance de ce produit financier par rapport à l'indice de référence ?***

Ce produit ne dispose pas d'un Indice de référence ESG.

● ***Quelle a été la performance de ce produit financier par rapport à l'indice de marché large ?***

Ce produit ne dispose pas d'un Indice de référence ESG.

Informations périodiques pour les produits financiers visés à l'Article 8, paragraphes 1, 2 et 2a, du Règlement (UE) 2019/2088 et à l'Article 6, premier paragraphe du Règlement (UE) 2020/852

Dénomination du produit : AMUNDI FUNDS
US EQUITY RESEARCH

Identifiant d'entité juridique :

Par investissement durable, on entend un investissement dans une activité économique qui contribue à un objectif environnemental ou social, pour autant qu'il ne cause de préjudice important à aucun de ces objectifs et que les sociétés détenues respectent les pratiques de bonne gouvernance.

La Taxinomie de l'UE est un système de classification institué par le Règlement (UE) 2020/852, qui dresse une liste d'**activités économiques durables sur le plan environnemental**. Ce règlement ne comprend pas de liste d'activités économiques durables sur le plan social. Les investissements durables ayant un objectif environnemental ne sont pas nécessairement alignés sur la taxinomie.

Caractéristiques environnementales et/ou sociales

Le produit financier avait-il un objectif d'investissement durable ?	
☒ ☐ Oui	☒ ☐ Non
☐ Il a réalisé des investissements durables ayant un objectif environnemental : _____ ☐ dans des activités économiques qui sont considérées comme durables sur le plan environnemental au titre de la Taxinomie de l'UE ☐ dans des activités économiques qui ne sont pas considérées comme durables sur le plan environnemental au titre de la Taxinomie de l'UE	☒ Il a promu des caractéristiques environnementales/sociales (E/S) et, bien qu'il n'ait pas eu pour objectif l'investissement durable, il contenait une proportion d'investissements durables de 31.14% ☐ ayant un objectif environnemental dans des activités économiques qui sont considérées comme durables sur le plan environnemental au titre de la Taxinomie de l'UE ☒ ayant un objectif environnemental dans des activités économiques qui ne sont pas considérées comme durables sur le plan environnemental au titre de la Taxinomie de l'UE ☐ ayant un objectif social
☐ Il a réalisé des investissements durables ayant un objectif social : _____	☐ Il a promu des caractéristiques E/S, mais n'a pas réalisé d'investissements durables

Dans quelle mesure les caractéristiques environnementales et/ou sociales promues par ce produit financier ont-elles été réalisées ?

Au cours de l'exercice financier, le produit n'a cessé de promouvoir les caractéristiques environnementales et/ou sociales en cherchant à atteindre une note ESG supérieure à celle de son univers d'investissement **S&P 500**. Pour déterminer la note ESG du Produit et de l'univers d'investissement ESG, la performance ESG a été évaluée de manière continue en comparant la performance moyenne d'un titre par rapport au secteur de l'émetteur du titre, pour chacune des trois caractéristiques, à savoir environnementale, sociale et de gouvernance.

L'univers d'investissement est un univers de marché large qui n'évalue ni n'inclut pas de composantes en fonction de caractéristiques environnementales et/ou sociales, et qui n'a par conséquent pas pour vocation d'être conforme aux caractéristiques promues par le fonds. Aucun indice de référence ESG n'a été désigné.

Les indicateurs de durabilité

évaluent la mesure dans laquelle les caractéristiques environnementales ou sociales promues par le produit financier sont atteintes.

● *Quelle performance ont affiché les indicateurs de durabilité ?*

Amundi a développé son propre processus de notation ESG interne, qui suit une approche « Best-in-class ». Les notations adaptées à chaque secteur d'activité ont pour objectif d'évaluer la dynamique dans laquelle interviennent les entreprises.

L'indicateur de durabilité employé est la note ESG du Produit mesurée en comparaison avec la note ESG de l'univers d'investissement ESG du Produit.

À la fin de la période :

- La note ESG moyenne pondérée du portefeuille est **-0.167 (D)**.
- La note ESG moyenne pondérée de l'univers d'investissement ESG est **-0.433 (D)**.

La notation ESG Amundi utilisée pour déterminer la note ESG est une note ESG quantitative qui se décline en sept niveaux allant de A (les meilleures notes de l'univers) à G (les pires notes). Sur l'échelle de notation ESG d'Amundi, les titres figurant sur la liste d'exclusion correspondent à G. Pour les entreprises émettrices, la performance ESG est évaluée de manière globale et au niveau des critères pertinents par comparaison avec la performance moyenne du secteur, en combinant les trois dimensions ESG :

- Dimension environnementale : cette dimension examine la capacité des émetteurs à contrôler leur impact environnemental direct et indirect, en limitant leur consommation d'énergie, en réduisant leurs émissions de gaz à effet de serre, en luttant contre l'appauvrissement des ressources et en protégeant la biodiversité.
- Dimension sociale : cette dimension évalue le fonctionnement d'un émetteur dans deux domaines différents, à savoir sa stratégie de développement du capital humain et le respect des droits humains en général.
- Dimension de gouvernance : cette dimension évalue la capacité de l'émetteur à garantir les fondements d'un cadre de gouvernance d'entreprise efficace et à générer de la valeur sur le long terme.

La méthodologie appliquée par la notation ESG d'Amundi utilise 38 critères qui sont soit génériques (communs à toutes les entreprises, indépendamment de leur activité) soit spécifiques au secteur, et qui sont pondérés en fonction du secteur et considérés en termes d'impact sur la réputation, l'efficacité opérationnelle et les réglementations concernant un émetteur. Les notations ESG d'Amundi sont susceptibles d'être exprimées de manière globale pour les trois dimensions E, S et G, ou individuellement pour tout facteur environnemental ou social.

● *... et par rapport aux périodes antérieures ?*

À la fin de la période précédente, la note ESG moyenne pondérée du portefeuille était de -0.07 (D) et la note ESG moyenne pondérée de l'univers d'investissement ESG était de -0.38 (D).

● *Quels étaient les objectifs des investissements durables que le produit financier entendait partiellement réaliser, et comment l'investissement durable a-t-il contribué à ces objectifs ?*

Les objectifs des investissements durables sont d'investir dans des sociétés détenues qui cherchent à respecter deux critères :

1. suivre les bonnes pratiques environnementales et sociales ; et
2. éviter de fabriquer des produits ou de fournir des services qui nuisent à l'environnement et à la société.

Pour que la société bénéficiaire d'investissements soit réputée contribuer à l'objectif susmentionné, elle doit figurer parmi les « meilleures performances » de son secteur d'activité pour au moins l'un de ses facteurs environnementaux ou sociaux importants.

La définition de « meilleures performances » repose sur la méthode ESG exclusive d'Amundi, dont l'objectif est de mesurer la performance ESG d'une société bénéficiaire d'investissements. Pour être considérée comme l'une des « meilleures performances », une société bénéficiaire d'investissements doit afficher l'une des trois premières notes (A, B ou C, sur une échelle de notation allant de A à G) dans son secteur pour au moins un facteur environnemental ou social important. Les facteurs environnementaux et sociaux sont identifiés à l'échelle des secteurs. L'identification des facteurs importants est basée sur le cadre d'analyse ESG d'Amundi qui combine des données extra-financières et une analyse qualitative du secteur associé et des questions de durabilité. Les facteurs identifiés comme importants représentent plus de 10 % de la note ESG globale. Par exemple pour le secteur de

l'énergie, les facteurs importants sont les suivants : émissions et énergie, biodiversité et pollution, santé et sécurité, communautés locales et droits humains. Pour un aperçu plus complet des secteurs et des facteurs, veuillez consulter la Déclaration réglementaire ESG d'Amundi disponible sur www.amundi.lu

Pour contribuer aux objectifs ci-dessus, la société bénéficiaire d'investissements ne doit pas avoir d'exposition significative aux activités (par ex. tabac, armes, jeux de hasard, charbon, aviation, production de viande, fabrication d'engrais et de pesticides, production de plastique à usage unique) incompatibles avec ces critères.

Le caractère durable d'un investissement est évalué au niveau de la société bénéficiaire d'investissements.

Les principales incidences négatives

correspondent aux incidences négatives les plus significatives des décisions d'investissement sur les facteurs de durabilité liés aux questions environnementales, sociales et de personnel, au respect des droits humains et à la lutte contre la corruption et les actes de corruption.

● ***Dans quelle mesure les investissements durables que le produit financier a partiellement réalisés n'ont-ils pas causé de préjudice important à un objectif d'investissement durable sur le plan environnemental ou social ?***

Pour s'assurer que les investissements durables ne causent pas de préjudice important (principe « Do no significant harm » ou « DNSH » en anglais), Amundi utilise deux filtres :

Le premier filtre de DNSH repose sur le contrôle des indicateurs obligatoires des Principales incidences négatives de l'Annexe 1, Tableau 1 des normes techniques réglementaires (RTS) lorsqu'il existe des données fiables (par ex. Intensité des GES des sociétés bénéficiaires des investissements) via une combinaison d'indicateurs (par ex. intensité carbone) et des seuils ou règles spécifiques (par ex. que l'intensité carbone de la société bénéficiaire des investissements n'appartient pas au dernier décile du secteur).

Dans sa politique d'exclusion qui fait partie intégrante de sa Politique d'investissement responsable, Amundi tient d'ores et déjà compte de Principales incidences négatives spécifiques. Ces exclusions, qui s'appliquent en sus des tests détaillés ci-dessus, couvrent les sujets suivants : exclusions sur les armes controversées, les violations des principes du Pacte mondial des Nations Unies, le charbon et le tabac.

Au-delà des facteurs de durabilité spécifiques couverts par le premier filtre, Amundi a défini un second filtre, qui ne tient pas compte des indicateurs obligatoires des Principales incidences négatives ci-dessus, afin de vérifier que la société n'affiche pas de mauvaises performances d'un point de vue environnemental ou social global par rapport aux autres entreprises de son secteur, ce qui correspond à un score environnemental ou social supérieur ou égal à E selon la notation ESG d'Amundi.

- ***Comment les indicateurs concernant les incidences négatives sur les facteurs de durabilité ont-ils été pris en considération ?***

Les indicateurs d'incidences négatives ont été pris en compte comme détaillé dans le premier filtre DNSH ci-dessus.

Le premier filtre DNSH repose sur le contrôle des indicateurs obligatoires des Principales incidences négatives de l'Annexe 1, Tableau 1 du Règlement délégué (UE) 2022/1288 lorsqu'il existe des données fiables via la combinaison des indicateurs suivants et de seuils ou règles spécifiques :

- une intensité en CO2 qui n'appartient pas au dernier décile par rapport aux autres entreprises du secteur (ne s'applique qu'aux secteurs à forte intensité) ;
- un Conseil d'administration dont le niveau de diversité n'appartient pas au dernier décile par rapport aux autres sociétés du secteur ;
- ne pas faire l'objet de controverse relative aux conditions de travail et aux droits humains ; et
- ne pas faire l'objet de controverse relative à la biodiversité et à la pollution.

Dans sa politique d'exclusion qui fait partie intégrante de sa Politique d'investissement responsable, Amundi tient d'ores et déjà compte de Principales incidences négatives spécifiques. Ces exclusions, qui s'appliquent en sus des tests détaillés ci-dessus, couvrent les sujets suivants : exclusions sur les armes controversées, les violations des principes du Pacte mondial des Nations Unies, le charbon et le tabac.

- ***Les investissements durables étaient-ils conformes aux Principes directeurs de l'OCDE à l'intention des entreprises multinationales et aux Principes directeurs des Nations unies relatifs aux entreprises et aux droits humains ? Description détaillée :***

Oui, les Principes directeurs de l'OCDE à l'intention des entreprises multinationales et les Principes directeurs des Nations unies relatifs aux entreprises et aux droits humains sont

intégrés à notre méthode de notation ESG. Notre outil de notation ESG exclusif évalue les émetteurs à l'aide des données disponibles auprès de nos fournisseurs de données. Par exemple, le modèle dispose d'un critère dédié appelé « Implication dans la communauté et droits humains » qui s'applique à tous les secteurs en plus d'autres critères liés aux droits humains, y compris les chaînes d'approvisionnement socialement responsables, les conditions de travail et les relations de travail. En outre, nous effectuons un contrôle des controverses au moins une fois par trimestre, y compris sur les entreprises identifiées pour des violations des droits humains. En cas de controverse, les analystes évaluent la situation, lui donnent une note (à l'aide de notre méthode de notation exclusive) et déterminent la marche à suivre. Les notes de controverse sont mises à jour chaque trimestre pour suivre les tendances et les efforts de correction.

La Taxinomie de l'UE définit un principe consistant à « ne pas causer de préjudice important » (« Do not significant harm » ou DNSH) en vertu duquel les investissements alignés sur la Taxinomie ne doivent pas causer de préjudice important aux objectifs de la Taxinomie de l'UE et s'accompagnent de critères de l'UE spécifiques.

Le principe consistant à « ne pas causer de préjudice important » ne s'applique qu'aux investissements sous-jacents du produit financier qui tiennent compte des critères de l'UE pour les activités économiques durables sur le plan environnemental. Les investissements sous-jacents de la portion restante de ce produit financier ne tiennent pas compte des critères de l'UE en matière d'activités économiques durables sur le plan environnemental.

Tout autre investissement durable doit également se conformer au principe consistant à ne pas causer de préjudice important aux objectifs environnementaux ou sociaux.

Dans quelle mesure ce produit financier a-t-il pris en considération les principales incidences négatives sur les facteurs de durabilité ?

Le produit tient compte de toutes les Principales incidences négatives obligatoires en vertu de l'Annexe 1, Tableau 1 du Règlement délégué (UE) 2022/1288 applicables à la stratégie du produit et s'appuie sur une combinaison de politiques d'exclusion (normatives et sectorielles) et d'approches d'engagement et de vote :

- Exclusion : Amundi a défini des règles d'exclusion normatives, basées sur l'activité et les secteurs, qui couvrent certains des principaux indicateurs négatifs de durabilité énumérés par le Règlement Disclosure (sur la publication d'informations).
- Intégration des facteurs ESG : Amundi a adopté des normes d'intégration ESG minimales appliquées par défaut à ses fonds de type ouvert activement gérés (exclusion des émetteurs ayant la note G et meilleure note ESG moyenne pondérée supérieure à celle de l'indice de référence applicable). Les 38 critères employés dans la stratégie de notation ESG d'Amundi ont également été conçus pour tenir compte des principaux impacts sur les facteurs de durabilité, ainsi que de la qualité de la réduction entreprise en la matière.
- Engagement : L'engagement est un processus continu et ciblé qui vise à influencer les activités ou le comportement des sociétés bénéficiaires des investissements. L'objectif des activités d'engagement peut se diviser en deux catégories : impliquer un émetteur pour améliorer la manière dont il intègre la dimension environnementale et sociale ou impliquer un émetteur pour améliorer son impact sur les questions environnementales, sociales et liées aux droits humains ou d'autres questions de durabilité qui sont importantes pour la société au sens large et l'économie mondiale.
- Vote : La politique de vote d'Amundi répond à une analyse globale de toutes les questions à long terme qui peuvent influencer la création de valeur, y compris les questions ESG importantes. pour plus d'informations, veuillez consulter la Politique de vote d'Amundi.
- Surveillance des controverses : Amundi a développé un système de suivi des controverses qui s'appuie sur trois fournisseurs de données externes pour suivre systématiquement l'évolution des controverses et leur niveau de gravité. Cette approche quantitative est ensuite enrichie d'une évaluation approfondie de chaque controverse grave, menée par des analystes ESG, puis d'un examen périodique de son évolution. Cette approche s'applique à tous les fonds d'Amundi.

Pour de plus amples détails sur le mode de prise en compte des indicateurs relatifs aux Principales incidences négatives obligatoires, veuillez consulter la Déclaration sur la publication d'informations en matière de finance durable d'Amundi disponible sur www.amundi.com.

Quels étaient les principaux investissements de ce produit financier ?

La liste inclut les investissements qui constituent **la proportion la plus importante d'investissements** du produit financier au cours de la période de référence, à savoir : **du 01/07/2023 au 30/06/2024**

Principaux investissements	Secteur	Sous-secteur	Pays	% des actifs
AMAZON.COM INC	Consommation discrétionnaire	Distribution et vente au détail de biens de consommation discrétionnaires	États-Unis	6.35%
ALPHABET INC CL A	Services de communication	Médias et loisirs	États-Unis	5.93%
MICROSOFT CORP	Technologies de l'information	Logiciels et services	États-Unis	4.83%
SHELL PLC	Énergie	Pétrole, gaz et combustibles	Royaume-Uni	3.54%
CISCO SYSTEMS INC	Technologies de l'information	Matériel technologique et équipement	États-Unis	3.46%
INTL BUSINESS MACHINES CORP	Technologies de l'information	Logiciels et services	États-Unis	3.39%
BANK OF NEW YORK MELLON CORP	Obligations financières	Services financiers	États-Unis	3.27%
ADVANCED MICRO DEVICES	Technologies de l'information	Semi-conducteurs et équipement pour semi-conducteurs	États-Unis	3.04%
SCHWAB (CHARLES) CORP	Obligations financières	Services financiers	États-Unis	2.85%
MICROCHIP TECHNOLOGY INC	Technologies de l'information	Semi-conducteurs et équipement pour semi-conducteurs	États-Unis	2.81%
TRUIST FINANCIAL CORP	Obligations financières	Banques	États-Unis	2.80%
COCA-COLA CO/ THE	Biens de consommation de base	Alimentation, boissons et tabac	États-Unis	2.65%
WALT DISNEY CO/ THE	Services de communication	Médias et loisirs	États-Unis	2.45%
KEYSIGHT TECHNOLOGIES INC	Technologies de l'information	Matériel technologique et équipement	États-Unis	2.41%
CMS ENERGY CORP	Services aux collectivités	Services multiples aux collectivités	États-Unis	2.33%

Quelle était la proportion d'investissements liés à la durabilité ?

Quelle était l'allocation d'actifs ?

L'allocation d'actifs décrit la part des investissements dans des actifs spécifiques.

La catégorie **N° 1 Alignés sur les caractéristiques E/S** inclut les investissements du produit financier utilisés pour atteindre les caractéristiques environnementales ou sociales promues par le produit financier.

La catégorie **N° 2 Autres** inclut les investissements restants du produit financier qui ne sont ni alignés sur les caractéristiques environnementales ou sociales ni considérés comme investissements durables.

La catégorie **N° 1 Alignés sur les caractéristiques E/S** comprend :

- la sous-catégorie **N° 1A Durables** couvrant les investissements durables sur le plan environnemental et social ;
- la sous-catégorie **N° 1B Autres caractéristiques E/S** couvrant les investissements alignés sur les caractéristiques environnementales ou sociales qui ne sont pas considérés comme des investissements durables.

● **Dans quels secteurs économiques ont été réalisés les investissements ?**

Secteur	Sous-secteur	% des actifs
Technologies de l'information	Logiciels et services	11.56%
Obligations financières	Services financiers	11.40%
Services de communication	Médias et loisirs	9.59%
Technologies de l'information	Matériel technologique et équipement	9.07%
Consommation discrétionnaire	Distribution et vente au détail de biens de consommation discrétionnaires	9.00%
Santé	Pharmacie, biotechnologie et sciences de la vie	7.07%
Technologies de l'information	Semi-conducteurs et équipement pour semi-conducteurs	5.85%

<i>Industrie</i>	<i>Biens d'équipement</i>	5.69%

<i>Consommation discrétionnaire</i>	<i>Biens de consommation durables et habillement</i>	0.95%
<i>Forex</i>	<i>Forex</i>	-0.11%
<i>Liquidités</i>	<i>Liquidités</i>	1.63%

Aux fins d'observer la taxinomie de l'UE, les critères relatifs au **gaz fossile** incluent des limites aux émissions et le passage à une énergie entièrement

Dans quelle mesure les investissements durables ayant un objectif environnemental étaient-ils alignés sur la Taxinomie de l'UE ?

Le fonds promeut des caractéristiques tant environnementales que sociales. Si le fonds ne s'est pas engagé à réaliser des investissements alignés sur la Taxinomie de l'UE, au cours de la période sous revue, il a cependant investi 0.00% dans des investissements durables alignés sur la Taxinomie de l'UE.

renouvelable ou à des combustibles à faible teneur en carbone d'ici fin 2035. Pour l'énergie nucléaire, les critères incluent des règles exhaustives de sécurité et de gestion des déchets.

Les activités habilitantes permettent directement à d'autres activités de contribuer de manière substantielle à la réalisation d'un objectif environnemental.

Les activités transitoires sont des activités pour lesquelles il n'existe pas encore de solution de remplacement sobre en carbone et, entre autres, dont les niveaux d'émission de gaz à effet de serre correspondent aux meilleures performances réalisables.

Les activités alignées sur la taxinomie sont exprimées en pourcentage :

- **du chiffre d'affaires** pour refléter la part des revenus provenant des activités vertes des sociétés bénéficiaires d'investissements ;
- **des dépenses d'investissement (CapEx)** pour montrer les investissements verts réalisés par les sociétés bénéficiaires d'investissements, pour une transition vers une économie verte, par exemple ; et
- **des dépenses d'exploitation (OpEx)** pour refléter les activités opérationnelles vertes des sociétés bénéficiaires d'investissements.

● **Le produit financier a-t-il investi dans des activités liées au gaz fossile et/ou à l'énergie nucléaire qui sont conformes à la taxinomie de l'UE¹ ?**

☐ Oui :

☐ Dans le gaz fossile

☐ Dans l'énergie nucléaire

☒ Non

Aucune donnée fiable concernant l'alignement sur les activités de gaz fossile et d'énergie nucléaire conformes à la Taxinomie de l'UE n'était disponible sur la période.

¹Les activités liées au gaz fossile et/ou à l'énergie nucléaire ne seront conformes à la Taxinomie de l'UE que si elles contribuent à limiter le changement climatique (« atténuation du changement climatique ») et ne causent pas de préjudice important à tout objectif de la Taxinomie de l'UE. L'intégralité des critères relatifs aux activités économiques liées au gaz fossile et à l'énergie nucléaire conformes à la Taxinomie de l'UE sont définis dans le Règlement délégué (UE) 2022/1214 de la Commission.

Les graphiques ci-dessous font apparaître en vert le pourcentage d'investissements alignés sur la Taxinomie de l'UE. Étant donné qu'il n'existe pas de méthodologie appropriée pour déterminer l'alignement des obligations souveraines* sur la taxinomie, le premier graphique montre l'alignement sur la Taxinomie par rapport à tous les investissements du produit financier, y compris les obligations souveraines, tandis que le deuxième graphique représente l'alignement sur la Taxinomie uniquement par rapport aux investissements du produit financier autres que les obligations souveraines.

* Aux fins de ces graphiques, les « obligations souveraines » comprennent toutes les expositions souveraines

● **Quelle était la part d'investissements dans les activités transitoires et habilitantes ?**

Au 30/06/2024, en utilisant le chiffre d'affaires et/ou les données d'utilisation des produits des obligations vertes comme indicateur, la part d'investissements du fonds dans les activités transitoires était de 0.00% et la part d'investissements dans les activités habilitantes était de 0.00%. Le pourcentage communiqué d'alignement des investissements du fonds sur la Taxinomie de l'UE n'a pas été audité par le réviseur d'entreprises agréé du fonds ni par aucun tiers.

● **Où se situe le pourcentage d'investissements alignés sur la taxinomie de l'UE par rapport aux périodes de référence précédentes ?**

À la fin de la période précédente, le pourcentage d'investissements alignés sur la taxinomie était de 0.00%.

Quelle était la part des investissements durables ayant un objectif environnemental qui n'étaient pas alignés sur la Taxinomie de l'UE ?

La part des investissements durables ayant un objectif environnemental et non alignés sur la taxinomie était de **22.58%** à la fin de la période.

Cela tient du fait que certains émetteurs sont considérés comme investissements durables en vertu du Règlement SFDR mais qu'une portion de leurs activités n'est pas alignée sur les standards de la taxinomie de l'UE, ou que les données correspondantes ne sont pas encore disponibles en vue d'une évaluation relative à la taxinomie de l'UE.

Quelle était la part d'investissements durables sur le plan social ?

La proportion des investissements durables sur le plan social était de 8.56% à la fin de la période.

Quels investissements étaient inclus dans la catégorie « Autres », quelle était leur finalité et existait-il des garanties environnementales ou sociales minimales ?

Sont inclus dans la catégorie « N° 2 Autres » les liquidités et autres instruments détenus aux fins de gestion de la liquidité et des risques du portefeuille. Pour les obligations et actions non notées, des garanties environnementales et sociales minimales ont été mises en place par le biais d'un filtrage des émetteurs en rapport aux activités controversées définies dans les principes du Pacte mondial des Nations unies. Elle peut également inclure des titres sans notation ESG pour lesquels les données nécessaires à la mesure de la réalisation des caractéristiques environnementales ou sociales ne sont pas disponibles.

Quelles mesures ont-elles été prises pour réaliser les caractéristiques environnementales et/ou sociales au cours de la période de référence ?

Des indicateurs de durabilité sont mis à disposition de manière continue dans le système de gestion du portefeuille pour permettre aux gestionnaires du portefeuille d'évaluer l'impact de leurs décisions d'investissement.

Ces indicateurs sont intégrés au cadre de contrôle d'AMUNDI, en répartissant les responsabilités entre le premier niveau de contrôles réalisés par les équipes Investissement elles-mêmes, et le second niveau de contrôles réalisé par les équipes Risque, qui surveillent la conformité aux caractéristiques environnementales ou sociales promues en permanence par le fonds.

En outre, la Politique d'investissement responsable d'AMUNDI définit une approche active en matière d'engagement qui promeut le dialogue avec les sociétés bénéficiaires des investissements, y compris celles qui sont incluses dans le portefeuille de ce produit. Notre Rapport annuel en matière d'engagement, disponible à la page <https://about.amundi.com/esg-documentation>, fournit des informations détaillées sur cet engagement et les résultats atteints.

Quelles ont été les performances de ce produit financier par rapport à l'indice de référence ?

Un indice de référence est un indice qui sert à mesurer si le produit financier réalise les caractéristiques environnementales et/ou sociales qu'il promeut.

Ce produit ne dispose pas d'un Indice de référence ESG.

- ***En quoi l'indice de référence diffère-t-il de l'indice de marché large ?***

Ce produit ne dispose pas d'un Indice de référence ESG.

- ***Quelles ont été les performances de ce produit financier par rapport aux indicateurs de durabilité pour déterminer l'alignement de l'indice de référence sur les caractéristiques environnementales ou sociales promues ?***

Ce produit ne dispose pas d'un Indice de référence ESG.

- ***Quelle a été la performance de ce produit financier par rapport à l'indice de référence ?***

Ce produit ne dispose pas d'un Indice de référence ESG.

- ***Quelle a été la performance de ce produit financier par rapport à l'indice de marché large ?***

Ce produit ne dispose pas d'un Indice de référence ESG.

Informations périodiques pour les produits financiers visés à l'Article 8, paragraphes 1, 2 et 2a, du Règlement (UE) 2019/2088 et à l'Article 6, premier paragraphe du Règlement (UE) 2020/852

Dénomination du produit : AMUNDI FUNDS
US EQUITY RESEARCH VALUE

Identifiant d'entité juridique :
549300BN5NK5WLW1TH95

Par investissement durable, on entend un investissement dans une activité économique qui contribue à un objectif environnemental ou social, pour autant qu'il ne cause de préjudice important à aucun de ces objectifs et que les sociétés détenues respectent les pratiques de bonne gouvernance.

La **Taxinomie de l'UE** est un système de classification institué par le Règlement (UE) 2020/852, qui dresse une liste d'**activités économiques durables sur le plan environnemental**. Ce règlement ne comprend pas de liste d'activités économiques durables sur le plan social. Les investissements durables ayant un objectif environnemental ne sont pas nécessairement alignés sur la taxinomie.

Caractéristiques environnementales et/ou sociales

Le produit financier avait-il un objectif d'investissement durable ?

☒ ☐ ☐ **Oui** ☒ ☐ ☒ **Non**

☐ Il a réalisé des investissements durables ayant un objectif environnemental : _____ ☐ dans des activités économiques qui sont considérées comme durables sur le plan environnemental au titre de la Taxinomie de l'UE ☐ dans des activités économiques qui ne sont pas considérées comme durables sur le plan environnemental au titre de la Taxinomie de l'UE ☐ Il a réalisé des investissements durables ayant un objectif social : _____	☒ Il a promu des caractéristiques environnementales/sociales (E/S) et, bien qu'il n'ait pas eu pour objectif l'investissement durable, il contenait une proportion d'investissements durables de 31.42% ☐ ayant un objectif environnemental dans des activités économiques qui sont considérées comme durables sur le plan environnemental au titre de la Taxinomie de l'UE ☒ ayant un objectif environnemental dans des activités économiques qui ne sont pas considérées comme durables sur le plan environnemental au titre de la Taxinomie de l'UE ☐ ayant un objectif social ☐ Il a promu des caractéristiques E/S, mais n'a pas réalisé d'investissements durables
---	---

Dans quelle mesure les caractéristiques environnementales et/ou sociales promues par ce produit financier ont-elles été réalisées ?

Au cours de l'exercice financier, le produit n'a cessé de promouvoir les caractéristiques environnementales et/ou sociales en cherchant à atteindre une note ESG supérieure à celle de son univers d'investissement **RUSSELL 1000 VALUE (FRC)**. Pour déterminer la note ESG du Produit et de l'univers d'investissement ESG, la performance ESG a été évaluée de manière continue en comparant la performance moyenne d'un titre par rapport au secteur de l'émetteur du titre, pour chacune des trois caractéristiques, à savoir environnementale, sociale et de gouvernance.

L'univers d'investissement est un univers de marché large qui n'évalue ni n'inclut pas de composantes en fonction de caractéristiques environnementales et/ou sociales, et qui n'a par conséquent pas pour vocation d'être conforme aux caractéristiques promues par le fonds. Aucun indice de référence ESG n'a été désigné.

Les indicateurs de durabilité évaluent la mesure dans laquelle les caractéristiques environnementales ou sociales promues par le produit financier sont atteintes.

● **Quelle performance ont affiché les indicateurs de durabilité ?**

Amundi a développé son propre processus de notation ESG interne, qui suit une approche « Best-in-class ». Les notations adaptées à chaque secteur d'activité ont pour objectif d'évaluer la dynamique dans laquelle interviennent les entreprises.

L'indicateur de durabilité employé est la note ESG du Produit mesurée en comparaison avec la note ESG de l'univers d'investissement ESG du Produit.

À la fin de la période :

- La note ESG moyenne pondérée du portefeuille est **0.020 (D)**.
- La note ESG moyenne pondérée de l'univers d'investissement ESG est **-0.479 (D)**.

La notation ESG Amundi utilisée pour déterminer la note ESG est une note ESG quantitative qui se décline en sept niveaux allant de A (les meilleures notes de l'univers) à G (les pires notes). Sur l'échelle de notation ESG d'Amundi, les titres figurant sur la liste d'exclusion correspondent à G. Pour les entreprises émettrices, la performance ESG est évaluée de manière globale et au niveau des critères pertinents par comparaison avec la performance moyenne du secteur, en combinant les trois dimensions ESG :

- Dimension environnementale : cette dimension examine la capacité des émetteurs à contrôler leur impact environnemental direct et indirect, en limitant leur consommation d'énergie, en réduisant leurs émissions de gaz à effet de serre, en luttant contre l'appauvrissement des ressources et en protégeant la biodiversité.
- Dimension sociale : cette dimension évalue le fonctionnement d'un émetteur dans deux domaines différents, à savoir sa stratégie de développement du capital humain et le respect des droits humains en général.
- Dimension de gouvernance : cette dimension évalue la capacité de l'émetteur à garantir les fondements d'un cadre de gouvernance d'entreprise efficace et à générer de la valeur sur le long terme.

La méthodologie appliquée par la notation ESG d'Amundi utilise 38 critères qui sont soit génériques (communs à toutes les entreprises, indépendamment de leur activité) soit spécifiques au secteur, et qui sont pondérés en fonction du secteur et considérés en termes d'impact sur la réputation, l'efficacité opérationnelle et les réglementations concernant un émetteur. Les notations ESG d'Amundi sont susceptibles d'être exprimées de manière globale pour les trois dimensions E, S et G, ou individuellement pour tout facteur environnemental ou social.

● **... et par rapport aux périodes antérieures ?**

À la fin de la période précédente, la note ESG moyenne pondérée du portefeuille était de 0.019 (D) et la note ESG moyenne pondérée de l'univers d'investissement ESG était de -0.479 (D).

● **Quels étaient les objectifs des investissements durables que le produit financier entendait partiellement réaliser, et comment l'investissement durable a-t-il contribué à ces objectifs ?**

Les objectifs des investissements durables sont d'investir dans des sociétés détenues qui cherchent à respecter deux critères :

1. suivre les bonnes pratiques environnementales et sociales ; et
2. éviter de fabriquer des produits ou de fournir des services qui nuisent à l'environnement et à la société.

Pour que la société bénéficiaire d'investissements soit réputée contribuer à l'objectif susmentionné, elle doit figurer parmi les « meilleures performances » de son secteur d'activité pour au moins l'un de ses facteurs environnementaux ou sociaux importants.

La définition de « meilleures performances » repose sur la méthode ESG exclusive d'Amundi, dont l'objectif est de mesurer la performance ESG d'une société bénéficiaire d'investissements. Pour être considérée comme l'une des « meilleures performances », une société bénéficiaire d'investissements doit afficher l'une des trois premières notes (A, B ou C, sur une échelle de notation allant de A à G) dans son secteur pour au moins un facteur environnemental ou social important. Les facteurs environnementaux et sociaux sont identifiés à l'échelle des secteurs. L'identification des facteurs importants est basée sur le cadre d'analyse ESG d'Amundi qui combine des données extra-financières et une analyse qualitative du secteur associé et des questions de durabilité. Les facteurs identifiés

comme importants représentent plus de 10 % de la note ESG globale. Par exemple pour le secteur de l'énergie, les facteurs importants sont les suivants : émissions et énergie, biodiversité et pollution, santé et sécurité, communautés locales et droits humains. Pour un aperçu plus complet des secteurs et des facteurs, veuillez consulter la Déclaration réglementaire ESG d'Amundi disponible sur www.amundi.lu

Pour contribuer aux objectifs ci-dessus, la société bénéficiaire d'investissements ne doit pas avoir d'exposition significative aux activités (par ex. tabac, armes, jeux de hasard, charbon, aviation, production de viande, fabrication d'engrais et de pesticides, production de plastique à usage unique) incompatibles avec ces critères.

Le caractère durable d'un investissement est évalué au niveau de la société bénéficiaire d'investissements.

● ***Dans quelle mesure les investissements durables que le produit financier a partiellement réalisés n'ont-ils pas causé de préjudice important à un objectif d'investissement durable sur le plan environnemental ou social ?***

Pour s'assurer que les investissements durables ne causent pas de préjudice important (principe « Do no significant harm » ou « DNSH » en anglais), Amundi utilise deux filtres :

Le premier filtre de DNSH repose sur le contrôle des indicateurs obligatoires des Principales incidences négatives de l'Annexe 1, Tableau 1 des normes techniques réglementaires (RTS) lorsqu'il existe des données fiables (par ex. Intensité des GES des sociétés bénéficiaire des investissements) via une combinaison d'indicateurs (par ex. intensité carbone) et des seuils ou règles spécifiques (par ex. que l'intensité carbone de la société bénéficiaire des investissements n'appartient pas au dernier décile du secteur).

Dans sa politique d'exclusion qui fait partie intégrante de sa Politique d'investissement responsable, Amundi tient d'ores et déjà compte de Principales incidences négatives spécifiques. Ces exclusions, qui s'appliquent en sus des tests détaillés ci-dessus, couvrent les sujets suivants : exclusions sur les armes controversées, les violations des principes du Pacte mondial des Nations Unies, le charbon et le tabac.

Au-delà des facteurs de durabilité spécifiques couverts par le premier filtre, Amundi a défini un second filtre, qui ne tient pas compte des indicateurs obligatoires des Principales incidences négatives ci-dessus, afin de vérifier que la société n'affiche pas de mauvaises performances d'un point de vue environnemental ou social global par rapport aux autres entreprises de son secteur, ce qui correspond à un score environnemental ou social supérieur ou égal à E selon la notation ESG d'Amundi.

- ***Comment les indicateurs concernant les incidences négatives sur les facteurs de durabilité ont-ils été pris en considération ?***

Les indicateurs d'incidences négatives ont été pris en compte comme détaillé dans le premier filtre DNSH ci-dessus.

Le premier filtre DNSH repose sur le contrôle des indicateurs obligatoires des Principales incidences négatives de l'Annexe 1, Tableau 1 du Règlement délégué (UE) 2022/1288 lorsqu'il existe des données fiables via la combinaison des indicateurs suivants et de seuils ou règles spécifiques :

- une intensité en CO2 qui n'appartient pas au dernier décile par rapport aux autres entreprises du secteur (ne s'applique qu'aux secteurs à forte intensité) ;
- un Conseil d'administration dont le niveau de diversité n'appartient pas au dernier décile par rapport aux autres sociétés du secteur ;
- ne pas faire l'objet de controverse relative aux conditions de travail et aux droits humains ; et
- ne pas faire l'objet de controverse relative à la biodiversité et à la pollution.

Dans sa politique d'exclusion qui fait partie intégrante de sa Politique d'investissement responsable, Amundi tient d'ores et déjà compte de Principales incidences négatives spécifiques. Ces exclusions, qui s'appliquent en sus des tests détaillés ci-dessus, couvrent les sujets suivants : exclusions sur les armes controversées, les violations des principes du Pacte mondial des Nations Unies, le charbon et le tabac.

- ***Les investissements durables étaient-ils conformes aux Principes directeurs de l'OCDE à l'intention des entreprises multinationales et aux Principes directeurs des Nations unies relatifs aux entreprises et aux droits humains ? Description détaillée :***

Oui, les Principes directeurs de l'OCDE à l'intention des entreprises multinationales et les Principes directeurs des Nations unies relatifs aux entreprises et aux droits humains sont

Les principales incidences négatives correspondent aux incidences négatives les plus significatives des décisions d'investissement sur les facteurs de durabilité liés aux questions environnementales, sociales et de personnel, au respect des droits humains et à la lutte contre la corruption et les actes de corruption.

intégrés à notre méthode de notation ESG. Notre outil de notation ESG exclusif évalue les émetteurs à l'aide des données disponibles auprès de nos fournisseurs de données. Par exemple, le modèle dispose d'un critère dédié appelé « Implication dans la communauté et droits humains » qui s'applique à tous les secteurs en plus d'autres critères liés aux droits humains, y compris les chaînes d'approvisionnement socialement responsables, les conditions de travail et les relations de travail. En outre, nous effectuons un contrôle des controverses au moins une fois par trimestre, y compris sur les entreprises identifiées pour des violations des droits humains. En cas de controverse, les analystes évaluent la situation, lui donnent une note (à l'aide de notre méthode de notation exclusive) et déterminent la marche à suivre. Les notes de controverse sont mises à jour chaque trimestre pour suivre les tendances et les efforts de correction.

La Taxinomie de l'UE définit un principe consistant à « ne pas causer de préjudice important » (« Do not significant harm » ou DNSH) en vertu duquel les investissements alignés sur la Taxinomie ne doivent pas causer de préjudice important aux objectifs de la Taxinomie de l'UE et s'accompagnent de critères de l'UE spécifiques.

Le principe consistant à « ne pas causer de préjudice important » ne s'applique qu'aux investissements sous-jacents du produit financier qui tiennent compte des critères de l'UE pour les activités économiques durables sur le plan environnemental. Les investissements sous-jacents de la portion restante de ce produit financier ne tiennent pas compte des critères de l'UE en matière d'activités économiques durables sur le plan environnemental.

Tout autre investissement durable doit également se conformer au principe consistant à ne pas causer de préjudice important aux objectifs environnementaux ou sociaux.

Dans quelle mesure ce produit financier a-t-il pris en considération les principales incidences négatives sur les facteurs de durabilité ?

Le produit tient compte de toutes les Principales incidences négatives obligatoires en vertu de l'Annexe 1, Tableau 1 du Règlement délégué (UE) 2022/1288 applicables à la stratégie du produit et s'appuie sur une combinaison de politiques d'exclusion (normatives et sectorielles) et d'approches d'engagement et de vote :

- Exclusion : Amundi a défini des règles d'exclusion normatives, basées sur l'activité et les secteurs, qui couvrent certains des principaux indicateurs négatifs de durabilité énumérés par le Règlement Disclosure (sur la publication d'informations).
- Intégration des facteurs ESG : Amundi a adopté des normes d'intégration ESG minimales appliquées par défaut à ses fonds de type ouvert activement gérés (exclusion des émetteurs ayant la note G et meilleure note ESG moyenne pondérée supérieure à celle de l'indice de référence applicable). Les 38 critères employés dans la stratégie de notation ESG d'Amundi ont également été conçus pour tenir compte des principaux impacts sur les facteurs de durabilité, ainsi que de la qualité de la réduction entreprise en la matière.
- Engagement : L'engagement est un processus continu et ciblé qui vise à influencer les activités ou le comportement des sociétés bénéficiaires des investissements. L'objectif des activités d'engagement peut se diviser en deux catégories : impliquer un émetteur pour améliorer la manière dont il intègre la dimension environnementale et sociale ou impliquer un émetteur pour améliorer son impact sur les questions environnementales, sociales et liées aux droits humains ou d'autres questions de durabilité qui sont importantes pour la société au sens large et l'économie mondiale.
- Vote : La politique de vote d'Amundi répond à une analyse globale de toutes les questions à long terme qui peuvent influencer la création de valeur, y compris les questions ESG importantes. pour plus d'informations, veuillez consulter la Politique de vote d'Amundi.
- Surveillance des controverses : Amundi a développé un système de suivi des controverses qui s'appuie sur trois fournisseurs de données externes pour suivre systématiquement l'évolution des controverses et leur niveau de gravité. Cette approche quantitative est ensuite enrichie d'une évaluation approfondie de chaque controverse grave, menée par des analystes ESG, puis d'un examen périodique de son évolution. Cette approche s'applique à tous les fonds d'Amundi.

Pour de plus amples détails sur le mode de prise en compte des indicateurs relatifs aux Principales incidences négatives obligatoires, veuillez consulter la Déclaration sur la publication d'informations en matière de finance durable d'Amundi disponible sur www.amundi.com.

Quels étaient les principaux investissements de ce produit financier ?

La liste inclut les investissements qui constituent la proportion la plus importante d'investissements du produit financier au cours de la période de référence, à savoir : du 01/07/2023 au 30/06/2024

Principaux investissements	Secteur	Sous-secteur	Pays	% des actifs
COCA-COLA CO/THE	Biens de consommation de base	Alimentation, boissons et tabac	États-Unis	5.13%
CISCO SYSTEMS INC	Technologies de l'information	Matériel technologique et équipement	États-Unis	5.02%
PFIZER INC	Santé	Pharmacie, biotechnologie et sciences de la vie	États-Unis	3.92%
JPMORGAN CHASE & CO	Obligations financières	Banques	États-Unis	3.84%
BANK OF AMERICA CORP	Obligations financières	Banques	États-Unis	3.79%
SHELL PLC	Énergie	Pétrole, gaz et combustibles	Royaume-Uni	3.22%
PEPSICO INC	Biens de consommation de base	Alimentation, boissons et tabac	États-Unis	3.03%
AMERICAN TOWER CL A	Immobilier	Sociétés d'investissement immobilier	États-Unis	2.91%
AIR PRODUCTS & CHEMI	Matériaux	Chimie	États-Unis	2.90%
AMERICAN ELECTRIC POWER	Services aux collectivités	Services aux collectivités – électricité	États-Unis	2.69%
CMS ENERGY CORP	Services aux collectivités	Services multiples aux collectivités	États-Unis	2.58%
SCHLUMBERGER LTD	Énergie	Équipement et services énergétiques	Curacao	2.46%
DEERE & CO	Industrie	Biens d'équipement	États-Unis	2.43%
WALT DISNEY CO/ THE	Services de communication	Médias et loisirs	États-Unis	2.33%
BEST BUY CO INC	Consommation discrétionnaire	Distribution et vente au détail de biens de consommation discrétionnaires	États-Unis	2.18%

Quelle était la proportion d'investissements liés à la durabilité ?

Quelle était l'allocation d'actifs ?

L'allocation d'actifs décrit la part des investissements dans des actifs spécifiques.

La catégorie **N° 1 Alignés sur les caractéristiques E/S** inclut les investissements du produit financier utilisés pour atteindre les caractéristiques environnementales ou sociales promues par le produit financier.

La catégorie **N° 2 Autres** inclut les investissements restants du produit financier qui ne sont ni alignés sur les caractéristiques environnementales ou sociales ni considérés comme investissements durables.

La catégorie **N° 1 Alignés sur les caractéristiques E/S** comprend :

- la sous-catégorie **N° 1A Durables** couvrant les investissements durables sur le plan environnemental et social ;
- la sous-catégorie **N° 1B Autres caractéristiques E/S** couvrant les investissements alignés sur les caractéristiques environnementales ou sociales qui ne sont pas considérés comme des investissements durables.

● Dans quels secteurs économiques ont été réalisés les investissements ?

Secteur	Sous-secteur	% des actifs
Obligations financières	Banques	9.72%
Biens de consommation de base	Alimentation, boissons et tabac	9.67%
Santé	Pharmacie, biotechnologie et sciences de la vie	9.05%
Technologies de l'information	Matériel technologique et équipement	6.90%
Santé	Matériel et services de santé	6.64%
Industrie	Biens d'équipement	5.72%

<i>Obligations financières</i>	<i>Assurance</i>	<i>5.51%</i>
<i>Énergie</i>	<i>Pétrole, gaz et combustibles</i>	<i>5.00%</i>
<i>Obligations financières</i>	<i>Services financiers</i>	<i>4.73%</i>
<i>Matériaux</i>	<i>Chimie</i>	<i>4.55%</i>
<i>Services aux collectivités</i>	<i>Services aux collectivités – électricité</i>	<i>4.31%</i>
<i>Immobilier</i>	<i>Sociétés d'investissement immobilier</i>	<i>3.49%</i>

Forex	Forex	-0.27%
Liquidités	Liquidités	0.77%

Aux fins d'observer la taxinomie de l'UE, les critères relatifs au **gaz fossile** incluent des limites aux émissions et le passage à une énergie entièrement renouvelable ou à des combustibles à faible teneur en carbone d'ici fin 2035. Pour l'**énergie nucléaire**, les critères incluent des règles exhaustives de sécurité et de gestion des déchets.

Les activités habilitantes permettent directement à d'autres activités de contribuer de manière substantielle à la réalisation d'un objectif environnemental.

Les activités transitoires sont des activités pour lesquelles il n'existe pas encore

Dans quelle mesure les investissements durables ayant un objectif environnemental étaient-ils alignés sur la Taxinomie de l'UE ?

Le fonds promeut des caractéristiques tant environnementales que sociales. Si le fonds ne s'est pas engagé à réaliser des investissements alignés sur la Taxinomie de l'UE, au cours de la période sous revue, il a cependant investi 0.00% dans des investissements durables alignés sur la Taxinomie de l'UE.

● Le produit financier a-t-il investi dans des activités liées au gaz fossile et/ou à l'énergie nucléaire qui sont conformes à la taxinomie de l'UE¹ ?

☐ Oui :

☐ Dans le gaz fossile ☐ Dans l'énergie nucléaire

☒ Non

Aucune donnée fiable concernant l'alignement sur les activités de gaz fossile et d'énergie nucléaire conformes à la Taxinomie de l'UE n'était disponible sur la période.

¹Les activités liées au gaz fossile et/ou à l'énergie nucléaire ne seront conformes à la Taxinomie de l'UE que si elles contribuent à limiter le changement climatique (« atténuation du changement climatique ») et ne causent pas de préjudice important à tout objectif de la Taxinomie de l'UE. L'intégralité des critères relatifs aux activités économiques liées au gaz fossile et à l'énergie nucléaire conformes à la Taxinomie de l'UE sont définis dans le Règlement délégué (UE) 2022/1214 de la Commission.

de solution de remplacement sobre en carbone et, entre autres, dont les niveaux d'émission de gaz à effet de serre correspondent aux meilleures performances réalisables.

Les activités alignées sur la taxinomie

sont exprimées en pourcentage :

- **du chiffre d'affaires** pour refléter la part des revenus provenant des activités vertes des sociétés bénéficiaires d'investissements ;
- **des dépenses d'investissement (CapEx)** pour montrer les investissements verts réalisés par les sociétés bénéficiaires d'investissements, pour une transition vers une économie verte, par exemple ; et
- **des dépenses d'exploitation (OpEx)** pour refléter les activités opérationnelles vertes des sociétés bénéficiaires d'investissements.

Les graphiques ci-dessous font apparaître en vert le pourcentage d'investissements alignés sur la Taxinomie de l'UE. Étant donné qu'il n'existe pas de méthodologie appropriée pour déterminer l'alignement des obligations souveraines* sur la taxinomie, le premier graphique montre l'alignement sur la Taxinomie par rapport à tous les investissements du produit financier, y compris les obligations souveraines, tandis que le deuxième graphique représente l'alignement sur la Taxinomie uniquement par rapport aux investissements du produit financier autres que les obligations souveraines.

* Aux fins de ces graphiques, les « obligations souveraines » comprennent toutes les expositions souveraines

● Quelle était la part des investissements réalisés dans des activités transitoires et habilitantes ?

Au 30/06/2024, en utilisant le chiffre d'affaires et/ou les données d'utilisation des produits des obligations vertes comme indicateur, la part d'investissements du fonds dans les activités transitoires était de 0.00% et la part d'investissements dans les activités habilitantes était de 0.00%. Le pourcentage communiqué d'alignement des investissements du fonds sur la Taxinomie de l'UE n'a pas été audité par le réviseur d'entreprises agréé du fonds ni par aucun tiers.

● Où se situe le pourcentage d'investissements alignés sur la taxinomie de l'UE par rapport aux périodes de référence précédentes ?

À la fin de la période précédente, le pourcentage d'investissements alignés sur la taxinomie était de 0.00%.

Quelle était la part des investissements durables ayant un objectif environnemental qui n'étaient pas alignés sur la Taxinomie de l'UE ?

La part des investissements durables ayant un objectif environnemental et non alignés sur la taxinomie était de **23.90%** à la fin de la période. Cela tient du fait que certains émetteurs sont considérés comme investissements durables en vertu du Règlement SFDR mais qu'une portion de leurs activités n'est pas alignée sur les standards de la taxinomie de l'UE, ou que les données correspondantes ne sont pas encore disponibles en vue d'une évaluation relative à la taxinomie de l'UE.

sont des investissements durables ayant un objectif environnemental qui ne tiennent pas compte des critères

en matière d'activités économiques durables sur le plan environnemental visés par le Règlement (UE) 2020/852.

Quelle était la part d'investissements durables sur le plan social ?

La proportion des investissements durables sur le plan social était de 7.52% à la fin de la période.

Quels investissements étaient inclus dans la catégorie « Autres », quelle était leur finalité et existait-il des garanties environnementales ou sociales minimales ?

Sont inclus dans la catégorie « N° 2 Autres » les liquidités et autres instruments détenus aux fins de gestion de la liquidité et des risques du portefeuille. Pour les obligations et actions non notées, des garanties environnementales et sociales minimales ont été mises en place par le biais d'un filtrage des émetteurs en rapport aux activités controversées définies dans les principes du Pacte mondial des Nations unies. Elle peut également inclure des titres sans notation ESG pour lesquels les données nécessaires à la mesure de la réalisation des caractéristiques environnementales ou sociales ne sont pas disponibles.

Quelles mesures ont-elles été prises pour réaliser les caractéristiques environnementales et/ou sociales au cours de la période de référence ?

Des indicateurs de durabilité sont mis à disposition de manière continue dans le système de gestion du portefeuille pour permettre aux gestionnaires du portefeuille d'évaluer l'impact de leurs décisions d'investissement.

Ces indicateurs sont intégrés au cadre de contrôle d'AMUNDI, en répartissant les responsabilités entre le premier niveau de contrôles réalisés par les équipes Investissement elles-mêmes, et le second niveau de contrôles réalisé par les équipes Risque, qui surveillent la conformité aux caractéristiques environnementales ou sociales promues en permanence par le fonds.

En outre, la Politique d'investissement responsable d'AMUNDI définit une approche active en matière d'engagement qui promeut le dialogue avec les sociétés bénéficiaires des investissements, y compris celles qui sont incluses dans le portefeuille de ce produit. Notre Rapport annuel en matière d'engagement, disponible à la page <https://about.amundi.com/esg-documentation>, fournit des informations détaillées sur cet engagement et les résultats atteints.

Quelles ont été les performances de ce produit financier par rapport à l'indice de référence ?

Un indice de référence est un indice qui sert à mesurer si le produit financier réalise les caractéristiques environnementales et/ou sociales qu'il promeut.

Ce produit ne dispose pas d'un Indice de référence ESG.

● En quoi l'indice de référence diffère-t-il de l'indice de marché large ?

Ce produit ne dispose pas d'un Indice de référence ESG.

● Quelles ont été les performances de ce produit financier par rapport aux indicateurs de durabilité pour déterminer l'alignement de l'indice de référence sur les caractéristiques environnementales ou sociales promues ?

Ce produit ne dispose pas d'un Indice de référence ESG.

● Quelle a été la performance de ce produit financier par rapport à l'indice de référence ?

Ce produit ne dispose pas d'un Indice de référence ESG.

● Quelle a été la performance de ce produit financier par rapport à l'indice de marché large ?

Ce produit ne dispose pas d'un Indice de référence ESG.

Informations périodiques pour les produits financiers visés à l'Article 8, paragraphes 1, 2 et 2a, du Règlement (UE) 2019/2088 et à l'Article 6, premier paragraphe du Règlement (UE) 2020/852

Dénomination du produit : AMUNDI FUNDS POLEN
CAPITAL GLOBAL GROWTH

Identifiant d'entité juridique :
549300LSQ5T56F5I6810

Par investissement durable, on entend un investissement dans une activité économique qui contribue à un objectif environnemental ou social, pour autant qu'il ne cause de préjudice important à aucun de ces objectifs et que les sociétés détenues respectent les pratiques de bonne gouvernance.

La **Taxinomie de l'UE** est un système de classification institué par le Règlement (UE) 2020/852, qui dresse une liste d'**activités économiques durables sur le plan environnemental**. Ce règlement ne comprend pas de liste d'activités économiques durables sur le plan social. Les investissements durables ayant un objectif environnemental ne sont pas nécessairement alignés sur la taxinomie.

Caractéristiques environnementales et/ou sociales

Le produit financier avait-il un objectif d'investissement durable ?	
☒ ☐ ☐ Oui	☒ ☐ ☐ X Non
☐ Il a réalisé des investissements durables ayant un objectif environnemental : _____ ☐ dans des activités économiques qui sont considérées comme durables sur le plan environnemental au titre de la Taxinomie de l'UE ☐ dans des activités économiques qui ne sont pas considérées comme durables sur le plan environnemental au titre de la Taxinomie de l'UE	☒ Il a promu des caractéristiques environnementales/sociales (E/S) et, bien qu'il n'ait pas eu pour objectif l'investissement durable, il contenait une proportion d'investissements durables de <u>56.45%</u> ☐ ayant un objectif environnemental dans des activités économiques qui sont considérées comme durables sur le plan environnemental au titre de la Taxinomie de l'UE ☒ ayant un objectif environnemental dans des activités économiques qui ne sont pas considérées comme durables sur le plan environnemental au titre de la Taxinomie de l'UE ☐ ayant un objectif social
☐ Il a réalisé des investissements durables ayant un objectif social : _____	☐ Il a promu des caractéristiques E/S, mais n'a pas réalisé d'investissements durables

Dans quelle mesure les caractéristiques environnementales et/ou sociales promues par ce produit financier ont-elles été réalisées ?

Au cours de l'exercice financier, le produit n'a cessé de promouvoir les caractéristiques environnementales et/ou sociales en cherchant à atteindre une note ESG supérieure à celle de son univers d'investissement **MSCI ACWI**. Pour déterminer la note ESG du Produit et de l'univers d'investissement ESG, la performance ESG a été évaluée de manière continue en comparant la performance moyenne d'un titre par rapport au secteur de l'émetteur du titre, pour chacune des trois caractéristiques, à savoir environnementale, sociale et de gouvernance.

L'univers d'investissement est un univers de marché large qui n'évalue ni n'inclut pas de composantes en fonction de caractéristiques environnementales et/ou sociales, et qui n'a par conséquent pas pour vocation d'être conforme aux caractéristiques promues par le fonds. Aucun indice de référence ESG n'a été désigné.

Les indicateurs de durabilité évaluent la mesure dans laquelle les caractéristiques environnementales ou sociales promues par le produit financier sont atteintes.

● **Quelle performance ont affiché les indicateurs de durabilité ?**

Amundi a développé son propre processus de notation ESG interne, qui suit une approche « Best-in-class ». Les notations adaptées à chaque secteur d'activité ont pour objectif d'évaluer la dynamique dans laquelle interviennent les entreprises.

L'indicateur de durabilité employé est la note ESG du Produit mesurée en comparaison avec la note ESG de l'univers d'investissement ESG du Produit.

À la fin de la période :

- La note ESG moyenne pondérée du portefeuille est **0.197 (D)**.
- La note ESG moyenne pondérée de l'univers d'investissement ESG est **-0.171 (D)**.

La notation ESG Amundi utilisée pour déterminer la note ESG est une note ESG quantitative qui se décline en sept niveaux allant de A (les meilleures notes de l'univers) à G (les pires notes). Sur l'échelle de notation ESG d'Amundi, les titres figurant sur la liste d'exclusion correspondent à G. Pour les entreprises émettrices, la performance ESG est évaluée de manière globale et au niveau des critères pertinents par comparaison avec la performance moyenne du secteur, en combinant les trois dimensions ESG :

- Dimension environnementale : cette dimension examine la capacité des émetteurs à contrôler leur impact environnemental direct et indirect, en limitant leur consommation d'énergie, en réduisant leurs émissions de gaz à effet de serre, en luttant contre l'appauvrissement des ressources et en protégeant la biodiversité.
- Dimension sociale : cette dimension évalue le fonctionnement d'un émetteur dans deux domaines différents, à savoir sa stratégie de développement du capital humain et le respect des droits humains en général.
- Dimension de gouvernance : cette dimension évalue la capacité de l'émetteur à garantir les fondements d'un cadre de gouvernance d'entreprise efficace et à générer de la valeur sur le long terme.

La méthodologie appliquée par la notation ESG d'Amundi utilise 38 critères qui sont soit génériques (communs à toutes les entreprises, indépendamment de leur activité) soit spécifiques au secteur, et qui sont pondérés en fonction du secteur et considérés en termes d'impact sur la réputation, l'efficacité opérationnelle et les réglementations concernant un émetteur. Les notations ESG d'Amundi sont susceptibles d'être exprimées de manière globale pour les trois dimensions E, S et G, ou individuellement pour tout facteur environnemental ou social.

● **... et par rapport aux périodes antérieures ?**

À la fin de la période précédente, la note ESG moyenne pondérée du portefeuille était de 0.233 (D) et la note ESG moyenne pondérée de l'univers d'investissement ESG était de -0.119 (D)

● **Quels étaient les objectifs des investissements durables que le produit financier entendait partiellement réaliser, et comment l'investissement durable a-t-il contribué à ces objectifs ?**

Les objectifs des investissements durables sont d'investir dans des sociétés détenues qui cherchent à respecter deux critères :

1. suivre les bonnes pratiques environnementales et sociales ; et
2. éviter de fabriquer des produits ou de fournir des services qui nuisent à l'environnement et à la société.

Pour que la société bénéficiaire d'investissements soit réputée contribuer à l'objectif susmentionné, elle doit figurer parmi les « meilleures performances » de son secteur d'activité pour au moins l'un de ses facteurs environnementaux ou sociaux importants.

La définition de « meilleures performances » repose sur la méthode ESG exclusive d'Amundi, dont l'objectif est de mesurer la performance ESG d'une société bénéficiaire d'investissements. Pour être considérée comme l'une des « meilleures performances », une société bénéficiaire d'investissements doit afficher l'une des trois premières notes (A, B ou C, sur une échelle de notation allant de A à G) dans son secteur pour au moins un facteur environnemental ou social important. Les facteurs environnementaux et sociaux sont identifiés à l'échelle des secteurs. L'identification des facteurs importants est basée sur le cadre d'analyse ESG d'Amundi qui combine des données extra-financières et une analyse qualitative du secteur associé et des questions de durabilité. Les facteurs identifiés comme importants représentent plus de 10 % de la note ESG globale. Par exemple pour le secteur de

l'énergie, les facteurs importants sont les suivants : émissions et énergie, biodiversité et pollution, santé et sécurité, communautés locales et droits humains. Pour un aperçu plus complet des secteurs et des facteurs, veuillez consulter la Déclaration réglementaire ESG d'Amundi disponible sur www.amundi.lu

Pour contribuer aux objectifs ci-dessus, la société bénéficiaire d'investissements ne doit pas avoir d'exposition significative aux activités (par ex. tabac, armes, jeux de hasard, charbon, aviation, production de viande, fabrication d'engrais et de pesticides, production de plastique à usage unique) incompatibles avec ces critères.

Le caractère durable d'un investissement est évalué au niveau de la société bénéficiaire d'investissements.

Les principales incidences négatives

correspondent aux incidences négatives les plus significatives des décisions d'investissement sur les facteurs de durabilité liés aux questions environnementales, sociales et de personnel, au respect des droits humains et à la lutte contre la corruption et les actes de corruption.

● ***Dans quelle mesure les investissements durables que le produit financier a partiellement réalisés n'ont-ils pas causé de préjudice important à un objectif d'investissement durable sur le plan environnemental ou social ?***

Pour s'assurer que les investissements durables ne causent pas de préjudice important (principe « Do no significant harm » ou « DNSH » en anglais), Amundi utilise deux filtres :

Le premier filtre de DNSH repose sur le contrôle des indicateurs obligatoires des Principales incidences négatives de l'Annexe 1, Tableau 1 des normes techniques réglementaires (RTS) lorsqu'il existe des données fiables (par ex. Intensité des GES des sociétés bénéficiaires d'investissements) via une combinaison d'indicateurs (par ex. intensité carbone) et des seuils ou règles spécifiques (par ex. que l'intensité carbone de la société bénéficiaire d'investissements n'appartient pas au dernier décile du secteur).

Dans sa politique d'exclusion qui fait partie intégrante de sa Politique d'investissement responsable, Amundi tient d'ores et déjà compte de Principales incidences négatives spécifiques. Ces exclusions, qui s'appliquent en sus des tests détaillés ci-dessus, couvrent les sujets suivants : exclusions sur les armes controversées, les violations des principes du Pacte mondial des Nations Unies, le charbon et le tabac.

Au-delà des facteurs de durabilité spécifiques couverts par le premier filtre, Amundi a défini un second filtre, qui ne tient pas compte des indicateurs obligatoires des Principales incidences négatives ci-dessus, afin de vérifier que la société n'affiche pas de mauvaises performances d'un point de vue environnemental ou social global par rapport aux autres entreprises de son secteur, ce qui correspond à un score environnemental ou social supérieur ou égal à E selon la notation ESG d'Amundi.

- ***Comment les indicateurs concernant les incidences négatives sur les facteurs de durabilité ont-ils été pris en considération ?***

Les indicateurs d'incidences négatives ont été pris en compte comme détaillé dans le premier filtre DNSH ci-dessus.

Le premier filtre DNSH repose sur le contrôle des indicateurs obligatoires des Principales incidences négatives de l'Annexe 1, Tableau 1 du Règlement délégué (UE) 2022/1288 lorsqu'il existe des données fiables via la combinaison des indicateurs suivants et de seuils ou règles spécifiques :

- une intensité en CO2 qui n'appartient pas au dernier décile par rapport aux autres entreprises du secteur (ne s'applique qu'aux secteurs à forte intensité) ;
- un Conseil d'administration dont le niveau de diversité n'appartient pas au dernier décile par rapport aux autres sociétés du secteur ;
- ne pas faire l'objet de controverse relative aux conditions de travail et aux droits humains ; et
- ne pas faire l'objet de controverse relative à la biodiversité et à la pollution.

Dans sa politique d'exclusion qui fait partie intégrante de sa Politique d'investissement responsable, Amundi tient d'ores et déjà compte de Principales incidences négatives spécifiques. Ces exclusions, qui s'appliquent en sus des tests détaillés ci-dessus, couvrent les sujets suivants : exclusions sur les armes controversées, les violations des principes du Pacte mondial des Nations Unies, le charbon et le tabac.

- ***Les investissements durables étaient-ils conformes aux Principes directeurs de l'OCDE à l'intention des entreprises multinationales et aux Principes directeurs des Nations unies relatifs aux entreprises et aux droits humains ? Description détaillée :***

Oui, les Principes directeurs de l'OCDE à l'intention des entreprises multinationales et les Principes directeurs des Nations unies relatifs aux entreprises et aux droits humains sont intégrés à notre méthode de notation ESG. Notre outil de notation ESG exclusif évalue les émetteurs à l'aide des données disponibles auprès de nos fournisseurs de données. Par exemple, le modèle

dispose d'un critère dédié appelé « Implication dans la communauté et droits humains » qui s'applique à tous les secteurs en plus d'autres critères liés aux droits humains, y compris les chaînes d'approvisionnement socialement responsables, les conditions de travail et les relations de travail. En outre, nous effectuons un contrôle des controverses au moins une fois par trimestre, y compris sur les entreprises identifiées pour des violations des droits humains. En cas de controverse, les analystes évaluent la situation, lui donnent une note (à l'aide de notre méthode de notation exclusive) et déterminent la marche à suivre. Les notes de controverse sont mises à jour chaque trimestre pour suivre les tendances et les efforts de correction.

La Taxinomie de l'UE définit un principe consistant à « ne pas causer de préjudice important » (« Do not significant harm » ou DNSH) en vertu duquel les investissements alignés sur la Taxinomie ne doivent pas causer de préjudice important aux objectifs de la Taxinomie de l'UE et s'accompagnent de critères de l'UE spécifiques.

Le principe consistant à « ne pas causer de préjudice important » ne s'applique qu'aux investissements sous-jacents du produit financier qui tiennent compte des critères de l'UE pour les activités économiques durables sur le plan environnemental. Les investissements sous-jacents de la portion restante de ce produit financier ne tiennent pas compte des critères de l'UE en matière d'activités économiques durables sur le plan environnemental.

Tout autre investissement durable doit également se conformer au principe consistant à ne pas causer de préjudice important aux objectifs environnementaux ou sociaux.

Dans quelle mesure ce produit financier a-t-il pris en considération les principales incidences négatives sur les facteurs de durabilité ?

Le produit tient compte de toutes les Principales incidences négatives obligatoires en vertu de l'Annexe 1, Tableau 1 du Règlement délégué (UE) 2022/1288 applicables à la stratégie du produit et s'appuie sur une combinaison de politiques d'exclusion (normatives et sectorielles) et d'approches d'engagement et de vote :

- Exclusion : Amundi a défini des règles d'exclusion normatives, basées sur l'activité et les secteurs, qui couvrent certains des principaux indicateurs négatifs de durabilité énumérés par le Règlement Disclosure (sur la publication d'informations).
- Intégration des facteurs ESG : Amundi a adopté des normes d'intégration ESG minimales appliquées par défaut à ses fonds de type ouvert activement gérés (exclusion des émetteurs ayant la note G et meilleure note ESG moyenne pondérée supérieure à celle de l'indice de référence applicable). Les 38 critères employés dans la stratégie de notation ESG d'Amundi ont également été conçus pour tenir compte des principaux impacts sur les facteurs de durabilité, ainsi que de la qualité de la réduction entreprise en la matière.
- Engagement : L'engagement est un processus continu et ciblé qui vise à influencer les activités ou le comportement des sociétés bénéficiaires des investissements. L'objectif des activités d'engagement peut se diviser en deux catégories : impliquer un émetteur pour améliorer la manière dont il intègre la dimension environnementale et sociale ou impliquer un émetteur pour améliorer son impact sur les questions environnementales, sociales et liées aux droits humains ou d'autres questions de durabilité qui sont importantes pour la société au sens large et l'économie mondiale.
- Vote : La politique de vote d'Amundi répond à une analyse globale de toutes les questions à long terme qui peuvent influencer la création de valeur, y compris les questions ESG importantes. pour plus d'informations, veuillez consulter la Politique de vote d'Amundi.
- Surveillance des controverses : Amundi a développé un système de suivi des controverses qui s'appuie sur trois fournisseurs de données externes pour suivre systématiquement l'évolution des controverses et leur niveau de gravité. Cette approche quantitative est ensuite enrichie d'une évaluation approfondie de chaque controverse grave, menée par des analystes ESG, puis d'un examen périodique de son évolution. Cette approche s'applique à tous les fonds d'Amundi.

Pour de plus amples détails sur le mode de prise en compte des indicateurs relatifs aux Principales incidences négatives obligatoires, veuillez consulter la Déclaration sur la publication d'informations en matière de finance durable d'Amundi disponible sur www.amundi.com.

Quels étaient les principaux investissements de ce produit financier ?

La liste inclut les investissements qui constituent **la proportion la plus importante d'investissements** du produit financier au cours de la période de référence, à savoir : **du 01/07/2023 au 30/06/24**

Principaux investissements	Secteur	Sous-secteur	Pays	% des actifs
AMAZON.COM INC	Consommation discrétionnaire	Distribution et vente au détail de biens de consommation discrétionnaires	États-Unis	9.68%
ALPHABET INC CL C	Services de communication	Médias et loisirs	États-Unis	6.56%
MICROSOFT CORP	Technologies de l'information	Logiciels et services	États-Unis	6.48%
SAP SE / XETRA	Technologies de l'information	Logiciels et services	Allemagne	6.45%
ADOBE INC	Technologies de l'information	Logiciels et services	États-Unis	5.05%
AON PLC-CLASS A	Obligations financières	Assurance	Irlande	4.53%
MASTERCARD INC-CL A	Obligations financières	Services financiers	États-Unis	4.51%
ABBOTT LABORATORIES	Santé	Matériel et services de santé	États-Unis	4.35%
VISA INC-CLASS A SHARES	Obligations financières	Services financiers	États-Unis	4.33%
WORKDAY INC	Technologies de l'information	Logiciels et services	États-Unis	3.92%
ICON PLC	Santé	Pharmacie, biotechnologie et sciences de la vie	Irlande	3.85%
MSCI INC	Obligations financières	Services financiers	États-Unis	3.55%
NOVO NORDISK A/S-B	Santé	Pharmacie, biotechnologie et sciences de la vie	Danemark	3.49%
AUTOMATIC DATA PROCESSING	Industrie	Services commerciaux et professionnels	États-Unis	3.41%
SIEMENS HEALTHINEERS AG	Santé	Matériel et services de santé	Allemagne	2.98%

Quelle était la proportion d'investissements liés à la durabilité ?

Quelle était l'allocation d'actifs ?

L'allocation d'actifs décrit la part des investissements dans des actifs spécifiques.

La catégorie **N° 1 Alignés sur les caractéristiques E/S** inclut les investissements du produit financier utilisés pour atteindre les caractéristiques environnementales ou sociales promues par le produit financier.

La catégorie **N° 2 Autres** inclut les investissements restants du produit financier qui ne sont ni alignés sur les caractéristiques environnementales ou sociales ni considérés comme investissements durables.

La catégorie **N° 1 Alignés sur les caractéristiques E/S** comprend :

- la sous-catégorie **N° 1A Durables** couvrant les investissements durables sur le plan environnemental et social ;
- la sous-catégorie **N° 1B Autres caractéristiques E/S** couvrant les investissements alignés sur les caractéristiques environnementales ou sociales qui ne sont pas considérés comme des investissements durables.

● **Dans quels secteurs économiques ont été réalisés les investissements ?**

Secteur	Sous-secteur	% des actifs
Technologies de l'information	Logiciels et services	32.41%
Santé	Pharmacie, biotechnologie et sciences de la vie	13.79%
Obligations financières	Services financiers	12.39%
Consommation discrétionnaire	Distribution et vente au détail de biens de consommation discrétionnaires	9.68%
Santé	Matériel et services de santé	7.34%
Services de communication	Médias et loisirs	6.56%

Industrie	Services commerciaux et professionnels	5.38%
Obligations financières	Assurance	4.53%
Biens de consommation de base	Produits ménagers et personnels	2.78%
Consommation discrétionnaire	Services aux consommateurs	1.93%
Consommation discrétionnaire	Biens de consommation durables et habillement	0.94%
Forex	Forex	-0.33%
Liquidités	Liquidités	2.61%

Aux fins d'observer la taxinomie de l'UE, les critères relatifs au **gaz fossile** incluent des limites aux émissions et le passage à une énergie entièrement renouvelable ou à des combustibles à faible teneur en carbone d'ici fin 2035. Pour l'**énergie nucléaire**, les critères incluent des règles exhaustives de sécurité et de gestion des déchets.

Les activités habilitantes permettent directement à d'autres activités de contribuer de manière substantielle à la réalisation d'un objectif environnemental.

Les activités transitoires sont

Dans quelle mesure les investissements durables ayant un objectif environnemental étaient-ils alignés sur la Taxinomie de l'UE ?

Le fonds promeut des caractéristiques tant environnementales que sociales. Si le fonds ne s'est pas engagé à réaliser des investissements alignés sur la Taxinomie de l'UE, au cours de la période sous revue, il a cependant investi 0.00% dans des investissements durables alignés sur la Taxinomie de l'UE. De tels investissements ont contribué à l'obligation relative au changement climatique ou aux objectifs de réduction du changement climatique de la Taxinomie de l'UE.

● Le produit financier a-t-il investi dans des activités liées au gaz fossile et/ou à l'énergie nucléaire qui sont conformes à la Taxinomie de l'UE¹ ?

☐

Oui :

☐

Dans le gaz fossile

☐

Dans l'énergie nucléaire

☒

Non

Aucune donnée fiable concernant l'alignement sur les activités de gaz fossile et d'énergie nucléaire conformes à la Taxinomie de l'UE n'était disponible sur la période.

¹ Les activités liées au gaz fossile et/ou à l'énergie nucléaire ne seront conformes à la Taxinomie de l'UE que si elles contribuent à limiter le changement climatique (« réduction du changement climatique ») et ne causent pas de préjudice important à tout objectif de la Taxinomie de l'UE. L'intégralité des critères relatifs aux activités économiques liées au gaz fossile et à l'énergie nucléaire conformes à la Taxinomie de l'UE sont définis dans le Règlement délégué (UE) 2022/1214 de la Commission.

des activités pour lesquelles il n'existe pas encore de solution de remplacement sobre en carbone et, entre autres, dont les niveaux d'émission de gaz à effet de serre correspondent aux meilleures performances réalisables.

Les activités alignées sur la Taxinomie sont exprimées en pourcentage :

- **du chiffre d'affaires** pour refléter la part des revenus provenant des activités vertes des sociétés bénéficiaires d'investissements ;
- **des dépenses d'investissement (CapEx)** pour montrer les investissements verts réalisés par les sociétés bénéficiaires d'investissements, pour une transition vers une économie verte, par exemple ; et
- **des dépenses d'exploitation (OpEx)** pour refléter les activités opérationnelles vertes des sociétés bénéficiaires d'investissements.

Les graphiques ci-dessous font apparaître en vert le pourcentage d'investissements alignés sur la Taxinomie de l'UE. Étant donné qu'il n'existe pas de méthodologie appropriée pour déterminer l'alignement des obligations souveraines* sur la taxinomie, le premier graphique montre l'alignement sur la Taxinomie par rapport à tous les investissements du produit financier, y compris les obligations souveraines, tandis que le deuxième graphique représente l'alignement sur la Taxinomie uniquement par rapport aux investissements du produit financier autres que les obligations souveraines.

1. Alignement sur la Taxinomie des investissements y compris obligations souveraines*

■ Alignés sur la Taxinomie [pas de gaz ni de nucléaire]
■ Alignés sur la Taxinomie : nucléaire
■ Alignés sur la Taxinomie : gaz fossile
■ Non-alignés sur la Taxinomie

2. Alignement sur la Taxinomie des investissements hors obligations souveraines*

■ Alignés sur la Taxinomie [pas de gaz ni de nucléaire]
■ Alignés sur la Taxinomie : nucléaire
■ Alignés sur la Taxinomie : gaz fossile
■ Non-alignés sur la Taxinomie

* Aux fins de ces graphiques, les « obligations souveraines » comprennent toutes les expositions souveraines

● Quelle était la part d'investissements dans les activités transitoires et habilitantes ?

Au 30/06/2024, en utilisant le chiffre d'affaires et/ou les données d'utilisation des produits des obligations vertes comme indicateur, la part d'investissements du fonds dans les activités transitoires était de 0.00% et la part d'investissements dans les activités habilitantes était de 0.00%. Le pourcentage communiqué d'alignement des investissements du fonds sur la Taxinomie de l'UE n'a pas été audité par le réviseur d'entreprises agréé du fonds ni par aucun tiers.

● **Comment se situe le pourcentage d'investissements alignés sur la Taxinomie de l'UE par rapport aux périodes de référence antérieures ?**

À la fin de la période précédente, le pourcentage d'investissements alignés sur la taxinomie était de 0.00%.

sont des investissements durables ayant un objectif environnemental qui **ne tiennent pas compte des critères** en matière d'activités économiques durables sur le plan environnemental visés par le Règlement (UE) 2020/852.

Quelle était la part des investissements durables ayant un objectif environnemental qui n'étaient pas alignés sur la Taxinomie de l'UE ?

La part des investissements durables ayant un objectif environnemental et non alignés sur la taxinomie était de **41.34%** à la fin de la période.

Cela tient du fait que certains émetteurs sont considérés comme investissements durables en vertu du Règlement SFDR mais qu'une portion de leurs activités n'est pas alignée sur les standards de la taxinomie de l'UE, ou que les données correspondantes ne sont pas encore disponibles en vue d'une évaluation relative à la taxinomie de l'UE.

Quelle était la part d'investissements durables sur le plan social ?

La proportion des investissements durables sur le plan social était de 15.10% à la fin de la période.

Quels investissements étaient inclus dans la catégorie « Autres », quelle était leur finalité et existait-il des garanties environnementales ou sociales minimales ?

Sont inclus dans la catégorie « N° 2 Autres » les liquidités et autres instruments détenus aux fins de gestion de la liquidité et des risques du portefeuille. Pour les obligations et actions non notées, des garanties environnementales et sociales minimales ont été mises en place par le biais d'un filtrage des émetteurs en rapport aux activités controversées définies dans les principes du Pacte mondial des Nations unies. Elle peut également inclure des titres sans notation ESG pour lesquels les données nécessaires à la mesure de la réalisation des caractéristiques environnementales ou sociales ne sont pas disponibles.

Quelles mesures ont-elles été prises pour réaliser les caractéristiques environnementales et/ou sociales au cours de la période de référence ?

Des indicateurs de durabilité sont mis à disposition de manière continue dans le système de gestion du portefeuille pour permettre aux gestionnaires du portefeuille d'évaluer l'impact de leurs décisions d'investissement.

Ces indicateurs sont intégrés au cadre de contrôle d'AMUNDI, en répartissant les responsabilités entre le premier niveau de contrôles réalisés par les équipes Investissement elles-mêmes, et le second niveau de contrôles réalisé par les équipes Risque, qui surveillent la conformité aux caractéristiques environnementales ou sociales promues en permanence par le fonds.

En outre, la Politique d'investissement responsable d'AMUNDI définit une approche active en matière d'engagement qui promeut le dialogue avec les sociétés bénéficiaires des investissements, y compris celles qui sont incluses dans le portefeuille de ce produit. Notre Rapport annuel en matière d'engagement, disponible à la page <https://about.amundi.com/esg-documentation>, fournit des informations détaillées sur cet engagement et ses résultats.

Quelles ont été les performances de ce produit financier par rapport à l'indice de référence ?

Un indice de référence est un indice qui sert à mesurer si le produit financier réalise les caractéristiques environnementales et/ou sociales qu'il promeut.

Ce produit ne dispose pas d'un Indice de référence ESG.

- ***En quoi l'indice de référence diffère-t-il de l'indice du marché général ?***

Ce produit ne dispose pas d'un Indice de référence ESG.

- ***Quelles ont été les performances de ce produit financier par rapport aux indicateurs de durabilité pour déterminer l'alignement de l'indice de référence sur les caractéristiques environnementales ou sociales promues ?***

Ce produit ne dispose pas d'un Indice de référence ESG.

- ***Quelle a été la performance de ce produit financier par rapport à l'indice de référence ?***

Ce produit ne dispose pas d'un Indice de référence ESG.

- ***Quelle a été la performance de ce produit financier par rapport à l'indice de marché large ?***

Ce produit ne dispose pas d'un Indice de référence ESG.

Informations périodiques pour les produits financiers visés à l'Article 8, paragraphes 1, 2 et 2a, du Règlement (UE) 2019/2088 et à l'Article 6, premier paragraphe du Règlement (UE) 2020/852

Dénomination du produit : AMUNDI FUNDS NET
ZERO AMBITION TOP EUROPEAN PLAYERS

Identifiant d'entité juridique :
5493003EV6H1NSIIXJ13

Par investissement durable, on entend un investissement dans une activité économique qui contribue à un objectif environnemental ou social, pour autant qu'il ne cause de préjudice important à aucun de ces objectifs et que les sociétés détenues respectent les pratiques de bonne gouvernance.

La **Taxinomie de l'UE** est un système de classification institué par le Règlement (UE) 2020/852, qui dresse une liste d'**activités économiques durables sur le plan environnemental**. Ce règlement ne comprend pas de liste d'activités économiques durables sur le plan social. Les investissements durables ayant un objectif environnemental ne sont pas nécessairement alignés sur la taxinomie.

Caractéristiques environnementales et/ou sociales

Le produit financier avait-il un objectif d'investissement durable ?

Oui

X

Non

Il a réalisé **des investissements durables ayant un objectif environnemental** : _____

dans des activités économiques qui sont considérées comme durables sur le plan environnemental au titre de la Taxinomie de l'UE

dans des activités économiques qui ne sont pas considérées comme durables sur le plan environnemental au titre de la Taxinomie de l'UE

Il a réalisé **des investissements durables ayant un objectif social** : _____

Il a promu des **caractéristiques environnementales/sociales (E/S)** et, bien qu'il n'ait pas eu pour objectif l'investissement durable, il contenait une proportion d'investissements durables de **75.39%**

ayant un objectif environnemental dans des activités économiques qui sont considérées comme durables sur le plan environnemental au titre de la Taxinomie de l'UE

ayant un objectif environnemental dans des activités économiques qui ne sont pas considérées comme durables sur le plan environnemental au titre de la Taxinomie de l'UE

ayant un objectif social

Il a promu des caractéristiques E/S, mais **n'a pas réalisé d'investissements durables**

Dans quelle mesure les caractéristiques environnementales et/ou sociales promues par ce produit financier ont-elles été réalisées ?

Au cours de l'exercice financier, le produit n'a cessé de promouvoir les caractéristiques environnementales et/ou sociales en cherchant à atteindre une note ESG supérieure à celle de son univers d'investissement **MSCI EUROPE (15)**. Pour déterminer la note ESG du Produit et de l'univers d'investissement ESG, la performance ESG a été évaluée de manière continue en comparant la performance moyenne d'un titre par rapport au secteur de l'émetteur du titre, pour chacune des trois caractéristiques, à savoir environnementale, sociale et de gouvernance.

L'univers d'investissement est un univers de marché large qui n'évalue ni n'inclut pas de composantes en fonction de caractéristiques environnementales et/ou sociales, et qui n'a par conséquent pas pour vocation d'être conforme aux caractéristiques promues par le fonds.

Au cours de l'exercice financier, le produit n'a cessé de promouvoir les caractéristiques environnementales en alignant son intensité carbone sur celle de son indice de comparaison à cet effet, le **MSCI Europe Climate Paris Aligned Index (EUR)**.

Les indicateurs de durabilité évaluent la mesure dans laquelle les caractéristiques environnementales ou sociales promues par le produit financier sont atteintes.

● **Quelle performance ont affiché les indicateurs de durabilité ?**

Amundi a développé son propre processus de notation ESG interne, qui suit une approche « Best-in-class ». Les notations adaptées à chaque secteur d'activité ont pour objectif d'évaluer la dynamique dans laquelle interviennent les entreprises.

L'indicateur de durabilité employé est la note ESG du Produit mesurée en comparaison avec la note ESG de l'univers d'investissement ESG du Produit.

À la fin de la période :

- La note ESG moyenne pondérée du portefeuille est **1.347 (C)**.
- La note ESG moyenne pondérée de l'univers d'investissement ESG est **0.798 (C)**.

La notation ESG Amundi utilisée pour déterminer la note ESG est une note ESG quantitative qui se décline en sept niveaux allant de A (les meilleures notes de l'univers) à G (les pires notes). Sur l'échelle de notation ESG d'Amundi, les titres figurant sur la liste d'exclusion correspondent à G. Pour les entreprises émettrices, la performance ESG est évaluée de manière globale et au niveau des critères pertinents par comparaison avec la performance moyenne du secteur, en combinant les trois dimensions ESG :

- Dimension environnementale : cette dimension examine la capacité des émetteurs à contrôler leur impact environnemental direct et indirect, en limitant leur consommation d'énergie, en réduisant leurs émissions de gaz à effet de serre, en luttant contre l'appauvrissement des ressources et en protégeant la biodiversité.
- Dimension sociale : cette dimension évalue le fonctionnement d'un émetteur dans deux domaines différents, à savoir sa stratégie de développement du capital humain et le respect des droits humains en général.
- Dimension de gouvernance : cette dimension évalue la capacité de l'émetteur à garantir les fondements d'un cadre de gouvernance d'entreprise efficace et à générer de la valeur sur le long terme.

La méthodologie appliquée par la notation ESG d'Amundi utilise 38 critères qui sont soit génériques (communs à toutes les entreprises, indépendamment de leur activité) soit spécifiques au secteur, et qui sont pondérés en fonction du secteur et considérés en termes d'impact sur la réputation, l'efficacité opérationnelle et les réglementations concernant un émetteur. Les notations ESG d'Amundi sont susceptibles d'être exprimées de manière globale pour les trois dimensions E, S et G, ou individuellement pour tout facteur environnemental ou social.

L'indicateur de durabilité utilisé est l'intensité carbone du portefeuille, qui est calculée comme une moyenne pondérée des actifs du portefeuille et évaluée par rapport à l'intensité carbone pondérée des actifs de l'Indice de comparaison. Par conséquent, les titres présentant une intensité carbone relativement faible avaient une probabilité plus élevée d'être sélectionnés dans le portefeuille, comparés aux titres présentant une intensité carbone relativement élevée.

- L'intensité de l'empreinte carbone moyenne pondérée du portefeuille est **68.05**
- L'intensité carbone moyenne pondérée du MSCI Europe Climate Paris Aligned Index (EUR) est **77.24**

● **... et par rapport aux périodes antérieures ?**

À la fin de la période précédente, la note ESG moyenne pondérée du portefeuille était de 1.31 (C) et la note ESG moyenne pondérée de l'univers d'investissement ESG était de 0.80 (C). À la fin de la période précédente, l'intensité carbone moyenne pondérée du portefeuille était de 92.18 et l'intensité carbone moyenne pondérée de l'indice de référence était de 97.36¹.

● **Quels étaient les objectifs des investissements durables que le produit financier entendait partiellement réaliser, et comment l'investissement durable a-t-il contribué à ces objectifs ?**

Les objectifs des investissements durables sont d'investir dans des sociétés détenues qui cherchent à respecter deux critères :

1. suivre les bonnes pratiques environnementales et sociales ; et
2. éviter de fabriquer des produits ou de fournir des services qui nuisent à l'environnement et à la société.

Pour que la société bénéficiaire des investissements soit réputée contribuer à l'objectif susmentionné, elle doit figurer parmi les « meilleures performances » de son secteur d'activité pour au moins l'un de ses facteurs environnementaux ou sociaux importants.

La définition de « meilleures performances » repose sur la méthode ESG exclusive d'Amundi, dont l'objectif est de mesurer la performance ESG d'une société bénéficiaire des investissements. Pour être considérée comme l'une des « meilleures performances », une société bénéficiaire des investissements doit afficher l'une des trois premières notes (A, B ou C, sur une échelle de notation allant de A à G) dans son secteur pour au moins un facteur environnemental ou social important. Les facteurs environnementaux et sociaux sont identifiés à l'échelle des secteurs. L'identification des facteurs importants est basée sur le cadre d'analyse ESG d'Amundi qui combine des données extra-financières et une analyse qualitative du secteur associé et des questions de durabilité. Les facteurs identifiés comme importants représentent plus de 10 % de la note ESG globale. Par exemple pour le secteur de l'énergie, les facteurs importants sont les suivants : émissions et énergie, biodiversité et pollution, santé et sécurité, communautés locales et droits humains. Pour un aperçu plus complet des secteurs et des facteurs, veuillez consulter la Déclaration réglementaire ESG d'Amundi disponible sur www.amundi.lu

Pour contribuer aux objectifs ci-dessus, la société bénéficiaire des investissements ne doit pas avoir d'exposition significative aux activités (par ex. tabac, armes, jeux de hasard, charbon, aviation, production de viande, fabrication d'engrais et de pesticides, production de plastique à usage unique) incompatibles avec ces critères.

Le caractère durable d'un investissement est évalué au niveau de la société bénéficiaire des investissements.

● **Dans quelle mesure les investissements durables que le produit financier a partiellement réalisés n'ont-ils pas causé de préjudice important à un objectif d'investissement durable sur le plan environnemental ou social ?**

Pour s'assurer que les investissements durables ne causent pas de préjudice important (principe « Do no significant harm » ou « DNSH » en anglais), Amundi utilise deux filtres :

Le premier filtre de DNSH repose sur le contrôle des indicateurs obligatoires des Principales incidences négatives de l'Annexe 1, Tableau 1 des normes techniques réglementaires (RTS) lorsqu'il existe des données fiables (par ex. Intensité des GES des sociétés bénéficiaires des investissements) via une combinaison d'indicateurs (par ex. intensité carbone) et des seuils ou règles spécifiques (par ex. que l'intensité carbone de la société bénéficiaire des investissements n'appartient pas au dernier décile du secteur).

Dans sa politique d'exclusion qui fait partie intégrante de sa Politique d'investissement responsable, Amundi tient d'ores et déjà compte de Principales incidences négatives spécifiques. Ces exclusions, qui s'appliquent en sus des tests détaillés ci-dessus, couvrent les sujets suivants : exclusions sur les armes controversées, les violations des principes du Pacte mondial des Nations Unies, le charbon et le tabac.

Au-delà des facteurs de durabilité spécifiques couverts par le premier filtre, Amundi a défini un second filtre, qui ne tient pas compte des indicateurs obligatoires des Principales incidences négatives ci-dessus, afin de vérifier que la société n'affiche pas de mauvaises performances d'un point de vue environnemental ou social global par rapport aux autres entreprises de son secteur, ce qui correspond à un score environnemental ou social supérieur ou égal à E selon la notation ESG d'Amundi.

¹ Au cours de 2023, l'indice de référence a été remplacé par le MSCI Europe Climate Paris Aligned (EUR) et nous avons également publié à des fins de cohérence, l'intensité carbone de cet indice pour l'année antérieure.

Les principales incidences négatives correspondent aux incidences négatives les plus significatives des décisions d'investissement sur les facteurs de durabilité liés aux questions environnementales, sociales et de personnel, au respect des droits humains et à la lutte contre la corruption et les actes de corruption.

- **Comment les indicateurs concernant les incidences négatives sur les facteurs de durabilité ont-ils été pris en considération ?**

Les indicateurs d'incidences négatives ont été pris en compte comme détaillé dans le premier filtre DNSH ci-dessus.

Le premier filtre DNSH repose sur le contrôle des indicateurs obligatoires des Principales incidences négatives de l'Annexe 1, Tableau 1 du Règlement délégué (UE) 2022/1288 lorsqu'il existe des données fiables via la combinaison des indicateurs suivants et de seuils ou règles spécifiques :

- une intensité en CO2 qui n'appartient pas au dernier décile par rapport aux autres entreprises du secteur (ne s'applique qu'aux secteurs à forte intensité) ;
- un Conseil d'administration dont le niveau de diversité n'appartient pas au dernier décile par rapport aux autres sociétés du secteur ;
- ne pas faire l'objet de controverse relative aux conditions de travail et aux droits humains ; et
- ne pas faire l'objet de controverse relative à la biodiversité et à la pollution.

Dans sa politique d'exclusion qui fait partie intégrante de sa Politique d'investissement responsable, Amundi tient d'ores et déjà compte de Principales incidences négatives spécifiques. Ces exclusions, qui s'appliquent en sus des tests détaillés ci-dessus, couvrent les sujets suivants : exclusions sur les armes controversées, les violations des principes du Pacte mondial des Nations Unies, le charbon et le tabac.

- **Les investissements durables étaient-ils conformes aux Principes directeurs de l'OCDE à l'intention des entreprises multinationales et aux Principes directeurs des Nations unies relatifs aux entreprises et aux droits humains ? Description détaillée :**

Oui, les Principes directeurs de l'OCDE à l'intention des entreprises multinationales et les Principes directeurs des Nations unies relatifs aux entreprises et aux droits humains sont intégrés à notre méthode de notation ESG. Notre outil de notation ESG exclusif évalue les émetteurs à l'aide des données disponibles auprès de nos fournisseurs de données. Par exemple, le modèle dispose d'un critère dédié appelé « Implication dans la communauté et droits humains » qui s'applique à tous les secteurs en plus d'autres critères liés aux droits humains, y compris les chaînes d'approvisionnement socialement responsables, les conditions de travail et les relations de travail. En outre, nous effectuons un contrôle des controverses au moins une fois par trimestre, y compris sur les entreprises identifiées pour des violations des droits humains. En cas de controverse, les analystes évaluent la situation, lui donnent une note (à l'aide de notre méthode de notation exclusive) et déterminent la marche à suivre. Les notes de controverse sont mises à jour chaque trimestre pour suivre les tendances et les efforts de correction.

La Taxinomie de l'UE définit un principe consistant à « ne pas causer de préjudice important » (« Do not significant harm » ou DNSH) en vertu duquel les investissements alignés sur la Taxinomie ne doivent pas causer de préjudice important aux objectifs de la Taxinomie de l'UE et s'accompagnent de critères de l'UE spécifiques.

Le principe consistant à « ne pas causer de préjudice important » ne s'applique qu'aux investissements sous-jacents du produit financier qui tiennent compte des critères de l'UE pour les activités économiques durables sur le plan environnemental. Les investissements sous-jacents de la portion restante de ce produit financier ne tiennent pas compte des critères de l'UE en matière d'activités économiques durables sur le plan environnemental.

Tout autre investissement durable doit également se conformer au principe consistant à ne pas causer de préjudice important aux objectifs environnementaux ou sociaux.

Dans quelle mesure ce produit financier a-t-il pris en considération les principales incidences négatives sur les facteurs de durabilité ?

Le produit tient compte de toutes les Principales incidences négatives obligatoires en vertu de l'Annexe 1, Tableau 1 du Règlement délégué (UE) 2022/1288 applicables à la stratégie du produit et s'appuie sur une combinaison de politiques d'exclusion (normatives et sectorielles) et d'approches d'engagement et de vote :

- **Exclusion** : Amundi a défini des règles d'exclusion normatives, basées sur l'activité et les secteurs, qui couvrent certains des principaux indicateurs négatifs de durabilité énumérés par le Règlement Disclosure (sur la publication d'informations).
- **Intégration des facteurs ESG** : Amundi a adopté des normes d'intégration ESG minimales appliquées par défaut à ses fonds de type ouvert activement gérés (exclusion des émetteurs ayant la note G et meilleure note ESG moyenne pondérée supérieure à celle de l'indice de référence applicable). Les 38 critères employés dans la stratégie de notation ESG d'Amundi ont également été conçus pour tenir compte des principaux impacts sur les facteurs de durabilité, ainsi que de la qualité de la réduction entreprise en la matière.
- **Engagement** : L'engagement est un processus continu et ciblé qui vise à influencer les activités ou le comportement des sociétés bénéficiaires des investissements. L'objectif des activités d'engagement peut se diviser en deux catégories : impliquer un émetteur pour améliorer la manière dont il intègre la dimension environnementale et sociale ou impliquer un émetteur pour améliorer son impact sur les questions environnementales, sociales et liées aux droits humains ou d'autres questions de durabilité qui sont importantes pour la société au sens large et l'économie mondiale.
- **Vote** : La politique de vote d'Amundi répond à une analyse globale de toutes les questions à long terme qui peuvent influencer la création de valeur, y compris les questions ESG importantes. pour plus d'informations, veuillez consulter la Politique de vote d'Amundi.
- **Surveillance des controverses** : Amundi a développé un système de suivi des controverses qui s'appuie sur trois fournisseurs de données externes pour suivre systématiquement l'évolution des controverses et leur niveau de gravité. Cette approche quantitative est ensuite enrichie d'une évaluation approfondie de chaque controverse grave, menée par des analystes ESG, puis d'un examen périodique de son évolution. Cette approche s'applique à tous les fonds d'Amundi.

Pour de plus amples détails sur le mode de prise en compte des indicateurs relatifs aux Principales incidences négatives obligatoires, veuillez consulter la Déclaration sur la publication d'informations en matière de finance durable d'Amundi disponible sur www.amundi.com.

Quels étaient les principaux investissements de ce produit financier ?

La liste inclut les investissements qui constituent **la proportion la plus importante d'investissements** du produit financier au cours de la période de référence, à savoir : **du 01/07/2023 au 30/06/2024**

Principaux investissements	Secteur	Sous-secteur	Pays	% des actifs
NOVO NORDISK A/S-B	Santé	Pharmacie, biotechnologie et sciences de la vie	Danemark	5.67%
ASTRAZENECA GBP	Santé	Pharmacie, biotechnologie et sciences de la vie	Royaume-Uni	4.28%
RELX PLC	Industrie	Services commerciaux et professionnels	Royaume-Uni	3.97%
DEUTSCHE BOERSE AG	Obligations financières	Services financiers	Allemagne	3.84%
SCHNEIDER ELECT SE	Industrie	Biens d'équipement	France	3.84%
ALLIANZ SE-REG	Obligations financières	Assurance	Allemagne	3.69%
SIEMENS AG-REG	Industrie	Biens d'équipement	Allemagne	3.60%

L OREAL (PARIS)	Biens de consommation de base	Produits ménagers et personnels	France	3.54%
SANOFI	Santé	Pharmacie, biotechnologie et sciences de la vie	France	3.54%
INDUSTRIA DE DISENO TEXTIL	Consommation discrétionnaire	Distribution et vente au détail de biens de consommation discrétionnaires	Espagne	3.50%
KBC GROUP NV	Obligations financières	Banques	Belgique	3.25%
ASML HOLDING NV	Technologies de l'information	Semi-conducteurs et équipement pour semi-conducteurs	Pays-Bas	3.24%
PUBLICIS GROUPE SA	Services de communication	Médias et loisirs	France	3.20%
CIE FINANCIERE RICHEMO-A REG	Consommation discrétionnaire	Biens de consommation durables et habillement	Suisse	2.86%
BUREAU VERITAS	Industrie	Services commerciaux et professionnels	France	2.69%

Quelle était la proportion d'investissements liés à la durabilité ?

● Quelle était l'allocation d'actifs ?

L'allocation d'actifs décrit la part des investissements dans des actifs spécifiques.

La catégorie **N° 1 Alignés sur les caractéristiques E/S** inclut les investissements du produit financier utilisés pour atteindre les caractéristiques environnementales ou sociales promues par le produit financier.

La catégorie **N° 2 Autres** inclut les investissements restants du produit financier qui ne sont ni alignés sur les caractéristiques environnementales ou sociales ni considérés comme investissements durables.

La catégorie **N° 1 Alignés sur les caractéristiques E/S** comprend :

- la sous-catégorie **N° 1A Durables** couvrant les investissements durables sur le plan environnemental et social ;
- la sous-catégorie **N° 1B Autres caractéristiques E/S** couvrant les investissements alignés sur les caractéristiques environnementales ou sociales qui ne sont pas considérés comme des investissements durables.

● **Dans quels secteurs économiques ont été réalisés les investissements ?**

Secteur	Sous-secteur	% des actifs
<i>Santé</i>	<i>Pharmacie, biotechnologie et sciences de la vie</i>	15.41%
<i>Industrie</i>	<i>Biens d'équipement</i>	14.29%

Aux fins d'observer la taxinomie de l'UE, les critères relatifs au **gaz fossile** incluent des limites aux émissions et le passage à une énergie entièrement renouvelable ou à des combustibles à faible teneur en carbone d'ici fin 2035. Pour l'**énergie nucléaire**, les critères incluent des règles exhaustives de sécurité et de gestion des déchets.

Les activités habilitantes permettent directement à d'autres activités de contribuer de

Dans quelle mesure les investissements durables ayant un objectif environnemental étaient-ils alignés sur la Taxinomie de l'UE ?

Le fonds promeut des caractéristiques tant environnementales que sociales. Si le fonds ne s'est pas engagé à réaliser des investissements alignés sur la Taxinomie de l'UE, au cours de la période sous revue, il a cependant investi 1.09% dans des investissements durables alignés sur la Taxinomie de l'UE. De tels investissements ont contribué à l'obligation relative au changement climatique ou aux objectifs de réduction du changement climatique de la Taxinomie de l'UE.

L'alignement des sociétés bénéficiaires des investissements sur les objectifs de la taxinomie de l'UE susmentionnés est évalué à l'aide du chiffre d'affaires (ou des revenus) et/ou des données d'utilisation des produits des obligations vertes.

Le pourcentage communiqué d'alignement des investissements du fonds sur la Taxinomie de l'UE n'a pas été audité par le réviseur d'entreprises agréé du fonds ni par aucun tiers.

- **Le produit financier a-t-il investi dans des activités liées au gaz fossile et/ou à l'énergie nucléaire qui sont conformes à la Taxinomie de l'UE¹ ?**

manière substantielle à la réalisation d'un objectif environnemental.

Les activités transitoires sont des activités pour lesquelles il n'existe pas encore de solution de remplacement sobre en carbone et, entre autres, dont les niveaux d'émission de gaz à effet de serre correspondent aux meilleures performances réalisables.

Les activités alignées sur la taxinomie sont exprimées en pourcentage :

- **du chiffre d'affaires** pour refléter la part des revenus provenant des activités vertes des sociétés bénéficiaires d'investissements ;
- **des dépenses d'investissement (CapEx)** pour montrer les investissements verts réalisés par les sociétés bénéficiaires d'investissements, pour une transition vers une économie verte, par exemple ; et
- **des dépenses d'exploitation (OpEx)** pour refléter les activités opérationnelles vertes des sociétés bénéficiaires d'investissements.

☐ Oui :

☐ Dans le gaz fossile ☐ Dans l'énergie nucléaire

☒ Non

Aucune donnée fiable concernant l'alignement sur les activités de gaz fossile et d'énergie nucléaire conformes à la Taxinomie de l'UE n'était disponible sur la période.

¹ Les activités liées au gaz fossile et/ou à l'énergie nucléaire ne seront conformes à la Taxinomie de l'UE que si elles contribuent à limiter le changement climatique (« réduction du changement climatique ») et ne causent pas de préjudice important à tout objectif de la Taxinomie de l'UE. L'intégralité des critères relatifs aux activités économiques liées au gaz fossile et à l'énergie nucléaire conformes à la Taxinomie de l'UE sont définis dans le Règlement délégué (UE) 2022/1214 de la Commission.

Les graphiques ci-dessous font apparaître en vert le pourcentage d'investissements alignés sur la Taxinomie de l'UE. Étant donné qu'il n'existe pas de méthodologie appropriée pour déterminer l'alignement des obligations souveraines* sur la taxinomie, le premier graphique montre l'alignement sur la Taxinomie par rapport à tous les investissements du produit financier, y compris les obligations souveraines, tandis que le deuxième graphique représente l'alignement sur la Taxinomie uniquement par rapport aux investissements du produit financier autres que les obligations souveraines.

* Aux fins de ces graphiques, les « obligations souveraines » comprennent toutes les expositions souveraines

● Quelle était la part d'investissements dans les activités transitoires et habilitantes ?

Au 30/06/2024, en utilisant le chiffre d'affaires et/ou les données d'utilisation des produits des obligations vertes comme indicateur, la part d'investissements du fonds dans les activités transitoires était de 0.01% et la part d'investissements dans les activités habilitantes était de 1.33%. Le pourcentage communiqué d'alignement des investissements du fonds sur la Taxinomie de l'UE n'a pas été audité par le réviseur d'entreprises agréé du fonds ni par aucun tiers.

● Comment se situe le pourcentage d'investissements alignés sur la Taxinomie de l'UE par rapport aux périodes de référence antérieures ?

À la fin de la période précédente, le pourcentage d'investissements alignés sur la taxinomie était de 11.27%.

sont des investissements durables ayant un objectif environnemental qui **ne tiennent pas compte des critères** en matière d'activités économiques durables sur le plan environnemental visés par le Règlement (UE) 2020/852.

Quelle était la part des investissements durables ayant un objectif environnemental qui n'étaient pas alignés sur la Taxinomie de l'UE ?

La part des investissements durables ayant un objectif environnemental et non alignés sur la taxinomie était de **56.37%** à la fin de la période.

Cela tient du fait que certains émetteurs sont considérés comme investissements durables en vertu du Règlement SFDR mais qu'une portion de leurs activités n'est pas alignée sur les standards de la taxinomie de l'UE, ou que les données correspondantes ne sont pas encore disponibles en vue d'une évaluation relative à la taxinomie de l'UE.

Quelle était la part d'investissements durables sur le plan social ?

La proportion des investissements durables sur le plan social était de 17.93% à la fin de la période.

Quels investissements étaient inclus dans la catégorie « Autres », quelle était leur finalité et existait-il des garanties environnementales ou sociales minimales ?

Sont inclus dans la catégorie « N° 2 Autres » les liquidités et autres instruments détenus aux fins de gestion de la liquidité et des risques du portefeuille. Pour les obligations et actions non notées, des garanties environnementales et sociales minimales ont été mises en place par le biais d'un filtrage des émetteurs en rapport aux activités controversées définies dans les principes du Pacte mondial des Nations unies. Elle peut également inclure des titres sans notation ESG pour lesquels les données nécessaires à la mesure de la réalisation des caractéristiques environnementales ou sociales ne sont pas disponibles.

Quelles mesures ont-elles été prises pour réaliser les caractéristiques environnementales et/ou sociales au cours de la période de référence ?

Des indicateurs de durabilité sont mis à disposition de manière continue dans le système de gestion du portefeuille pour permettre aux gestionnaires du portefeuille d'évaluer l'impact de leurs décisions d'investissement.

Ces indicateurs sont intégrés au cadre de contrôle d'AMUNDI, en répartissant les responsabilités entre le premier niveau de contrôles réalisés par les équipes Investissement elles-mêmes, et le second niveau de contrôles réalisé par les équipes Risque, qui surveillent la conformité aux caractéristiques environnementales ou sociales promues en permanence par le fonds.

En outre, la Politique d'investissement responsable d'AMUNDI définit une approche active en matière d'engagement qui promeut le dialogue avec les sociétés bénéficiaires des investissements, y compris celles qui sont incluses dans le portefeuille de ce produit. Notre Rapport annuel en matière d'engagement, disponible à la page <https://about.amundi.com/esg-documentation>, fournit des informations détaillées sur cet engagement et ses résultats.

Quelles ont été les performances de ce produit financier par rapport à l'indice de référence ?

L'objectif d'investissement durable est atteint en alignant les objectifs de réduction de l'empreinte carbone du fonds sur l'indice MSCI Emerging Markets Climate Paris Aligned Index. L'intensité de l'empreinte carbone du portefeuille est calculée comme une moyenne pondérée des actifs du portefeuille et comparée à l'intensité de l'empreinte carbone pondérée des actifs de l'Indice.

Par conséquent, les titres présentant une empreinte environnementale relativement faible ont une probabilité plus élevée d'être sélectionnés dans le portefeuille, comparés aux titres présentant une

Un indice de référence est un indice qui sert à mesurer si le produit financier réalise les

caractéristiques
environnementales
et/ou sociales qu'il
promeut.

empreinte environnementale relativement élevée. De plus, le fonds exclut les entreprises sur la base d'un comportement controversé et/ou de produits controversés, conformément à la Politique d'investissement responsable.

- L'intensité de l'empreinte carbone moyenne pondérée du portefeuille est 68.05
- L'intensité de l'empreinte carbone moyenne pondérée du MSCI Europe Climate Paris Aligned Index (EUR) est 77.24

● ***En quoi l'indice de référence diffère-t-il de l'indice de marché large ?***

Un indice de marché large n'évalue pas ses composantes en fonction de caractéristiques environnementales et ne les inclut pas en vertu de telles caractéristiques. Par conséquent, il ne s'aligne pas sur les caractéristiques environnementales.

L'indice utilisé est un indice de référence aligné sur Paris (« Paris Aligned ») qui comporte des objectifs spécifiques liés à la réduction des émissions et à la transition vers une économie sobre en carbone à travers la sélection et la pondération de composantes sous-jacentes.

● ***Quelles ont été les performances de ce produit financier par rapport aux indicateurs de durabilité pour déterminer l'alignement de l'indice de référence sur les caractéristiques environnementales ou sociales promues ?***

- La note ESG moyenne pondérée du portefeuille est 1.347 (C).
- La note ESG moyenne pondérée de l'univers d'investissement ESG est 0.798 (C).
- L'intensité de l'empreinte carbone moyenne pondérée du portefeuille est 68.05
- L'intensité de l'empreinte carbone moyenne pondérée du MSCI Europe Climate Paris Aligned Index (EUR) est 77.24

● ***Quelle a été la performance de ce produit financier par rapport à l'indice de référence ?***

L'objectif d'investissement durable est atteint en alignant les objectifs de réduction de l'empreinte carbone du fonds sur l'indice MSCI Emerging Markets Climate Paris Aligned Index. L'intensité de l'empreinte carbone du portefeuille est calculée comme une moyenne pondérée des actifs du portefeuille et comparée à l'intensité de l'empreinte carbone pondérée des actifs de l'Indice.

Par conséquent, les titres présentant une empreinte environnementale relativement faible ont une probabilité plus élevée d'être sélectionnés dans le portefeuille, comparés aux titres présentant une empreinte environnementale relativement élevée. De plus, le fonds exclut les entreprises sur la base d'un comportement controversé et/ou de produits controversés, conformément à la Politique d'investissement responsable.

- L'intensité de l'empreinte carbone moyenne pondérée du portefeuille est 68.05
- L'intensité de l'empreinte carbone moyenne pondérée du MSCI Europe Climate Paris Aligned Index (EUR) est 77.24

● ***Quelle a été la performance de ce produit financier par rapport à l'indice de marché large ?***

Un indice de marché large n'évalue pas ses composantes en fonction de caractéristiques environnementales et ne les inclut pas en vertu de telles caractéristiques. Par conséquent, il ne s'aligne pas sur les caractéristiques environnementales.

L'indice utilisé est un indice de référence aligné sur Paris (« Paris Aligned ») qui comporte des objectifs spécifiques liés à la réduction des émissions et à la transition vers une économie sobre en carbone à travers la sélection et la pondération de composantes sous-jacentes.

Informations périodiques pour les produits financiers visés à l'Article 8, paragraphes 1, 2 et 2a, du Règlement (UE) 2019/2088 et à l'Article 6, premier paragraphe du Règlement (UE) 2020/852

Dénomination du produit : AMUNDI FUNDS
US PIONEER FUND

Identifiant d'entité juridique :
54930046EO6XR0RZBB11

Par investissement durable, on entend un investissement dans une activité économique qui contribue à un objectif environnemental ou social, pour autant qu'il ne cause de préjudice important à aucun de ces objectifs et que les sociétés détenues respectent les pratiques de bonne gouvernance.

La **Taxinomie de l'UE** est un système de classification institué par le Règlement (UE) 2020/852, qui dresse une liste d'**activités économiques durables sur le plan environnemental**. Ce règlement ne comprend pas de liste d'activités économiques durables sur le plan social. Les investissements durables ayant un objectif environnemental ne sont pas nécessairement alignés sur la taxinomie.

Caractéristiques environnementales et/ou sociales

Le produit financier avait-il un objectif d'investissement durable ?

Oui

X

Non

Il a réalisé **des investissements durables ayant un objectif environnemental** : _____

dans des activités économiques qui sont considérées comme durables sur le plan environnemental au titre de la Taxinomie de l'UE

dans des activités économiques qui ne sont pas considérées comme durables sur le plan environnemental au titre de la Taxinomie de l'UE

Il a réalisé **des investissements durables ayant un objectif social** : _____

Il a promu des caractéristiques **environnementales/sociales (E/S)** et, bien qu'il n'ait pas eu pour objectif l'investissement durable, il contenait une proportion d'investissements durables de **31.87%**

ayant un objectif environnemental dans des activités économiques qui sont considérées comme durables sur le plan environnemental au titre de la Taxinomie de l'UE

ayant un objectif environnemental dans des activités économiques qui ne sont pas considérées comme durables sur le plan environnemental au titre de la Taxinomie de l'UE

ayant un objectif social

Il a promu des caractéristiques E/S, mais **n'a pas réalisé d'investissements durables**

Dans quelle mesure les caractéristiques environnementales et/ou sociales promues par ce produit financier ont-elles été réalisées ?

Au cours de l'exercice financier, le produit n'a cessé de promouvoir les caractéristiques environnementales et/ou sociales en cherchant à atteindre une note ESG supérieure à celle de son univers d'investissement **S&P 500**. Pour déterminer la note ESG du Produit et de l'univers d'investissement ESG, la performance ESG a été évaluée de manière continue en comparant la performance moyenne d'un titre par rapport au secteur de l'émetteur du titre, pour chacune des trois caractéristiques, à savoir environnementale, sociale et de gouvernance.

L'univers d'investissement est un univers du marché général qui n'évalue ni n'inclut pas de composantes en fonction de caractéristiques environnementales et/ou sociales, et qui n'a par conséquent pas pour vocation d'être conforme aux caractéristiques promues par le fonds. Aucun indice de référence ESG n'a été désigné.

Les indicateurs de durabilité évaluent la mesure dans laquelle les caractéristiques environnementales ou sociales promues par le produit financier sont atteintes.

● **Quelle a été la performance des indicateurs de durabilité ?**

Amundi a développé son propre processus de notation ESG interne, qui suit une approche « Best-in-class ». Les notations adaptées à chaque secteur d'activité ont pour objectif d'évaluer la dynamique dans laquelle interviennent les entreprises.

L'indicateur de durabilité employé est la note ESG du Produit mesurée en comparaison avec la note ESG de l'univers d'investissement ESG du Produit.

À la fin de la période :

- La note ESG moyenne pondérée du portefeuille est **-0.258 (D)**.
- La note ESG moyenne pondérée de l'univers d'investissement ESG est **-0.433 (D)**.

La notation ESG Amundi utilisée pour déterminer la note ESG est une note ESG quantitative qui se décline en sept niveaux allant de A (les meilleures notes de l'univers) à G (les pires notes). Sur l'échelle de notation ESG d'Amundi, les titres figurant sur la liste d'exclusion correspondent à G. Pour les entreprises émettrices, la performance ESG est évaluée de manière globale et au niveau des critères pertinents par comparaison avec la performance moyenne du secteur, en combinant les trois dimensions ESG :

- Dimension environnementale : cette dimension examine la capacité des émetteurs à contrôler leur impact environnemental direct et indirect, en limitant leur consommation d'énergie, en réduisant leurs émissions de gaz à effet de serre, en luttant contre l'appauvrissement des ressources et en protégeant la biodiversité.
- Dimension sociale : cette dimension évalue le fonctionnement d'un émetteur dans deux domaines différents, à savoir sa stratégie de développement du capital humain et le respect des droits humains en général.
- Dimension de gouvernance : cette dimension évalue la capacité de l'émetteur à garantir les fondements d'un cadre de gouvernance d'entreprise efficace et à générer de la valeur sur le long terme.

La méthodologie appliquée par la notation ESG d'Amundi utilise 38 critères qui sont soit génériques (communs à toutes les entreprises, indépendamment de leur activité) soit spécifiques au secteur, et qui sont pondérés en fonction du secteur et considérés en termes d'impact sur la réputation, l'efficacité opérationnelle et les réglementations concernant un émetteur. Les notations ESG d'Amundi sont susceptibles d'être exprimées de manière globale pour les trois dimensions E, S et G, ou individuellement pour tout facteur environnemental ou social.

● **... et par rapport aux périodes précédentes ?**

À la fin de la période précédente, la note ESG moyenne pondérée du portefeuille était de -0.255 (D) et la note ESG moyenne pondérée de l'univers d'investissement ESG était de -0.433 (D).

● **Quels étaient les objectifs des investissements durables que le produit financier entendait partiellement réaliser, et comment l'investissement durable a-t-il contribué à ces objectifs ?**

Les objectifs des investissements durables sont d'investir dans des sociétés détenues qui cherchent à respecter deux critères :

1. suivre les bonnes pratiques environnementales et sociales ; et
2. éviter de fabriquer des produits ou de fournir des services qui nuisent à l'environnement et à la société.

Pour que la société bénéficiaire d'investissements soit réputée contribuer à l'objectif susmentionné, elle doit figurer parmi les « meilleures performances » de son secteur d'activité pour au moins l'un de ses facteurs environnementaux ou sociaux importants.

La définition de « meilleures performances » repose sur la méthode ESG exclusive d'Amundi, dont l'objectif est de mesurer la performance ESG d'une société bénéficiaire d'investissements. Pour être considérée comme l'une des « meilleures performances », une société bénéficiaire d'investissements doit afficher l'une des trois premières notes (A, B ou C, sur une échelle de notation allant de A à G) dans son secteur pour au moins un facteur environnemental ou social important. Les facteurs environnementaux et sociaux sont identifiés à l'échelle des secteurs. L'identification des facteurs importants est basée sur le cadre d'analyse ESG d'Amundi qui combine des données extra-financières et une analyse qualitative du secteur associé et des questions de durabilité. Les facteurs identifiés comme importants représentent plus de 10 % de la note ESG globale. Par exemple pour le secteur de

l'énergie, les facteurs importants sont les suivants : émissions et énergie, biodiversité et pollution, santé et sécurité, communautés locales et droits humains. Pour un aperçu plus complet des secteurs et des facteurs, veuillez consulter la Déclaration réglementaire ESG d'Amundi disponible sur www.amundi.lu

Pour contribuer aux objectifs ci-dessus, la société bénéficiaire d'investissements ne doit pas avoir d'exposition significative aux activités (par ex. tabac, armes, jeux de hasard, charbon, aviation, production de viande, fabrication d'engrais et de pesticides, production de plastique à usage unique) incompatibles avec ces critères.

Le caractère durable d'un investissement est évalué au niveau de la société bénéficiaire d'investissements.

Les principales incidences négatives correspondent aux incidences négatives les plus significatives des décisions d'investissement sur les facteurs de durabilité liés aux questions environnementales, sociales et de personnel, au respect des droits humains et à la lutte contre la corruption et les actes de corruption.

● ***Dans quelle mesure les investissements durables que le produit financier a partiellement réalisés n'ont-ils pas causé de préjudice important à un objectif d'investissement durable sur le plan environnemental ou social ?***

Pour s'assurer que les investissements durables ne causent pas de préjudice important (principe « Do no significant harm » ou « DNSH » en anglais), Amundi utilise deux filtres :

Le premier filtre de DNSH repose sur le contrôle des indicateurs obligatoires des Principales incidences négatives de l'Annexe 1, Tableau 1 des normes techniques réglementaires (RTS) lorsqu'il existe des données fiables (par ex. Intensité des GES des sociétés bénéficiaires d'investissements) via une combinaison d'indicateurs (par ex. intensité carbone) et des seuils ou règles spécifiques (par ex. que l'intensité carbone de la société bénéficiaire d'investissements n'appartient pas au dernier décile du secteur).

Dans sa politique d'exclusion qui fait partie intégrante de sa Politique d'investissement responsable, Amundi tient d'ores et déjà compte de Principales incidences négatives spécifiques. Ces exclusions, qui s'appliquent en sus des tests détaillés ci-dessus, couvrent les sujets suivants : exclusions sur les armes controversées, les violations des principes du Pacte mondial des Nations Unies, le charbon et le tabac.

Au-delà des facteurs de durabilité spécifiques couverts par le premier filtre, Amundi a défini un second filtre, qui ne tient pas compte des indicateurs obligatoires des Principales incidences négatives ci-dessus, afin de vérifier que la société n'affiche pas de mauvaises performances d'un point de vue environnemental ou social global par rapport aux autres entreprises de son secteur, ce qui correspond à un score environnemental ou social supérieur ou égal à E selon la notation ESG d'Amundi.

- ***Comment les indicateurs concernant les incidences négatives sur les facteurs de durabilité ont-ils été pris en considération ?***

Les indicateurs d'incidences négatives ont été pris en compte comme détaillé dans le premier filtre DNSH ci-dessus.

Le premier filtre DNSH repose sur le contrôle des indicateurs obligatoires des Principales incidences négatives de l'Annexe 1, Tableau 1 du Règlement délégué (UE) 2022/1288 lorsqu'il existe des données fiables via la combinaison des indicateurs suivants et de seuils ou règles spécifiques :

- une intensité en CO2 qui n'appartient pas au dernier décile par rapport aux autres entreprises du secteur (ne s'applique qu'aux secteurs à forte intensité) ;
- un Conseil d'administration dont le niveau de diversité n'appartient pas au dernier décile par rapport aux autres sociétés du secteur ;
- ne pas faire l'objet de controverse relative aux conditions de travail et aux droits humains ; et
- ne pas faire l'objet de controverse relative à la biodiversité et à la pollution.

Dans sa politique d'exclusion qui fait partie intégrante de sa Politique d'investissement responsable, Amundi tient d'ores et déjà compte de Principales incidences négatives spécifiques. Ces exclusions, qui s'appliquent en sus des tests détaillés ci-dessus, couvrent les sujets suivants : exclusions sur les armes controversées, les violations des principes du Pacte mondial des Nations Unies, le charbon et le tabac.

- ***Les investissements durables étaient-ils conformes aux Principes directeurs de l'OCDE à l'intention des entreprises multinationales et aux Principes directeurs des Nations unies relatifs aux entreprises et aux droits humains ? Description détaillée :***

Oui, les Principes directeurs de l'OCDE à l'intention des entreprises multinationales et les Principes directeurs des Nations unies relatifs aux entreprises et aux droits humains sont

intégrés à notre méthode de notation ESG. Notre outil de notation ESG exclusif évalue les émetteurs à l'aide des données disponibles auprès de nos fournisseurs de données. Par exemple, le modèle dispose d'un critère dédié appelé « Implication dans la communauté et droits humains » qui s'applique à tous les secteurs en plus d'autres critères liés aux droits humains, y compris les chaînes d'approvisionnement socialement responsables, les conditions de travail et les relations de travail. En outre, nous effectuons un contrôle des controverses au moins une fois par trimestre, y compris sur les entreprises identifiées pour des violations des droits humains. En cas de controverse, les analystes évaluent la situation, lui donnent une note (à l'aide de notre méthode de notation exclusive) et déterminent la marche à suivre. Les notes de controverse sont mises à jour chaque trimestre pour suivre les tendances et les efforts de correction.

La Taxinomie de l'UE définit un principe consistant à « ne pas causer de préjudice important » (« Do not significant harm » ou DNSH) en vertu duquel les investissements alignés sur la Taxinomie ne doivent pas causer de préjudice important aux objectifs de la Taxinomie de l'UE et s'accompagnent de critères de l'UE spécifiques.

Le principe consistant à « ne pas causer de préjudice important » ne s'applique qu'aux investissements sous-jacents du produit financier qui tiennent compte des critères de l'UE pour les activités économiques durables sur le plan environnemental. Les investissements sous-jacents de la portion restante de ce produit financier ne tiennent pas compte des critères de l'UE en matière d'activités économiques durables sur le plan environnemental.

Tout autre investissement durable doit également se conformer au principe consistant à ne pas causer de préjudice important aux objectifs environnementaux ou sociaux.

Dans quelle mesure ce produit financier a-t-il pris en considération les principales incidences négatives sur les facteurs de durabilité ?

Le produit tient compte de toutes les Principales incidences négatives obligatoires en vertu de l'Annexe 1, Tableau 1 du Règlement délégué (UE) 2022/1288 applicables à la stratégie du produit et s'appuie sur une combinaison de politiques d'exclusion (normatives et sectorielles) et d'approches d'engagement et de vote :

- Exclusion : Amundi a défini des règles d'exclusion normatives, basées sur l'activité et les secteurs, qui couvrent certains des principaux indicateurs négatifs de durabilité énumérés par le Règlement Disclosure (sur la publication d'informations).
- Intégration des facteurs ESG : Amundi a adopté des normes d'intégration ESG minimales appliquées par défaut à ses fonds de type ouvert activement gérés (exclusion des émetteurs ayant la note G et meilleure note ESG moyenne pondérée supérieure à celle de l'indice de référence applicable). Les 38 critères employés dans la stratégie de notation ESG d'Amundi ont également été conçus pour tenir compte des principaux impacts sur les facteurs de durabilité, ainsi que de la qualité de la réduction entreprise en la matière.
- Engagement : L'engagement est un processus continu et ciblé qui vise à influencer les activités ou le comportement des sociétés bénéficiaires d'investissements. L'objectif des activités d'engagement peut se diviser en deux catégories : impliquer un émetteur pour améliorer la manière dont il intègre la dimension environnementale et sociale ou impliquer un émetteur pour améliorer son impact sur les questions environnementales, sociales et liées aux droits humains ou d'autres questions de durabilité qui sont importantes pour la société au sens large et l'économie mondiale.
- Vote : La politique de vote d'Amundi répond à une analyse globale de toutes les questions à long terme qui peuvent influencer la création de valeur, y compris les questions ESG importantes. pour plus d'informations, veuillez consulter la Politique de vote d'Amundi.
- Surveillance des controverses : Amundi a développé un système de suivi des controverses qui s'appuie sur trois fournisseurs de données externes pour suivre systématiquement l'évolution des controverses et leur niveau de gravité. Cette approche quantitative est

ensuite enrichie d'une évaluation approfondie de chaque controverse grave, menée par des analystes ESG, puis d'un examen périodique de son évolution. Cette approche s'applique à tous les fonds d'Amundi.

Pour de plus amples détails sur le mode de prise en compte des indicateurs relatifs aux Principales incidences négatives obligatoires, veuillez consulter la Déclaration sur la publication d'informations en matière de finance durable d'Amundi disponible sur www.amundi.com.

Quels étaient les principaux investissements de ce produit financier ?

La liste inclut les investissements qui constituent **la proportion la plus importante d'investissements** du produit financier au cours de la période de référence, à savoir : **du 01/07/2023 au 30/06/2024**

Principaux investissements	Secteur	Sous-secteur	Pays	% des actifs
APPLE INC	Technologies de l'information	Matériel technologique et équipement	États-Unis	6.87%
NVIDIA CORP	Technologies de l'information	Semi-conducteurs et équipement pour semi-conducteurs	États-Unis	6.50%
MICROSOFT CORP	Technologies de l'information	Logiciels et services	États-Unis	6.31%
ALPHABET INC CL A	Services de communication	Médias et loisirs	États-Unis	4.91%
AMAZON.COM INC	Consommation discrétionnaire	Distribution et vente au détail de biens de consommation discrétionnaires	États-Unis	4.44%
MARTIN MARIETTA MATERIALS	Matériaux	Matériaux de construction	États-Unis	3.84%
CHEVRON CORP	Énergie	Pétrole, gaz et combustibles	États-Unis	3.71%
GOLDMAN SACHS GROUP INC	Obligations financières	Services financiers	États-Unis	3.40%
TRUIST FINANCIAL CORP	Obligations financières	Banques	États-Unis	3.29%
VERTEX PHARMACEUTIC	Santé	Pharmacie, biotechnologie et sciences de la vie	États-Unis	3.27%
CITIZENS FINANCIAL GROUP INC	Obligations financières	Banques	États-Unis	3.24%
BJ S WHOLESALE CLUB HOLDINGS	Biens de consommation de base	Distribution et vente au détail de biens de consommation de base	États-Unis	2.89%
US BANCORP	Obligations financières	Banques	États-Unis	2.74%
TECK RESOURCES-B USD	Matériaux	Métaux et exploitation minière	Canada	2.51%
REGENERON PHARMACEUTICALS	Santé	Pharmacie, biotechnologie et sciences de la vie	États-Unis	2.41%

Quelle était la proportion d'investissements liés à la durabilité ?

● Quelle était l'allocation d'actifs ?

L'allocation d'actifs décrit la part des investissements dans des actifs spécifiques.

● Dans quels secteurs économiques ont été réalisés les investissements ?

Secteur	Sous-secteur	% des actifs
Technologies de l'information	Logiciels et services	13.09%
Technologies de l'information	Semi-conducteurs et équipement pour semi-conducteurs	11.81%
Santé	Pharmacie, biotechnologie et sciences de la vie	10.25%
Obligations financières	Banques	9.27%
Technologies de l'information	Matériel technologique et équipement	8.88%

Aux fins d'observer la taxinomie de l'UE, les critères relatifs au **gaz fossile** incluent des limites aux émissions et le passage à une énergie entièrement renouvelable ou à des combustibles à faible teneur en carbone d'ici fin 2035. Pour **l'énergie nucléaire**, les critères incluent des règles exhaustives de sécurité et de gestion des déchets.

Les activités habilitantes permettent directement à d'autres activités de contribuer de manière substantielle à la réalisation d'un objectif environnemental.

Les activités transitoires sont des activités pour lesquelles il n'existe pas encore de solution de remplacement sobre en carbone et, entre autres, dont les niveaux d'émission de gaz à effet de serre correspondent aux meilleures performances réalisables.

Dans quelle mesure les investissements durables ayant un objectif environnemental étaient-ils alignés sur la Taxinomie de l'UE ?

Le fonds promeut des caractéristiques tant environnementales que sociales. Si le fonds ne s'est pas engagé à réaliser des investissements alignés sur la Taxinomie de l'UE, au cours de la période sous revue, il a cependant investi 0.13% dans des investissements durables alignés sur la Taxinomie de l'UE. De tels investissements ont contribué aux objectifs d'atténuation du changement climatique de la taxinomie de l'UE.

L'alignement des sociétés bénéficiaires d'investissements sur les objectifs de la Taxinomie de l'UE susmentionnés est évalué à l'aide du chiffre d'affaires (ou des revenus) et/ou des données d'utilisation des produits des obligations vertes.

Le pourcentage communiqué d'alignement des investissements du fonds sur la Taxinomie de l'UE n'a pas été audité par le réviseur d'entreprises agréé du fonds ni par aucun tiers.

● **Le produit financier a-t-il investi dans des activités liées au gaz fossile et/ou à l'énergie nucléaire qui sont conformes à la taxinomie de l'UE¹ ?**

☐

Oui :

☐

Dans le gaz fossile

☐

Dans l'énergie nucléaire

☒

Non

Aucune donnée fiable concernant l'alignement sur les activités de gaz fossile et d'énergie nucléaire conformes à la Taxinomie de l'UE n'était disponible sur la période.

¹Les activités liées au gaz fossile et/ou à l'énergie nucléaire ne seront conformes à la Taxinomie de l'UE que si elles contribuent à limiter le changement climatique (« atténuation du changement climatique ») et ne causent pas de préjudice important à tout objectif de la Taxinomie de l'UE. L'intégralité des critères relatifs aux activités économiques liées au gaz fossile et à l'énergie nucléaire conformes à la Taxinomie de l'UE sont définis dans le Règlement délégué (UE) 2022/1214 de la Commission.

Les activités alignées sur la taxinomie sont exprimées en pourcentage :

- du chiffre d'affaires pour refléter la part des revenus provenant des activités vertes des sociétés bénéficiaires d'investissements ;
- des dépenses d'investissement (CapEx) pour montrer les investissements verts réalisés par les sociétés bénéficiaires d'investissements, pour une transition vers une économie verte, par exemple ; et
- des dépenses d'exploitation (OpEx) pour refléter les activités opérationnelles vertes des sociétés bénéficiaires d'investissements.

Les graphiques ci-dessous font apparaître en vert le pourcentage d'investissements alignés sur la Taxinomie de l'UE. Étant donné qu'il n'existe pas de méthodologie appropriée pour déterminer l'alignement des obligations souveraines* sur la taxinomie, le premier graphique montre l'alignement sur la Taxinomie par rapport à tous les investissements du produit financier, y compris les obligations souveraines, tandis que le deuxième graphique représente l'alignement sur la Taxinomie uniquement par rapport aux investissements du produit financier autres que les obligations souveraines.

* Aux fins de ces graphiques, les « obligations souveraines » comprennent toutes les expositions souveraines

● Quelle était la part d'investissements dans les activités transitoires et habilitantes ?

Au 30/06/2024, en utilisant le chiffre d'affaires et/ou les données d'utilisation des produits des obligations vertes comme indicateur, la part d'investissements du fonds dans les activités transitoires était de 0.00% et la part d'investissements dans les activités habilitantes était de 0.13%. Le pourcentage communiqué d'alignement des investissements du fonds sur la Taxinomie de l'UE n'a pas été audité par le réviseur d'entreprises agréé du fonds ni par aucun tiers.

● Comment se situe le pourcentage d'investissements alignés sur la taxinomie de l'UE par rapport aux périodes de référence précédentes ?

À la fin de la période précédente, le pourcentage d'investissements alignés sur la taxinomie était de 0.00%.

Quelle était la part des investissements durables ayant un objectif environnemental qui n'étaient pas alignés sur la Taxinomie de l'UE ?

La part des investissements durables ayant un objectif environnemental et non alignés sur la taxinomie était de **18.96%** à la fin de la période.

Cela tient du fait que certains émetteurs sont considérés comme investissements durables en vertu du Règlement SFDR mais qu'une portion de leurs activités n'est pas alignée sur les standards de la taxinomie de l'UE, ou que les données correspondantes ne sont pas encore disponibles en vue d'une évaluation relative à la taxinomie de l'UE.

Quelle était la part d'investissements durables sur le plan social ?

La proportion des investissements durables sur le plan social était de 12.78% à la fin de la période.

Quels investissements étaient inclus dans la catégorie « Autres », quelle était leur finalité et existait-il des garanties environnementales ou sociales minimales ?

Sont inclus dans la catégorie « N° 2 Autres » les liquidités et autres instruments détenus aux fins de gestion de la liquidité et des risques du portefeuille. Pour les obligations et actions non notées, des garanties environnementales et sociales minimales ont été mises en place par le biais d'un filtrage des émetteurs en rapport aux activités controversées définies dans les principes du Pacte mondial des Nations unies. Elle peut également inclure des titres sans notation ESG pour lesquels les données nécessaires à la mesure de la réalisation des caractéristiques environnementales ou sociales ne sont pas disponibles.

Quelles mesures ont-elles été prises pour réaliser les caractéristiques environnementales et/ou sociales au cours de la période de référence ?

Des indicateurs de durabilité sont mis à disposition de manière continue dans le système de gestion du portefeuille pour permettre aux gestionnaires du portefeuille d'évaluer l'impact de leurs décisions d'investissement.

Ces indicateurs sont intégrés au cadre de contrôle d'AMUNDI, en répartissant les responsabilités entre le premier niveau de contrôles réalisés par les équipes Investissement elles-mêmes, et le second niveau de contrôles réalisé par les équipes Risque, qui surveillent la conformité aux caractéristiques environnementales ou sociales promues en permanence par le fonds.

En outre, la Politique d'investissement responsable d'AMUNDI définit une approche active en matière d'engagement qui promeut le dialogue avec les sociétés bénéficiaires d'investissements, y compris celles qui sont incluses dans le portefeuille de ce produit. Notre Rapport annuel en matière d'engagement, disponible à la page <https://about.amundi.com/esg-documentation>, fournit des informations détaillées sur cet engagement et les résultats atteints.

Quelles ont été les performances de ce produit financier par rapport à l'indice de référence ?

Ce produit ne dispose pas d'un Indice de référence ESG.

● En quoi l'indice de référence diffère-t-il de l'indice de marché large ?

Ce produit ne dispose pas d'un Indice de référence ESG.

● Quelle a été la performance de ce produit financier par rapport aux indicateurs de durabilité pour déterminer l'alignement de l'indice de référence sur les caractéristiques environnementales ou sociales promues ?

Ce produit ne dispose pas d'un Indice de référence ESG.

● Quelle a été la performance de ce produit financier par rapport à l'indice de référence ?

Ce produit ne dispose pas d'un Indice de référence ESG.

● Quelle a été la performance de ce produit financier par rapport à l'indice de marché large ?

Ce produit ne dispose pas d'un Indice de référence ESG.

Un indice de référence est un indice qui sert à mesurer si le produit financier réalise les caractéristiques environnementales et/ou sociales qu'il promeut.

Informations périodiques pour les produits financiers visés à l'Article 8, paragraphes 1, 2 et 2a, du Règlement (UE) 2019/2088 et à l'Article 6, premier paragraphe du Règlement (UE) 2020/852

Dénomination du produit : AMUNDI FUNDS
ASIA EQUITY FOCUS

Identifiant d'entité juridique :
529900JOPK0BJB1JIC13

Par investissement durable, on entend un investissement dans une activité économique qui contribue à un objectif environnemental ou social, pour autant qu'il ne cause de préjudice important à aucun de ces objectifs et que les sociétés détenues respectent les pratiques de bonne gouvernance.

La Taxinomie de l'UE est un système de classification institué par le Règlement (UE) 2020/852, qui dresse une liste d'**activités économiques durables sur le plan environnemental**. Ce règlement ne comprend pas de liste d'activités économiques durables sur le plan social. Les investissements durables ayant un objectif environnemental ne sont pas nécessairement alignés sur la taxinomie.

Caractéristiques environnementales et/ou sociales

Le produit financier avait-il un objectif d'investissement durable ?	
☒ ☐ Oui	☒ ☐ Non
☐ Il a réalisé des investissements durables ayant un objectif environnemental : _____ ☐ dans des activités économiques qui sont considérées comme durables sur le plan environnemental au titre de la Taxinomie de l'UE ☐ dans des activités économiques qui ne sont pas considérées comme durables sur le plan environnemental au titre de la Taxinomie de l'UE	☒ Il a promu des caractéristiques environnementales/sociales (E/S) et, bien qu'il n'ait pas eu pour objectif l'investissement durable, il contenait une proportion d'investissements durables de 38.77% ☐ ayant un objectif environnemental dans des activités économiques qui sont considérées comme durables sur le plan environnemental au titre de la Taxinomie de l'UE ☒ ayant un objectif environnemental dans des activités économiques qui ne sont pas considérées comme durables sur le plan environnemental au titre de la Taxinomie de l'UE ☐ ayant un objectif social
☐ Il a réalisé des investissements durables ayant un objectif social : _____	☐ Il a promu des caractéristiques E/S, mais n'a pas réalisé d'investissements durables

Dans quelle mesure les caractéristiques environnementales et/ou sociales promues par ce produit financier ont-elles été réalisées ?

Au cours de l'exercice financier, le produit n'a cessé de promouvoir les caractéristiques environnementales et/ou sociales en cherchant à atteindre une note ESG supérieure à celle de son univers d'investissement **MSCI AC ASIA EX JAPAN**. Pour déterminer la note ESG du Produit et de l'univers d'investissement ESG, la performance ESG a été évaluée de manière continue en comparant la performance moyenne d'un titre par rapport au secteur de l'émetteur du titre, pour chacune des trois caractéristiques, à savoir environnementale, sociale et de gouvernance.

L'univers d'investissement est un univers de marché large qui n'évalue ni n'inclut pas de composantes en fonction de caractéristiques environnementales et/ou sociales, et qui n'a par conséquent pas pour vocation d'être conforme aux caractéristiques promues par le fonds. Aucun indice de référence ESG n'a été désigné.

Les indicateurs de durabilité évaluent la mesure dans laquelle les caractéristiques environnementales ou sociales promues par le produit financier sont atteintes.

● **Quelle performance ont affiché les indicateurs de durabilité ?**

Amundi a développé son propre processus de notation ESG interne, qui suit une approche « Best-in-class ». Les notations adaptées à chaque secteur d'activité ont pour objectif d'évaluer la dynamique dans laquelle interviennent les entreprises.

L'indicateur de durabilité employé est la note ESG du Produit mesurée en comparaison avec la note ESG de l'univers d'investissement ESG du Produit.

À la fin de la période :

- La note ESG moyenne pondérée du portefeuille est **-0.017 (D)**.
- La note ESG moyenne pondérée de l'univers d'investissement ESG est **-0.086 (D)**.

La notation ESG Amundi utilisée pour déterminer la note ESG est une note ESG quantitative qui se décline en sept niveaux allant de A (les meilleures notes de l'univers) à G (les pires notes). Sur l'échelle de notation ESG d'Amundi, les titres figurant sur la liste d'exclusion correspondent à G. Pour les entreprises émettrices, la performance ESG est évaluée de manière globale et au niveau des critères pertinents par comparaison avec la performance moyenne du secteur, en combinant les trois dimensions ESG :

- Dimension environnementale : cette dimension examine la capacité des émetteurs à contrôler leur impact environnemental direct et indirect, en limitant leur consommation d'énergie, en réduisant leurs émissions de gaz à effet de serre, en luttant contre l'appauvrissement des ressources et en protégeant la biodiversité.
- Dimension sociale : cette dimension évalue le fonctionnement d'un émetteur dans deux domaines différents, à savoir sa stratégie de développement du capital humain et le respect des droits humains en général.
- Dimension de gouvernance : cette dimension évalue la capacité de l'émetteur à garantir les fondements d'un cadre de gouvernance d'entreprise efficace et à générer de la valeur sur le long terme.

La méthodologie appliquée par la notation ESG d'Amundi utilise 38 critères qui sont soit génériques (communs à toutes les entreprises, indépendamment de leur activité) soit spécifiques au secteur, et qui sont pondérés en fonction du secteur et considérés en termes d'impact sur la réputation, l'efficacité opérationnelle et les réglementations concernant un émetteur. Les notations ESG d'Amundi sont susceptibles d'être exprimées de manière globale pour les trois dimensions E, S et G, ou individuellement pour tout facteur environnemental ou social.

● **... et par rapport aux périodes antérieures ?**

À la fin de la période précédente, la note ESG moyenne pondérée du portefeuille était de 0.10 (D) et la note ESG moyenne pondérée de l'univers d'investissement ESG était de -0.09 (D).

● **Quels étaient les objectifs des investissements durables que le produit financier entendait partiellement réaliser, et comment l'investissement durable a-t-il contribué à ces objectifs ?**

Les objectifs des investissements durables sont d'investir dans des sociétés détenues qui cherchent à respecter deux critères :

1. suivre les bonnes pratiques environnementales et sociales ; et
2. éviter de fabriquer des produits ou de fournir des services qui nuisent à l'environnement et à la société.

Pour que la société bénéficiaire d'investissements soit réputée contribuer à l'objectif susmentionné, elle doit figurer parmi les « meilleures performances » de son secteur d'activité pour au moins l'un de ses facteurs environnementaux ou sociaux importants.

La définition de « meilleures performances » repose sur la méthode ESG exclusive d'Amundi, dont l'objectif est de mesurer la performance ESG d'une société bénéficiaire d'investissements. Pour être considérée comme l'une des « meilleures performances », une société bénéficiaire d'investissements doit afficher l'une des trois premières notes (A, B ou C, sur une échelle de notation allant de A à G) dans son secteur pour au moins un facteur environnemental ou social important. Les facteurs environnementaux et sociaux sont identifiés à l'échelle des secteurs. L'identification des facteurs importants est basée sur le cadre d'analyse ESG d'Amundi qui combine des données extra-financières et une analyse qualitative du secteur associé et des questions de durabilité. Les facteurs identifiés

comme importants représentent plus de 10 % de la note ESG globale. Par exemple pour le secteur de l'énergie, les facteurs importants sont les suivants : émissions et énergie, biodiversité et pollution, santé et sécurité, communautés locales et droits humains. Pour un aperçu plus complet des secteurs et des facteurs, veuillez consulter la Déclaration réglementaire ESG d'Amundi disponible sur www.amundi.lu

Pour contribuer aux objectifs ci-dessus, la société bénéficiaire d'investissements ne doit pas avoir d'exposition significative aux activités (par ex. tabac, armes, jeux de hasard, charbon, aviation, production de viande, fabrication d'engrais et de pesticides, production de plastique à usage unique) incompatibles avec ces critères.

Le caractère durable d'un investissement est évalué au niveau de la société bénéficiaire d'investissements.

Les principales incidences négatives correspondent aux incidences négatives les plus significatives des décisions d'investissement sur les facteurs de durabilité liés aux questions environnementales, sociales et de personnel, au respect des droits humains et à la lutte contre la corruption et les actes de corruption.

● ***Dans quelle mesure les investissements durables que le produit financier a partiellement réalisés n'ont-ils pas causé de préjudice important à un objectif d'investissement durable sur le plan environnemental ou social ?***

Pour s'assurer que les investissements durables ne causent pas de préjudice important (principe « Do no significant harm » ou « DNSH » en anglais), Amundi utilise deux filtres :

Le premier filtre de DNSH repose sur le contrôle des indicateurs obligatoires des Principales incidences négatives de l'Annexe 1, Tableau 1 des normes techniques réglementaires (RTS) lorsqu'il existe des données fiables (par ex. Intensité des GES des sociétés bénéficiaire des investissements) via une combinaison d'indicateurs (par ex. intensité carbone) et des seuils ou règles spécifiques (par ex. que l'intensité carbone de la société bénéficiaire des investissements n'appartient pas au dernier décile du secteur).

Dans sa politique d'exclusion qui fait partie intégrante de sa Politique d'investissement responsable, Amundi tient d'ores et déjà compte de Principales incidences négatives spécifiques. Ces exclusions, qui s'appliquent en sus des tests détaillés ci-dessus, couvrent les sujets suivants : exclusions sur les armes controversées, les violations des principes du Pacte mondial des Nations Unies, le charbon et le tabac.

Au-delà des facteurs de durabilité spécifiques couverts par le premier filtre, Amundi a défini un second filtre, qui ne tient pas compte des indicateurs obligatoires des Principales incidences négatives ci-dessus, afin de vérifier que la société n'affiche pas de mauvaises performances d'un point de vue environnemental ou social global par rapport aux autres entreprises de son secteur, ce qui correspond à un score environnemental ou social supérieur ou égal à E selon la notation ESG d'Amundi.

- ***Comment les indicateurs concernant les incidences négatives sur les facteurs de durabilité ont-ils été pris en considération ?***

Les indicateurs d'incidences négatives ont été pris en compte comme détaillé dans le premier filtre DNSH ci-dessus.

Le premier filtre DNSH repose sur le contrôle des indicateurs obligatoires des Principales incidences négatives de l'Annexe 1, Tableau 1 du Règlement délégué (UE) 2022/1288 lorsqu'il existe des données fiables via la combinaison des indicateurs suivants et de seuils ou règles spécifiques :

- une intensité en CO2 qui n'appartient pas au dernier décile par rapport aux autres entreprises du secteur (ne s'applique qu'aux secteurs à forte intensité) ;
- un Conseil d'administration dont le niveau de diversité n'appartient pas au dernier décile par rapport aux autres sociétés du secteur ;
- ne pas faire l'objet de controverse relative aux conditions de travail et aux droits humains ; et
- ne pas faire l'objet de controverse relative à la biodiversité et à la pollution.

Dans sa politique d'exclusion qui fait partie intégrante de sa Politique d'investissement responsable, Amundi tient d'ores et déjà compte de Principales incidences négatives spécifiques. Ces exclusions, qui s'appliquent en sus des tests détaillés ci-dessus, couvrent les sujets suivants : exclusions sur les armes controversées, les violations des principes du Pacte mondial des Nations Unies, le charbon et le tabac.

- ***Les investissements durables étaient-ils conformes aux Principes directeurs de l'OCDE à l'intention des entreprises multinationales et aux Principes directeurs des Nations unies relatifs aux entreprises et aux droits humains ? Description détaillée :***

Oui, les Principes directeurs de l'OCDE à l'intention des entreprises multinationales et les Principes directeurs des Nations unies relatifs aux entreprises et aux droits humains sont

intégrés à notre méthode de notation ESG. Notre outil de notation ESG exclusif évalue les émetteurs à l'aide des données disponibles auprès de nos fournisseurs de données. Par exemple, le modèle dispose d'un critère dédié appelé « Implication dans la communauté et droits humains » qui s'applique à tous les secteurs en plus d'autres critères liés aux droits humains, y compris les chaînes d'approvisionnement socialement responsables, les conditions de travail et les relations de travail. En outre, nous effectuons un contrôle des controverses au moins une fois par trimestre, y compris sur les entreprises identifiées pour des violations des droits humains. En cas de controverse, les analystes évaluent la situation, lui donnent une note (à l'aide de notre méthode de notation exclusive) et déterminent la marche à suivre. Les notes de controverse sont mises à jour chaque trimestre pour suivre les tendances et les efforts de correction.

La Taxinomie de l'UE définit un principe consistant à « ne pas causer de préjudice important » (« Do not significant harm » ou DNSH) en vertu duquel les investissements alignés sur la Taxinomie ne doivent pas causer de préjudice important aux objectifs de la Taxinomie de l'UE et s'accompagnent de critères de l'UE spécifiques.

Le principe consistant à « ne pas causer de préjudice important » ne s'applique qu'aux investissements sous-jacents du produit financier qui tiennent compte des critères de l'UE pour les activités économiques durables sur le plan environnemental. Les investissements sous-jacents de la portion restante de ce produit financier ne tiennent pas compte des critères de l'UE en matière d'activités économiques durables sur le plan environnemental.

Tout autre investissement durable doit également se conformer au principe consistant à ne pas causer de préjudice important aux objectifs environnementaux ou sociaux.

Dans quelle mesure ce produit financier a-t-il pris en considération les principales incidences négatives sur les facteurs de durabilité ?

Le produit tient compte de toutes les Principales incidences négatives obligatoires en vertu de l'Annexe 1, Tableau 1 du Règlement délégué (UE) 2022/1288 applicables à la stratégie du produit et s'appuie sur une combinaison de politiques d'exclusion (normatives et sectorielles) et d'approches d'engagement et de vote :

- Exclusion : Amundi a défini des règles d'exclusion normatives, basées sur l'activité et les secteurs, qui couvrent certains des principaux indicateurs négatifs de durabilité énumérés par le Règlement Disclosure (sur la publication d'informations).
- Intégration des facteurs ESG : Amundi a adopté des normes d'intégration ESG minimales appliquées par défaut à ses fonds de type ouvert activement gérés (exclusion des émetteurs ayant la note G et meilleure note ESG moyenne pondérée supérieure à celle de l'indice de référence applicable). Les 38 critères employés dans la stratégie de notation ESG d'Amundi ont également été conçus pour tenir compte des principaux impacts sur les facteurs de durabilité, ainsi que de la qualité de la réduction entreprise en la matière.
- Engagement : L'engagement est un processus continu et ciblé qui vise à influencer les activités ou le comportement des sociétés bénéficiaires des investissements. L'objectif des activités d'engagement peut se diviser en deux catégories : impliquer un émetteur pour améliorer la manière dont il intègre la dimension environnementale et sociale ou impliquer un émetteur pour améliorer son impact sur les questions environnementales, sociales et liées aux droits humains ou d'autres questions de durabilité qui sont importantes pour la société au sens large et l'économie mondiale.
- Vote : La politique de vote d'Amundi répond à une analyse globale de toutes les questions à long terme qui peuvent influencer la création de valeur, y compris les questions ESG importantes. pour plus d'informations, veuillez consulter la Politique de vote d'Amundi.
- Surveillance des controverses : Amundi a développé un système de suivi des controverses qui s'appuie sur trois fournisseurs de données externes pour suivre systématiquement l'évolution des controverses et leur niveau de gravité. Cette approche quantitative est ensuite enrichie d'une évaluation approfondie de chaque controverse grave, menée par des analystes ESG, puis d'un examen périodique de son évolution. Cette approche s'applique à tous les fonds d'Amundi.

Pour de plus amples détails sur le mode de prise en compte des indicateurs relatifs aux Principales incidences négatives obligatoires, veuillez consulter la Déclaration sur la publication d'informations en matière de Obligations financières durable d'Amundi disponible sur www.amundi.com.

Quels étaient les principaux investissements de ce produit financier ?

La liste inclut les investissements qui constituent **la proportion la plus importante d'investissements** du produit financier au cours de la période de référence, à savoir : **du 01/07/2023 au 30/06/2024**

Principaux investissements	Secteur	Sous-secteur	Pays	% des actifs
TAIWAN SEMICONDUCTOR MANUFAC	Technologies de l'information	Semi-conducteurs et équipement pour semi-conducteurs	Taïwan	9.72%
TENCENT HOLDINGS LTD	Services de communication	Médias et loisirs	Îles Caïmans	6.33%
SAMSUNG ELECT-GDR	Technologies de l'information	Matériel technologique et équipement	Corée	5.44%
AHK-NEW GEN A-PAC I2U-C	Obligations financières	Fonds communs de placement	Hong-Kong	2.82%
SK HYNIX INC	Technologies de l'information	Semi-conducteurs et équipement pour semi-conducteurs	Corée	2.74%
ALIBABA GROUP HOLDING LTD	Consommation discrétionnaire	Distribution et vente au détail de biens de consommation discrétionnaires	Îles Caïmans	2.42%
RELIANCE INDUSTRIES LTD	Énergie	Pétrole, gaz et combustibles	Inde	2.32%
PDD HOLDINGS INC	Consommation discrétionnaire	Distribution et vente au détail de biens de consommation discrétionnaires	Îles Caïmans	1.81%
ICICI BANK LTD- US-ADR	Obligations financières	Banques	Inde	1.80%
MAKEMYTRIP LTD	Consommation discrétionnaire	Services aux consommateurs	Île Maurice	1.79%
HON HAI PRECISION INDUSTRY	Technologies de l'information	Matériel technologique et équipement	Taïwan	1.79%
MEDIATEK INC	Technologies de l'information	Semi-conducteurs et équipement pour semi-conducteurs	Taïwan	1.73%
CTBC FINANCIAL HOLDING CO LTD	Obligations financières	Banques	Taïwan	1.72%
HDFC BANK LIMITED	Obligations financières	Banques	Inde	1.69%
AIA GROUP LTD	Obligations financières	Assurance	Hong-Kong	1.69%

Quelle était la proportion d'investissements liés à la durabilité ?

● **Quelle était l'allocation d'actifs ?**

L'allocation d'actifs décrit la part des investissements dans des actifs spécifiques.

La catégorie **N° 1 Alignés sur les caractéristiques E/S** inclut les investissements du produit financier utilisés pour atteindre les caractéristiques environnementales ou sociales promues par le produit financier.

La catégorie **N° 2 Autres** inclut les investissements restants du produit financier qui ne sont ni alignés sur les caractéristiques environnementales ou sociales ni considérés comme investissements durables.

La catégorie **N° 1 Alignés sur les caractéristiques E/S** comprend :

- la sous-catégorie **N° 1A Durables** couvrant les investissements durables sur le plan environnemental et social ;
- la sous-catégorie **N° 1B Autres caractéristiques E/S** couvrant les investissements alignés sur les caractéristiques environnementales ou sociales qui ne sont pas considérés comme des investissements durables.

● **Dans quels secteurs économiques ont été réalisés les investissements ?**

Secteur	Sous-secteur	% des actifs

Aux fins d'observer la taxinomie de l'UE, les critères relatifs au **gaz fossile** incluent des limites aux émissions et le passage à une énergie entièrement renouvelable ou à des combustibles à faible teneur en carbone d'ici fin 2035. Pour l'**énergie nucléaire**, les critères incluent des règles exhaustives de sécurité et de gestion des déchets.

Les activités habilitantes permettent directement à d'autres activités de contribuer de manière substantielle à la réalisation d'un objectif environnemental.

Les activités transitoires sont des activités

Dans quelle mesure les investissements durables ayant un objectif environnemental étaient-ils alignés sur la Taxinomie de l'UE ?

Le fonds promeut des caractéristiques tant environnementales que sociales. Si le fonds ne s'est pas engagé à réaliser des investissements alignés sur la Taxinomie de l'UE, au cours de la période sous revue, il a cependant investi 0.00% dans des investissements durables alignés sur la Taxinomie de l'UE.

● Le produit financier a-t-il investi dans des activités liées au gaz fossile et/ou à l'énergie nucléaire qui sont conformes à la taxinomie de l'UE¹ ?

☐

Oui :

☐

Dans le gaz fossile

☐

Dans l'énergie nucléaire

☒

Non

Aucune donnée fiable concernant l'alignement sur les activités de gaz fossile et d'énergie nucléaire conformes à la Taxinomie de l'UE n'était disponible sur la période.

¹Les activités liées au gaz fossile et/ou à l'énergie nucléaire ne seront conformes à la Taxinomie de l'UE que si elles contribuent à limiter le changement climatique (« atténuation du changement climatique ») et ne causent pas de préjudice important à tout objectif de la Taxinomie de l'UE. L'intégralité des critères relatifs aux activités économiques liées au gaz fossile et à l'énergie nucléaire conformes à la Taxinomie de l'UE sont définis dans le Règlement délégué (UE) 2022/1214 de la Commission.

pour lesquelles il n'existe pas encore de solution de remplacement sobre en carbone et, entre autres, dont les niveaux d'émission de gaz à effet de serre correspondent aux meilleures performances réalisables.

Les activités alignées sur la taxinomie sont exprimées en pourcentage :

- **du chiffre d'affaires** pour refléter la part des revenus provenant des activités vertes des sociétés bénéficiaires d'investissements ;
- **des dépenses d'investissement (CapEx)** pour montrer les investissements verts réalisés par les sociétés bénéficiaires d'investissements, pour une transition vers une économie verte, par exemple ; et
- **des dépenses d'exploitation (OpEx)** pour refléter les activités opérationnelles vertes des sociétés bénéficiaires d'investissements.

Les graphiques ci-dessous font apparaître en vert le pourcentage d'investissements alignés sur la Taxinomie de l'UE. Étant donné qu'il n'existe pas de méthodologie appropriée pour déterminer l'alignement des obligations souveraines* sur la taxinomie, le premier graphique montre l'alignement sur la Taxinomie par rapport à tous les investissements du produit financier, y compris les obligations souveraines, tandis que le deuxième graphique représente l'alignement sur la Taxinomie uniquement par rapport aux investissements du produit financier autres que les obligations souveraines.

* Aux fins de ces graphiques, les « obligations souveraines » comprennent toutes les expositions souveraines

● Quelle était la part des investissements réalisés dans des activités transitoires et habilitantes ?

Au 30/06/2024, en utilisant le chiffre d'affaires et/ou les données d'utilisation des produits des obligations vertes comme indicateur, la part d'investissements du fonds dans les activités transitoires était de 0.00% et la part d'investissements dans les activités habilitantes était de 0.00%. Le pourcentage communiqué d'alignement des investissements du fonds sur la Taxinomie de l'UE n'a pas été audité par le réviseur d'entreprises agréé du fonds ni par aucun tiers.

● Où se situe le pourcentage d'investissements alignés sur la taxinomie de l'UE par rapport aux périodes de référence précédentes ?

À la fin de la période précédente, le pourcentage d'investissements alignés sur la taxinomie était de 0.00%.

Quelle était la part des investissements durables ayant un objectif environnemental qui n'étaient pas alignés sur la Taxinomie de l'UE ?

La part des investissements durables ayant un objectif environnemental et non alignés sur la taxinomie était de 22.39% à la fin de la période.

Cela tient du fait que certains émetteurs sont considérés comme investissements durables en vertu du Règlement SFDR mais qu'une portion de leurs activités n'est pas alignée sur les standards de la taxinomie de l'UE, ou que les données correspondantes ne sont pas encore disponibles en vue d'une évaluation relative à la taxinomie de l'UE.

des critères en matière d'activités économiques durables sur le plan environnemental visés par le Règlement (UE) 2020/852.

Quelle était la part d'investissements durables sur le plan social ?

La proportion des investissements durables sur le plan social était de 16.38% à la fin de la période.

Quels investissements étaient inclus dans la catégorie « Autres », quelle était leur finalité et existait-il des garanties environnementales ou sociales minimales ?

Sont inclus dans la catégorie « N° 2 Autres » les liquidités et autres instruments détenus aux fins de gestion de la liquidité et des risques du portefeuille. Pour les obligations et actions non notées, des garanties environnementales et sociales minimales ont été mises en place par le biais d'un filtrage des émetteurs en rapport aux activités controversées définies dans les principes du Pacte mondial des Nations unies. Elle peut également inclure des titres sans notation ESG pour lesquels les données nécessaires à la mesure de la réalisation des caractéristiques environnementales ou sociales ne sont pas disponibles.

Quelles mesures ont-elles été prises pour réaliser les caractéristiques environnementales et/ou sociales au cours de la période de référence ?

Des indicateurs de durabilité sont mis à disposition de manière continue dans le système de gestion du portefeuille pour permettre aux gestionnaires du portefeuille d'évaluer l'impact de leurs décisions d'investissement.

Ces indicateurs sont intégrés au cadre de contrôle d'AMUNDI, en répartissant les responsabilités entre le premier niveau de contrôles réalisés par les équipes Investissement elles-mêmes, et le second niveau de contrôles réalisé par les équipes Risque, qui surveillent la conformité aux caractéristiques environnementales ou sociales promues en permanence par le fonds.

En outre, la Politique d'investissement responsable d'AMUNDI définit une approche active en matière d'engagement qui promeut le dialogue avec les sociétés bénéficiaires des investissements, y compris celles qui sont incluses dans le portefeuille de ce produit. Notre Rapport annuel en matière d'engagement, disponible à la page <https://about.amundi.com/esg-documentation>, fournit des informations détaillées sur cet engagement et les résultats atteints.

Quelles ont été les performances de ce produit financier par rapport à l'indice de référence ?

Un indice de référence est un indice qui sert à mesurer si le produit financier réalise les caractéristiques environnementales et/ou sociales qu'il promeut.

Ce produit ne dispose pas d'un Indice de référence ESG.

● En quoi l'indice de référence diffère-t-il de l'indice de marché large ?

Ce produit ne dispose pas d'un Indice de référence ESG.

● Quelles ont été les performances de ce produit financier par rapport aux indicateurs de durabilité pour déterminer l'alignement de l'indice de référence sur les caractéristiques environnementales ou sociales promues ?

Ce produit ne dispose pas d'un Indice de référence ESG.

● Quelle a été la performance de ce produit financier par rapport à l'indice de référence ?

Ce produit ne dispose pas d'un Indice de référence ESG.

● Quelle a été la performance de ce produit financier par rapport à l'indice de marché large ?

Ce produit ne dispose pas d'un Indice de référence ESG.

Modèle d'informations périodiques pour les produits financiers visés à l'Article 8, paragraphes 1, 2 et 2a, du Règlement (UE) 2019/2088 et à l'Article 6, premier paragraphe du Règlement (UE) 2020/852

Dénomination du produit : AMUNDI FUNDS CHINA
A SHARES

Identifiant d'entité juridique :
213800SWM4W1H6YGZF46

Par investissement durable, on entend un investissement dans une activité économique qui contribue à un objectif environnemental ou social, pour autant qu'il ne cause de préjudice important à aucun de ces objectifs et que les sociétés détenues respectent les pratiques de bonne gouvernance.

La **Taxinomie de l'UE** est un système de classification institué par le Règlement (UE) 2020/852, qui dresse une liste d'**activités économiques durables sur le plan environnemental**. Ce règlement ne comprend pas de liste d'activités économiques durables sur le plan social. Les investissements durables ayant un objectif environnemental ne sont pas nécessairement alignés sur la taxinomie.

Caractéristiques environnementales et/ou sociales

Le produit financier avait-il un objectif d'investissement durable ?

Oui

X

Non

Il a réalisé **des investissements durables ayant un objectif environnemental** : _____

dans des activités économiques qui sont considérées comme durables sur le plan environnemental au titre de la Taxinomie de l'UE

dans des activités économiques qui ne sont pas considérées comme durables sur le plan environnemental au titre de la Taxinomie de l'UE

Il a réalisé **des investissements durables ayant un objectif social** : _____

Il a promu des **caractéristiques environnementales/sociales (E/S)** et, bien qu'il n'ait pas eu pour objectif l'investissement durable, il contenait une proportion d'investissements durables de **25.56%**

ayant un objectif environnemental dans des activités économiques qui sont considérées comme durables sur le plan environnemental au titre de la Taxinomie de l'UE

ayant un objectif environnemental dans des activités économiques qui ne sont pas considérées comme durables sur le plan environnemental au titre de la Taxinomie de l'UE

ayant un objectif social

Il a promu des caractéristiques E/S, mais **n'a pas réalisé d'investissements durables**

Dans quelle mesure les caractéristiques environnementales et/ou sociales promues par ce produit financier ont-elles été réalisées ?

Au cours de l'exercice financier, le produit n'a cessé de promouvoir les caractéristiques environnementales et/ou sociales en cherchant à atteindre une note ESG supérieure à celle de son univers d'investissement **MSCI CHINA A ONSHORE**. Pour déterminer la note ESG du Produit et de l'univers d'investissement ESG, la performance ESG a été évaluée de manière continue en comparant la performance moyenne d'un titre par rapport au secteur de l'émetteur du titre, pour chacune des trois caractéristiques, à savoir environnementale, sociale et de gouvernance.

L'univers d'investissement est un univers de marché large qui n'évalue ni n'inclut pas de composantes en fonction de caractéristiques environnementales et/ou sociales, et qui n'a par conséquent pas pour vocation d'être conforme aux caractéristiques promues par le fonds. Aucun indice de référence ESG n'a été désigné.

Les indicateurs de durabilité

évaluent la mesure dans laquelle les caractéristiques environnementales ou sociales promues par le produit financier sont atteintes.

● **Quelle performance ont affiché les indicateurs de durabilité ?**

Amundi a développé son propre processus de notation ESG interne, qui suit une approche « Best-in-class ». Les notations adaptées à chaque secteur d'activité ont pour objectif d'évaluer la dynamique dans laquelle interviennent les entreprises.

L'indicateur de durabilité employé est la note ESG du Produit mesurée en comparaison avec la note ESG de l'univers d'investissement ESG du Produit.

À la fin de la période :

- La note ESG moyenne pondérée du portefeuille est **-0.608 (E)**.
- La note ESG moyenne pondérée de l'univers d'investissement ESG est **-1.133 (E)**.

La notation ESG Amundi utilisée pour déterminer la note ESG est une note ESG quantitative qui se décline en sept niveaux allant de A (les meilleures notes de l'univers) à G (les pires notes). Sur l'échelle de notation ESG d'Amundi, les titres figurant sur la liste d'exclusion correspondent à G. Pour les entreprises émettrices, la performance ESG est évaluée de manière globale et au niveau des critères pertinents par comparaison avec la performance moyenne du secteur, en combinant les trois dimensions ESG :

- Dimension environnementale : cette dimension examine la capacité des émetteurs à contrôler leur impact environnemental direct et indirect, en limitant leur consommation d'énergie, en réduisant leurs émissions de gaz à effet de serre, en luttant contre l'appauvrissement des ressources et en protégeant la biodiversité.
- Dimension sociale : cette dimension évalue le fonctionnement d'un émetteur dans deux domaines différents, à savoir sa stratégie de développement du capital humain et le respect des droits humains en général.
- Dimension de gouvernance : cette dimension évalue la capacité de l'émetteur à garantir les fondements d'un cadre de gouvernance d'entreprise efficace et à générer de la valeur sur le long terme.

La méthodologie appliquée par la notation ESG d'Amundi utilise 38 critères qui sont soit génériques (communs à toutes les entreprises, indépendamment de leur activité) soit spécifiques au secteur, et qui sont pondérés en fonction du secteur et considérés en termes d'impact sur la réputation, l'efficacité opérationnelle et les réglementations concernant un émetteur. Les notations ESG d'Amundi sont susceptibles d'être exprimées de manière globale pour les trois dimensions E, S et G, ou individuellement pour tout facteur environnemental ou social.

● **... et par rapport aux périodes antérieures ?**

À la fin de la période précédente, la note ESG moyenne pondérée du portefeuille était de -0.86 (E) et la note ESG moyenne pondérée de l'univers d'investissement ESG était de -1.03 (E).

● **Quels étaient les objectifs des investissements durables que le produit financier entendait partiellement réaliser, et comment l'investissement durable a-t-il contribué à ces objectifs ?**

Les objectifs des investissements durables sont d'investir dans des sociétés détenues qui cherchent à respecter deux critères :

1. suivre les bonnes pratiques environnementales et sociales ; et
2. éviter de fabriquer des produits ou de fournir des services qui nuisent à l'environnement et à la société.

Pour que la société bénéficiaire des investissements soit réputée contribuer à l'objectif susmentionné, elle doit figurer parmi les « meilleures performances » de son secteur d'activité pour au moins l'un de ses facteurs environnementaux ou sociaux importants.

La définition de « meilleures performances » repose sur la méthode ESG exclusive d'Amundi, dont l'objectif est de mesurer la performance ESG d'une société bénéficiaire des investissements. Pour être considérée comme l'une des « meilleures performances », une société bénéficiaire des investissements doit afficher l'une des trois premières notes (A, B ou C, sur une échelle de notation allant de A à G) dans son secteur pour au moins un facteur environnemental ou social important. Les facteurs environnementaux et sociaux sont identifiés à l'échelle des secteurs. L'identification des facteurs importants est basée sur le cadre d'analyse ESG d'Amundi qui combine des données extra-financières et une analyse qualitative du secteur associé et des questions de durabilité. Les facteurs identifiés comme importants représentent

plus de 10 % de la note ESG globale. Par exemple pour le secteur de l'énergie, les facteurs importants sont les suivants : émissions et énergie, biodiversité et pollution, santé et sécurité, communautés locales et droits humains. Pour un aperçu plus complet des secteurs et des facteurs, veuillez consulter la Déclaration réglementaire ESG d'Amundi disponible sur www.amundi.lu

Pour contribuer aux objectifs ci-dessus, la société bénéficiaire des investissements ne doit pas avoir d'exposition significative aux activités (par ex. tabac, armes, jeux de hasard, charbon, aviation, production de viande, fabrication d'engrais et de pesticides, production de plastique à usage unique) incompatibles avec ces critères.

Le caractère durable d'un investissement est évalué au niveau de la société bénéficiaire des investissements.

Les principales incidences négatives correspondent aux incidences négatives les plus significatives des décisions d'investissement sur les facteurs de durabilité liés aux questions environnementales, sociales et de personnel, au respect des droits humains et à la lutte contre la corruption et les actes de corruption.

● ***Dans quelle mesure les investissements durables que le produit financier a partiellement réalisés n'ont-ils pas causé de préjudice important à un objectif d'investissement durable sur le plan environnemental ou social ?***

Pour s'assurer que les investissements durables ne causent pas de préjudice important (principe « Do no significant harm » ou « DNSH » en anglais), Amundi utilise deux filtres :

Le premier filtre de DNSH repose sur le contrôle des indicateurs obligatoires des Principales incidences négatives de l'Annexe 1, Tableau 1 des normes techniques réglementaires (RTS) lorsqu'il existe des données fiables (par ex. Intensité des GES des sociétés bénéficiaires des investissements) via une combinaison d'indicateurs (par ex. intensité carbone) et des seuils ou règles spécifiques (par ex. que l'intensité carbone de la société bénéficiaire des investissements n'appartient pas au dernier décile du secteur).

Dans sa politique d'exclusion qui fait partie intégrante de sa Politique d'investissement responsable, Amundi tient d'ores et déjà compte de Principales incidences négatives spécifiques. Ces exclusions, qui s'appliquent en sus des tests détaillés ci-dessus, couvrent les sujets suivants : exclusions sur les armes controversées, les violations des principes du Pacte mondial des Nations Unies, le charbon et le tabac.

Au-delà des facteurs de durabilité spécifiques couverts par le premier filtre, Amundi a défini un second filtre, qui ne tient pas compte des indicateurs obligatoires des Principales incidences négatives ci-dessus, afin de vérifier que la société n'affiche pas de mauvaises performances d'un point de vue environnemental ou social global par rapport aux autres entreprises de son secteur, ce qui correspond à un score environnemental ou social supérieur ou égal à E selon la notation ESG d'Amundi.

- ***Comment les indicateurs concernant les incidences négatives sur les facteurs de durabilité ont-ils été pris en considération ?***

Les indicateurs d'incidences négatives ont été pris en compte comme détaillé dans le premier filtre DNSH ci-dessus.

Le premier filtre DNSH repose sur le contrôle des indicateurs obligatoires des Principales incidences négatives de l'Annexe 1, Tableau 1 du Règlement délégué (UE) 2022/1288 lorsqu'il existe des données fiables via la combinaison des indicateurs suivants et de seuils ou règles spécifiques :

- une intensité en CO2 qui n'appartient pas au dernier décile par rapport aux autres entreprises du secteur (ne s'applique qu'aux secteurs à forte intensité) ;
- un Conseil d'administration dont le niveau de diversité n'appartient pas au dernier décile par rapport aux autres sociétés du secteur ;
- ne pas faire l'objet de controverse relative aux conditions de travail et aux droits humains ; et
- ne pas faire l'objet de controverse relative à la biodiversité et à la pollution.

Dans sa politique d'exclusion qui fait partie intégrante de sa Politique d'investissement responsable, Amundi tient d'ores et déjà compte de Principales incidences négatives spécifiques. Ces exclusions, qui s'appliquent en sus des tests détaillés ci-dessus, couvrent les sujets suivants : exclusions sur les armes controversées, les violations des principes du Pacte mondial des Nations Unies, le charbon et le tabac.

- ***Les investissements durables étaient-ils conformes aux Principes directeurs de l'OCDE à l'intention des entreprises multinationales et aux Principes directeurs des Nations unies relatifs aux entreprises et aux droits humains ? Description détaillée :***

Oui, les Principes directeurs de l'OCDE à l'intention des entreprises multinationales et les Principes directeurs des Nations unies relatifs aux entreprises et aux droits humains sont

intégrés à notre méthode de notation ESG. Notre outil de notation ESG exclusif évalue les émetteurs à l'aide des données disponibles auprès de nos fournisseurs de données. Par exemple, le modèle dispose d'un critère dédié appelé « Implication dans la communauté et droits humains » qui s'applique à tous les secteurs en plus d'autres critères liés aux droits humains, y compris les chaînes d'approvisionnement socialement responsables, les conditions de travail et les relations de travail. En outre, nous effectuons un contrôle des controverses au moins une fois par trimestre, y compris sur les entreprises identifiées pour des violations des droits humains. En cas de controverse, les analystes évaluent la situation, lui donnent une note (à l'aide de notre méthode de notation exclusive) et déterminent la marche à suivre. Les notes de controverse sont mises à jour chaque trimestre pour suivre les tendances et les efforts de correction.

La Taxinomie de l'UE définit un principe consistant à « ne pas causer de préjudice important » (« Do not significant harm » ou DNSH) en vertu duquel les investissements alignés sur la Taxinomie ne doivent pas causer de préjudice important aux objectifs de la Taxinomie de l'UE et s'accompagnent de critères de l'UE spécifiques.

Le principe consistant à « ne pas causer de préjudice important » ne s'applique qu'aux investissements sous-jacents du produit financier qui tiennent compte des critères de l'UE pour les activités économiques durables sur le plan environnemental. Les investissements sous-jacents de la portion restante de ce produit financier ne tiennent pas compte des critères de l'UE en matière d'activités économiques durables sur le plan environnemental.

Tout autre investissement durable doit également se conformer au principe consistant à ne pas causer de préjudice important aux objectifs environnementaux ou sociaux.

Dans quelle mesure ce produit financier a-t-il pris en considération les principales incidences négatives sur les facteurs de durabilité ?

Le produit tient compte de toutes les Principales incidences négatives obligatoires en vertu de l'Annexe 1, Tableau 1 du Règlement délégué (UE) 2022/1288 applicables à la stratégie du produit et s'appuie sur une combinaison de politiques d'exclusion (normatives et sectorielles) et d'approches d'engagement et de vote :

- Exclusion : Amundi a défini des règles d'exclusion normatives, basées sur l'activité et les secteurs, qui couvrent certains des principaux indicateurs négatifs de durabilité énumérés par le Règlement Disclosure (sur la publication d'informations).
- Intégration des facteurs ESG : Amundi a adopté des normes d'intégration ESG minimales appliquées par défaut à ses fonds de type ouvert activement gérés (exclusion des émetteurs ayant la note G et meilleure note ESG moyenne pondérée supérieure à celle de l'indice de référence applicable). Les 38 critères employés dans la stratégie de notation ESG d'Amundi ont également été conçus pour tenir compte des principaux impacts sur les facteurs de durabilité, ainsi que de la qualité de la réduction entreprise en la matière.
- Engagement : L'engagement est un processus continu et ciblé qui vise à influencer les activités ou le comportement des sociétés bénéficiaires des investissements. L'objectif des activités d'engagement peut se diviser en deux catégories : impliquer un émetteur pour améliorer la manière dont il intègre la dimension environnementale et sociale ou impliquer un émetteur pour améliorer son impact sur les questions environnementales, sociales et liées aux droits humains ou d'autres questions de durabilité qui sont importantes pour la société au sens large et l'économie mondiale.
- Vote : La politique de vote d'Amundi répond à une analyse globale de toutes les questions à long terme qui peuvent influencer la création de valeur, y compris les questions ESG importantes. pour plus d'informations, veuillez consulter la Politique de vote d'Amundi.
- Surveillance des controverses : Amundi a développé un système de suivi des controverses qui s'appuie sur trois fournisseurs de données externes pour suivre systématiquement l'évolution des controverses et leur niveau de gravité. Cette approche quantitative est ensuite enrichie d'une évaluation approfondie de chaque controverse grave, menée par des analystes ESG, puis d'un examen périodique de son évolution. Cette approche s'applique à tous les fonds d'Amundi.

Pour de plus amples détails sur le mode de prise en compte des indicateurs relatifs aux Principales incidences négatives obligatoires, veuillez consulter la Déclaration sur la publication d'informations en matière de finance durable d'Amundi disponible sur www.amundi.com.

Quels étaient les principaux investissements de ce produit financier ?

La liste inclut les investissements qui constituent **la proportion la plus importante d'investissements** du produit financier au cours de la période de référence, à savoir : du **01/07/2023** au **30/06/2024**

Aux fins d'observer la taxinomie de l'UE, les critères relatifs au **gaz fossile** incluent des limites aux émissions et le passage à une énergie entièrement renouvelable ou à des combustibles à faible teneur en carbone d'ici fin 2035. Pour l'**énergie nucléaire**, les critères incluent des règles exhaustives de sécurité et de gestion des déchets.

Les activités habilitantes permettent directement à d'autres activités de contribuer de manière substantielle à la réalisation d'un objectif environnemental.

Les activités transitoires sont des activités pour lesquelles il n'existe pas encore de solution de remplacement sobre en carbone et, entre autres, dont les

Dans quelle mesure les investissements durables ayant un objectif environnemental étaient-ils alignés sur la Taxinomie de l'UE ?

Le fonds promeut des caractéristiques tant environnementales que sociales. Si le fonds ne s'est pas engagé à réaliser des investissements alignés sur la Taxinomie de l'UE, au cours de la période sous revue, il a cependant investi 0.00% dans des investissements durables alignés sur la Taxinomie de l'UE.

● Le produit financier a-t-il investi dans des activités liées au gaz fossile et/ou à l'énergie nucléaire qui sont conformes à la Taxinomie de l'UE¹ ?

☐ Oui :

☐ Dans le gaz fossile ☐ Dans l'énergie nucléaire

☒ Non

Aucune donnée fiable concernant l'alignement sur les activités de gaz fossile et d'énergie nucléaire conformes à la Taxinomie de l'UE n'était disponible sur la période.

¹Les activités liées au gaz fossile et/ou à l'énergie nucléaire ne seront conformes à la Taxinomie de l'UE que si elles contribuent à limiter le changement climatique (« atténuation du changement climatique ») et ne causent pas de préjudice important à tout objectif de la Taxinomie de l'UE. L'intégralité des critères relatifs aux activités économiques liées au gaz fossile et à l'énergie nucléaire conformes à la Taxinomie de l'UE sont définis dans le Règlement délégué (UE) 2022/1214 de la Commission.

niveaux d'émission de gaz à effet de serre correspondent aux meilleures performances réalisables.

Les activités alignées sur la taxinomie sont exprimées en pourcentage :

- **du chiffre d'affaires** pour refléter la part des revenus provenant des activités vertes des sociétés bénéficiaires d'investissements ;
- **des dépenses d'investissement (CapEx)** pour montrer les investissements verts réalisés par les sociétés bénéficiaires d'investissements, pour une transition vers une économie verte, par exemple ; et
- **des dépenses d'exploitation (OpEx)** pour refléter les activités opérationnelles vertes des sociétés bénéficiaires d'investissements.

Les graphiques ci-dessous font apparaître en vert le pourcentage d'investissements alignés sur la Taxinomie de l'UE. Étant donné qu'il n'existe pas de méthodologie appropriée pour déterminer l'alignement des obligations souveraines* sur la taxinomie, le premier graphique montre l'alignement sur la Taxinomie par rapport à tous les investissements du produit financier, y compris les obligations souveraines, tandis que le deuxième graphique représente l'alignement sur la Taxinomie uniquement par rapport aux investissements du produit financier autres que les obligations souveraines.

* Aux fins de ces graphiques, les « obligations souveraines » comprennent toutes les expositions souveraines

● Quelle était la part d'investissements dans les activités transitoires et habilitantes ?

Au 30/06/2024, en utilisant le chiffre d'affaires et/ou les données d'utilisation des produits des obligations vertes comme indicateur, la part d'investissements du fonds dans les activités transitoires était de 0.00% et la part d'investissements dans les activités habilitantes était de 0.00%. Le pourcentage communiqué d'alignement des investissements du fonds sur la Taxinomie de l'UE n'a pas été audité par le réviseur d'entreprises agréé du fonds ni par aucun tiers.

● Comment se situe le pourcentage d'investissements alignés sur la Taxinomie de l'UE par rapport aux périodes de référence antérieures ?

À la fin de la période précédente, le pourcentage d'investissements alignés sur la taxinomie était de 0.00%.

sont des investissements durables ayant un objectif environnemental qui ne tiennent pas

Quelle était la part des investissements durables ayant un objectif environnemental qui n'étaient pas alignés sur la Taxinomie de l'UE ?

La part des investissements durables ayant un objectif environnemental et non alignés sur la taxinomie était de **14.20%** à la fin de la période. Cela tient du fait que certains émetteurs sont considérés comme investissements durables en vertu du Règlement SFDR mais qu'une portion de leurs activités n'est pas alignée sur les standards de la taxinomie de l'UE, ou que les données correspondantes ne sont pas encore disponibles en vue d'une évaluation relative à la taxinomie de l'UE.

compte des critères
en matière d'activités

durables sur le plan
environnemental,
visés par le
Règlement (UE)
2020/852.

Quelle était la part d'investissements durables sur le plan social ?

La proportion des investissements durables sur le plan social était de 11.36% à la fin de la période.

Quels investissements étaient inclus dans la catégorie « Autres », quelle était leur finalité et existait-il des garanties environnementales ou sociales minimales ?

Sont inclus dans la catégorie « N° 2 Autres » les liquidités et autres instruments détenus aux fins de gestion de la liquidité et des risques du portefeuille. Pour les obligations et actions non notées, des garanties environnementales et sociales minimales ont été mises en place par le biais d'un filtrage des émetteurs en rapport aux activités controversées définies dans les principes du Pacte mondial des Nations unies. Elle peut également inclure des titres sans notation ESG pour lesquels les données nécessaires à la mesure de la réalisation des caractéristiques environnementales ou sociales ne sont pas disponibles.

Quelles mesures ont-elles été prises pour réaliser les caractéristiques environnementales et/ou sociales au cours de la période de référence ?

Des indicateurs de durabilité sont mis à disposition de manière continue dans le système de gestion du portefeuille pour permettre aux gestionnaires du portefeuille d'évaluer l'impact de leurs décisions d'investissement.

Ces indicateurs sont intégrés au cadre de contrôle d'AMUNDI, en répartissant les responsabilités entre le premier niveau de contrôles réalisés par les équipes Investissement elles-mêmes, et le second niveau de contrôles réalisé par les équipes Risque, qui surveillent la conformité aux caractéristiques environnementales ou sociales promues en permanence par le fonds.

En outre, la Politique d'investissement responsable d'AMUNDI définit une approche active en matière d'engagement qui promeut le dialogue avec les sociétés bénéficiaires des investissements, y compris celles qui sont incluses dans le portefeuille de ce produit. Notre Rapport annuel en matière d'engagement, disponible à la page <https://about.amundi.com/esg-documentation>, fournit des informations détaillées sur cet engagement et ses résultats.

Quelles ont été les performances de ce produit financier par rapport à l'indice de référence ?

Un indice de référence est un indice qui sert à mesurer si le produit financier réalise les caractéristiques environnementales et/ou sociales qu'il promeut.

Ce produit ne dispose pas d'un Indice de référence ESG.

● *En quoi l'indice de référence diffère-t-il de l'indice de marché large ?*

Ce produit ne dispose pas d'un Indice de référence ESG.

● *Quelles ont été les performances de ce produit financier par rapport aux indicateurs de durabilité pour déterminer l'alignement de l'indice de référence sur les caractéristiques environnementales ou sociales promues ?*

Ce produit ne dispose pas d'un Indice de référence ESG.

● *Quelle a été la performance de ce produit financier par rapport à l'indice de référence ?*

Ce produit ne dispose pas d'un Indice de référence ESG.

● *Quelle a été la performance de ce produit financier par rapport à l'indice de marché large ?*

Ce produit ne dispose pas d'un Indice de référence ESG.

Informations périodiques pour les produits financiers visés à l'Article 8, paragraphes 1, 2 et 2a, du Règlement (UE) 2019/2088 et à l'Article 6, premier paragraphe du Règlement (UE) 2020/852

Dénomination du produit : AMUNDI
FUNDS CHINA EQUITY

Identifiant d'entité juridique :
549300Y1J7CKLI10B145

Par investissement durable, on entend un investissement dans une activité économique qui contribue à un objectif environnemental ou social, pour autant qu'il ne cause de préjudice important à aucun de ces objectifs et que les sociétés détenues respectent les pratiques de bonne gouvernance.

La **Taxinomie de l'UE** est un système de classification institué par le Règlement (UE) 2020/852, qui dresse une liste d'**activités économiques durables sur le plan environnemental**. Ce règlement ne comprend pas de liste d'activités économiques durables sur le plan social. Les investissements durables ayant un objectif environnemental ne sont pas nécessairement alignés sur la taxinomie.

Caractéristiques environnementales et/ou sociales

Le produit financier avait-il un objectif d'investissement durable ?

Oui

X

Non

Il a réalisé **des investissements durables ayant un objectif environnemental** : _____

dans des activités économiques qui sont considérées comme durables sur le plan environnemental au titre de la Taxinomie de l'UE

dans des activités économiques qui ne sont pas considérées comme durables sur le plan environnemental au titre de la Taxinomie de l'UE

Il a réalisé **des investissements durables ayant un objectif social** : _____

Il a promu des caractéristiques **environnementales/sociales (E/S)** et, bien qu'il n'ait pas eu pour objectif l'investissement durable, il contenait une proportion d'investissements durables de **30.83%**

ayant un objectif environnemental dans des activités économiques qui sont considérées comme durables sur le plan environnemental au titre de la Taxinomie de l'UE

ayant un objectif environnemental dans des activités économiques qui ne sont pas considérées comme durables sur le plan environnemental au titre de la Taxinomie de l'UE

ayant un objectif social

Il a promu des caractéristiques E/S, mais **n'a pas réalisé d'investissements durables**

Dans quelle mesure les caractéristiques environnementales et/ou sociales promues par ce produit financier ont-elles été réalisées ?

Au cours de l'exercice financier, le produit n'a cessé de promouvoir les caractéristiques environnementales et/ou sociales en cherchant à atteindre une note ESG supérieure à celle de son univers d'investissement **MSCI CHINA 10/40**. Pour déterminer la note ESG du Produit et de l'univers d'investissement ESG, la performance ESG a été évaluée de manière continue en comparant la performance moyenne d'un titre par rapport au secteur de l'émetteur du titre, pour chacune des trois caractéristiques, à savoir environnementale, sociale et de gouvernance.

L'univers d'investissement est un univers du marché général qui n'évalue ni n'inclut pas de composantes en fonction de caractéristiques environnementales et/ou sociales, et qui n'a par conséquent pas pour vocation d'être conforme aux caractéristiques promues par le fonds. Aucun indice de référence ESG n'a été désigné.

Les indicateurs de durabilité évaluent la mesure dans laquelle les caractéristiques environnementales ou sociales promues par le produit financier sont atteintes.

● **Quelle a été la performance des indicateurs de durabilité ?**

Amundi a développé son propre processus de notation ESG interne, qui suit une approche « Best-in-class ». Les notations adaptées à chaque secteur d'activité ont pour objectif d'évaluer la dynamique dans laquelle interviennent les entreprises.

L'indicateur de durabilité employé est la note ESG du Produit mesurée en comparaison avec la note ESG de l'univers d'investissement ESG du Produit.

À la fin de la période :

- La note ESG moyenne pondérée du portefeuille est **-0.468 (D)**.
- La note ESG moyenne pondérée de l'univers d'investissement ESG est **-0.732 (E)**.

La notation ESG Amundi utilisée pour déterminer la note ESG est une note ESG quantitative qui se décline en sept niveaux allant de A (les meilleures notes de l'univers) à G (les pires notes). Sur l'échelle de notation ESG d'Amundi, les titres figurant sur la liste d'exclusion correspondent à G. Pour les entreprises émettrices, la performance ESG est évaluée de manière globale et au niveau des critères pertinents par comparaison avec la performance moyenne du secteur, en combinant les trois dimensions ESG :

- Dimension environnementale : cette dimension examine la capacité des émetteurs à contrôler leur impact environnemental direct et indirect, en limitant leur consommation d'énergie, en réduisant leurs émissions de gaz à effet de serre, en luttant contre l'appauvrissement des ressources et en protégeant la biodiversité.
- Dimension sociale : cette dimension évalue le fonctionnement d'un émetteur dans deux domaines différents, à savoir sa stratégie de développement du capital humain et le respect des droits humains en général.
- Dimension de gouvernance : cette dimension évalue la capacité de l'émetteur à garantir les fondements d'un cadre de gouvernance d'entreprise efficace et à générer de la valeur sur le long terme.

La méthodologie appliquée par la notation ESG d'Amundi utilise 38 critères qui sont soit génériques (communs à toutes les entreprises, indépendamment de leur activité) soit spécifiques au secteur, et qui sont pondérés en fonction du secteur et considérés en termes d'impact sur la réputation, l'efficacité opérationnelle et les réglementations concernant un émetteur. Les notations ESG d'Amundi sont susceptibles d'être exprimées de manière globale pour les trois dimensions E, S et G, ou individuellement pour tout facteur environnemental ou social.

● **... et par rapport aux périodes précédentes ?**

À la fin de la période précédente, la note ESG moyenne pondérée du portefeuille était de -0.41 (D) et la note ESG moyenne pondérée de l'univers d'investissement ESG était de -0.58 (E).

● **Quels étaient les objectifs des investissements durables que le produit financier entendait partiellement réaliser, et comment l'investissement durable a-t-il contribué à ces objectifs ?**

Les objectifs des investissements durables sont d'investir dans des sociétés détenues qui cherchent à respecter deux critères :

1. suivre les bonnes pratiques environnementales et sociales ; et
2. éviter de fabriquer des produits ou de fournir des services qui nuisent à l'environnement et à la société.

Pour que la société bénéficiaire d'investissements soit réputée contribuer à l'objectif susmentionné, elle doit figurer parmi les « meilleures performances » de son secteur d'activité pour au moins l'un de ses facteurs environnementaux ou sociaux importants.

La définition de « meilleures performances » repose sur la méthode ESG exclusive d'Amundi, dont l'objectif est de mesurer la performance ESG d'une société bénéficiaire d'investissements. Pour être considérée comme l'une des « meilleures performances », une société bénéficiaire d'investissements doit afficher l'une des trois premières notes (A, B ou C, sur une échelle de notation allant de A à G) dans son secteur pour au moins un facteur environnemental ou social important. Les facteurs environnementaux et sociaux sont identifiés à l'échelle des secteurs. L'identification des facteurs importants est basée sur le cadre d'analyse ESG d'Amundi qui combine des données extra-financières

et une analyse qualitative du secteur associé et des questions de durabilité. Les facteurs identifiés comme importants représentent plus de 10 % de la note ESG globale. Par exemple pour le secteur de l'énergie, les facteurs importants sont les suivants : émissions et énergie, biodiversité et pollution, santé et sécurité, communautés locales et droits humains. Pour un aperçu plus complet des secteurs et des facteurs, veuillez consulter la Déclaration réglementaire ESG d'Amundi disponible sur www.amundi.lu

Pour contribuer aux objectifs ci-dessus, la société bénéficiaire d'investissements ne doit pas avoir d'exposition significative aux activités (par ex. tabac, armes, jeux de hasard, charbon, aviation, production de viande, fabrication d'engrais et de pesticides, production de plastique à usage unique) incompatibles avec ces critères.

Le caractère durable d'un investissement est évalué au niveau de la société bénéficiaire d'investissements.

Les principales incidences négatives correspondent aux incidences négatives les plus significatives des décisions d'investissement sur les facteurs de durabilité liés aux questions environnementales, sociales et de personnel, au respect des droits humains et à la lutte contre la corruption et les actes de corruption.

● ***Dans quelle mesure les investissements durables que le produit financier a partiellement réalisés n'ont-ils pas causé de préjudice important à un objectif d'investissement durable sur le plan environnemental ou social ?***

Pour s'assurer que les investissements durables ne causent pas de préjudice important (principe « Do no significant harm » ou « DNSH » en anglais), Amundi utilise deux filtres :

Le premier filtre de DNSH repose sur le contrôle des indicateurs obligatoires des Principales incidences négatives de l'Annexe 1, Tableau 1 des normes techniques réglementaires (RTS) lorsqu'il existe des données fiables (par ex. Intensité des GES des sociétés bénéficiaires d'investissements) via une combinaison d'indicateurs (par ex. intensité carbone) et des seuils ou règles spécifiques (par ex. que l'intensité carbone de la société bénéficiaire d'investissements n'appartient pas au dernier décile du secteur).

Dans sa politique d'exclusion qui fait partie intégrante de sa Politique d'investissement responsable, Amundi tient d'ores et déjà compte de Principales incidences négatives spécifiques. Ces exclusions, qui s'appliquent en sus des tests détaillés ci-dessus, couvrent les sujets suivants : exclusions sur les armes controversées, les violations des principes du Pacte mondial des Nations Unies, le charbon et le tabac.

Au-delà des facteurs de durabilité spécifiques couverts par le premier filtre, Amundi a défini un second filtre, qui ne tient pas compte des indicateurs obligatoires des Principales incidences négatives ci-dessus, afin de vérifier que la société n'affiche pas de mauvaises performances d'un point de vue environnemental ou social global par rapport aux autres entreprises de son secteur, ce qui correspond à un score environnemental ou social supérieur ou égal à E selon la notation ESG d'Amundi.

- ***Comment les indicateurs concernant les incidences négatives sur les facteurs de durabilité ont-ils été pris en considération ?***

Les indicateurs d'incidences négatives ont été pris en compte comme détaillé dans le premier filtre DNSH ci-dessus.

Le premier filtre DNSH repose sur le contrôle des indicateurs obligatoires des Principales incidences négatives de l'Annexe 1, Tableau 1 du Règlement délégué (UE) 2022/1288 lorsqu'il existe des données fiables via la combinaison des indicateurs suivants et de seuils ou règles spécifiques :

- une intensité en CO2 qui n'appartient pas au dernier décile par rapport aux autres entreprises du secteur (ne s'applique qu'aux secteurs à forte intensité) ;
- un Conseil d'administration dont le niveau de diversité n'appartient pas au dernier décile par rapport aux autres sociétés du secteur ;
- ne pas faire l'objet de controverse relative aux conditions de travail et aux droits humains ; et
- ne pas faire l'objet de controverse relative à la biodiversité et à la pollution.

Dans sa politique d'exclusion qui fait partie intégrante de sa Politique d'investissement responsable, Amundi tient d'ores et déjà compte de Principales incidences négatives spécifiques. Ces exclusions, qui s'appliquent en sus des tests détaillés ci-dessus, couvrent les sujets suivants : exclusions sur les armes controversées, les violations des principes du Pacte mondial des Nations Unies, le charbon et le tabac.

- ***Les investissements durables étaient-ils conformes aux Principes directeurs de l'OCDE à l'intention des entreprises multinationales et aux Principes directeurs des Nations unies relatifs aux entreprises et aux droits humains ? Description détaillée :***

Oui, les Principes directeurs de l'OCDE à l'intention des entreprises multinationales et les Principes directeurs des Nations unies relatifs aux entreprises et aux droits humains sont intégrés à notre méthode de notation ESG. Notre outil de notation ESG exclusif évalue les émetteurs à l'aide des données disponibles auprès de nos fournisseurs de données. Par exemple, le modèle dispose d'un critère dédié appelé « Implication dans la communauté et droits humains » qui s'applique à tous les secteurs en plus d'autres critères liés aux droits humains, y compris les chaînes d'approvisionnement socialement responsables, les conditions de travail et les relations de travail. En outre, nous effectuons un contrôle des controverses au moins une fois par trimestre, y compris sur les entreprises identifiées pour des violations des droits humains. En cas de controverse, les analystes évaluent la situation, lui donnent une note (à l'aide de notre méthode de notation exclusive) et déterminent la marche à suivre. Les notes de controverse sont mises à jour chaque trimestre pour suivre les tendances et les efforts de correction.

La Taxinomie de l'UE définit un principe consistant à « ne pas causer de préjudice important » (« Do not significant harm » ou DNSH) en vertu duquel les investissements alignés sur la Taxinomie ne doivent pas causer de préjudice important aux objectifs de la Taxinomie de l'UE et s'accompagnent de critères de l'UE spécifiques.

Le principe consistant à « ne pas causer de préjudice important » ne s'applique qu'aux investissements sous-jacents du produit financier qui tiennent compte des critères de l'UE pour les activités économiques durables sur le plan environnemental. Les investissements sous-jacents de la portion restante de ce produit financier ne tiennent pas compte des critères de l'UE en matière d'activités économiques durables sur le plan environnemental.

Tout autre investissement durable doit également se conformer au principe consistant à ne pas causer de préjudice important aux objectifs environnementaux ou sociaux.

Dans quelle mesure ce produit financier a-t-il pris en considération les principales incidences négatives sur les facteurs de durabilité ?

Le produit tient compte de toutes les Principales incidences négatives obligatoires en vertu de l'Annexe 1, Tableau 1 du Règlement délégué (UE) 2022/1288 applicables à la stratégie du produit et s'appuie sur une combinaison de politiques d'exclusion (normatives et sectorielles) et d'approches d'engagement et de vote :

- Exclusion : Amundi a défini des règles d'exclusion normatives, basées sur l'activité et les secteurs, qui couvrent certains des principaux indicateurs négatifs de durabilité énumérés par le Règlement Disclosure (sur la publication d'informations).
- Intégration des facteurs ESG : Amundi a adopté des normes d'intégration ESG minimales appliquées par défaut à ses fonds de type ouvert activement gérés (exclusion des émetteurs ayant la note G et meilleure note ESG moyenne pondérée supérieure à celle de l'indice de référence applicable). Les 38 critères employés dans la stratégie de notation ESG d'Amundi ont également été conçus pour tenir compte des principaux impacts sur les facteurs de durabilité, ainsi que de la qualité de la réduction entreprise en la matière.
- Engagement : L'engagement est un processus continu et ciblé qui vise à influencer les activités ou le comportement des sociétés bénéficiaires d'investissements. L'objectif des activités d'engagement peut se diviser en deux catégories : impliquer un émetteur pour améliorer la manière dont il intègre la dimension environnementale et sociale ou impliquer un émetteur pour améliorer son impact sur les questions environnementales, sociales et liées aux droits humains ou d'autres questions de durabilité qui sont importantes pour la société au sens large et l'économie mondiale.
- Vote : La politique de vote d'Amundi répond à une analyse globale de toutes les questions à long terme qui peuvent influencer la création de valeur, y compris les questions ESG importantes. pour plus d'informations, veuillez consulter la Politique de vote d'Amundi.

- Surveillance des controverses : Amundi a développé un système de suivi des controverses qui s'appuie sur trois fournisseurs de données externes pour suivre systématiquement l'évolution des controverses et leur niveau de gravité. Cette approche quantitative est ensuite enrichie d'une évaluation approfondie de chaque controverse grave, menée par des analystes ESG, puis d'un examen périodique de son évolution. Cette approche s'applique à tous les fonds d'Amundi.

Pour de plus amples détails sur le mode de prise en compte des indicateurs relatifs aux Principales incidences négatives obligatoires, veuillez consulter la Déclaration sur la publication d'informations en matière de finance durable d'Amundi disponible sur

www.amundi.com.

Quels étaient les principaux investissements de ce produit financier ?

La liste inclut les investissements qui constituent **la proportion la plus importante d'investissements** du produit financier au cours de la période de référence, à savoir : **du 01/07/2023 au 30/06/2024**

Principaux investissements	Secteur	Sous-secteur	Pays	% des actifs

Aux fins d'observer la taxinomie de l'UE, les critères relatifs au **gaz fossile** incluent des limites aux émissions et le passage à une énergie entièrement renouvelable ou à des combustibles à faible teneur en carbone d'ici fin 2035. Pour l'**énergie nucléaire**, les critères incluent des règles exhaustives de sécurité et de gestion des déchets.

Les activités habilitantes permettent directement à d'autres activités de contribuer de manière substantielle à la réalisation d'un objectif environnemental.

Les activités transitoires sont des activités pour

Dans quelle mesure les investissements durables ayant un objectif environnemental étaient-ils alignés sur la Taxinomie de l'UE ?

Le fonds promeut des caractéristiques tant environnementales que sociales. Si le fonds ne s'est pas engagé à réaliser des investissements alignés sur la Taxinomie de l'UE, au cours de la période sous revue, il a cependant investi 0.00% dans des investissements durables alignés sur la Taxinomie de l'UE.

● Le produit financier a-t-il investi dans des activités liées au gaz fossile et/ou à l'énergie nucléaire qui sont conformes à la taxinomie de l'UE¹ ?

☐

Oui :

☐

Dans le gaz fossile

☐

Dans l'énergie nucléaire

☒

Non

Aucune donnée fiable concernant l'alignement sur les activités de gaz fossile et d'énergie nucléaire conformes à la Taxinomie de l'UE n'était disponible sur la période.

¹Les activités liées au gaz fossile et/ou à l'énergie nucléaire ne seront conformes à la Taxinomie de l'UE que si elles contribuent à limiter le changement climatique (« atténuation du changement climatique ») et ne causent pas de préjudice important à tout objectif de la Taxinomie de l'UE. L'intégralité des critères relatifs aux activités économiques liées au gaz fossile et à l'énergie nucléaire conformes à la Taxinomie de l'UE sont définis dans le Règlement délégué (UE) 2022/1214 de la Commission.

lesquelles il n'existe pas encore de solution de remplacement sobre en carbone et, entre autres, dont les niveaux d'émission de gaz à effet de serre correspondent aux meilleures performances réalisables.

Les activités alignées sur la taxinomie sont exprimées en pourcentage :

- **du chiffre d'affaires** pour refléter la part des revenus provenant des activités vertes des sociétés bénéficiaires d'investissements ;
- **des dépenses d'investissement (CapEx)** pour montrer les investissements verts réalisés par les sociétés bénéficiaires d'investissements, pour une transition vers une économie verte, par exemple ; et
- **des dépenses d'exploitation (OpEx)** pour refléter les activités opérationnelles vertes des sociétés bénéficiaires d'investissements.

Les graphiques ci-dessous font apparaître en vert le pourcentage d'investissements alignés sur la Taxinomie de l'UE. Étant donné qu'il n'existe pas de méthodologie appropriée pour déterminer l'alignement des obligations souveraines* sur la taxinomie, le premier graphique montre l'alignement sur la Taxinomie par rapport à tous les investissements du produit financier, y compris les obligations souveraines, tandis que le deuxième graphique représente l'alignement sur la Taxinomie uniquement par rapport aux investissements du produit financier autres que les obligations souveraines.

* Aux fins de ces graphiques, les « obligations souveraines » comprennent toutes les expositions souveraines

● Quelle était la part d'investissements dans les activités transitoires et habilitantes ?

Au 30/06/2024, en utilisant le chiffre d'affaires et/ou les données d'utilisation des produits des obligations vertes comme indicateur, la part d'investissements du fonds dans les activités transitoires était de 0.00% et la part d'investissements dans les activités habilitantes était de 0.00%. Le pourcentage communiqué d'alignement des investissements du fonds sur la Taxinomie de l'UE n'a pas été audité par le réviseur d'entreprises agréé du fonds ni par aucun tiers.

● Comment se situe le pourcentage d'investissements alignés sur la taxinomie de l'UE par rapport aux périodes de référence précédentes ?

À la fin de la période précédente, le pourcentage d'investissements alignés sur la taxinomie était de 0.00%.

● Quelle était la part des investissements durables ayant un objectif environnemental qui n'étaient pas alignés sur la Taxinomie de l'UE ?

La part des investissements durables ayant un objectif environnemental et non alignés sur la taxinomie était de **9.37%** à la fin de la période. Cela tient du fait que certains émetteurs sont considérés comme investissements durables en vertu du Règlement SFDR mais qu'une portion de leurs activités n'est pas alignée sur les standards de la

environnemental
qui ne tiennent pas compte des critères en matière d'activités économiques durables sur le plan environnemental visés par le Règlement (UE) 2020/852.

taxinomie de l'UE, ou que les données correspondantes ne sont pas encore disponibles en vue d'une évaluation relative à la taxinomie de l'UE.

Quelle était la part d'investissements durables sur le plan social ?

La proportion des investissements durables sur le plan social était de 21.46% à la fin de la période.

Quels investissements étaient inclus dans la catégorie « Autres », quelle était leur finalité et existait-il des garanties environnementales ou sociales minimales ?

Sont inclus dans la catégorie « N° 2 Autres » les liquidités et autres instruments détenus aux fins de gestion de la liquidité et des risques du portefeuille. Pour les obligations et actions non notées, des garanties environnementales et sociales minimales ont été mises en place par le biais d'un filtrage des émetteurs en rapport aux activités controversées définies dans les principes du Pacte mondial des Nations unies. Elle peut également inclure des titres sans notation ESG pour lesquels les données nécessaires à la mesure de la réalisation des caractéristiques environnementales ou sociales ne sont pas disponibles.

Quelles mesures ont-elles été prises pour réaliser les caractéristiques environnementales et/ou sociales au cours de la période de référence ?

Des indicateurs de durabilité sont mis à disposition de manière continue dans le système de gestion du portefeuille pour permettre aux gestionnaires du portefeuille d'évaluer l'impact de leurs décisions d'investissement.

Ces indicateurs sont intégrés au cadre de contrôle d'AMUNDI, en répartissant les responsabilités entre le premier niveau de contrôles réalisés par les équipes Investissement elles-mêmes, et le second niveau de contrôles réalisé par les équipes Risque, qui surveillent la conformité aux caractéristiques environnementales ou sociales promues en permanence par le fonds.

En outre, la Politique d'investissement responsable d'AMUNDI définit une approche active en matière d'engagement qui promeut le dialogue avec les sociétés bénéficiaires d'investissements, y compris celles qui sont incluses dans le portefeuille de ce produit. Notre Rapport annuel en matière d'engagement, disponible à la page <https://about.amundi.com/esg-documentation>, fournit des informations détaillées sur cet engagement et ses résultats.

Quelles ont été les performances de ce produit financier par rapport à l'indice de référence ?

Un indice de référence est un indice qui sert à mesurer si le produit financier réalise les caractéristiques environnementales et/ou sociales qu'il promeut.

Ce produit ne dispose pas d'un Indice de référence ESG.

● En quoi l'indice de référence diffère-t-il de l'indice de marché large ?

Ce produit ne dispose pas d'un Indice de référence ESG.

● Quelle a été la performance de ce produit financier par rapport aux indicateurs de durabilité pour déterminer l'alignement de l'indice de référence sur les caractéristiques environnementales ou sociales promues ?

Ce produit ne dispose pas d'un Indice de référence ESG.

● Quelle a été la performance de ce produit financier par rapport à l'indice de référence ?

Ce produit ne dispose pas d'un Indice de référence ESG.

● Quelle a été la performance de ce produit financier par rapport à l'indice de marché large ?

Ce produit ne dispose pas d'un Indice de référence ESG.

Modèle d'informations périodiques pour les produits financiers visés à l'Article 8, paragraphes 1, 2 et 2a, du Règlement (UE) 2019/2088 et à l'Article 6, premier paragraphe du Règlement (UE) 2020/852

Dénomination du produit : AMUNDI FUNDS
EMERGING EUROPE MIDDLE EAST AND AFRICA

Identifiant d'entité juridique :
549300QA3E8RYX3KUC78

Par investissement durable, on entend un investissement dans une activité économique qui contribue à un objectif environnemental ou social, pour autant qu'il ne cause de préjudice important à aucun de ces objectifs et que les sociétés détenues respectent les pratiques de bonne gouvernance.

La **Taxinomie de l'UE** est un système de classification institué par le Règlement (UE) 2020/852, qui dresse une liste d'**activités économiques durables sur le plan environnemental**. Ce règlement ne comprend pas de liste d'activités économiques durables sur le plan social. Les investissements durables ayant un objectif environnemental ne sont pas nécessairement alignés sur la taxinomie.

Caractéristiques environnementales et/ou sociales

Le produit financier avait-il un objectif d'investissement durable ?	
☒ ☐ ☐ Oui	☒ ☐ ☐ X Non
☐ Il a réalisé des investissements durables ayant un objectif environnemental : _____ ☐ dans des activités économiques qui sont considérées comme durables sur le plan environnemental au titre de la Taxinomie de l'UE ☐ dans des activités économiques qui ne sont pas considérées comme durables sur le plan environnemental au titre de la Taxinomie de l'UE	☒ Il a promu des caractéristiques environnementales/sociales (E/S) et, bien qu'il n'ait pas eu pour objectif l'investissement durable, il contenait une proportion d'investissements durables de 28.54% ☐ ayant un objectif environnemental dans des activités économiques qui sont considérées comme durables sur le plan environnemental au titre de la Taxinomie de l'UE ☒ ayant un objectif environnemental dans des activités économiques qui ne sont pas considérées comme durables sur le plan environnemental au titre de la Taxinomie de l'UE ☐ ayant un objectif social
☐ Il a réalisé des investissements durables ayant un objectif social : _____	☐ Il a promu des caractéristiques E/S, mais n'a pas réalisé d'investissements durables

Dans quelle mesure les caractéristiques environnementales et/ou sociales promues par ce produit financier ont-elles été réalisées ?

Au cours de l'exercice financier, le produit n'a cessé de promouvoir les caractéristiques environnementales et/ou sociales en cherchant à atteindre une note ESG supérieure à celle de son univers d'investissement **MSCI EM EMEA**. Pour déterminer la note ESG du Produit et de l'univers d'investissement ESG, la performance ESG a été évaluée de manière continue en comparant la performance moyenne d'un titre par rapport au secteur de l'émetteur du titre, pour chacune des trois caractéristiques, à savoir environnementale, sociale et de gouvernance.

L'univers d'investissement est un univers de marché large qui n'évalue ni n'inclut pas de composantes en fonction de caractéristiques environnementales et/ou sociales, et qui n'a par conséquent pas pour vocation d'être conforme aux caractéristiques promues par le fonds. Aucun indice de référence ESG n'a été désigné.

Les indicateurs de durabilité

évaluent la mesure dans laquelle les caractéristiques environnementales ou sociales promues par le produit financier sont atteintes.

● **Quelle performance ont affiché les indicateurs de durabilité ?**

Amundi a développé son propre processus de notation ESG interne, qui suit une approche « Best-in-class ». Les notations adaptées à chaque secteur d'activité ont pour objectif d'évaluer la dynamique dans laquelle interviennent les entreprises.

L'indicateur de durabilité employé est la note ESG du Produit mesurée en comparaison avec la note ESG de l'univers d'investissement ESG du Produit.

À la fin de la période :

- La note ESG moyenne pondérée du portefeuille est **-0.024 (D)**.
- La note ESG moyenne pondérée de l'univers d'investissement ESG est **-0.300 (D)**.

La notation ESG Amundi utilisée pour déterminer la note ESG est une note ESG quantitative qui se décline en sept niveaux allant de A (les meilleures notes de l'univers) à G (les pires notes). Sur l'échelle de notation ESG d'Amundi, les titres figurant sur la liste d'exclusion correspondent à G. Pour les entreprises émettrices, la performance ESG est évaluée de manière globale et au niveau des critères pertinents par comparaison avec la performance moyenne du secteur, en combinant les trois dimensions ESG :

- Dimension environnementale : cette dimension examine la capacité des émetteurs à contrôler leur impact environnemental direct et indirect, en limitant leur consommation d'énergie, en réduisant leurs émissions de gaz à effet de serre, en luttant contre l'appauvrissement des ressources et en protégeant la biodiversité.
- Dimension sociale : cette dimension évalue le fonctionnement d'un émetteur dans deux domaines différents, à savoir sa stratégie de développement du capital humain et le respect des droits humains en général.
- Dimension de gouvernance : cette dimension évalue la capacité de l'émetteur à garantir les fondements d'un cadre de gouvernance d'entreprise efficace et à générer de la valeur sur le long terme.

La méthodologie appliquée par la notation ESG d'Amundi utilise 38 critères qui sont soit génériques (communs à toutes les entreprises, indépendamment de leur activité) soit spécifiques au secteur, et qui sont pondérés en fonction du secteur et considérés en termes d'impact sur la réputation, l'efficacité opérationnelle et les réglementations concernant un émetteur. Les notations ESG d'Amundi sont susceptibles d'être exprimées de manière globale pour les trois dimensions E, S et G, ou individuellement pour tout facteur environnemental ou social.

● **... et par rapport aux périodes antérieures ?**

À la fin de la période précédente, la note ESG moyenne pondérée du portefeuille était de 0.03 (D) et la note ESG moyenne pondérée de l'univers d'investissement ESG était de -0.32 (D).

● **Quels étaient les objectifs des investissements durables que le produit financier entendait partiellement réaliser, et comment l'investissement durable a-t-il contribué à ces objectifs ?**

Les objectifs des investissements durables sont d'investir dans des sociétés détenues qui cherchent à respecter deux critères :

1. suivre les bonnes pratiques environnementales et sociales ; et
2. éviter de fabriquer des produits ou de fournir des services qui nuisent à l'environnement et à la société.

Pour que la société bénéficiaire des investissements soit réputée contribuer à l'objectif susmentionné, elle doit figurer parmi les « meilleures performances » de son secteur d'activité pour au moins l'un de ses facteurs environnementaux ou sociaux importants.

La définition de « meilleures performances » repose sur la méthode ESG exclusive d'Amundi, dont l'objectif est de mesurer la performance ESG d'une société bénéficiaire des investissements. Pour être considérée comme l'une des « meilleures performances », une société bénéficiaire des investissements doit afficher l'une des trois premières notes (A, B ou C, sur une échelle de notation allant de A à G) dans son secteur pour au moins un facteur environnemental ou social important. Les facteurs environnementaux et sociaux sont identifiés à l'échelle des secteurs. L'identification des facteurs importants est basée sur le cadre d'analyse ESG d'Amundi qui combine des données extra-financières et une analyse qualitative du secteur associé et des questions de durabilité. Les facteurs identifiés comme importants représentent

plus de 10 % de la note ESG globale. Par exemple pour le secteur de l'énergie, les facteurs importants sont les suivants : émissions et énergie, biodiversité et pollution, santé et sécurité, communautés locales et droits humains. Pour un aperçu plus complet des secteurs et des facteurs, veuillez consulter la Déclaration réglementaire ESG d'Amundi disponible sur www.amundi.lu

Pour contribuer aux objectifs ci-dessus, la société bénéficiaire des investissements ne doit pas avoir d'exposition significative aux activités (par ex. tabac, armes, jeux de hasard, charbon, aviation, production de viande, fabrication d'engrais et de pesticides, production de plastique à usage unique) incompatibles avec ces critères.

Le caractère durable d'un investissement est évalué au niveau de la société bénéficiaire des investissements.

● ***Dans quelle mesure les investissements durables que le produit financier a partiellement réalisés n'ont-ils pas causé de préjudice important à un objectif d'investissement durable sur le plan environnemental ou social ?***

Pour s'assurer que les investissements durables ne causent pas de préjudice important (principe « Do no significant harm » ou « DNSH » en anglais), Amundi utilise deux filtres :

Le premier filtre de DNSH repose sur le contrôle des indicateurs obligatoires des Principales incidences négatives de l'Annexe 1, Tableau 1 des normes techniques réglementaires (RTS) lorsqu'il existe des données fiables (par ex. Intensité des GES des sociétés bénéficiaires des investissements) via une combinaison d'indicateurs (par ex. intensité carbone) et des seuils ou règles spécifiques (par ex. que l'intensité carbone de la société bénéficiaire des investissements n'appartient pas au dernier décile du secteur).

Dans sa politique d'exclusion qui fait partie intégrante de sa Politique d'investissement responsable, Amundi tient d'ores et déjà compte de Principales incidences négatives spécifiques. Ces exclusions, qui s'appliquent en sus des tests détaillés ci-dessus, couvrent les sujets suivants : exclusions sur les armes controversées, les violations des principes du Pacte mondial des Nations Unies, le charbon et le tabac.

Au-delà des facteurs de durabilité spécifiques couverts par le premier filtre, Amundi a défini un second filtre, qui ne tient pas compte des indicateurs obligatoires des Principales incidences négatives ci-dessus, afin de vérifier que la société n'affiche pas de mauvaises performances d'un point de vue environnemental ou social global par rapport aux autres entreprises de son secteur, ce qui correspond à un score environnemental ou social supérieur ou égal à E selon la notation ESG d'Amundi.

- ***Comment les indicateurs concernant les incidences négatives sur les facteurs de durabilité ont-ils été pris en considération ?***

Les indicateurs d'incidences négatives ont été pris en compte comme détaillé dans le premier filtre DNSH ci-dessus.

Le premier filtre DNSH repose sur le contrôle des indicateurs obligatoires des Principales incidences négatives de l'Annexe 1, Tableau 1 du Règlement délégué (UE) 2022/1288 lorsqu'il existe des données fiables via la combinaison des indicateurs suivants et de seuils ou règles spécifiques :

- une intensité en CO2 qui n'appartient pas au dernier décile par rapport aux autres entreprises du secteur (ne s'applique qu'aux secteurs à forte intensité) ;
- un Conseil d'administration dont le niveau de diversité n'appartient pas au dernier décile par rapport aux autres sociétés du secteur ;
- ne pas faire l'objet de controverse relative aux conditions de travail et aux droits humains ; et
- ne pas faire l'objet de controverse relative à la biodiversité et à la pollution.

Dans sa politique d'exclusion qui fait partie intégrante de sa Politique d'investissement responsable, Amundi tient d'ores et déjà compte de Principales incidences négatives spécifiques. Ces exclusions, qui s'appliquent en sus des tests détaillés ci-dessus, couvrent les sujets suivants : exclusions sur les armes controversées, les violations des principes du Pacte mondial des Nations Unies, le charbon et le tabac.

- ***Les investissements durables étaient-ils conformes aux Principes directeurs de l'OCDE à l'intention des entreprises multinationales et aux Principes directeurs des Nations unies relatifs aux entreprises et aux droits humains ? Description détaillée :***

Oui, les Principes directeurs de l'OCDE à l'intention des entreprises multinationales et les Principes directeurs des Nations unies relatifs aux entreprises et aux droits humains sont

Les principales incidences négatives correspondent aux incidences négatives les plus significatives des décisions d'investissement sur les facteurs de durabilité liés aux questions environnementales, sociales et de personnel, au respect des droits humains et à la lutte contre la corruption et les actes de corruption.

intégrés à notre méthode de notation ESG. Notre outil de notation ESG exclusif évalue les émetteurs à l'aide des données disponibles auprès de nos fournisseurs de données. Par exemple, le modèle dispose d'un critère dédié appelé « Implication dans la communauté et droits humains » qui s'applique à tous les secteurs en plus d'autres critères liés aux droits humains, y compris les chaînes d'approvisionnement socialement responsables, les conditions de travail et les relations de travail. En outre, nous effectuons un contrôle des controverses au moins une fois par trimestre, y compris sur les entreprises identifiées pour des violations des droits humains. En cas de controverse, les analystes évaluent la situation, lui donnent une note (à l'aide de notre méthode de notation exclusive) et déterminent la marche à suivre. Les notes de controverse sont mises à jour chaque trimestre pour suivre les tendances et les efforts de correction.

La Taxinomie de l'UE définit un principe consistant à « ne pas causer de préjudice important » (« Do not significant harm » ou DNSH) en vertu duquel les investissements alignés sur la Taxinomie ne doivent pas causer de préjudice important aux objectifs de la Taxinomie de l'UE et s'accompagnent de critères de l'UE spécifiques.

Le principe consistant à « ne pas causer de préjudice important » ne s'applique qu'aux investissements sous-jacents du produit financier qui tiennent compte des critères de l'UE pour les activités économiques durables sur le plan environnemental. Les investissements sous-jacents de la portion restante de ce produit financier ne tiennent pas compte des critères de l'UE en matière d'activités économiques durables sur le plan environnemental.

Tout autre investissement durable doit également se conformer au principe consistant à ne pas causer de préjudice important aux objectifs environnementaux ou sociaux.

Dans quelle mesure ce produit financier a-t-il pris en considération les principales incidences négatives sur les facteurs de durabilité ?

Le produit tient compte de toutes les Principales incidences négatives obligatoires en vertu de l'Annexe 1, Tableau 1 du Règlement délégué (UE) 2022/1288 applicables à la stratégie du produit et s'appuie sur une combinaison de politiques d'exclusion (normatives et sectorielles) et d'approches d'engagement et de vote :

- Exclusion : Amundi a défini des règles d'exclusion normatives, basées sur l'activité et les secteurs, qui couvrent certains des principaux indicateurs négatifs de durabilité énumérés par le Règlement Disclosure (sur la publication d'informations).
- Intégration des facteurs ESG : Amundi a adopté des normes d'intégration ESG minimales appliquées par défaut à ses fonds de type ouvert activement gérés (exclusion des émetteurs ayant la note G et meilleure note ESG moyenne pondérée supérieure à celle de l'indice de référence applicable). Les 38 critères employés dans la stratégie de notation ESG d'Amundi ont également été conçus pour tenir compte des principaux impacts sur les facteurs de durabilité, ainsi que de la qualité de la réduction entreprise en la matière.
- Engagement : L'engagement est un processus continu et ciblé qui vise à influencer les activités ou le comportement des sociétés bénéficiaires des investissements. L'objectif des activités d'engagement peut se diviser en deux catégories : impliquer un émetteur pour améliorer la manière dont il intègre la dimension environnementale et sociale ou impliquer un émetteur pour améliorer son impact sur les questions environnementales, sociales et liées aux droits humains ou d'autres questions de durabilité qui sont importantes pour la société au sens large et l'économie mondiale.
- Vote : La politique de vote d'Amundi répond à une analyse globale de toutes les questions à long terme qui peuvent influencer la création de valeur, y compris les questions ESG importantes. Pour plus d'informations, veuillez consulter la Politique de vote d'Amundi.
- Surveillance des controverses : Amundi a développé un système de suivi des controverses qui s'appuie sur trois fournisseurs de données externes pour suivre systématiquement l'évolution des controverses et leur niveau de gravité. Cette approche quantitative est ensuite enrichie d'une évaluation approfondie de chaque controverse grave, menée par des analystes ESG, puis d'un examen périodique de son évolution. Cette approche s'applique à tous les fonds d'Amundi.

Pour de plus amples détails sur le mode de prise en compte des indicateurs relatifs aux Principales incidences négatives obligatoires, veuillez consulter la Déclaration sur la publication d'informations en matière de finance durable d'Amundi disponible sur www.amundi.com.

Quels étaient les principaux investissements de ce produit financier ?

La liste inclut les investissements qui constituent **la proportion la plus importante d'investissements** du produit financier au cours de la période de référence, à savoir : **du 01/07/2023 au 30/06/2024**

Principaux investissements	Secteur	Sous-secteur	Pays	% des actifs
EUROBANK ERGASIAS SA	Obligations financières	Banques	Grèce	4.48%
THE SAUDI NATIONAL BANK	Obligations financières	Banques	Arabie saoudite	3.89%
PKO BANK POLSKI	Obligations financières	Banques	Pologne	3.84%
EMAAR PROPERTIES	Investissement et services immobiliers	Gestion et promotion immobilière	Émirats arabes unis	3.51%
NATIONAL BANK OF GREECE SA NEW	Obligations financières	Banques	Grèce	3.29%
CEZ AS	Services aux collectivités	Services aux collectivités – électricité	République Tchèque	3.10%
AL RAJHI BANK	Obligations financières	Banques	Arabie saoudite	2.93%
BANK PEKAO SA	Obligations financières	Banques	Pologne	2.90%
SANTANDER BANK POLSKA SA	Obligations financières	Banques	Pologne	2.36%
MYTILINEOS HOLDINGS	Industrie	Biens d'équipement	Grèce	2.33%
ALLEGRO.EU SA	Consommation discrétionnaire	Distribution et vente au détail de biens de consommation discrétionnaires	Luxembourg	2.24%
POWSZECHNY ZAKLAD UBEZPIECZEN	Obligations financières	Assurance	Pologne	2.10%
ELSWEDY ELECTRIC CO	Industrie	Biens d'équipement	Égypte	2.02%
BIM BIRLESIK MAGAZALAR AS	Biens de consommation de base	Distribution et vente au détail de biens de consommation discrétionnaires	Turquie	1.83%
ABU DHABI NATIONAL OIL COMP	Consommation discrétionnaire	Distribution et vente au détail de biens de consommation discrétionnaires	Émirats arabes unis	1.75%

Quelle était la proportion d'investissements liés à la durabilité ?

● Quelle était l'allocation d'actifs ?

L'allocation d'actifs décrit la part des investissements dans des actifs spécifiques.

La catégorie **N° 1 Alignés sur les caractéristiques E/S** inclut les investissements du produit financier utilisés pour atteindre les caractéristiques environnementales ou sociales promues par le produit financier.

La catégorie **N° 2 Autres** inclut les investissements restants du produit financier qui ne sont ni alignés sur les caractéristiques environnementales ou sociales ni considérés comme investissements durables.

La catégorie **N° 1 Alignés sur les caractéristiques E/S** comprend :

- la sous-catégorie **N° 1A Durables** couvrant les investissements durables sur le plan environnemental et social ;
- la sous-catégorie **N° 1B Autres caractéristiques E/S** couvrant les investissements alignés sur les caractéristiques environnementales ou sociales qui ne sont pas considérés comme des investissements durables.

● Dans quels secteurs économiques ont été réalisés les investissements ?

Secteur	Sous-secteur	% des actifs
Obligations financières	Banques	36.56%
Consommation discrétionnaire	Distribution et vente au détail de biens de consommation discrétionnaires	9.91%
Industrie	Biens d'équipement	7.57%
Biens de consommation de base	Distribution et vente au détail de biens de consommation de base	5.58%
Matériaux	Métaux et exploitation minière	5.49%
Énergie	Pétrole, gaz et combustibles	4.70%

<i>Services aux collectivités</i>	<i>Services aux collectivités – électricité</i>	3.80%
<i>Investissement et services immobiliers</i>	<i>Gestion et promotion immobilière</i>	3.72%
<i>Industrie</i>	<i>Transport</i>	2.40%
<i>Obligations financières</i>	<i>Assurance</i>	2.27%
<i>Obligations financières</i>	<i>Services financiers</i>	2.26%
<i>Consommation discrétionnaire</i>	<i>Services aux consommateurs</i>	1.94%
<i>Santé</i>	<i>Pharmacie, biotechnologie et sciences de la vie</i>	1.87%
<i>Santé</i>	<i>Matériel et services de santé</i>	1.86%
<i>Énergie</i>	<i>Équipement et services énergétiques</i>	1.61%
<i>Services de communication</i>	<i>Télécommunications</i>	1.37%
<i>Biens de consommation de base</i>	<i>Alimentation, boissons et tabac</i>	1.22%
<i>Services de communication</i>	<i>Médias et loisirs</i>	0.94%
<i>Industrie</i>	<i>Services commerciaux et professionnels</i>	0.88%
<i>Matériaux</i>	<i>Chimie</i>	0.73%
<i>Services aux collectivités</i>	<i>Producteurs d'électricité indépendants et producteurs d'électricité renouvelable</i>	0.54%
<i>Technologies de l'information</i>	<i>Logiciels et services</i>	0.54%

<i>Services aux collectivités</i>	<i>Services aux collectivités – eau</i>	<i>0.27%</i>
<i>Obligations financières</i>	<i>Fonds communs de placement</i>	<i>0.00%</i>
<i>Forex</i>	<i>Forex</i>	<i>-0.00%</i>
<i>Liquidités</i>	<i>Liquidités</i>	<i>1.94%</i>

Aux fins d'observer la taxinomie de l'UE, les critères relatifs au **gaz fossile** incluent des limites aux émissions et le passage à une énergie entièrement renouvelable ou à des combustibles à faible teneur en carbone d'ici fin 2035. Pour **l'énergie nucléaire**, les critères incluent des règles exhaustives de sécurité et de gestion des déchets.

Les activités habilitantes permettent directement à d'autres activités de contribuer de manière substantielle à la réalisation d'un objectif environnemental.

Les activités transitoires sont des activités pour lesquelles il n'existe pas encore de solution de remplacement sobre en carbone et, entre autres, dont les niveaux d'émission de gaz à effet de serre correspondent aux meilleures performances réalisables.

Dans quelle mesure les investissements durables ayant un objectif environnemental étaient-ils alignés sur la Taxinomie de l'UE ?

Le fonds promeut des caractéristiques tant environnementales que sociales. Si le fonds ne s'est pas engagé à réaliser des investissements alignés sur la Taxinomie de l'UE, au cours de la période sous revue, il a cependant investi 0.12% dans des investissements durables alignés sur la Taxinomie de l'UE. De tels investissements ont contribué aux objectifs d'atténuation du changement climatique de la taxinomie de l'UE.

L'alignement des sociétés bénéficiaires des investissements sur les objectifs de la taxinomie de l'UE susmentionnés est évalué à l'aide du chiffre d'affaires (ou des revenus) et/ou des données d'utilisation des produits des obligations vertes.

Le pourcentage communiqué d'alignement des investissements du fonds sur la Taxinomie de l'UE n'a pas été audité par le réviseur d'entreprises agréé du fonds ni par aucun tiers.

● Le produit financier a-t-il investi dans des activités liées au gaz fossile et/ou à l'énergie nucléaire qui sont conformes à la Taxinomie de l'UE¹ ?

☐ Oui :

☐ Dans le gaz fossile ☐ Dans l'énergie nucléaire

☒ Non

Aucune donnée fiable concernant l'alignement sur les activités de gaz fossile et d'énergie nucléaire conformes à la Taxinomie de l'UE n'était disponible sur la période.

¹Les activités liées au gaz fossile et/ou à l'énergie nucléaire ne seront conformes à la Taxinomie de l'UE que si elles contribuent à limiter le changement climatique (« atténuation du changement climatique ») et ne causent pas de préjudice important à tout objectif de la Taxinomie de l'UE. L'intégralité des critères relatifs aux activités économiques liées au gaz fossile et à l'énergie nucléaire conformes à la Taxinomie de l'UE sont définis dans le Règlement délégué (UE) 2022/1214 de la Commission.

Les activités alignées sur la taxinomie sont exprimées en pourcentage :

- **du chiffre d'affaires** pour refléter la part des revenus provenant des activités vertes des sociétés bénéficiaires d'investissements ;
- **des dépenses d'investissement (CapEx)** pour montrer les investissements verts réalisés par les sociétés bénéficiaires d'investissements, pour une transition vers une économie verte, par exemple ; et
- **des dépenses d'exploitation (OpEx)** pour refléter les activités opérationnelles vertes des sociétés bénéficiaires d'investissements.

Les graphiques ci-dessous font apparaître en vert le pourcentage d'investissements alignés sur la Taxinomie de l'UE. Étant donné qu'il n'existe pas de méthodologie appropriée pour déterminer l'alignement des obligations souveraines sur la taxinomie, le premier graphique montre l'alignement sur la Taxinomie par rapport à tous les investissements du produit financier, y compris les obligations souveraines, tandis que le deuxième graphique représente l'alignement sur la Taxinomie uniquement par rapport aux investissements du produit financier autres que les obligations souveraines.*

* Aux fins de ces graphiques, les « obligations souveraines » comprennent toutes les expositions souveraines

● Quelle était la part d'investissements dans les activités transitoires et habilitantes ?

Au 30/06/2024, en utilisant le chiffre d'affaires et/ou les données d'utilisation des produits des obligations vertes comme indicateur, la part d'investissements du fonds dans les activités transitoires était de 0.45% et la part d'investissements dans les activités habilitantes était de 1.29%. Le pourcentage communiqué d'alignement des investissements du fonds sur la Taxinomie de l'UE n'a pas été audité par le réviseur d'entreprises agréé du fonds ni par aucun tiers.

● Comment se situe le pourcentage d'investissements alignés sur la Taxinomie de l'UE par rapport aux périodes de référence antérieures ?

À la fin de la période précédente, le pourcentage d'investissements alignés sur la taxinomie était de 0.00%.

Quelle était la part des investissements durables ayant un objectif environnemental qui n'étaient pas alignés sur la Taxinomie de l'UE ?

La part des investissements durables ayant un objectif environnemental et non alignés sur la taxinomie était de **24.96%** à la fin de la période.

Cela tient du fait que certains émetteurs sont considérés comme investissements durables en vertu du Règlement SFDR mais qu'une portion de leurs activités n'est pas alignée sur les standards de la taxinomie de l'UE, ou que les données correspondantes ne sont pas encore disponibles en vue d'une évaluation relative à la taxinomie de l'UE.

Quelle était la part d'investissements durables sur le plan social ?

La proportion des investissements durables sur le plan social était de 3.46% à la fin de la période.

Quels investissements étaient inclus dans la catégorie « Autres », quelle était leur finalité et existait-il des garanties environnementales ou sociales minimales ?

Sont inclus dans la catégorie « N° 2 Autres » les liquidités et autres instruments détenus aux fins de gestion de la liquidité et des risques du portefeuille. Pour les obligations et actions non notées, des garanties environnementales et sociales minimales ont été mises en place par le biais d'un filtrage des émetteurs en rapport aux activités controversées définies dans les principes du Pacte mondial des Nations unies. Elle peut également inclure des titres sans notation ESG pour lesquels les données nécessaires à la mesure de la réalisation des caractéristiques environnementales ou sociales ne sont pas disponibles.

Quelles mesures ont-elles été prises pour réaliser les caractéristiques environnementales et/ou sociales au cours de la période de référence ?

Des indicateurs de durabilité sont mis à disposition de manière continue dans le système de gestion du portefeuille pour permettre aux gestionnaires du portefeuille d'évaluer l'impact de leurs décisions d'investissement.

Ces indicateurs sont intégrés au cadre de contrôle d'AMUNDI, en répartissant les responsabilités entre le premier niveau de contrôles réalisés par les équipes Investissement elles-mêmes, et le second niveau de contrôles réalisé par les équipes Risque, qui surveillent la conformité aux caractéristiques environnementales ou sociales promues en permanence par le fonds.

En outre, la Politique d'investissement responsable d'AMUNDI définit une approche active en matière d'engagement qui promeut le dialogue avec les sociétés bénéficiaires des investissements, y compris celles qui sont incluses dans le portefeuille de ce produit. Notre Rapport annuel en matière d'engagement, disponible à la page <https://about.amundi.com/esg-documentation>, fournit des informations détaillées sur cet engagement et ses résultats.

Quelles ont été les performances de ce produit financier par rapport à l'indice de référence ?

Ce produit ne dispose pas d'un Indice de référence ESG.

● En quoi l'indice de référence diffère-t-il de l'indice de marché large ?

Ce produit ne dispose pas d'un Indice de référence ESG.

● Quelles ont été les performances de ce produit financier par rapport aux indicateurs de durabilité pour déterminer l'alignement de l'indice de référence sur les caractéristiques environnementales ou sociales promues ?

Ce produit ne dispose pas d'un Indice de référence ESG.

● Quelle a été la performance de ce produit financier par rapport à l'indice de référence ?

Ce produit ne dispose pas d'un Indice de référence ESG.

● Quelle a été la performance de ce produit financier par rapport à l'indice de marché large ?

Ce produit ne dispose pas d'un Indice de référence ESG.

Un indice de référence est un indice qui sert à mesurer si le produit financier réalise les caractéristiques environnementales et/ou sociales qu'il promeut.

Informations périodiques pour les produits financiers visés à l'Article 8, paragraphes 1, 2 et 2a, du Règlement (UE) 2019/2088 et à l'Article 6, premier paragraphe du Règlement (UE) 2020/852

Dénomination du produit : AMUNDI FUNDS
EMERGING MARKETS EQUITY FOCUS

Identifiant d'entité juridique :
529900SQFJZNLOBO8Z15

Par investissement durable, on entend un investissement dans une activité économique qui contribue à un objectif environnemental ou social, pour autant qu'il ne cause de préjudice important à aucun de ces objectifs et que les sociétés détenues respectent les pratiques de bonne gouvernance.

La **Taxinomie de l'UE** est un système de classification institué par le Règlement (UE) 2020/852, qui dresse une liste d'**activités économiques durables sur le plan environnemental**. Ce règlement ne comprend pas de liste d'activités économiques durables sur le plan social. Les investissements durables ayant un objectif environnemental ne sont pas nécessairement alignés sur la taxinomie.

Caractéristiques environnementales et/ou sociales

Le produit financier avait-il un objectif d'investissement durable ?

☒ ☐ **Oui** ☒ ☐ **Non**

☐ Il a réalisé des investissements durables ayant un objectif environnemental : _____ ☐ dans des activités économiques qui sont considérées comme durables sur le plan environnemental au titre de la Taxinomie de l'UE ☐ dans des activités économiques qui ne sont pas considérées comme durables sur le plan environnemental au titre de la Taxinomie de l'UE ☐ Il a réalisé des investissements durables ayant un objectif social : _____	☒ Il a promu des caractéristiques environnementales/sociales (E/S) et, bien qu'il n'ait pas eu pour objectif l'investissement durable, il contenait une proportion d'investissements durables de 42.48% ☐ ayant un objectif environnemental dans des activités économiques qui sont considérées comme durables sur le plan environnemental au titre de la Taxinomie de l'UE ☒ ayant un objectif environnemental dans des activités économiques qui ne sont pas considérées comme durables sur le plan environnemental au titre de la Taxinomie de l'UE ☐ ayant un objectif social ☐ Il a promu des caractéristiques E/S, mais n'a pas réalisé d'investissements durables
---	---

Dans quelle mesure les caractéristiques environnementales et/ou sociales promues par ce produit financier ont-elles été réalisées ?

Au cours de l'exercice financier, le produit n'a cessé de promouvoir les caractéristiques environnementales et/ou sociales en cherchant à atteindre une note ESG supérieure à celle de son univers d'investissement **MSCI EM (EMERGING MARKETS)**. Pour déterminer la note ESG du Produit et de l'univers d'investissement ESG, la performance ESG a été évaluée de manière continue en comparant la performance moyenne d'un titre par rapport au secteur de l'émetteur du titre, pour chacune des trois caractéristiques, à savoir environnementale, sociale et de gouvernance.

L'univers d'investissement est un univers du marché général qui n'évalue ni n'inclut pas de composantes en fonction de caractéristiques environnementales et/ou sociales, et qui n'a par conséquent pas pour vocation d'être conforme aux caractéristiques promues par le fonds. Aucun indice de référence ESG n'a été désigné.

Les indicateurs de durabilité évaluent la mesure dans laquelle les caractéristiques environnementales ou sociales promues par le produit financier sont atteintes.

● **Quelle a été la performance des indicateurs de durabilité ?**

Amundi a développé son propre processus de notation ESG interne, qui suit une approche « Best-in-class ». Les notations adaptées à chaque secteur d'activité ont pour objectif d'évaluer la dynamique dans laquelle interviennent les entreprises.

L'indicateur de durabilité employé est la note ESG du Produit mesurée en comparaison avec la note ESG de l'univers d'investissement ESG du Produit.

À la fin de la période :

- La note ESG moyenne pondérée du portefeuille est **0.103 (D)**.
- La note ESG moyenne pondérée de l'univers d'investissement ESG est **-0.099 (D)**.

La notation ESG Amundi utilisée pour déterminer la note ESG est une note ESG quantitative qui se décline en sept niveaux allant de A (les meilleures notes de l'univers) à G (les pires notes). Sur l'échelle de notation ESG d'Amundi, les titres figurant sur la liste d'exclusion correspondent à G. Pour les entreprises émettrices, la performance ESG est évaluée de manière globale et au niveau des critères pertinents par comparaison avec la performance moyenne du secteur, en combinant les trois dimensions ESG :

- Dimension environnementale : cette dimension examine la capacité des émetteurs à contrôler leur impact environnemental direct et indirect, en limitant leur consommation d'énergie, en réduisant leurs émissions de gaz à effet de serre, en luttant contre l'appauvrissement des ressources et en protégeant la biodiversité.
- Dimension sociale : cette dimension évalue le fonctionnement d'un émetteur dans deux domaines différents, à savoir sa stratégie de développement du capital humain et le respect des droits humains en général.
- Dimension de gouvernance : cette dimension évalue la capacité de l'émetteur à garantir les fondements d'un cadre de gouvernance d'entreprise efficace et à générer de la valeur sur le long terme.

La méthodologie appliquée par la notation ESG d'Amundi utilise 38 critères qui sont soit génériques (communs à toutes les entreprises, indépendamment de leur activité) soit spécifiques au secteur, et qui sont pondérés en fonction du secteur et considérés en termes d'impact sur la réputation, l'efficacité opérationnelle et les réglementations concernant un émetteur. Les notations ESG d'Amundi sont susceptibles d'être exprimées de manière globale pour les trois dimensions E, S et G, ou individuellement pour tout facteur environnemental ou social.

● **... et par rapport aux périodes précédentes ?**

À la fin de la période précédente, la note ESG moyenne pondérée du portefeuille était de 0.08 (D) et la note ESG moyenne pondérée de l'univers d'investissement ESG était de -0.10 (D).

● **Quels étaient les objectifs des investissements durables que le produit financier entendait partiellement réaliser, et comment l'investissement durable a-t-il contribué à ces objectifs ?**

Les objectifs des investissements durables sont d'investir dans des sociétés détenues qui cherchent à respecter deux critères :

1. suivre les bonnes pratiques environnementales et sociales ; et
2. éviter de fabriquer des produits ou de fournir des services qui nuisent à l'environnement et à la société.

Pour que la société bénéficiaire d'investissements soit réputée contribuer à l'objectif susmentionné, elle doit figurer parmi les « meilleures performances » de son secteur d'activité pour au moins l'un de ses facteurs environnementaux ou sociaux importants.

La définition de « meilleures performances » repose sur la méthode ESG exclusive d'Amundi, dont l'objectif est de mesurer la performance ESG d'une société bénéficiaire d'investissements. Pour être considérée comme l'une des « meilleures performances », une société bénéficiaire d'investissements doit afficher l'une des trois premières notes (A, B ou C, sur une échelle de notation allant de A à G) dans son secteur pour au moins un facteur environnemental ou social important. Les facteurs environnementaux et sociaux sont identifiés à l'échelle des secteurs. L'identification des facteurs importants est basée sur le cadre d'analyse ESG d'Amundi qui combine des données extra-financières et une analyse qualitative du secteur associé et des questions de durabilité. Les facteurs identifiés

comme importants représentent plus de 10 % de la note ESG globale. Par exemple pour le secteur de l'énergie, les facteurs importants sont les suivants : émissions et énergie, biodiversité et pollution, santé et sécurité, communautés locales et droits humains. Pour un aperçu plus complet des secteurs et des facteurs, veuillez consulter la Déclaration réglementaire ESG d'Amundi disponible sur www.amundi.lu

Pour contribuer aux objectifs ci-dessus, la société bénéficiaire d'investissements ne doit pas avoir d'exposition significative aux activités (par ex. tabac, armes, jeux de hasard, charbon, aviation, production de viande, fabrication d'engrais et de pesticides, production de plastique à usage unique) incompatibles avec ces critères.

Le caractère durable d'un investissement est évalué au niveau de la société bénéficiaire d'investissements.

● ***Dans quelle mesure les investissements durables que le produit financier a partiellement réalisés n'ont-ils pas causé de préjudice important à un objectif d'investissement durable sur le plan environnemental ou social ?***

Pour s'assurer que les investissements durables ne causent pas de préjudice important (principe « Do no significant harm » ou « DNSH » en anglais), Amundi utilise deux filtres :

Le premier filtre de DNSH repose sur le contrôle des indicateurs obligatoires des Principales incidences négatives de l'Annexe 1, Tableau 1 des normes techniques réglementaires (RTS) lorsqu'il existe des données fiables (par ex. Intensité des GES des sociétés bénéficiaires d'investissements) via une combinaison d'indicateurs (par ex. intensité carbone) et des seuils ou règles spécifiques (par ex. que l'intensité carbone de la société bénéficiaire d'investissements n'appartient pas au dernier décile du secteur).

Dans sa politique d'exclusion qui fait partie intégrante de sa Politique d'investissement responsable, Amundi tient d'ores et déjà compte de Principales incidences négatives spécifiques. Ces exclusions, qui s'appliquent en sus des tests détaillés ci-dessus, couvrent les sujets suivants : exclusions sur les armes controversées, les violations des principes du Pacte mondial des Nations Unies, le charbon et le tabac.

Au-delà des facteurs de durabilité spécifiques couverts par le premier filtre, Amundi a défini un second filtre, qui ne tient pas compte des indicateurs obligatoires des Principales incidences négatives ci-dessus, afin de vérifier que la société n'affiche pas de mauvaises performances d'un point de vue environnemental ou social global par rapport aux autres entreprises de son secteur, ce qui correspond à un score environnemental ou social supérieur ou égal à E selon la notation ESG d'Amundi.

- ***Comment les indicateurs concernant les incidences négatives sur les facteurs de durabilité ont-ils été pris en considération ?***

Les indicateurs d'incidences négatives ont été pris en compte comme détaillé dans le premier filtre DNSH ci-dessus.

Le premier filtre DNSH repose sur le contrôle des indicateurs obligatoires des Principales incidences négatives de l'Annexe 1, Tableau 1 du Règlement délégué (UE) 2022/1288 lorsqu'il existe des données fiables via la combinaison des indicateurs suivants et de seuils ou règles spécifiques :

- une intensité en CO2 qui n'appartient pas au dernier décile par rapport aux autres entreprises du secteur (ne s'applique qu'aux secteurs à forte intensité) ;
- un Conseil d'administration dont le niveau de diversité n'appartient pas au dernier décile par rapport aux autres sociétés du secteur ;
- ne pas faire l'objet de controverse relative aux conditions de travail et aux droits humains ; et
- ne pas faire l'objet de controverse relative à la biodiversité et à la pollution.

Dans sa politique d'exclusion qui fait partie intégrante de sa Politique d'investissement responsable, Amundi tient d'ores et déjà compte de Principales incidences négatives spécifiques. Ces exclusions, qui s'appliquent en sus des tests détaillés ci-dessus, couvrent les sujets suivants : exclusions sur les armes controversées, les violations des principes du Pacte mondial des Nations Unies, le charbon et le tabac.

- ***Les investissements durables étaient-ils conformes aux Principes directeurs de l'OCDE à l'intention des entreprises multinationales et aux Principes directeurs des Nations unies relatifs aux entreprises et aux droits humains ? Description détaillée :***

Oui, les Principes directeurs de l'OCDE à l'intention des entreprises multinationales et les Principes directeurs des Nations unies relatifs aux entreprises et aux droits humains sont intégrés à notre méthode de notation ESG. Notre outil de notation ESG exclusif évalue les

Les principales incidences négatives correspondent aux incidences négatives les plus significatives des décisions d'investissement sur les facteurs de durabilité liés aux questions environnementales, sociales et de personnel, au respect des droits humains et à la lutte contre la corruption et les actes de corruption.

émetteurs à l'aide des données disponibles auprès de nos fournisseurs de données. Par exemple, le modèle dispose d'un critère dédié appelé « Implication dans la communauté et droits humains » qui s'applique à tous les secteurs en plus d'autres critères liés aux droits humains, y compris les chaînes d'approvisionnement socialement responsables, les conditions de travail et les relations de travail. En outre, nous effectuons un contrôle des controverses au moins une fois par trimestre, y compris sur les entreprises identifiées pour des violations des droits humains. En cas de controverse, les analystes évaluent la situation, lui donnent une note (à l'aide de notre méthode de notation exclusive) et déterminent la marche à suivre. Les notes de controverse sont mises à jour chaque trimestre pour suivre les tendances et les efforts de correction.

La Taxinomie de l'UE définit un principe consistant à « ne pas causer de préjudice important » (« Do not significant harm » ou DNSH) en vertu duquel les investissements alignés sur la Taxinomie ne doivent pas causer de préjudice important aux objectifs de la Taxinomie de l'UE et s'accompagnent de critères de l'UE spécifiques.

Le principe consistant à « ne pas causer de préjudice important » ne s'applique qu'aux investissements sous-jacents du produit financier qui tiennent compte des critères de l'UE pour les activités économiques durables sur le plan environnemental. Les investissements sous-jacents de la portion restante de ce produit financier ne tiennent pas compte des critères de l'UE en matière d'activités économiques durables sur le plan environnemental.

Tout autre investissement durable doit également se conformer au principe consistant à ne pas causer de préjudice important aux objectifs environnementaux ou sociaux.

Dans quelle mesure ce produit financier a-t-il pris en considération les principales incidences négatives sur les facteurs de durabilité ?

Le produit tient compte de toutes les Principales incidences négatives obligatoires en vertu de l'Annexe 1, Tableau 1 du Règlement délégué (UE) 2022/1288 applicables à la stratégie du produit et s'appuie sur une combinaison de politiques d'exclusion (normatives et sectorielles) et d'approches d'engagement et de vote :

- Exclusion : Amundi a défini des règles d'exclusion normatives, basées sur l'activité et les secteurs, qui couvrent certains des principaux indicateurs négatifs de durabilité énumérés par le Règlement Disclosure (sur la publication d'informations).
- Intégration des facteurs ESG : Amundi a adopté des normes d'intégration ESG minimales appliquées par défaut à ses fonds de type ouvert activement gérés (exclusion des émetteurs ayant la note G et meilleure note ESG moyenne pondérée supérieure à celle de l'indice de référence applicable). Les 38 critères employés dans la stratégie de notation ESG d'Amundi ont également été conçus pour tenir compte des principaux impacts sur les facteurs de durabilité, ainsi que de la qualité de la réduction entreprise en la matière.
- Engagement : L'engagement est un processus continu et ciblé qui vise à influencer les activités ou le comportement des sociétés bénéficiaires d'investissements. L'objectif des activités d'engagement peut se diviser en deux catégories : impliquer un émetteur pour améliorer la manière dont il intègre la dimension environnementale et sociale ou impliquer un émetteur pour améliorer son impact sur les questions environnementales, sociales et liées aux droits humains ou d'autres questions de durabilité qui sont importantes pour la société au sens large et l'économie mondiale.
- Vote : La politique de vote d'Amundi répond à une analyse globale de toutes les questions à long terme qui peuvent influencer la création de valeur, y compris les questions ESG importantes. pour plus d'informations, veuillez consulter la Politique de vote d'Amundi.
- Surveillance des controverses : Amundi a développé un système de suivi des controverses qui s'appuie sur trois fournisseurs de données externes pour suivre systématiquement l'évolution des controverses et leur niveau de gravité. Cette approche quantitative est ensuite enrichie d'une évaluation approfondie de chaque controverse grave, menée par des analystes ESG, puis d'un examen périodique de son évolution. Cette approche s'applique à tous les fonds d'Amundi.

Pour de plus amples détails sur le mode de prise en compte des indicateurs relatifs aux Principales incidences négatives obligatoires, veuillez consulter la Déclaration sur la publication d'informations en matière de finance durable d'Amundi disponible sur www.amundi.com.

Quels étaient les principaux investissements de ce produit financier ?

La liste inclut les investissements qui constituent **la proportion la plus importante d'investissements** du produit financier au cours de la période de référence, à savoir : **du 01/07/2023 au 30/06/2024**

Principaux investissements	Secteur	Sous-secteur	Pays	% des actifs
TAIWAN SEMI-CONDUCTOR MANUFAC	Technologies de l'information	Semi-conducteurs et équipement pour semi-conducteurs	Taiwan	9.66%
TENCENT HOLDINGS LTD	Services de communication	Médias et loisirs	Îles Caïmans	5.03%
SAMSUNG ELECT-PFD	Technologies de l'information	Matériel technologique et équipement	Corée	3.88%
SAMSUNG ELECTRONICS	Technologies de l'information	Matériel technologique et équipement	Corée	2.62%

Services aux collectivités	Services aux collectivités – gaz	0.21%
Forex	Forex	-0.03%
Liquidités	Liquidités	2.45%

Aux fins d'observer la taxinomie de l'UE, les critères relatifs au **gaz fossile** incluent des limites aux émissions et le passage à une énergie entièrement renouvelable ou à des combustibles à faible teneur en carbone d'ici fin 2035. Pour l'**énergie nucléaire**, les critères incluent des règles exhaustives de sécurité et de gestion des déchets.

Les activités habilitantes permettent directement à d'autres activités de contribuer de manière substantielle à la réalisation d'un objectif environnemental.

Dans quelle mesure les investissements durables ayant un objectif environnemental étaient-ils alignés sur la Taxinomie de l'UE ?

Le fonds promeut des caractéristiques tant environnementales que sociales. Si le fonds ne s'est pas engagé à réaliser des investissements alignés sur la taxinomie de l'UE, au cours de la période sous revue, il a cependant investi 0.00% dans des investissements durables alignés sur la taxinomie de l'UE.

- **Le produit financier a-t-il investi dans des activités liées au gaz fossile et/ou à l'énergie nucléaire qui sont conformes à la taxinomie de l'UE¹ ?**

☐

Oui :

☐

Dans le gaz fossile

☐

Dans l'énergie nucléaire

☒

Non

Aucune donnée fiable concernant l'alignement sur les activités de gaz fossile et d'énergie nucléaire conformes à la Taxinomie de l'UE n'était disponible sur la période.

¹ Les activités liées au gaz fossile et/ou à l'énergie nucléaire ne seront conformes à la Taxinomie de l'UE que si elles contribuent à limiter le changement climatique (« réduction du changement climatique ») et ne causent pas de préjudice important à tout objectif de la Taxinomie de l'UE. L'intégralité des critères relatifs aux activités économiques liées au gaz fossile et à l'énergie nucléaire conformes à la Taxinomie de l'UE sont définis dans le Règlement délégué (UE) 2022/1214 de la Commission.

Les activités transitoires sont des activités pour lesquelles il n'existe pas encore de solution de remplacement sobre en carbone et, entre autres, dont les niveaux d'émission de gaz à effet de serre correspondent aux meilleures performances réalisables.

Les activités alignées sur la taxinomie sont exprimées en pourcentage :

- **du chiffre d'affaires** pour refléter la part des revenus provenant des activités vertes des sociétés bénéficiaires d'investissements ;
- **des dépenses d'investissement (CapEx)** pour montrer les investissements verts réalisés par les sociétés bénéficiaires d'investissements, pour une transition vers une économie verte, par exemple ; et
- **des dépenses d'exploitation (OpEx)** pour refléter les activités opérationnelles vertes des sociétés bénéficiaires d'investissements.

Les graphiques ci-dessous font apparaître en vert le pourcentage d'investissements alignés sur la Taxinomie de l'UE. Étant donné qu'il n'existe pas de méthodologie appropriée pour déterminer l'alignement des obligations souveraines* sur la taxinomie, le premier graphique montre l'alignement sur la Taxinomie par rapport à tous les investissements du produit financier, y compris les obligations souveraines, tandis que le deuxième graphique représente l'alignement sur la Taxinomie uniquement par rapport aux investissements du produit financier autres que les obligations souveraines.

* Aux fins de ces graphiques, les « obligations souveraines » comprennent toutes les expositions souveraines

● Quelle était la part d'investissements dans les activités transitoires et habilitantes ?

Au 30/06/2024, en utilisant le chiffre d'affaires et/ou les données d'utilisation des produits des obligations vertes comme indicateur, la part d'investissements du fonds dans les activités transitoires était de 0.00% et la part d'investissements dans les activités habilitantes était de 0.00%. Le pourcentage communiqué d'alignement des investissements du fonds sur la Taxinomie de l'UE n'a pas été audité par le réviseur d'entreprises agréé du fonds ni par aucun tiers.

- **Comment se situe le pourcentage d'investissements alignés sur la taxinomie de l'UE par rapport aux périodes de référence précédentes ?**

À la fin de la période précédente, le pourcentage d'investissements alignés sur la taxinomie était de 0.01%.

 sont des investissements durables ayant un objectif environnemental qui **ne tiennent pas compte des critères** en matière d'activités économiques durables sur le plan environnemental, visés par le Règlement (UE) 2020/852.

- **Quelle était la part des investissements durables ayant un objectif environnemental qui n'étaient pas alignés sur la Taxinomie de l'UE ?**

La part des investissements durables ayant un objectif environnemental et non alignés sur la taxinomie était de **28.45%** à la fin de la période.

Cela tient du fait que certains émetteurs sont considérés comme investissements durables en vertu du Règlement SFDR mais qu'une portion de leurs activités n'est pas alignée sur les standards de la taxinomie de l'UE, ou que les données correspondantes ne sont pas encore disponibles en vue d'une évaluation relative à la taxinomie de l'UE.

- **Quelle était la part d'investissements durables sur le plan social ?**

La proportion des investissements durables sur le plan social était de 14.03% à la fin de la période.

- **Quels investissements étaient inclus dans la catégorie « Autres », quelle était leur finalité et existait-il des garanties environnementales ou sociales minimales ?**

Sont inclus dans la catégorie « N° 2 Autres » les liquidités et autres instruments détenus aux fins de gestion de la liquidité et des risques du portefeuille. Pour les obligations et actions non notées, des garanties environnementales et sociales minimales ont été mises en place par le biais d'un filtrage des émetteurs en rapport aux activités controversées définies dans les principes du Pacte mondial des Nations unies. Elle peut également inclure des titres sans notation ESG pour lesquels les données nécessaires à la mesure de la réalisation des caractéristiques environnementales ou sociales ne sont pas disponibles.

- **Quelles mesures ont-elles été prises pour réaliser les caractéristiques environnementales et/ou sociales au cours de la période de référence ?**

Des indicateurs de durabilité sont mis à disposition de manière continue dans le système de gestion du portefeuille pour permettre aux gestionnaires du portefeuille d'évaluer l'impact de leurs décisions d'investissement.

Ces indicateurs sont intégrés au cadre de contrôle d'AMUNDI, en répartissant les responsabilités entre le premier niveau de contrôles réalisés par les équipes Investissement elles-mêmes, et le second niveau de contrôles réalisé par les équipes Risque, qui surveillent la conformité aux caractéristiques environnementales ou sociales promues en permanence par le fonds.

En outre, la Politique d'investissement responsable d'AMUNDI définit une approche active en matière d'engagement qui promeut le dialogue avec les sociétés bénéficiaires d'investissements, y compris celles qui sont incluses dans le portefeuille de ce produit. Notre Rapport annuel en matière d'engagement, disponible à la page <https://about.amundi.com/esg-documentation>, fournit des informations détaillées sur cet engagement et ses résultats.

Quelles ont été les performances de ce produit financier par rapport à l'indice de référence ?

Un indice de référence est un indice qui sert à mesurer si le produit financier réalise les caractéristiques environnementales et/ou sociales qu'il promet.

Ce produit ne dispose pas d'un Indice de référence ESG.

- ***En quoi l'indice de référence diffère-t-il de l'indice de marché large ?***

Ce produit ne dispose pas d'un Indice de référence ESG.

- ***Quelle a été la performance de ce produit financier par rapport aux indicateurs de durabilité pour déterminer l'alignement de l'indice de référence sur les caractéristiques environnementales ou sociales promues ?***

Ce produit ne dispose pas d'un Indice de référence ESG.

- ***Quelle a été la performance de ce produit financier par rapport à l'indice de référence ?***

Ce produit ne dispose pas d'un Indice de référence ESG.

- ***Quelle a été la performance de ce produit financier par rapport à l'indice de marché large ?***

Ce produit ne dispose pas d'un Indice de référence ESG.

Informations périodiques pour les produits financiers visés à l'Article 8, paragraphes 1, 2 et 2a, du Règlement (UE) 2019/2088 et à l'Article 6, premier paragraphe du Règlement (UE) 2020/852

Dénomination du produit : AMUNDI FUNDS
EMERGING MARKETS EQUITY FOCUS EX CHINA

Identifiant d'entité juridique :
213800S4P03LJPFHD177

Par investissement durable, on entend un investissement dans une activité économique qui contribue à un objectif environnemental ou social, pour autant qu'il ne cause de préjudice important à aucun de ces objectifs et que les sociétés détenues respectent les pratiques de bonne gouvernance.

La **Taxinomie de l'UE** est un système de classification institué par le Règlement (UE) 2020/852, qui dresse une liste d'**activités économiques durables sur le plan environnemental**. Ce règlement ne comprend pas de liste d'activités économiques durables sur le plan social. Les investissements durables ayant un objectif environnemental ne sont pas nécessairement alignés sur la taxinomie.

Caractéristiques environnementales et/ou sociales

Le produit financier avait-il un objectif d'investissement durable ?	
☒ ☐ ☐ Oui	☒ ☐ ☐ X Non
☐ Il a réalisé des investissements durables ayant un objectif environnemental : _____ ☐ dans des activités économiques qui sont considérées comme durables sur le plan environnemental au titre de la Taxinomie de l'UE ☐ dans des activités économiques qui ne sont pas considérées comme durables sur le plan environnemental au titre de la Taxinomie de l'UE	☒ Il a promu des caractéristiques environnementales/sociales (E/S) et, bien qu'il n'ait pas eu pour objectif l'investissement durable, il contenait une proportion d'investissements durables de 36.10% ☐ ayant un objectif environnemental dans des activités économiques qui sont considérées comme durables sur le plan environnemental au titre de la Taxinomie de l'UE ☒ ayant un objectif environnemental dans des activités économiques qui ne sont pas considérées comme durables sur le plan environnemental au titre de la Taxinomie de l'UE ☐ ayant un objectif social
☐ Il a réalisé des investissements durables ayant un objectif social : _____	☐ Il a promu des caractéristiques E/S, mais n'a pas réalisé d'investissements durables

Dans quelle mesure les caractéristiques environnementales et/ou sociales promues par ce produit financier ont-elles été réalisées ?

Au cours de l'exercice financier, le produit n'a cessé de promouvoir les caractéristiques environnementales et/ou sociales en cherchant à atteindre une note ESG supérieure à celle de son univers d'investissement **MSCI EM (EMERGING MARKETS) EX CHINA**. Pour déterminer la note ESG du Produit et de l'univers d'investissement ESG, la performance ESG a été évaluée de manière continue en comparant la performance moyenne d'un titre par rapport au secteur de l'émetteur du titre, pour chacune des trois caractéristiques, à savoir environnementale, sociale et de gouvernance.

L'univers d'investissement est un univers de marché large qui n'évalue ni n'inclut pas de composantes en fonction de caractéristiques environnementales et/ou sociales, et qui n'a par conséquent pas pour vocation d'être conforme aux caractéristiques promues par le fonds. Aucun indice de référence ESG n'a été désigné.

Les indicateurs de durabilité évaluent la mesure dans laquelle les caractéristiques environnementales ou sociales promues par le produit financier sont atteintes.

● **Quelle performance ont affiché les indicateurs de durabilité ?**

Amundi a développé son propre processus de notation ESG interne, qui suit une approche « Best-in-class ». Les notations adaptées à chaque secteur d'activité ont pour objectif d'évaluer la dynamique dans laquelle interviennent les entreprises.

L'indicateur de durabilité employé est la note ESG du Produit mesurée en comparaison avec la note ESG de l'univers d'investissement ESG du Produit.

À la fin de la période :

- La note ESG moyenne pondérée du portefeuille est **0.193 (D)**.
- La note ESG moyenne pondérée de l'univers d'investissement ESG est **0.097 (D)**.

La notation ESG Amundi utilisée pour déterminer la note ESG est une note ESG quantitative qui se décline en sept niveaux allant de A (les meilleures notes de l'univers) à G (les pires notes). Sur l'échelle de notation ESG d'Amundi, les titres figurant sur la liste d'exclusion correspondent à G. Pour les entreprises émettrices, la performance ESG est évaluée de manière globale et au niveau des critères pertinents par comparaison avec la performance moyenne du secteur, en combinant les trois dimensions ESG :

- Dimension environnementale : cette dimension examine la capacité des émetteurs à contrôler leur impact environnemental direct et indirect, en limitant leur consommation d'énergie, en réduisant leurs émissions de gaz à effet de serre, en luttant contre l'appauvrissement des ressources et en protégeant la biodiversité.
- Dimension sociale : cette dimension évalue le fonctionnement d'un émetteur dans deux domaines différents, à savoir sa stratégie de développement du capital humain et le respect des droits humains en général.
- Dimension de gouvernance : cette dimension évalue la capacité de l'émetteur à garantir les fondements d'un cadre de gouvernance d'entreprise efficace et à générer de la valeur sur le long terme.

La méthodologie appliquée par la notation ESG d'Amundi utilise 38 critères qui sont soit génériques (communs à toutes les entreprises, indépendamment de leur activité) soit spécifiques au secteur, et qui sont pondérés en fonction du secteur et considérés en termes d'impact sur la réputation, l'efficacité opérationnelle et les réglementations concernant un émetteur. Les notations ESG d'Amundi sont susceptibles d'être exprimées de manière globale pour les trois dimensions E, S et G, ou individuellement pour tout facteur environnemental ou social.

● **... et par rapport aux périodes antérieures ?**

C'est le premier rapport périodique SFDR produit pour ce compartiment.

● **Quels étaient les objectifs des investissements durables que le produit financier entendait partiellement réaliser, et comment l'investissement durable a-t-il contribué à ces objectifs ?**

Les objectifs des investissements durables sont d'investir dans des sociétés détenues qui cherchent à respecter deux critères :

1. suivre les bonnes pratiques environnementales et sociales ; et
2. éviter de fabriquer des produits ou de fournir des services qui nuisent à l'environnement et à la société.

Pour que la société bénéficiaire des investissements soit réputée contribuer à l'objectif susmentionné, elle doit figurer parmi les « meilleures performances » de son secteur d'activité pour au moins l'un de ses facteurs environnementaux ou sociaux importants.

La définition de « meilleures performances » repose sur la méthode ESG exclusive d'Amundi, dont l'objectif est de mesurer la performance ESG d'une société bénéficiaire des investissements. Pour être considérée comme l'une des « meilleures performances », une société bénéficiaire des investissements doit afficher l'une des trois premières notes (A, B ou C, sur une échelle de notation allant de A à G) dans son secteur pour au moins un facteur environnemental ou social important. Les facteurs environnementaux et sociaux sont identifiés à l'échelle des secteurs. L'identification des facteurs importants est basée sur le cadre d'analyse ESG d'Amundi qui combine des données extra-financières et une analyse qualitative du secteur associé et des questions de durabilité. Les facteurs identifiés comme importants représentent plus de 10 % de la note ESG globale. Par exemple pour le secteur de l'énergie, les facteurs importants sont les suivants : émissions et énergie, biodiversité et pollution, santé et sécurité, communautés locales et droits humains. Pour un aperçu plus complet des secteurs et des facteurs, veuillez consulter la Déclaration réglementaire ESG d'Amundi disponible sur www.amundi.lu

Pour contribuer aux objectifs ci-dessus, la société bénéficiaire des investissements ne doit pas avoir d'exposition significative aux activités (par ex. tabac, armes, jeux de hasard, charbon, aviation, production de viande, fabrication d'engrais et de pesticides, production de plastique à usage unique) incompatibles avec ces critères.

Le caractère durable d'un investissement est évalué au niveau de la société bénéficiaire des investissements.

● ***Dans quelle mesure les investissements durables que le produit financier a partiellement réalisés n'ont-ils pas causé de préjudice important à un objectif d'investissement durable sur le plan environnemental ou social ?***

Pour s'assurer que les investissements durables ne causent pas de préjudice important (principe « Do no significant harm » ou « DNSH » en anglais), Amundi utilise deux filtres :

Le premier filtre de DNSH repose sur le contrôle des indicateurs obligatoires des Principales incidences négatives de l'Annexe 1, Tableau 1 des normes techniques réglementaires (RTS) lorsqu'il existe des données fiables (par ex. Intensité des GES des sociétés bénéficiaires des investissements) via une combinaison d'indicateurs (par ex. intensité carbone) et des seuils ou règles spécifiques (par ex. que l'intensité carbone de la société bénéficiaire des investissements n'appartient pas au dernier décile du secteur).

Dans sa politique d'exclusion qui fait partie intégrante de sa Politique d'investissement responsable, Amundi tient d'ores et déjà compte de Principales incidences négatives spécifiques. Ces exclusions, qui s'appliquent en sus des tests détaillés ci-dessus, couvrent les sujets suivants : exclusions sur les armes controversées, les violations des principes du Pacte mondial des Nations Unies, le charbon et le tabac.

Au-delà des facteurs de durabilité spécifiques couverts par le premier filtre, Amundi a défini un second filtre, qui ne tient pas compte des indicateurs obligatoires des Principales incidences négatives ci-dessus, afin de vérifier que la société n'affiche pas de mauvaises performances d'un point de vue environnemental ou social global par rapport aux autres entreprises de son secteur, ce qui correspond à un score environnemental ou social supérieur ou égal à E selon la notation ESG d'Amundi.

- ***Comment les indicateurs concernant les incidences négatives sur les facteurs de durabilité ont-ils été pris en considération ?***

Les indicateurs d'incidences négatives ont été pris en compte comme détaillé dans le premier filtre DNSH ci-dessus.

Le premier filtre DNSH repose sur le contrôle des indicateurs obligatoires des Principales incidences négatives de l'Annexe 1, Tableau 1 du Règlement délégué (UE) 2022/1288 lorsqu'il existe des données fiables via la combinaison des indicateurs suivants et de seuils ou règles spécifiques :

- une intensité en CO2 qui n'appartient pas au dernier décile par rapport aux autres entreprises du secteur (ne s'applique qu'aux secteurs à forte intensité) ;
- un Conseil d'administration dont le niveau de diversité n'appartient pas au dernier décile par rapport aux autres sociétés du secteur ;
- ne pas faire l'objet de controverse relative aux conditions de travail et aux droits humains ; et
- ne pas faire l'objet de controverse relative à la biodiversité et à la pollution.

Dans sa politique d'exclusion qui fait partie intégrante de sa Politique d'investissement responsable, Amundi tient d'ores et déjà compte de Principales incidences négatives spécifiques. Ces exclusions, qui s'appliquent en sus des tests détaillés ci-dessus, couvrent les sujets suivants : exclusions sur les armes controversées, les violations des principes du Pacte mondial des Nations Unies, le charbon et le tabac.

- ***Les investissements durables étaient-ils conformes aux Principes directeurs de l'OCDE à l'intention des entreprises multinationales et aux Principes directeurs des Nations unies relatifs aux entreprises et aux droits humains ? Description détaillée :***

Oui, les Principes directeurs de l'OCDE à l'intention des entreprises multinationales et les Principes directeurs des Nations unies relatifs aux entreprises et aux droits humains sont intégrés à notre méthode de notation ESG. Notre outil de notation ESG exclusif évalue les émetteurs à l'aide des données disponibles auprès de nos fournisseurs de données. Par exemple, le modèle dispose d'un critère dédié appelé « Implication dans la communauté et droits humains » qui s'applique à tous les secteurs en plus d'autres critères liés aux droits humains, y compris les chaînes d'approvisionnement socialement responsables, les conditions de travail et les relations de travail. En outre, nous effectuons un contrôle des controverses au moins une fois par trimestre, y compris sur les entreprises identifiées pour des violations des droits humains.

Les principales incidences négatives correspondent aux incidences négatives les plus significatives des décisions d'investissement sur les facteurs de durabilité liés aux questions environnementales, sociales et de personnel, au respect des droits humains et à la lutte contre la corruption et les actes de corruption.

En cas de controverse, les analystes évaluent la situation, lui donnent une note (à l'aide de notre méthode de notation exclusive) et déterminent la marche à suivre. Les notes de controverse sont mises à jour chaque trimestre pour suivre les tendances et les efforts de correction.

La Taxinomie de l'UE définit un principe consistant à « ne pas causer de préjudice important » (« Do not significant harm » ou DNSH) en vertu duquel les investissements alignés sur la Taxinomie ne doivent pas causer de préjudice important aux objectifs de la Taxinomie de l'UE et s'accompagnent de critères de l'UE spécifiques.

Le principe consistant à « ne pas causer de préjudice important » ne s'applique qu'aux investissements sous-jacents du produit financier qui tiennent compte des critères de l'UE pour les activités économiques durables sur le plan environnemental. Les investissements sous-jacents de la portion restante de ce produit financier ne tiennent pas compte des critères de l'UE en matière d'activités économiques durables sur le plan environnemental.

Tout autre investissement durable doit également se conformer au principe consistant à ne pas causer de préjudice important aux objectifs environnementaux ou sociaux.

Dans quelle mesure ce produit financier a-t-il pris en considération les principales incidences négatives sur les facteurs de durabilité ?

Le produit tient compte de toutes les Principales incidences négatives obligatoires en vertu de l'Annexe 1, Tableau 1 du Règlement délégué (UE) 2022/1288 applicables à la stratégie du produit et s'appuie sur une combinaison de politiques d'exclusion (normatives et sectorielles) et d'approches d'engagement et de vote :

- Exclusion : Amundi a défini des règles d'exclusion normatives, basées sur l'activité et les secteurs, qui couvrent certains des principaux indicateurs négatifs de durabilité énumérés par le Règlement Disclosure (sur la publication d'informations).
- Intégration des facteurs ESG : Amundi a adopté des normes d'intégration ESG minimales appliquées par défaut à ses fonds de type ouvert activement gérés (exclusion des émetteurs ayant la note G et meilleure note ESG moyenne pondérée supérieure à celle de l'indice de référence applicable). Les 38 critères employés dans la stratégie de notation ESG d'Amundi ont également été conçus pour tenir compte des principaux impacts sur les facteurs de durabilité, ainsi que de la qualité de la réduction entreprise en la matière.
- Engagement : L'engagement est un processus continu et ciblé qui vise à influencer les activités ou le comportement des sociétés bénéficiaires des investissements. L'objectif des activités d'engagement peut se diviser en deux catégories : impliquer un émetteur pour améliorer la manière dont il intègre la dimension environnementale et sociale ou impliquer un émetteur pour améliorer son impact sur les questions environnementales, sociales et liées aux droits humains ou d'autres questions de durabilité qui sont importantes pour la société au sens large et l'économie mondiale.
- Vote : La politique de vote d'Amundi répond à une analyse globale de toutes les questions à long terme qui peuvent influencer la création de valeur, y compris les questions ESG importantes. pour plus d'informations, veuillez consulter la Politique de vote d'Amundi.
- Surveillance des controverses : Amundi a développé un système de suivi des controverses qui s'appuie sur trois fournisseurs de données externes pour suivre systématiquement l'évolution des controverses et leur niveau de gravité. Cette approche quantitative est ensuite enrichie d'une évaluation approfondie de chaque controverse grave, menée par des analystes ESG, puis d'un examen périodique de son évolution. Cette approche s'applique à tous les fonds d'Amundi.

Pour de plus amples détails sur le mode de prise en compte des indicateurs relatifs aux Principales incidences négatives obligatoires, veuillez consulter la Déclaration sur la publication d'informations en matière de finance durable d'Amundi disponible sur www.amundi.com.

Quels étaient les principaux investissements de ce produit financier ?

La liste inclut les investissements qui constituent la proportion la plus importante d'investissements du produit financier au cours de la période de référence, à savoir : du 01/07/2023 au 30/06/2024

Principaux investissements	Secteur	Sous-secteur	Pays	% des actifs
ISHSIV-MSCI INDIA UCITS ETF(LSE)	Obligations financières	Fonds communs de placement	Irlande	9.82%
SAMSUNG ELECT-PFD	Technologies de l'information	Matériel et équipement technologiques	Corée	5.83%
TAIWAN SEMICONDUCTOR MANUFAC	Technologies de l'information	Semi-conducteurs et équipement pour semi-conducteurs	Taïwan	5.38%
TAIWAN SEMICONDUCTOR-SP ADR	Technologies de l'information	Semi-conducteurs et équipement pour semi-conducteurs	Taïwan	4.28%
RELIANCE INDUST-GB-GDR	Énergie	Pétrole, gaz et combustibles	Inde	2.37%
SAMSUNG ELECTRONICS	Technologies de l'information	Matériel et équipement technologiques	Corée	2.19%
BANK CENTRAL ASIA PT	Obligations financières	Banques	Indonésie	1.67%
SK HYNIX INC	Technologies de l'information	Semi-conducteurs et équipement pour semi-conducteurs	Corée	1.57%
ICICI BANK LTD-US-ADR	Obligations financières	Banques	Inde	1.49%
HDFC BANK LTD-ADR	Obligations financières	Banques	Inde	1.39%
EMAAR PROPERTIES	Immobilier	Gestion et promotion immobilière	Émirats Arabes Unis	1.38%
KOC HOLDING	Industrie	Biens d'équipement	Turquie	1.37%
HYUNDAI MOTOR-PFD	Consommation discrétionnaire	Automobiles et composants	Corée	1.34%
GRUPO FINANCIERO BANORTE-O	Obligations financières	Banques	Mexique	1.33%
HANA FINANCIAL HLDG	Obligations financières	Banques	Corée	1.32%

Quelle était la proportion d'investissements liés à la durabilité ?

Quelle était l'allocation d'actifs ?

L'allocation d'actifs décrit la part des investissements dans des actifs spécifiques.

La catégorie **N° 1 Alignés sur les caractéristiques E/S** inclut les investissements du produit financier utilisés pour atteindre les caractéristiques environnementales ou sociales promues par le produit financier.

La catégorie **N° 2 Autres** inclut les investissements restants du produit financier qui ne sont ni alignés sur les caractéristiques environnementales ou sociales ni considérés comme investissements durables.

La catégorie **N° 1 Alignés sur les caractéristiques E/S** comprend :

- la sous-catégorie **N° 1A Durables** couvrant les investissements durables sur le plan environnemental et social ;
- la sous-catégorie **N° 1B Autres caractéristiques E/S** couvrant les investissements alignés sur les caractéristiques environnementales ou sociales qui ne sont pas considérés comme des investissements durables.

● **Dans quels secteurs économiques ont été réalisés les investissements ?**

<i>Liquidités</i>	<i>Liquidités</i>	<i>4.71%</i>

Aux fins d'observer la taxinomie de l'UE, les critères relatifs au **gaz fossile** incluent des limites aux émissions et le passage à une énergie entièrement renouvelable ou à des combustibles à faible teneur en carbone d'ici fin 2035. Pour **l'énergie nucléaire**, les critères incluent des règles exhaustives de sécurité et de gestion des déchets.

Les activités habilitantes permettent directement à d'autres activités de contribuer de manière substantielle à la réalisation d'un objectif environnemental.

Les activités transitoires sont des activités pour lesquelles il n'existe pas encore de solution de remplacement sobre en carbone et, entre autres, dont les niveaux d'émission de gaz à effet de serre correspondent aux meilleures performances réalisables.

Les activités alignées sur la taxinomie sont exprimées en pourcentage :

- **du chiffre d'affaires** pour refléter la part des revenus provenant des activités vertes des sociétés bénéficiaires d'investissements ;
- **des dépenses d'investissement (CapEx)** pour montrer les investissements verts réalisés par les sociétés bénéficiaires d'investissements, pour une transition vers une économie verte, par exemple ; et
- **des dépenses d'exploitation (OpEx)** pour refléter les activités opérationnelles vertes des sociétés bénéficiaires d'investissements.

Dans quelle mesure les investissements durables ayant un objectif environnemental étaient-ils alignés sur la Taxinomie de l'UE ?

Le fonds promeut des caractéristiques tant environnementales que sociales. Si le fonds ne s'est pas engagé à réaliser des investissements alignés sur la Taxinomie de l'UE, au cours de la période sous revue, il a cependant investi 0.00% dans des investissements durables alignés sur la Taxinomie de l'UE.

- **Le produit financier a-t-il investi dans des activités liées au gaz fossile et/ou à l'énergie nucléaire qui sont conformes à la Taxinomie de l'UE¹ ?**

☐ Oui :

Dans le gaz fossile

Dans l'énergie nucléaire

Non

Aucune donnée fiable concernant l'alignement sur les activités de gaz fossile et d'énergie nucléaire conformes à la Taxinomie de l'UE n'était disponible sur la période.

¹ Les activités liées au gaz fossile et/ou à l'énergie nucléaire ne seront conformes à la Taxinomie de l'UE que si elles contribuent à limiter le changement climatique (« réduction du changement climatique ») et ne causent pas de préjudice important à tout objectif de la Taxinomie de l'UE. L'intégralité des critères relatifs aux activités économiques liées au gaz fossile et à l'énergie nucléaire conformes à la Taxinomie de l'UE sont définis dans le Règlement délégué (UE) 2022/1214 de la Commission.

Les graphiques ci-dessous font apparaître en vert le pourcentage d'investissements alignés sur la Taxinomie de l'UE. Étant donné qu'il n'existe pas de méthodologie appropriée pour déterminer l'alignement des obligations souveraines* sur la taxinomie, le premier graphique montre l'alignement sur la Taxinomie par rapport à tous les investissements du produit financier, y compris les obligations souveraines, tandis que le deuxième graphique représente l'alignement sur la Taxinomie uniquement par rapport aux investissements du produit financier autres que les obligations souveraines.

* Aux fins de ces graphiques, les « obligations souveraines » comprennent toutes les expositions souveraines

● **Quelle était la part d'investissements dans les activités transitoires et habilitantes ?**

Au 30/06/2024, en utilisant le chiffre d'affaires et/ou les données d'utilisation des produits des obligations vertes comme indicateur, la part d'investissements du fonds dans les activités transitoires était de 0.01% et la part d'investissements dans les activités habilitantes était de 0.01%. Le pourcentage communiqué d'alignement des investissements du fonds sur la Taxinomie de l'UE n'a pas été audité par le réviseur d'entreprises agréé du fonds ni par aucun tiers.

● **Comment se situe le pourcentage d'investissements alignés sur la Taxinomie de l'UE par rapport aux périodes de référence antérieures ?**

C'est le premier rapport périodique SFDR produit pour ce compartiment.

sont des investissements durables ayant un objectif environnemental qui **ne tiennent pas compte des critères** en matière d'activités économiques durables sur le plan environnemental visés par le Règlement (UE) 2020/852.

● **Quelle était la part des investissements durables ayant un objectif environnemental qui n'étaient pas alignés sur la Taxinomie de l'UE ?**

La part des investissements durables ayant un objectif environnemental et non alignés sur la taxinomie était de **29.22%** à la fin de la période.

Cela tient du fait que certains émetteurs sont considérés comme investissements durables en vertu du Règlement SFDR mais qu'une portion de leurs activités n'est pas alignée sur les standards de la taxinomie de l'UE, ou que les données correspondantes ne sont pas encore disponibles en vue d'une évaluation relative à la taxinomie de l'UE.

● **Quelle était la part d'investissements durables sur le plan social ?**

La proportion des investissements durables sur le plan social était de 6.88% à la fin de la période.

● **Quels investissements étaient inclus dans la catégorie « Autres », quelle était leur finalité et existait-il des garanties environnementales ou sociales minimales ?**

Sont inclus dans la catégorie « N° 2 Autres » les liquidités et autres instruments détenus aux fins de gestion de la liquidité et des risques du portefeuille. Pour les obligations et actions non notées, des garanties environnementales et sociales minimales ont été mises en place par le biais d'un filtrage des émetteurs en rapport aux activités controversées définies dans les principes du Pacte mondial des Nations unies. Elle peut également inclure des titres sans notation ESG pour lesquels les données nécessaires à la mesure de la réalisation des caractéristiques environnementales ou sociales ne sont pas disponibles.

● **Quelles mesures ont-elles été prises pour réaliser les caractéristiques environnementales et/ou sociales au cours de la période de référence ?**

Des indicateurs de durabilité sont mis à disposition de manière continue dans le système de gestion du portefeuille pour permettre aux gestionnaires du portefeuille d'évaluer l'impact de leurs décisions d'investissement.

Ces indicateurs sont intégrés au cadre de contrôle d'AMUNDI, en répartissant les responsabilités entre le premier niveau de contrôles réalisés par les équipes Investissement elles-mêmes, et le second niveau de contrôles réalisé par les équipes Risque, qui surveillent la conformité aux caractéristiques environnementales ou sociales promues en permanence par le fonds.

En outre, la Politique d'investissement responsable d'AMUNDI définit une approche active en matière d'engagement qui promeut le dialogue avec les sociétés bénéficiaires des investissements, y compris celles qui sont incluses dans le portefeuille de ce produit. Notre Rapport annuel en matière d'engagement, disponible à la page <https://about.amundi.com/esg-documentation>, fournit des informations détaillées sur cet engagement et ses résultats.

Quelles ont été les performances de ce produit financier par rapport à l'indice de référence ?

Un indice de référence est un indice qui sert à mesurer si le produit financier réalise les caractéristiques environnementales et/ou sociales qu'il promet.

Ce produit ne dispose pas d'un Indice de référence ESG.

- ***En quoi l'indice de référence diffère-t-il de l'indice de marché large ?***

Ce produit ne dispose pas d'un Indice de référence ESG.

- ***Quelles ont été les performances de ce produit financier par rapport aux indicateurs de durabilité pour déterminer l'alignement de l'indice de référence sur les caractéristiques environnementales ou sociales promues ?***

Ce produit ne dispose pas d'un Indice de référence ESG.

- ***Quelle a été la performance de ce produit financier par rapport à l'indice de référence ?***

Ce produit ne dispose pas d'un Indice de référence ESG.

- ***Quelle a été la performance de ce produit financier par rapport à l'indice de marché large ?***

Ce produit ne dispose pas d'un Indice de référence ESG.

Modèle d'informations périodiques pour les produits financiers visés à l'Article 8, paragraphes 1, 2 et 2a, du Règlement (UE) 2019/2088 et à l'Article 6, premier paragraphe du Règlement (UE) 2020/852

Dénomination du produit : AMUNDI FUNDS
EMERGING MARKETS EQUITY ESG
IMPROVERS

Identifiant d'entité juridique :
213800T17Z9VUK8N7648

Par investissement durable, on entend un investissement dans une activité économique qui contribue à un objectif environnemental ou social, pour autant qu'il ne cause de préjudice important à aucun de ces objectifs et que les sociétés détenues respectent les pratiques de bonne gouvernance.

La **Taxinomie de l'UE** est un système de classification institué par le Règlement (UE) 2020/852, qui dresse une liste d'**activités économiques durables sur le plan environnemental**. Ce règlement ne comprend pas de liste d'activités économiques durables sur le plan social. Les investissements durables ayant un objectif environnemental ne sont pas nécessairement alignés sur la taxinomie.

Caractéristiques environnementales et/ou sociales

Le produit financier avait-il un objectif d'investissement durable ?

Oui

X

Non

Il a réalisé **des investissements durables ayant un objectif environnemental** : _____

dans des activités économiques qui sont considérées comme durables sur le plan environnemental au titre de la Taxinomie de l'UE

dans des activités économiques qui ne sont pas considérées comme durables sur le plan environnemental au titre de la Taxinomie de l'UE

Il a réalisé **des investissements durables ayant un objectif social** : _____

Il a promu des **caractéristiques environnementales/sociales (E/S)** et, bien qu'il n'ait pas eu pour objectif l'investissement durable, il contenait une proportion d'investissements durables de **47.70%**

ayant un objectif environnemental dans des activités économiques qui sont considérées comme durables sur le plan environnemental au titre de la Taxinomie de l'UE

ayant un objectif environnemental dans des activités économiques qui ne sont pas considérées comme durables sur le plan environnemental au titre de la Taxinomie de l'UE

ayant un objectif social

Il a promu des caractéristiques E/S, mais **n'a pas réalisé d'investissements durables**

Dans quelle mesure les caractéristiques environnementales et/ou sociales promues par ce produit financier ont-elles été réalisées ?

Au cours de l'exercice financier, le produit n'a cessé de promouvoir les caractéristiques environnementales et/ou sociales en cherchant à atteindre une note ESG supérieure à celle de son univers d'investissement **MSCI EM (EMERGING MARKETS)**. Pour déterminer la note ESG du Produit et de l'univers d'investissement ESG, la performance ESG a été évaluée de manière continue en comparant la performance moyenne d'un titre par rapport au secteur de l'émetteur du titre, pour chacune des trois caractéristiques, à savoir environnementale, sociale et de gouvernance.

L'univers d'investissement est un univers de marché large qui n'évalue ni n'inclut pas de composantes en fonction de caractéristiques environnementales et/ou sociales, et qui n'a par conséquent pas pour vocation d'être conforme aux caractéristiques promues par le fonds. Aucun indice de référence ESG n'a été désigné.

Le gestionnaire des investissements a concentré le processus de placement sur les entreprises/ secteurs/pays ayant suivi une trajectoire positive en termes de critères ESG au sein de leur activité, ou prévoyant de suivre une telle trajectoire. Le gestionnaire des investissements a identifié des opportunités de placement alignées sur l'objectif de génération d'alpha en se concentrant en particulier sur l'inclusion des entreprises/secteurs/pays qui seront de solides gagnants en termes de critères ESG à l'avenir, qui présentent (ou présenteront) une amélioration favorable du profil ESG, tout en investissant également dans des entreprises/ secteurs/pays qui sont actuellement des références en matière d'ESG.

Par ailleurs, le Compartiment a obtenu pour son portefeuille une note ESG qui est supérieure à celle de l'Indice de référence. Le Compartiment a été comparé à la note ESG de son Indice de référence après avoir exclu dudit Indice de référence 20% des titres présentant les notes ESG les plus faibles.

Les indicateurs de durabilité évaluent la mesure dans laquelle les caractéristiques environnementales ou sociales promues par le produit financier sont atteintes.

● ***Quelle performance ont affiché les indicateurs de durabilité ?***

Amundi a développé son propre processus de notation ESG interne, qui suit une approche « Best-in-class ». Les notations adaptées à chaque secteur d'activité ont pour objectif d'évaluer la dynamique dans laquelle interviennent les entreprises.

L'indicateur de durabilité employé est la note ESG du Produit mesurée en comparaison avec la note ESG de l'univers d'investissement ESG du Produit.

À la fin de la période :

- La note ESG moyenne pondérée du portefeuille est **0.356 (D)**.
- La note ESG moyenne pondérée de l'univers d'investissement ESG est **-0.099 (D)**.

La notation ESG Amundi utilisée pour déterminer la note ESG est une note ESG quantitative qui se décline en sept niveaux allant de A (les meilleures notes de l'univers) à G (les pires notes). Sur l'échelle de notation ESG d'Amundi, les titres figurant sur la liste d'exclusion correspondent à G. Pour les entreprises émettrices, la performance ESG est évaluée de manière globale et au niveau des critères pertinents par comparaison avec la performance moyenne du secteur, en combinant les trois dimensions ESG :

- Dimension environnementale : cette dimension examine la capacité des émetteurs à contrôler leur impact environnemental direct et indirect, en limitant leur consommation d'énergie, en réduisant leurs émissions de gaz à effet de serre, en luttant contre l'appauvrissement des ressources et en protégeant la biodiversité.
- Dimension sociale : cette dimension évalue le fonctionnement d'un émetteur dans deux domaines différents, à savoir sa stratégie de développement du capital humain et le respect des droits humains en général.
- Dimension de gouvernance : cette dimension évalue la capacité de l'émetteur à garantir les fondements d'un cadre de gouvernance d'entreprise efficace et à générer de la valeur sur le long terme.

La méthodologie appliquée par la notation ESG d'Amundi utilise 38 critères qui sont soit génériques (communs à toutes les entreprises, indépendamment de leur activité) soit spécifiques au secteur, et qui sont pondérés en fonction du secteur et considérés en termes d'impact sur la réputation, l'efficacité opérationnelle et les réglementations concernant un émetteur. Les notations ESG d'Amundi sont susceptibles d'être exprimées de manière globale pour les trois dimensions E, S et G, ou individuellement pour tout facteur environnemental ou social.

● ***... et par rapport aux périodes antérieures ?***

À la fin de la période précédente, la note ESG moyenne pondérée du portefeuille était de 0.37 (D) et la note ESG moyenne pondérée de l'univers d'investissement ESG était de -0.10 (D).

● ***Quels étaient les objectifs des investissements durables que le produit financier entendait partiellement réaliser, et comment l'investissement durable a-t-il contribué à ces objectifs ?***

Les objectifs des investissements durables sont d'investir dans des sociétés détenues qui cherchent à respecter deux critères :

1. suivre les bonnes pratiques environnementales et sociales ; et
2. éviter de fabriquer des produits ou de fournir des services qui nuisent à l'environnement et à la société.

Pour que la société bénéficiaire des investissements soit réputée contribuer à l'objectif susmentionné, elle doit figurer parmi les « meilleures performances » de son secteur d'activité pour au moins l'un de ses facteurs environnementaux ou sociaux importants.

La définition de « meilleures performances » repose sur la méthode ESG exclusive d'Amundi, dont l'objectif est de mesurer la performance ESG d'une société bénéficiaire des investissements. Pour être considérée comme l'une des « meilleures performances », une société bénéficiaire des investissements doit afficher l'une des trois premières notes (A, B ou C, sur une échelle de notation allant de A à G) dans son secteur pour au moins un facteur environnemental ou social important. Les facteurs environnementaux et sociaux sont identifiés à l'échelle des secteurs. L'identification des facteurs importants est basée sur le cadre d'analyse ESG d'Amundi qui combine des données extra-financières et une analyse qualitative du secteur associé et des questions de durabilité. Les facteurs identifiés comme importants représentent plus de 10 % de la note ESG globale. Par exemple pour le secteur de l'énergie, les facteurs importants sont les suivants : émissions et énergie, biodiversité et pollution, santé et sécurité, communautés locales et droits humains. Pour un aperçu plus complet des secteurs et des facteurs, veuillez consulter la Déclaration réglementaire ESG d'Amundi disponible sur www.amundi.lu

Pour contribuer aux objectifs ci-dessus, la société bénéficiaire des investissements ne doit pas avoir d'exposition significative aux activités (par ex. tabac, armes, jeux de hasard, charbon, aviation, production de viande, fabrication d'engrais et de pesticides, production de plastique à usage unique) incompatibles avec ces critères.

Le caractère durable d'un investissement est évalué au niveau de la société bénéficiaire des investissements.

● ***Dans quelle mesure les investissements durables que le produit financier a partiellement réalisés n'ont-ils pas causé de préjudice important à un objectif d'investissement durable sur le plan environnemental ou social ?***

Pour s'assurer que les investissements durables ne causent pas de préjudice important (principe « Do no significant harm » ou « DNSH » en anglais), Amundi utilise deux filtres :

Le premier filtre de DNSH repose sur le contrôle des indicateurs obligatoires des Principales incidences négatives de l'Annexe 1, Tableau 1 des normes techniques réglementaires (RTS) lorsqu'il existe des données fiables (par ex. Intensité des GES des sociétés bénéficiaires des investissements) via une combinaison d'indicateurs (par ex. intensité carbone) et des seuils ou règles spécifiques (par ex. que l'intensité carbone de la société bénéficiaire des investissements n'appartient pas au dernier décile du secteur).

Dans sa politique d'exclusion qui fait partie intégrante de sa Politique d'investissement responsable, Amundi tient d'ores et déjà compte de Principales incidences négatives spécifiques. Ces exclusions, qui s'appliquent en sus des tests détaillés ci-dessus, couvrent les sujets suivants : exclusions sur les armes controversées, les violations des principes du Pacte mondial des Nations Unies, le charbon et le tabac.

Au-delà des facteurs de durabilité spécifiques couverts par le premier filtre, Amundi a défini un second filtre, qui ne tient pas compte des indicateurs obligatoires des Principales incidences négatives ci-dessus, afin de vérifier que la société n'affiche pas de mauvaises performances d'un point de vue environnemental ou social global par rapport aux autres entreprises de son secteur, ce qui correspond à un score environnemental ou social supérieur ou égal à E selon la notation ESG d'Amundi.

- ***Comment les indicateurs concernant les incidences négatives sur les facteurs de durabilité ont-ils été pris en considération ?***

Les indicateurs d'incidences négatives ont été pris en compte comme détaillé dans le premier filtre DNSH ci-dessus.

Le premier filtre DNSH repose sur le contrôle des indicateurs obligatoires des Principales incidences négatives de l'Annexe 1, Tableau 1 du Règlement délégué (UE) 2022/1288 lorsqu'il existe des données fiables via la combinaison des indicateurs suivants et de seuils ou règles spécifiques :

- une intensité en CO2 qui n'appartient pas au dernier décile par rapport aux autres entreprises du secteur (ne s'applique qu'aux secteurs à forte intensité) ;

Les principales incidences négatives correspondent aux incidences négatives les plus significatives des décisions d'investissement sur les facteurs de durabilité liés aux questions environnementales, sociales et de personnel, au respect des droits humains et à la lutte contre la corruption et les actes de corruption.

- un Conseil d'administration dont le niveau de diversité n'appartient pas au dernier décile par rapport aux autres sociétés du secteur ;
- ne pas faire l'objet de controverse relative aux conditions de travail et aux droits humains ; et
- ne pas faire l'objet de controverse relative à la biodiversité et à la pollution.

Dans sa politique d'exclusion qui fait partie intégrante de sa Politique d'investissement responsable, Amundi tient d'ores et déjà compte de Principales incidences négatives spécifiques. Ces exclusions, qui s'appliquent en sus des tests détaillés ci-dessus, couvrent les sujets suivants : exclusions sur les armes controversées, les violations des principes du Pacte mondial des Nations Unies, le charbon et le tabac.

- ***Les investissements durables étaient-ils conformes aux Principes directeurs de l'OCDE à l'intention des entreprises multinationales et aux Principes directeurs des Nations unies relatifs aux entreprises et aux droits humains ? Description détaillée :***

Oui, les Principes directeurs de l'OCDE à l'intention des entreprises multinationales et les Principes directeurs des Nations unies relatifs aux entreprises et aux droits humains sont intégrés à notre méthode de notation ESG. Notre outil de notation ESG exclusif évalue les émetteurs à l'aide des données disponibles auprès de nos fournisseurs de données. Par exemple, le modèle dispose d'un critère dédié appelé « Implication dans la communauté et droits humains » qui s'applique à tous les secteurs en plus d'autres critères liés aux droits humains, y compris les chaînes d'approvisionnement socialement responsables, les conditions de travail et les relations de travail. En outre, nous effectuons un contrôle des controverses au moins une fois par trimestre, y compris sur les entreprises identifiées pour des violations des droits humains. En cas de controverse, les analystes évaluent la situation, lui donnent une note (à l'aide de notre méthode de notation exclusive) et déterminent la marche à suivre. Les notes de controverse sont mises à jour chaque trimestre pour suivre les tendances et les efforts de correction.

La Taxinomie de l'UE définit un principe consistant à « ne pas causer de préjudice important » (« Do not significant harm » ou DNSH) en vertu duquel les investissements alignés sur la Taxinomie ne doivent pas causer de préjudice important aux objectifs de la Taxinomie de l'UE et s'accompagnent de critères de l'UE spécifiques.

Le principe consistant à « ne pas causer de préjudice important » ne s'applique qu'aux investissements sous-jacents du produit financier qui tiennent compte des critères de l'UE pour les activités économiques durables sur le plan environnemental. Les investissements sous-jacents de la portion restante de ce produit financier ne tiennent pas compte des critères de l'UE en matière d'activités économiques durables sur le plan environnemental.

Tout autre investissement durable doit également se conformer au principe consistant à ne pas causer de préjudice important aux objectifs environnementaux ou sociaux.

Dans quelle mesure ce produit financier a-t-il pris en considération les principales incidences négatives sur les facteurs de durabilité ?

Le produit tient compte de toutes les Principales incidences négatives obligatoires en vertu de l'Annexe 1, Tableau 1 du Règlement délégué (UE) 2022/1288 applicables à la stratégie du produit et s'appuie sur une combinaison de politiques d'exclusion (normatives et sectorielles) et d'approches d'engagement et de vote :

- Exclusion : Amundi a défini des règles d'exclusion normatives, basées sur l'activité et les secteurs, qui couvrent certains des principaux indicateurs négatifs de durabilité énumérés par le Règlement Disclosure (sur la publication d'informations).
- Intégration des facteurs ESG : Amundi a adopté des normes d'intégration ESG minimales appliquées par défaut à ses fonds de type ouvert activement gérés (exclusion des émetteurs ayant la note G et meilleure note ESG moyenne pondérée supérieure à celle de l'indice de référence applicable). Les 38 critères employés dans la stratégie de notation ESG d'Amundi ont également été conçus pour tenir compte des principaux impacts sur les facteurs de durabilité, ainsi que de la qualité de la réduction entreprise en la matière.

- **Engagement** : L'engagement est un processus continu et ciblé qui vise à influencer les activités ou le comportement des sociétés bénéficiaires des investissements. L'objectif des activités d'engagement peut se diviser en deux catégories : impliquer un émetteur pour améliorer la manière dont il intègre la dimension environnementale et sociale ou impliquer un émetteur pour améliorer son impact sur les questions environnementales, sociales et liées aux droits humains ou d'autres questions de durabilité qui sont importantes pour la société au sens large et l'économie mondiale.
- **Vote** : La politique de vote d'Amundi répond à une analyse globale de toutes les questions à long terme qui peuvent influencer la création de valeur, y compris les questions ESG importantes. pour plus d'informations, veuillez consulter la Politique de vote d'Amundi.
- **Surveillance des controverses** : Amundi a développé un système de suivi des controverses qui s'appuie sur trois fournisseurs de données externes pour suivre systématiquement l'évolution des controverses et leur niveau de gravité. Cette approche quantitative est ensuite enrichie d'une évaluation approfondie de chaque controverse grave, menée par des analystes ESG, puis d'un examen périodique de son évolution. Cette approche s'applique à tous les fonds d'Amundi.

Pour de plus amples détails sur le mode de prise en compte des indicateurs relatifs aux Principales incidences négatives obligatoires, veuillez consulter la Déclaration sur la publication d'informations en matière de finance durable d'Amundi disponible sur www.amundi.com.

Quels étaient les principaux investissements de ce produit financier ?

La liste inclut les investissements qui constituent **la proportion la plus importante d'investissements** du produit financier au cours de la période de référence, à savoir : du **01/07/2023** au **30/06/2024**

Principaux investissements	Secteur	Sous-secteur	Pays	% des actifs
TAIWAN SEMICONDUCTOR-SP ADR	Informations Technologie	Semi-conducteurs et équipement pour informatiques	Taiwan	6.75%
SAMSUNG ELECT-PFD	Informations Technologie	Technologie Matériel et équipements informatiques	Corée	4.11%
AXIS BANK LTD	Obligations financières	Banques	Inde	3.83%

Quelle était la proportion d’investissements liés à la durabilité ?

Quelle était l’allocation d’actifs ?

L’allocation d’actifs décrit la part des investissements dans des actifs spécifiques.

La catégorie **N° 1 Alignés sur les caractéristiques E/S** inclut les investissements du produit financier utilisés pour atteindre les caractéristiques environnementales ou sociales promues par le produit financier.

La catégorie **N° 2 Autres** inclut les investissements restants du produit financier qui ne sont ni alignés sur les caractéristiques environnementales ou sociales ni considérés comme investissements durables.

La catégorie **N° 1 Alignés sur les caractéristiques E/S** comprend :

- la sous-catégorie **N° 1A Durables** couvrant les investissements durables sur le plan environnemental et social ;
- la sous-catégorie **N° 1B Autres caractéristiques E/S** couvrant les investissements alignés sur les caractéristiques environnementales ou sociales qui ne sont pas considérés comme des investissements durables.

Dans quels secteurs économiques ont été réalisés les investissements ?

Secteur	Sous-secteur	% des actifs
Obligations financières	Banques	19.80%

<i>Technologies de l'information</i>	<i>Semi-conducteurs et équipement pour semi-conducteurs</i>	14.94%

Aux fins d'observer la taxinomie de l'UE, les critères relatifs au **gaz fossile** incluent des limites aux émissions et le passage à une énergie entièrement renouvelable ou à des combustibles à faible

Dans quelle mesure les investissements durables ayant un objectif environnemental étaient-ils alignés sur la Taxinomie de l'UE ?

Le fonds promeut des caractéristiques tant environnementales que sociales. Si le fonds ne s'est pas engagé à réaliser des investissements alignés sur la Taxinomie de l'UE, au cours de la période sous revue, il a cependant investi 0.00% dans des investissements durables alignés sur la Taxinomie de l'UE.

teneur en carbone d'ici fin 2035. Pour l'énergie nucléaire, les critères incluent des règles exhaustives de sécurité et de gestion des déchets.

Les activités habilitantes permettent directement à d'autres activités de contribuer de manière substantielle à la réalisation d'un objectif environnemental.

Les activités transitoires sont des activités pour lesquelles il n'existe pas encore de solution de remplacement sobre en carbone et, entre autres, dont les niveaux d'émission de gaz à effet de serre correspondent aux meilleures performances réalisables.

Les activités alignées sur la taxinomie sont exprimées en pourcentage :

- **du chiffre d'affaires** pour refléter la part des revenus provenant des activités vertes des sociétés bénéficiaires d'investissements ;
- **des dépenses d'investissement (CapEx)** pour montrer les investissements verts réalisés par les sociétés bénéficiaires d'investissements, pour une transition vers une économie verte, par exemple ; et
- **des dépenses d'exploitation (OpEx)** pour refléter les activités opérationnelles vertes des sociétés bénéficiaires d'investissements.

● **Le produit financier a-t-il investi dans des activités liées au gaz fossile et/ou à l'énergie nucléaire qui sont conformes à la Taxinomie de l'UE¹ ?**

- ☐ Oui :
- ☐ Dans le gaz fossile ☐ Dans l'énergie nucléaire
- ☒ Non

Aucune donnée fiable concernant l'alignement sur les activités de gaz fossile et d'énergie nucléaire conformes à la Taxinomie de l'UE n'était disponible sur la période.

¹Les activités liées au gaz fossile et/ou à l'énergie nucléaire ne seront conformes à la Taxinomie de l'UE que si elles contribuent à limiter le changement climatique (« atténuation du changement climatique ») et ne causent pas de préjudice important à tout objectif de la Taxinomie de l'UE. L'intégralité des critères relatifs aux activités économiques liées au gaz fossile et à l'énergie nucléaire conformes à la Taxinomie de l'UE sont définis dans le Règlement délégué (UE) 2022/1214 de la Commission.

Les graphiques ci-dessous font apparaître en vert le pourcentage d'investissements alignés sur la Taxinomie de l'UE. Étant donné qu'il n'existe pas de méthodologie appropriée pour déterminer l'alignement des obligations souveraines* sur la taxinomie, le premier graphique montre l'alignement sur la Taxinomie par rapport à tous les investissements du produit financier, y compris les obligations souveraines, tandis que le deuxième graphique représente l'alignement sur la Taxinomie uniquement par rapport aux investissements du produit financier autres que les obligations souveraines.

* Aux fins de ces graphiques, les « obligations souveraines » comprennent toutes les expositions souveraines

● **Quelle était la part d'investissements dans les activités transitoires et habilitantes ?**

Au 30/06/2024, en utilisant le chiffre d'affaires et/ou les données d'utilisation des produits des obligations vertes comme indicateur, la part d'investissements du fonds dans les activités transitoires était de 0.00% et la part d'investissements dans les activités habilitantes était de 0.00%. Le pourcentage communiqué d'alignement des investissements du fonds sur la Taxinomie de l'UE n'a pas été audité par le réviseur d'entreprises agréé du fonds ni par aucun tiers.

● **Comment se situe le pourcentage d'investissements alignés sur la Taxinomie de l'UE par rapport aux périodes de référence antérieures ?**

À la fin de la période précédente, le pourcentage d'investissements alignés sur la taxinomie était de 0.09%.

sont des investissements durables ayant un objectif environnemental qui **ne tiennent pas compte des critères** en matière d'activités économiques durables sur le plan environnemental, visés par le Règlement (UE) 2020/852.

● **Quelle était la part des investissements durables ayant un objectif environnemental qui n'étaient pas alignés sur la Taxinomie de l'UE ?**

La part des investissements durables ayant un objectif environnemental et non alignés sur la taxinomie était de **36.80%** à la fin de la période.

Cela tient du fait que certains émetteurs sont considérés comme investissements durables en vertu du Règlement SFDR mais qu'une portion de leurs activités n'est pas alignée sur les standards de la taxinomie de l'UE, ou que les données correspondantes ne sont pas encore disponibles en vue d'une évaluation relative à la taxinomie de l'UE.

● **Quelle était la part d'investissements durables sur le plan social ?**

La proportion des investissements durables sur le plan social était de 10.90% à la fin de la période.

● **Quels investissements étaient inclus dans la catégorie « Autres », quelle était leur finalité et existait-il des garanties environnementales ou sociales minimales ?**

Sont inclus dans la catégorie « N° 2 Autres » les liquidités et autres instruments détenus aux fins de gestion de la liquidité et des risques du portefeuille. Pour les obligations et actions non notées, des garanties environnementales et sociales minimales ont été mises en place par le biais d'un filtrage des émetteurs en rapport aux activités controversées définies dans les principes du Pacte mondial des Nations unies. Elle peut également inclure des titres sans notation ESG pour lesquels les données nécessaires à la mesure de la réalisation des caractéristiques environnementales ou sociales ne sont pas disponibles.

● **Quelles mesures ont-elles été prises pour réaliser les caractéristiques environnementales et/ou sociales au cours de la période de référence ?**

Des indicateurs de durabilité sont mis à disposition de manière continue dans le système de gestion du portefeuille pour permettre aux gestionnaires du portefeuille d'évaluer l'impact de leurs décisions d'investissement.

Ces indicateurs sont intégrés au cadre de contrôle d'AMUNDI, en répartissant les responsabilités entre le premier niveau de contrôles réalisés par les équipes Investissement elles-mêmes, et le second niveau de contrôles réalisé par les équipes Risque, qui surveillent la conformité aux caractéristiques environnementales ou sociales promues en permanence par le fonds.

En outre, la Politique d'investissement responsable d'AMUNDI définit une approche active en matière d'engagement qui promeut le dialogue avec les sociétés bénéficiaires des investissements, y compris celles qui sont incluses dans le portefeuille de ce produit. Notre Rapport annuel en matière d'engagement, disponible à la page <https://about.amundi.com/esg-documentation>, fournit des informations détaillées sur cet engagement et ses résultats.

Quelles ont été les performances de ce produit financier par rapport à l'indice de référence ?

Un indice de référence est un indice qui sert à mesurer si le produit financier réalise les caractéristiques environnementales et/ou sociales qu'il promeut.

Ce produit ne dispose pas d'un Indice de référence ESG.

- ***En quoi l'indice de référence diffère-t-il de l'indice de marché large ?***

Ce produit ne dispose pas d'un Indice de référence ESG.

- ***Quelles ont été les performances de ce produit financier par rapport aux indicateurs de durabilité pour déterminer l'alignement de l'indice de référence sur les caractéristiques environnementales ou sociales promues ?***

Ce produit ne dispose pas d'un Indice de référence ESG.

- ***Quelle a été la performance de ce produit financier par rapport à l'indice de référence ?***

Ce produit ne dispose pas d'un Indice de référence ESG.

- ***Quelle a été la performance de ce produit financier par rapport à l'indice de marché large ?***

Ce produit ne dispose pas d'un Indice de référence ESG.

Informations périodiques pour les produits financiers visés à l'Article 8, paragraphes 1, 2 et 2a, du Règlement (UE) 2019/2088 et à l'Article 6, premier paragraphe du Règlement (UE) 2020/852

Dénomination du produit : AMUNDI FUNDS
EMERGING WORLD EQUITY

Identifiant d'entité juridique :
529900FMUS31WLI1V843

Par investissement durable, on entend un investissement dans une activité économique qui contribue à un objectif environnemental ou social, pour autant qu'il ne cause de préjudice important à aucun de ces objectifs et que les sociétés détenues respectent les pratiques de bonne gouvernance.

La **Taxinomie de l'UE** est un système de classification institué par le Règlement (UE) 2020/852, qui dresse une liste d'**activités économiques durables sur le plan environnemental**. Ce règlement ne comprend pas de liste d'activités économiques durables sur le plan social. Les investissements durables ayant un objectif environnemental ne sont pas nécessairement alignés sur la taxinomie.

Caractéristiques environnementales et/ou sociales

Le produit financier avait-il un objectif d'investissement durable ?	
☒ ☐ Oui	☒ ☐ Non
☐ Il a réalisé des investissements durables ayant un objectif environnemental : _____ ☐ dans des activités économiques qui sont considérées comme durables sur le plan environnemental au titre de la Taxinomie de l'UE ☐ dans des activités économiques qui ne sont pas considérées comme durables sur le plan environnemental au titre de la Taxinomie de l'UE	☒ Il a promu des caractéristiques environnementales/sociales (E/S) et, bien qu'il n'ait pas eu pour objectif l'investissement durable, il contenait une proportion d'investissements durables de 45.02% ☐ ayant un objectif environnemental dans des activités économiques qui sont considérées comme durables sur le plan environnemental au titre de la Taxinomie de l'UE ☒ ayant un objectif environnemental dans des activités économiques qui ne sont pas considérées comme durables sur le plan environnemental au titre de la Taxinomie de l'UE ☐ ayant un objectif social
☐ Il a réalisé des investissements durables ayant un objectif social : _____	☐ Il a promu des caractéristiques E/S, mais n'a pas réalisé d'investissements durables

Dans quelle mesure les caractéristiques environnementales et/ou sociales promues par ce produit financier ont-elles été réalisées ?

Au cours de l'exercice financier, le produit n'a cessé de promouvoir les caractéristiques environnementales et/ou sociales en cherchant à atteindre une note ESG supérieure à celle de son univers d'investissement **MSCI EM (EMERGING MARKETS)**. Pour déterminer la note ESG du Produit et de l'univers d'investissement ESG, la performance ESG a été évaluée de manière continue en comparant la performance moyenne d'un titre par rapport au secteur de l'émetteur du titre, pour chacune des trois caractéristiques, à savoir environnementale, sociale et de gouvernance.

L'univers d'investissement est un univers du marché général qui n'évalue ni n'inclut pas de composantes en fonction de caractéristiques environnementales et/ou sociales, et qui n'a par conséquent pas pour vocation d'être conforme aux caractéristiques promues par le fonds. Aucun indice de référence ESG n'a été désigné.

Les indicateurs de durabilité évaluent la mesure dans laquelle les caractéristiques environnementales ou sociales promues par le produit financier sont atteintes.

● **Quelle a été la performance des indicateurs de durabilité ?**

Amundi a développé son propre processus de notation ESG interne, qui suit une approche « Best-in-class ». Les notations adaptées à chaque secteur d'activité ont pour objectif d'évaluer la dynamique dans laquelle interviennent les entreprises.

L'indicateur de durabilité employé est la note ESG du Produit mesurée en comparaison avec la note ESG de l'univers d'investissement ESG du Produit.

À la fin de la période :

- La note ESG moyenne pondérée du portefeuille est **0.130 (D)**.
- La note ESG moyenne pondérée de l'univers d'investissement ESG est **-0.099 (D)**.

La notation ESG Amundi utilisée pour déterminer la note ESG est une note ESG quantitative qui se décline en sept niveaux allant de A (les meilleures notes de l'univers) à G (les pires notes). Sur l'échelle de notation ESG d'Amundi, les titres figurant sur la liste d'exclusion correspondent à G. Pour les entreprises émettrices, la performance ESG est évaluée de manière globale et au niveau des critères pertinents par comparaison avec la performance moyenne du secteur, en combinant les trois dimensions ESG :

- Dimension environnementale : cette dimension examine la capacité des émetteurs à contrôler leur impact environnemental direct et indirect, en limitant leur consommation d'énergie, en réduisant leurs émissions de gaz à effet de serre, en luttant contre l'appauvrissement des ressources et en protégeant la biodiversité.
- Dimension sociale : cette dimension évalue le fonctionnement d'un émetteur dans deux domaines différents, à savoir sa stratégie de développement du capital humain et le respect des droits humains en général.
- Dimension de gouvernance : cette dimension évalue la capacité de l'émetteur à garantir les fondements d'un cadre de gouvernance d'entreprise efficace et à générer de la valeur sur le long terme.

La méthodologie appliquée par la notation ESG d'Amundi utilise 38 critères qui sont soit génériques (communs à toutes les entreprises, indépendamment de leur activité) soit spécifiques au secteur, et qui sont pondérés en fonction du secteur et considérés en termes d'impact sur la réputation, l'efficacité opérationnelle et les réglementations concernant un émetteur. Les notations ESG d'Amundi sont susceptibles d'être exprimées de manière globale pour les trois dimensions E, S et G, ou individuellement pour tout facteur environnemental ou social.

● **... et par rapport aux périodes précédentes ?**

À la fin de la période précédente, la note ESG moyenne pondérée du portefeuille était de 0.07 (D) et la note ESG moyenne pondérée de l'univers d'investissement ESG était de -0.10 (D).

● **Quels étaient les objectifs des investissements durables que le produit financier entendait partiellement réaliser, et comment l'investissement durable a-t-il contribué à ces objectifs ?**

Les objectifs des investissements durables sont d'investir dans des sociétés détenues qui cherchent à respecter deux critères :

1. suivre les bonnes pratiques environnementales et sociales ; et
2. éviter de fabriquer des produits ou de fournir des services qui nuisent à l'environnement et à la société.

Pour que la société bénéficiaire d'investissements soit réputée contribuer à l'objectif susmentionné, elle doit figurer parmi les « meilleures performances » de son secteur d'activité pour au moins l'un de ses facteurs environnementaux ou sociaux importants.

La définition de « meilleures performances » repose sur la méthode ESG exclusive d'Amundi, dont l'objectif est de mesurer la performance ESG d'une société bénéficiaire d'investissements. Pour être considérée comme l'une des « meilleures performances », une société bénéficiaire d'investissements doit afficher l'une des trois premières notes (A, B ou C, sur une échelle de notation allant de A à G) dans son secteur pour au moins un facteur environnemental ou social important. Les facteurs environnementaux et sociaux sont identifiés à l'échelle des secteurs. L'identification des facteurs importants est basée sur le cadre d'analyse ESG d'Amundi qui combine des données extra-financières et une analyse qualitative du secteur associé et des questions de durabilité. Les facteurs identifiés

comme importants représentent plus de 10 % de la note ESG globale. Par exemple pour le secteur de l'énergie, les facteurs importants sont les suivants : émissions et énergie, biodiversité et pollution, santé et sécurité, communautés locales et droits humains. Pour un aperçu plus complet des secteurs et des facteurs, veuillez consulter la Déclaration réglementaire ESG d'Amundi disponible sur www.amundi.lu

Pour contribuer aux objectifs ci-dessus, la société bénéficiaire d'investissements ne doit pas avoir d'exposition significative aux activités (par ex. tabac, armes, jeux de hasard, charbon, aviation, production de viande, fabrication d'engrais et de pesticides, production de plastique à usage unique) incompatibles avec ces critères.

Le caractère durable d'un investissement est évalué au niveau de la société bénéficiaire d'investissements.

Les principales incidences négatives correspondent aux incidences négatives les plus significatives des décisions d'investissement sur les facteurs de durabilité liés aux questions environnementales, sociales et de personnel, au respect des droits humains et à la lutte contre la corruption et les actes de corruption.

● ***Dans quelle mesure les investissements durables que le produit financier a partiellement réalisés n'ont-ils pas causé de préjudice important à un objectif d'investissement durable sur le plan environnemental ou social ?***

Pour s'assurer que les investissements durables ne causent pas de préjudice important (principe « Do no significant harm » ou « DNSH » en anglais), Amundi utilise deux filtres :

Le premier filtre de DNSH repose sur le contrôle des indicateurs obligatoires des Principales incidences négatives de l'Annexe 1, Tableau 1 des normes techniques réglementaires (RTS) lorsqu'il existe des données fiables (par ex. Intensité des GES des sociétés bénéficiaires d'investissements) via une combinaison d'indicateurs (par ex. intensité carbone) et des seuils ou règles spécifiques (par ex. que l'intensité carbone de la société bénéficiaire d'investissements n'appartient pas au dernier décile du secteur).

Dans sa politique d'exclusion qui fait partie intégrante de sa Politique d'investissement responsable, Amundi tient d'ores et déjà compte de Principales incidences négatives spécifiques. Ces exclusions, qui s'appliquent en sus des tests détaillés ci-dessus, couvrent les sujets suivants : exclusions sur les armes controversées, les violations des principes du Pacte mondial des Nations Unies, le charbon et le tabac.

Au-delà des facteurs de durabilité spécifiques couverts par le premier filtre, Amundi a défini un second filtre, qui ne tient pas compte des indicateurs obligatoires des Principales incidences négatives ci-dessus, afin de vérifier que la société n'affiche pas de mauvaises performances d'un point de vue environnemental ou social global par rapport aux autres entreprises de son secteur, ce qui correspond à un score environnemental ou social supérieur ou égal à E selon la notation ESG d'Amundi.

- ***Comment les indicateurs concernant les incidences négatives sur les facteurs de durabilité ont-ils été pris en considération ?***

Les indicateurs d'incidences négatives ont été pris en compte comme détaillé dans le premier filtre DNSH ci-dessus.

Le premier filtre DNSH repose sur le contrôle des indicateurs obligatoires des Principales incidences négatives de l'Annexe 1, Tableau 1 du Règlement délégué (UE) 2022/1288 lorsqu'il existe des données fiables via la combinaison des indicateurs suivants et de seuils ou règles spécifiques :

- une intensité en CO2 qui n'appartient pas au dernier décile par rapport aux autres entreprises du secteur (ne s'applique qu'aux secteurs à forte intensité) ;
- un Conseil d'administration dont le niveau de diversité n'appartient pas au dernier décile par rapport aux autres sociétés du secteur ;
- ne pas faire l'objet de controverse relative aux conditions de travail et aux droits humains ; et
- ne pas faire l'objet de controverse relative à la biodiversité et à la pollution.

Dans sa politique d'exclusion qui fait partie intégrante de sa Politique d'investissement responsable, Amundi tient d'ores et déjà compte de Principales incidences négatives spécifiques. Ces exclusions, qui s'appliquent en sus des tests détaillés ci-dessus, couvrent les sujets suivants : exclusions sur les armes controversées, les violations des principes du Pacte mondial des Nations Unies, le charbon et le tabac.

- ***Les investissements durables étaient-ils conformes aux Principes directeurs de l'OCDE à l'intention des entreprises multinationales et aux Principes directeurs des Nations unies relatifs aux entreprises et aux droits humains ? Description détaillée :***

Oui, les Principes directeurs de l'OCDE à l'intention des entreprises multinationales et les Principes directeurs des Nations unies relatifs aux entreprises et aux droits humains sont intégrés

à notre méthode de notation ESG. Notre outil de notation ESG exclusif évalue les émetteurs à l'aide des données disponibles auprès de nos fournisseurs de données. Par exemple, le modèle dispose d'un critère dédié appelé « Implication dans la communauté et droits humains » qui s'applique à tous les secteurs en plus d'autres critères liés aux droits humains, y compris les chaînes d'approvisionnement socialement responsables, les conditions de travail et les relations de travail. En outre, nous effectuons un contrôle des controverses au moins une fois par trimestre, y compris sur les entreprises identifiées pour des violations des droits humains. En cas de controverse, les analystes évaluent la situation, lui donnent une note (à l'aide de notre méthode de notation exclusive) et déterminent la marche à suivre. Les notes de controverse sont mises à jour chaque trimestre pour suivre les tendances et les efforts de correction.

La Taxinomie de l'UE définit un principe consistant à « ne pas causer de préjudice important » (« Do not significant harm » ou DNSH) en vertu duquel les investissements alignés sur la Taxinomie ne doivent pas causer de préjudice important aux objectifs de la Taxinomie de l'UE et s'accompagnent de critères de l'UE spécifiques.

Le principe consistant à « ne pas causer de préjudice important » ne s'applique qu'aux investissements sous-jacents du produit financier qui tiennent compte des critères de l'UE pour les activités économiques durables sur le plan environnemental. Les investissements sous-jacents de la portion restante de ce produit financier ne tiennent pas compte des critères de l'UE en matière d'activités économiques durables sur le plan environnemental.

Tout autre investissement durable doit également se conformer au principe consistant à ne pas causer de préjudice important aux objectifs environnementaux ou sociaux.

Dans quelle mesure ce produit financier a-t-il pris en considération les principales incidences négatives sur les facteurs de durabilité ?

Le produit tient compte de toutes les Principales incidences négatives obligatoires en vertu de l'Annexe 1, Tableau 1 du Règlement délégué (UE) 2022/1288 applicables à la stratégie du produit et s'appuie sur une combinaison de politiques d'exclusion (normatives et sectorielles) et d'approches d'engagement et de vote :

- Exclusion : Amundi a défini des règles d'exclusion normatives, basées sur l'activité et les secteurs, qui couvrent certains des principaux indicateurs négatifs de durabilité énumérés par le Règlement Disclosure (sur la publication d'informations).
- Intégration des facteurs ESG : Amundi a adopté des normes d'intégration ESG minimales appliquées par défaut à ses fonds de type ouvert activement gérés (exclusion des émetteurs ayant la note G et meilleure note ESG moyenne pondérée supérieure à celle de l'indice de référence applicable). Les 38 critères employés dans la stratégie de notation ESG d'Amundi ont également été conçus pour tenir compte des principaux impacts sur les facteurs de durabilité, ainsi que de la qualité de la réduction entreprise en la matière.
- Engagement : L'engagement est un processus continu et ciblé qui vise à influencer les activités ou le comportement des sociétés bénéficiaires d'investissements. L'objectif des activités d'engagement peut se diviser en deux catégories : impliquer un émetteur pour améliorer la manière dont il intègre la dimension environnementale et sociale ou impliquer un émetteur pour améliorer son impact sur les questions environnementales, sociales et liées aux droits humains ou d'autres questions de durabilité qui sont importantes pour la société au sens large et l'économie mondiale.
- Vote : La politique de vote d'Amundi répond à une analyse globale de toutes les questions à long terme qui peuvent influencer la création de valeur, y compris les questions ESG importantes. pour plus d'informations, veuillez consulter la Politique de vote d'Amundi.
- Surveillance des controverses : Amundi a développé un système de suivi des controverses qui s'appuie sur trois fournisseurs de données externes pour suivre systématiquement l'évolution des controverses et leur niveau de gravité. Cette approche quantitative est ensuite enrichie d'une évaluation approfondie de chaque controverse grave, menée par des analystes ESG, puis d'un examen périodique de son évolution. Cette approche s'applique à tous les fonds d'Amundi.

Pour de plus amples détails sur le mode de prise en compte des indicateurs relatifs aux Principales incidences négatives obligatoires, veuillez consulter la Déclaration sur la publication d'informations en matière de finance durable d'Amundi disponible sur www.amundi.com.

Quels étaient les principaux investissements de ce produit financier ?

La liste inclut les investissements qui constituent **la proportion la plus importante d'investissements** du produit financier au cours de la période de référence, à savoir : **du 01/07/2023 au 30/06/2024**

Principaux investissements	Secteur	Sous-secteur	Pays	% des actifs
TAIWAN SEMICONDUCTOR MANUFAC	Technologies de l'information	Semi-conducteurs et équipement pour semi-conducteurs	Taïwan	9.66%
TENCENT HOLDINGS LTD	Services de communication	Médias et loisirs	Îles Caïmans	4.96%
SAMSUNG ELECTRONICS	Technologies de l'information	Matériel technologique et équipement	Corée	3.69%
SAMSUNG ELECT-PFD	Technologies de l'information	Matériel technologique et équipement	Corée	2.26%
RELIANCE INDUSTRIES LTD	Énergie	Pétrole, gaz et combustibles	Inde	1.90%
AMUNDI MMST (USD)-OV	Obligations financières	Fonds communs de placement	Luxembourg	1.78%
A-F CASH USD - Z USD	Obligations financières	Fonds communs de placement	Luxembourg	1.75%
HDFC BANK LIMITED	Obligations financières	Banques	Inde	1.62%
HANA FINANCIAL HLDG	Obligations financières	Banques	Corée	1.43%
ALIBABA GROUP HOLDING LTD	Consommation discrétionnaire	Distribution et vente au détail de biens de consommation discrétionnaires	Îles Caïmans	1.36%
BANK CENTRAL ASIA PT	Obligations financières	Banques	Indonésie	1.35%
SK HYNIX INC	Technologies de l'information	Semi-conducteurs et équipement pour semi-conducteurs	Corée	1.28%
INFOSYS LTD	Technologies de l'information	Logiciels et services	Inde	1.08%
HINDALCO INDS	Matériaux	Métaux et exploitation minière	Inde	1.04%
BANCO DO BRASIL	Obligations financières	Banques	Brésil	1.02%

Quelle était la proportion d'investissements liés à la durabilité ?

● Quelle était l'allocation d'actifs ?

L'allocation d'actifs décrit la part des investissements dans des actifs spécifiques.

La catégorie **N° 1 Alignés sur les caractéristiques E/S** inclut les investissements du produit financier utilisés pour atteindre les caractéristiques environnementales ou sociales promues par le produit financier.

La catégorie **N° 2 Autres** inclut les investissements restants du produit financier qui ne sont ni alignés sur les caractéristiques environnementales ou sociales ni considérés comme investissements durables.

La catégorie **N° 1 Alignés sur les caractéristiques E/S** comprend :

- la sous-catégorie **N° 1A Durables** couvrant les investissements durables sur le plan environnemental et social ;

- la sous-catégorie **N° 1B Autres caractéristiques E/S** couvrant les investissements alignés sur les caractéristiques environnementales ou sociales qui ne sont pas considérés comme des investissements durables.

● **Dans quels secteurs économiques ont été réalisés les investissements ?**

Secteur	Sous-secteur	% des actifs
Obligations financières	Banques	14.41%
Technologies de l'information	Semi-conducteurs et équipement pour semi-conducteurs	11.26%
Technologies de l'information	Matériel technologique et équipement	8.31%
Industrie	Biens d'équipement	6.88%
Services de communication	Médias et loisirs	6.31%
Biens de consommation de base	Alimentation, boissons et tabac	4.97%
Consommation discrétionnaire	Distribution et vente au détail de biens de consommation discrétionnaires	4.96%

<i>Obligations financières</i>	<i>Fonds communs de placement</i>	4.88%
<i>Immobilier</i>	<i>Gestion et promotion immobilière</i>	4.72%
<i>Énergie</i>	<i>Pétrole, gaz et combustibles</i>	3.86%

Forex	Forex	-0.02%
Liquidités	Liquidités	0.58%

Aux fins d'observer la taxinomie de l'UE, les critères relatifs au **gaz fossile** incluent des limites aux émissions et le passage à une énergie entièrement renouvelable ou à des combustibles à faible teneur en carbone d'ici fin 2035. Pour l'**énergie nucléaire**, les critères incluent des règles exhaustives de sécurité et de gestion des déchets.

Les activités habilitantes permettent directement à d'autres activités

Dans quelle mesure les investissements durables ayant un objectif environnemental étaient-ils alignés sur la Taxinomie de l'UE ?

Le fonds promeut des caractéristiques tant environnementales que sociales. Si le fonds ne s'est pas engagé à réaliser des investissements alignés sur la Taxinomie de l'UE, au cours de la période sous revue, il a cependant investi 0.02% dans des investissements durables alignés sur la Taxinomie de l'UE. De tels investissements ont contribué aux objectifs d'atténuation du changement climatique de la taxinomie de l'UE.

L'alignement des sociétés bénéficiaires d'investissements sur les objectifs de la Taxinomie de l'UE susmentionnés est évalué à l'aide du chiffre d'affaires (ou des revenus) et/ou des données d'utilisation des produits des obligations vertes.

Le pourcentage communiqué d'alignement des investissements du fonds sur la Taxinomie de l'UE n'a pas été audité par le réviseur d'entreprises agréé du fonds ni par aucun tiers.

● Le produit financier a-t-il investi dans des activités liées au gaz fossile et/ou à l'énergie nucléaire qui sont conformes à la taxinomie de l'UE¹ ?

☐

Oui :

☐

Dans le gaz fossile

☐

Dans l'énergie nucléaire

de contribuer de manière substantielle à la réalisation d'un objectif environnemental.

☒ Non

Les activités transitoires sont des activités pour lesquelles il n'existe pas encore de solution de remplacement sobre en carbone et, entre autres, dont les niveaux d'émission de gaz à effet de serre correspondent aux meilleures performances réalisables.

Les activités alignées sur la taxinomie sont exprimées en pourcentage :

- **du chiffre d'affaires** pour refléter la part des revenus provenant des activités vertes des sociétés bénéficiaires d'investissements ;
- **des dépenses d'investissement (CapEx)** pour montrer les investissements verts réalisés par les sociétés bénéficiaires d'investissements, pour une transition vers une économie verte, par exemple ; et
- **des dépenses d'exploitation (OpEx)** pour refléter les activités opérationnelles vertes des sociétés bénéficiaires d'investissements.

Aucune donnée fiable concernant l'alignement sur les activités de gaz fossile et d'énergie nucléaire conformes à la Taxinomie de l'UE n'était disponible sur la période.

¹ Les activités liées au gaz fossile et/ou à l'énergie nucléaire ne seront conformes à la Taxinomie de l'UE que si elles contribuent à limiter le changement climatique (« réduction du changement climatique ») et ne causent pas de préjudice important à tout objectif de la Taxinomie de l'UE. L'intégralité des critères relatifs aux activités économiques liées au gaz fossile et à l'énergie nucléaire conformes à la Taxinomie de l'UE sont définis dans le Règlement délégué (UE) 2022/1214 de la Commission.

Les graphiques ci-dessous font apparaître en vert le pourcentage d'investissements alignés sur la Taxinomie de l'UE. Étant donné qu'il n'existe pas de méthodologie appropriée pour déterminer l'alignement des obligations souveraines* sur la taxinomie, le premier graphique montre l'alignement sur la Taxinomie par rapport à tous les investissements du produit financier, y compris les obligations souveraines, tandis que le deuxième graphique représente l'alignement sur la Taxinomie uniquement par rapport aux investissements du produit financier autres que les obligations souveraines.

* Aux fins de ces graphiques, les « obligations souveraines » comprennent toutes les expositions souveraines

● Quelle était la part d'investissements dans les activités transitoires et habilitantes ?

Au 30/06/2024, en utilisant le chiffre d'affaires et/ou les données d'utilisation des produits des obligations vertes comme indicateur, la part d'investissements du fonds dans les activités transitoires était de 0.00% et la part d'investissements dans les activités habilitantes était de 0.00%. Le pourcentage communiqué d'alignement des investissements du fonds sur la Taxinomie de l'UE n'a pas été audité par le réviseur d'entreprises agréé du fonds ni par aucun tiers.

● Comment se situe le pourcentage d'investissements alignés sur la taxinomie de l'UE par rapport aux périodes de référence précédentes ?

À la fin de la période précédente, le pourcentage d'investissements alignés sur la taxinomie était de 0.02%.

sont des investissements durables ayant un objectif environnemental **qui ne tiennent pas compte des critères** en matière d'activités économiques durables sur le plan environnemental visés par le Règlement (UE) 2020/852.

Quelle était la part des investissements durables ayant un objectif environnemental qui n'étaient pas alignés sur la Taxinomie de l'UE ?

La part des investissements durables ayant un objectif environnemental et non alignés sur la taxinomie était de **31.35%** à la fin de la période.

Cela tient du fait que certains émetteurs sont considérés comme investissements durables en vertu du Règlement SFDR mais qu'une portion de leurs activités n'est pas alignée sur les standards de la taxinomie de l'UE, ou que les données correspondantes ne sont pas encore disponibles en vue d'une évaluation relative à la taxinomie de l'UE.

Quelle était la part d'investissements durables sur le plan social ?

La proportion des investissements durables sur le plan social était de 13.65% à la fin de la période.

Quels investissements étaient inclus dans la catégorie « Autres », quelle était leur finalité et existait-il des garanties environnementales ou sociales minimales ?

Sont inclus dans la catégorie « N° 2 Autres » les liquidités et autres instruments détenus aux fins de gestion de la liquidité et des risques du portefeuille. Pour les obligations et actions non notées, des garanties environnementales et sociales minimales ont été mises en place par le biais d'un filtrage des émetteurs en rapport aux activités controversées définies dans les principes du Pacte mondial des Nations unies. Elle peut également inclure des titres sans notation ESG pour lesquels les données nécessaires à la mesure de la réalisation des caractéristiques environnementales ou sociales ne sont pas disponibles.

Quelles mesures ont-elles été prises pour réaliser les caractéristiques environnementales et/ou sociales au cours de la période de référence ?

Des indicateurs de durabilité sont mis à disposition de manière continue dans le système de gestion du portefeuille pour permettre aux gestionnaires du portefeuille d'évaluer l'impact de leurs décisions d'investissement.

Ces indicateurs sont intégrés au cadre de contrôle d'AMUNDI, en répartissant les responsabilités entre le premier niveau de contrôles réalisés par les équipes Investissement elles-mêmes, et le second niveau de contrôles réalisé par les équipes Risque, qui surveillent la conformité aux caractéristiques environnementales ou sociales promues en permanence par le fonds.

En outre, la Politique d'investissement responsable d'AMUNDI définit une approche active en matière d'engagement qui promeut le dialogue avec les sociétés bénéficiaires d'investissements, y compris celles qui sont incluses dans le portefeuille de ce produit. Notre Rapport annuel en matière d'engagement, disponible à la page <https://about.amundi.com/esg-documentation>, fournit des informations détaillées sur cet engagement et ses résultats.

Quelles ont été les performances de ce produit financier par rapport à l'indice de référence ?

Un indice de référence est un indice qui sert à mesurer si le produit financier réalise les caractéristiques environnementales et/ou sociales qu'il promet.

Ce produit ne dispose pas d'un Indice de référence ESG.

- ***En quoi l'indice de référence diffère-t-il de l'indice de marché large ?***

Ce produit ne dispose pas d'un Indice de référence ESG.

- ***Quelle a été la performance de ce produit financier par rapport aux indicateurs de durabilité pour déterminer l'alignement de l'indice de référence sur les caractéristiques environnementales ou sociales promues ?***

Ce produit ne dispose pas d'un Indice de référence ESG.

- ***Quelle a été la performance de ce produit financier par rapport à l'indice de référence ?***

Ce produit ne dispose pas d'un Indice de référence ESG.

- ***Quelle a été la performance de ce produit financier par rapport à l'indice de marché large ?***

Ce produit ne dispose pas d'un Indice de référence ESG.

Informations périodiques pour les produits financiers visés à l'Article 8, paragraphes 1, 2 et 2a, du Règlement (UE) 2019/2088 et à l'Article 6, premier paragraphe du Règlement (UE) 2020/852

Dénomination du produit : AMUNDI FUNDS LATIN AMERICA EQUITY

Identifiant d'entité juridique : 529900S2PKB89W9KIR25

Par investissement durable, on entend un investissement dans une activité économique qui contribue à un objectif environnemental ou social, pour autant qu'il ne cause de préjudice important à aucun de ces objectifs et que les sociétés détenues respectent les pratiques de bonne gouvernance.

La Taxinomie de l'UE est un système de classification institué par le Règlement (UE) 2020/852, qui dresse une liste d'**activités économiques durables sur le plan environnemental**. Ce règlement ne comprend pas de liste d'activités économiques durables sur le plan social. Les investissements durables ayant un objectif environnemental ne sont pas nécessairement alignés sur la taxinomie.

Caractéristiques environnementales et/ou sociales

Le produit financier avait-il un objectif d'investissement durable ?	
☒ ☐ Oui	☒ ☐ X Non
☐ Il a réalisé des investissements durables ayant un objectif environnemental : _____ ☐ dans des activités économiques qui sont considérées comme durables sur le plan environnemental au titre de la Taxinomie de l'UE ☐ dans des activités économiques qui ne sont pas considérées comme durables sur le plan environnemental au titre de la Taxinomie de l'UE ☐ Il a réalisé des investissements durables ayant un objectif social : _____	☒ Il a promu des caractéristiques environnementales/sociales (E/S) et, bien qu'il n'ait pas eu pour objectif l'investissement durable, il contenait une proportion d'investissements durables de <u>39.86%</u> ☐ ayant un objectif environnemental dans des activités économiques qui sont considérées comme durables sur le plan environnemental au titre de la Taxinomie de l'UE ☒ ayant un objectif environnemental dans des activités économiques qui ne sont pas considérées comme durables sur le plan environnemental au titre de la Taxinomie de l'UE ☐ ayant un objectif social ☐ Il a promu des caractéristiques E/S, mais n'a pas réalisé d'investissements durables

Dans quelle mesure les caractéristiques environnementales et/ou sociales promues par ce produit financier ont-elles été réalisées ?

Au cours de l'exercice financier, le produit n'a cessé de promouvoir les caractéristiques environnementales et/ou sociales en cherchant à atteindre une note ESG supérieure à celle de son univers d'investissement **MSCI EM LATIN AMERICA**. Pour déterminer la note ESG du Produit et de l'univers d'investissement ESG, la performance ESG a été évaluée de manière continue en comparant la performance moyenne d'un titre par rapport au secteur de l'émetteur du titre, pour chacune des trois caractéristiques, à savoir environnementale, sociale et de gouvernance.

L'univers d'investissement est un univers de marché large qui n'évalue ni n'inclut pas de composantes en fonction de caractéristiques environnementales et/ou sociales, et qui n'a par conséquent pas pour vocation d'être conforme aux caractéristiques promues par le fonds. Aucun indice de référence ESG n'a été désigné.

Les indicateurs de durabilité évaluent la mesure dans laquelle les caractéristiques environnementales ou sociales promues par le produit financier sont atteintes.

● **Quelle performance ont affiché les indicateurs de durabilité ?**

Amundi a développé son propre processus de notation ESG interne, qui suit une approche « Best-in-class ». Les notations adaptées à chaque secteur d'activité ont pour objectif d'évaluer la dynamique dans laquelle interviennent les entreprises.

L'indicateur de durabilité employé est la note ESG du Produit mesurée en comparaison avec la note ESG de l'univers d'investissement ESG du Produit.

À la fin de la période :

- La note ESG moyenne pondérée du portefeuille est **0.217 (D)**.
- La note ESG moyenne pondérée de l'univers d'investissement ESG est **0.158 (D)**.

La notation ESG Amundi utilisée pour déterminer la note ESG est une note ESG quantitative qui se décline en sept niveaux allant de A (les meilleures notes de l'univers) à G (les pires notes). Sur l'échelle de notation ESG d'Amundi, les titres figurant sur la liste d'exclusion correspondent à G. Pour les entreprises émettrices, la performance ESG est évaluée de manière globale et au niveau des critères pertinents par comparaison avec la performance moyenne du secteur, en combinant les trois dimensions ESG :

- Dimension environnementale : cette dimension examine la capacité des émetteurs à contrôler leur impact environnemental direct et indirect, en limitant leur consommation d'énergie, en réduisant leurs émissions de gaz à effet de serre, en luttant contre l'appauvrissement des ressources et en protégeant la biodiversité.
- Dimension sociale : cette dimension évalue le fonctionnement d'un émetteur dans deux domaines différents, à savoir sa stratégie de développement du capital humain et le respect des droits humains en général.
- Dimension de gouvernance : cette dimension évalue la capacité de l'émetteur à garantir les fondements d'un cadre de gouvernance d'entreprise efficace et à générer de la valeur sur le long terme.

La méthodologie appliquée par la notation ESG d'Amundi utilise 38 critères qui sont soit génériques (communs à toutes les entreprises, indépendamment de leur activité) soit spécifiques au secteur, et qui sont pondérés en fonction du secteur et considérés en termes d'impact sur la réputation, l'efficacité opérationnelle et les réglementations concernant un émetteur. Les notations ESG d'Amundi sont susceptibles d'être exprimées de manière globale pour les trois dimensions E, S et G, ou individuellement pour tout facteur environnemental ou social.

● **... et par rapport aux périodes antérieures ?**

À la fin de la période précédente, la note ESG moyenne pondérée du portefeuille était de 0.33 (D) et la note ESG moyenne pondérée de l'univers d'investissement ESG était de 0.20 (D).

● **Quels étaient les objectifs des investissements durables que le produit financier entendait partiellement réaliser, et comment l'investissement durable a-t-il contribué à ces objectifs ?**

Les objectifs des investissements durables sont d'investir dans des sociétés détenues qui cherchent à respecter deux critères :

1. suivre les bonnes pratiques environnementales et sociales ; et
2. éviter de fabriquer des produits ou de fournir des services qui nuisent à l'environnement et à la société.

Pour que la société bénéficiaire des investissements soit réputée contribuer à l'objectif susmentionné, elle doit figurer parmi les « meilleures performances » de son secteur d'activité pour au moins l'un de ses facteurs environnementaux ou sociaux importants.

La définition de « meilleures performances » repose sur la méthode ESG exclusive d'Amundi, dont l'objectif est de mesurer la performance ESG d'une société bénéficiaire des investissements. Pour être considérée comme l'une des « meilleures performances », une société bénéficiaire des investissements doit afficher l'une des trois premières notes (A, B ou C, sur une échelle de notation allant de A à G) dans son secteur pour au moins un facteur environnemental ou social important. Les facteurs environnementaux et sociaux sont identifiés à l'échelle des secteurs. L'identification des facteurs importants est basée sur le cadre d'analyse ESG d'Amundi qui combine des données extra-financières et une analyse qualitative du secteur associé et des questions de durabilité. Les facteurs identifiés

comme importants représentent plus de 10 % de la note ESG globale. Par exemple pour le secteur de l'énergie, les facteurs importants sont les suivants : émissions et énergie, biodiversité et pollution, santé et sécurité, communautés locales et droits humains. Pour un aperçu plus complet des secteurs et des facteurs, veuillez consulter la Déclaration réglementaire ESG d'Amundi disponible sur www.amundi.lu

Pour contribuer aux objectifs ci-dessus, la société bénéficiaire des investissements ne doit pas avoir d'exposition significative aux activités (par ex. tabac, armes, jeux de hasard, charbon, aviation, production de viande, fabrication d'engrais et de pesticides, production de plastique à usage unique) incompatibles avec ces critères.

Le caractère durable d'un investissement est évalué au niveau de la société bénéficiaire des investissements.

Les principales incidences négatives

correspondent aux incidences négatives les plus significatives des décisions d'investissement sur les facteurs de durabilité liés aux questions environnementales, sociales et de personnel, au respect des droits humains et à la lutte contre la corruption et les actes de corruption.

● ***Dans quelle mesure les investissements durables que le produit financier a partiellement réalisés n'ont-ils pas causé de préjudice important à un objectif d'investissement durable sur le plan environnemental ou social ?***

Pour s'assurer que les investissements durables ne causent pas de préjudice important (principe « Do no significant harm » ou « DNSH » en anglais), Amundi utilise deux filtres :

Le premier filtre de DNSH repose sur le contrôle des indicateurs obligatoires des Principales incidences négatives de l'Annexe 1, Tableau 1 des normes techniques réglementaires (RTS) lorsqu'il existe des données fiables (par ex. Intensité des GES des sociétés bénéficiaires des investissements) via une combinaison d'indicateurs (par ex. intensité carbone) et des seuils ou règles spécifiques (par ex. que l'intensité carbone de la société bénéficiaire des investissements n'appartient pas au dernier décile du secteur).

Dans sa politique d'exclusion qui fait partie intégrante de sa Politique d'investissement responsable, Amundi tient d'ores et déjà compte de Principales incidences négatives spécifiques. Ces exclusions, qui s'appliquent en sus des tests détaillés ci-dessus, couvrent les sujets suivants : exclusions sur les armes controversées, les violations des principes du Pacte mondial des Nations Unies, le charbon et le tabac.

Au-delà des facteurs de durabilité spécifiques couverts par le premier filtre, Amundi a défini un second filtre, qui ne tient pas compte des indicateurs obligatoires des Principales incidences négatives ci-dessus, afin de vérifier que la société n'affiche pas de mauvaises performances d'un point de vue environnemental ou social global par rapport aux autres entreprises de son secteur, ce qui correspond à un score environnemental ou social supérieur ou égal à E selon la notation ESG d'Amundi.

- ***Comment les indicateurs concernant les incidences négatives sur les facteurs de durabilité ont-ils été pris en considération ?***

Les indicateurs d'incidences négatives ont été pris en compte comme détaillé dans le premier filtre DNSH ci-dessus.

Le premier filtre DNSH repose sur le contrôle des indicateurs obligatoires des Principales incidences négatives de l'Annexe 1, Tableau 1 du Règlement délégué (UE) 2022/1288 lorsqu'il existe des données fiables via la combinaison des indicateurs suivants et de seuils ou règles spécifiques :

- une intensité en CO2 qui n'appartient pas au dernier décile par rapport aux autres entreprises du secteur (ne s'applique qu'aux secteurs à forte intensité) ;
- un Conseil d'administration dont le niveau de diversité n'appartient pas au dernier décile par rapport aux autres sociétés du secteur ;
- ne pas faire l'objet de controverse relative aux conditions de travail et aux droits humains ; et
- ne pas faire l'objet de controverse relative à la biodiversité et à la pollution.

Dans sa politique d'exclusion qui fait partie intégrante de sa Politique d'investissement responsable, Amundi tient d'ores et déjà compte de Principales incidences négatives spécifiques. Ces exclusions, qui s'appliquent en sus des tests détaillés ci-dessus, couvrent les sujets suivants : exclusions sur les armes controversées, les violations des principes du Pacte mondial des Nations Unies, le charbon et le tabac.

- ***Les investissements durables étaient-ils conformes aux Principes directeurs de l'OCDE à l'intention des entreprises multinationales et aux Principes directeurs des Nations unies relatifs aux entreprises et aux droits humains ? Description détaillée :***

Oui, les Principes directeurs de l'OCDE à l'intention des entreprises multinationales et les Principes directeurs des Nations unies relatifs aux entreprises et aux droits humains sont

intégrés à notre méthode de notation ESG. Notre outil de notation ESG exclusif évalue les émetteurs à l'aide des données disponibles auprès de nos fournisseurs de données. Par exemple, le modèle dispose d'un critère dédié appelé « Implication dans la communauté et droits humains » qui s'applique à tous les secteurs en plus d'autres critères liés aux droits humains, y compris les chaînes d'approvisionnement socialement responsables, les conditions de travail et les relations de travail. En outre, nous effectuons un contrôle des controverses au moins une fois par trimestre, y compris sur les entreprises identifiées pour des violations des droits humains. En cas de controverse, les analystes évaluent la situation, lui donnent une note (à l'aide de notre méthode de notation exclusive) et déterminent la marche à suivre. Les notes de controverse sont mises à jour chaque trimestre pour suivre les tendances et les efforts de correction.

La Taxinomie de l'UE définit un principe consistant à « ne pas causer de préjudice important » (« Do not significant harm » ou DNSH) en vertu duquel les investissements alignés sur la Taxinomie ne doivent pas causer de préjudice important aux objectifs de la Taxinomie de l'UE et s'accompagnent de critères de l'UE spécifiques.

Le principe consistant à « ne pas causer de préjudice important » ne s'applique qu'aux investissements sous-jacents du produit financier qui tiennent compte des critères de l'UE pour les activités économiques durables sur le plan environnemental. Les investissements sous-jacents de la portion restante de ce produit financier ne tiennent pas compte des critères de l'UE en matière d'activités économiques durables sur le plan environnemental.

Tout autre investissement durable doit également se conformer au principe consistant à ne pas causer de préjudice important aux objectifs environnementaux ou sociaux.

Dans quelle mesure ce produit financier a-t-il pris en considération les principales incidences négatives sur les facteurs de durabilité ?

Le produit tient compte de toutes les Principales incidences négatives obligatoires en vertu de l'Annexe 1, Tableau 1 du Règlement délégué (UE) 2022/1288 applicables à la stratégie du produit et s'appuie sur une combinaison de politiques d'exclusion (normatives et sectorielles) et d'approches d'engagement et de vote :

- Exclusion : Amundi a défini des règles d'exclusion normatives, basées sur l'activité et les secteurs, qui couvrent certains des principaux indicateurs négatifs de durabilité énumérés par le Règlement Disclosure (sur la publication d'informations).
- Intégration des facteurs ESG : Amundi a adopté des normes d'intégration ESG minimales appliquées par défaut à ses fonds de type ouvert activement gérés (exclusion des émetteurs ayant la note G et meilleure note ESG moyenne pondérée supérieure à celle de l'indice de référence applicable). Les 38 critères employés dans la stratégie de notation ESG d'Amundi ont également été conçus pour tenir compte des principaux impacts sur les facteurs de durabilité, ainsi que de la qualité de la réduction entreprise en la matière.
- Engagement : L'engagement est un processus continu et ciblé qui vise à influencer les activités ou le comportement des sociétés bénéficiaires des investissements. L'objectif des activités d'engagement peut se diviser en deux catégories : impliquer un émetteur pour améliorer la manière dont il intègre la dimension environnementale et sociale ou impliquer un émetteur pour améliorer son impact sur les questions environnementales, sociales et liées aux droits humains ou d'autres questions de durabilité qui sont importantes pour la société au sens large et l'économie mondiale.
- Vote : La politique de vote d'Amundi répond à une analyse globale de toutes les questions à long terme qui peuvent influencer la création de valeur, y compris les questions ESG importantes. pour plus d'informations, veuillez consulter la Politique de vote d'Amundi.
- Surveillance des controverses : Amundi a développé un système de suivi des controverses qui s'appuie sur trois fournisseurs de données externes pour suivre systématiquement l'évolution des controverses et leur niveau de gravité. Cette approche quantitative est ensuite enrichie d'une évaluation approfondie de chaque controverse grave, menée par des analystes ESG, puis d'un examen périodique de son évolution. Cette approche s'applique à tous les fonds d'Amundi.

Pour de plus amples détails sur le mode de prise en compte des indicateurs relatifs aux Principales incidences négatives obligatoires, veuillez consulter la Déclaration sur la publication d'informations en matière de finance durable d'Amundi disponible sur www.amundi.com.

Quels étaient les principaux investissements de ce produit financier ?

La liste inclut les investissements qui constituent **la proportion la plus importante d'investissements** du produit financier au cours de la période de référence, à savoir : **du 01/07/2023 au 30/06/2024**

Principaux investissements	Secteur	Sous-secteur	Pays	% des actifs

Quelle était la proportion d'investissements liés à la durabilité ?

● Quelle était l'allocation d'actifs ?

L'allocation d'actifs décrit la part des investissements dans des actifs spécifiques.

La catégorie **N° 1 Alignés sur les caractéristiques E/S** inclut les investissements du produit financier utilisés pour atteindre les caractéristiques environnementales ou sociales promues par le produit financier.

La catégorie **N° 2 Autres** inclut les investissements restants du produit financier qui ne sont ni alignés sur les caractéristiques environnementales ou sociales ni considérés comme investissements durables.

La catégorie **N° 1 Alignés sur les caractéristiques E/S** comprend :

- la sous-catégorie **N° 1A Durables** couvrant les investissements durables sur le plan environnemental et social ;
- la sous-catégorie **N° 1B Autres caractéristiques E/S** couvrant les investissements alignés sur les caractéristiques environnementales ou sociales qui ne sont pas considérés comme des investissements durables.

● Dans quels secteurs économiques ont été réalisés les investissements ?

Secteur	Sous-secteur	% des actifs
Obligations financières	Banques	19.72%
Énergie	Pétrole, gaz et combustibles	13.26%
Matériaux	Métaux et exploitation minière	9.92%
Biens de consommation de base	Alimentation, boissons et tabac	8.41%
Services de communication	Télécommunications	4.78%
Industrie	Biens d'équipement	4.40%

<i>Biens de consommation de base</i>	<i>Distribution et vente au détail de biens de consommation de base</i>	<i>4.32%</i>
<i>Services aux collectivités</i>	<i>Services aux collectivités – électricité</i>	<i>3.69%</i>
<i>Services aux collectivités</i>	<i>Services aux collectivités – eau</i>	<i>3.62%</i>
<i>Consommation discrétionnaire</i>	<i>Distribution et vente au détail de biens de consommation discrétionnaires</i>	<i>3.46%</i>
<i>Obligations financières</i>	<i>Services financiers</i>	<i>3.37%</i>
<i>Immobilier</i>	<i>Gestion et promotion immobilière</i>	<i>3.27%</i>
<i>Consommation discrétionnaire</i>	<i>Services aux consommateurs</i>	<i>2.78%</i>
<i>Matériaux</i>	<i>Matériaux de construction</i>	<i>2.38%</i>
<i>Obligations financières</i>	<i>Fonds communs de placement</i>	<i>2.13%</i>
<i>Matériaux</i>	<i>Produits papetiers et forestiers</i>	<i>2.02%</i>
<i>Obligations financières</i>	<i>Assurance</i>	<i>2.01%</i>

Forex	Forex	0.00%
Liquidités	Liquidités	0.56%

Aux fins d'observer la taxinomie de l'UE, les critères relatifs au **gaz fossile** incluent des limites aux émissions et le passage à une énergie entièrement renouvelable ou à des combustibles à faible teneur en carbone d'ici fin 2035. Pour l'**énergie nucléaire**, les critères incluent des règles exhaustives de sécurité et de gestion des déchets.

Les activités habilitantes permettent directement à d'autres activités de contribuer de manière substantielle à la réalisation d'un objectif environnemental.

Les activités transitoires sont des activités pour lesquelles il n'existe pas encore de solution de remplacement sobre en carbone et, entre autres, dont les niveaux d'émission de gaz à effet de serre correspondent aux meilleures

Dans quelle mesure les investissements durables ayant un objectif environnemental étaient-ils alignés sur la Taxinomie de l'UE ?

Le fonds promeut des caractéristiques tant environnementales que sociales. Si le fonds ne s'est pas engagé à réaliser des investissements alignés sur la Taxinomie de l'UE, au cours de la période sous revue, il a cependant investi 0.01% dans des investissements durables alignés sur la Taxinomie de l'UE. De tels investissements ont contribué à l'obligation relative au changement climatique ou aux objectifs de réduction du changement climatique de la Taxinomie de l'UE.

L'alignement des sociétés bénéficiaires des investissements sur les objectifs de la taxinomie de l'UE susmentionnés est évalué à l'aide du chiffre d'affaires (ou des revenus) et/ou des données d'utilisation des produits des obligations vertes.

Le pourcentage communiqué d'alignement des investissements du fonds sur la Taxinomie de l'UE n'a pas été audité par le réviseur d'entreprises agréé du fonds ni par aucun tiers.

● Le produit financier a-t-il investi dans des activités liées au gaz fossile et/ou à l'énergie nucléaire qui sont conformes à la Taxinomie de l'UE¹ ?

☐

Oui :

☐

Dans le gaz fossile

☐

Dans l'énergie nucléaire

☒

Non

Aucune donnée fiable concernant l'alignement sur les activités de gaz fossile et d'énergie nucléaire conformes à la Taxinomie de l'UE n'était disponible sur la période.

¹ Les activités liées au gaz fossile et/ou à l'énergie nucléaire ne seront conformes à la Taxinomie de l'UE que si elles contribuent à limiter le changement climatique (« réduction du changement climatique ») et ne causent pas de préjudice important à tout objectif de la Taxinomie de l'UE. L'intégralité des critères relatifs aux activités économiques liées au gaz fossile et à l'énergie nucléaire conformes à la Taxinomie de l'UE sont définis dans le Règlement délégué (UE) 2022/1214 de la Commission.

performances réalisables.

Les activités alignées sur la taxinomie sont exprimées en pourcentage :

- du chiffre d'affaires pour refléter la part des revenus provenant des activités vertes des sociétés bénéficiaires d'investissements ;
- des dépenses d'investissement (CapEx) pour montrer les investissements verts réalisés par les sociétés bénéficiaires d'investissements, pour une transition vers une économie verte, par exemple ; et
- des dépenses d'exploitation (OpEx) pour refléter les activités opérationnelles vertes des sociétés bénéficiaires d'investissements.

Les graphiques ci-dessous font apparaître en vert le pourcentage d'investissements alignés sur la Taxinomie de l'UE. Étant donné qu'il n'existe pas de méthodologie appropriée pour déterminer l'alignement des obligations souveraines* sur la taxinomie, le premier graphique montre l'alignement sur la Taxinomie par rapport à tous les investissements du produit financier, y compris les obligations souveraines, tandis que le deuxième graphique représente l'alignement sur la Taxinomie uniquement par rapport aux investissements du produit financier autres que les obligations souveraines.

* Aux fins de ces graphiques, les « obligations souveraines » comprennent toutes les expositions souveraines

● Quelle était la part d'investissements dans les activités transitoires et habilitantes ?

Au 30/06/2024, en utilisant le chiffre d'affaires et/ou les données d'utilisation des produits des obligations vertes comme indicateur, la part d'investissements du fonds dans les activités transitoires était de 0.00% et la part d'investissements dans les activités habilitantes était de 0.00%. Le pourcentage communiqué d'alignement des investissements du fonds sur la Taxinomie de l'UE n'a pas été audité par le réviseur d'entreprises agréé du fonds ni par aucun tiers.

● Comment se situe le pourcentage d'investissements alignés sur la Taxinomie de l'UE par rapport aux périodes de référence antérieures ?

À la fin de la période précédente, le pourcentage d'investissements alignés sur la taxinomie était de 0.07%.

● sont des investissements durables ayant un objectif environnemental qui ne tiennent pas compte des critères en matière d'activités économiques durables sur le plan environnemental visés par le Règlement (UE) 2020/852.

● Quelle était la part des investissements durables ayant un objectif environnemental qui n'étaient pas alignés sur la Taxinomie de l'UE ?

La part des investissements durables ayant un objectif environnemental et non alignés sur la taxinomie était de 34.36% à la fin de la période.

Cela tient du fait que certains émetteurs sont considérés comme investissements durables en vertu du Règlement SFDR mais qu'une portion de leurs activités n'est pas alignée sur les standards de la taxinomie de l'UE, ou que les données correspondantes ne sont pas encore disponibles en vue d'une évaluation relative à la taxinomie de l'UE.

● Quelle était la part d'investissements durables sur le plan social ?

La proportion des investissements durables sur le plan social était de 5.49% à la fin de la période.

Quels investissements étaient inclus dans la catégorie « Autres », quelle était leur finalité et existait-il des garanties environnementales ou sociales minimales ?

Sont inclus dans la catégorie « N° 2 Autres » les liquidités et autres instruments détenus aux fins de gestion de la liquidité et des risques du portefeuille. Pour les obligations et actions non notées, des garanties environnementales et sociales minimales ont été mises en place par le biais d'un filtrage des émetteurs en rapport aux activités controversées définies dans les principes du Pacte mondial des Nations unies. Elle peut également inclure des titres sans notation ESG pour lesquels les données nécessaires à la mesure de la réalisation des caractéristiques environnementales ou sociales ne sont pas disponibles.

Quelles mesures ont-elles été prises pour réaliser les caractéristiques environnementales et/ou sociales au cours de la période de référence ?

Des indicateurs de durabilité sont mis à disposition de manière continue dans le système de gestion du portefeuille pour permettre aux gestionnaires du portefeuille d'évaluer l'impact de leurs décisions d'investissement.

Ces indicateurs sont intégrés au cadre de contrôle d'AMUNDI, en répartissant les responsabilités entre le premier niveau de contrôles réalisés par les équipes Investissement elles-mêmes, et le second niveau de contrôles réalisé par les équipes Risque, qui surveillent la conformité aux caractéristiques environnementales ou sociales promues en permanence par le fonds.

En outre, la Politique d'investissement responsable d'AMUNDI définit une approche active en matière d'engagement qui promeut le dialogue avec les sociétés bénéficiaires des investissements, y compris celles qui sont incluses dans le portefeuille de ce produit. Notre Rapport annuel en matière d'engagement, disponible à la page <https://about.amundi.com/esg-documentation>, fournit des informations détaillées sur cet engagement et ses résultats.

Quelles ont été les performances de ce produit financier par rapport à l'indice de référence ?

Un indice de référence est un indice qui sert à mesurer si le produit financier réalise les caractéristiques environnementales et/ou sociales qu'il promeut.

Ce produit ne dispose pas d'un Indice de référence ESG.

● *En quoi l'indice de référence diffère-t-il de l'indice de marché large ?*

Ce produit ne dispose pas d'un Indice de référence ESG.

● *Quelles ont été les performances de ce produit financier par rapport aux indicateurs de durabilité pour déterminer l'alignement de l'indice de référence sur les caractéristiques environnementales ou sociales promues ?*

Ce produit ne dispose pas d'un Indice de référence ESG.

● *Quelle a été la performance de ce produit financier par rapport à l'indice de référence ?*

Ce produit ne dispose pas d'un Indice de référence ESG.

● *Quelle a été la performance de ce produit financier par rapport à l'indice de marché large ?*

Ce produit ne dispose pas d'un Indice de référence ESG.

Informations périodiques pour les produits financiers visés à l'Article 8, paragraphes 1, 2 et 2a, du Règlement (UE) 2019/2088 et à l'Article 6, premier paragraphe du Règlement (UE) 2020/852

Dénomination du produit : AMUNDI FUNDS NET
ZERO AMBITION EMERGING MARKETS EQUITY

Identifiant d'entité juridique :
213800ZEFGN1WHE3HL26

Par investissement durable, on entend un investissement dans une activité économique qui contribue à un objectif environnemental ou social, pour autant qu'il ne cause de préjudice important à aucun de ces objectifs et que les sociétés détenues respectent les pratiques de bonne gouvernance.

La **Taxinomie de l'UE** est un système de classification institué par le Règlement (UE) 2020/852, qui dresse une liste d'**activités économiques durables sur le plan environnemental**. Ce règlement ne comprend pas de liste d'activités économiques durables sur le plan social. Les investissements durables ayant un objectif environnemental ne sont pas nécessairement alignés sur la taxinomie.

Caractéristiques environnementales et/ou sociales

Le produit financier avait-il un objectif d'investissement durable ?

Oui

X

Non

Il a réalisé **des investissements durables ayant un objectif environnemental** : _____

dans des activités économiques qui sont considérées comme durables sur le plan environnemental au titre de la Taxinomie de l'UE

dans des activités économiques qui ne sont pas considérées comme durables sur le plan environnemental au titre de la Taxinomie de l'UE

Il a réalisé **des investissements durables ayant un objectif social** : _____

Il a promu des caractéristiques **environnementales/sociales (E/S)** et, bien qu'il n'ait pas eu pour objectif l'investissement durable, il contenait une proportion d'investissements durables de **49.87%**

ayant un objectif environnemental dans des activités économiques qui sont considérées comme durables sur le plan environnemental au titre de la Taxinomie de l'UE

ayant un objectif environnemental dans des activités économiques qui ne sont pas considérées comme durables sur le plan environnemental au titre de la Taxinomie de l'UE

ayant un objectif social

Il a promu des caractéristiques E/S, mais **n'a pas réalisé d'investissements durables**

Dans quelle mesure les caractéristiques environnementales et/ou sociales promues par ce produit financier ont-elles été réalisées ?

Au cours de l'exercice financier, le produit n'a cessé de promouvoir les caractéristiques environnementales et/ou sociales en cherchant à atteindre une note ESG supérieure à celle de son univers d'investissement **MSCI EM CLIMATE PARIS ALIGNED**. Pour déterminer la note ESG du Produit et de l'univers d'investissement ESG, la performance ESG a été évaluée de manière continue en comparant la performance moyenne d'un titre par rapport au secteur de l'émetteur du titre, pour chacune des trois caractéristiques, à savoir environnementale, sociale et de gouvernance.

L'univers d'investissement est un univers de marché large qui n'évalue ni n'inclut pas de composantes en fonction de caractéristiques environnementales et/ou sociales, et qui n'a par conséquent pas pour vocation d'être conforme aux caractéristiques promues par le fonds.

Au cours de l'exercice financier, le produit n'a cessé de promouvoir les caractéristiques environnementales en cherchant à réduire son intensité carbone à travers l'alignement de l'intensité de l'empreinte carbone sur celle de son Indice de référence **MSCI EM CLIMATE PARIS ALIGNED**.

Les indicateurs de durabilité évaluent la mesure dans laquelle les caractéristiques environnementales ou sociales promues par le produit financier sont atteintes.

● *Quelle performance ont affiché les indicateurs de durabilité ?*

Amundi a développé son propre processus de notation ESG interne, qui suit une approche « Best-in-class ». Les notations adaptées à chaque secteur d'activité ont pour objectif d'évaluer la dynamique dans laquelle interviennent les entreprises.

L'indicateur de durabilité employé est la note ESG du Produit mesurée en comparaison avec la note ESG de l'univers d'investissement ESG du Produit.

À la fin de la période :

- La note ESG moyenne pondérée du portefeuille est **0.324 (D)**.
- La note ESG moyenne pondérée de l'univers d'investissement ESG est **0.044 (D)**.

La notation ESG Amundi utilisée pour déterminer la note ESG est une note ESG quantitative qui se décline en sept niveaux allant de A (les meilleures notes de l'univers) à G (les pires notes). Sur l'échelle de notation ESG d'Amundi, les titres figurant sur la liste d'exclusion correspondent à G. Pour les entreprises émettrices, la performance ESG est évaluée de manière globale et au niveau des critères pertinents par comparaison avec la performance moyenne du secteur, en combinant les trois dimensions ESG :

- Dimension environnementale : cette dimension examine la capacité des émetteurs à contrôler leur impact environnemental direct et indirect, en limitant leur consommation d'énergie, en réduisant leurs émissions de gaz à effet de serre, en luttant contre l'appauvrissement des ressources et en protégeant la biodiversité.
- Dimension sociale : cette dimension évalue le fonctionnement d'un émetteur dans deux domaines différents, à savoir sa stratégie de développement du capital humain et le respect des droits humains en général.
- Dimension de gouvernance : cette dimension évalue la capacité de l'émetteur à garantir les fondements d'un cadre de gouvernance d'entreprise efficace et à générer de la valeur sur le long terme.

La méthodologie appliquée par la notation ESG d'Amundi utilise 38 critères qui sont soit génériques (communs à toutes les entreprises, indépendamment de leur activité) soit spécifiques au secteur, et qui sont pondérés en fonction du secteur et considérés en termes d'impact sur la réputation, l'efficacité opérationnelle et les réglementations concernant un émetteur. Les notations ESG d'Amundi sont susceptibles d'être exprimées de manière globale pour les trois dimensions E, S et G, ou individuellement pour tout facteur environnemental ou social.

L'indicateur de durabilité utilisé est l'intensité de l'empreinte carbone du portefeuille, qui est calculée comme une moyenne pondérée des actifs du portefeuille et comparée à l'intensité de l'empreinte carbone pondérée des actifs de l'Indice de référence. Par conséquent, les titres présentant une empreinte environnementale relativement faible avaient une probabilité plus élevée d'être sélectionnés dans le portefeuille, comparés aux titres présentant une empreinte environnementale relativement élevée.

- L'intensité de l'empreinte carbone moyenne pondérée du portefeuille est **113.98**
- L'intensité de l'empreinte carbone moyenne pondérée de l'Indice de référence est **128.61**

● *... et par rapport aux périodes antérieures ?*

À la fin de la période précédente, la note ESG moyenne pondérée du portefeuille était de **0.33 (D)** et la note ESG moyenne pondérée de l'univers d'investissement ESG était de **0.03 (D)**. À la fin de la période précédente, l'intensité carbone moyenne pondérée du portefeuille était de **161.02** et l'intensité carbone moyenne pondérée de l'indice de référence était de **226.69**.

● *Quels étaient les objectifs des investissements durables que le produit financier entendait partiellement réaliser, et comment l'investissement durable a-t-il contribué à ces objectifs ?*

Les objectifs des investissements durables sont d'investir dans des sociétés détenues qui cherchent à respecter deux critères :

1. suivre les bonnes pratiques environnementales et sociales ; et
2. éviter de fabriquer des produits ou de fournir des services qui nuisent à l'environnement et à la société.

Pour que la société bénéficiaire des investissements soit réputée contribuer à l'objectif susmentionné, elle doit figurer parmi les « meilleures performances » de son secteur d'activité pour au moins l'un de ses facteurs environnementaux ou sociaux importants.

La définition de « meilleures performances » repose sur la méthode ESG exclusive d'Amundi, dont l'objectif est de mesurer la performance ESG d'une société bénéficiaire des investissements. Pour être considérée comme l'une des « meilleures performances », une société bénéficiaire des investissements doit afficher l'une des trois premières notes (A, B ou C, sur une échelle de notation allant de A à G) dans son secteur pour au moins un facteur environnemental ou social important. Les facteurs environnementaux et sociaux sont identifiés à l'échelle des secteurs. L'identification des facteurs importants est basée sur le cadre d'analyse ESG d'Amundi qui combine des données extra-financières et une analyse qualitative du secteur associé et des questions de durabilité. Les facteurs identifiés comme importants représentent plus de 10 % de la note ESG globale. Par exemple pour le secteur de l'énergie, les facteurs importants sont les suivants : émissions et énergie, biodiversité et pollution, santé et sécurité, communautés locales et droits humains. Pour un aperçu plus complet des secteurs et des facteurs, veuillez consulter la Déclaration réglementaire ESG d'Amundi disponible sur www.amundi.lu

Pour contribuer aux objectifs ci-dessus, la société bénéficiaire des investissements ne doit pas avoir d'exposition significative aux activités (par ex. tabac, armes, jeux de hasard, charbon, aviation, production de viande, fabrication d'engrais et de pesticides, production de plastique à usage unique) incompatibles avec ces critères.

Le caractère durable d'un investissement est évalué au niveau de la société bénéficiaire des investissements.

● ***Dans quelle mesure les investissements durables que le produit financier a partiellement réalisés n'ont-ils pas causé de préjudice important à un objectif d'investissement durable sur le plan environnemental ou social ?***

Pour s'assurer que les investissements durables ne causent pas de préjudice important (principe « Do no significant harm » ou « DNSH » en anglais), Amundi utilise deux filtres :

Le premier filtre de DNSH repose sur le contrôle des indicateurs obligatoires des Principales incidences négatives de l'Annexe 1, Tableau 1 des normes techniques réglementaires (RTS) lorsqu'il existe des données fiables (par ex. Intensité des GES des sociétés bénéficiaires des investissements) via une combinaison d'indicateurs (par ex. intensité carbone) et des seuils ou règles spécifiques (par ex. que l'intensité carbone de la société bénéficiaire des investissements n'appartient pas au dernier décile du secteur).

Dans sa politique d'exclusion qui fait partie intégrante de sa Politique d'investissement responsable, Amundi tient d'ores et déjà compte de Principales incidences négatives spécifiques. Ces exclusions, qui s'appliquent en sus des tests détaillés ci-dessus, couvrent les sujets suivants : exclusions sur les armes controversées, les violations des principes du Pacte mondial des Nations Unies, le charbon et le tabac.

Au-delà des facteurs de durabilité spécifiques couverts par le premier filtre, Amundi a défini un second filtre, qui ne tient pas compte des indicateurs obligatoires des Principales incidences négatives ci-dessus, afin de vérifier que la société n'affiche pas de mauvaises performances d'un point de vue environnemental ou social global par rapport aux autres entreprises de son secteur, ce qui correspond à un score environnemental ou social supérieur ou égal à E selon la notation ESG d'Amundi.

- ***Comment les indicateurs concernant les incidences négatives sur les facteurs de durabilité ont-ils été pris en considération ?***

Les indicateurs d'incidences négatives ont été pris en compte comme détaillé dans le premier filtre DNSH ci-dessus.

Le premier filtre DNSH repose sur le contrôle des indicateurs obligatoires des Principales incidences négatives de l'Annexe 1, Tableau 1 du Règlement délégué (UE) 2022/1288 lorsqu'il existe des données fiables via la combinaison des indicateurs suivants et de seuils ou règles spécifiques :

- une intensité en CO2 qui n'appartient pas au dernier décile par rapport aux autres entreprises du secteur (ne s'applique qu'aux secteurs à forte intensité) ;

Les principales incidences négatives correspondent aux incidences négatives les plus significatives des décisions d'investissement sur les facteurs de durabilité liés aux questions environnementales, sociales et de personnel, au respect des droits humains et à la lutte contre la corruption et les actes de corruption.

- un Conseil d'administration dont le niveau de diversité n'appartient pas au dernier décile par rapport aux autres sociétés du secteur ;
- ne pas faire l'objet de controverse relative aux conditions de travail et aux droits humains ; et
- ne pas faire l'objet de controverse relative à la biodiversité et à la pollution.

Dans sa politique d'exclusion qui fait partie intégrante de sa Politique d'investissement responsable, Amundi tient d'ores et déjà compte de Principales incidences négatives spécifiques. Ces exclusions, qui s'appliquent en sus des tests détaillés ci-dessus, couvrent les sujets suivants : exclusions sur les armes controversées, les violations des principes du Pacte mondial des Nations Unies, le charbon et le tabac.

- ***Les investissements durables étaient-ils conformes aux Principes directeurs de l'OCDE à l'intention des entreprises multinationales et aux Principes directeurs des Nations unies relatifs aux entreprises et aux droits humains ? Description détaillée :***

Oui, les Principes directeurs de l'OCDE à l'intention des entreprises multinationales et les Principes directeurs des Nations unies relatifs aux entreprises et aux droits humains sont intégrés à notre méthode de notation ESG. Notre outil de notation ESG exclusif évalue les émetteurs à l'aide des données disponibles auprès de nos fournisseurs de données. Par exemple, le modèle dispose d'un critère dédié appelé « Implication dans la communauté et droits humains » qui s'applique à tous les secteurs en plus d'autres critères liés aux droits humains, y compris les chaînes d'approvisionnement socialement responsables, les conditions de travail et les relations de travail. En outre, nous effectuons un contrôle des controverses au moins une fois par trimestre, y compris sur les entreprises identifiées pour des violations des droits humains. En cas de controverse, les analystes évaluent la situation, lui donnent une note (à l'aide de notre méthode de notation exclusive) et déterminent la marche à suivre. Les notes de controverse sont mises à jour chaque trimestre pour suivre les tendances et les efforts de correction.

La Taxinomie de l'UE définit un principe consistant à « ne pas causer de préjudice important » (« Do not significant harm » ou DNSH) en vertu duquel les investissements alignés sur la Taxinomie ne doivent pas causer de préjudice important aux objectifs de la Taxinomie de l'UE et s'accompagnent de critères de l'UE spécifiques.

Le principe consistant à « ne pas causer de préjudice important » ne s'applique qu'aux investissements sous-jacents du produit financier qui tiennent compte des critères de l'UE pour les activités économiques durables sur le plan environnemental. Les investissements sous-jacents de la portion restante de ce produit financier ne tiennent pas compte des critères de l'UE en matière d'activités économiques durables sur le plan environnemental.

Tout autre investissement durable doit également se conformer au principe consistant à ne pas causer de préjudice important aux objectifs environnementaux ou sociaux.

Dans quelle mesure ce produit financier a-t-il pris en considération les principales incidences négatives sur les facteurs de durabilité ?

Le produit tient compte de toutes les Principales incidences négatives obligatoires en vertu de l'Annexe 1, Tableau 1 du Règlement délégué (UE) 2022/1288 applicables à la stratégie du produit et s'appuie sur une combinaison de politiques d'exclusion (normatives et sectorielles) et d'approches d'engagement et de vote :

- Exclusion : Amundi a défini des règles d'exclusion normatives, basées sur l'activité et les secteurs, qui couvrent certains des principaux indicateurs négatifs de durabilité énumérés par le Règlement Disclosure (sur la publication d'informations).
- Intégration des facteurs ESG : Amundi a adopté des normes d'intégration ESG minimales appliquées par défaut à ses fonds de type ouvert activement gérés (exclusion des émetteurs ayant la note G et meilleure note ESG moyenne pondérée supérieure à celle de l'indice de référence applicable). Les 38 critères employés dans la stratégie de notation ESG d'Amundi ont également été conçus pour tenir compte des principaux impacts sur les facteurs de durabilité, ainsi que de la qualité de la réduction entreprise en la matière.

- Engagement : L'engagement est un processus continu et ciblé qui vise à influencer les activités ou le comportement des sociétés bénéficiaires des investissements. L'objectif des activités d'engagement peut se diviser en deux catégories : impliquer un émetteur pour améliorer la manière dont il intègre la dimension environnementale et sociale ou impliquer un émetteur pour améliorer son impact sur les questions environnementales, sociales et liées aux droits humains ou d'autres questions de durabilité qui sont importantes pour la société au sens large et l'économie mondiale.
- Vote : La politique de vote d'Amundi répond à une analyse globale de toutes les questions à long terme qui peuvent influencer la création de valeur, y compris les questions ESG importantes. pour plus d'informations, veuillez consulter la Politique de vote d'Amundi.
- Surveillance des controverses : Amundi a développé un système de suivi des controverses qui s'appuie sur trois fournisseurs de données externes pour suivre systématiquement l'évolution des controverses et leur niveau de gravité. Cette approche quantitative est ensuite enrichie d'une évaluation approfondie de chaque controverse grave, menée par des analystes ESG, puis d'un examen périodique de son évolution. Cette approche s'applique à tous les fonds d'Amundi.

Pour de plus amples détails sur le mode de prise en compte des indicateurs relatifs aux Principales incidences négatives obligatoires, veuillez consulter la Déclaration sur la publication d'informations en matière de finance durable d'Amundi disponible sur www.amundi.com.

Quels étaient les principaux investissements de ce produit financier ?

La liste inclut les investissements qui constituent **la proportion la plus importante d'investissements** du produit financier au cours de la période de référence, à savoir : **du 01/07/2023 au 30/06/2024**

Principaux investissements	Secteur	Sous-secteur	Pays	% des actifs

Aux fins d'observer la taxinomie de l'UE, les critères relatifs au **gaz fossile** incluent des limites aux émissions et le passage à une énergie entièrement renouvelable ou à des combustibles à faible teneur en carbone d'ici fin 2035. Pour **l'énergie nucléaire**, les critères incluent des règles exhaustives de sécurité et de gestion des déchets.

Les activités habilitantes permettent directement à d'autres activités de contribuer de manière substantielle à la réalisation d'un objectif environnemental.

Les activités transitoires sont des activités pour

Dans quelle mesure les investissements durables ayant un objectif environnemental étaient-ils alignés sur la Taxinomie de l'UE ?

Le fonds promeut des caractéristiques tant environnementales que sociales. Si le fonds ne s'est pas engagé à réaliser des investissements alignés sur la Taxinomie de l'UE, au cours de la période sous revue, il a cependant investi 0.01% dans des investissements durables alignés sur la Taxinomie de l'UE. De tels investissements ont contribué à l'obligation relative au changement climatique ou aux objectifs de réduction du changement climatique de la Taxinomie de l'UE.

L'alignement des sociétés bénéficiaires des investissements sur les objectifs de la taxinomie de l'UE susmentionnés est évalué à l'aide du chiffre d'affaires (ou des revenus) et/ou des données d'utilisation des produits des obligations vertes.

Le pourcentage communiqué d'alignement des investissements du fonds sur la Taxinomie de l'UE n'a pas été audité par le réviseur d'entreprises agréé du fonds ni par aucun tiers.

● Le produit financier a-t-il investi dans des activités liées au gaz fossile et/ou à l'énergie nucléaire qui sont conformes à la Taxinomie de l'UE¹ ?

☐

Oui :

☐

Dans le gaz fossile

☐

Dans l'énergie nucléaire

☒

Non

Aucune donnée fiable concernant l'alignement sur les activités de gaz fossile et d'énergie nucléaire conformes à la Taxinomie de l'UE n'était disponible sur la période.

¹ Les activités liées au gaz fossile et/ou à l'énergie nucléaire ne seront conformes à la Taxinomie de l'UE que si elles contribuent à limiter le changement climatique (« réduction du changement climatique ») et ne causent pas de préjudice important à tout objectif de la Taxinomie de l'UE. L'intégralité des critères relatifs aux activités économiques liées au gaz fossile et à l'énergie nucléaire conformes à la Taxinomie de l'UE sont définis dans le Règlement délégué (UE) 2022/1214 de la Commission.

Les graphiques ci-dessous font apparaître en vert le pourcentage d'investissements alignés sur la Taxinomie de l'UE. Étant donné qu'il n'existe pas de méthodologie appropriée pour déterminer l'alignement des obligations souveraines* sur la taxinomie, le premier graphique montre l'alignement sur la Taxinomie par rapport à tous les investissements du produit financier, y compris les obligations souveraines, tandis que le deuxième graphique représente l'alignement sur la Taxinomie uniquement par rapport aux investissements du produit financier autres que les obligations souveraines.

* Aux fins de ces graphiques, les « obligations souveraines » comprennent toutes les expositions souveraines

● Quelle était la part d'investissements dans les activités transitoires et habilitantes ?

Au 30/06/2024, en utilisant le chiffre d'affaires et/ou les données d'utilisation des produits des obligations vertes comme indicateur, la part d'investissements du fonds dans les activités transitoires était de 0.00% et la part d'investissements dans les activités habilitantes était de 0.01%. Le pourcentage communiqué d'alignement des investissements du fonds sur la Taxinomie de l'UE n'a pas été audité par le réviseur d'entreprises agréé du fonds ni par aucun tiers.

● Comment se situe le pourcentage d'investissements alignés sur la Taxinomie de l'UE par rapport aux périodes de référence antérieures ?

À la fin de la période précédente, le pourcentage d'investissements alignés sur la taxinomie était de 0.09%.

sont des investissements durables ayant un objectif environnemental qui **ne tiennent pas compte** des critères en

Quelle était la part des investissements durables ayant un objectif environnemental qui n'étaient pas alignés sur la Taxinomie de l'UE ?

La part des investissements durables ayant un objectif environnemental et non alignés sur la taxinomie était de **36.67%** à la fin de la période. Cela tient du fait que certains émetteurs sont considérés comme investissements durables en vertu du Règlement SFDR mais qu'une portion de leurs activités n'est pas alignée sur les standards de la taxinomie de l'UE, ou que les données correspondantes ne sont pas encore disponibles en vue d'une évaluation relative à la taxinomie de l'UE.

matière d'activités économiques durables sur le plan environnemental visés par le Règlement (UE) 2020/852.

Quelle était la part d'investissements durables sur le plan social ?

La proportion des investissements durables sur le plan social était de 13.19% à la fin de la période.

Quels investissements étaient inclus dans la catégorie « Autres », quelle était leur finalité et existait-il des garanties environnementales ou sociales minimales ?

Sont inclus dans la catégorie « N° 2 Autres » les liquidités et autres instruments détenus aux fins de gestion de la liquidité et des risques du portefeuille. Pour les obligations et actions non notées, des garanties environnementales et sociales minimales ont été mises en place par le biais d'un filtrage des émetteurs en rapport aux activités controversées définies dans les principes du Pacte mondial des Nations unies. Elle peut également inclure des titres sans notation ESG pour lesquels les données nécessaires à la mesure de la réalisation des caractéristiques environnementales ou sociales ne sont pas disponibles.

Quelles mesures ont-elles été prises pour réaliser les caractéristiques environnementales et/ou sociales au cours de la période de référence ?

Des indicateurs de durabilité sont mis à disposition de manière continue dans le système de gestion du portefeuille pour permettre aux gestionnaires du portefeuille d'évaluer l'impact de leurs décisions d'investissement.

Ces indicateurs sont intégrés au cadre de contrôle d'AMUNDI, en répartissant les responsabilités entre le premier niveau de contrôles réalisés par les équipes Investissement elles-mêmes, et le second niveau de contrôles réalisé par les équipes Risque, qui surveillent la conformité aux caractéristiques environnementales ou sociales promues en permanence par le fonds.

En outre, la Politique d'investissement responsable d'AMUNDI définit une approche active en matière d'engagement qui promeut le dialogue avec les sociétés bénéficiaires des investissements, y compris celles qui sont incluses dans le portefeuille de ce produit. Notre Rapport annuel en matière d'engagement, disponible à la page <https://about.amundi.com/esg-documentation>, fournit des informations détaillées sur cet engagement et ses résultats.

Quelles ont été les performances de ce produit financier par rapport à l'indice de référence ?

Un indice de référence est un indice qui sert à mesurer si le produit financier réalise les caractéristiques environnementales et/ou sociales qu'il promeut.

L'objectif d'investissement durable est atteint en alignant les objectifs de réduction de l'empreinte carbone du fonds sur l'indice MSCI Emerging Markets Climate Paris Aligned Index. L'intensité de l'empreinte carbone du portefeuille est calculée comme une moyenne pondérée des actifs du portefeuille et comparée à l'intensité de l'empreinte carbone pondérée des actifs de l'Indice.

Par conséquent, les titres présentant une empreinte environnementale relativement faible ont une probabilité plus élevée d'être sélectionnés dans le portefeuille, comparés aux titres présentant une empreinte environnementale relativement élevée. De plus, le fonds exclut les entreprises sur la base d'un comportement controversé et/ou de produits controversés, conformément à la Politique d'investissement responsable.

- L'intensité de l'empreinte carbone moyenne pondérée du portefeuille est **113.98**
- L'intensité de l'empreinte carbone moyenne pondérée de l'Indice de référence est **128.61**

● En quoi l'indice de référence diffère-t-il de l'indice de marché large ?

Un indice de marché large n'évalue pas ses composantes en fonction de caractéristiques environnementales et ne les inclut pas en vertu de telles caractéristiques. Par conséquent, il ne s'aligne pas sur les caractéristiques environnementales. L'indice utilisé est un indice de référence aligné sur Paris (« Paris Aligned ») qui comporte des objectifs spécifiques liés à la réduction des émissions et à la transition vers une économie sobre en carbone à travers la sélection et la pondération de composantes sous-jacentes.

● **Quelles ont été les performances de ce produit financier par rapport aux indicateurs de durabilité pour déterminer l'alignement de l'indice de référence sur les caractéristiques environnementales ou sociales promues ?**

- La note ESG moyenne pondérée du portefeuille est **0.324 (D)**.
- La note ESG moyenne pondérée de l'univers d'investissement ESG est **0.044 (D)**.
- L'intensité de l'empreinte carbone moyenne pondérée du portefeuille est **113.98**
- L'intensité de l'empreinte carbone moyenne pondérée de l'Indice de référence est **128.61**

● **Quelle a été la performance de ce produit financier par rapport à l'indice de référence ?**

L'objectif d'investissement durable est atteint en alignant les objectifs de réduction de l'empreinte carbone du fonds sur l'indice MSCI Emerging Markets Climate Paris Aligned Index. L'intensité de l'empreinte carbone du portefeuille est calculée comme une moyenne pondérée des actifs du portefeuille et comparée à l'intensité de l'empreinte carbone pondérée des actifs de l'Indice.

Par conséquent, les titres présentant une empreinte environnementale relativement faible ont une probabilité plus élevée d'être sélectionnés dans le portefeuille, comparés aux titres présentant une empreinte environnementale relativement élevée. De plus, le fonds exclut les entreprises sur la base d'un comportement controversé et/ou de produits controversés, conformément à la Politique d'investissement responsable.

- L'intensité de l'empreinte carbone moyenne pondérée du portefeuille est **113.98**
- L'intensité de l'empreinte carbone moyenne pondérée de l'Indice de référence est **128.61**

● **Quelle a été la performance de ce produit financier par rapport à l'indice de marché large ?**

Un indice de marché large n'évalue pas ses composantes en fonction de caractéristiques environnementales et ne les inclut pas en vertu de telles caractéristiques. Par conséquent, il ne s'aligne pas sur les caractéristiques environnementales.

L'indice utilisé est un indice de référence aligné sur Paris (« Paris Aligned ») qui comporte des objectifs spécifiques liés à la réduction des émissions et à la transition vers une économie sobre en carbone à travers la sélection et la pondération de composantes sous-jacentes.

Modèle d'informations périodiques pour les produits financiers visés à l'Article 8, paragraphes 1, 2 et 2a, du Règlement (UE) 2019/2088 et à l'Article 6, premier paragraphe du Règlement (UE) 2020/852

Dénomination du produit : AMUNDI FUNDS NEW
SILK ROAD

Identifiant d'entité juridique :
549300ZD1W6MTTH0G211

Par investissement durable, on entend un investissement dans une activité économique qui contribue à un objectif environnemental ou social, pour autant qu'il ne cause de préjudice important à aucun de ces objectifs et que les sociétés détenues respectent les pratiques de bonne gouvernance.

La **Taxinomie de l'UE** est un système de classification institué par le Règlement (UE) 2020/852, qui dresse une liste d'**activités économiques durables sur le plan environnemental**. Ce règlement ne comprend pas de liste d'activités économiques durables sur le plan social. Les investissements durables ayant un objectif environnemental ne sont pas nécessairement alignés sur la taxinomie.

Caractéristiques environnementales et/ou sociales

Le produit financier avait-il un objectif d'investissement durable ?	
☒ ☐ ☐ Oui	☒ ☐ ☐ X Non
☐ Il a réalisé des investissements durables ayant un objectif environnemental : _____ ☐ dans des activités économiques qui sont considérées comme durables sur le plan environnemental au titre de la Taxinomie de l'UE ☐ dans des activités économiques qui ne sont pas considérées comme durables sur le plan environnemental au titre de la Taxinomie de l'UE	☒ Il a promu des caractéristiques environnementales/sociales (E/S) et, bien qu'il n'ait pas eu pour objectif l'investissement durable, il contenait une proportion d'investissements durables de <u>32.53%</u> ☐ ayant un objectif environnemental dans des activités économiques qui sont considérées comme durables sur le plan environnemental au titre de la Taxinomie de l'UE ☒ ayant un objectif environnemental dans des activités économiques qui ne sont pas considérées comme durables sur le plan environnemental au titre de la Taxinomie de l'UE ☐ ayant un objectif social
☐ Il a réalisé des investissements durables ayant un objectif social : _____	☐ Il a promu des caractéristiques E/S, mais n'a pas réalisé d'investissements durables

Dans quelle mesure les caractéristiques environnementales et/ou sociales promues par ce produit financier ont-elles été réalisées ?

Au cours de l'exercice financier, le produit n'a cessé de promouvoir les caractéristiques environnementales et/ou sociales en cherchant à atteindre une note ESG supérieure à celle de son univers d'investissement **80% MSCI EM (EMERGING MARKETS) + 20% MSCI FRONTIER MARKETS**. Pour déterminer la note ESG du Produit et de l'univers d'investissement ESG, la performance ESG a été évaluée de manière continue en comparant la performance moyenne d'un titre par rapport au secteur de l'émetteur du titre, pour chacune des trois caractéristiques, à savoir environnementale, sociale et de gouvernance.

L'univers d'investissement est un univers de marché large qui n'évalue ni n'inclut pas de composantes en fonction de caractéristiques environnementales et/ou sociales, et qui n'a par conséquent pas pour vocation d'être conforme aux caractéristiques promues par le fonds. Aucun indice de référence ESG n'a été désigné.

Les indicateurs de durabilité évaluent la mesure dans laquelle les caractéristiques environnementales ou sociales promues par le produit financier sont atteintes.

● *Quelle performance ont affiché les indicateurs de durabilité ?*

Amundi a développé son propre processus de notation ESG interne, qui suit une approche « Best-in-class ». Les notations adaptées à chaque secteur d'activité ont pour objectif d'évaluer la dynamique dans laquelle interviennent les entreprises.

L'indicateur de durabilité employé est la note ESG du Produit mesurée en comparaison avec la note ESG de l'univers d'investissement ESG du Produit.

À la fin de la période :

- La note ESG moyenne pondérée du portefeuille est **0.040 (D)**.
- La note ESG moyenne pondérée de l'univers d'investissement ESG est **-0.130 (D)**.

La notation ESG Amundi utilisée pour déterminer la note ESG est une note ESG quantitative qui se décline en sept niveaux allant de A (les meilleures notes de l'univers) à G (les pires notes). Sur l'échelle de notation ESG d'Amundi, les titres figurant sur la liste d'exclusion correspondent à G. Pour les entreprises émettrices, la performance ESG est évaluée de manière globale et au niveau des critères pertinents par comparaison avec la performance moyenne du secteur, en combinant les trois dimensions ESG :

- Dimension environnementale : cette dimension examine la capacité des émetteurs à contrôler leur impact environnemental direct et indirect, en limitant leur consommation d'énergie, en réduisant leurs émissions de gaz à effet de serre, en luttant contre l'appauvrissement des ressources et en protégeant la biodiversité.
- Dimension sociale : cette dimension évalue le fonctionnement d'un émetteur dans deux domaines différents, à savoir sa stratégie de développement du capital humain et le respect des droits humains en général.
- Dimension de gouvernance : cette dimension évalue la capacité de l'émetteur à garantir les fondements d'un cadre de gouvernance d'entreprise efficace et à générer de la valeur sur le long terme.

La méthodologie appliquée par la notation ESG d'Amundi utilise 38 critères qui sont soit génériques (communs à toutes les entreprises, indépendamment de leur activité) soit spécifiques au secteur, et qui sont pondérés en fonction du secteur et considérés en termes d'impact sur la réputation, l'efficacité opérationnelle et les réglementations concernant un émetteur. Les notations ESG d'Amundi sont susceptibles d'être exprimées de manière globale pour les trois dimensions E, S et G, ou individuellement pour tout facteur environnemental ou social.

● *... et par rapport aux périodes antérieures ?*

À la fin de la période précédente, la note ESG moyenne pondérée du portefeuille était de -0.08 (D) et la note ESG moyenne pondérée de l'univers d'investissement ESG était de -0.14 (D).

● *Quels étaient les objectifs des investissements durables que le produit financier entendait partiellement réaliser, et comment l'investissement durable a-t-il contribué à ces objectifs ?*

Les objectifs des investissements durables sont d'investir dans des sociétés détenues qui cherchent à respecter deux critères :

1. suivre les bonnes pratiques environnementales et sociales ; et
2. éviter de fabriquer des produits ou de fournir des services qui nuisent à l'environnement et à la société.

Pour que la société bénéficiaire des investissements soit réputée contribuer à l'objectif susmentionné, elle doit figurer parmi les « meilleures performances » de son secteur d'activité pour au moins l'un de ses facteurs environnementaux ou sociaux importants.

La définition de « meilleures performances » repose sur la méthode ESG exclusive d'Amundi, dont l'objectif est de mesurer la performance ESG d'une société bénéficiaire des investissements. Pour être considérée comme l'une des « meilleures performances », une société bénéficiaire des investissements doit afficher l'une des trois premières notes (A, B ou C, sur une échelle de notation allant de A à G) dans son secteur pour au moins un facteur environnemental ou social important. Les facteurs environnementaux et sociaux sont identifiés à l'échelle des secteurs. L'identification des facteurs importants est basée sur le cadre d'analyse ESG d'Amundi qui combine des données extra-financières et une analyse qualitative du secteur associé et des questions de durabilité. Les facteurs identifiés comme importants représentent plus de 10 % de la note ESG globale. Par exemple pour le secteur de l'énergie, les facteurs importants

sont les suivants : émissions et énergie, biodiversité et pollution, santé et sécurité, communautés locales et droits humains. Pour un aperçu plus complet des secteurs et des facteurs, veuillez consulter la Déclaration réglementaire ESG d'Amundi disponible sur www.amundi.lu

Pour contribuer aux objectifs ci-dessus, la société bénéficiaire des investissements ne doit pas avoir d'exposition significative aux activités (par ex. tabac, armes, jeux de hasard, charbon, aviation, production de viande, fabrication d'engrais et de pesticides, production de plastique à usage unique) incompatibles avec ces critères.

Le caractère durable d'un investissement est évalué au niveau de la société bénéficiaire des investissements.

Les principales incidences négatives correspondent aux incidences négatives les plus significatives des décisions d'investissement sur les facteurs de durabilité liés aux questions environnementales, sociales et de personnel, au respect des droits humains et à la lutte contre la corruption et les actes de corruption.

● ***Dans quelle mesure les investissements durables que le produit financier a partiellement réalisés n'ont-ils pas causé de préjudice important à un objectif d'investissement durable sur le plan environnemental ou social ?***

Pour s'assurer que les investissements durables ne causent pas de préjudice important (principe « Do no significant harm » ou « DNSH » en anglais), Amundi utilise deux filtres :

Le premier filtre de DNSH repose sur le contrôle des indicateurs obligatoires des Principales incidences négatives de l'Annexe 1, Tableau 1 des normes techniques réglementaires (RTS) lorsqu'il existe des données fiables (par ex. Intensité des GES des sociétés bénéficiaires des investissements) via une combinaison d'indicateurs (par ex. intensité carbone) et des seuils ou règles spécifiques (par ex. que l'intensité carbone de la société bénéficiaire des investissements n'appartient pas au dernier décile du secteur).

Dans sa politique d'exclusion qui fait partie intégrante de sa Politique d'investissement responsable, Amundi tient d'ores et déjà compte de Principales incidences négatives spécifiques. Ces exclusions, qui s'appliquent en sus des tests détaillés ci-dessus, couvrent les sujets suivants : exclusions sur les armes controversées, les violations des principes du Pacte mondial des Nations Unies, le charbon et le tabac.

Au-delà des facteurs de durabilité spécifiques couverts par le premier filtre, Amundi a défini un second filtre, qui ne tient pas compte des indicateurs obligatoires des Principales incidences négatives ci-dessus, afin de vérifier que la société n'affiche pas de mauvaises performances d'un point de vue environnemental ou social global par rapport aux autres entreprises de son secteur, ce qui correspond à un score environnemental ou social supérieur ou égal à E selon la notation ESG d'Amundi.

- ***Comment les indicateurs concernant les incidences négatives sur les facteurs de durabilité ont-ils été pris en considération ?***

Les indicateurs d'incidences négatives ont été pris en compte comme détaillé dans le premier filtre DNSH ci-dessus.

Le premier filtre DNSH repose sur le contrôle des indicateurs obligatoires des Principales incidences négatives de l'Annexe 1, Tableau 1 du Règlement délégué (UE) 2022/1288 lorsqu'il existe des données fiables via la combinaison des indicateurs suivants et de seuils ou règles spécifiques :

- une intensité en CO2 qui n'appartient pas au dernier décile par rapport aux autres entreprises du secteur (ne s'applique qu'aux secteurs à forte intensité) ;
- un Conseil d'administration dont le niveau de diversité n'appartient pas au dernier décile par rapport aux autres sociétés du secteur ;
- ne pas faire l'objet de controverse relative aux conditions de travail et aux droits humains ; et
- ne pas faire l'objet de controverse relative à la biodiversité et à la pollution.

Dans sa politique d'exclusion qui fait partie intégrante de sa Politique d'investissement responsable, Amundi tient d'ores et déjà compte de Principales incidences négatives spécifiques. Ces exclusions, qui s'appliquent en sus des tests détaillés ci-dessus, couvrent les sujets suivants : exclusions sur les armes controversées, les violations des principes du Pacte mondial des Nations Unies, le charbon et le tabac.

- ***Les investissements durables étaient-ils conformes aux Principes directeurs de l'OCDE à l'intention des entreprises multinationales et aux Principes directeurs des Nations unies relatifs aux entreprises et aux droits humains ? Description détaillée :***

Oui, les Principes directeurs de l'OCDE à l'intention des entreprises multinationales et les Principes directeurs des Nations unies relatifs aux entreprises et aux droits humains sont

intégrés à notre méthode de notation ESG. Notre outil de notation ESG exclusif évalue les émetteurs à l'aide des données disponibles auprès de nos fournisseurs de données. Par exemple, le modèle dispose d'un critère dédié appelé « Implication dans la communauté et droits humains » qui s'applique à tous les secteurs en plus d'autres critères liés aux droits humains, y compris les chaînes d'approvisionnement socialement responsables, les conditions de travail et les relations de travail. En outre, nous effectuons un contrôle des controverses au moins une fois par trimestre, y compris sur les entreprises identifiées pour des violations des droits humains. En cas de controverse, les analystes évaluent la situation, lui donnent une note (à l'aide de notre méthode de notation exclusive) et déterminent la marche à suivre. Les notes de controverse sont mises à jour chaque trimestre pour suivre les tendances et les efforts de correction.

La Taxinomie de l'UE définit un principe consistant à « ne pas causer de préjudice important » (« Do not significant harm » ou DNSH) en vertu duquel les investissements alignés sur la Taxinomie ne doivent pas causer de préjudice important aux objectifs de la Taxinomie de l'UE et s'accompagnent de critères de l'UE spécifiques.

Le principe consistant à « ne pas causer de préjudice important » ne s'applique qu'aux investissements sous-jacents du produit financier qui tiennent compte des critères de l'UE pour les activités économiques durables sur le plan environnemental. Les investissements sous-jacents de la portion restante de ce produit financier ne tiennent pas compte des critères de l'UE en matière d'activités économiques durables sur le plan environnemental.

Tout autre investissement durable doit également se conformer au principe consistant à ne pas causer de préjudice important aux objectifs environnementaux ou sociaux.

Dans quelle mesure ce produit financier a-t-il pris en considération les principales incidences négatives sur les facteurs de durabilité ?

Le produit tient compte de toutes les Principales incidences négatives obligatoires en vertu de l'Annexe 1, Tableau 1 du Règlement délégué (UE) 2022/1288 applicables à la stratégie du produit et s'appuie sur une combinaison de politiques d'exclusion (normatives et sectorielles) et d'approches d'engagement et de vote :

- Exclusion : Amundi a défini des règles d'exclusion normatives, basées sur l'activité et les secteurs, qui couvrent certains des principaux indicateurs négatifs de durabilité énumérés par le Règlement Disclosure (sur la publication d'informations).
- Intégration des facteurs ESG : Amundi a adopté des normes d'intégration ESG minimales appliquées par défaut à ses fonds de type ouvert activement gérés (exclusion des émetteurs ayant la note G et meilleure note ESG moyenne pondérée supérieure à celle de l'indice de référence applicable). Les 38 critères employés dans la stratégie de notation ESG d'Amundi ont également été conçus pour tenir compte des principaux impacts sur les facteurs de durabilité, ainsi que de la qualité de la réduction entreprise en la matière.
- Engagement : L'engagement est un processus continu et ciblé qui vise à influencer les activités ou le comportement des sociétés bénéficiaires des investissements. L'objectif des activités d'engagement peut se diviser en deux catégories : impliquer un émetteur pour améliorer la manière dont il intègre la dimension environnementale et sociale ou impliquer un émetteur pour améliorer son impact sur les questions environnementales, sociales et liées aux droits humains ou d'autres questions de durabilité qui sont importantes pour la société au sens large et l'économie mondiale.
- Vote : La politique de vote d'Amundi répond à une analyse globale de toutes les questions à long terme qui peuvent influencer la création de valeur, y compris les questions ESG importantes. pour plus d'informations, veuillez consulter la Politique de vote d'Amundi.
- Surveillance des controverses : Amundi a développé un système de suivi des controverses qui s'appuie sur trois fournisseurs de données externes pour suivre systématiquement l'évolution des controverses et leur niveau de gravité. Cette approche quantitative est ensuite enrichie d'une évaluation approfondie de chaque controverse grave, menée par des analystes ESG, puis d'un examen périodique de son évolution. Cette approche s'applique à tous les fonds d'Amundi.

Pour de plus amples détails sur le mode de prise en compte des indicateurs relatifs aux Principales incidences négatives obligatoires, veuillez consulter la Déclaration sur la publication d'informations en matière de finance durable d'Amundi disponible sur www.amundi.com.

Quels étaient les principaux investissements de ce produit financier ?

La liste inclut les investissements qui constituent **la proportion la plus importante d'investissements** du produit financier au cours de la période de référence, à savoir : **du 01/07/2023 au 30/06/2024**

Principaux investissements	Secteur	Sous-secteur	Pays	% des actifs

Quelle était la proportion d'investissements liés à la durabilité ?

● **Quelle était l'allocation d'actifs ?**

L'allocation d'actifs décrit la part des investissements dans des actifs spécifiques.

La catégorie **N° 1 Alignés sur les caractéristiques E/S** inclut les investissements du produit financier utilisés pour atteindre les caractéristiques environnementales ou sociales promues par le produit financier.

La catégorie **N° 2 Autres** inclut les investissements restants du produit financier qui ne sont ni alignés sur les caractéristiques environnementales ou sociales ni considérés comme investissements durables.

La catégorie **N° 1 Alignés sur les caractéristiques E/S** comprend :

- la sous-catégorie **N° 1A Durables** couvrant les investissements durables sur le plan environnemental et social ;
- la sous-catégorie **N° 1B Autres caractéristiques E/S** couvrant les investissements alignés sur les caractéristiques environnementales ou sociales qui ne sont pas considérés comme des investissements durables.

● **Dans quels secteurs économiques ont été réalisés les investissements ?**

Secteur	Sous-secteur	% des actifs
Obligations financières	Banques	15.10%
Technologies de l'information	Semi-conducteurs et équipement pour semi-conducteurs	14.57%
Consommation discrétionnaire	Services aux consommateurs	10.40%
Technologies de l'information	Matériel technologique et informatiques	9.98%
Services de communication	Médias et loisirs	6.75%

Aux fins d'observer la taxinomie de l'UE, les critères relatifs au **gaz fossile** incluent des limites aux émissions et le passage à une énergie entièrement renouvelable ou à des combustibles à faible teneur en carbone d'ici fin 2035. Pour **l'énergie nucléaire**, les critères incluent des règles exhaustives de sécurité et de gestion des déchets.

Les activités habilitantes permettent directement à d'autres activités de contribuer de manière substantielle à la réalisation d'un objectif environnemental.

Les activités transitoires sont des activités pour

Dans quelle mesure les investissements durables ayant un objectif environnemental étaient-ils alignés sur la Taxinomie de l'UE ?

Le fonds promeut des caractéristiques tant environnementales que sociales. Si le fonds ne s'est pas engagé à réaliser des investissements alignés sur la Taxinomie de l'UE, au cours de la période sous revue, il a cependant investi 0.01% dans des investissements durables alignés sur la Taxinomie de l'UE. De tels investissements ont contribué aux objectifs d'atténuation du changement climatique de la taxinomie de l'UE.

L'alignement des sociétés bénéficiaires des investissements sur les objectifs de la taxinomie de l'UE susmentionnés est évalué à l'aide du chiffre d'affaires (ou des revenus) et/ou des données d'utilisation des produits des obligations vertes.

Le pourcentage communiqué d'alignement des investissements du fonds sur la Taxinomie de l'UE n'a pas été audité par le réviseur d'entreprises agréé du fonds ni par aucun tiers.

Le produit financier a-t-il investi dans des activités liées au gaz fossile et/ou à l'énergie nucléaire qui sont conformes à la Taxinomie de l'UE¹ ?

☐ Oui :

☐ Dans le gaz fossile ☐ Dans l'énergie nucléaire

☒ Non

lesquelles il n'existe pas encore de solution de remplacement sobre en carbone et, entre autres, dont les niveaux d'émission de gaz à effet de serre correspondent aux meilleures performances réalisables.

Les activités alignées sur la taxinomie sont exprimées en pourcentage :

- **du chiffre d'affaires** pour refléter la part des revenus provenant des activités vertes des sociétés bénéficiaires d'investissements ;
- **des dépenses d'investissement (CapEx)** pour montrer les investissements verts réalisés par les sociétés bénéficiaires d'investissements, pour une transition vers une économie verte, par exemple ; et
- **des dépenses d'exploitation (OpEx)** pour refléter les activités opérationnelles vertes des sociétés bénéficiaires d'investissements.

Aucune donnée fiable concernant l'alignement sur les activités de gaz fossile et d'énergie nucléaire conformes à la Taxinomie de l'UE n'était disponible sur la période.

¹Les activités liées au gaz fossile et/ou à l'énergie nucléaire ne seront conformes à la Taxinomie de l'UE que si elles contribuent à limiter le changement climatique (« atténuation du changement climatique ») et ne causent pas de préjudice important à tout objectif de la Taxinomie de l'UE. L'intégralité des critères relatifs aux activités économiques liées au gaz fossile et à l'énergie nucléaire conformes à la Taxinomie de l'UE sont définis dans le Règlement délégué (UE) 2022/1214 de la Commission.

Les graphiques ci-dessous font apparaître en vert le pourcentage d'investissements alignés sur la Taxinomie de l'UE. Étant donné qu'il n'existe pas de méthodologie appropriée pour déterminer l'alignement des obligations souveraines* sur la taxinomie, le premier graphique montre l'alignement sur la Taxinomie par rapport à tous les investissements du produit financier, y compris les obligations souveraines, tandis que le deuxième graphique représente l'alignement sur la Taxinomie uniquement par rapport aux investissements du produit financier autres que les obligations souveraines.

* Aux fins de ces graphiques, les « obligations souveraines » comprennent toutes les expositions souveraines

● Quelle était la part d'investissements dans les activités transitoires et habilitantes ?

Au 30/06/2024, en utilisant le chiffre d'affaires et/ou les données d'utilisation des produits des obligations vertes comme indicateur, la part d'investissements du fonds dans les activités transitoires était de 0.00% et la part d'investissements dans les activités habilitantes était de 0.00%. Le pourcentage communiqué d'alignement des investissements du fonds sur la Taxinomie de l'UE n'a pas été audité par le réviseur d'entreprises agréé du fonds ni par aucun tiers.

● Comment se situe le pourcentage d'investissements alignés sur la Taxinomie de l'UE par rapport aux périodes de référence antérieures ?

À la fin de la période précédente, le pourcentage d'investissements alignés sur la taxinomie était de 0.02%.

Quelle était la part des investissements durables ayant un objectif environnemental qui n'étaient pas alignés sur la Taxinomie de l'UE ?

La part des investissements durables ayant un objectif environnemental et non alignés sur la taxinomie était de **21.47%** à la fin de la période.

sont des investissements durables ayant

un objectif environnemental qui **ne tiennent pas compte des critères** en matière d'activités économiques durables sur le plan environnemental, visés par le Règlement (UE) 2020/852.

Cela tient du fait que certains émetteurs sont considérés comme investissements durables en vertu du Règlement SFDR mais qu'une portion de leurs activités n'est pas alignée sur les standards de la taxinomie de l'UE, ou que les données correspondantes ne sont pas encore disponibles en vue d'une évaluation relative à la taxinomie de l'UE.

Quelle était la part d'investissements durables sur le plan social ?

La proportion des investissements durables sur le plan social était de 11.05% à la fin de la période.

Quels investissements étaient inclus dans la catégorie « Autres », quelle était leur finalité et existait-il des garanties environnementales ou sociales minimales ?

Sont inclus dans la catégorie « N° 2 Autres » les liquidités et autres instruments détenus aux fins de gestion de la liquidité et des risques du portefeuille. Pour les obligations et actions non notées, des garanties environnementales et sociales minimales ont été mises en place par le biais d'un filtrage des émetteurs en rapport aux activités controversées définies dans les principes du Pacte mondial des Nations unies. Elle peut également inclure des titres sans notation ESG pour lesquels les données nécessaires à la mesure de la réalisation des caractéristiques environnementales ou sociales ne sont pas disponibles.

Quelles mesures ont-elles été prises pour réaliser les caractéristiques environnementales et/ou sociales au cours de la période de référence ?

Des indicateurs de durabilité sont mis à disposition de manière continue dans le système de gestion du portefeuille pour permettre aux gestionnaires du portefeuille d'évaluer l'impact de leurs décisions d'investissement.

Ces indicateurs sont intégrés au cadre de contrôle d'AMUNDI, en répartissant les responsabilités entre le premier niveau de contrôles réalisés par les équipes Investissement elles-mêmes, et le second niveau de contrôles réalisé par les équipes Risque, qui surveillent la conformité aux caractéristiques environnementales ou sociales promues en permanence par le fonds.

En outre, la Politique d'investissement responsable d'AMUNDI définit une approche active en matière d'engagement qui promeut le dialogue avec les sociétés bénéficiaires des investissements, y compris celles qui sont incluses dans le portefeuille de ce produit. Notre Rapport annuel en matière d'engagement, disponible à la page <https://about.amundi.com/esg-documentation>, fournit des informations détaillées sur cet engagement et ses résultats.

Quelles ont été les performances de ce produit financier par rapport à l'indice de référence ?

Un indice de référence est un indice qui sert à mesurer si le produit financier réalise les caractéristiques environnementales et/ou sociales qu'il

Ce produit ne dispose pas d'un Indice de référence ESG.

● En quoi l'indice de référence diffère-t-il de l'indice de marché large ?

Ce produit ne dispose pas d'un Indice de référence ESG.

● Quelles ont été les performances de ce produit financier par rapport aux indicateurs de durabilité pour déterminer l'alignement de l'indice de référence sur les caractéristiques environnementales ou sociales promues ?

Ce produit ne dispose pas d'un Indice de référence ESG.

- ***Quelle a été la performance de ce produit financier par rapport à l'indice de référence ?***

Ce produit ne dispose pas d'un Indice de référence ESG.

- ***Quelle a été la performance de ce produit financier par rapport à l'indice de marché large ?***

Ce produit ne dispose pas d'un Indice de référence ESG.

Informations périodiques pour les produits financiers visés à l'Article 8, paragraphes 1, 2 et 2a, du Règlement (UE) 2019/2088 et à l'Article 6, premier paragraphe du Règlement (UE) 2020/852

Dénomination du produit : AMUNDI FUNDS
RUSSIAN EQUITY

Identifiant d'entité juridique :
549300SIBXZF8M2U7K58

Par investissement durable, on entend un investissement dans une activité économique qui contribue à un objectif environnemental ou social, pour autant qu'il ne cause de préjudice important à aucun de ces objectifs et que les sociétés détenues respectent les pratiques de bonne gouvernance.

La Taxinomie de l'UE est un système de classification institué par le Règlement (UE) 2020/852, qui dresse une liste d'activités économiques durables sur le plan environnemental. Ce règlement ne comprend pas de liste d'activités économiques durables sur le plan social. Les investissements durables ayant un objectif environnemental ne sont pas nécessairement alignés sur la taxinomie.

Caractéristiques environnementales et/ou sociales

Le produit financier avait-il un objectif d'investissement durable ?

Oui

X

Non

Il a réalisé des investissements durables ayant un objectif environnemental : _____

dans des activités économiques qui sont considérées comme durables sur le plan environnemental au titre de la Taxinomie de l'UE

dans des activités économiques qui ne sont pas considérées comme durables sur le plan environnemental au titre de la Taxinomie de l'UE

Il a réalisé des investissements durables ayant un objectif social : _____

Il a promu des caractéristiques environnementales/sociales (E/S) et, bien qu'il n'ait pas eu pour objectif l'investissement durable, il contenait une proportion d'investissements durables de **8.50%**

ayant un objectif environnemental dans des activités économiques qui sont considérées comme durables sur le plan environnemental au titre de la Taxinomie de l'UE

ayant un objectif environnemental dans des activités économiques qui ne sont pas considérées comme durables sur le plan environnemental au titre de la Taxinomie de l'UE

ayant un objectif social

Il a promu des caractéristiques E/S, mais n'a pas réalisé d'investissements durables

Dans quelle mesure les caractéristiques environnementales et/ou sociales promues par ce produit financier ont-elles été réalisées ?

Au cours de l'exercice financier, le produit n'a cessé de promouvoir les caractéristiques environnementales et/ou sociales en cherchant à atteindre une note ESG supérieure à celle de son univers d'investissement **MSCI RUSSIA 10/40**. Pour déterminer la note ESG du Produit et de l'univers d'investissement ESG, la performance ESG a été évaluée de manière continue en comparant la performance moyenne d'un titre par rapport au secteur de l'émetteur du titre, pour chacune des trois caractéristiques, à savoir environnementale, sociale et de gouvernance.

L'univers d'investissement est un univers de marché large qui n'évalue ni n'inclut pas de composantes en fonction de caractéristiques environnementales et/ou sociales, et qui n'a par conséquent pas pour vocation d'être conforme aux caractéristiques promues par le fonds.

Les indicateurs de durabilité évaluent la mesure dans laquelle

- Quelle performance ont affiché les indicateurs de durabilité ?

les caractéristiques environnementales ou sociales promues par le produit financier sont atteintes.

Amundi a développé son propre processus de notation ESG interne, qui suit une approche « Best-in-class ». Les notations adaptées à chaque secteur d'activité ont pour objectif d'évaluer la dynamique dans laquelle interviennent les entreprises.

L'indicateur de durabilité employé est la note ESG du Produit mesurée en comparaison avec la note ESG de l'univers d'investissement ESG du Produit.

À la fin de la période :

- La note ESG moyenne pondérée du portefeuille est **-0.511 (E)**.
- La note ESG moyenne pondérée de l'univers d'investissement ESG est **-1.862 (F)**.

La notation ESG Amundi utilisée pour déterminer la note ESG est une note ESG quantitative qui se décline en sept niveaux allant de A (les meilleures notes de l'univers) à G (les pires notes). Sur l'échelle de notation ESG d'Amundi, les titres figurant sur la liste d'exclusion correspondent à G. Pour les entreprises émettrices, la performance ESG est évaluée de manière globale et au niveau des critères pertinents par comparaison avec la performance moyenne du secteur, en combinant les trois dimensions ESG :

- Dimension environnementale : cette dimension examine la capacité des émetteurs à contrôler leur impact environnemental direct et indirect, en limitant leur consommation d'énergie, en réduisant leurs émissions de gaz à effet de serre, en luttant contre l'appauvrissement des ressources et en protégeant la biodiversité.
- Dimension sociale : cette dimension évalue le fonctionnement d'un émetteur dans deux domaines différents, à savoir sa stratégie de développement du capital humain et le respect des droits humains en général.
- Dimension de gouvernance : cette dimension évalue la capacité de l'émetteur à garantir les fondements d'un cadre de gouvernance d'entreprise efficace et à générer de la valeur sur le long terme.

La méthodologie appliquée par la notation ESG d'Amundi utilise 38 critères qui sont soit génériques (communs à toutes les entreprises, indépendamment de leur activité) soit spécifiques au secteur, et qui sont pondérés en fonction du secteur et considérés en termes d'impact sur la réputation, l'efficacité opérationnelle et les réglementations concernant un émetteur. Les notations ESG d'Amundi sont susceptibles d'être exprimées de manière globale pour les trois dimensions E, S et G, ou individuellement pour tout facteur environnemental ou social.

● **... et par rapport aux périodes antérieures ?**

À la fin de la période précédente, la note ESG moyenne pondérée du portefeuille était de -0.78 (D) et la note ESG moyenne pondérée de l'univers d'investissement ESG était de -1.25 (E).

● **Quels étaient les objectifs des investissements durables que le produit financier entendait partiellement réaliser, et comment l'investissement durable a-t-il contribué à ces objectifs ?**

Les objectifs des investissements durables sont d'investir dans des sociétés détenues qui cherchent à respecter deux critères :

1. suivre les bonnes pratiques environnementales et sociales ; et
2. éviter de fabriquer des produits ou de fournir des services qui nuisent à l'environnement et à la société.

Pour que la société bénéficiaire des investissements soit réputée contribuer à l'objectif susmentionné, elle doit figurer parmi les « meilleures performances » de son secteur d'activité pour au moins l'un de ses facteurs environnementaux ou sociaux importants.

La définition de « meilleures performances » repose sur la méthode ESG exclusive d'Amundi, dont l'objectif est de mesurer la performance ESG d'une société bénéficiaire des investissements. Pour être considérée comme l'une des « meilleures performances », une société bénéficiaire des investissements doit afficher l'une des trois premières notes (A, B ou C, sur une échelle de notation allant de A à G) dans son secteur pour au moins un facteur environnemental ou social important. Les facteurs environnementaux et sociaux sont identifiés à l'échelle des secteurs. L'identification des facteurs importants est basée sur le cadre d'analyse ESG d'Amundi qui combine des données extra-financières et une analyse qualitative du secteur associé et des questions de durabilité. Les facteurs identifiés comme importants représentent plus de 10 % de la note ESG globale. Par exemple pour le secteur de l'énergie, les facteurs importants sont les suivants : émissions et énergie, biodiversité et pollution, santé et sécurité, communautés locales et droits humains. Pour un aperçu plus complet des secteurs et des facteurs, veuillez consulter la Déclaration réglementaire ESG d'Amundi disponible sur www.amundi.lu

Pour contribuer aux objectifs ci-dessus, la société bénéficiaire des investissements ne doit pas avoir d'exposition significative aux activités (par ex. tabac, armes, jeux de hasard, charbon, aviation, production de viande, fabrication d'engrais et de pesticides, production de plastique à usage unique) incompatibles avec ces critères.

Le caractère durable d'un investissement est évalué au niveau de la société bénéficiaire des investissements.

● ***Dans quelle mesure les investissements durables que le produit financier a partiellement réalisés n'ont-ils pas causé de préjudice important à un objectif d'investissement durable sur le plan environnemental ou social ?***

Pour s'assurer que les investissements durables ne causent pas de préjudice important (principe « Do no significant harm » ou « DNSH » en anglais), Amundi utilise deux filtres :

Le premier filtre de DNSH repose sur le contrôle des indicateurs obligatoires des Principales incidences négatives de l'Annexe 1, Tableau 1 des normes techniques réglementaires (RTS) lorsqu'il existe des données fiables (par ex. Intensité des GES des sociétés bénéficiaires des investissements) via une combinaison d'indicateurs (par ex. intensité carbone) et des seuils ou règles spécifiques (par ex. que l'intensité carbone de la société bénéficiaire des investissements n'appartient pas au dernier décile du secteur).

Dans sa politique d'exclusion qui fait partie intégrante de sa Politique d'investissement responsable, Amundi tient d'ores et déjà compte de Principales incidences négatives spécifiques. Ces exclusions, qui s'appliquent en sus des tests détaillés ci-dessus, couvrent les sujets suivants : exclusions sur les armes controversées, les violations des principes du Pacte mondial des Nations Unies, le charbon et le tabac.

Au-delà des facteurs de durabilité spécifiques couverts par le premier filtre, Amundi a défini un second filtre, qui ne tient pas compte des indicateurs obligatoires des Principales incidences négatives ci-dessus, afin de vérifier que la société n'affiche pas de mauvaises performances d'un point de vue environnemental ou social global par rapport aux autres entreprises de son secteur, ce qui correspond à un score environnemental ou social supérieur ou égal à E selon la notation ESG d'Amundi.

- ***Comment les indicateurs concernant les incidences négatives sur les facteurs de durabilité ont-ils été pris en considération ?***

Les indicateurs d'incidences négatives ont été pris en compte comme détaillé dans le premier filtre DNSH ci-dessus.

Le premier filtre DNSH repose sur le contrôle des indicateurs obligatoires des Principales incidences négatives de l'Annexe 1, Tableau 1 du Règlement délégué (UE) 2022/1288 lorsqu'il existe des données fiables via la combinaison des indicateurs suivants et de seuils ou règles spécifiques :

- une intensité en CO2 qui n'appartient pas au dernier décile par rapport aux autres entreprises du secteur (ne s'applique qu'aux secteurs à forte intensité) ;
- un Conseil d'administration dont le niveau de diversité n'appartient pas au dernier décile par rapport aux autres sociétés du secteur ;
- ne pas faire l'objet de controverse relative aux conditions de travail et aux droits humains ; et
- ne pas faire l'objet de controverse relative à la biodiversité et à la pollution.

Dans sa politique d'exclusion qui fait partie intégrante de sa Politique d'investissement responsable, Amundi tient d'ores et déjà compte de Principales incidences négatives spécifiques. Ces exclusions, qui s'appliquent en sus des tests détaillés ci-dessus, couvrent les sujets suivants : exclusions sur les armes controversées, les violations des principes du Pacte mondial des Nations Unies, le charbon et le tabac.

- ***Les investissements durables étaient-ils conformes aux Principes directeurs de l'OCDE à l'intention des entreprises multinationales et aux Principes directeurs des Nations unies relatifs aux entreprises et aux droits humains ? Description détaillée :***

Oui, les Principes directeurs de l'OCDE à l'intention des entreprises multinationales et les Principes directeurs des Nations unies relatifs aux entreprises et aux droits humains sont intégrés à notre méthode de notation ESG. Notre outil de notation ESG exclusif évalue les émetteurs à l'aide des données disponibles auprès de nos fournisseurs de données. Par exemple, le modèle dispose d'un critère dédié appelé « Implication dans la communauté et droits humains » qui s'applique à tous les secteurs en plus d'autres critères liés aux droits humains, y compris les chaînes d'approvisionnement socialement responsables, les conditions de travail et les relations de travail. En outre, nous effectuons un contrôle des

Les principales incidences négatives correspondent aux incidences négatives les plus significatives des décisions d'investissement sur les facteurs de durabilité liés aux questions environnementales, sociales et de personnel, au respect des droits humains et à la lutte contre la corruption et les actes de corruption.

controverses au moins une fois par trimestre, y compris sur les entreprises identifiées pour des violations des droits humains. En cas de controverse, les analystes évaluent la situation, lui donnent une note (à l'aide de notre méthode de notation exclusive) et déterminent la marche à suivre. Les notes de controverse sont mises à jour chaque trimestre pour suivre les tendances et les efforts de correction.

La Taxinomie de l'UE définit un principe consistant à « ne pas causer de préjudice important » (« Do not significant harm » ou DNSH) en vertu duquel les investissements alignés sur la Taxinomie ne doivent pas causer de préjudice important aux objectifs de la Taxinomie de l'UE et s'accompagnent de critères de l'UE spécifiques.

Le principe consistant à « ne pas causer de préjudice important » ne s'applique qu'aux investissements sous-jacents du produit financier qui tiennent compte des critères de l'UE pour les activités économiques durables sur le plan environnemental. Les investissements sous-jacents de la portion restante de ce produit financier ne tiennent pas compte des critères de l'UE en matière d'activités économiques durables sur le plan environnemental.

Tout autre investissement durable doit également se conformer au principe consistant à ne pas causer de préjudice important aux objectifs environnementaux ou sociaux.

Dans quelle mesure ce produit financier a-t-il pris en considération les principales incidences négatives sur les facteurs de durabilité ?

Le produit tient compte de toutes les Principales incidences négatives obligatoires en vertu de l'Annexe 1, Tableau 1 du Règlement délégué (UE) 2022/1288 applicables à la stratégie du produit et s'appuie sur une combinaison de politiques d'exclusion (normatives et sectorielles) et d'approches d'engagement et de vote :

- Exclusion : Amundi a défini des règles d'exclusion normatives, basées sur l'activité et les secteurs, qui couvrent certains des principaux indicateurs négatifs de durabilité énumérés par le Règlement Disclosure (sur la publication d'informations).
- Intégration des facteurs ESG : Amundi a adopté des normes d'intégration ESG minimales appliquées par défaut à ses fonds de type ouvert activement gérés (exclusion des émetteurs ayant la note G et meilleure note ESG moyenne pondérée supérieure à celle de l'indice de référence applicable). Les 38 critères employés dans la stratégie de notation ESG d'Amundi ont également été conçus pour tenir compte des principaux impacts sur les facteurs de durabilité, ainsi que de la qualité de la réduction entreprise en la matière.
- Engagement : L'engagement est un processus continu et ciblé qui vise à influencer les activités ou le comportement des sociétés bénéficiaires des investissements. L'objectif des activités d'engagement peut se diviser en deux catégories : impliquer un émetteur pour améliorer la manière dont il intègre la dimension environnementale et sociale ou impliquer un émetteur pour améliorer son impact sur les questions environnementales, sociales et liées aux droits humains ou d'autres questions de durabilité qui sont importantes pour la société au sens large et l'économie mondiale.
- Vote : La politique de vote d'Amundi répond à une analyse globale de toutes les questions à long terme qui peuvent influencer la création de valeur, y compris les questions ESG importantes. pour plus d'informations, veuillez consulter la Politique de vote d'Amundi.
- Surveillance des controverses : Amundi a développé un système de suivi des controverses qui s'appuie sur trois fournisseurs de données externes pour suivre systématiquement l'évolution des controverses et leur niveau de gravité. Cette approche quantitative est ensuite enrichie d'une évaluation approfondie de chaque controverse grave, menée par des analystes ESG, puis d'un examen périodique de son évolution. Cette approche s'applique à tous les fonds d'Amundi.

Pour de plus amples détails sur le mode de prise en compte des indicateurs relatifs aux Principales incidences négatives obligatoires, veuillez consulter la Déclaration sur la publication d'informations en matière de finance durable d'Amundi disponible sur www.amundi.com.

Quels étaient les principaux investissements de ce produit financier ?

La liste inclut les investissements qui constituent **la proportion la plus importante d'investissements** du produit financier au cours de la période de référence, à savoir : **du 01/07/2023 au 30/06/2024**

Principaux investissements	Secteur	Sous-secteur	Pays	% des actifs
HALYK SAVINGS BK GDR	Obligations financières	Banques	Kazakhstan	8.50%

Quelle était la proportion d'investissements liés à la durabilité ?

● Quelle était l'allocation d'actifs ?

L'allocation d'actifs décrit la part des investissements dans des actifs spécifiques.

La catégorie **N° 1 Alignés sur les caractéristiques E/S** inclut les investissements du produit financier utilisés pour atteindre les caractéristiques environnementales ou sociales promues par le produit financier.

La catégorie **N° 2 Autres** inclut les investissements restants du produit financier qui ne sont ni alignés sur les caractéristiques environnementales ou sociales ni considérés comme investissements durables.

La catégorie **N° 1 Alignés sur les caractéristiques E/S** comprend :

- la sous-catégorie **N° 1A Durables** couvrant les investissements durables sur le plan environnemental et social ;

- la sous-catégorie **N° 1B Autres caractéristiques E/S** couvrant les investissements alignés sur les caractéristiques environnementales ou sociales qui ne sont pas considérés comme des investissements durables.

● Dans quels secteurs économiques ont été réalisés les investissements ?

Secteur	Sous-secteur	% des actifs
Obligations financières	Banques	8.50%
Liquidités	Liquidités	91.50%

Aux fins d'observer la taxinomie de l'UE, les critères relatifs au **gaz fossile** incluent des limites aux émissions et le passage à une énergie entièrement renouvelable ou à des combustibles à faible teneur en carbone d'ici fin 2035. Pour **l'énergie nucléaire**, les critères incluent des règles exhaustives de sécurité et de gestion des déchets.

Les activités habilitantes permettent directement à d'autres activités de contribuer de manière substantielle à la réalisation d'un objectif environnemental.

Les activités transitoires sont des activités pour lesquelles il n'existe pas encore de solution de remplacement sobre en carbone et, entre autres, dont les niveaux d'émission de gaz à effet de serre correspondent aux meilleures performances réalisables.

Les activités alignées sur la taxinomie sont exprimées en pourcentage :

- **du chiffre d'affaires** pour refléter la part des revenus provenant des activités vertes des sociétés bénéficiaires d'investissements ;
- **des dépenses d'investissement (CapEx)** pour montrer les investissements verts réalisés par les sociétés bénéficiaires d'investissements, pour une transition vers une économie verte, par exemple ;
- **des dépenses d'exploitation (OpEx)** pour refléter les activités opérationnelles vertes des sociétés bénéficiaires d'investissements.

Dans quelle mesure les investissements durables ayant un objectif environnemental étaient-ils alignés sur la Taxinomie de l'UE ?

Le fonds promeut des caractéristiques tant environnementales que sociales. Si le fonds ne s'est pas engagé à réaliser des investissements alignés sur la Taxinomie de l'UE, au cours de la période sous revue, il a cependant investi 0.00% dans des investissements durables alignés sur la Taxinomie de l'UE.

- **Le produit financier a-t-il investi dans des activités liées au gaz fossile et/ou à l'énergie nucléaire qui sont conformes à la Taxinomie de l'UE¹ ?**

☐ Oui :

Dans le gaz fossile

Dans l'énergie nucléaire

Non

Aucune donnée fiable concernant l'alignement sur les activités de gaz fossile et d'énergie nucléaire conformes à la Taxinomie de l'UE n'était disponible sur la période.

¹ Les activités liées au gaz fossile et/ou à l'énergie nucléaire ne seront conformes à la Taxinomie de l'UE que si elles contribuent à limiter le changement climatique (« réduction du changement climatique ») et ne causent pas de préjudice important à tout objectif de la Taxinomie de l'UE. L'intégralité des critères relatifs aux activités économiques liées au gaz fossile et à l'énergie nucléaire conformes à la Taxinomie de l'UE sont définis dans le Règlement délégué (UE) 2022/1214 de la Commission.

Les graphiques ci-dessous font apparaître en vert le pourcentage d'investissements alignés sur la Taxinomie de l'UE. Étant donné qu'il n'existe pas de méthodologie appropriée pour déterminer l'alignement des obligations souveraines* sur la taxinomie, le premier graphique montre l'alignement sur la Taxinomie par rapport à tous les investissements du produit financier, y compris les obligations souveraines, tandis que le deuxième graphique représente l'alignement sur la Taxinomie uniquement par rapport aux investissements du produit financier autres que les obligations souveraines.

* Aux fins de ces graphiques, les « obligations souveraines » comprennent toutes les expositions souveraines

● **Quelle était la part d'investissements dans les activités transitoires et habilitantes ?**

Au 30/06/2024, en utilisant le chiffre d'affaires et/ou les données d'utilisation des produits des obligations vertes comme indicateur, la part d'investissements du fonds dans les activités transitoires était de 0.00% et la part d'investissements dans les activités habilitantes était de 0.00%. Le pourcentage communiqué d'alignement des investissements du fonds sur la Taxinomie de l'UE n'a pas été audité par le réviseur d'entreprises agréé du fonds ni par aucun tiers.

● **Comment se situe le pourcentage d'investissements alignés sur la Taxinomie de l'UE par rapport aux périodes de référence antérieures ?**

À la fin de la période précédente, le pourcentage d'investissements alignés sur la taxinomie était de 0.00%.

sont des investissements durables ayant un objectif environnemental qui **ne tiennent pas compte des critères** en matière d'activités économiques durables sur le plan environnemental visés par le Règlement (UE) 2020/852.

● **Quelle était la part des investissements durables ayant un objectif environnemental qui n'étaient pas alignés sur la Taxinomie de l'UE ?**

La part des investissements durables ayant un objectif environnemental et non alignés sur la taxinomie était de **0.00%** à la fin de la période.

Cela tient du fait que certains émetteurs sont considérés comme investissements durables en vertu du Règlement SFDR mais qu'une portion de leurs activités n'est pas alignée sur les standards de la taxinomie de l'UE, ou que les données correspondantes ne sont pas encore disponibles en vue d'une évaluation relative à la taxinomie de l'UE.

● **Quelle était la part d'investissements durables sur le plan social ?**

La proportion des investissements durables sur le plan social était de 8.50% à la fin de la période.

● **Quels investissements étaient inclus dans la catégorie « Autres », quelle était leur finalité et existait-il des garanties environnementales ou sociales minimales ?**

Sont inclus dans la catégorie « N° 2 Autres » les liquidités et autres instruments détenus aux fins de gestion de la liquidité et des risques du portefeuille. Pour les obligations et actions non notées, des garanties environnementales et sociales minimales ont été mises en place par le biais d'un filtrage des émetteurs en rapport aux activités controversées définies dans les principes du Pacte mondial des Nations unies. Elle peut également inclure des titres sans notation ESG pour lesquels les données nécessaires à la mesure de la réalisation des caractéristiques environnementales ou sociales ne sont pas disponibles.

● **Quelles mesures ont-elles été prises pour réaliser les caractéristiques environnementales et/ou sociales au cours de la période de référence ?**

Des indicateurs de durabilité sont mis à disposition de manière continue dans le système de gestion du portefeuille pour permettre aux gestionnaires du portefeuille d'évaluer l'impact de leurs décisions d'investissement.

Ces indicateurs sont intégrés au cadre de contrôle d'AMUNDI, en répartissant les responsabilités entre le premier niveau de contrôles réalisés par les équipes Investissement elles-mêmes, et le second niveau de contrôles réalisé par les équipes Risque, qui surveillent la conformité aux caractéristiques environnementales ou sociales promues en permanence par le fonds.

En outre, la Politique d'investissement responsable d'AMUNDI définit une approche active en matière d'engagement qui promeut le dialogue avec les sociétés bénéficiaires des investissements, y compris celles qui sont incluses dans le portefeuille de ce produit. Notre Rapport annuel en matière d'engagement, disponible à la page <https://about.amundi.com/esg-documentation>, fournit des informations détaillées sur cet engagement et ses résultats.

Quelles ont été les performances de ce produit financier par rapport à l'indice de référence ?

Un indice de référence est un indice qui sert à mesurer si le produit financier réalise les caractéristiques environnementales et/ou sociales qu'il promeut.

Ce produit ne dispose pas d'un Indice de référence ESG.

Par investissement durable, on entend un investissement dans une activité économique qui contribue à un objectif environnemental ou social, pour autant qu'il ne cause de préjudice important à aucun de ces objectifs et que les sociétés détenues respectent les pratiques de bonne gouvernance.

La **Taxinomie de l'UE** est un système de classification institué par le Règlement (UE) 2020/852, qui dresse une liste d'**activités économiques durables sur le plan environnemental**. Ce règlement ne comprend pas de liste d'activités économiques durables sur le plan social. Les investissements durables ayant un objectif environnemental ne sont pas nécessairement alignés sur la taxinomie.

Caractéristiques environnementales et/ou sociales

Le produit financier avait-il un objectif d'investissement durable ?

☒ ☐ ☐ **Oui** ☒ ☐ ☐ **X** **Non**

☐ Il a réalisé des investissements durables ayant un objectif environnemental : _____ ☐ dans des activités économiques qui sont considérées comme durables sur le plan environnemental au titre de la Taxinomie de l'UE ☐ dans des activités économiques qui ne sont pas considérées comme durables sur le plan environnemental au titre de la Taxinomie de l'UE ☐ Il a réalisé des investissements durables ayant un objectif social : _____	☒ X Il a promu des caractéristiques environnementales/sociales (E/S) et, bien qu'il n'ait pas eu pour objectif l'investissement durable, il contenait une proportion d'investissements durables de <u>32.14%</u> ☐ ayant un objectif environnemental dans des activités économiques qui sont considérées comme durables sur le plan environnemental au titre de la Taxinomie de l'UE ☒ X ayant un objectif environnemental dans des activités économiques qui ne sont pas considérées comme durables sur le plan environnemental au titre de la Taxinomie de l'UE ☐ ayant un objectif social ☐ Il a promu des caractéristiques E/S, mais n'a pas réalisé d'investissements durables
---	--

Dans quelle mesure les caractéristiques environnementales et/ou sociales promues par ce produit financier ont-elles été réalisées ?

Au cours de l'exercice financier, le produit n'a cessé de promouvoir les caractéristiques environnementales et/ou sociales en cherchant à atteindre une note ESG supérieure à celle de son univers d'investissement **MSCI India 10/40**. Pour déterminer la note ESG du Produit et de l'univers d'investissement ESG, la performance ESG a été évaluée de manière continue en comparant la performance moyenne d'un titre par rapport au secteur de l'émetteur du titre, pour chacune des trois caractéristiques, à savoir environnementale, sociale et de gouvernance.

L'univers d'investissement est un univers de marché large qui n'évalue ni n'inclut pas de composantes en fonction de caractéristiques environnementales et/ou sociales, et qui n'a par conséquent pas pour vocation d'être conforme aux caractéristiques promues par le fonds. Aucun indice de référence ESG n'a été désigné.

Les indicateurs de durabilité évaluent la mesure dans laquelle les caractéristiques environnementales ou sociales promues par le produit financier sont atteintes.

● **Quelle performance ont affiché les indicateurs de durabilité ?**

Amundi a développé son propre processus de notation ESG interne, qui suit une approche « Best-in-class ». Les notations adaptées à chaque secteur d'activité ont pour objectif d'évaluer la dynamique dans laquelle interviennent les entreprises.

L'indicateur de durabilité employé est la note ESG du Produit mesurée en comparaison avec la note ESG de l'univers d'investissement ESG du Produit.

À la fin de la période :

- La note ESG moyenne pondérée du portefeuille est -0.117 (D).
- La note ESG moyenne pondérée de l'univers d'investissement ESG est -0.3808 (D).

La notation ESG Amundi utilisée pour déterminer la note ESG est une note ESG quantitative qui se décline en sept niveaux allant de A (les meilleures notes de l'univers) à G (les pires notes). Sur l'échelle de notation ESG d'Amundi, les titres figurant sur la liste d'exclusion correspondent à G. Pour les entreprises émettrices, la performance ESG est évaluée de manière globale et au niveau des critères pertinents par comparaison avec la performance moyenne du secteur, en combinant les trois dimensions ESG :

- Dimension environnementale : cette dimension examine la capacité des émetteurs à contrôler leur impact environnemental direct et indirect, en limitant leur consommation d'énergie, en réduisant leurs émissions de gaz à effet de serre, en luttant contre l'appauvrissement des ressources et en protégeant la biodiversité.
- Dimension sociale : cette dimension évalue le fonctionnement d'un émetteur dans deux domaines différents, à savoir sa stratégie de développement du capital humain et le respect des droits humains en général.
- Dimension de gouvernance : cette dimension évalue la capacité de l'émetteur à garantir les fondements d'un cadre de gouvernance d'entreprise efficace et à générer de la valeur sur le long terme.

La méthodologie appliquée par la notation ESG d'Amundi utilise 38 critères qui sont soit génériques (communs à toutes les entreprises, indépendamment de leur activité) soit spécifiques au secteur, et qui sont pondérés en fonction du secteur et considérés en termes d'impact sur la réputation, l'efficacité opérationnelle et les réglementations concernant un émetteur. Les notations ESG d'Amundi sont susceptibles d'être exprimées de manière globale pour les trois dimensions E, S et G, ou individuellement pour tout facteur environnemental ou social.

● **... et par rapport aux périodes antérieures ?**

À la fin de la période précédente, la note ESG moyenne pondérée du portefeuille était de -0.05 (D) et la note ESG moyenne pondérée de l'univers d'investissement ESG était de -0.26 (D).

● **Quels étaient les objectifs des investissements durables que le produit financier entendait partiellement réaliser, et comment l'investissement durable a-t-il contribué à ces objectifs ?**

Les objectifs des investissements durables sont d'investir dans des sociétés détenues qui cherchent à respecter deux critères :

1. suivre les bonnes pratiques environnementales et sociales ; et
2. éviter de fabriquer des produits ou de fournir des services qui nuisent à l'environnement et à la société.

Pour que la société bénéficiaire des investissements soit réputée contribuer à l'objectif susmentionné, elle doit figurer parmi les « meilleures performances » de son secteur d'activité pour au moins l'un de ses facteurs environnementaux ou sociaux importants.

La définition de « meilleures performances » repose sur la méthode ESG exclusive d'Amundi, dont l'objectif est de mesurer la performance ESG d'une société bénéficiaire des investissements. Pour être considérée comme l'une des « meilleures performances », une société bénéficiaire des investissements doit afficher l'une des trois premières notes (A, B ou C, sur une échelle de notation allant de A à G) dans son secteur pour au moins un facteur environnemental ou social important. Les facteurs environnementaux et sociaux sont identifiés à l'échelle des secteurs. L'identification des facteurs importants est basée sur le cadre d'analyse ESG d'Amundi qui combine des données extra-financières et une analyse qualitative du secteur associé et des questions de durabilité. Les facteurs identifiés comme importants représentent plus de 10 % de la note ESG globale. Par exemple pour le secteur de

l'énergie, les facteurs importants sont les suivants : émissions et énergie, biodiversité et pollution, santé et sécurité, communautés locales et droits humains. Pour un aperçu plus complet des secteurs et des facteurs, veuillez consulter la Déclaration réglementaire ESG d'Amundi disponible sur www.amundi.lu

Pour contribuer aux objectifs ci-dessus, la société bénéficiaire des investissements ne doit pas avoir d'exposition significative aux activités (par ex. tabac, armes, jeux de hasard, charbon, aviation, production de viande, fabrication d'engrais et de pesticides, production de plastique à usage unique) incompatibles avec ces critères.

Le caractère durable d'un investissement est évalué au niveau de la société bénéficiaire des investissements.

● ***Dans quelle mesure les investissements durables que le produit financier a partiellement réalisés n'ont-ils pas causé de préjudice important à un objectif d'investissement durable sur le plan environnemental ou social ?***

Pour s'assurer que les investissements durables ne causent pas de préjudice important (principe « Do no significant harm » ou « DNSH » en anglais), Amundi utilise deux filtres :

Le premier filtre de DNSH repose sur le contrôle des indicateurs obligatoires des Principales incidences négatives de l'Annexe 1, Tableau 1 des normes techniques réglementaires (RTS) lorsqu'il existe des données fiables (par ex. Intensité des GES des sociétés bénéficiaires des investissements) via une combinaison d'indicateurs (par ex. intensité carbone) et des seuils ou règles spécifiques (par ex. que l'intensité carbone de la société bénéficiaire des investissements n'appartient pas au dernier décile du secteur).

Dans sa politique d'exclusion qui fait partie intégrante de sa Politique d'investissement responsable, Amundi tient d'ores et déjà compte de Principales incidences négatives spécifiques. Ces exclusions, qui s'appliquent en sus des tests détaillés ci-dessus, couvrent les sujets suivants : exclusions sur les armes controversées, les violations des principes du Pacte mondial des Nations Unies, le charbon et le tabac.

Au-delà des facteurs de durabilité spécifiques couverts par le premier filtre, Amundi a défini un second filtre, qui ne tient pas compte des indicateurs obligatoires des Principales incidences négatives ci-dessus, afin de vérifier que la société n'affiche pas de mauvaises performances d'un point de vue environnemental ou social global par rapport aux autres entreprises de son secteur, ce qui correspond à un score environnemental ou social supérieur ou égal à E selon la notation ESG d'Amundi.

- ***Comment les indicateurs concernant les incidences négatives sur les facteurs de durabilité ont-ils été pris en considération ?***

Les indicateurs d'incidences négatives ont été pris en compte comme détaillé dans le premier filtre DNSH ci-dessus.

Le premier filtre DNSH repose sur le contrôle des indicateurs obligatoires des Principales incidences négatives de l'Annexe 1, Tableau 1 du Règlement délégué (UE) 2022/1288 lorsqu'il existe des données fiables via la combinaison des indicateurs suivants et de seuils ou règles spécifiques :

- une intensité en CO2 qui n'appartient pas au dernier décile par rapport aux autres entreprises du secteur (ne s'applique qu'aux secteurs à forte intensité) ;
- un Conseil d'administration dont le niveau de diversité n'appartient pas au dernier décile par rapport aux autres sociétés du secteur ;
- ne pas faire l'objet de controverse relative aux conditions de travail et aux droits humains ; et
- ne pas faire l'objet de controverse relative à la biodiversité et à la pollution.

Dans sa politique d'exclusion qui fait partie intégrante de sa Politique d'investissement responsable, Amundi tient d'ores et déjà compte de Principales incidences négatives spécifiques. Ces exclusions, qui s'appliquent en sus des tests détaillés ci-dessus, couvrent les sujets suivants : exclusions sur les armes controversées, les violations des principes du Pacte mondial des Nations Unies, le charbon et le tabac.

- ***Les investissements durables étaient-ils conformes aux Principes directeurs de l'OCDE à l'intention des entreprises multinationales et aux Principes directeurs des Nations unies relatifs aux entreprises et aux droits humains ? Description détaillée :***

Oui, les Principes directeurs de l'OCDE à l'intention des entreprises multinationales et les Principes directeurs des Nations unies relatifs aux entreprises et aux droits humains sont intégrés à notre méthode de notation ESG. Notre outil de notation ESG exclusif évalue les émetteurs à l'aide des données disponibles auprès de nos fournisseurs de données. Par exemple, le modèle dispose d'un critère dédié appelé « Implication dans la communauté et droits humains » qui s'applique à tous les secteurs en plus d'autres critères liés aux droits humains, y compris les chaînes d'approvisionnement socialement responsables, les conditions de travail et les relations de travail. En outre, nous effectuons un contrôle des controverses au moins une fois par trimestre, y compris sur les entreprises identifiées pour des violations des droits humains. En cas de controverse, les analystes évaluent la situation, lui donnent une note (à l'aide de notre méthode de notation exclusive) et déterminent la marche à suivre. Les notes de controverse sont mises à jour chaque trimestre pour suivre les tendances et les efforts de correction.

La Taxinomie de l'UE définit un principe consistant à « ne pas causer de préjudice important » (« Do not significant harm » ou DNSH) en vertu duquel les investissements alignés sur la Taxinomie ne doivent pas causer de préjudice important aux objectifs de la Taxinomie de l'UE et s'accompagnent de critères de l'UE spécifiques.

Le principe consistant à « ne pas causer de préjudice important » ne s'applique qu'aux investissements sous-jacents du produit financier qui tiennent compte des critères de l'UE pour les activités économiques durables sur le plan environnemental. Les investissements sous-jacents de la portion restante de ce produit financier ne tiennent pas compte des critères de l'UE en matière d'activités économiques durables sur le plan environnemental.

Tout autre investissement durable doit également se conformer au principe consistant à ne pas causer de préjudice important aux objectifs environnementaux ou sociaux.

Dans quelle mesure ce produit financier a-t-il pris en considération les principales incidences négatives sur les facteurs de durabilité ?

Le produit tient compte de toutes les Principales incidences négatives obligatoires en vertu de l'Annexe 1, Tableau 1 du Règlement délégué (UE) 2022/1288 applicables à la stratégie du produit et s'appuie sur une combinaison de politiques d'exclusion (normatives et sectorielles) et d'approches d'engagement et de vote :

- Exclusion : Amundi a défini des règles d'exclusion normatives, basées sur l'activité et les secteurs, qui couvrent certains des principaux indicateurs négatifs de durabilité énumérés par le Règlement Disclosure (sur la publication d'informations).
- Intégration des facteurs ESG : Amundi a adopté des normes d'intégration ESG minimales appliquées par défaut à ses fonds de type ouvert activement gérés (exclusion des émetteurs ayant la note G et meilleure note ESG moyenne pondérée supérieure à celle de l'indice de référence applicable). Les 38 critères employés dans la stratégie de notation ESG d'Amundi ont également été conçus pour tenir compte des principaux impacts sur les facteurs de durabilité, ainsi que de la qualité de la réduction entreprise en la matière.
- Engagement : L'engagement est un processus continu et ciblé qui vise à influencer les activités ou le comportement des sociétés bénéficiaires des investissements. L'objectif des activités d'engagement peut se diviser en deux catégories : impliquer un émetteur pour améliorer la manière dont il intègre la dimension environnementale et sociale ou impliquer un émetteur pour améliorer son impact sur les questions environnementales, sociales et liées aux droits humains ou d'autres questions de durabilité qui sont importantes pour la société au sens large et l'économie mondiale.
- Vote : La politique de vote d'Amundi répond à une analyse globale de toutes les questions à long terme qui peuvent influencer la création de valeur, y compris les questions ESG importantes. pour plus d'informations, veuillez consulter la Politique de vote d'Amundi.
- Surveillance des controverses : Amundi a développé un système de suivi des controverses qui s'appuie sur trois fournisseurs de données externes pour suivre systématiquement l'évolution des controverses et leur niveau de gravité. Cette approche quantitative est

ensuite enrichie d'une évaluation approfondie de chaque controverse grave, menée par des analystes ESG, puis d'un examen périodique de son évolution. Cette approche s'applique à tous les fonds d'Amundi.

Pour de plus amples détails sur le mode de prise en compte des indicateurs relatifs aux Principales incidences négatives obligatoires, veuillez consulter la Déclaration sur la publication d'informations en matière de finance durable d'Amundi disponible sur www.amundi.com.

Quels étaient les principaux investissements de ce produit financier ?

La liste inclut les investissements qui constituent **la proportion la plus importante d'investissements** du produit financier au cours de la période de référence, à savoir : **du 01/07/2023 au 30/06/2024**

Principaux investissements	Secteur	Sous-secteur	Pays	% des actifs
RELIANCE INDUSTRIES LTD	Énergie	Pétrole, gaz et combustibles	Inde	7.88%
HDFC BANK LIMITED	Obligations financières	Banques	Inde	7.54%
ICICI BANK LTD	Obligations financières	Banques	Inde	6.93%
INFOSYS LTD	Technologies de l'information	Logiciels et services	Inde	6.62%
LARSEN & TOUBRO LTD	Industrie	Biens d'équipement	Inde	5.80%
AXIS BANK LTD	Obligations financières	Banques	Inde	3.88%
ULTRATECH CEMENT LTD	Matériaux	Matériaux de construction	Inde	3.81%
MARUTI SUZUKI INDIA LTD	Consommation discrétionnaire	Automobiles et composants	Inde	3.69%
MAHINDRA & MAHINDRA LTD	Consommation discrétionnaire	Automobiles et composants	Inde	3.34%
STATE BANK OF INDIA LTD	Obligations financières	Banques	Inde	3.11%
KOTAK MAHINDRA BANK LTD	Obligations financières	Banques	Inde	3.03%
DIVI S LABORATORIES LTD	Santé	Pharmacie, biotechnologie et sciences de la vie	Inde	2.66%
TIMKEN INDIA LTD	Industrie	Biens d'équipement	Inde	2.43%
POWER GRID CORP OF INDIA LTD	Services aux collectivités	Services aux collectivités – électricité	Inde	2.33%
HINDALCO INDS	Matériaux	Métaux et exploitation minière	Inde	2.11%

Quelle était la proportion d'investissements liés à la durabilité ?

● Quelle était l'allocation d'actifs ?

L'allocation d'actifs décrit la part des investissements dans des actifs spécifiques.

La catégorie **N° 1 Alignés sur les caractéristiques E/S** inclut les investissements du produit financier utilisés pour atteindre les caractéristiques environnementales ou sociales promues par le produit financier.

La catégorie **N° 2 Autres** inclut les investissements restants du produit financier qui ne sont ni alignés sur les caractéristiques environnementales ou sociales ni considérés comme investissements durables.

La catégorie **N° 1 Alignés sur les caractéristiques E/S** comprend :

- la sous-catégorie **N° 1A Durables** couvrant les investissements durables sur le plan environnemental et social ;
- la sous-catégorie **N° 1B Autres caractéristiques E/S** couvrant les investissements alignés sur les caractéristiques environnementales ou sociales qui ne sont pas considérés comme des investissements durables.

● Dans quels secteurs économiques ont été réalisés les investissements ?

Secteur	Sous-secteur	% des actifs
Obligations financières	Banques	24.49%
Industrie	Biens d'équipement	15.05%
Consommation discrétionnaire	Automobiles et composants	11.87%
Technologies de l'information	Logiciels et services	8.35%
Énergie	Pétrole, gaz et combustibles	7.88%
Matériaux	Matériaux de construction	5.29%
Matériaux	Métaux et exploitation minière	3.74%

Obligations financières	Assurance	3.40%
Santé	Pharmacie, biotechnologie et sciences de la vie	2.66%
Consommation discrétionnaire	Biens de consommation durables et habillement	2.65%
Matériaux	Chimie	2.59%
Obligations financières	Services financiers	2.34%
Services aux collectivités	Services aux collectivités – électricité	2.33%
Biens de consommation de base	Alimentation, boissons et tabac	2.02%
Consommation discrétionnaire	Services aux consommateurs	1.81%
Industrie	Services commerciaux et professionnels	1.40%
Consommation discrétionnaire	Distribution et vente au détail de biens de consommation discrétionnaires	1.24%
Autres	Autres	-3.62%
Liquidités	Liquidités	4.53%

Aux fins d'observer la taxinomie de l'UE, les critères relatifs au **gaz fossile** incluent des limites aux émissions et le passage à une énergie entièrement renouvelable ou à des combustibles à faible teneur en carbone d'ici fin 2035. Pour l'**énergie nucléaire**, les critères incluent des règles exhaustives de sécurité et de gestion des déchets.

Les activités habilitantes permettent

Dans quelle mesure les investissements durables ayant un objectif environnemental étaient-ils alignés sur la Taxinomie de l'UE ?

Le fonds promeut des caractéristiques tant environnementales que sociales. Si le fonds ne s'est pas engagé à réaliser des investissements alignés sur la Taxinomie de l'UE, au cours de la période sous revue, il a cependant investi 0.00% dans des investissements durables alignés sur la Taxinomie de l'UE.

- **Le produit financier a-t-il investi dans des activités liées au gaz fossile et/ou à l'énergie nucléaire qui sont conformes à la Taxinomie de l'UE¹ ?**

☐

Oui :

☐

Dans le gaz fossile

☐

Dans l'énergie nucléaire

directement à d'autres activités de contribuer de manière substantielle à la réalisation d'un objectif environnemental.

Les activités transitoires sont des activités pour lesquelles il n'existe pas encore de solution de remplacement sobre en carbone et, entre autres, dont les niveaux d'émission de gaz à effet de serre correspondent aux meilleures performances réalisables.

Les activités alignées sur la taxinomie sont exprimées en pourcentage :

- **du chiffre d'affaires** pour refléter la part des revenus provenant des activités vertes des sociétés bénéficiaires d'investissements ;
- **des dépenses d'investissement (CapEx)** pour montrer les investissements verts réalisés par les sociétés bénéficiaires d'investissements, pour une transition vers une économie verte, par exemple ; et
- **des dépenses d'exploitation (OpEx)** pour refléter les activités opérationnelles vertes des sociétés bénéficiaires d'investissements.

☒ Non

Aucune donnée fiable concernant l'alignement sur les activités de gaz fossile et d'énergie nucléaire conformes à la Taxinomie de l'UE n'était disponible sur la période.

¹ Les activités liées au gaz fossile et/ou à l'énergie nucléaire ne seront conformes à la Taxinomie de l'UE que si elles contribuent à limiter le changement climatique (« réduction du changement climatique ») et ne causent pas de préjudice important à tout objectif de la Taxinomie de l'UE. L'intégralité des critères relatifs aux activités économiques liées au gaz fossile et à l'énergie nucléaire conformes à la Taxinomie de l'UE sont définis dans le Règlement délégué (UE) 2022/1214 de la Commission.

Les graphiques ci-dessous font apparaître en vert le pourcentage d'investissements alignés sur la Taxinomie de l'UE. Étant donné qu'il n'existe pas de méthodologie appropriée pour déterminer l'alignement des obligations souveraines* sur la taxinomie, le premier graphique montre l'alignement sur la Taxinomie par rapport à tous les investissements du produit financier, y compris les obligations souveraines, tandis que le deuxième graphique représente l'alignement sur la Taxinomie uniquement par rapport aux investissements du produit financier autres que les obligations souveraines.

* Aux fins de ces graphiques, les « obligations souveraines » comprennent toutes les expositions souveraines

● Quelle était la part d'investissements dans les activités transitoires et habilitantes ?

Au 30/06/2024, en utilisant le chiffre d'affaires et/ou les données d'utilisation des produits des obligations vertes comme indicateur, la part d'investissements du fonds dans les activités transitoires était de 0.00% et la part d'investissements dans les activités habilitantes était de 0.00%. Le pourcentage communiqué d'alignement des investissements du fonds sur la Taxinomie de l'UE n'a pas été audité par le réviseur d'entreprises agréé du fonds ni par aucun tiers.

● Comment se situe le pourcentage d'investissements alignés sur la Taxinomie de l'UE par rapport aux périodes de référence antérieures ?

À la fin de la période précédente, le pourcentage d'investissements alignés sur la taxinomie était de 0.00%.

sont des investissements durables ayant un objectif environnemental qui **ne tiennent pas compte des critères** en matière d'activités économiques durables sur le plan environnemental visés par le Règlement (UE) 2020/852.

Quelle était la part des investissements durables ayant un objectif environnemental qui n'étaient pas alignés sur la Taxinomie de l'UE ?

La part des investissements durables ayant un objectif environnemental t non alignés sur la taxinomie était de **14.50%** à la fin de la période.

Cela tient du fait que certains émetteurs sont considérés comme investissements durables en vertu du Règlement SFDR mais qu'une portion de leurs activités n'est pas alignée sur les standards de la taxinomie de l'UE, ou que les données correspondantes ne sont pas encore disponibles en vue d'une évaluation relative à la taxinomie de l'UE.

Quelle était la part d'investissements durables sur le plan social ?

La proportion des investissements durables sur le plan social était de 17.64% à la fin de la période.

Quels investissements étaient inclus dans la catégorie « Autres », quelle était leur finalité et existait-il des garanties environnementales ou sociales minimales ?

Sont inclus dans la catégorie « N° 2 Autres » les liquidités et autres instruments détenus aux fins de gestion de la liquidité et des risques du portefeuille. Pour les obligations et actions non notées, des garanties environnementales et sociales minimales ont été mises en place par le biais d'un filtrage des émetteurs en rapport aux activités controversées définies dans les principes du Pacte mondial des Nations unies. Elle peut également inclure des titres sans notation ESG pour lesquels les données nécessaires à la mesure de la réalisation des caractéristiques environnementales ou sociales ne sont pas disponibles.

Quelles mesures ont-elles été prises pour réaliser les caractéristiques environnementales et/ou sociales au cours de la période de référence ?

Des indicateurs de durabilité sont mis à disposition de manière continue dans le système de gestion du portefeuille pour permettre aux gestionnaires du portefeuille d'évaluer l'impact de leurs décisions d'investissement.

Ces indicateurs sont intégrés au cadre de contrôle d'AMUNDI, en répartissant les responsabilité entre le premier niveau de contrôles réalisés par les équipes Investissement elles-mêmes, et le second niveau de contrôles réalisé par les équipes Risque, qui surveillent la conformité aux caractéristiques environnementales ou sociales promues en permanence par le fonds.

En outre, la Politique d'investissement responsable d'AMUNDI définit une approche active en matière d'engagement qui promeut le dialogue avec les sociétés bénéficiaires des investissements, y compris celles qui sont incluses dans le portefeuille de ce produit. Notre Rapport annuel en matière d'engagement, disponible à la page <https://about.amundi.com/esg-documentation>, fournit des informations détaillées sur cet engagement et ses résultats.

Quelles ont été les performances de ce produit financier par rapport à l'indice de référence ?

Ce produit ne dispose pas d'un Indice de référence ESG.

● En quoi l'indice de référence diffère-t-il de l'indice de marché large ?

Ce produit ne dispose pas d'un Indice de référence ESG.

● Quelles ont été les performances de ce produit financier par rapport aux indicateurs de durabilité pour déterminer l'alignement de l'indice de référence sur les caractéristiques environnementales ou sociales promues ?

Ce produit ne dispose pas d'un Indice de référence ESG.

Un indice de référence est un indice qui sert à mesurer si le produit financier réalise les caractéristiques environnementales et/ou sociales qu'il promeut.

- ***Quelle a été la performance de ce produit financier par rapport à l'indice de référence ?***

Ce produit ne dispose pas d'un Indice de référence ESG.

- ***Quelle a été la performance de ce produit financier par rapport à l'indice de marché large ?***

Ce produit ne dispose pas d'un Indice de référence ESG.

Informations périodiques pour les produits financiers visés à l'Article 8, paragraphes 1, 2 et 2a, du Règlement (UE) 2019/2088 et à l'Article 6, premier paragraphe du Règlement (UE) 2020/852

Dénomination du produit : AMUNDI FUNDS
EUROLAND EQUITY DYNAMIC MULTI FACTORS

Identifiant d'entité juridique :
549300GS11SOXBNLON64

Par investissement durable, on entend un investissement dans une activité économique qui contribue à un objectif environnemental ou social, pour autant qu'il ne cause de préjudice important à aucun de ces objectifs et que les sociétés détenues respectent les pratiques de bonne gouvernance.

La **Taxinomie de l'UE** est un système de classification institué par le Règlement (UE) 2020/852, qui dresse une liste d'**activités économiques durables sur le plan environnemental**. Ce règlement ne comprend pas de liste d'activités économiques durables sur le plan social. Les investissements durables ayant un objectif environnemental ne sont pas nécessairement alignés sur la taxinomie.

Caractéristiques environnementales et/ou sociales

Le produit financier avait-il un objectif d'investissement durable ?	
☒ Oui	☒ Non
☐ Il a réalisé des investissements durables ayant un objectif environnemental : _____ ☐ dans des activités économiques qui sont considérées comme durables sur le plan environnemental au titre de la Taxinomie de l'UE ☐ dans des activités économiques qui ne sont pas considérées comme durables sur le plan environnemental au titre de la Taxinomie de l'UE	☒ Il a promu des caractéristiques environnementales/sociales (E/S) et, bien qu'il n'ait pas eu pour objectif l'investissement durable, il contenait une proportion d'investissements durables de 74.53% ☐ ayant un objectif environnemental dans des activités économiques qui sont considérées comme durables sur le plan environnemental au titre de la Taxinomie de l'UE ☒ ayant un objectif environnemental dans des activités économiques qui ne sont pas considérées comme durables sur le plan environnemental au titre de la Taxinomie de l'UE ☐ ayant un objectif social
☐ Il a réalisé des investissements durables ayant un objectif social : _____	☐ Il a promu des caractéristiques E/S, mais n'a pas réalisé d'investissements durables

Dans quelle mesure les caractéristiques environnementales et/ou sociales promues par ce produit financier ont-elles été réalisées ?

Au cours de l'exercice financier, le produit n'a cessé de promouvoir les caractéristiques environnementales et/ou sociales en cherchant à atteindre une note ESG supérieure à celle de son univers d'investissement **MSCI EMU Index**. Pour déterminer la note ESG du Produit et de l'univers d'investissement ESG, la performance ESG a été évaluée de manière continue en comparant la performance moyenne d'un titre par rapport au secteur de l'émetteur du titre, pour chacune des trois caractéristiques, à savoir environnementale, sociale et de gouvernance.

L'univers d'investissement est un univers de marché large qui n'évalue ni n'inclut pas de composantes en fonction de caractéristiques environnementales et/ou sociales, et qui n'a par conséquent pas pour vocation d'être conforme aux caractéristiques promues par le fonds. Aucun indice de référence ESG n'a été désigné.

Les indicateurs de durabilité

évaluent la mesure dans laquelle les caractéristiques environnementales ou sociales promues par le produit financier sont atteintes.

● **Quelle performance ont affiché les indicateurs de durabilité ?**

Amundi a développé son propre processus de notation ESG interne, qui suit une approche « Best-in-class ». Les notations adaptées à chaque secteur d'activité ont pour objectif d'évaluer la dynamique dans laquelle interviennent les entreprises.

L'indicateur de durabilité employé est la note ESG du Produit mesurée en comparaison avec la note ESG de l'univers d'investissement ESG du Produit.

À la fin de la période :

- La note ESG moyenne pondérée du portefeuille est **1.109 (C)**.
- La note ESG moyenne pondérée de l'univers d'investissement ESG est **1.03 (C)**.

La notation ESG Amundi utilisée pour déterminer la note ESG est une note ESG quantitative qui se décline en sept niveaux allant de A (les meilleures notes de l'univers) à G (les pires notes). Sur l'échelle de notation ESG d'Amundi, les titres figurant sur la liste d'exclusion correspondent à G. Pour les entreprises émettrices, la performance ESG est évaluée de manière globale et au niveau des critères pertinents par comparaison avec la performance moyenne du secteur, en combinant les trois dimensions ESG :

- Dimension environnementale : cette dimension examine la capacité des émetteurs à contrôler leur impact environnemental direct et indirect, en limitant leur consommation d'énergie, en réduisant leurs émissions de gaz à effet de serre, en luttant contre l'appauvrissement des ressources et en protégeant la biodiversité.
- Dimension sociale : cette dimension évalue le fonctionnement d'un émetteur dans deux domaines différents, à savoir sa stratégie de développement du capital humain et le respect des droits humains en général.
- Dimension de gouvernance : cette dimension évalue la capacité de l'émetteur à garantir les fondements d'un cadre de gouvernance d'entreprise efficace et à générer de la valeur sur le long terme.

La méthodologie appliquée par la notation ESG d'Amundi utilise 38 critères qui sont soit génériques (communs à toutes les entreprises, indépendamment de leur activité) soit spécifiques au secteur, et qui sont pondérés en fonction du secteur et considérés en termes d'impact sur la réputation, l'efficacité opérationnelle et les réglementations concernant un émetteur. Les notations ESG d'Amundi sont susceptibles d'être exprimées de manière globale pour les trois dimensions E, S et G, ou individuellement pour tout facteur environnemental ou social.

● **... et par rapport aux périodes antérieures ?**

À la fin de la période précédente :

- La note ESG moyenne pondérée du portefeuille était de **1.14 (C)**.
- La note ESG moyenne pondérée de l'univers d'investissement ESG était de **1.03 (C)**.

● **Quels étaient les objectifs des investissements durables que le produit financier entendait partiellement réaliser, et comment l'investissement durable a-t-il contribué à ces objectifs ?**

Les objectifs des investissements durables sont d'investir dans des sociétés détenues qui cherchent à respecter deux critères :

1. suivre les bonnes pratiques environnementales et sociales ; et
2. éviter de fabriquer des produits ou de fournir des services qui nuisent à l'environnement et à la société.

Pour que la société bénéficiaire d'investissements soit réputée contribuer à l'objectif susmentionné, elle doit figurer parmi les « meilleures performances » de son secteur d'activité pour au moins l'un de ses facteurs environnementaux ou sociaux importants.

La définition de « meilleures performances » repose sur la méthode ESG exclusive d'Amundi, dont l'objectif est de mesurer la performance ESG d'une société bénéficiaire d'investissements. Pour être considérée comme l'une des « meilleures performances », une société bénéficiaire d'investissements doit afficher l'une des trois premières notes (A, B ou C, sur une échelle de notation allant de A à G) dans son secteur pour au moins un facteur environnemental ou social important. Les facteurs environnementaux et sociaux sont identifiés à l'échelle des secteurs. L'identification des facteurs importants est basée sur le cadre d'analyse ESG d'Amundi qui combine des données extra-financières

et une analyse qualitative du secteur associé et des questions de durabilité. Les facteurs identifiés comme importants représentent plus de 10 % de la note ESG globale. Par exemple pour le secteur de l'énergie, les facteurs importants sont les suivants : émissions et énergie, biodiversité et pollution, santé et sécurité, communautés locales et droits humains. Pour un aperçu plus complet des secteurs et des facteurs, veuillez consulter la Déclaration réglementaire ESG d'Amundi disponible sur www.amundi.lu

Pour contribuer aux objectifs ci-dessus, la société bénéficiaire d'investissements ne doit pas avoir d'exposition significative aux activités (par ex. tabac, armes, jeux de hasard, charbon, aviation, production de viande, fabrication d'engrais et de pesticides, production de plastique à usage unique) incompatibles avec ces critères.

Le caractère durable d'un investissement est évalué au niveau de la société bénéficiaire d'investissements.

Les principales incidences négatives

correspondent aux incidences négatives les plus significatives des décisions d'investissement sur les facteurs de durabilité liés aux questions environnementales, sociales et de personnel, au respect des droits humains et à la lutte contre la corruption et les actes de corruption.

● ***Dans quelle mesure les investissements durables que le produit financier a partiellement réalisés n'ont-ils pas causé de préjudice important à un objectif d'investissement durable sur le plan environnemental ou social ?***

Pour s'assurer que les investissements durables ne causent pas de préjudice important (principe « Do no significant harm » ou « DNSH » en anglais), Amundi utilise deux filtres :

Le premier filtre de DNSH repose sur le contrôle des indicateurs obligatoires des Principales incidences négatives de l'Annexe 1, Tableau 1 des normes techniques réglementaires (RTS) lorsqu'il existe des données fiables (par ex. Intensité des GES des sociétés bénéficiaire des investissements) via une combinaison d'indicateurs (par ex. intensité carbone) et des seuils ou règles spécifiques (par ex. que l'intensité carbone de la société bénéficiaire des investissements n'appartient pas au dernier décile du secteur).

Dans sa politique d'exclusion qui fait partie intégrante de sa Politique d'investissement responsable, Amundi tient d'ores et déjà compte de Principales incidences négatives spécifiques. Ces exclusions, qui s'appliquent en sus des tests détaillés ci-dessus, couvrent les sujets suivants : exclusions sur les armes controversées, les violations des principes du Pacte mondial des Nations Unies, le charbon et le tabac.

Au-delà des facteurs de durabilité spécifiques couverts par le premier filtre, Amundi a défini un second filtre, qui ne tient pas compte des indicateurs obligatoires des Principales incidences négatives ci-dessus, afin de vérifier que la société n'affiche pas de mauvaises performances d'un point de vue environnemental ou social global par rapport aux autres entreprises de son secteur, ce qui correspond à un score environnemental ou social supérieur ou égal à E selon la notation ESG d'Amundi.

- ***Comment les indicateurs concernant les incidences négatives sur les facteurs de durabilité ont-ils été pris en considération ?***

Les indicateurs d'incidences négatives ont été pris en compte comme détaillé dans le premier filtre DNSH ci-dessus.

Le premier filtre DNSH repose sur le contrôle des indicateurs obligatoires des Principales incidences négatives de l'Annexe 1, Tableau 1 du Règlement délégué (UE) 2022/1288 lorsqu'il existe des données fiables via la combinaison des indicateurs suivants et de seuils ou règles spécifiques :

- une intensité en CO2 qui n'appartient pas au dernier décile par rapport aux autres entreprises du secteur (ne s'applique qu'aux secteurs à forte intensité) ;
- un Conseil d'administration dont le niveau de diversité n'appartient pas au dernier décile par rapport aux autres sociétés du secteur ;
- ne pas faire l'objet de controverse relative aux conditions de travail et aux droits humains ; et
- ne pas faire l'objet de controverse relative à la biodiversité et à la pollution.

Dans sa politique d'exclusion qui fait partie intégrante de sa Politique d'investissement responsable, Amundi tient d'ores et déjà compte de Principales incidences négatives spécifiques. Ces exclusions, qui s'appliquent en sus des tests détaillés ci-dessus, couvrent les sujets suivants : exclusions sur les armes controversées, les violations des principes du Pacte mondial des Nations Unies, le charbon et le tabac.

- ***Les investissements durables étaient-ils conformes aux Principes directeurs de l'OCDE à l'intention des entreprises multinationales et aux Principes directeurs des Nations unies relatifs aux entreprises et aux droits humains ? Description détaillée :***

Oui, les Principes directeurs de l'OCDE à l'intention des entreprises multinationales et les Principes directeurs des Nations unies relatifs aux entreprises et aux droits humains sont intégrés à notre méthode de notation ESG. Notre outil de notation ESG exclusif évalue les émetteurs à l'aide des données disponibles auprès de nos fournisseurs de données. Par exemple, le modèle dispose d'un critère dédié appelé « Implication dans la communauté et droits humains » qui s'applique à tous les secteurs en plus d'autres critères liés aux droits humains, y compris les chaînes d'approvisionnement socialement responsables, les conditions de travail et les relations de travail. En outre, nous effectuons un contrôle des controverses au moins une fois par trimestre, y compris sur les entreprises identifiées pour des violations des droits humains. En cas de controverse, les analystes évaluent la situation, lui donnent une note (à l'aide de notre méthode de notation exclusive) et déterminent la marche à suivre. Les notes de controverse sont mises à jour chaque trimestre pour suivre les tendances et les efforts de correction.

La Taxinomie de l'UE définit un principe consistant à « ne pas causer de préjudice important » (« Do not significant harm » ou DNSH) en vertu duquel les investissements alignés sur la Taxinomie ne doivent pas causer de préjudice important aux objectifs de la Taxinomie de l'UE et s'accompagnent de critères de l'UE spécifiques.

Le principe consistant à « ne pas causer de préjudice important » ne s'applique qu'aux investissements sous-jacents du produit financier qui tiennent compte des critères de l'UE pour les activités économiques durables sur le plan environnemental. Les investissements sous-jacents de la portion restante de ce produit financier ne tiennent pas compte des critères de l'UE en matière d'activités économiques durables sur le plan environnemental.

Tout autre investissement durable doit également se conformer au principe consistant à ne pas causer de préjudice important aux objectifs environnementaux ou sociaux.

Dans quelle mesure ce produit financier a-t-il pris en considération les principales incidences négatives sur les facteurs de durabilité ?

Le produit tient compte de toutes les Principales incidences négatives obligatoires en vertu de l'Annexe 1, Tableau 1 du Règlement délégué (UE) 2022/1288 applicables à la stratégie du produit et s'appuie sur une combinaison de politiques d'exclusion (normatives et sectorielles) et d'approches d'engagement et de vote :

- Exclusion : Amundi a défini des règles d'exclusion normatives, basées sur l'activité et les secteurs, qui couvrent certains des principaux indicateurs négatifs de durabilité énumérés par le Règlement Disclosure (sur la publication d'informations).
- Engagement : L'engagement est un processus continu et ciblé qui vise à influencer les activités ou le comportement des sociétés bénéficiaires des investissements. L'objectif des activités d'engagement peut se diviser en deux catégories : impliquer un émetteur pour améliorer la manière dont il intègre la dimension environnementale et sociale ou impliquer un émetteur pour améliorer son impact sur les questions environnementales, sociales et liées aux droits humains ou d'autres questions de durabilité qui sont importantes pour la société au sens large et l'économie mondiale.
- Vote : La politique de vote d'Amundi répond à une analyse globale de toutes les questions à long terme qui peuvent influencer la création de valeur, y compris les questions ESG importantes. pour plus d'informations, veuillez consulter la Politique de vote d'Amundi.
- Surveillance des controverses : Amundi a développé un système de suivi des controverses qui s'appuie sur trois fournisseurs de données externes pour suivre systématiquement l'évolution des controverses et leur niveau de gravité. Cette approche quantitative est ensuite enrichie d'une évaluation approfondie de chaque controverse grave, menée par des analystes ESG, puis d'un examen périodique de son évolution. Cette approche s'applique à tous les fonds d'Amundi.

Quels étaient les principaux investissements de ce produit financier ?

La liste inclut les investissements qui constituent **la proportion la plus importante d'investissements** du produit financier au cours de la période de référence, à savoir : **du 01/07/2023 au 30/06/2024**

Principaux investissements	Secteur	Sous-secteur	Pays	% des actifs
ASML HOLDING NV	Technologies de l'information	Semi-conducteurs et équipement pour semi-conducteurs	Pays-Bas	5.81%
SAP SE / XETRA	Technologies de l'information	Logiciels et services	Allemagne	4.73%
DEUTSCHE TELEKOM NAM (XETRA)	Services de communication	Télécommunications	Allemagne	2.52%
L OREAL (PARIS)	Biens de consommation de base	Produits ménagers et personnels	France	2.49%
SCHNEIDER ELECT SE	Industrie	Biens d'équipement	France	2.30%
HERMES INTERNATIONAL	Consommation discrétionnaire	Biens de consommation durables et habillement	France	2.28%
ALLIANZ SE-REG	Obligations financières	Assurance	Allemagne	2.26%
TOTALENERGIES SE PARIS	Énergie	Pétrole, gaz et combustibles	France	2.21%
INDUSTRIA DE DISEÑO TEXTIL	Consommation discrétionnaire	Distribution et vente au détail de biens de consommation discrétionnaires	Espagne	2.14%
BANCO SANTANDER SA	Obligations financières	Banques	Espagne	2.12%
SIEMENS AG-REG	Industrie	Biens d'équipement	Allemagne	2.06%
SAFRAN SA	Industrie	Biens d'équipement	France	2.02%
STELLANTIS MILAN	Consommation discrétionnaire	Automobiles et composants	Pays-Bas	1.86%
LVMH MOET HENNESSY LOUIS VUI	Consommation discrétionnaire	Biens de consommation durables et habillement	France	1.85%
MUENCHENER RUECKVER AG- REG	Obligations financières	Assurance	Allemagne	1.83%

Quelle était la proportion d'investissements liés à la durabilité ?

- **Quelle était l'allocation d'actifs ?**

L'allocation d'actifs décrit la part des investissements dans des actifs spécifiques.

La catégorie **N° 1 Alignés sur les caractéristiques E/S** inclut les investissements du produit financier utilisés pour atteindre les caractéristiques environnementales ou sociales promues par le produit financier.

La catégorie **N° 2 Autres** inclut les investissements restants du produit financier qui ne sont ni alignés sur les caractéristiques environnementales ou sociales ni considérés comme investissements durables.

La catégorie **N° 1 Alignés sur les caractéristiques E/S** comprend :

- la sous-catégorie **N° 1A Durables** couvrant les investissements durables sur le plan environnemental et social ;
- la sous-catégorie **N° 1B Autres caractéristiques E/S** couvrant les investissements alignés sur les caractéristiques environnementales ou sociales qui ne sont pas considérés comme des investissements durables.

● **Dans quels secteurs économiques ont été réalisés les investissements ?**

Secteur	Sous-secteur	% des actifs
Industrie	Biens d'équipement	13.65%
Obligations financières	Banques	10.12%
Technologies de l'information	Semi-conducteurs et équipement pour semi-conducteurs	9.47%
Technologies de l'information	Logiciels et services	7.02%
Obligations financières	Assurance	6.97%
Consommation discrétionnaire	Biens de consommation durables et habillement	6.01%
Consommation discrétionnaire	Automobiles et composants	5.08%

Aux fins d'observer la taxinomie de l'UE, les critères relatifs au **gaz fossile** incluent des limites aux émissions et le passage à une énergie entièrement renouvelable ou à des combustibles à faible teneur en carbone d'ici fin 2035. Pour **l'énergie nucléaire**, les critères incluent des règles exhaustives de sécurité et de gestion des déchets.

Dans quelle mesure les investissements durables ayant un objectif environnemental étaient-ils alignés sur la Taxinomie de l'UE ?

Le fonds promeut des caractéristiques tant environnementales que sociales. Si le fonds ne s'est pas engagé à réaliser des investissements alignés sur la Taxinomie de l'UE, au cours de la période sous revue, il a cependant investi 2.05% dans des investissements durables alignés sur la Taxinomie de l'UE. De tels investissements ont contribué aux objectifs d'atténuation du changement climatique de la taxinomie de l'UE.

L'alignement des sociétés bénéficiaires des investissements sur les objectifs de la Taxinomie de l'UE susmentionnés est évalué à l'aide du chiffre d'affaires (ou des revenus) et/ou des données d'utilisation des produits des obligations vertes.

Le pourcentage communiqué d'alignement des investissements du fonds sur la Taxinomie de l'UE n'a pas été audité par le réviseur d'entreprises agréé du fonds ni par aucun tiers.

Les activités habilitantes permettent directement à d'autres activités de contribuer de manière substantielle à la réalisation d'un objectif environnemental.

Les activités transitoires sont des activités pour lesquelles il n'existe pas encore de solution de remplacement sobre en carbone et, entre autres, dont les niveaux d'émission de gaz à effet de serre correspondent aux meilleures performances réalisables.

Les activités alignées sur la taxinomie sont exprimées en pourcentage :

- **du chiffre d'affaires** pour refléter la part des revenus provenant des activités vertes des sociétés bénéficiaires d'investissements ;
- **des dépenses d'investissement (CapEx)** pour montrer les investissements verts réalisés par les sociétés bénéficiaires d'investissements, pour une transition vers une économie verte, par exemple ;
- **des dépenses d'exploitation (OpEx)** pour refléter les activités opérationnelles vertes des sociétés bénéficiaires d'investissements.

- **Le produit financier a-t-il investi dans des activités liées au gaz fossile et/ou à l'énergie nucléaire qui sont conformes à la Taxinomie de l'UE¹ ?**

☐ Oui :

☐

Dans le gaz fossile

☐

Dans l'énergie nucléaire

☒ Non

Aucune donnée fiable concernant l'alignement sur les activités de gaz fossile et d'énergie nucléaire conformes à la Taxinomie de l'UE n'était disponible sur la période.

¹Les activités liées au gaz fossile et/ou à l'énergie nucléaire ne seront conformes à la Taxinomie de l'UE que si elles contribuent à limiter le changement climatique (« atténuation du changement climatique ») et ne causent pas de préjudice important à tout objectif de la Taxinomie de l'UE. L'intégralité des critères relatifs aux activités économiques liées au gaz fossile et à l'énergie nucléaire conformes à la Taxinomie de l'UE sont définis dans le Règlement délégué (UE) 2022/1214 de la Commission.

Les graphiques ci-dessous font apparaître en vert le pourcentage d'investissements alignés sur la Taxinomie de l'UE. Étant donné qu'il n'existe pas de méthodologie appropriée pour déterminer l'alignement des obligations souveraines* sur la taxinomie, le premier graphique montre l'alignement sur la Taxinomie par rapport à tous les investissements du produit financier, y compris les obligations souveraines, tandis que le deuxième graphique représente l'alignement sur la Taxinomie uniquement par rapport aux investissements du produit financier autres que les obligations souveraines.

* Aux fins de ces graphiques, les « obligations souveraines » comprennent toutes les expositions souveraines

- **Quelle était la part d'investissements dans les activités transitoires et habilitantes ?**

Au 30/06/2024, en utilisant le chiffre d'affaires et/ou les données d'utilisation des produits des obligations vertes comme indicateur, la part d'investissements du fonds dans les activités transitoires était de 0.08% et la part d'investissements dans les activités habilitantes était de 2.25%. Le pourcentage communiqué d'alignement des investissements du fonds sur la Taxinomie de l'UE n'a pas été audité par le réviseur d'entreprises agréé du fonds ni par aucun tiers.

- **Comment se situe le pourcentage d'investissements alignés sur la Taxinomie de l'UE par rapport aux périodes de référence antérieures ?**

À la fin de la période précédente, le pourcentage d'investissements alignés sur la taxinomie était de 7.09%.

sont des investissements durables ayant un objectif environnemental **qui ne tiennent pas compte des critères** en matière d'activités économiques durables sur le plan environnemental visés par le Règlement (UE) 2020/852.

Quelle était la part des investissements durables ayant un objectif environnemental qui n'étaient pas alignés sur la Taxinomie de l'UE ?

La part des investissements durables ayant un objectif environnemental et non alignés sur la taxinomie était de **60.79%** à la fin de la période.

Cela tient du fait que certains émetteurs sont considérés comme investissements durables en vertu du Règlement SFDR mais qu'une portion de leurs activités n'est pas alignée sur les standards de la taxinomie de l'UE, ou que les données correspondantes ne sont pas encore disponibles en vue d'une évaluation relative à la taxinomie de l'UE.

Quelle était la part d'investissements durables sur le plan social ?

La proportion des investissements durables sur le plan social était de 11.69% à la fin de la période.

Quels investissements étaient inclus dans la catégorie « Autres », quelle était leur finalité et existait-il des garanties environnementales ou sociales minimales ?

Sont inclus dans la catégorie « N° 2 Autres » les liquidités et autres instruments détenus aux fins de gestion de la liquidité et des risques du portefeuille. Pour les obligations et actions non notées, des garanties environnementales et sociales minimales ont été mises en place par le biais d'un filtrage des émetteurs en rapport aux activités controversées définies dans les principes du Pacte mondial des Nations unies.

Quelles mesures ont-elles été prises pour réaliser les caractéristiques environnementales et/ou sociales au cours de la période de référence ?

Des indicateurs de durabilité sont mis à disposition de manière continue dans le système de gestion du portefeuille pour permettre aux gestionnaires du portefeuille d'évaluer l'impact de leurs décisions d'investissement.

Ces indicateurs sont intégrés au cadre de contrôle d'AMUNDI, en répartissant les responsabilités entre le premier niveau de contrôles réalisés par les équipes Investissement elles-mêmes, et le second niveau de contrôles réalisé par les équipes Risque, qui surveillent la conformité aux caractéristiques environnementales ou sociales promues en permanence par le fonds.

Quelles ont été les performances de ce produit financier par rapport à l'indice de référence ?

Ce produit ne dispose pas d'un Indice de référence ESG.

- **En quoi l'indice de référence diffère-t-il de l'indice de marché large ?**

Ce produit ne dispose pas d'un Indice de référence ESG.

Un indice de référence est un indice qui sert à mesurer si le

produit financier
réalise les
caractéristiques
environnementales
et/ou sociales qu'il
promeut.

- ***Quelles ont été les performances de ce produit financier par rapport aux indicateurs de durabilité pour déterminer l'alignement de l'indice de référence sur les caractéristiques environnementales ou sociales promues ?***

Ce produit ne dispose pas d'un Indice de référence ESG.

- ***Quelle a été la performance de ce produit financier par rapport à l'indice de référence ?***

Ce produit ne dispose pas d'un Indice de référence ESG.

- ***Quelle a été la performance de ce produit financier par rapport à l'indice de marché large ?***

Ce produit ne dispose pas d'un Indice de référence ESG.

Informations périodiques pour les produits financiers visés à l'Article 8, paragraphes 1, 2 et 2a, du Règlement (UE) 2019/2088 et à l'Article 6, premier paragraphe du Règlement (UE) 2020/852

Dénomination du produit : AMUNDI FUNDS
EUROLAND EQUITY RISK PARITY

Identifiant d'entité juridique :
222100TM3VJBCM4GPK90

Par investissement durable, on entend un investissement dans une activité économique qui contribue à un objectif environnemental ou social, pour autant qu'il ne cause de préjudice important à aucun de ces objectifs et que les sociétés détenues respectent les pratiques de bonne gouvernance.

La **Taxinomie de l'UE** est un système de classification institué par le Règlement (UE) 2020/852, qui dresse une liste d'**activités économiques durables sur le plan environnemental**. Ce règlement ne comprend pas de liste d'activités économiques durables sur le plan social. Les investissements durables ayant un objectif environnemental ne sont pas nécessairement alignés sur la taxinomie.

Caractéristiques environnementales et/ou sociales

Le produit financier avait-il un objectif d'investissement durable ?

☒ ☐ ☐ **Oui** ☒ ☐ ☒ **Non**

☐ Il a réalisé des investissements durables ayant un objectif environnemental : _____ ☐ dans des activités économiques qui sont considérées comme durables sur le plan environnemental au titre de la Taxinomie de l'UE ☐ dans des activités économiques qui ne sont pas considérées comme durables sur le plan environnemental au titre de la Taxinomie de l'UE ☐ Il a réalisé des investissements durables ayant un objectif social : _____	☒ Il a promu des caractéristiques environnementales/sociales (E/S) et, bien qu'il n'ait pas eu pour objectif l'investissement durable, il contenait une proportion d'investissements durables de 65.84% ☐ ayant un objectif environnemental dans des activités économiques qui sont considérées comme durables sur le plan environnemental au titre de la Taxinomie de l'UE ☒ ayant un objectif environnemental dans des activités économiques qui ne sont pas considérées comme durables sur le plan environnemental au titre de la Taxinomie de l'UE ☐ ayant un objectif social ☐ Il a promu des caractéristiques E/S, mais n'a pas réalisé d'investissements durables
---	---

Dans quelle mesure les caractéristiques environnementales et/ou sociales promues par ce produit financier ont-elles été réalisées ?

Au cours de l'exercice financier, le produit n'a cessé de promouvoir les caractéristiques environnementales et/ou sociales en cherchant à atteindre une note ESG supérieure à celle de son univers d'investissement **MSCI EMU Index**. Pour déterminer la note ESG du Produit et de l'univers d'investissement ESG, la performance ESG a été évaluée de manière continue en comparant la performance moyenne d'un titre par rapport au secteur de l'émetteur du titre, pour chacune des trois caractéristiques, à savoir environnementale, sociale et de gouvernance.

L'univers d'investissement est un univers du marché général qui n'évalue ni n'inclut pas de composantes en fonction de caractéristiques environnementales et/ou sociales, et qui n'a par conséquent pas pour vocation d'être conforme aux caractéristiques promues par le fonds. Aucun indice de référence ESG n'a été désigné.

Les indicateurs de durabilité évaluent la mesure dans laquelle les caractéristiques environnementales ou sociales promues par le produit financier sont atteintes.

● **Quelle a été la performance des indicateurs de durabilité ?**

Amundi a développé son propre processus de notation ESG interne, qui suit une approche « Best-in-class ». Les notations adaptées à chaque secteur d'activité ont pour objectif d'évaluer la dynamique dans laquelle interviennent les entreprises.

L'indicateur de durabilité employé est la note ESG du Produit mesurée en comparaison avec la note ESG de l'univers d'investissement ESG du Produit.

À la fin de la période :

- La note ESG moyenne pondérée du portefeuille est **1.057 (C)**.
- La note ESG moyenne pondérée de l'univers d'investissement ESG est **1.03 (C)**.

La notation ESG Amundi utilisée pour déterminer la note ESG est une note ESG quantitative qui se décline en sept niveaux allant de A (les meilleures notes de l'univers) à G (les pires notes). Sur l'échelle de notation ESG d'Amundi, les titres figurant sur la liste d'exclusion correspondent à G. Pour les entreprises émettrices, la performance ESG est évaluée de manière globale et au niveau des critères pertinents par comparaison avec la performance moyenne du secteur, en combinant les trois dimensions ESG :

- Dimension environnementale : cette dimension examine la capacité des émetteurs à contrôler leur impact environnemental direct et indirect, en limitant leur consommation d'énergie, en réduisant leurs émissions de gaz à effet de serre, en luttant contre l'appauvrissement des ressources et en protégeant la biodiversité.
- Dimension sociale : cette dimension évalue le fonctionnement d'un émetteur dans deux domaines différents, à savoir sa stratégie de développement du capital humain et le respect des droits humains en général.
- Dimension de gouvernance : cette dimension évalue la capacité de l'émetteur à garantir les fondements d'un cadre de gouvernance d'entreprise efficace et à générer de la valeur sur le long terme.

La méthodologie appliquée par la notation ESG d'Amundi utilise 38 critères qui sont soit génériques (communs à toutes les entreprises, indépendamment de leur activité) soit spécifiques au secteur, et qui sont pondérés en fonction du secteur et considérés en termes d'impact sur la réputation, l'efficacité opérationnelle et les réglementations concernant un émetteur. Les notations ESG d'Amundi sont susceptibles d'être exprimées de manière globale pour les trois dimensions E, S et G, ou individuellement pour tout facteur environnemental ou social.

● **... et par rapport aux périodes précédentes ?**

À la fin de la période précédente, la note ESG moyenne pondérée du portefeuille était de 1.12 (C) et la note ESG moyenne pondérée de l'univers d'investissement ESG était de 1.03 (C).

● **Quels étaient les objectifs des investissements durables que le produit financier entendait partiellement réaliser, et comment l'investissement durable a-t-il contribué à ces objectifs ?**

Les objectifs des investissements durables sont d'investir dans des sociétés détenues qui cherchent à respecter deux critères :

1. suivre les bonnes pratiques environnementales et sociales ; et
2. éviter de fabriquer des produits ou de fournir des services qui nuisent à l'environnement et à la société.

Pour que la société bénéficiaire d'investissements soit réputée contribuer à l'objectif susmentionné, elle doit figurer parmi les « meilleures performances » de son secteur d'activité pour au moins l'un de ses facteurs environnementaux ou sociaux importants.

La définition de « meilleures performances » repose sur la méthode ESG exclusive d'Amundi, dont l'objectif est de mesurer la performance ESG d'une société bénéficiaire d'investissements. Pour être considérée comme l'une des « meilleures performances », une société bénéficiaire d'investissements doit afficher l'une des trois premières notes (A, B ou C, sur une échelle de notation allant de A à G) dans son secteur pour au moins un facteur environnemental ou social important. Les facteurs environnementaux et sociaux sont identifiés à l'échelle des secteurs. L'identification des facteurs importants est basée sur le cadre d'analyse ESG d'Amundi qui combine des données extra-financières et une analyse qualitative du secteur associé et des questions de durabilité. Les facteurs identifiés comme importants représentent plus de 10 % de la note ESG globale. Par exemple pour le secteur de l'énergie, les facteurs importants sont les suivants : émissions et énergie, biodiversité et pollution, santé

et sécurité, communautés locales et droits humains. Pour un aperçu plus complet des secteurs et des facteurs, veuillez consulter la Déclaration réglementaire ESG d'Amundi disponible sur www.amundi.lu

Pour contribuer aux objectifs ci-dessus, la société bénéficiaire d'investissements ne doit pas avoir d'exposition significative aux activités (par ex. tabac, armes, jeux de hasard, charbon, aviation, production de viande, fabrication d'engrais et de pesticides, production de plastique à usage unique) incompatibles avec ces critères.

Le caractère durable d'un investissement est évalué au niveau de la société bénéficiaire d'investissements.

● ***Dans quelle mesure les investissements durables que le produit financier a partiellement réalisés n'ont-ils pas causé de préjudice important à un objectif d'investissement durable sur le plan environnemental ou social ?***

Pour s'assurer que les investissements durables ne causent pas de préjudice important (principe « Do no significant harm » ou « DNSH » en anglais), Amundi utilise deux filtres :

Le premier filtre de DNSH repose sur le contrôle des indicateurs obligatoires des Principales incidences négatives de l'Annexe 1, Tableau 1 des normes techniques réglementaires (RTS) lorsqu'il existe des données fiables (par ex. Intensité des GES des sociétés bénéficiaires d'investissements) via une combinaison d'indicateurs (par ex. intensité carbone) et des seuils ou règles spécifiques (par ex. que l'intensité carbone de la société bénéficiaire d'investissements n'appartient pas au dernier décile du secteur).

Dans sa politique d'exclusion qui fait partie intégrante de sa Politique d'investissement responsable, Amundi tient d'ores et déjà compte de Principales incidences négatives spécifiques. Ces exclusions, qui s'appliquent en sus des tests détaillés ci-dessus, couvrent les sujets suivants : exclusions sur les armes controversées, les violations des principes du Pacte mondial des Nations Unies, le charbon et le tabac.

Au-delà des facteurs de durabilité spécifiques couverts par le premier filtre, Amundi a défini un second filtre, qui ne tient pas compte des indicateurs obligatoires des Principales incidences négatives ci-dessus, afin de vérifier que la société n'affiche pas de mauvaises performances d'un point de vue environnemental ou social global par rapport aux autres entreprises de son secteur, ce qui correspond à un score environnemental ou social supérieur ou égal à E selon la notation ESG d'Amundi.

- ***Comment les indicateurs concernant les incidences négatives sur les facteurs de durabilité ont-ils été pris en considération ?***

Les indicateurs d'incidences négatives ont été pris en compte comme détaillé dans le premier filtre DNSH ci-dessus.

Le premier filtre DNSH repose sur le contrôle des indicateurs obligatoires des Principales incidences négatives de l'Annexe 1, Tableau 1 du Règlement délégué (UE) 2022/1288 lorsqu'il existe des données fiables via la combinaison des indicateurs suivants et de seuils ou règles spécifiques :

- une intensité en CO2 qui n'appartient pas au dernier décile par rapport aux autres entreprises du secteur (ne s'applique qu'aux secteurs à forte intensité) ;
- un Conseil d'administration dont le niveau de diversité n'appartient pas au dernier décile par rapport aux autres sociétés du secteur ;
- ne pas faire l'objet de controverse relative aux conditions de travail et aux droits humains ; et
- ne pas faire l'objet de controverse relative à la biodiversité et à la pollution.

Dans sa politique d'exclusion qui fait partie intégrante de sa Politique d'investissement responsable, Amundi tient d'ores et déjà compte de Principales incidences négatives spécifiques. Ces exclusions, qui s'appliquent en sus des tests détaillés ci-dessus, couvrent les sujets suivants : exclusions sur les armes controversées, les violations des principes du Pacte mondial des Nations Unies, le charbon et le tabac.

- ***Les investissements durables étaient-ils conformes aux Principes directeurs de l'OCDE à l'intention des entreprises multinationales et aux Principes directeurs des Nations unies relatifs aux entreprises et aux droits humains ? Description détaillée :***

Oui, les Principes directeurs de l'OCDE à l'intention des entreprises multinationales et les Principes directeurs des Nations unies relatifs aux entreprises et aux droits humains sont intégrés à notre méthode de notation ESG. Notre outil de notation ESG exclusif évalue les émetteurs à l'aide des données disponibles auprès de nos fournisseurs de données.

Les principales incidences négatives correspondent aux incidences négatives les plus significatives des décisions d'investissement sur les facteurs de durabilité liés aux questions environnementales, sociales et de personnel, au respect des droits humains et à la lutte contre la corruption et les actes de corruption.

Par exemple, le modèle dispose d'un critère dédié appelé « Implication dans la communauté et droits humains » qui s'applique à tous les secteurs en plus d'autres critères liés aux droits humains, y compris les chaînes d'approvisionnement socialement responsables, les conditions de travail et les relations de travail. En outre, nous effectuons un contrôle des controverses au moins une fois par trimestre, y compris sur les entreprises identifiées pour des violations des droits humains. En cas de controverse, les analystes évaluent la situation, lui donnent une note (à l'aide de notre méthode de notation exclusive) et déterminent la marche à suivre. Les notes de controverse sont mises à jour chaque trimestre pour suivre les tendances et les efforts de correction.

La Taxinomie de l'UE définit un principe consistant à « ne pas causer de préjudice important » (« Do not significant harm » ou DNSH) en vertu duquel les investissements alignés sur la Taxinomie ne doivent pas causer de préjudice important aux objectifs de la Taxinomie de l'UE et s'accompagnent de critères de l'UE spécifiques.

Le principe consistant à « ne pas causer de préjudice important » ne s'applique qu'aux investissements sous-jacents du produit financier qui tiennent compte des critères de l'UE pour les activités économiques durables sur le plan environnemental. Les investissements sous-jacents de la portion restante de ce produit financier ne tiennent pas compte des critères de l'UE en matière d'activités économiques durables sur le plan environnemental.

Tout autre investissement durable doit également se conformer au principe consistant à ne pas causer de préjudice important aux objectifs environnementaux ou sociaux.

Dans quelle mesure ce produit financier a-t-il pris en considération les principales incidences négatives sur les facteurs de durabilité ?

Le produit tient compte de toutes les Principales incidences négatives obligatoires en vertu de l'Annexe 1, Tableau 1 du Règlement délégué (UE) 2022/1288 applicables à la stratégie du produit et s'appuie sur une combinaison de politiques d'exclusion (normatives et sectorielles) et d'approches d'engagement et de vote :

- Exclusion : Amundi a défini des règles d'exclusion normatives, basées sur l'activité et les secteurs, qui couvrent certains des principaux indicateurs négatifs de durabilité énumérés par le Règlement Disclosure (sur la publication d'informations).
- Engagement : L'engagement est un processus continu et ciblé qui vise à influencer les activités ou le comportement des sociétés bénéficiaires d'investissements. L'objectif des activités d'engagement peut se diviser en deux catégories : impliquer un émetteur pour améliorer la manière dont il intègre la dimension environnementale et sociale ou impliquer un émetteur pour améliorer son impact sur les questions environnementales, sociales et liées aux droits humains ou d'autres questions de durabilité qui sont importantes pour la société au sens large et l'économie mondiale.
- Vote : La politique de vote d'Amundi répond à une analyse globale de toutes les questions à long terme qui peuvent influencer la création de valeur, y compris les questions ESG importantes. pour plus d'informations, veuillez consulter la Politique de vote d'Amundi.
- Surveillance des controverses : Amundi a développé un système de suivi des controverses qui s'appuie sur trois fournisseurs de données externes pour suivre systématiquement l'évolution des controverses et leur niveau de gravité. Cette approche quantitative est ensuite enrichie d'une évaluation approfondie de chaque controverse grave, menée par des analystes ESG, puis d'un examen périodique de son évolution. Cette approche s'applique à tous les fonds d'Amundi.

Quels étaient les principaux investissements de ce produit financier ?

La liste inclut les investissements qui constituent **la proportion la plus importante d'investissements** du produit financier au cours de la période de référence, à savoir : **du 01/07/2023 au 30/06/2024**

Principaux investissements	Secteur	Sous-secteur	Pays	% des actifs
TOTALENERGIES SE PARIS	Énergie	Pétrole, gaz et combustibles	France	2.02%
REPSOL SA	Énergie	Pétrole, gaz et combustibles	Espagne	1.67%
GALP ENERGIA -B	Énergie	Pétrole, gaz et combustibles	Portugal	1.58%
OMV AG	Énergie	Pétrole, gaz et combustibles	Autriche	1.47%
DEUTSCHE TELEKOM NAM (XETRA)	Services de communication	Télécommunications	Pays-Bas	1.41%
ENI SPA MILAN	Énergie	Pétrole, gaz et combustibles	Italie	1.37%
KONINKLIJKE KPN NV	Services de communication	Télécommunications	Pays-Bas	1.34%
SAP SE / XETRA	Technologies de l'information	Logiciels et services	Allemagne	1.25%
ELISA OYJ	Services de communication	Télécommunications	Finlande	1.16%
ORANGE	Services de communication	Télécommunications	France	1.10%
DANONE	Biens de consommation de base	Alimentation, boissons et tabac	France	1.07%
NESTE OYJ	Énergie	Pétrole, gaz et combustibles	Finlande	1.06%
PUBLICIS GROUPE SA	Services de communication	Médias et loisirs	France	1.04%
HENKEL AG & CO KGAA	Biens de consommation de base	Produits ménagers et domestiques	Allemagne	1.00%
VIVENDI SE	Services de communication	Médias et loisirs	France	0.99%

Quelle était la proportion d'investissements liés à la durabilité ?

● Quelle était l'allocation d'actifs ?

L'allocation d'actifs décrit la part des investissements dans des actifs spécifiques.

La catégorie **N° 1 Alignés sur les caractéristiques E/S** inclut les investissements du produit financier utilisés pour atteindre les caractéristiques environnementales ou sociales promues par le produit financier.

La catégorie **N° 2 Autres** inclut les investissements restants du produit financier qui ne sont ni alignés sur les caractéristiques environnementales ou sociales ni considérés comme investissements durables.

La catégorie **N° 1 Alignés sur les caractéristiques E/S** comprend :

- la sous-catégorie **N° 1A Durables** couvrant les investissements durables sur le plan environnemental et social ;
- la sous-catégorie **N° 1B Autres caractéristiques E/S** couvrant les investissements alignés sur les caractéristiques environnementales ou sociales qui ne sont pas considérés comme des investissements durables.

● Dans quels secteurs économiques ont été réalisés les investissements ?

Secteur	Sous-secteur	% des actifs
Énergie	Pétrole, gaz et combustibles	9.17%
Biens de consommation de base	Alimentation, boissons et tabac	8.18%
Services de communication	Télécommunications	7.91%
Santé	Pharmacie, biotechnologie et sciences de la vie	6.48%
Industrie	Biens d'équipement	6.43%
Services aux collectivités	Services aux collectivités – électricité	6.12%

<i>Matériaux</i>	<i>Chimie</i>	<i>5.72%</i>
<i>Services de communication</i>	<i>Médias et loisirs</i>	<i>5.04%</i>
<i>Technologies de l'information</i>	<i>Logiciels et services</i>	<i>4.18%</i>
<i>Santé</i>	<i>Matériel et services de santé</i>	<i>4.15%</i>
<i>Technologies de l'information</i>	<i>Semi-conducteurs et équipement pour semi-conducteurs</i>	<i>3.51%</i>

<i>Liquidités</i>	<i>Liquidités</i>	<i>1.57%</i>

Aux fins d'observer la taxinomie de l'UE, les critères relatifs au **gaz fossile** incluent des limites aux émissions et le passage à une énergie entièrement renouvelable ou à des combustibles à faible teneur en carbone d'ici fin 2035. Pour **l'énergie nucléaire**, les critères incluent des règles exhaustives de sécurité et de gestion des déchets.

Dans quelle mesure les investissements durables ayant un objectif environnemental étaient-ils alignés sur la Taxinomie de l'UE ?

Le fonds promeut des caractéristiques tant environnementales que sociales. Si le fonds ne s'est pas engagé à réaliser des investissements alignés sur la Taxinomie de l'UE, au cours de la période sous revue, il a cependant investi 3.87% dans des investissements durables alignés sur la Taxinomie de l'UE. De tels investissements ont contribué aux objectifs d'atténuation du changement climatique de la taxinomie de l'UE.

L'alignement des sociétés bénéficiaires d'investissements sur les objectifs de la Taxinomie de l'UE susmentionnés est évalué à l'aide du chiffre d'affaires (ou des revenus) et/ou des données d'utilisation des produits des obligations vertes.

Le pourcentage communiqué d'alignement des investissements du fonds sur la Taxinomie de l'UE n'a pas été audité par le réviseur d'entreprises agréé du fonds ni par aucun tiers.

Les activités habilitantes permettent directement à d'autres activités de contribuer de manière substantielle à la réalisation d'un objectif environnemental.

Les activités transitoires sont des activités pour lesquelles il n'existe pas encore de solution de remplacement sobre en carbone et, entre autres, dont les niveaux d'émission de gaz à effet de serre correspondent aux meilleures performances réalisables.

Les activités alignées sur la taxinomie sont exprimées en pourcentage :

- **du chiffre d'affaires** pour refléter la part des revenus provenant des activités vertes des sociétés bénéficiaires d'investissements ;
- **des dépenses d'investissement (CapEx)** pour montrer les investissements verts réalisés par les sociétés bénéficiaires d'investissements, pour une transition vers une économie verte, par exemple ;
- **des dépenses d'exploitation (OpEx)** pour refléter les activités opérationnelles vertes des sociétés bénéficiaires d'investissements.

Le produit financier a-t-il investi dans des activités liées au gaz fossile et/ou à l'énergie nucléaire qui sont conformes à la taxinomie de l'UE¹ ?

- ☐ Oui :
- ☐ Dans le gaz fossile ☐ Dans l'énergie nucléaire
- ☒ Non

Aucune donnée fiable concernant l'alignement sur les activités de gaz fossile et d'énergie nucléaire conformes à la Taxinomie de l'UE n'était disponible sur la période.

¹Les activités liées au gaz fossile et/ou à l'énergie nucléaire ne seront conformes à la Taxinomie de l'UE que si elles contribuent à limiter le changement climatique (« atténuation du changement climatique ») et ne causent pas de préjudice important à tout objectif de la Taxinomie de l'UE. L'intégralité des critères relatifs aux activités économiques liées au gaz fossile et à l'énergie nucléaire conformes à la Taxinomie de l'UE sont définis dans le Règlement délégué (UE) 2022/1214 de la Commission.

Les graphiques ci-dessous font apparaître en vert le pourcentage d'investissements alignés sur la Taxinomie de l'UE. Étant donné qu'il n'existe pas de méthodologie appropriée pour déterminer l'alignement des obligations souveraines* sur la taxinomie, le premier graphique montre l'alignement sur la Taxinomie par rapport à tous les investissements du produit financier, y compris les obligations souveraines, tandis que le deuxième graphique représente l'alignement sur la Taxinomie uniquement par rapport aux investissements du produit financier autres que les obligations souveraines.

* Aux fins de ces graphiques, les « obligations souveraines » comprennent toutes les expositions souveraines

● **Quelle était la part d'investissements dans les activités transitoires et habilitantes ?**

Au 30/06/2024, en utilisant le chiffre d'affaires et/ou les données d'utilisation des produits des obligations vertes comme indicateur, la part d'investissements du fonds dans les activités transitoires était de 0.25% et la part d'investissements dans les activités habilitantes était de 3.99%. Le pourcentage communiqué d'alignement des investissements du fonds sur la Taxinomie de l'UE n'a pas été audité par le réviseur d'entreprises agréé du fonds ni par aucun tiers.

● **Comment se situe le pourcentage d'investissements alignés sur la taxinomie de l'UE par rapport aux périodes de référence précédentes ?**

À la fin de la période précédente, le pourcentage d'investissements alignés sur la taxinomie était de 9.34%.

sont des investissements durables ayant un objectif environnemental **qui ne tiennent pas compte des critères** en matière d'activités économiques durables sur le plan environnemental visés par le Règlement (UE) 2020/852.

● **Quelle était la part des investissements durables ayant un objectif environnemental qui n'étaient pas alignés sur la Taxinomie de l'UE ?**

La part des investissements durables ayant un objectif environnemental et non alignés sur la taxinomie était de **47.62%** à la fin de la période.

Cela tient du fait que certains émetteurs sont considérés comme investissements durables en vertu du Règlement SFDR mais qu'une portion de leurs activités n'est pas alignée sur les standards de la taxinomie de l'UE, ou que les données correspondantes ne sont pas encore disponibles en vue d'une évaluation relative à la taxinomie de l'UE.

● **Quelle était la part d'investissements durables sur le plan social ?**

La proportion des investissements durables sur le plan social était de 14.34% à la fin de la période.

● **Quels investissements étaient inclus dans la catégorie « Autres », quelle était leur finalité et existait-il des garanties environnementales ou sociales minimales ?**

Sont inclus dans la catégorie « N° 2 Autres » les liquidités et autres instruments détenus aux fins de gestion de la liquidité et des risques du portefeuille. Pour les obligations et actions non notées, des garanties environnementales et sociales minimales ont été mises en place par le biais d'un filtrage des émetteurs en rapport aux activités controversées définies dans les principes du Pacte mondial des Nations unies.

● **Quelles mesures ont-elles été prises pour réaliser les caractéristiques environnementales et/ou sociales au cours de la période de référence ?**

Des indicateurs de durabilité sont mis à disposition de manière continue dans le système de gestion du portefeuille pour permettre aux gestionnaires du portefeuille d'évaluer l'impact de leurs décisions d'investissement.

Ces indicateurs sont intégrés au cadre de contrôle d'AMUNDI, en répartissant les responsabilités entre le premier niveau de contrôles réalisés par les équipes Investissement elles-mêmes, et le second niveau de contrôles réalisé par les équipes Risque, qui surveillent la conformité aux caractéristiques environnementales ou sociales promues en permanence par le fonds.

Quelles ont été les performances de ce produit financier par rapport à l'indice de référence ?

Un indice de référence est un indice qui sert à mesurer si le produit financier réalise les caractéristiques environnementales et/ou sociales qu'il promeut.

Ce produit ne dispose pas d'un Indice de référence ESG.

- ***En quoi l'indice de référence diffère-t-il de l'indice de marché large ?***

Ce produit ne dispose pas d'un Indice de référence ESG.

- ***Quelle a été la performance de ce produit financier par rapport aux indicateurs de durabilité pour déterminer l'alignement de l'indice de référence sur les caractéristiques environnementales ou sociales promues ?***

Ce produit ne dispose pas d'un Indice de référence ESG.

- ***Quelle a été la performance de ce produit financier par rapport à l'indice de référence ?***

Ce produit ne dispose pas d'un Indice de référence ESG.

- ***Quelle a été la performance de ce produit financier par rapport à l'indice de marché large ?***

Ce produit ne dispose pas d'un Indice de référence ESG.

Informations périodiques pour les produits financiers visés à l'Article 8, paragraphes 1, 2 et 2a, du Règlement (UE) 2019/2088 et à l'Article 6, premier paragraphe du Règlement (UE) 2020/852

Dénomination du produit : AMUNDI FUNDS
EUROPEAN EQUITY CONSERVATIVE

Identifiant d'entité juridique :
529900CA12DQSLAWW128

Par investissement durable, on entend un investissement dans une activité économique qui contribue à un objectif environnemental ou social, pour autant qu'il ne cause de préjudice important à aucun de ces objectifs et que les sociétés détenues respectent les pratiques de bonne gouvernance.

La **Taxinomie de l'UE** est un système de classification institué par le Règlement (UE) 2020/852, qui dresse une liste d'**activités économiques durables sur le plan environnemental**. Ce règlement ne comprend pas de liste d'activités économiques durables sur le plan social. Les investissements durables ayant un objectif environnemental ne sont pas nécessairement alignés sur la taxinomie.

Caractéristiques environnementales et/ou sociales

Le produit financier avait-il un objectif d'investissement durable ?	
☒ ☐ ☐ Oui	☒ ☐ ☐ X Non
☐ Il a réalisé des investissements durables ayant un objectif environnemental : _____ ☐ dans des activités économiques qui sont considérées comme durables sur le plan environnemental au titre de la Taxinomie de l'UE ☐ dans des activités économiques qui ne sont pas considérées comme durables sur le plan environnemental au titre de la Taxinomie de l'UE	☒ Il a promu des caractéristiques environnementales/sociales (E/S) et, bien qu'il n'ait pas eu pour objectif l'investissement durable, il contenait une proportion d'investissements durables de 66.92% ☐ ayant un objectif environnemental dans des activités économiques qui sont considérées comme durables sur le plan environnemental au titre de la Taxinomie de l'UE ☒ ayant un objectif environnemental dans des activités économiques qui ne sont pas considérées comme durables sur le plan environnemental au titre de la Taxinomie de l'UE ☐ ayant un objectif social
☐ Il a réalisé des investissements durables ayant un objectif social : _____	☐ Il a promu des caractéristiques E/S, mais n'a pas réalisé d'investissements durables

Dans quelle mesure les caractéristiques environnementales et/ou sociales promues par ce produit financier ont-elles été réalisées ?

Au cours de l'exercice financier, le produit n'a cessé de promouvoir les caractéristiques environnementales et/ou sociales en cherchant à atteindre une note ESG supérieure à celle de son univers d'investissement **MSCI Europe Index**. Pour déterminer la note ESG du Produit et de l'univers d'investissement ESG, la performance ESG a été évaluée de manière continue en comparant la performance moyenne d'un titre par rapport au secteur de l'émetteur du titre, pour chacune des trois caractéristiques, à savoir environnementale, sociale et de gouvernance.

L'univers d'investissement est un univers du marché général qui n'évalue ni n'inclut pas de composantes en fonction de caractéristiques environnementales et/ou sociales, et qui n'a par conséquent pas pour vocation d'être conforme aux caractéristiques promues par le fonds. Aucun indice de référence ESG n'a été désigné.

Les indicateurs de durabilité évaluent la mesure dans laquelle les caractéristiques environnementales ou sociales promues par le produit financier sont atteintes.

● **Quelle a été la performance des indicateurs de durabilité ?**

Amundi a développé son propre processus de notation ESG interne, qui suit une approche « Best-in-class ». Les notations adaptées à chaque secteur d'activité ont pour objectif d'évaluer la dynamique dans laquelle interviennent les entreprises.

L'indicateur de durabilité employé est la note ESG du Produit mesurée en comparaison avec la note ESG de l'univers d'investissement ESG du Produit.

À la fin de la période :

- La note ESG moyenne pondérée du portefeuille est **1.054 (C)**.
- La note ESG moyenne pondérée de l'univers d'investissement ESG est **0.798 (C)**.

La notation ESG Amundi utilisée pour déterminer la note ESG est une note ESG quantitative qui se décline en sept niveaux allant de A (les meilleures notes de l'univers) à G (les pires notes). Sur l'échelle de notation ESG d'Amundi, les titres figurant sur la liste d'exclusion correspondent à G. Pour les entreprises émettrices, la performance ESG est évaluée de manière globale et au niveau des critères pertinents par comparaison avec la performance moyenne du secteur, en combinant les trois dimensions ESG :

- Dimension environnementale : cette dimension examine la capacité des émetteurs à contrôler leur impact environnemental direct et indirect, en limitant leur consommation d'énergie, en réduisant leurs émissions de gaz à effet de serre, en luttant contre l'appauvrissement des ressources et en protégeant la biodiversité.
- Dimension sociale : cette dimension évalue le fonctionnement d'un émetteur dans deux domaines différents, à savoir sa stratégie de développement du capital humain et le respect des droits humains en général.
- Dimension de gouvernance : cette dimension évalue la capacité de l'émetteur à garantir les fondements d'un cadre de gouvernance d'entreprise efficace et à générer de la valeur sur le long terme.

La méthodologie appliquée par la notation ESG d'Amundi utilise 38 critères qui sont soit génériques (communs à toutes les entreprises, indépendamment de leur activité) soit spécifiques au secteur, et qui sont pondérés en fonction du secteur et considérés en termes d'impact sur la réputation, l'efficacité opérationnelle et les réglementations concernant un émetteur. Les notations ESG d'Amundi sont susceptibles d'être exprimées de manière globale pour les trois dimensions E, S et G, ou individuellement pour tout facteur environnemental ou social.

● **... et par rapport aux périodes précédentes ?**

À la fin de la période précédente, la note ESG moyenne pondérée du portefeuille était de 0.96 (C) et la note ESG moyenne pondérée de l'univers d'investissement ESG était de 0.80 (C).

● **Quels étaient les objectifs des investissements durables que le produit financier entendait partiellement réaliser, et comment l'investissement durable a-t-il contribué à ces objectifs ?**

Les objectifs des investissements durables sont d'investir dans des sociétés détenues qui cherchent à respecter deux critères :

1. suivre les bonnes pratiques environnementales et sociales ; et
2. éviter de fabriquer des produits ou de fournir des services qui nuisent à l'environnement et à la société.

Pour que la société bénéficiaire d'investissements soit réputée contribuer à l'objectif susmentionné, elle doit figurer parmi les « meilleures performances » de son secteur d'activité pour au moins l'un de ses facteurs environnementaux ou sociaux importants.

La définition de « meilleures performances » repose sur la méthode ESG exclusive d'Amundi, dont l'objectif est de mesurer la performance ESG d'une société bénéficiaire d'investissements. Pour être considérée comme l'une des « meilleures performances », une société bénéficiaire d'investissements doit afficher l'une des trois premières notes (A, B ou C, sur une échelle de notation allant de A à G) dans son secteur pour au moins un facteur environnemental ou social important. Les facteurs environnementaux et sociaux sont identifiés à l'échelle des secteurs. L'identification des facteurs importants est basée sur le cadre d'analyse ESG d'Amundi qui combine des données extra-financières et une analyse qualitative du secteur associé et des questions de durabilité. Les facteurs identifiés comme importants représentent plus de 10 % de la note ESG globale. Par exemple pour le secteur de

l'énergie, les facteurs importants sont les suivants : émissions et énergie, biodiversité et pollution, santé et sécurité, communautés locales et droits humains. Pour un aperçu plus complet des secteurs et des facteurs, veuillez consulter la Déclaration réglementaire ESG d'Amundi disponible sur www.amundi.lu

Pour contribuer aux objectifs ci-dessus, la société bénéficiaire d'investissements ne doit pas avoir d'exposition significative aux activités (par ex. tabac, armes, jeux de hasard, charbon, aviation, production de viande, fabrication d'engrais et de pesticides, production de plastique à usage unique) incompatibles avec ces critères.

Le caractère durable d'un investissement est évalué au niveau de la société bénéficiaire d'investissements.

Les principales incidences négatives correspondent aux incidences négatives les plus significatives des décisions d'investissement sur les facteurs de durabilité liés aux questions environnementales, sociales et de personnel, au respect des droits humains et à la lutte contre la corruption et les actes de corruption.

● ***Dans quelle mesure les investissements durables que le produit financier a partiellement réalisés n'ont-ils pas causé de préjudice important à un objectif d'investissement durable sur le plan environnemental ou social ?***

Pour s'assurer que les investissements durables ne causent pas de préjudice important (principe « Do no significant harm » ou « DNSH » en anglais), Amundi utilise deux filtres :

Le premier filtre de DNSH repose sur le contrôle des indicateurs obligatoires des Principales incidences négatives de l'Annexe 1, Tableau 1 des normes techniques réglementaires (RTS) lorsqu'il existe des données fiables (par ex. Intensité des GES des sociétés bénéficiaires d'investissements) via une combinaison d'indicateurs (par ex. intensité carbone) et des seuils ou règles spécifiques (par ex. que l'intensité carbone de la société bénéficiaire d'investissements n'appartient pas au dernier décile du secteur).

Dans sa politique d'exclusion qui fait partie intégrante de sa Politique d'investissement responsable, Amundi tient d'ores et déjà compte de Principales incidences négatives spécifiques. Ces exclusions, qui s'appliquent en sus des tests détaillés ci-dessus, couvrent les sujets suivants : exclusions sur les armes controversées, les violations des principes du Pacte mondial des Nations Unies, le charbon et le tabac.

Au-delà des facteurs de durabilité spécifiques couverts par le premier filtre, Amundi a défini un second filtre, qui ne tient pas compte des indicateurs obligatoires des Principales incidences négatives ci-dessus, afin de vérifier que la société n'affiche pas de mauvaises performances d'un point de vue environnemental ou social global par rapport aux autres entreprises de son secteur, ce qui correspond à un score environnemental ou social supérieur ou égal à E selon la notation ESG d'Amundi.

- ***Comment les indicateurs concernant les incidences négatives sur les facteurs de durabilité ont-ils été pris en considération ?***

Les indicateurs d'incidences négatives ont été pris en compte comme détaillé dans le premier filtre DNSH ci-dessus.

Le premier filtre DNSH repose sur le contrôle des indicateurs obligatoires des Principales incidences négatives de l'Annexe 1, Tableau 1 du Règlement délégué (UE) 2022/1288 lorsqu'il existe des données fiables via la combinaison des indicateurs suivants et de seuils ou règles spécifiques :

- une intensité en CO2 qui n'appartient pas au dernier décile par rapport aux autres entreprises du secteur (ne s'applique qu'aux secteurs à forte intensité) ;
- un Conseil d'administration dont le niveau de diversité n'appartient pas au dernier décile par rapport aux autres sociétés du secteur ;
- ne pas faire l'objet de controverse relative aux conditions de travail et aux droits humains ; et
- ne pas faire l'objet de controverse relative à la biodiversité et à la pollution.

Dans sa politique d'exclusion qui fait partie intégrante de sa Politique d'investissement responsable, Amundi tient d'ores et déjà compte de Principales incidences négatives spécifiques. Ces exclusions, qui s'appliquent en sus des tests détaillés ci-dessus, couvrent les sujets suivants : exclusions sur les armes controversées, les violations des principes du Pacte mondial des Nations Unies, le charbon et le tabac.

- ***Les investissements durables étaient-ils conformes aux Principes directeurs de l'OCDE à l'intention des entreprises multinationales et aux Principes directeurs des Nations unies relatifs aux entreprises et aux droits humains ? Description détaillée :***

Oui, les Principes directeurs de l'OCDE à l'intention des entreprises multinationales et les Principes directeurs des Nations unies relatifs aux entreprises et aux droits humains sont intégrés à notre méthode de notation ESG. Notre outil de notation ESG exclusif évalue les émetteurs à l'aide des données disponibles auprès de nos fournisseurs de données. Par exemple, le modèle dispose d'un critère dédié appelé « Implication dans la communauté et droits humains » qui s'applique à tous les secteurs en plus d'autres critères liés aux droits humains, y compris les chaînes d'approvisionnement socialement responsables, les conditions de travail et les relations de travail. En outre, nous effectuons un contrôle des controverses au moins une fois par trimestre, y compris sur les entreprises identifiées pour des violations des droits humains. En cas de controverse, les analystes évaluent la situation, lui donnent une note (à l'aide de notre méthode de notation exclusive) et déterminent la marche à suivre. Les notes de controverse sont mises à jour chaque trimestre pour suivre les tendances et les efforts de correction.

La Taxinomie de l'UE définit un principe consistant à « ne pas causer de préjudice important » (« Do not significant harm » ou DNSH) en vertu duquel les investissements alignés sur la Taxinomie ne doivent pas causer de préjudice important aux objectifs de la Taxinomie de l'UE et s'accompagnent de critères de l'UE spécifiques.

Le principe consistant à « ne pas causer de préjudice important » ne s'applique qu'aux investissements sous-jacents du produit financier qui tiennent compte des critères de l'UE pour les activités économiques durables sur le plan environnemental. Les investissements sous-jacents de la portion restante de ce produit financier ne tiennent pas compte des critères de l'UE en matière d'activités économiques durables sur le plan environnemental.

Tout autre investissement durable doit également se conformer au principe consistant à ne pas causer de préjudice important aux objectifs environnementaux ou sociaux.

Dans quelle mesure ce produit financier a-t-il pris en considération les principales incidences négatives sur les facteurs de durabilité ?

Le produit tient compte de toutes les Principales incidences négatives obligatoires en vertu de l'Annexe 1, Tableau 1 du Règlement délégué (UE) 2022/1288 applicables à la stratégie du produit et s'appuie sur une combinaison de politiques d'exclusion (normatives et sectorielles) et d'approches d'engagement et de vote :

- **Exclusion** : Amundi a défini des règles d'exclusion normatives, basées sur l'activité et les secteurs, qui couvrent certains des principaux indicateurs négatifs de durabilité énumérés par le Règlement Disclosure (sur la publication d'informations).
- **Engagement** : L'engagement est un processus continu et ciblé qui vise à influencer les activités ou le comportement des sociétés bénéficiaires d'investissements. L'objectif des activités d'engagement peut se diviser en deux catégories : impliquer un émetteur pour améliorer la manière dont il intègre la dimension environnementale et sociale ou impliquer un émetteur pour améliorer son impact sur les questions environnementales, sociales et liées aux droits humains ou d'autres questions de durabilité qui sont importantes pour la société au sens large et l'économie mondiale.
- **Vote** : La politique de vote d'Amundi répond à une analyse globale de toutes les questions à long terme qui peuvent influencer la création de valeur, y compris les questions ESG importantes. pour plus d'informations, veuillez consulter la Politique de vote d'Amundi.
- **Surveillance des controverses** : Amundi a développé un système de suivi des controverses qui s'appuie sur trois fournisseurs de données externes pour suivre systématiquement l'évolution des controverses et leur niveau de gravité. Cette approche quantitative est ensuite enrichie d'une évaluation approfondie de chaque controverse grave, menée par des analystes ESG, puis d'un examen périodique de son évolution. Cette approche s'applique à tous les fonds d'Amundi.

Quels étaient les principaux investissements de ce produit financier ?

La liste inclut les investissements qui constituent la proportion la plus importante d'investissements du produit financier au cours de la période de référence, à savoir : du 01/07/2023 au 30/06/2024

Principaux Investissements	Secteur	Sous-secteur	Pays	% des actifs
NOVARTIS AG- REG	Santé	Pharmacie, biotechnologie et sciences de la vie	Suisse	2.78%
ROCHE HLDG AG-GENUSS	Santé	Pharmacie, biotechnologie et sciences de la vie	Suisse	2.77%
WOLTERS KLUWER	Industrie	Services commerciaux et professionnels	Pays-Bas	2.60%
UNILEVER PLC (GBP)	Biens de consommation de base	Produits ménagers et domestiques	Royaume-Uni	2.36%
KONINKLIJKE KPN NV	Services de communication	Télécommunications	Pays-Bas	2.26%
SWISSCOM AG-REG	Services de communication	Télécommunications	Suisse	2.21%
SANOFI	Santé	Pharmacie, biotechnologie et sciences de la vie	France	2.12%
ASTRAZENECA GBP	Santé	Pharmacie, biotechnologie et sciences de la vie	Royaume-Uni	2.10%
KONINKLIJKE AHOLD DELHAIZE	Biens de consommation de base	Distribution et vente au détail de biens de consommation de base	Pays-Bas	2.10%
NATIONAL GRID PLC	Services aux collectivités	Services multiples aux collectivités	Royaume-Uni	2.08%
DANONE	Biens de consommation de base	Alimentation, boissons et tabac	France	2.06%
HENKEL AG & CO KGAA VOR-PFD	Biens de consommation de base	Produits ménagers et domestiques	Allemagne	2.01%
SAP SE / XETRA	Technologies de l'information	Logiciels et services	Allemagne	1.99%
RELX PLC	Industrie	Services commerciaux et professionnels	Royaume-Uni	1.85%
BEIERSDORF AG	Biens de consommation de base	Produits ménagers et domestiques	Allemagne	1.78%

Quelle était la proportion d'investissements liés à la durabilité ?

● Quelle était l'allocation d'actifs ?

L'allocation d'actifs décrit la part des investissements dans des actifs spécifiques.

La catégorie **N° 1 Alignés sur les caractéristiques E/S** inclut les investissements du produit financier utilisés pour atteindre les caractéristiques environnementales ou sociales promues par le produit financier.

La catégorie **N° 2 Autres** inclut les investissements restants du produit financier qui ne sont ni alignés sur les caractéristiques environnementales ou sociales ni considérés comme investissements durables.

La catégorie **N° 1 Alignés sur les caractéristiques E/S** comprend :

- la sous-catégorie **N° 1A Durables** couvrant les investissements durables sur le plan environnemental et social ;
- la sous-catégorie **N° 1B Autres caractéristiques E/S** couvrant les investissements alignés sur les caractéristiques environnementales ou sociales qui ne sont pas considérés comme des investissements durables.

● Dans quels secteurs économiques ont été réalisés les investissements ?

Secteur	Sous-secteur	% des actifs
Santé	Pharmacie, biotechnologie et sciences de la vie	18.71%
Services de communication	Télécommunications	8.39%
Biens de consommation de base	Alimentation, boissons et tabac	7.83%
Biens de consommation de base	Produits ménagers et domestiques	7.39%
Industrie	Biens d'équipement	6.82%
Obligations financières	Assurance	6.54%

<i>Industrie</i>	<i>Services commerciaux et professionnels</i>	5.97%
<i>Services aux collectivités</i>	<i>Services aux collectivités – électricité</i>	3.69%
<i>Consommation discrétionnaire</i>	<i>Services aux consommateurs</i>	2.72%
<i>Biens de consommation de base</i>	<i>Distribution et vente au détail de biens de consommation de base</i>	2.57%
<i>Technologies de l'information</i>	<i>Logiciels et services</i>	2.54%
<i>Consommation discrétionnaire</i>	<i>Automobiles et composants</i>	2.35%
<i>Santé</i>	<i>Matériel et services de santé</i>	2.10%
<i>Services aux collectivités</i>	<i>Services multiples aux collectivités</i>	2.08%
<i>Matériaux</i>	<i>Chimie</i>	2.01%
<i>Services aux collectivités</i>	<i>Services aux collectivités – gaz</i>	1.72%
<i>Industrie</i>	<i>Transport</i>	1.70%
<i>Énergie</i>	<i>Pétrole, gaz et combustibles</i>	1.67%
<i>Obligations financières</i>	<i>Services financiers</i>	1.46%
<i>Services de communication</i>	<i>Médias et loisirs</i>	1.41%
<i>Consommation discrétionnaire</i>	<i>Distribution et vente au détail de biens de consommation discrétionnaires</i>	1.31%
<i>Services aux collectivités</i>	<i>Services aux collectivités – eau</i>	1.28%

Obligations financières	Banques	1.20%
Matériaux	Produits papetiers et forestiers	0.96%
Matériaux	Métaux et exploitation minière	0.90%
Technologies de l'information	Matériel technologique et équipement	0.57%

Autres	Autres	0.00%
Forex	Forex	-0.00%
Liquidités	Liquidités	3.59%

Aux fins d'observer la taxinomie de l'UE, les critères relatifs au **gaz fossile** incluent des limites aux émissions et le passage à une énergie entièrement renouvelable ou à des combustibles à faible teneur en carbone d'ici fin 2035. Pour **l'énergie nucléaire**, les critères incluent des règles exhaustives de sécurité et de gestion des déchets.

Les activités habilitantes permettent directement à d'autres activités de contribuer de manière substantielle à la réalisation d'un objectif environnemental.

Les activités transitoires sont des activités pour lesquelles il

Dans quelle mesure les investissements durables ayant un objectif environnemental étaient-ils alignés sur la Taxinomie de l'UE ?

Le fonds promeut des caractéristiques tant environnementales que sociales. Si le fonds ne s'est pas engagé à réaliser des investissements alignés sur la Taxinomie de l'UE, au cours de la période sous revue, il a cependant investi 3.03% dans des investissements durables alignés sur la Taxinomie de l'UE. De tels investissements ont contribué aux objectifs d'atténuation du changement climatique de la taxinomie de l'UE.

L'alignement des sociétés bénéficiaires d'investissements sur les objectifs de la Taxinomie de l'UE susmentionnés est évalué à l'aide du chiffre d'affaires (ou des revenus) et/ou des données d'utilisation des produits des obligations vertes.

Le pourcentage communiqué d'alignement des investissements du fonds sur la Taxinomie de l'UE n'a pas été audité par le réviseur d'entreprises agréé du fonds ni par aucun tiers.

● Le produit financier a-t-il investi dans des activités liées au gaz fossile et/ou à l'énergie nucléaire qui sont conformes à la taxinomie de l'UE¹ ?

☐

Oui :

☐

Dans le gaz fossile

☐

Dans l'énergie nucléaire

☒

Non

Aucune donnée fiable concernant l'alignement sur les activités de gaz fossile et d'énergie nucléaire conformes à la Taxinomie de l'UE n'était disponible sur la période.

¹Les activités liées au gaz fossile et/ou à l'énergie nucléaire ne seront conformes à la Taxinomie de l'UE que si elles contribuent à limiter le changement climatique (« atténuation du changement climatique ») et ne

n'existe pas encore de solution de remplacement sobre en carbone et, entre autres, dont les niveaux d'émission de gaz à effet de serre correspondent aux meilleures performances réalisables.

Les activités alignées sur la taxinomie sont exprimées en pourcentage :

- **du chiffre d'affaires** pour refléter la part des revenus provenant des activités vertes des sociétés bénéficiaires d'investissements ;
- **des dépenses d'investissement (CapEx)** pour montrer les investissements verts réalisés par les sociétés bénéficiaires d'investissements, pour une transition vers une économie verte, par exemple ; et
- **des dépenses d'exploitation (OpEx)** pour refléter les activités opérationnelles vertes des sociétés bénéficiaires d'investissements.

causent pas de préjudice important à tout objectif de la Taxinomie de l'UE. L'intégralité des critères relatifs aux activités économiques liées au gaz fossile et à l'énergie nucléaire conformes à la Taxinomie de l'UE sont définis dans le Règlement délégué (UE) 2022/1214 de la Commission.

Les graphiques ci-dessous font apparaître en vert le pourcentage d'investissements alignés sur la Taxinomie de l'UE. Étant donné qu'il n'existe pas de méthodologie appropriée pour déterminer l'alignement des obligations souveraines* sur la taxinomie, le premier graphique montre l'alignement sur la Taxinomie par rapport à tous les investissements du produit financier, y compris les obligations souveraines, tandis que le deuxième graphique représente l'alignement sur la Taxinomie uniquement par rapport aux investissements du produit financier autres que les obligations souveraines.

* Aux fins de ces graphiques, les « obligations souveraines » comprennent toutes les expositions souveraines

● Quelle était la part d'investissements dans les activités transitoires et habilitantes ?

Au 30/06/2024, en utilisant le chiffre d'affaires et/ou les données d'utilisation des produits des obligations vertes comme indicateur, la part d'investissements du fonds dans les activités transitoires était de 0.08% et la part d'investissements dans les activités habilitantes était de 3.01%. Le pourcentage communiqué d'alignement des investissements du fonds sur la Taxinomie de l'UE n'a pas été audité par le réviseur d'entreprises agréé du fonds ni par aucun tiers.

● Comment se situe le pourcentage d'investissements alignés sur la taxinomie de l'UE par rapport aux périodes de référence précédentes ?

À la fin de la période précédente, le pourcentage d'investissements alignés sur la taxinomie était de 4.42%.

sont des investissements durables ayant un objectif environnemental **qui ne tiennent pas compte des critères** en matière d'activités économiques durables sur le plan environnemental visés par le Règlement (UE) 2020/852.

Quelle était la part des investissements durables ayant un objectif environnemental qui n'étaient pas alignés sur la Taxinomie de l'UE ?

La part des investissements durables ayant un objectif environnemental et non alignés sur la taxinomie était de **48.86%** à la fin de la période.

Cela tient du fait que certains émetteurs sont considérés comme investissements durables en vertu du Règlement SFDR mais qu'une portion de leurs activités n'est pas alignée sur les standards de la taxinomie de l'UE, ou que les données correspondantes ne sont pas encore disponibles en vue d'une évaluation relative à la taxinomie de l'UE.

Quelle était la part d'investissements durables sur le plan social ?

La proportion des investissements durables sur le plan social était de 15.03% à la fin de la période.

Quels investissements étaient inclus dans la catégorie « Autres », quelle était leur finalité et existait-il des garanties environnementales ou sociales minimales ?

Sont inclus dans la catégorie « N° 2 Autres » les liquidités et autres instruments détenus aux fins de gestion de la liquidité et des risques du portefeuille. Pour les obligations et actions non notées, des garanties environnementales et sociales minimales ont été mises en place par le biais d'un filtrage des émetteurs en rapport aux activités controversées définies dans les principes du Pacte mondial des Nations unies.

Quelles mesures ont-elles été prises pour réaliser les caractéristiques environnementales et/ou sociales au cours de la période de référence ?

Des indicateurs de durabilité sont mis à disposition de manière continue dans le système de gestion du portefeuille pour permettre aux gestionnaires du portefeuille d'évaluer l'impact de leurs décisions d'investissement.

Ces indicateurs sont intégrés au cadre de contrôle d'AMUNDI, en répartissant les responsabilités entre le premier niveau de contrôles réalisés par les équipes Investissement elles-mêmes, et le second niveau de contrôles réalisé par les équipes Risque, qui surveillent la conformité aux caractéristiques environnementales ou sociales promues en permanence par le fonds.

Quelles ont été les performances de ce produit financier par rapport à l'indice de référence ?

Ce produit ne dispose pas d'un Indice de référence ESG.

● En quoi l'indice de référence diffère-t-il de l'indice de marché large ?

Ce produit ne dispose pas d'un Indice de référence ESG.

● Quelle a été la performance de ce produit financier par rapport aux indicateurs de durabilité pour déterminer l'alignement de l'indice de référence sur les caractéristiques environnementales ou sociales promues ?

Ce produit ne dispose pas d'un Indice de référence ESG.

Un indice de référence est un indice qui sert à mesurer si le produit financier réalise les caractéristiques environnementales et/ou sociales qu'il promeut.

- ***Quelle a été la performance de ce produit financier par rapport à l'indice de référence ?***

Ce produit ne dispose pas d'un Indice de référence ESG.

- ***Quelle a été la performance de ce produit financier par rapport à l'indice de marché large ?***

Ce produit ne dispose pas d'un Indice de référence ESG.

Informations périodiques pour les produits financiers visés à l'Article 8, paragraphes 1, 2 et 2a, du Règlement (UE) 2019/2088 et à l'Article 6, premier paragraphe du Règlement (UE) 2020/852

Dénomination du produit : AMUNDI FUNDS
EUROPEAN EQUITY DYNAMIC MULTI FACTORS

Identifiant d'entité juridique :
5493008YF0WLJMAHCR51

Par investissement durable, on entend un investissement dans une activité économique qui contribue à un objectif environnemental ou social, pour autant qu'il ne cause de préjudice important à aucun de ces objectifs et que les sociétés détenues respectent les pratiques de bonne gouvernance.

La Taxinomie de l'UE est un système de classification institué par le Règlement (UE) 2020/852, qui dresse une liste d'**activités économiques durables sur le plan environnemental**. Ce règlement ne comprend pas de liste d'activités économiques durables sur le plan social. Les investissements durables ayant un objectif environnemental ne sont pas nécessairement alignés sur la taxinomie.

Caractéristiques environnementales et/ou sociales

Le produit financier avait-il un objectif d'investissement durable ?

☒ ☐ ☐ **Oui** ☒ ☐ ☒ **Non**

☐ Il a réalisé des investissements durables ayant un objectif environnemental : _____ ☐ dans des activités économiques qui sont considérées comme durables sur le plan environnemental au titre de la Taxinomie de l'UE ☐ dans des activités économiques qui ne sont pas considérées comme durables sur le plan environnemental au titre de la Taxinomie de l'UE ☐ Il a réalisé des investissements durables ayant un objectif social : _____	☒ Il a promu des caractéristiques environnementales/sociales (E/S) et, bien qu'il n'ait pas eu pour objectif l'investissement durable, il contenait une proportion d'investissements durables de 66.51% ☐ ayant un objectif environnemental dans des activités économiques qui sont considérées comme durables sur le plan environnemental au titre de la Taxinomie de l'UE ☒ ayant un objectif environnemental dans des activités économiques qui ne sont pas considérées comme durables sur le plan environnemental au titre de la Taxinomie de l'UE ☐ ayant un objectif social ☐ Il a promu des caractéristiques E/S, mais n'a pas réalisé d'investissements durables
---	---

Dans quelle mesure les caractéristiques environnementales et/ou sociales promues par ce produit financier ont-elles été réalisées ?

Au cours de l'exercice financier, le produit n'a cessé de promouvoir les caractéristiques environnementales et/ou sociales en cherchant à atteindre une note ESG supérieure à celle de son univers d'investissement **MSCI Europe Index**. Pour déterminer la note ESG du Produit et de l'univers d'investissement ESG, la performance ESG a été évaluée de manière continue en comparant la performance moyenne d'un titre par rapport au secteur de l'émetteur du titre, pour chacune des trois caractéristiques, à savoir environnementale, sociale et de gouvernance.

L'univers d'investissement est un univers de marché large qui n'évalue ni n'inclut pas de composantes en fonction de caractéristiques environnementales et/ou sociales, et qui n'a par conséquent pas pour vocation d'être conforme aux caractéristiques promues par le fonds. Aucun indice de référence ESG n'a été désigné.

Les indicateurs de durabilité évaluent la mesure dans laquelle les caractéristiques environnementales ou sociales promues par le produit financier sont atteintes.

● **Quelle performance ont affiché les indicateurs de durabilité ?**

Amundi a développé son propre processus de notation ESG interne, qui suit une approche « Best-in-class ». Les notations adaptées à chaque secteur d'activité ont pour objectif d'évaluer la dynamique dans laquelle interviennent les entreprises.

L'indicateur de durabilité employé est la note ESG du Produit mesurée en comparaison avec la note ESG de l'univers d'investissement ESG du Produit.

À la fin de la période :

- La note ESG moyenne pondérée du portefeuille est **0.91 (C)**.
- La note ESG moyenne pondérée de l'univers d'investissement ESG est **0.798 (C)**.

La notation ESG Amundi utilisée pour déterminer la note ESG est une note ESG quantitative qui se décline en sept niveaux allant de A (les meilleures notes de l'univers) à G (les pires notes). Sur l'échelle de notation ESG d'Amundi, les titres figurant sur la liste d'exclusion correspondent à G. Pour les entreprises émettrices, la performance ESG est évaluée de manière globale et au niveau des critères pertinents par comparaison avec la performance moyenne du secteur, en combinant les trois dimensions ESG :

- Dimension environnementale : cette dimension examine la capacité des émetteurs à contrôler leur impact environnemental direct et indirect, en limitant leur consommation d'énergie, en réduisant leurs émissions de gaz à effet de serre, en luttant contre l'appauvrissement des ressources et en protégeant la biodiversité.
- Dimension sociale : cette dimension évalue le fonctionnement d'un émetteur dans deux domaines différents, à savoir sa stratégie de développement du capital humain et le respect des droits humains en général.
- Dimension de gouvernance : cette dimension évalue la capacité de l'émetteur à garantir les fondements d'un cadre de gouvernance d'entreprise efficace et à générer de la valeur sur le long terme.

La méthodologie appliquée par la notation ESG d'Amundi utilise 38 critères qui sont soit génériques (communs à toutes les entreprises, indépendamment de leur activité) soit spécifiques au secteur, et qui sont pondérés en fonction du secteur et considérés en termes d'impact sur la réputation, l'efficacité opérationnelle et les réglementations concernant un émetteur. Les notations ESG d'Amundi sont susceptibles d'être exprimées de manière globale pour les trois dimensions E, S et G, ou individuellement pour tout facteur environnemental ou social.

● **... et par rapport aux périodes précédentes ?**

À la fin de la période précédente :

- La note ESG moyenne pondérée du portefeuille était de **1.04 (C)**.
- La note ESG moyenne pondérée de l'univers d'investissement ESG était de **0.80 (C)**.

● **Quels étaient les objectifs des investissements durables que le produit financier entendait partiellement réaliser, et comment l'investissement durable a-t-il contribué à ces objectifs ?**

Les objectifs des investissements durables sont d'investir dans des sociétés détenues qui cherchent à respecter deux critères :

1. suivre les bonnes pratiques environnementales et sociales ; et
2. éviter de fabriquer des produits ou de fournir des services qui nuisent à l'environnement et à la société.

Pour que la société bénéficiaire d'investissements soit réputée contribuer à l'objectif susmentionné, elle doit figurer parmi les « meilleures performances » de son secteur d'activité pour au moins l'un de ses facteurs environnementaux ou sociaux importants.

La définition de « meilleures performances » repose sur la méthode ESG exclusive d'Amundi, dont l'objectif est de mesurer la performance ESG d'une société bénéficiaire d'investissements. Pour être considérée comme l'une des « meilleures performances », une société bénéficiaire d'investissements doit afficher l'une des trois premières notes (A, B ou C, sur une échelle de notation allant de A à G) dans son secteur pour au moins un facteur environnemental ou social important. Les facteurs environnementaux et sociaux sont identifiés à l'échelle des secteurs. L'identification des facteurs importants est basée sur le cadre d'analyse ESG d'Amundi qui combine des données extra-financières et une analyse qualitative du secteur associé et des questions de durabilité. Les facteurs identifiés

comme importants représentent plus de 10 % de la note ESG globale. Par exemple pour le secteur de l'énergie, les facteurs importants sont les suivants : émissions et énergie, biodiversité et pollution, santé et sécurité, communautés locales et droits humains. Pour un aperçu plus complet des secteurs et des facteurs, veuillez consulter la Déclaration réglementaire ESG d'Amundi disponible sur www.amundi.lu

Pour contribuer aux objectifs ci-dessus, la société bénéficiaire d'investissements ne doit pas avoir d'exposition significative aux activités (par ex. tabac, armes, jeux de hasard, charbon, aviation, production de viande, fabrication d'engrais et de pesticides, production de plastique à usage unique) incompatibles avec ces critères.

Le caractère durable d'un investissement est évalué au niveau de la société bénéficiaire d'investissements.

Les principales incidences négatives correspondent aux incidences négatives les plus significatives des décisions d'investissement sur les facteurs de durabilité liés aux questions environnementales, sociales et de personnel, au respect des droits humains et à la lutte contre la corruption et les actes de corruption.

● ***Dans quelle mesure les investissements durables que le produit financier a partiellement réalisés n'ont-ils pas causé de préjudice important à un objectif d'investissement durable sur le plan environnemental ou social ?***

Pour s'assurer que les investissements durables ne causent pas de préjudice important (principe « Do no significant harm » ou « DNSH » en anglais), Amundi utilise deux filtres :

Le premier filtre de DNSH repose sur le contrôle des indicateurs obligatoires des Principales incidences négatives de l'Annexe 1, Tableau 1 des normes techniques réglementaires (RTS) lorsqu'il existe des données fiables (par ex. Intensité des GES des sociétés bénéficiaire des investissements) via une combinaison d'indicateurs (par ex. intensité carbone) et des seuils ou règles spécifiques (par ex. que l'intensité carbone de la société bénéficiaire des investissements n'appartient pas au dernier décile du secteur).

Dans sa politique d'exclusion qui fait partie intégrante de sa Politique d'investissement responsable, Amundi tient d'ores et déjà compte de Principales incidences négatives spécifiques. Ces exclusions, qui s'appliquent en sus des tests détaillés ci-dessus, couvrent les sujets suivants : exclusions sur les armes controversées, les violations des principes du Pacte mondial des Nations Unies, le charbon et le tabac.

Au-delà des facteurs de durabilité spécifiques couverts par le premier filtre, Amundi a défini un second filtre, qui ne tient pas compte des indicateurs obligatoires des Principales incidences négatives ci-dessus, afin de vérifier que la société n'affiche pas de mauvaises performances d'un point de vue environnemental ou social global par rapport aux autres entreprises de son secteur, ce qui correspond à un score environnemental ou social supérieur ou égal à E selon la notation ESG d'Amundi.

- ***Comment les indicateurs concernant les incidences négatives sur les facteurs de durabilité ont-ils été pris en considération ?***

Les indicateurs d'incidences négatives ont été pris en compte comme détaillé dans le premier filtre DNSH ci-dessus.

Le premier filtre DNSH repose sur le contrôle des indicateurs obligatoires des Principales incidences négatives de l'Annexe 1, Tableau 1 du Règlement délégué (UE) 2022/1288 lorsqu'il existe des données fiables via la combinaison des indicateurs suivants et de seuils ou règles spécifiques :

- une intensité en CO2 qui n'appartient pas au dernier décile par rapport aux autres entreprises du secteur (ne s'applique qu'aux secteurs à forte intensité) ;
- un Conseil d'administration dont le niveau de diversité n'appartient pas au dernier décile par rapport aux autres sociétés du secteur ;
- ne pas faire l'objet de controverse relative aux conditions de travail et aux droits humains ; et
- ne pas faire l'objet de controverse relative à la biodiversité et à la pollution.

Dans sa politique d'exclusion qui fait partie intégrante de sa Politique d'investissement responsable, Amundi tient d'ores et déjà compte de Principales incidences négatives spécifiques. Ces exclusions, qui s'appliquent en sus des tests détaillés ci-dessus, couvrent les sujets suivants : exclusions sur les armes controversées, les violations des principes du Pacte mondial des Nations Unies, le charbon et le tabac.

- ***Les investissements durables étaient-ils conformes aux Principes directeurs de l'OCDE à l'intention des entreprises multinationales et aux Principes directeurs des Nations unies relatifs aux entreprises et aux droits humains ? Description détaillée :***

Oui, les Principes directeurs de l'OCDE à l'intention des entreprises multinationales et les Principes directeurs des Nations unies relatifs aux entreprises et aux droits humains sont intégrés à notre méthode de notation ESG. Notre outil de notation ESG exclusif évalue les émetteurs à l'aide des données disponibles auprès de nos fournisseurs de données. Par exemple, le modèle dispose d'un critère dédié appelé « Implication dans la communauté et droits humains » qui s'applique à tous les secteurs en plus d'autres critères liés aux droits humains, y compris les chaînes d'approvisionnement socialement responsables, les conditions de travail et les relations de travail. En outre, nous effectuons un contrôle des controverses au moins une fois par trimestre, y compris sur les entreprises identifiées pour des violations des droits humains. En cas de controverse, les analystes évaluent la situation, lui donnent une note (à l'aide de notre méthode de notation exclusive) et déterminent la marche à suivre. Les notes de controverse sont mises à jour chaque trimestre pour suivre les tendances et les efforts de correction.

La Taxinomie de l'UE définit un principe consistant à « ne pas causer de préjudice important » (« Do not significant harm » ou DNSH) en vertu duquel les investissements alignés sur la Taxinomie ne doivent pas causer de préjudice important aux objectifs de la Taxinomie de l'UE et s'accompagnent de critères de l'UE spécifiques.

Le principe consistant à « ne pas causer de préjudice important » ne s'applique qu'aux investissements sous-jacents du produit financier qui tiennent compte des critères de l'UE pour les activités économiques durables sur le plan environnemental. Les investissements sous-jacents de la portion restante de ce produit financier ne tiennent pas compte des critères de l'UE en matière d'activités économiques durables sur le plan environnemental.

Tout autre investissement durable doit également se conformer au principe consistant à ne pas causer de préjudice important aux objectifs environnementaux ou sociaux.

Dans quelle mesure ce produit financier a-t-il pris en considération les principales incidences négatives sur les facteurs de durabilité ?

Le produit tient compte de toutes les Principales incidences négatives obligatoires en vertu de l'Annexe 1, Tableau 1 du Règlement délégué (UE) 2022/1288 applicables à la stratégie du produit et s'appuie sur une combinaison de politiques d'exclusion (normatives et sectorielles) et d'approches d'engagement et de vote :

- Exclusion : Amundi a défini des règles d'exclusion normatives, basées sur l'activité et les secteurs, qui couvrent certains des principaux indicateurs négatifs de durabilité énumérés par le Règlement Disclosure (sur la publication d'informations).
- Engagement : L'engagement est un processus continu et ciblé qui vise à influencer les activités ou le comportement des sociétés bénéficiaires des investissements. L'objectif des activités d'engagement peut se diviser en deux catégories : impliquer un émetteur pour améliorer la manière dont il intègre la dimension environnementale et sociale ou impliquer un émetteur pour améliorer son impact sur les questions environnementales, sociales et liées aux droits humains ou d'autres questions de durabilité qui sont importantes pour la société au sens large et l'économie mondiale.
- Vote : La politique de vote d'Amundi répond à une analyse globale de toutes les questions à long terme qui peuvent influencer la création de valeur, y compris les questions ESG importantes. pour plus d'informations, veuillez consulter la Politique de vote d'Amundi.
- Surveillance des controverses : Amundi a développé un système de suivi des controverses qui s'appuie sur trois fournisseurs de données externes pour suivre systématiquement l'évolution des controverses et leur niveau de gravité. Cette approche quantitative est ensuite enrichie d'une évaluation approfondie de chaque controverse grave, menée par des analystes ESG, puis d'un examen périodique de son évolution. Cette approche s'applique à tous les fonds d'Amundi.

Quels étaient les principaux investissements de ce produit financier ?

La liste inclut les investissements qui constituent **la proportion la plus importante d'investissements** du produit financier au cours de la période de référence, à savoir : **du 01/07/2022 au 30/06/2023**

Principaux investissements	Secteur	Sous-secteur	Pays	% des actifs
NOVO NORDISK A/S-B	Santé	Pharmacie, biotechnologie et sciences de la vie	Danemark	4.48%
ASML HOLDING NV	Technologies de l'information	Semi-conducteurs et équipement pour semi-conducteurs	Pays-Bas	3.11%
SAP SE / XETRA	Technologies de l'information	Logiciels et services	Allemagne	2.52%
SHELL PLC	Énergie	Pétrole, gaz et combustibles	Royaume-Uni	2.48%
ROCHE HLDG AG-GENUSS	Santé	Pharmacie, biotechnologie et sciences de la vie	Suisse	2.36%
NESTLE SA-REG	Biens de consommation de base	Alimentation, boissons et tabac	Suisse	2.21%
ASTRAZENECA GBP	Santé	Pharmacie, biotechnologie et sciences de la vie	Royaume-Uni	1.98%
NOVARTIS AG- REG	Santé	Pharmacie, biotechnologie et sciences de la vie	Suisse	1.84%
L OREAL (PARIS)	Biens de consommation de base	Produits ménagers et personnels	France	1.62%
GSK PLC	Santé	Pharmacie, biotechnologie et sciences de la vie	Royaume-Uni	1.42%
LVMH MOET HENNESSY LOUIS VUI	Consommation discrétionnaire	Biens de consommation durables et habillement	France	1.39%
RELX PLC	Industrie	Services commerciaux et professionnels	Royaume-Uni	1.29%
HSBC HOLDING PLC GBP	Obligations financières	Banques	Royaume-Uni	1.26%
DEUTSCHE TELEKOM NAM (XETRA)	Services de communication	Télécommunications	Allemagne	1.25%
BP PLC	Énergie	Pétrole, gaz et combustibles	Royaume-Uni	1.24%

Quelle était la proportion d'investissements liés à la durabilité ?

● Quelle était l'allocation d'actifs ?

L'allocation d'actifs décrit la part des investissements dans des actifs spécifiques.

La catégorie **N° 1 Alignés sur les caractéristiques E/S** inclut les investissements du produit financier utilisés pour atteindre les caractéristiques environnementales ou sociales promues par le produit financier.

La catégorie **N° 2 Autres** inclut les investissements restants du produit financier qui ne sont ni alignés sur les caractéristiques environnementales ou sociales ni considérés comme investissements durables.

La catégorie **N° 1 Alignés sur les caractéristiques E/S** comprend :

- la sous-catégorie **N° 1A Durables** couvrant les investissements durables sur le plan environnemental et social ;
- la sous-catégorie **N° 1B Autres caractéristiques E/S** couvrant les investissements alignés sur les caractéristiques environnementales ou sociales qui ne sont pas considérés comme des investissements durables.

● Dans quels secteurs économiques ont été réalisés les investissements ?

Secteur	Sous-secteur	% des actifs
Santé	Pharmacie, biotechnologie et sciences de la vie	15.01%
Industrie	Biens d'équipement	12.03%
Obligations financières	Banques	7.80%
Obligations financières	Assurance	6.33%

<i>Technologies de l'information</i>	<i>Semi-conducteurs et équipement pour semi-conducteurs</i>	5.97%
<i>Biens de consommation de base</i>	<i>Alimentation, boissons et tabac</i>	5.86%

Aux fins d'observer la taxinomie de l'UE, les critères relatifs au **gaz fossile** incluent des limites aux émissions et le passage à une énergie entièrement renouvelable ou à des combustibles à faible teneur en carbone d'ici fin 2035. Pour **l'énergie nucléaire**, les critères incluent des règles exhaustives de sécurité et de gestion des déchets.

Dans quelle mesure les investissements durables ayant un objectif environnemental étaient-ils alignés sur la Taxinomie de l'UE ?

Le fonds promeut des caractéristiques tant environnementales que sociales. Si le fonds ne s'est pas engagé à réaliser des investissements alignés sur la Taxinomie de l'UE, au cours de la période sous revue, il a cependant investi 1.08% dans des investissements durables alignés sur la Taxinomie de l'UE. De tels investissements ont contribué aux objectifs d'atténuation du changement climatique de la taxinomie de l'UE.

L'alignement des sociétés bénéficiaires des investissements sur les objectifs de la Taxinomie de l'UE susmentionnés est évalué à l'aide du chiffre d'affaires (ou des revenus) et/ou des données d'utilisation des produits des obligations vertes.

Le pourcentage communiqué d'alignement des investissements du fonds sur la Taxinomie de l'UE n'a pas été audité par le réviseur d'entreprises agréé du fonds ni par aucun tiers.

Les activités habilitantes permettent directement à d'autres activités de contribuer de manière substantielle à la réalisation d'un objectif environnemental.

Les activités transitoires sont des activités pour lesquelles il n'existe pas encore de solution de remplacement sobre en carbone et, entre autres, dont les niveaux d'émission de gaz à effet de serre correspondent aux meilleures performances réalisables.

Les activités alignées sur la taxinomie sont exprimées en pourcentage :

- **du chiffre d'affaires** pour refléter la part des revenus provenant des activités vertes des sociétés bénéficiaires d'investissements ;
- **des dépenses d'investissement (CapEx)** pour montrer les investissements verts réalisés par les sociétés bénéficiaires d'investissements, pour une transition vers une économie verte, par exemple ; et
- **des dépenses d'exploitation (OpEx)** pour refléter les activités opérationnelles vertes des sociétés bénéficiaires d'investissements.

- **Le produit financier a-t-il investi dans des activités liées au gaz fossile et/ou à l'énergie nucléaire qui sont conformes à la taxinomie de l'UE¹ ?**

☐ Oui :

☐

Dans le gaz fossile

☐

Dans l'énergie nucléaire

☒ Non

Aucune donnée fiable concernant l'alignement sur les activités de gaz fossile et d'énergie nucléaire conformes à la Taxinomie de l'UE n'était disponible sur la période.

¹Les activités liées au gaz fossile et/ou à l'énergie nucléaire ne seront conformes à la Taxinomie de l'UE que si elles contribuent à limiter le changement climatique (« atténuation du changement climatique ») et ne causent pas de préjudice important à tout objectif de la Taxinomie de l'UE. L'intégralité des critères relatifs aux activités économiques liées au gaz fossile et à l'énergie nucléaire conformes à la Taxinomie de l'UE sont définis dans le Règlement délégué (UE) 2022/1214 de la Commission.

Les graphiques ci-dessous font apparaître en vert le pourcentage d'investissements alignés sur la Taxinomie de l'UE. Étant donné qu'il n'existe pas de méthodologie appropriée pour déterminer l'alignement des obligations souveraines* sur la taxinomie, le premier graphique montre l'alignement sur la Taxinomie par rapport à tous les investissements du produit financier, y compris les obligations souveraines, tandis que le deuxième graphique représente l'alignement sur la Taxinomie uniquement par rapport aux investissements du produit financier autres que les obligations souveraines.

* Aux fins de ces graphiques, les « obligations souveraines » comprennent toutes les expositions souveraines

- **Quelle était la part des investissements réalisés dans des activités transitoires et habilitantes ?**

Au 30/06/2024, en utilisant le chiffre d'affaires et/ou les données d'utilisation des produits des obligations vertes comme indicateur, la part d'investissements du fonds dans les activités transitoires était de 0.06% et la part d'investissements dans les activités habilitantes était de 1.32%. Le pourcentage communiqué d'alignement des investissements du fonds sur la Taxinomie de l'UE n'a pas été audité par le réviseur d'entreprises agréé du fonds ni par aucun tiers.

- **Où se situe le pourcentage d'investissements alignés sur la taxinomie de l'UE par rapport aux périodes de référence précédentes ?**

À la fin de la période précédente, le pourcentage d'investissements alignés sur la taxinomie était de 4.70%.

Quelle était la part des investissements durables ayant un objectif environnemental qui n'étaient pas alignés sur la Taxinomie de l'UE ?

La part des investissements durables ayant un objectif environnemental et non alignés sur la taxinomie était de **50.99%** à la fin de la période.

Cela tient du fait que certains émetteurs sont considérés comme investissements durables en vertu du Règlement SFDR mais qu'une portion de leurs activités n'est pas alignée sur les standards de la taxinomie de l'UE, ou que les données correspondantes ne sont pas encore disponibles en vue d'une évaluation relative à la taxinomie de l'UE.

Quelle était la part d'investissements durables sur le plan social ?

La proportion des investissements durables sur le plan social était de 14.43% à la fin de la période.

Quels investissements étaient inclus dans la catégorie « Autres », quelle était leur finalité et existait-il des garanties environnementales ou sociales minimales ?

Sont inclus dans la catégorie « N° 2 Autres » les liquidités et autres instruments détenus aux fins de gestion de la liquidité et des risques du portefeuille. Pour les obligations et actions non notées, des garanties environnementales et sociales minimales ont été mises en place par le biais d'un filtrage des émetteurs en rapport aux activités controversées définies dans les principes du Pacte mondial des Nations unies.

Quelles mesures ont-elles été prises pour réaliser les caractéristiques environnementales et/ou sociales au cours de la période de référence ?

Des indicateurs de durabilité sont mis à disposition de manière continue dans le système de gestion du portefeuille pour permettre aux gestionnaires du portefeuille d'évaluer l'impact de leurs décisions d'investissement.

Ces indicateurs sont intégrés au cadre de contrôle d'AMUNDI, en répartissant les responsabilités entre le premier niveau de contrôles réalisés par les équipes Investissement elles-mêmes, et le second niveau de contrôles réalisé par les équipes Risque, qui surveillent la conformité aux caractéristiques environnementales ou sociales promues en permanence par le fonds.

Quelles ont été les performances de ce produit financier par rapport à l'indice de référence ?

Ce produit ne dispose pas d'un Indice de référence ESG.

- **En quoi l'indice de référence diffère-t-il de l'indice de marché large ?**

Ce produit ne dispose pas d'un Indice de référence ESG.

- **Quelles ont été les performances de ce produit financier par rapport aux indicateurs de durabilité pour déterminer l'alignement de l'indice de référence sur les caractéristiques environnementales ou sociales promues ?**

Ce produit ne dispose pas d'un Indice de référence ESG.

sont des investissements durables ayant un objectif environnemental **qui ne tiennent pas compte des critères** en matière d'activités économiques durables sur le plan environnemental visés par le Règlement (UE) 2020/852.

Un indice de référence est un indice qui sert à mesurer si le produit financier réalise les caractéristiques environnementales et/ou sociales qu'il promeut.

- ***Quelles ont été les performances de ce produit financier par rapport à l'indice de référence ?***

Ce produit ne dispose pas d'un Indice de référence ESG.

- ***Quelles ont été les performances de ce produit financier par rapport à l'indice de marché large ?***

Ce produit ne dispose pas d'un Indice de référence ESG.

Informations périodiques pour les produits financiers visés à l’Article 8, paragraphes 1, 2 et 2a, du Règlement (UE) 2019/2088 et à l’Article 6, premier paragraphe du Règlement (UE) 2020/852

Dénomination du produit : AMUNDI FUNDS
EUROPEAN EQUITY RISK PARITY

Identifiant d’entité juridique :
549300LGU40UNY8NUK95

Par investissement durable, on entend un investissement dans une activité économique qui contribue à un objectif environnemental ou social, pour autant qu’il ne cause de préjudice important à aucun de ces objectifs et que les sociétés détenues respectent les pratiques de bonne gouvernance.

La Taxinomie de l’UE est un système de classification institué par le Règlement (UE) 2020/852, qui dresse une liste d’activités économiques durables sur le plan environnemental. Ce règlement ne comprend pas de liste d’activités économiques durables sur le plan social. Les investissements durables ayant un objectif environnemental ne sont pas nécessairement alignés sur la taxinomie.

Caractéristiques environnementales et/ou sociales

Ce compartiment a été liquidé le 7 juin 2024 et ce rapport est basé sur la composition du portefeuille à la date précédant celle du lancement du processus de liquidation, le 23 mai 2024.

Le produit financier avait-il un objectif d’investissement durable ?

☒ ☐	Oui	☒ ☐ X	Non
☐	Il a réalisé des investissements durables ayant un objectif environnemental : _____	☒ X	Il a promu des caractéristiques environnementales/sociales (E/S) et, bien qu’il n’ait pas eu pour objectif l’investissement durable, il contenait une proportion d’investissements durables de 62.8%
☐	☐ dans des activités économiques qui sont considérées comme durables sur le plan environnemental au titre de la Taxinomie de l’UE	☐	☐ ayant un objectif environnemental dans des activités économiques qui sont considérées comme durables sur le plan environnemental au titre de la Taxinomie de l’UE
☐	☐ dans des activités économiques qui ne sont pas considérées comme durables sur le plan environnemental au titre de la Taxinomie de l’UE	☒ X	☒ ayant un objectif environnemental dans des activités économiques qui ne sont pas considérées comme durables sur le plan environnemental au titre de la Taxinomie de l’UE
☐	☐ ayant un objectif social	☐	☐ ayant un objectif social
☐	Il a réalisé des investissements durables ayant un objectif social : _____	☐	Il a promu des caractéristiques E/S, mais n’a pas réalisé d’investissements durables

Dans quelle mesure les caractéristiques environnementales et/ou sociales promues par ce produit financier ont-elles été réalisées ?

Au cours de l’exercice financier, le produit n’a cessé de promouvoir les caractéristiques environnementales et/ou sociales en cherchant à atteindre une note ESG supérieure à celle de son univers d’investissement **MSCI Europe Index**. Pour déterminer la note ESG du Produit et de l’univers d’investissement ESG, la performance ESG a été évaluée de manière continue en comparant la performance moyenne d’un titre par rapport au secteur de l’émetteur du titre, pour chacune des trois caractéristiques, à savoir environnementale, sociale et de gouvernance.

L’univers d’investissement est un univers de marché large qui n’évalue ni n’inclut pas de composantes en fonction de caractéristiques environnementales et/ou sociales, et qui n’a par conséquent pas pour vocation d’être conforme aux caractéristiques promues par le fonds. Aucun indice de référence ESG n’a été désigné.

Les indicateurs de durabilité évaluent la mesure dans laquelle les caractéristiques environnementales ou sociales promues par le produit financier sont atteintes.

● *Quelle performance ont affiché les indicateurs de durabilité ?*

Amundi a développé son propre processus de notation ESG interne, qui suit une approche « Best-in-class ». Les notations adaptées à chaque secteur d'activité ont pour objectif d'évaluer la dynamique dans laquelle interviennent les entreprises.

L'indicateur de durabilité employé est la note ESG du Produit mesurée en comparaison avec la note ESG de l'univers d'investissement ESG du Produit.

À la fin de la période :

- La note ESG moyenne pondérée du portefeuille est **0.969 (C)**.
- La note ESG moyenne pondérée de l'univers d'investissement ESG est **0.792 (C)**.

La notation ESG Amundi utilisée pour déterminer la note ESG est une note ESG quantitative qui se décline en sept niveaux allant de A (les meilleures notes de l'univers) à G (les pires notes). Sur l'échelle de notation ESG d'Amundi, les titres figurant sur la liste d'exclusion correspondent à G. Pour les entreprises émettrices, la performance ESG est évaluée de manière globale et au niveau des critères pertinents par comparaison avec la performance moyenne du secteur, en combinant les trois dimensions ESG :

- Dimension environnementale : cette dimension examine la capacité des émetteurs à contrôler leur impact environnemental direct et indirect, en limitant leur consommation d'énergie, en réduisant leurs émissions de gaz à effet de serre, en luttant contre l'appauvrissement des ressources et en protégeant la biodiversité.
- Dimension sociale : cette dimension évalue le fonctionnement d'un émetteur dans deux domaines différents, à savoir sa stratégie de développement du capital humain et le respect des droits humains en général.
- Dimension de gouvernance : cette dimension évalue la capacité de l'émetteur à garantir les fondements d'un cadre de gouvernance d'entreprise efficace et à générer de la valeur sur le long terme.

La méthodologie appliquée par la notation ESG d'Amundi utilise 38 critères qui sont soit génériques (communs à toutes les entreprises, indépendamment de leur activité) soit spécifiques au secteur, et qui sont pondérés en fonction du secteur et considérés en termes d'impact sur la réputation, l'efficacité opérationnelle et les réglementations concernant un émetteur. Les notations ESG d'Amundi sont susceptibles d'être exprimées de manière globale pour les trois dimensions E, S et G, ou individuellement pour tout facteur environnemental ou social.

● *... et par rapport aux périodes antérieures ?*

À la fin de la période précédente, la note ESG moyenne pondérée du portefeuille était de **1.10 (C)** et la note ESG moyenne pondérée de l'univers d'investissement ESG était de **0.80 (D)**.

● *Quels étaient les objectifs des investissements durables que le produit financier entendait partiellement réaliser, et comment l'investissement durable a-t-il contribué à ces objectifs ?*

Les objectifs des investissements durables sont d'investir dans des sociétés détenues qui cherchent à respecter deux critères :

1. suivre les bonnes pratiques environnementales et sociales ; et
2. éviter de fabriquer des produits ou de fournir des services qui nuisent à l'environnement et à la société.

Pour que la société bénéficiaire des investissements soit réputée contribuer à l'objectif susmentionné, elle doit figurer parmi les « meilleures performances » de son secteur d'activité pour au moins l'un de ses facteurs environnementaux ou sociaux importants.

La définition de « meilleures performances » repose sur la méthode ESG exclusive d'Amundi, dont l'objectif est de mesurer la performance ESG d'une société bénéficiaire des investissements. Pour être considérée comme l'une des « meilleures performances », une société bénéficiaire des investissements doit afficher l'une des trois premières notes (A, B ou C, sur une échelle de notation allant de A à G) dans son secteur pour au moins un facteur environnemental ou social important. Les facteurs environnementaux et sociaux sont identifiés à l'échelle des secteurs. L'identification des facteurs importants est basée sur le cadre d'analyse ESG d'Amundi qui combine des données extra-financières et une analyse qualitative du secteur associé et des questions de durabilité. Les facteurs identifiés comme importants représentent plus de 10 % de la note ESG globale. Par exemple pour le secteur de

l'énergie, les facteurs importants sont les suivants : émissions et énergie, biodiversité et pollution, santé et sécurité, communautés locales et droits humains. Pour un aperçu plus complet des secteurs et des facteurs, veuillez consulter la Déclaration réglementaire ESG d'Amundi disponible sur www.amundi.lu

Pour contribuer aux objectifs ci-dessus, la société bénéficiaire des investissements ne doit pas avoir d'exposition significative aux activités (par ex. tabac, armes, jeux de hasard, charbon, aviation, production de viande, fabrication d'engrais et de pesticides, production de plastique à usage unique) incompatibles avec ces critères.

Le caractère durable d'un investissement est évalué au niveau de la société bénéficiaire des investissements.

Les principales incidences négatives correspondent aux incidences négatives les plus significatives des décisions d'investissement sur les facteurs de durabilité liés aux questions environnementales, sociales et de personnel, au respect des droits humains et à la lutte contre la corruption et les actes de corruption.

● ***Dans quelle mesure les investissements durables que le produit financier a partiellement réalisés n'ont-ils pas causé de préjudice important à un objectif d'investissement durable sur le plan environnemental ou social ?***

Pour s'assurer que les investissements durables ne causent pas de préjudice important (principe « Do no significant harm » ou « DNSH » en anglais), Amundi utilise deux filtres :

Le premier filtre de DNSH repose sur le contrôle des indicateurs obligatoires des Principales incidences négatives de l'Annexe 1, Tableau 1 des normes techniques réglementaires (RTS) lorsqu'il existe des données fiables (par ex. Intensité des GES des sociétés bénéficiaires des investissements) via une combinaison d'indicateurs (par ex. intensité carbone) et des seuils ou règles spécifiques (par ex. que l'intensité carbone de la société bénéficiaire des investissements n'appartient pas au dernier décile du secteur).

Dans sa politique d'exclusion qui fait partie intégrante de sa Politique d'investissement responsable, Amundi tient d'ores et déjà compte de Principales incidences négatives spécifiques. Ces exclusions, qui s'appliquent en sus des tests détaillés ci-dessus, couvrent les sujets suivants : exclusions sur les armes controversées, les violations des principes du Pacte mondial des Nations Unies, le charbon et le tabac.

Au-delà des facteurs de durabilité spécifiques couverts par le premier filtre, Amundi a défini un second filtre, qui ne tient pas compte des indicateurs obligatoires des Principales incidences négatives ci-dessus, afin de vérifier que la société n'affiche pas de mauvaises performances d'un point de vue environnemental ou social global par rapport aux autres entreprises de son secteur, ce qui correspond à un score environnemental ou social supérieur ou égal à E selon la notation ESG d'Amundi.

- ***Comment les indicateurs concernant les incidences négatives sur les facteurs de durabilité ont-ils été pris en considération ?***

Les indicateurs d'incidences négatives ont été pris en compte comme détaillé dans le premier filtre DNSH ci-dessus.

Le premier filtre DNSH repose sur le contrôle des indicateurs obligatoires des Principales incidences négatives de l'Annexe 1, Tableau 1 du Règlement délégué (UE) 2022/1288 lorsqu'il existe des données fiables via la combinaison des indicateurs suivants et de seuils ou règles spécifiques :

- une intensité en CO2 qui n'appartient pas au dernier décile par rapport aux autres entreprises du secteur (ne s'applique qu'aux secteurs à forte intensité) ;
- un Conseil d'administration dont le niveau de diversité n'appartient pas au dernier décile par rapport aux autres sociétés du secteur ;
- ne pas faire l'objet de controverse relative aux conditions de travail et aux droits humains ; et
- ne pas faire l'objet de controverse relative à la biodiversité et à la pollution.

Dans sa politique d'exclusion qui fait partie intégrante de sa Politique d'investissement responsable, Amundi tient d'ores et déjà compte de Principales incidences négatives spécifiques. Ces exclusions, qui s'appliquent en sus des tests détaillés ci-dessus, couvrent les sujets suivants : exclusions sur les armes controversées, les violations des principes du Pacte mondial des Nations Unies, le charbon et le tabac.

- ***Les investissements durables étaient-ils conformes aux Principes directeurs de l'OCDE à l'intention des entreprises multinationales et aux Principes directeurs des Nations unies relatifs aux entreprises et aux droits humains ? Description détaillée :***

Oui, les Principes directeurs de l'OCDE à l'intention des entreprises multinationales et les Principes directeurs des Nations unies relatifs aux entreprises et aux droits humains sont intégrés à notre méthode de notation ESG. Notre outil de notation ESG exclusif évalue les

émetteurs à l'aide des données disponibles auprès de nos fournisseurs de données. Par exemple, le modèle dispose d'un critère dédié appelé « Implication dans la communauté et droits humains » qui s'applique à tous les secteurs en plus d'autres critères liés aux droits humains, y compris les chaînes d'approvisionnement socialement responsables, les conditions de travail et les relations de travail. En outre, nous effectuons un contrôle des controverses au moins une fois par trimestre, y compris sur les entreprises identifiées pour des violations des droits humains. En cas de controverse, les analystes évaluent la situation, lui donnent une note (à l'aide de notre méthode de notation exclusive) et déterminent la marche à suivre. Les notes de controverse sont mises à jour chaque trimestre pour suivre les tendances et les efforts de correction.

La Taxinomie de l'UE définit un principe consistant à « ne pas causer de préjudice important » (« Do not significant harm » ou DNSH) en vertu duquel les investissements alignés sur la Taxinomie ne doivent pas causer de préjudice important aux objectifs de la Taxinomie de l'UE et s'accompagnent de critères de l'UE spécifiques.

Le principe consistant à « ne pas causer de préjudice important » ne s'applique qu'aux investissements sous-jacents du produit financier qui tiennent compte des critères de l'UE pour les activités économiques durables sur le plan environnemental. Les investissements sous-jacents de la portion restante de ce produit financier ne tiennent pas compte des critères de l'UE en matière d'activités économiques durables sur le plan environnemental.

Tout autre investissement durable doit également se conformer au principe consistant à ne pas causer de préjudice important aux objectifs environnementaux ou sociaux.

Dans quelle mesure ce produit financier a-t-il pris en considération les principales incidences négatives sur les facteurs de durabilité ?

Le produit tient compte de toutes les Principales incidences négatives obligatoires en vertu de l'Annexe 1, Tableau 1 du Règlement délégué (UE) 2022/1288 applicables à la stratégie du produit et s'appuie sur une combinaison de politiques d'exclusion (normatives et sectorielles) et d'approches d'engagement et de vote :

- Exclusion : Amundi a défini des règles d'exclusion normatives, basées sur l'activité et les secteurs, qui couvrent certains des principaux indicateurs négatifs de durabilité énumérés par le Règlement Disclosure (sur la publication d'informations).
- Engagement : L'engagement est un processus continu et ciblé qui vise à influencer les activités ou le comportement des sociétés bénéficiaires des investissements. L'objectif des activités d'engagement peut se diviser en deux catégories : impliquer un émetteur pour améliorer la manière dont il intègre la dimension environnementale et sociale ou impliquer un émetteur pour améliorer son impact sur les questions environnementales, sociales et liées aux droits humains ou d'autres questions de durabilité qui sont importantes pour la société au sens large et l'économie mondiale.
- Vote : La politique de vote d'Amundi répond à une analyse globale de toutes les questions à long terme qui peuvent influencer la création de valeur, y compris les questions ESG importantes. pour plus d'informations, veuillez consulter la Politique de vote d'Amundi.
- Surveillance des controverses : Amundi a développé un système de suivi des controverses qui s'appuie sur trois fournisseurs de données externes pour suivre systématiquement l'évolution des controverses et leur niveau de gravité. Cette approche quantitative est ensuite enrichie d'une évaluation approfondie de chaque controverse grave, menée par des analystes ESG, puis d'un examen périodique de son évolution. Cette approche s'applique à tous les fonds d'Amundi.

Quels étaient les principaux investissements de ce produit financier ?

La liste inclut les investissements qui constituent la proportion la plus importante d'investissements du produit financier au cours de la période de référence, à savoir : du 01/07/2023 au 30/06/2024

Principaux investissements	Secteur	Sous-secteur	Pays	% des actifs
ENI SPA MILAN	Énergie	Pétrole, gaz et combustibles	Italie	1.06%
TOTALENERGIES SE PARIS	Énergie	Pétrole, gaz et combustibles	France	1.05%
OMV AG	Énergie	Pétrole, gaz et combustibles	Autriche	0.95%
REPSOL SA	Énergie	Pétrole, gaz et combustibles	Espagne	0.95%
SHELL PLC	Énergie	Pétrole, gaz et combustibles	Royaume-Uni	0.90%
EQUINOR ASA	Énergie	Pétrole, gaz et combustibles	Norvège	0.87%
GALP ENERGIA -B	Énergie	Pétrole, gaz et combustibles	Portugal	0.82%
KONINKLIJKE KPN NV	Services de communication	Services de télécommunication	Pays-Bas	0.75%
DEUTSCHE TELEKOM NAM (XETRA)	Services de communication	Services de télécommunication	Allemagne	0.74%
SAP SE / XETRA	Technologies de l'information	Logiciels et services	Allemagne	0.73%
AKER BP ASA	Énergie	Pétrole, gaz et combustibles	Norvège	0.72%
ORANGE	Services de communication	Services de télécommunication	France	0.72%
CAPGEMINI SE	Technologies de l'information	Logiciels et services	France	0.67%
ELISA OYJ	Services de communication	Services de télécommunication	Finlande	0.66%
TELEFONICA SA	Services de communication	Services de télécommunication	Espagne	0.64%

Quelle était la proportion d'investissements liés à la durabilité ?

Ce compartiment a été liquidé le 7 juin 2024 et ce rapport est basé sur la composition du portefeuille à la date précédant celle du lancement du processus de liquidation, le 23 mai 2024.

Quelle était l'allocation d'actifs ?

L'allocation d'actifs décrit la part des investissements dans des actifs spécifiques.

La catégorie **N° 1 Alignés sur les caractéristiques E/S** inclut les investissements du produit financier utilisés pour atteindre les caractéristiques environnementales ou sociales promues par le produit financier.

La catégorie **N° 2 Autres** inclut les investissements restants du produit financier qui ne sont ni alignés sur les caractéristiques environnementales ou sociales ni considérés comme investissements durables.

La catégorie **N° 1 Alignés sur les caractéristiques E/S** comprend :

- la sous-catégorie **N° 1A Durables** couvrant les investissements durables sur le plan environnemental et social ;
- la sous-catégorie **N° 1B Autres caractéristiques E/S** couvrant les investissements alignés sur les caractéristiques environnementales ou sociales qui ne sont pas considérés comme des investissements durables.

● Dans quels secteurs économiques ont été réalisés les investissements ?

Secteur	Sous-secteur	% des actifs
Énergie	Pétrole, gaz et combustibles	8.52%
Biens de consommation de base	Alimentation, boissons et tabac	8.39%
Services de communication	Services de télécommunication	7.79%
Santé	Pharmacie, biotechnologie et sciences de la vie	7.29%
Industrie	Biens d'équipement	6.56%
Services aux collectivités	Services aux collectivités – électricité	5.44%

<i>Matériaux</i>	<i>Chimie</i>	<i>4.49%</i>
<i>Services de communication</i>	<i>Médias et loisirs</i>	<i>4.10%</i>

<i>Matériaux</i>	<i>Conteneurs et emballage</i>	<i>0.50%</i>
<i>Énergie</i>	<i>Équipement et services énergétiques</i>	<i>0.47%</i>
<i>Immobilier</i>	<i>Gestion et promotion immobilière</i>	<i>0.33%</i>
<i>Autres</i>	<i>Autres</i>	<i>0.00%</i>
<i>Liquidités</i>	<i>Liquidités</i>	<i>1.64%</i>

Aux fins d'observer la taxinomie de l'UE, les critères relatifs au **gaz fossile** incluent des limites aux émissions et le passage à une énergie entièrement renouvelable ou à des combustibles à faible teneur en carbone d'ici fin 2035. Pour **l'énergie nucléaire**, les critères incluent des règles exhaustives de sécurité et de gestion des déchets.

Les activités habilitantes permettent directement à d'autres activités de contribuer de manière substantielle à la réalisation d'un objectif environnemental.

Les activités transitoires sont des activités pour lesquelles il n'existe pas encore de solution de remplacement sobre en carbone et, entre autres, dont les niveaux d'émission de gaz à effet de serre correspondent aux meilleures performances réalisables.

Les activités alignées sur la taxinomie sont exprimées en pourcentage :

- **du chiffre d'affaires** pour refléter la part des revenus provenant des activités vertes des sociétés bénéficiaires d'investissements ;
- **des dépenses d'investissement (CapEx)** pour montrer les investissements verts réalisés par les sociétés bénéficiaires d'investissements, pour une transition vers une économie verte, par exemple ; et
- **des dépenses d'exploitation (OpEx)** pour refléter les activités opérationnelles vertes des sociétés bénéficiaires d'investissements.

Dans quelle mesure les investissements durables ayant un objectif environnemental étaient-ils alignés sur la Taxinomie de l'UE ?

Le fonds promeut des caractéristiques tant environnementales que sociales. Si le fonds ne s'est pas engagé à réaliser des investissements alignés sur la Taxinomie de l'UE, au cours de la période sous revue, il a cependant investi 3.15% dans des investissements durables alignés sur la Taxinomie de l'UE. De tels investissements ont contribué à l'obligation relative au changement climatique ou aux objectifs de réduction du changement climatique de la Taxinomie de l'UE.

L'alignement des sociétés bénéficiaires des investissements sur les objectifs de la taxinomie de l'UE susmentionnés est évalué à l'aide du chiffre d'affaires (ou des revenus) et/ou des données d'utilisation des produits des obligations vertes.

Le pourcentage communiqué d'alignement des investissements du fonds sur la Taxinomie de l'UE n'a pas été audité par le réviseur d'entreprises agréé du fonds ni par aucun tiers.

● Le produit financier a-t-il investi dans des activités liées au gaz fossile et/ou à l'énergie nucléaire qui sont conformes à la Taxinomie de l'UE¹ ?

☐ Oui :

Dans le gaz fossile

Dans l'énergie nucléaire

☒ Non

Aucune donnée fiable concernant l'alignement sur les activités de gaz fossile et d'énergie nucléaire conformes à la Taxinomie de l'UE n'était disponible sur la période.

¹ Les activités liées au gaz fossile et/ou à l'énergie nucléaire ne seront conformes à la Taxinomie de l'UE que si elles contribuent à limiter le changement climatique (« réduction du changement climatique ») et ne causent pas de préjudice important à tout objectif de la Taxinomie de l'UE. L'intégralité des critères relatifs aux activités économiques liées au gaz fossile et à l'énergie nucléaire conformes à la Taxinomie de l'UE sont définis dans le Règlement délégué (UE) 2022/1214 de la Commission.

Les graphiques ci-dessous font apparaître en vert le pourcentage d'investissements alignés sur la Taxinomie de l'UE. Étant donné qu'il n'existe pas de méthodologie appropriée pour déterminer l'alignement des obligations souveraines* sur la taxinomie, le premier graphique montre l'alignement sur la Taxinomie par rapport à tous les investissements du produit financier, y compris les obligations souveraines, tandis que le deuxième graphique représente l'alignement sur la Taxinomie uniquement par rapport aux investissements du produit financier autres que les obligations souveraines.

* Aux fins de ces graphiques, les « obligations souveraines » comprennent toutes les expositions souveraines

● **Quelle était la part d'investissements dans les activités transitoires et habilitantes ?**

Au 30/06/2024, en utilisant le chiffre d'affaires et/ou les données d'utilisation des produits des obligations vertes comme indicateur, la part d'investissements du fonds dans les activités transitoires était de 0.21% et la part d'investissements dans les activités habilitantes était de 2.96%. Le pourcentage communiqué d'alignement des investissements du fonds sur la Taxinomie de l'UE n'a pas été audité par le réviseur d'entreprises agréé du fonds ni par aucun tiers.

● **Comment se situe le pourcentage d'investissements alignés sur la Taxinomie de l'UE par rapport aux périodes de référence antérieures ?**

À la fin de la période précédente, le pourcentage d'investissements alignés sur la taxinomie était de 7.81%.

 sont des investissements durables ayant un objectif environnemental qui **ne tiennent pas compte des critères** en matière d'activités économiques durables sur le plan environnemental visés par le Règlement (UE) 2020/852.

 Quelle était la part des investissements durables ayant un objectif environnemental qui n'étaient pas alignés sur la Taxinomie de l'UE ?

La part des investissements durables ayant un objectif environnemental et non alignés sur la taxinomie était de **47.38%** à la fin de la période.

Cela tient du fait que certains émetteurs sont considérés comme investissements durables en vertu du Règlement SFDR mais qu'une portion de leurs activités n'est pas alignée sur les standards de la taxinomie de l'UE, ou que les données correspondantes ne sont pas encore disponibles en vue d'une évaluation relative à la taxinomie de l'UE.

 Quelle était la part d'investissements durables sur le plan social ?

La proportion des investissements durables sur le plan social était de 12.28% à la fin de la période.

 Quels investissements étaient inclus dans la catégorie « Autres », quelle était leur finalité et existait-il des garanties environnementales ou sociales minimales ?

Sont inclus dans la catégorie « N° 2 Autres » les liquidités et autres instruments détenus aux fins de gestion de la liquidité et des risques du portefeuille. Pour les obligations et actions non notées, des garanties environnementales et sociales minimales ont été mises en place par le biais d'un filtrage des émetteurs en rapport aux activités controversées définies dans les principes du Pacte mondial des Nations unies.

Quelles mesures ont-elles été prises pour réaliser les caractéristiques environnementales et/ou sociales au cours de la période de référence ?

Des indicateurs de durabilité sont mis à disposition de manière continue dans le système de gestion du portefeuille pour permettre aux gestionnaires du portefeuille d'évaluer l'impact de leurs décisions d'investissement.

Ces indicateurs sont intégrés au cadre de contrôle d'AMUNDI, en répartissant les responsabilités entre le premier niveau de contrôles réalisés par les équipes Investissement elles-mêmes, et le second niveau de contrôles réalisé par les équipes Risque, qui surveillent la conformité aux caractéristiques environnementales ou sociales promues en permanence par le fonds.

Quelles ont été les performances de ce produit financier par rapport à l'indice de référence ?

Un indice de référence est un indice qui sert à mesurer si le produit financier réalise les caractéristiques environnementales et/ou sociales qu'il promeut.

Ce produit ne dispose pas d'un Indice de référence ESG.

- ***En quoi l'indice de référence diffère-t-il de l'indice de marché large ?***

Ce produit ne dispose pas d'un Indice de référence ESG.

- ***Quelles ont été les performances de ce produit financier par rapport aux indicateurs de durabilité pour déterminer l'alignement de l'indice de référence sur les caractéristiques environnementales ou sociales promues ?***

Ce produit ne dispose pas d'un Indice de référence ESG.

- ***Quelle a été la performance de ce produit financier par rapport à l'indice de référence ?***

Ce produit ne dispose pas d'un Indice de référence ESG.

- ***Quelle a été la performance de ce produit financier par rapport à l'indice de marché large ?***

Ce produit ne dispose pas d'un Indice de référence ESG.

Modèle d'informations périodiques pour les produits financiers visés à l'Article 8, paragraphes 1, 2 et 2a, du Règlement (UE) 2019/2088 et à l'Article 6, premier paragraphe du Règlement (UE) 2020/852

Dénomination du produit : AMUNDI FUNDS
GLOBAL EQUITY CONSERVATIVE

Identifiant d'entité juridique :
529900QOYD9Y5ZBAUZ70

Par investissement durable, on entend un investissement dans une activité économique qui contribue à un objectif environnemental ou social, pour autant qu'il ne cause de préjudice important à aucun de ces objectifs et que les sociétés détenues respectent les pratiques de bonne gouvernance.

La **Taxinomie de l'UE** est un système de classification institué par le Règlement (UE) 2020/852, qui dresse une liste d'**activités économiques durables sur le plan environnemental**. Ce règlement ne comprend pas de liste d'activités économiques durables sur le plan social. Les investissements durables ayant un objectif environnemental ne sont pas nécessairement alignés sur la taxinomie.

Caractéristiques environnementales et/ou sociales

Le produit financier avait-il un objectif d'investissement durable ?

Oui

X

Non

Il a réalisé **des investissements durables ayant un objectif environnemental** : _____

dans des activités économiques qui sont considérées comme durables sur le plan environnemental au titre de la Taxinomie de l'UE

dans des activités économiques qui ne sont pas considérées comme durables sur le plan environnemental au titre de la Taxinomie de l'UE

Il a réalisé **des investissements durables ayant un objectif social** : _____

Il a promu des **caractéristiques environnementales/sociales (E/S)** et, bien qu'il n'ait pas eu pour objectif l'investissement durable, il contenait une proportion d'investissements durables de **39.53%**

ayant un objectif environnemental dans des activités économiques qui sont considérées comme durables sur le plan environnemental au titre de la Taxinomie de l'UE

ayant un objectif environnemental dans des activités économiques qui ne sont pas considérées comme durables sur le plan environnemental au titre de la Taxinomie de l'UE

ayant un objectif social

Il a promu des caractéristiques E/S, mais **n'a pas réalisé d'investissements durables**

Dans quelle mesure les caractéristiques environnementales et/ou sociales promues par ce produit financier ont-elles été réalisées ?

Au cours de l'exercice financier, le produit n'a cessé de promouvoir les caractéristiques environnementales et/ou sociales en cherchant à atteindre une note ESG supérieure à celle de son univers d'investissement **MSCI World Index**. Pour déterminer la note ESG du Produit et de l'univers d'investissement ESG, la performance ESG a été évaluée de manière continue en comparant la performance moyenne d'un titre par rapport au secteur de l'émetteur du titre, pour chacune des trois caractéristiques, à savoir environnementale, sociale et de gouvernance.

L'univers d'investissement est un univers de marché large qui n'évalue ni n'inclut pas de composantes en fonction de caractéristiques environnementales et/ou sociales, et qui n'a par conséquent pas pour vocation d'être conforme aux caractéristiques promues par le fonds. Aucun indice de référence ESG n'a été désigné.

Les indicateurs de durabilité

évaluent la mesure dans laquelle les caractéristiques environnementales ou sociales promues par le produit financier sont atteintes.

● **Quelle performance ont affiché les indicateurs de durabilité ?**

Amundi a développé son propre processus de notation ESG interne, qui suit une approche « Best-in-class ». Les notations adaptées à chaque secteur d'activité ont pour objectif d'évaluer la dynamique dans laquelle interviennent les entreprises.

L'indicateur de durabilité employé est la note ESG du Produit mesurée en comparaison avec la note ESG de l'univers d'investissement ESG du Produit.

À la fin de la période :

- La note ESG moyenne pondérée du portefeuille est **0.021 (D)**.
- La note ESG moyenne pondérée de l'univers d'investissement ESG est **-0.179 (D)**.

La notation ESG Amundi utilisée pour déterminer la note ESG est une note ESG quantitative qui se décline en sept niveaux allant de A (les meilleures notes de l'univers) à G (les pires notes). Sur l'échelle de notation ESG d'Amundi, les titres figurant sur la liste d'exclusion correspondent à G. Pour les entreprises émettrices, la performance ESG est évaluée de manière globale et au niveau des critères pertinents par comparaison avec la performance moyenne du secteur, en combinant les trois dimensions ESG :

- Dimension environnementale : cette dimension examine la capacité des émetteurs à contrôler leur impact environnemental direct et indirect, en limitant leur consommation d'énergie, en réduisant leurs émissions de gaz à effet de serre, en luttant contre l'appauvrissement des ressources et en protégeant la biodiversité.
- Dimension sociale : cette dimension évalue le fonctionnement d'un émetteur dans deux domaines différents, à savoir sa stratégie de développement du capital humain et le respect des droits humains en général.
- Dimension de gouvernance : cette dimension évalue la capacité de l'émetteur à garantir les fondements d'un cadre de gouvernance d'entreprise efficace et à générer de la valeur sur le long terme.

La méthodologie appliquée par la notation ESG d'Amundi utilise 38 critères qui sont soit génériques (communs à toutes les entreprises, indépendamment de leur activité) soit spécifiques au secteur, et qui sont pondérés en fonction du secteur et considérés en termes d'impact sur la réputation, l'efficacité opérationnelle et les réglementations concernant un émetteur. Les notations ESG d'Amundi sont susceptibles d'être exprimées de manière globale pour les trois dimensions E, S et G, ou individuellement pour tout facteur environnemental ou social.

● **... et par rapport aux périodes antérieures ?**

À la fin de la période précédente, la note ESG moyenne pondérée du portefeuille était de 0.23 (D) et la note ESG moyenne pondérée de l'univers d'investissement ESG était de -0.12 (D).

● **Quels étaient les objectifs des investissements durables que le produit financier entendait partiellement réaliser, et comment l'investissement durable a-t-il contribué à ces objectifs ?**

Les objectifs des investissements durables sont d'investir dans des sociétés détenues qui cherchent à respecter deux critères :

1. suivre les bonnes pratiques environnementales et sociales ; et
2. éviter de fabriquer des produits ou de fournir des services qui nuisent à l'environnement et à la société.

Pour que la société bénéficiaire des investissements soit réputée contribuer à l'objectif susmentionné, elle doit figurer parmi les « meilleures performances » de son secteur d'activité pour au moins l'un de ses facteurs environnementaux ou sociaux importants.

La définition de « meilleures performances » repose sur la méthode ESG exclusive d'Amundi, dont l'objectif est de mesurer la performance ESG d'une société bénéficiaire des investissements. Pour être considérée comme l'une des « meilleures performances », une société bénéficiaire des investissements doit afficher l'une des trois premières notes (A, B ou C, sur une échelle de notation allant de A à G) dans son secteur pour au moins un facteur environnemental ou social important. Les facteurs environnementaux et sociaux sont identifiés à l'échelle des secteurs. L'identification des facteurs importants est basée sur le cadre d'analyse ESG d'Amundi qui combine des données extra-financières et une analyse qualitative du secteur associé et des questions de durabilité. Les facteurs identifiés comme importants représentent plus de 10 % de la note ESG globale. Par exemple pour le secteur de l'énergie, les facteurs importants

sont les suivants : émissions et énergie, biodiversité et pollution, santé et sécurité, communautés locales et droits humains. Pour un aperçu plus complet des secteurs et des facteurs, veuillez consulter la Déclaration réglementaire ESG d'Amundi disponible sur www.amundi.lu

Pour contribuer aux objectifs ci-dessus, la société bénéficiaire des investissements ne doit pas avoir d'exposition significative aux activités (par ex. tabac, armes, jeux de hasard, charbon, aviation, production de viande, fabrication d'engrais et de pesticides, production de plastique à usage unique) incompatibles avec ces critères.

Le caractère durable d'un investissement est évalué au niveau de la société bénéficiaire des investissements.

Les principales incidences négatives correspondent aux incidences négatives les plus significatives des décisions d'investissement sur les facteurs de durabilité liés aux questions environnementales, sociales et de personnel, au respect des droits humains et à la lutte contre la corruption et les actes de corruption.

● ***Dans quelle mesure les investissements durables que le produit financier a partiellement réalisés n'ont-ils pas causé de préjudice important à un objectif d'investissement durable sur le plan environnemental ou social ?***

Pour s'assurer que les investissements durables ne causent pas de préjudice important (principe « Do no significant harm » ou « DNSH » en anglais), Amundi utilise deux filtres :

Le premier filtre de DNSH repose sur le contrôle des indicateurs obligatoires des Principales incidences négatives de l'Annexe 1, Tableau 1 des normes techniques réglementaires (RTS) lorsqu'il existe des données fiables (par ex. Intensité des GES des sociétés bénéficiaires des investissements) via une combinaison d'indicateurs (par ex. intensité carbone) et des seuils ou règles spécifiques (par ex. que l'intensité carbone de la société bénéficiaire des investissements n'appartient pas au dernier décile du secteur).

Dans sa politique d'exclusion qui fait partie intégrante de sa Politique d'investissement responsable, Amundi tient d'ores et déjà compte de Principales incidences négatives spécifiques. Ces exclusions, qui s'appliquent en sus des tests détaillés ci-dessus, couvrent les sujets suivants : exclusions sur les armes controversées, les violations des principes du Pacte mondial des Nations Unies, le charbon et le tabac.

Au-delà des facteurs de durabilité spécifiques couverts par le premier filtre, Amundi a défini un second filtre, qui ne tient pas compte des indicateurs obligatoires des Principales incidences négatives ci-dessus, afin de vérifier que la société n'affiche pas de mauvaises performances d'un point de vue environnemental ou social global par rapport aux autres entreprises de son secteur, ce qui correspond à un score environnemental ou social supérieur ou égal à E selon la notation ESG d'Amundi.

- ***Comment les indicateurs concernant les incidences négatives sur les facteurs de durabilité ont-ils été pris en considération ?***

Les indicateurs d'incidences négatives ont été pris en compte comme détaillé dans le premier filtre DNSH ci-dessus.

Le premier filtre DNSH repose sur le contrôle des indicateurs obligatoires des Principales incidences négatives de l'Annexe 1, Tableau 1 du Règlement délégué (UE) 2022/1288 lorsqu'il existe des données fiables via la combinaison des indicateurs suivants et de seuils ou règles spécifiques :

- une intensité en CO2 qui n'appartient pas au dernier décile par rapport aux autres entreprises du secteur (ne s'applique qu'aux secteurs à forte intensité) ;
- un Conseil d'administration dont le niveau de diversité n'appartient pas au dernier décile par rapport aux autres sociétés du secteur ;
- ne pas faire l'objet de controverse relative aux conditions de travail et aux droits humains ; et
- ne pas faire l'objet de controverse relative à la biodiversité et à la pollution.

Dans sa politique d'exclusion qui fait partie intégrante de sa Politique d'investissement responsable, Amundi tient d'ores et déjà compte de Principales incidences négatives spécifiques. Ces exclusions, qui s'appliquent en sus des tests détaillés ci-dessus, couvrent les sujets suivants : exclusions sur les armes controversées, les violations des principes du Pacte mondial des Nations Unies, le charbon et le tabac.

- ***Les investissements durables étaient-ils conformes aux Principes directeurs de l'OCDE à l'intention des entreprises multinationales et aux Principes directeurs des Nations unies relatifs aux entreprises et aux droits humains ? Description détaillée :***

Oui, les Principes directeurs de l'OCDE à l'intention des entreprises multinationales et les Principes directeurs des Nations unies relatifs aux entreprises et aux droits humains sont intégrés à notre méthode de notation ESG. Notre outil de notation ESG exclusif évalue les

émetteurs à l'aide des données disponibles auprès de nos fournisseurs de données. Par exemple, le modèle dispose d'un critère dédié appelé « Implication dans la communauté et droits humains » qui s'applique à tous les secteurs en plus d'autres critères liés aux droits humains, y compris les chaînes d'approvisionnement socialement responsables, les conditions de travail et les relations de travail. En outre, nous effectuons un contrôle des controverses au moins une fois par trimestre, y compris sur les entreprises identifiées pour des violations des droits humains. En cas de controverse, les analystes évaluent la situation, lui donnent une note (à l'aide de notre méthode de notation exclusive) et déterminent la marche à suivre. Les notes de controverse sont mises à jour chaque trimestre pour suivre les tendances et les efforts de correction.

La Taxinomie de l'UE définit un principe consistant à « ne pas causer de préjudice important » (« Do not significant harm » ou DNSH) en vertu duquel les investissements alignés sur la Taxinomie ne doivent pas causer de préjudice important aux objectifs de la Taxinomie de l'UE et s'accompagnent de critères de l'UE spécifiques.

Le principe consistant à « ne pas causer de préjudice important » ne s'applique qu'aux investissements sous-jacents du produit financier qui tiennent compte des critères de l'UE pour les activités économiques durables sur le plan environnemental. Les investissements sous-jacents de la portion restante de ce produit financier ne tiennent pas compte des critères de l'UE en matière d'activités économiques durables sur le plan environnemental.
